SECURITIES REGISTERED PURSUANT TO SECTION 12(B) OF THE ACT:

Registrant	Title of Each Class	Name of Each Exchange on Which Registered
SL Green Realty Corp.	Common Stock, \$0.01 par value 6.500% Series I Cumulative Redeemable	New York Stock Exchange
SL Green Realty Corp.	Preferred Stock, \$0.01 par value, \$25.00 mandatory liquidation preference	New York Stock Exchange

SECURITIES REGISTERED PURSUANT TO SECTION 12(G) OF THE ACT: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

SL Green Realty Corp. Yes No SL Green Operating Partnership, L.P. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

SL Green Realty Corp. Yes No SL Green Operating Partnership, L.P. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

SL Green Realty Corp. Yes No SL Green Operating Partnership, L.P. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).

Edgar Filing: SL GREEN REALTY CORP - Form 10-K

SL Green Realty Corp. Yes No SL Green Operating Partnership, L.P. Yes No
Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

SL Green Realty Corp. SL Green Operating Partnership, L.P.
Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

SL Green Realty Corp.
Large accelerated filer Accelerated filer
Non-accelerated filer
Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

SL Green Operating Partnership, L.P.
Large accelerated filer Accelerated filer
Non-accelerated filer
Smaller Reporting Company Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).
SL Green Realty Corp. Yes No SL Green Operating Partnership, L.P. Yes No
The aggregate market value of the common stock held by non-affiliates of SL Green Realty Corp. (79,576,758 shares) was \$8.0 billion based on the quoted closing price on the New York Stock Exchange for such shares on June 30, 2018. As of February 25, 2019, 84,325,436 shares of SL Green Realty Corp.'s common stock, par value \$0.01 per share, were outstanding. As of February 25, 2019, 1,022,921 common units of limited partnership interest of SL Green Operating Partnership, L.P. were held by non-affiliates. There is no established trading market for such units.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the SL Green Realty Corp.'s Proxy Statement for its 2019 Annual Stockholders' Meeting to be filed within 120 days after the end of the Registrant's fiscal year are incorporated by reference into Part III of this Annual Report on Form 10-K.

EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2018 of SL Green Realty Corp. and SL Green Operating Partnership, L.P. Unless stated otherwise or the context otherwise requires, references to "SL Green Realty Corp.," the "Company" or "SL Green" mean SL Green Realty Corp. and its consolidated subsidiaries; and references to "SL Green Operating Partnership, L.P.," the "Operating Partnership" or "SLGOP" mean SL Green Operating Partnership, L.P. and its consolidated subsidiaries. The terms "we," "our" and "us" mean the Company and all the entities owned or controlled by the Company, including the Operating Partnership. The Company is a Maryland corporation which operates as a self-administered and self-managed real estate investment trust, or REIT, and is the sole managing general partner of the Operating Partnership. As a general partner of the Operating Partnership, the Company has full, exclusive and complete responsibility and discretion in the day-to-day management and control of the Operating Partnership.

As of December 31, 2018, the Company owns 95.30% of the outstanding general and limited partnership interest in the Operating Partnership. The Company also owns 9,200,000 Series I Preferred Units of the Operating Partnership. As of December 31, 2018, noncontrolling investors held, in aggregate, a 4.70% limited partnership interest in the Operating Partnership. We refer to these interests as the noncontrolling interests in the Operating Partnership. The Company and the Operating Partnership are managed and operated as one entity. The financial results of the Operating Partnership are consolidated into the financial statements of the Company. The Company has no significant assets other than its investment in the Operating Partnership. Substantially all of our assets are held by, and our operations are conducted through, the Operating Partnership. Therefore, the assets and liabilities of the Company and the Operating Partnership are substantially the same.

Noncontrolling interests in the Operating Partnership, stockholders' equity of the Company and partners' capital of the Operating Partnership are the main areas of difference between the consolidated financial statements of the Company and those of the Operating Partnership. The common limited partnership interests in the Operating Partnership not owned by the Company are accounted as noncontrolling interests, within mezzanine equity, in the Company's and the Operating Partnership's consolidated financial statements.

We believe combining the annual reports on Form 10-K of the Company and the Operating Partnership into this single report results in the following benefits:

- Combined reports enhance investors' understanding of the Company and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business;
- Combined reports eliminate duplicative disclosure and provides a more streamlined and readable presentation since a substantial portion of the Company's disclosure applies to both the Company and the Operating Partnership; and
- Combined reports create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

To help investors understand the significant differences between the Company and the Operating Partnership, this report presents the following separate sections for each of the Company and the Operating Partnership:

- consolidated financial statements;
- the following notes to the consolidated financial statements:
 - Note 11, Noncontrolling Interests on the Company's Consolidated Financial Statements;
 - Note 12, Stockholders' Equity of the Company;
 - Note 13, Partners' Capital of the Operating Partnership;
 - Note 22, Quarterly Financial Data of the Company (unaudited); and
 - Note 23, Quarterly Financial Data of the Operating Partnership (unaudited).

This report also includes separate Part II, Item 5. Market for Registrants' Common Equity and Related Stockholder Matters and Issuer Purchases of Equity Securities, Item 6. Selected Financial Data and Item 9A. Controls and Procedures sections and separate Exhibit 31 and 32 certifications for each of the Company and the Operating Partnership, respectively, in order to establish that the Chief Executive Officer and the Chief Financial Officer of the Company, in both their capacity as the principal executive officer and principal financial officer of the Company and the principal executive officer and principal financial officer of the general partner of the Operating Partnership, have made the requisite certifications and that the Company and the Operating Partnership are compliant with Rule 13a-15

PART I

ITEM 1. BUSINESS

General

SL Green Realty Corp. is a self-managed real estate investment trust, or REIT, engaged in the acquisition, development, ownership, management and operation of commercial and residential real estate properties, principally office properties, located in the New York metropolitan area. We were formed in June, 1997 for the purpose of continuing the commercial real estate business of S.L. Green Properties, Inc., our predecessor entity. S.L. Green Properties, Inc., which was founded in 1980 by Stephen L. Green, who serves as a member and the chairman emeritus of the Company's board of directors, had been engaged in the business of owning, managing, leasing, and repositioning office properties in Manhattan, a borough of New York City. Reckson Associates Realty Corp., or Reckson, and Reckson Operating Partnership, L.P., or ROP, are wholly-owned subsidiaries of SL Green Realty Corp. As of December 31, 2018, we owned the following interests in properties in the New York metropolitan area, primarily in midtown Manhattan. Our investments located outside of Manhattan are referred to as the Suburban properties:

Location	Property Type	Consolidated Number of Properties	Approximate Square Feet	Unconsolidated Number of Properties	Approximate Square Feet	Total Number of Properties	Approximate Square Feet	Weighted Average Occupancy(1)	
Commercial:									
Manhattan	Office	20	12,387,091	10	11,329,183	30	23,716,274	94.5	%
	Retail	7	(2)325,648	9	352,174	16	677,822	96.7	%
	Development/Redevelopment	5	486,101	2	347,000	7	833,101	54.1	%
	Fee Interest	—	—	1	—	1	—	—	%
		32	13,198,840	22	12,028,357	54	25,227,197	93.2	%
Suburban	Office	13	2,295,200	—	—	13	2,295,200	91.3	%
	Retail	1	52,000	—	—	1	52,000	100.0	%
	Development/Redevelopment	1	1,000	—	—	1	1,000	—	%
		15	2,348,200	—	—	15	2,348,200	91.4	%
Total commercial properties		47	15,547,040	22	12,028,357	69	27,575,397	93.1	%
Residential:									
Manhattan	Residential	2	(2)445,105	10	2,156,751	12	2,601,856	91.5	%
Suburban	Residential	—	—	—	—	—	—	—	%
Total residential properties		2	445,105	10	2,156,751	12	2,601,856	91.5	%
Total portfolio		49	15,992,145	32	14,185,108	81	30,177,253	92.9	%

The weighted average occupancy for commercial properties represents the total occupied square feet divided by (1) total square footage at acquisition. The weighted average occupancy for residential properties represents the total occupied units divided by total available units.

As of December 31, 2018, we owned a building at 315 West 33rd Street, also known as The Olivia, that was comprised of approximately 270,132 square feet of retail space and approximately 222,855 square feet of (2) residential space. For the purpose of this report, we have included the building in the number of retail properties we own. However, we have included only the retail square footage in the retail approximate square footage, and have listed the balance of the square footage as residential square footage.

As of December 31, 2018, we also managed two office buildings owned by third parties encompassing approximately 2.1 million square feet, and held debt and preferred equity investments with a book value of \$2.1 billion, including \$0.1 billion of debt and preferred equity investments and other financing receivables that are included in balance sheet line items other than the Debt and Preferred Equity Investments line item.

