Nicholas Financial, Inc.
Notes to the Condensed Consolidated Financial Statements
(Unaudited)

September 30, 2001

1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of Nicholas Financial Inc (the "Company") have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-QSB pursuant to the Securities and Exchange Act of 1934, as amended in Article 10 of Regulation SB, as amended. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended September 30, 2001 are not necessarily indicative of the results that may be expected for the year ending March 31, 2002. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended March 31, 2001.

2. Earnings Per Share

On August 8, 2001, the Company declared a two-for-one stock split in the form of a stock dividend payable on September 10, 2001 to shareholders of record as of the close of business on August 28, 2001. All applicable share and per share amounts in the accompanying unaudited financial statements have been retroactively adjusted to take into account the effect of this split.

Basic earnings per share excludes any dilutive effects of common stock equivalents such as options, warrants, and convertible securities. Diluted earnings per share includes the effects of dilutive options, warrants, and convertible securities. Basic and diluted earnings per share have been computed as follows:

3. Finance Receivables

Edgar Filing: NICHOLAS FINANCIAL INC - Form 10QSB

Finance receivables consist of automobile finance installment contracts and direct consumer loans and are detailed as follows:

Finance receivables, gross contract	\$109,777,221
Less:	
Unearned interest	(25,894,881)

	83,882,340
Nonrefundable dealer reserves	(10,755,104)
Allowance for credit losses	(3,941,970)

Finance receivables, net	\$69,185,266
	=====

The terms of the receivables range from 12 to 60 months and bear a weighted average effective interest rate of 24%.

4. Line of Credit

The Company has a \$75 million line of credit facility (the Line) which expires on November 30, 2002. Borrowings under the Line bear interest at the prime rate. The Company also has several LIBOR pricing options available. If the outstanding balance falls below \$10 million the Line bears interest at the prime rate plus 1.75%. Pledged as collateral for this credit facility are all of the assets of Nicholas Financial, Inc. and its subsidiaries.

5. Notes Payable - Related Party

Notes payable consisted of the following:

Note payable, unsecured, interest at 12%, principal and interest due through August 2002, at which time the entire principal balance is due.	268,008

6. Derivatives and Hedging

In June 1998, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"). This statement establishes requirements for accounting and reporting of derivative instruments and hedging activities. SFAS 133

Edgar Filing: NICHOLAS FINANCIAL INC - Form 10QSB

was updated by the issuance of SFAS No. 137, "Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of SFAS No. 133" and SFAS No. 138 "Accounting for Certain Derivative Instruments and Certain Hedging Activities - amendment of FASB Statement No. 133." As amended, SFAS 133 establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts (collectively referred to as derivatives), and for hedging activities.

The Company adopted the provisions of SFAS 133, as amended by SFAS 137 and SFAS 138, on April 1, 2001, which require that all derivative instruments be recorded on the balance sheet at fair value. The estimated fair value of derivative financial instruments represents the amount required to enter into similar offsetting contracts with similar remaining maturities based on quoted market prices.

The Company utilizes interest rate swaps to manage its interest rate exposure. The swaps effectively convert a portion of the Company's floating rate debt to a fixed rate, more closely matching the interest rate characteristics of the Company's finance receivables. When entering into contracts intended by the Company to receive hedge accounting treatment, the Company formally designates and documents the financial instrument as a hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transaction.

The Company has entered into the following cash-flow hedges:

On May 11, 1999 the Company entered into an interest rate swap with a notional amount of \$10 million at a fixed rate of 5.81%, maturing on May 24, 2002. On May 21, 1999 the Company entered into two interest rate swaps with notional amounts of \$5 million each, at fixed rates of 5.81% and 6.08%, maturing on May 24, 2001 and May 24, 2004, respectively.

On August 18, 1999 the Company terminated a \$5 million swap maturing on May 24, 2004 in exchange for \$52,000. In addition the Company entered into an interest rate swap with a notional amount of \$10 million at a fixed rate of 5.80%, maturing on August 1, 2003.

On May 17, 2000 the Company entered into an interest rate swap with a notional amount of \$10 million at a fixed rate of 6.87%, maturing on May 17, 2004.

On March 30, 2001 the Company entered into an interest rate swap with a notional amount of \$10 million at a fixed rate of 4.89%, maturing on March 30, 2003.

The Company has also entered into various interest rate option agreements with maturities through May 17, 2004.

comprehensive income, and reclassified into earnings in the same period or periods during which earnings are affected by the variability of the cash flows of the hedged item. Any ineffective portion of a derivative instrument's change in fair value is immediately recognized in earnings.

In connection with the adoption of SFAS 133, the Company recorded the fair value of its derivatives as a liability totaling approximately (\$975k) on April 1, 2001. The fair value of such derivative was approximately (\$1.86m) as of September 30, 2001. The fair value of the options, approximately (\$37k), was accounted for in the consolidated statement of income as an increase to current period earnings.

7. Subsequent Events

On October 5, 2001 the Company entered into an interest rate swap with a notional amount of \$10 million at a fixed rate of 3.85%, maturing on October 5, 2004.
