Selling Security Holders

The following table provides information regarding the principal amount at maturity of notes owned beneficially by certain of our selling security holders, the percentage of outstanding notes held by such security holders, and the number of shares of our common stock each security holder would own beneficially upon conversion of its entire principal amount of notes.

The table below supplements or amends the table of security holders contained on pages 22 through 24 of the prospectus and the prospectus supplements. Accordingly, the information contained in the table supersedes the information in the prospectus and the prospectus supplements with respect to the security holders listed below. This information was furnished to us by the listed security holders on or before August 13, 2002. Because selling security holders may at any time trade all or some of the notes listed without providing notice of such transactions to us, the table below may not reflect the exact value of notes held by each selling security holder on the date hereof.