Edgar Filing: SL GREEN REALTY CORP - Form 10-K

Our corporate offices are located in midtown Manhattan at 420 Lexington Avenue, New York, New York 10170. As of December 31, 2018, we employed 1,058 employees, 310 of whom were employed in our corporate offices. We can be contacted at (212) 594-2700. We maintain a website at www.slgreen.com. On our website, you can obtain, free of charge, a copy of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act as soon as reasonably practicable after we file such material electronically with, or furnish it to, the Securities and Exchange Commission, or the SEC. We have also made available on our website our audit committee charter, compensation committee charter, nominating and corporate governance committee charter,

Table of Contents

code of business conduct and ethics and corporate governance principles. We do not intend for information contained on our website to be part of this annual report on Form 10-K. The SEC maintains a website (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

Unless the context requires otherwise, all references to the "Company," "SL Green," "we," "our" and "us" in this annual report means SL Green Realty Corp., a Maryland corporation, and one or more of its subsidiaries, including the Operating Partnership, or, as the context may require, SL Green only or the Operating Partnership only, and "S.L. Green Properties" means S.L. Green Properties, Inc., a New York corporation, as well as the affiliated partnerships and other entities through which Stephen L. Green historically conducted commercial real estate activities.

Corporate Structure

In connection with the Company's initial public offering, or IPO, in August 1997, the Operating Partnership received a contribution of interests in real estate properties as well as a 95% economic, non-voting interest in the management, leasing and construction companies affiliated with S.L. Green Properties. We refer to these management, leasing and construction entities, which are owned by S.L. Green Management Corp, as the "Service Corporation." The Company is organized so as to qualify, and has elected to qualify as a REIT, under the Internal Revenue Code of 1986, as amended, or the Code.

Substantially all of our assets are held by, and all of our operations are conducted through, the Operating Partnership. We are the sole managing general partner of the Operating Partnership, and as of December 31, 2018, we owned 95.30% of its economic interests. All of the management and leasing operations with respect to our wholly-owned properties are conducted through SL Green Management LLC, or Management LLC. The Operating Partnership owns a 100% interest in Management LLC.

In order to maintain the Company's qualification as a REIT while realizing income from management, leasing and construction contracts with third parties and joint venture properties, all of these service operations are conducted through the Service Corporation, a consolidated variable interest entity. We, through our Operating Partnership, receive substantially all of the cash flow from the Service Corporation's operations. All of the voting common stock of the Service Corporation is held by an entity owned and controlled by Stephen L. Green, who serves as a member and as the chairman emeritus of the Company's board of directors.

Business and Growth Strategies

SL Green is New York City's largest owner of office real estate and an investment-grade S&P 500 company that is focused primarily on owning, managing and maximizing the value of Manhattan commercial properties.

Our core business is the ownership of high quality commercial properties and our primary business objective is to maximize the total return to stockholders, through growth in net income attributable to common stockholders and funds from operations, or FFO, and through asset value appreciation. The commercial real estate expertise resulting from owning, operating, investing, developing, redeveloping and lending on real estate in Manhattan for over 38 years has enabled us to invest in a collection of premier office and retail properties, selected multifamily residential assets, and high quality debt and preferred equity investments. We also own high quality commercial properties in the New York metropolitan area.

We are led by a strong, experienced management team that provides a foundation of skills in all aspects of real estate, including acquisitions, dispositions, management, leasing, development, redevelopment, and financing. It is with this team that we have achieved a market leading position in our targeted submarkets.

We seek to enhance the value of our company by executing strategies that include the following:

- Leasing and property management, which capitalizes on our extensive presence and knowledge of the marketplaces in which we operate;
- Acquiring office, retail and residential properties and employing our local market skills to reposition these assets to create incremental cash flow and capital appreciation;
- Identifying properties well suited for development/redevelopment and maximizing the value of those properties through redevelopment or reconfiguration to match current workplace, retail and housing trends;
-

Investing in debt and preferred equity positions that generate consistently strong risk-adjusted returns, increase the breadth of our market insight, foster key market relationships and source potential future investment opportunities;
• Executing dispositions through sales or joint ventures that harvest embedded equity which has been generated through management's value enhancing activities; and
• Maintaining a prudently levered, liquid balance sheet with consistent access to diversified sources of property level and corporate capital.

5

Table of Contents

Leasing and Property Management

We seek to capitalize on our management's extensive knowledge of Manhattan and the New York metropolitan area and the needs of our tenants through proactive leasing and management programs, which include: (i) use of in-depth market experience resulting from managing and leasing tens of millions of square feet of office, retail and residential space since the Company was founded; (ii) careful tenant management, which results in long average lease terms and a manageable lease expiration schedule; (iii) utilization of an extensive network of third-party brokers to supplement our in-house leasing team; (iv) use of comprehensive building management analysis and planning; and (v) a commitment to tenant satisfaction by providing high quality tenant services at competitive rental rates.

Property Acquisitions

We acquire core properties for long-term value appreciation and earnings growth. We also acquire non-core properties that are typically held for shorter periods during which we intend to create significant increases in value. This strategy has resulted in capital gains that increase our investment capital base. In implementing this strategy, we continually evaluate potential acquisition opportunities. These opportunities may come from new properties as well as acquisitions in which we already hold a joint venture interest or, from time to time, from our debt and preferred equity investments.

Through intimate knowledge of our markets we have developed an ability to source transactions with superior risk-adjusted returns by capturing off-market opportunities. In rising markets, we primarily seek to acquire strategic vacancies that provide the opportunity to take advantage of our exceptional leasing and repositioning capabilities to increase cash flow and property value. In stable or falling markets, we primarily target assets featuring credit tenancies with fully escalated in-place rents to provide cash flow stability near-term and the opportunity for increases over time. Management's breadth of activities and expertise in New York City has also enabled us to identify and acquire retail properties in prime locations. Combining our real estate skills and ability to attract premier tenants has resulted in transactions that have provided significant capital appreciation. This same market penetration has permitted us to grow a portfolio of high quality, well-located multifamily properties

We believe that we have many advantages over our competitors in acquiring core and non-core properties, both directly and through our joint venture program that includes a predominance of high quality institutional investors. Those advantages include: (i) senior management's average 31 years of experience leading a full-service, fully-integrated real estate company focused, primarily, on the Manhattan market; (ii) the ability to offer tax-efficient structures to sellers through the exchange of ownership interests, including units in our Operating Partnership; and (iii) the ability to underwrite and close transactions on an expedited basis even when the transaction requires a complicated structure.

Property Dispositions

We continually evaluate our portfolio to identify those properties that are most likely to meet our long-term earnings and cash flow growth objectives and contribute to increasing portfolio value. Properties that no longer meet our objectives are evaluated for sale, or in certain cases, joint venture to release equity created through management's value enhancement programs or to take advantage of attractive market valuations.

We seek to efficiently deploy the capital proceeds generated from these dispositions into property acquisitions and debt and preferred equity investments that we expect will provide enhanced future capital gains and earnings growth opportunities. Management may also elect to utilize the capital proceeds from these dispositions to repurchase shares of our common stock, repay existing indebtedness of the Company or its subsidiaries, or increase cash liquidity.

Property Repositioning

Our extensive knowledge of the markets in which we operate and our ability to efficiently plan and execute capital projects provide the expertise to enhance returns by repositioning properties that are underperforming. Many of the properties we own or seek to acquire feature unique architectural design elements or other amenities and characteristics that can be appealing to tenants when fully exploited. Our strategic investment in these properties, combined with our active management and pro-active leasing, provide the opportunity to creatively meet market needs and generate favorable returns.

Development / Redevelopment

Our constant interactions with tenants and other market participants keep us abreast of innovations in workplace layout, store design and smart living. We leverage this information to identify properties primed for development or redevelopment to meet these demands and unlock value. The expertise and relationships that we have built from managing complex construction projects in New York City and its surrounding areas allow us to cost efficiently add new and renovated assets of the highest quality and desirability to our operating portfolio.

6

Table of Contents

Debt and Preferred Equity Investments

We invest in well-collateralized debt and preferred equity investments in the markets in which we operate, primarily New York City, that generate attractive yields. See Note 5, "Debt and Preferred Equity Investments," in the accompanying consolidated financial statements. Knowledge of our markets and our leasing and asset management expertise provide underwriting capabilities that enable a highly educated assessment of risk and return. The benefits of this investment program, which has a carefully managed aggregate size, include the following:

Our typical investments provide high current returns at conservative exposure levels and, in certain cases, the potential for future capital gains. Our expertise and operating capabilities provide both insight and operating skills that mitigate risk.

In certain instances, these investments serve as a potential source of real estate acquisitions for us when a borrower seeks an efficient off-market transaction. Ownership knows that we are fully familiar with the asset through our existing investment, and that we can close more efficiently and quickly than others. Property owners may also provide us the opportunity to consider off-market transactions involving other properties because we have previously provided debt or preferred equity financing to them.

These investments are concentrated in Manhattan, which helps us gain market insight, awareness of upcoming investment opportunities and foster key relationships that may provide access to future investment opportunities.

Capital Resources

Our objective is to maintain multiple sources of corporate and property level capital to obtain the most appropriate and lowest cost of capital. This objective is supported by:

Property operations that generally provide stable and growing cash flows through market cycles due to favorable supply/demand metrics in Manhattan, long average lease terms, high credit quality tenants and superior leasing, operating and asset management skills;

Concentration of our activities in a Manhattan market that is consistently attractive to property investors and lenders through market cycles relative to other markets;

Maintaining strong corporate liquidity and careful management of future debt maturities; and

Maintaining access to corporate capital markets through balanced financing and investment activities that result in strong balance sheet and cash flow metrics.

Manhattan Office Market Overview

Manhattan is by far the largest office market in the United States containing more rentable square feet than the next four largest central business district office markets combined. The properties in our portfolio are primarily concentrated in some of Manhattan's most prominent midtown locations.

According to Cushman and Wakefield Research Services as of December 31, 2018, Manhattan has a total office inventory of approximately 401.0 million square feet, including approximately 242.5 million square feet in midtown. We estimate that approximately 16.3 million square feet of new construction class-A buildings over 250,000 square feet will become available between 2019 and 2023 in Manhattan, approximately 43.4% of which is pre-leased. We estimate that this increase is partially offset by approximately 4.4 million square feet which will be converted from office use to an alternative use. This will add only approximately 0.6% per year to Manhattan's total inventory, net of conversions, over the next five years.

While the addition of new supply to the Manhattan office inventory is nominal relative to the size of the overall market, we view any additional supply as a positive to the Manhattan office market given the older vintage of the majority of Manhattan's office inventory and the desire of certain tenants to occupy new, high quality, efficient office space, which often isn't available in older vintage properties. In addition, Manhattan's office inventory has only grown by approximately 3.4 million square feet over the last 25 years.

General Terms of Leases in the Manhattan Markets

Leases entered into for space in Manhattan typically contain terms that may not be contained in leases in other U.S. office markets. The initial term of leases entered into for space in Manhattan is generally seven to fifteen years.

Tenants leasing space in excess of 10,000 square feet for an initial term of 10 years or longer often will negotiate an option to extend the term of the lease for one or two renewal periods, typically for a term of five years each. The base

rent during the initial term often will provide for agreed-upon periodic increases over the term of the lease. Base rent for renewal terms is most often based upon the then fair market rental value of the premises as of the commencement date of the applicable renewal term (generally determined by binding arbitration in the event the landlord and the tenant are unable to mutually agree upon the fair market value), though base rent for a renewal period may be set at 95% of the then fair market rent. Very infrequently, leases may contain termination options whereby

7

Table of Contents

a tenant can terminate the lease obligation before the lease expiration date upon payment of a penalty together with repayment of the unamortized portion of the landlord's transaction costs (e.g., brokerage commissions, free rent periods, tenant improvement allowances, etc.).

In addition to base rent, a tenant will generally also pay its pro rata share of increases in real estate taxes and operating expenses for the building over a base year, which is typically the year during which the term of the lease commences, based upon the tenant's proportionate occupancy of the building. In some smaller leases (generally less than 10,000 square feet), in lieu of paying additional rent based upon increases in building operating expenses, base rent will be increased each year during the lease term by a set percentage on a compounding basis (though the tenant will still pay its pro rata share of increases in real estate taxes over a base year).

Tenants typically receive a free rent period following commencement of the lease term, which in some cases may coincide with the tenant's construction period.

The landlord most often supplies electricity either on a sub-metered basis at the landlord's cost plus a fixed percentage or a rent inclusion basis (i.e., a fixed fee is added to the base rent for electricity, which amount may increase based upon increases in electricity rates or increases in electrical usage by the tenant). Base building services, other than electricity, such as heat, air conditioning, freight elevator service during business hours and base building cleaning typically are provided at no additional cost, but are included in the building's operating expenses. The tenant will typically pay additional rent only for services which exceed base building services or for services which are provided other than during normal business hours.

In a typical lease for a new tenant renting in excess of 10,000 square feet, the landlord will deliver the premises with existing improvements demolished. In such instances, the landlord will typically provide a tenant improvement allowance, which is a fixed sum that the landlord makes available to the tenant to reimburse the tenant for all or a portion of the tenant's initial construction of its premises. Such sum typically is payable as work progresses, upon submission by the tenant of invoices for the cost of construction and lien waivers. However, in certain leases (most often for relatively small amounts of space), the landlord will construct the premises for the tenant at a cost to the landlord not to exceed an agreed upon amount with the tenant paying any amount in excess of the agreed upon amount. In addition, landlords may rent space to a tenant that is "pre-built" (i.e., space that was constructed by the landlord in advance of lease signing and is ready to for the tenant to move in with the tenant selecting paint and carpet colors).

Occupancy

The following table sets forth the weighted average occupancy rates at our office properties based on space leased for properties owned by us as of December 31, 2018:

Property	Percent Occupied as of December 31,	
	2018	2017
Same-Store properties ⁽¹⁾ - Manhattan	93.7%	93.8%
Same-Store properties ⁽¹⁾ - Suburban	91.3%	92.3%
Manhattan properties	94.5%	93.8%
Suburban properties	91.3%	92.3%
Unconsolidated Joint Venture Properties	95.4%	96.8%
Portfolio	94.2%	93.7%

⁽¹⁾ Same-Store properties represents all operating properties owned by us at January 1, 2017 and still owned by us in the same manner at December 31, 2018, which totaled 40 of our 49 consolidated operating properties.

Rent Growth

We are constantly evaluating our schedule of future lease expirations to mitigate occupancy risk while maximizing rent growth. We proactively manage future lease expirations based on our view of estimated current and future market asking rents. The following table sets forth our future lease expirations, excluding triple net leases, and management's

estimates of market asking rents. Taking rents are typically lower than asking rents and may vary from building to building. There can be no assurances that our estimates of market rents are accurate or that market rents currently prevailing will not erode or outperform in the future.

(1) Includes month to month holdover tenants that expired prior to December 31, 2018.

(2) Tenants may have multiple leases.

(3) Represents in place annualized rent allocated by year of expiration.

(4) Management's estimate of current average asking rents for currently occupied space as of December 31, 2018.

Taking rents are typically lower than asking rents and may vary from property to property.

Industry Segments

The Company is a REIT that is engaged in the acquisition, development, ownership, management and operation of commercial and residential real estate properties, principally office properties, located in the New York metropolitan area and has two reportable segments: real estate and debt and preferred equity investments. Our industry segments are discussed in Note 21, "Segment Information," in the accompanying consolidated financial statements.

At December 31, 2018, our real estate portfolio was primarily located in one geographical market, the New York metropolitan area. The primary sources of revenue are generated from tenant rents and escalations and reimbursement revenue. Real estate property operating expenses consist primarily of cleaning, security, maintenance, utility costs, real estate taxes and, at certain properties, ground rent expense. As of December 31, 2018, one tenant in our office portfolio contributed 8.2% of our share of

Table of Contents

annualized cash rent. No other tenant contributed more than 5.0% of our share of annualized cash rent. No property contributed in excess of 10.0% of our consolidated total revenue for 2018.

At December 31, 2018, we held debt and preferred equity investments with a book value of \$2.1 billion, including \$0.1 billion of debt and preferred equity investments and other financing receivables that are included in balance sheet line items other than the Debt and Preferred Equity Investments line item. At December 31, 2018, the assets underlying our debt and preferred equity investments were located in the New York metropolitan area. The primary sources of revenue are generated from interest and fee income.

Employees

At December 31, 2018, we employed 1,058 employees, 310 of whom were employed in our corporate offices. There are currently six collective bargaining agreements which cover the workforce that services substantially all of our properties.

Highlights from 2018

Our significant achievements from 2018 included:

Corporate

Repurchased 9.7 million shares of our common stock under our share repurchase program at an average price of \$96.22 per share and increased the size of our share repurchase program by \$1 billion to \$2.5 billion. Through December 31, 2018 we have repurchased a cumulative total of 18.1 million shares of our common stock under the program at an average price of \$98.72 per share.

Leasing

Signed 180 Manhattan office leases covering approximately 2.3 million square feet. The mark-to-market on signed Manhattan office leases was 6.5% higher in 2018 than the previously fully escalated rents on the same spaces.

Signed 49 Suburban office leases covering approximately 0.4 million square feet. The mark-to-market on signed Suburban office leases was 3.7% lower in 2019 than the previously fully escalated rents on the same spaces.

Reached 52% leased at One Vanderbilt Avenue after signing leases with Greenberg Traurig, The Carlyle Group, TD Securities, MFA Financial Inc. and McDermott Will & Emery

Signed a new lease with Coty Inc. for 10,040 square feet at the retail flagship development 719 Seventh Avenue, now known as 30 Times Square.

Signed a new retail lease with sports brand PUMA for 24,000 square feet and a new lease with WeWork for 138,563 square feet, comprising the entire office portion of the building, at 609 Fifth Avenue.

Acquisitions

Took ownership of the leasehold interest at 2 Herald Square following the foreclosure of the asset and subsequently completed a recapitalization of the asset, which included securing \$150.0 million of mortgage financing and selling a 49.0% interest in the property.

- Announced that we had entered into an agreement to purchase a majority and controlling interest in 460 West 34th Street at a gross purchase price of \$440 million.

Took possession of the retail co-op at 133 Greene Street in SoHo. The 6,425 square foot retail space, inclusive of 3,300 square feet on grade, is located along one of SoHo's most popular shopping corridors and is currently occupied by Dior Homme. This property previously served as collateral for a debt and preferred equity investment and was acquired through a negotiated transaction with the sponsor of the investment.

- Took possession of 712 Madison Avenue on Manhattan's Upper East Side. The five-story building offers 6,362 square feet of retail space, which is currently occupied by David Yurman. This property previously served as collateral for a debt and preferred equity investment and was acquired through a negotiated transaction with the sponsor of the investment.

Dispositions

Closed on the sale of 600 Lexington Avenue for a gross asset valuation of \$305.0 million.

Closed on the sale of an additional 13% interest in 1515 Broadway, thereby completing the previously announced sale of interests totaling 43% at a gross asset valuation of \$1.950 billion.

-

Together with our joint venture partner, closed on the sale of the multi-family property at 1274 Fifth Avenue at a gross asset valuation of \$44.1 million

10

Table of Contents

Together with our joint venture partners, closed on the sale of Stonehenge Village, at a gross asset valuation of \$287.0 million.

Closed on a multi-faceted retail transaction, which included the sale of substantially all of the Company's interest in 724 Fifth Avenue to its joint venture partner, redemption of its investment in 720 Fifth Avenue, and partial repayment of another partnership loan.

Together with our joint venture partner, closed on the sale of the leasehold office condominium at 1745 Broadway for a sale price of \$633 million

Closed on the sale of the fee interest at 635 Madison Avenue for a sale price of \$153.0 million.

Closed on the sale of Reckson Executive Park in Rye Brook, New York, 115-117 Stevens Avenue, in Valhalla, New York and our 11.7% interest in Jericho Plaza for asset valuations totaling \$184.4 million.

Closed on the sale of our 48.9% interest in 3 Columbus Circle to the Moinian Group, the owner of the remaining 51.1% interest, for a gross asset valuation of \$851.0 million

Closed on the sale of our interests in 1231 Third Avenue and an Upper East Side residential assemblage for a combined sales price of \$143.8 million.

Entered into an agreement to sell our 20.0% interest in 131-137 Spring Street to Invesco Real Estate, the owner of the remaining 80.0% interest.

Debt and Preferred Equity Investments

Originated and retained, or acquired, \$1.0 billion in debt and preferred equity investments, inclusive of advances under future funding obligations, discount and fee amortization, and paid-in-kind interest, net of premium amortization, and recorded \$1.0 billion of proceeds from sales, repayments and participations.

Finance

Issued \$350.0 million aggregate principal amount of floating rate notes due 2021. The notes are callable by the Company, at par, after one year and bear interest at a floating rate of 0.98% over LIBOR.

Closed on a \$65.6 million financing of 115 Spring Street. The new mortgage has a 5-year term and bears interest at a floating rate of 3.40% over LIBOR.

Refinanced One Vanderbilt Avenue's construction facility, increasing the facility size from \$1.5 billion to \$1.75 billion and decreasing the interest rate by 75 basis points to 2.75% over LIBOR.

Closed on a \$225.0 million construction facility for 185 Broadway. The floating rate facility has a term of three years, with two one-year extension options and bears interest at an initial floating rate of 2.85% over LIBOR.

Table of Contents

ITEM 1A. RISK FACTORS

Declines in the demand for office space in the New York metropolitan area, and in particular midtown Manhattan, could adversely affect the value of our real estate portfolio and our results of operations and, consequently, our ability to service current debt and to pay dividends and distributions to security holders.

The majority of our property holdings are comprised of commercial office properties located in midtown Manhattan. Our property holdings also include a number of retail properties and multifamily residential properties. As a result of the concentration of our holdings, our business is dependent on the condition of the New York metropolitan area economy in general and the market for office space in midtown Manhattan in particular. Future weakness and uncertainty in the New York metropolitan area economy could materially reduce the value of our real estate portfolio and our rental revenues, and thus adversely affect our cash flow and our ability to service current debt and to pay dividends and distributions to security holders.

We may be unable to renew leases or relet space as leases expire.

If tenants decide not to renew their leases upon expiration, we may not be able to relet the space. Even if tenants do renew or we can relet the space, the terms of a renewal or new lease, taking into account among other things, the cost of improvements to the property and leasing commissions, may be less favorable than the terms in the expired leases. As of December 31, 2018, approximately 52.1% and approximately 21.3% of the rentable square feet, are scheduled to expire by December 31, 2023 at our consolidated properties and unconsolidated joint venture properties, respectively, and as of December 31, 2018, these leases had annualized escalated rent totaling \$457.8 million and \$195.3 million, respectively. In addition, changes in space utilization by tenants may impact our ability to renew or relet space without the need to incur substantial costs in renovating or redesigning the internal configuration of the relevant property. If we are unable to promptly renew the leases or relet the space at similar rates or if we incur substantial costs in renewing or reletting the space, our cash flow and ability to service debt obligations and pay dividends and distributions to security holders could be adversely affected.

We face significant competition for tenants.

The leasing of real estate is highly competitive. The principal competitive factors are rent, location, services provided and the nature and condition of the property to be leased. We directly compete with all owners, developers and operators of similar space in the areas in which our properties are located.

Our commercial office properties are concentrated in highly developed areas of the New York metropolitan area. Manhattan is the largest office market in the United States. The number of competitive office properties in the New York metropolitan area, which may be newer or better located than our properties, could have a material adverse effect on our ability to lease office space at our properties, and on the effective rents we are able to charge.

The expiration of long term leases or operating sublease interests where we do not own a fee interest in the land could adversely affect our results of operations.

Our interests in 420 Lexington Avenue, 461 Fifth Avenue, 711 Third Avenue, 625 Madison Avenue, 1185 Avenue of the Americas, 1080 Amsterdam Avenue, 650 Fifth Avenue, 2 Herald Square, and 30 East 40th Street, all in Manhattan, and 1055 Washington Avenue, Stamford, Connecticut, are entirely or partially comprised of either long-term leasehold or operating sublease interests in the land and the improvements, rather than by ownership of fee interest in the land.

We have the ability to acquire the fee positions at 461 Fifth Avenue and 2 Herald Square for fixed prices on specific dates and own 50% of the fee position at 711 Third Avenue. The average remaining term of these long-term leases as of December 31, 2018, including our unilateral extension rights on each of the properties, is 42 years. Pursuant to the leasehold arrangements, we, as tenant under the operating sublease, perform the functions traditionally performed by landlords with respect to our subtenants. We are responsible for not only collecting rent from our subtenants, but also maintaining the property and paying expenses relating to the property. Annualized cash rents, including our share of joint venture annualized cash rents, from properties held through long-term leases or operating sublease interests at December 31, 2018 totaled \$321.3 million, or 23.7%, of our share of total Portfolio annualized cash rent. Unless we purchase a fee interest in the underlying land or extend the terms of these leases prior to expiration, we will lose our right to operate these properties upon expiration of the leases, which could adversely affect our financial condition and

results of operations. Rent payments under leasehold or operating sublease interests are adjusted, within the parameters of the contractual arrangements, at certain intervals. Rent adjustments may result in higher rents that could adversely affect our financial condition and results of operation.

We rely on five large properties for a significant portion of our revenue.

Five of our properties, 11 Madison Avenue, 1185 Avenue of the Americas, 420 Lexington Avenue, 1515 Broadway, and 1 Madison Avenue accounted for 32.4% of our Portfolio annualized cash rent, which includes our share of joint venture annualized cash rent, as of December 31, 2018.

Table of Contents

Our revenue and cash available to service debt obligations and for distribution to our stockholders would be materially adversely affected if any of these properties were materially damaged or destroyed. Additionally, our revenue and cash available to service debt obligations and for distribution to our stockholders would be materially adversely affected if tenants at these properties fail to timely make rental payments due to adverse financial conditions or otherwise, default under their leases or file for bankruptcy or become insolvent.

Our results of operations rely on major tenants and insolvency or bankruptcy of these or other tenants could adversely affect our results of operations.

Giving effect to leases in effect as of December 31, 2018 for consolidated properties and unconsolidated joint venture properties, as of that date, our five largest tenants, based on annualized cash rent, accounted for 17.5% of our share of Portfolio annualized cash rent, with one tenant, Credit Suisse Securities (USA) LLC, accounting for 8.2% of our share of Portfolio annualized cash rent, respectively. Our business and results of operations would be adversely affected if any of our major tenants became insolvent, declared bankruptcy, or otherwise refused to pay rent in a timely fashion or at all. In addition, if business conditions in the industries in which our tenants are concentrated deteriorate, or economic volatility has a disproportionate impact on our clients, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents across tenants in such industries, which could in turn have an adverse effect on our business and results of operations.

Construction is in progress at our development projects

The Company continues its significant ground-up development project, One Vanderbilt, as well as other smaller development projects. Construction of One Vanderbilt is expected to be completed in 2020. At this or other development projects, unforeseen matters could delay completion, result in increased costs or otherwise have a material effect on our results of operations. In addition, the extended time frame to complete these projects could cause them to be subject to shifts and trends in the real estate market which may not be consistent with our current business plans for the properties.

We are subject to risks that affect the retail environment.

Approximately 6.1% of our Portfolio annualized cash rent is generated by retail properties, principally in Manhattan.

As a result, we are subject to risks that affect the retail environment generally, including the level of consumer spending and preferences, consumer confidence, electronic retail competition and levels of tourism in Manhattan.

These factors could adversely affect the financial condition of our retail tenants and the willingness of retailers to lease space in our retail properties, which could in turn have an adverse effect on our business and results of operations.

Adverse economic and geopolitical conditions in general and the commercial office markets in particular could have a material adverse effect on our results of operations and financial condition and, consequently, our ability to service debt obligations and to pay dividends and distributions to security holders.

Our business may be affected by volatility in the financial and credit markets and other market, economic, or political challenges experienced by the U.S. economy or the real estate industry as a whole, including changes in law and policy and uncertainty in connection with any such changes. Future periods of economic weakness or volatility could result in reduced access to credit and/or wider credit spreads. Economic or political uncertainty, including concern about growth and the stability of the markets generally and changes in the federal interest rates, may lead many lenders and institutional investors to reduce, and in some cases, cease to provide funding to borrowers, which could adversely affect our liquidity and financial condition, and the liquidity and financial condition of our tenants.

Specifically, our business may be affected by the following conditions:

• significant job losses or declining rates of job creation which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;

• our ability to borrow on terms and conditions that we find acceptable may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reducing our returns from both our existing operations and our acquisition and development activities and increasing our future interest expense; and

• reduced values of our properties, which may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans.

Leasing office space to smaller and growth-oriented businesses could adversely affect our cash flow and results of operations.

Some of the tenants in our properties are smaller, growth-oriented businesses that may not have the financial strength of larger corporate tenants. Smaller companies generally experience a higher rate of failure than larger businesses. Growth-oriented firms may also seek other office space as they develop. Leasing office space to these companies could create a higher risk of tenant defaults, turnover and bankruptcies, which could adversely affect our cash flow and results of operations.

Table of Contents

We may suffer adverse consequences if our revenues decline since our operating costs do not necessarily decline in proportion to our revenue.

We earn a significant portion of our income from renting our properties. Our operating costs, however, do not necessarily fluctuate in direct proportion to changes in our rental revenue. As a result, our costs will not necessarily decline even if our revenues do. In such event, we may be forced to borrow to cover our costs, we may incur losses or we may not have cash available to service our debt and to pay dividends and distributions to security holders. Competition for acquisitions may reduce the number of acquisition opportunities available to us and increase the costs of those acquisitions.

We may acquire properties when we are presented with attractive opportunities. We may face competition for acquisition opportunities from other investors, particularly those investors who are willing to incur more leverage, and this competition may adversely affect us by subjecting us to the following risks:

- an inability to acquire a desired property because of competition from other well-capitalized real estate investors, including publicly traded and privately held REITs, private real estate funds, domestic and foreign financial institutions, life insurance companies, sovereign wealth funds, pension trusts, partnerships and individual investors; and

- an increase in the purchase price for such acquisition property.

If we are unable to successfully acquire additional properties, our ability to grow our business could be adversely affected. In addition, increases in the cost of acquisition opportunities could adversely affect our results of operations. We face risks associated with property acquisitions.

Our acquisition activities may not be successful if we are unable to meet required closing conditions or unable to finance acquisitions and developments of properties on favorable terms or at all. Additionally, we have less visibility into the future performance of acquired properties than properties that we have owned for a period of time, and therefore, recently acquired properties may not be as profitable as our existing portfolio.

Further, we may acquire properties subject to both known and unknown liabilities and without any recourse, or with only limited recourse to the seller. As a result, if a liability were asserted against us arising from our ownership of those properties, we might have to pay substantial sums to settle it, which could adversely affect our cash flow.

Unknown liabilities with respect to properties acquired might include:

- claims by tenants, vendors or other persons arising from dealing with the former owners of the properties;

- liabilities incurred in the ordinary course of business;

- claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the properties; and

- liabilities for clean-up of undisclosed environmental contamination.

Limitations on our ability to sell or reduce the indebtedness on specific properties could adversely affect the value of our common stock.

In connection with past and future acquisitions of interests in properties, we have or may agree to restrictions on our ability to sell or refinance the acquired properties for certain periods. These limitations could result in us holding properties which we would otherwise sell, or prevent us from paying down or refinancing existing indebtedness, any of which may have adverse consequences on our business and result in a material adverse effect on our financial condition and results of operations.

Table of Contents

Potential losses may not be covered by insurance.

We maintain “all-risk” property and rental value coverage (including coverage regarding the perils of flood, earthquake and terrorism, excluding nuclear, biological, chemical, and radiological terrorism (“NBCR")), within three property insurance programs and liability insurance. Separate property and liability coverage may be purchased on a stand-alone basis for certain assets, such as the development of One Vanderbilt. Additionally, one of our captive insurance companies, Belmont Insurance Company, or Belmont, provides coverage for NBCR terrorist acts above a specified trigger. Belmont's retention is reinsured by our other captive insurance company, Ticonderoga Insurance Company (“Ticonderoga”). If Belmont or Ticonderoga are required to pay a claim under our insurance policies, we would ultimately record the loss to the extent of required payments. However, there is no assurance that in the future we will be able to procure coverage at a reasonable cost. Further, if we experience losses that are uninsured or that exceed policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. Additionally, our debt instruments contain customary covenants requiring us to maintain insurance and we could default under debt our instruments if the cost and/or availability of certain types of insurance make it impractical or impossible to comply with such covenants relating to insurance. Belmont and Ticonderoga provide coverage solely on properties owned by the Company or its affiliates.

Furthermore, with respect to certain of our properties, including properties held by joint ventures, or subject to triple net leases, insurance coverage is obtained by a third-party and we do not control the coverage. While we may have agreements with such third parties to maintain adequate coverage and we monitor these policies, such coverage ultimately may not be maintained or adequately cover our risk of loss.

The occurrence of a terrorist attack may adversely affect the value of our properties and our ability to generate cash flow.

Our operations are primarily concentrated in the New York metropolitan area. In the aftermath of a terrorist attack or other acts of terrorism or war, tenants in the New York metropolitan area may choose to relocate their business to less populated, lower-profile areas of the United States that those tenants believe are not as likely to be targets of future terrorist activity. In addition, economic activity could decline as a result of terrorist attacks or other acts of terrorism or war, or the perceived threat of such acts. Each of these impacts could in turn trigger a decrease in the demand for space in the New York metropolitan area, which could increase vacancies in our properties and force us to lease our properties on less favorable terms. While under the Terrorism Risk Insurance Program Reauthorization Act of 2015, insurers must make terrorism insurance available under their property and casualty insurance policies, this legislation does not regulate the pricing of such insurance. The absence of affordable terrorism insurance coverage may adversely affect the general real estate lending market, lending volume and the market's overall liquidity and, in the event of an uninsured loss, we could lose all or a portion of our assets. Furthermore, we may also experience increased costs in relation to security equipment and personnel. As a result, the value of our properties and our results of operations could materially decline.

We face possible risks associated with the natural disasters and the physical effects of climate change.

We are subject to risks associated with natural disasters and the physical effects of climate change, which can include storms, hurricanes and flooding, any of which could have a material adverse effect on our properties, operations and business. To the extent climate change causes changes in weather patterns, our markets could experience increases in storm intensity and rising sea-levels. Over time, these conditions could result in declining demand for office space in our buildings or the inability of us to operate the buildings at all. Climate change may also have indirect effects on our business by increasing the cost of (or making unavailable) property insurance on terms we find acceptable, increasing the cost of energy at our properties and requiring us to expend funds as we seek to repair and protect our properties against such risks. There can be no assurance that climate change will not have a material adverse effect on our properties, operations or business.

We depend on dividends and distributions from our direct and indirect subsidiaries.

Substantially all of our assets are held through subsidiaries of our Operating Partnership. Our Operating Partnership's cash flow is dependent on cash distributions to it by its subsidiaries, and in turn, substantially all of our cash flow is dependent on cash distributions to us by our Operating Partnership. The creditors of each of our direct and indirect

subsidiaries are entitled to payment of that subsidiary's obligations to them, when due and payable, before distributions may be made by that subsidiary to its equity holders.

Therefore, our Operating Partnership's ability to make distributions to holders of its partnership units depends on its subsidiaries' ability first to satisfy their obligations to their creditors and then to make distributions to our Operating Partnership. Likewise, our ability to pay dividends to holders of common stock and preferred stock depends on our Operating Partnership's ability first to satisfy its obligations to its creditors and make distributions payable to holders of preferred units and then to make distributions to us.

Furthermore, the holders of preferred partnership units of our Operating Partnership are entitled to receive preferred distributions before payment of distributions to holders of common units of our Operating Partnership, including us. Thus, our

Table of Contents

ability to pay cash dividends to our shareholders and satisfy our debt obligations depends on our Operating Partnership's ability first to satisfy its obligations to its creditors and make distributions to holders of its preferred partnership units and then to holders of its common units, including us.

In addition, our participation in any distribution of the assets of any of our direct or indirect subsidiaries upon any liquidation, reorganization or insolvency is only after the claims of the creditors, including trade creditors and preferred security holders, are satisfied.

Debt financing, financial covenants, degree of leverage, and increases in interest rates could adversely affect our economic performance.

Scheduled debt payments could adversely affect our results of operations.

Cash flow could be insufficient to pay dividends and meet the payments of principal and interest required under our current mortgages, our 2017 credit facility, our senior unsecured notes, our debentures and indebtedness outstanding at our joint venture properties. The total principal amount of our outstanding consolidated indebtedness was \$5.5 billion as of December 31, 2018, consisting of \$1.5 billion in unsecured bank term loans (or "Term Loan A" and "Term Loan B"), \$1.5 billion under our senior unsecured notes, \$0.1 billion of junior subordinated deferrable interest debentures, \$2.0 billion of non-recourse mortgages and loans payable on certain of our properties and debt and preferred equity investments, \$500.0 million drawn under our revolving credit facility, and \$11.8 million letters of credit. In addition, we could increase the amount of our outstanding consolidated indebtedness in the future, in part by borrowing under the revolving credit facility portion of our 2017 credit facility. As of December 31, 2018, the total principal amount of non-recourse indebtedness outstanding at the joint venture properties was \$9.1 billion, of which our proportionate share was \$3.8 billion. As of December 31, 2018, we had no recourse indebtedness outstanding at our unconsolidated joint venture properties.

If we are unable to make payments under our 2017 credit facility, all amounts due and owing at such time shall accrue interest at a rate equal to 2% higher than the rate at which each draw was made. If we are unable to make payments under our senior unsecured notes, the principal and unpaid interest will become immediately payable. If a property is mortgaged to secure payment of indebtedness and we are unable to meet mortgage payments, the mortgagee could foreclose on the property, resulting in loss of income and asset value. Foreclosure on mortgaged properties or an inability to make payments under our 2017 credit facility or our senior unsecured notes could trigger defaults under the terms of our other financings, making such financings at risk of being declared immediately payable, and would have a negative impact on our financial condition and results of operations.

We may not be able to refinance existing indebtedness, which may require substantial principal payments at maturity. \$27.5 million of consolidated mortgage debt and \$102.8 million of unconsolidated joint venture debt is scheduled to mature in 2019 after giving effect to repayments and refinancing of consolidated and joint venture debt between December 31, 2018 and February 25, 2019 as discussed in the "Financial Statements and Supplementary Data" section. At the present time, we intend to repay, refinance, or exercise extension options on the debt associated with our properties on or prior to their respective maturity dates. At the time of refinancing, prevailing interest rates or other factors, such as the possible reluctance of lenders to make commercial real estate loans, may result in higher interest rates. Increased interest expense on the extended or refinanced debt would adversely affect cash flow and our ability to service debt obligations and pay dividends and distributions to security holders. If any principal payments due at maturity cannot be repaid, refinanced or extended, our cash flow will not be sufficient to repay maturing or accelerated debt.

Financial covenants could adversely affect our ability to conduct our business.

The mortgages and mezzanine loans on our properties generally contain customary negative covenants that limit our ability to further mortgage the properties, to enter into material leases without lender consent or materially modify existing leases, among other things. In addition, our 2017 credit facility and senior unsecured notes contain restrictions and requirements on our method of operations. Our 2017 credit facility and our unsecured notes also require us to maintain designated ratios, including but not limited to, total debt-to-assets, debt service coverage and unencumbered assets-to-unsecured debt. These restrictions could adversely affect operations (including reducing our flexibility and our ability to incur additional debt), our ability to pay debt obligations and our ability to pay dividends and

distributions to security holders.

Rising interest rates could adversely affect our cash flow.

Advances under our 2017 credit facility and certain property-level mortgage debt bear interest at a variable rate. Our consolidated variable rate borrowings totaled \$2.0 billion at December 31, 2018. In addition, we could increase the amount of our outstanding variable rate debt in the future, in part by borrowing additional amounts under our 2017 credit facility. Borrowings under our revolving credit facility and term loans bore interest at the 30-day LIBOR, plus spreads of 100 basis points, 110 basis points, and 165 basis points, respectively, at December 31, 2018. As of December 31, 2018, borrowings under our term loans and junior subordinated deferrable interest debentures totaled \$1.5 billion and \$100.0 million, respectively. We may incur indebtedness in the future that also bears interest at a variable rate or may be required to refinance our debt at higher rates. At December 31, 2018, a hypothetical 100 basis point increase in interest rates across each of our variable interest rate instruments, including our

Table of Contents

variable rate debt and preferred equity investments which mitigate our exposure to interest rate changes, would increase our net annual interest costs by \$7.1 million and would increase our share of joint venture annual interest costs by \$14.3 million. Our joint ventures may also incur variable rate debt and face similar risks. Accordingly, increases in interest rates could adversely affect our results of operations and financial conditions and our ability to continue to pay dividends and distributions to security holders.

The potential phasing out of LIBOR after 2021 may affect our financial results.

The chief executive of the United Kingdom Financial Conduct Authority ("FCA"), which regulates LIBOR, has announced that the FCA intends to stop compelling banks to submit rates for the calculation of LIBOR after 2021. It is not possible to predict the effect of these changes or the establishment of alternative reference rates.

The Alternative Reference Rate Committee ("ARRC"), a committee convened by the Federal Reserve that includes major market participants, and on which the SEC staff and other regulators participate, has proposed an alternative rate to replace U.S. Dollar LIBOR, the Secured Overnight Financing Rate ("SOFR"). Any changes announced by the FCA, ARRC, other regulators or any other successor governance or oversight body, or future changes adopted by such body, in the method pursuant to which U.S. Dollar LIBOR, SOFR, or any other alternative rates are determined may result in a sudden or prolonged increase or decrease in the reported LIBOR rates. If that were to occur, the levels of interest payments we incur and interest payments we receive may change. In addition, although certain of our LIBOR based obligations and investments provide for alternative methods of calculating the interest rate if LIBOR is not reported, uncertainty as to the extent and manner of future changes may result in interest rates and/or payments that are higher than, lower than or that do not otherwise correlate over time with the interest rates and/or payments that would have been made on our obligations if LIBOR rate was available in its current form.

Failure to hedge effectively against interest rate changes may adversely affect results of operations.

The interest rate hedge instruments we use to manage some of our exposure to interest rate volatility involve risk and counterparties may fail to honor their obligations under these arrangements. In addition, these arrangements may not be effective in reducing our exposure to interest rate changes and when existing interest rate hedges terminate, we may incur increased costs in putting in place further interest rate hedges. Failure to hedge effectively against interest rate changes may adversely affect our results of operations.

Increases in our leverage could adversely affect our stock price.

Our organizational documents do not contain any limitation on the amount of indebtedness we may incur. We consider many factors when making decisions regarding the incurrence of indebtedness, such as the purchase price of properties to be acquired with debt financing, the estimated market value of our properties and the ability of particular properties and our business as a whole to generate cash flow to cover expected debt service. Any changes that increase our leverage could be viewed negatively by investors. As a result, our stock price could decrease.

A downgrade in our credit ratings could materially adversely affect our business and financial condition.

Our credit rating and the credit ratings assigned to our debt securities and our preferred stock could change based upon, among other things, our results of operations and financial condition. These ratings are subject to ongoing evaluation by credit rating agencies, and any rating could be changed or withdrawn by a rating agency in the future if, in its judgment, circumstances warrant such action. Moreover, these credit ratings are not recommendations to buy, sell or hold our common stock or any other securities. If any of the credit rating agencies that have rated our securities downgrades or lowers its credit rating, or if any credit rating agency indicates that it has placed any such rating on a "watch list" for a possible downgrading or lowering, or otherwise indicates that its outlook for that rating is negative, such action could have a material adverse effect on our costs and availability of funding, which could in turn have a material adverse effect on our financial condition, results of operations, cash flows, the trading price of our securities and our ability to satisfy our debt service obligations and to pay dividends and distributions to security holders.

Debt and preferred equity investments could cause us to incur expenses, which could adversely affect our results of operations.

We held first mortgages, mezzanine loans, junior participations and preferred equity interests with an aggregate net book value of \$2.1 billion at December 31, 2018. Some of these instruments may be recourse to their sponsors, while others are limited to the collateral securing the loan. In the event of a default under these obligations, we may have to

take possession of the collateral securing these interests. Borrowers may contest enforcement of foreclosure or other remedies, seek bankruptcy protection against such enforcement and/or bring claims for lender liability in response to actions to enforce their obligations to us. Declines in the value of the property may prevent us from realizing an amount equal to our investment upon foreclosure or realization even if we make substantial improvements or repairs to the underlying real estate in order to maximize such property's investment potential. In addition, we may invest in mortgage-backed securities and other marketable securities.

Table of Contents

We maintain and regularly evaluate the need for reserves to protect against potential future losses. Our reserves reflect management's judgment of the probability and severity of losses and the value of the underlying collateral. We cannot be certain that our judgment will prove to be correct and that our reserves will be adequate over time to protect against future losses because of unanticipated adverse changes in the economy or events adversely affecting specific properties, assets, tenants, borrowers, industries in which our tenants and borrowers operate or markets in which our tenants and borrowers or their properties are located. If our reserves for credit losses prove inadequate, we could suffer losses which would have a material adverse effect on our financial performance, the market prices of our securities and our ability to pay dividends and distributions to security holders.

Joint investments could be adversely affected by our lack of sole decision-making authority and reliance upon a co-venturer's financial condition.

We co-invest with third parties through partnerships, joint ventures, co-tenancies or other structures, and by acquiring non-controlling interests in, or sharing responsibility for managing the affairs of, a property, partnership, joint venture, co-tenancy or other entity. Therefore, we may not be in a position to exercise sole decision-making authority regarding such property, partnership, joint venture or other entity. Investments in partnerships, joint ventures, or other entities may involve risks not present were a third party not involved, including the possibility that our partners, co-tenants or co-venturers might become bankrupt or otherwise fail to fund their share of required capital contributions. Additionally, our partners or co-venturers might at any time have economic or other business interests or goals which are competitive or inconsistent with our business interests or goals. These investments may also have the potential risk of impasses on decisions such as a sale, because neither we, nor the partner, co-tenant or co-venturer would have full control over the partnership or joint venture. In addition, we may in specific circumstances be liable for the actions of our third-party partners, co-tenants or co-venturers. As of December 31, 2018, we had an aggregate cost basis in these joint ventures totaling \$3.0 billion.

Certain of our joint venture agreements contain terms in favor of our partners that could have an adverse effect on the value of our investments in the joint ventures.

Each of our joint venture agreements has been individually negotiated with our partner in the joint venture and, in some cases, we have agreed to terms that are more favorable to our partner in the joint venture than to us. For example, our partner may be entitled to a specified portion of the profits of the joint venture before we are entitled to any portion of such profits. We may also enter into similar arrangements in the future. These rights may permit our partner in a particular joint venture to obtain a greater benefit from the value or profits of the joint venture than us, which could have an adverse effect on the value of our investment in the joint venture and on our financial condition and results of operations.

We may incur costs to comply with governmental laws and regulations.

We are subject to various federal, state and local environmental and health and safety laws that can impose liability on current and former property owners or operators for the clean-up of certain hazardous substances released on a property or of contamination at any facility (e.g., a landfill) to which we have sent hazardous substances for treatment or disposal, without regard to fault or whether the release or disposal was in compliance with law. Being held responsible for such a clean-up could result in significant cost to us and have a material adverse effect on our financial condition and results of operations.

Our properties may be subject to risks relating to current or future laws, including laws benefiting disabled persons, such as the Americans with Disabilities Act, or ADA, and state or local zoning, construction or other regulations. Compliance with such laws may require significant property modifications in the future, which could be costly and non-compliance could result in fines being levied against us in the future. Such costs could have an adverse impact on our cash flows and ability to pay dividends to stockholders.

Our charter documents, debt instruments and applicable law may hinder any attempt to acquire us, which could discourage takeover attempts and prevent our stockholders from receiving a premium over the market price of our stock.

Provisions of our charter and bylaws could inhibit changes in control.

A change of control of our company could benefit stockholders by providing them with a premium over the then-prevailing market price of our stock. However, provisions contained in our charter and bylaws may delay or prevent a change in control of our company. These provisions, discussed more fully below, are:

• staggered board of directors;

• ownership limitations; and

• the board of directors' ability to issue additional common stock and preferred stock without stockholder approval.

Our board of directors is currently staggered into three separate classes.

At our 2017 Annual Meeting of Stockholders, held on June 1, 2017, our stockholders voted to declassify the board of directors. Beginning with the election of the class I directors at the 2018 Annual Meeting of Stockholders, our board of directors

Table of Contents

has been elected for terms ending at the next annual meeting of stockholders following their election and until their successors are duly elected and qualify. By the 2020 Annual Meeting of Stockholders, our board of directors will be fully declassified.

Currently, our board of directors is divided into three classes. The terms of the class I and class II directors expire in 2019, and the terms of the class III directors expire in 2020. The nature of the different expiration dates for directors may deter a change in control because of the increased time period necessary for a third-party to acquire control of the board.

We have a stock ownership limit.

To remain qualified as a REIT for federal income tax purposes, not more than 50% in value of our outstanding capital stock may be owned by five or fewer individuals at any time during the last half of any taxable year. For this purpose, stock may be "owned" directly, as well as indirectly under certain constructive ownership rules, including, for example, rules that attribute stock held by one shareholder to another shareholder. In part to avoid violating this rule regarding stock ownership limitations and maintain our REIT qualification, our charter prohibits ownership by any single stockholder of more than 9.0% in value or number of shares of our common stock. Limitations on the ownership of preferred stock may also be imposed by us.

Our board of directors has the discretion to raise or waive this limitation on ownership for any stockholder if deemed to be in our best interest. Our board of directors has granted such waivers from time to time. To obtain a waiver, a stockholder must present the board and our tax counsel with evidence that ownership in excess of this limit will not affect our present or future REIT status.

Absent any exemption or waiver, stock acquired or held in excess of the limit on ownership will be transferred to a trust for the exclusive benefit of a designated charitable beneficiary, and the stockholder's rights to distributions and to vote would terminate. The stockholder would be entitled to receive, from the proceeds of any subsequent sale of the shares transferred to the charitable trust, the lesser of: the price paid for the stock or, if the owner did not pay for the stock, the market price of the stock on the date of the event causing the stock to be transferred to the charitable trust; and the amount realized from the sale.

This limitation on ownership of stock could delay or prevent a change in control of our company.

Maryland takeover statutes may prevent a change of control of our company, which could depress our stock price.

Under the Maryland General Corporation Law, or the MGCL, "business combinations" between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder are prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations include a merger, consolidation, stock exchange or, in circumstances specified in the statute, an asset transfer or issuance or reclassification of equity securities. An interested stockholder is defined as:

• any person who beneficially owns 10% or more of the voting power of the corporation's outstanding voting stock; or
• an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner of 10% or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approves in advance the transaction by which he otherwise would have become an interested stockholder.

After the five-year prohibition, any business combination between the Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

• 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation, voting together as a single group; and

• two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than shares held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

The business combination statute may discourage others from trying to acquire control of us and increase the difficulty of consummating any offer, including potential acquisitions that might involve a premium price for our common stock or otherwise be in the best interest of our stockholders.

In addition, Maryland law provides that holders of "control shares" of a Maryland corporation acquired in a "control share acquisition" will not have voting rights with respect to the control shares except to the extent approved by a vote of two-thirds of the votes entitled to be cast on the matter, excluding shares of stock owned by the acquiror, by officers of the corporation or by directors who are employees of the corporation, under the Maryland Control Share Acquisition Act. "Control shares" means voting shares of stock that, if aggregated with all other shares of stock owned by the acquiror or in respect of which the acquiror is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquiror to exercise voting power in electing directors within one of the following ranges of voting power: (i) one-tenth or more but less than one-third; (ii) one-third or more but less than a majority; or (iii) a majority or more of all voting power. A "control share acquisition"

Table of Contents

means the acquisition of ownership of, or the power to direct the exercise of voting power with respect to, issued and outstanding control shares, subject to certain exceptions.

We have opted out of these provisions of the MGCL, with respect to business combinations and control share acquisitions, by resolution of our board of directors and a provision in our bylaws, respectively. However, in the future, our board of directors may reverse its decision by resolution and elect to opt in to the MGCL's business combination provisions, or amend our bylaws and elect to opt in to the MGCL's control share provisions.

Additionally, the MGCL permits our board of directors, without stockholder approval and regardless of what is provided in our charter or bylaws, to implement takeover defenses, some of which have not been implemented by our board of directors. Such takeover defenses, if implemented, may have the effect of inhibiting a third party from making us an acquisition proposal or of delaying, deferring or preventing a change in our control under circumstances that otherwise could provide our stockholders with an opportunity to realize a premium over the then-current market price.

Contractual provisions that limit the assumption of certain of our debt may prevent a change in control.

Certain of our consolidated debt is not assumable and may be subject to significant prepayment penalties. These limitations could deter a change in control of our company.

Compliance with changing or new regulations applicable to corporate governance and public disclosure may result in additional expenses, or affect our operations.

Changing or new laws, regulations and standards relating to corporate governance and public disclosure, including SEC regulations and NYSE rules, can create uncertainty for public companies. These changed or new laws, regulations and standards are subject to varying interpretations in many cases due to their lack of specificity. As a result, their application in practice may evolve over time as new guidance is provided by regulatory and governing bodies, which could result in continuing uncertainty regarding compliance matters and higher costs necessitated by ongoing revisions to disclosure and governance practices. We are committed to maintaining high standards of corporate governance and public disclosure. If our efforts to comply with new or changed laws, regulations and standards differ from the activities intended by regulatory or governing bodies due to ambiguities related to practice, our reputation may be harmed.

Our efforts to comply with evolving laws, regulations and standards have resulted in, and are likely to continue to result in, increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities. In particular, our continued efforts to comply with Section 404 of the Sarbanes-Oxley Act of 2002 and the related regulations regarding our required assessment of our internal controls over financial reporting and our external auditors' audit of that assessment have required the commitment of significant financial and managerial resources. We expect these efforts to require the continued commitment of significant resources. Further, our directors, chief executive officer and chief financial officer could face an increased risk of personal liability in connection with the performance of their duties. As a result, we may have difficulty attracting and retaining qualified directors and executive officers, which could harm our business.

Future issuances of common stock, preferred stock and convertible debt could dilute existing stockholders' interests.

Our charter authorizes its board of directors to issue additional shares of common stock, preferred stock and convertible equity or debt without stockholder approval and without the requirement to offer rights of pre-emption to existing stockholders. Any such issuance could dilute our existing stockholders' interests. Also, any future series of preferred stock may have voting provisions that could delay or prevent a change of control of our company.

Changes in market conditions could adversely affect the market price of our common stock.

As with other publicly traded equity securities, the value of our common stock depends on various market conditions, which may change from time to time. In addition to the current economic environment and future volatility in the securities and credit markets, the following market conditions may affect the value of our common stock:

- the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
- our financial performance; and
- general stock and bond market conditions.

The market value of our common stock is based on a number of factors including, but not limited to, the market's perception of the current and future value of our assets, our growth potential and our current and potential future earnings and cash dividends. Consequently, our common stock may trade at prices that are higher or lower than our net asset value per share of common stock.

Table of Contents

The trading price of our common stock has been and may continue to be subject to wide fluctuations. Between January 1, 2018 and December 31, 2018, the closing sale price of our common stock on the New York Stock Exchange, or the NYSE, ranged from \$77.63 to \$105.86 per share. Our stock price may fluctuate in response to a number of events and factors, such as those described elsewhere in this "Risk Factors" section. Equity issuances or buybacks by us or the perception that such issuances or buybacks may occur may also affect the market price of our common stock.

We may in the future pay taxable dividends on our common stock in common stock and cash.

In order to qualify as a REIT, we are required to annually distribute to our stockholders at least 90% of our REIT taxable income, excluding net capital gain. In order to avoid taxation of our income, we are required to annually distribute to our stockholders all of our taxable income, including net capital gain. In order to satisfy these requirements, we may make distributions that are payable partly in cash and partly in shares of our common stock. If we pay such a dividend, taxable stockholders would be required to include the entire amount of the dividend, including the portion paid with shares of common stock, as income to the extent of our current and accumulated earnings and profits, and may be required to pay income taxes with respect to such dividends in excess of the cash dividends received.

We are dependent on external sources of capital.

We need a substantial amount of capital to operate and grow our business. This need is exacerbated by the distribution requirements imposed on us for SL Green to qualify as a REIT. We therefore rely on third-party sources of capital, which may not be available on favorable terms or at all. Our access to third-party sources of capital depends on a number of things, including the market's perception of our growth potential and our current and potential future earnings. In addition, we anticipate raising money in the public equity and debt markets with some regularity and our ability to do so will depend upon the general conditions prevailing in these markets. At any time, conditions may exist which effectively prevent us, or REITs in general, from accessing these markets. Moreover, additional equity offerings may result in substantial dilution of our stockholders' interests, and additional debt financing may substantially increase our leverage.

Our property taxes could increase due to reassessment or property tax rate changes.

We are required to pay real property taxes in respect of our properties and such taxes may increase as our properties are reassessed by taxing authorities or as property tax rates change. An increase in the assessed value of our properties or our property tax rates could adversely impact our financial condition, results of operations and our ability to satisfy our debt service obligations and to pay dividends and distributions to our security holders.

We face potential conflicts of interest.

There are potential conflicts of interest between us and Stephen L. Green.

There is a potential conflict of interest relating to the disposition of certain property contributed to us by Stephen L. Green and affiliated entities in our initial public offering. Mr. Green serves as a member and as the chairman emeritus of our board of directors. If we sell a property in a transaction in which a taxable gain is recognized, for tax purposes the built-in gain would be allocated solely to him and not to us. As a result, Mr. Green has a conflict of interest if the sale of a property he contributed is in our best interest but not his.

In addition, Mr. Green's tax basis includes his share of debt, including mortgage indebtedness, owed by the Operating Partnership. If the Operating Partnership were to retire such debt, then he would experience a decrease in his share of liabilities, which, for tax purposes, would be treated as a distribution of cash to him. To the extent the deemed distribution of cash exceeded his tax basis, he would recognize gain. As a result, Mr. Green has a conflict of interest if the refinancing of indebtedness is in our best interest but not his.

Members of management may have a conflict of interest over whether to enforce terms of agreements with entities which Mr. Green, directly or indirectly, has an affiliation.

Alliance Building Services, or Alliance, and its affiliates are partially owned by Gary Green, a son of Stephen L. Green, who serves as a member and as the chairman emeritus of our board of directors, and provide services to certain properties owned by us. Alliance's affiliates include First Quality Maintenance, L.P., or First Quality, Classic Security LLC, Bright Star Couriers LLC and Onyx Restoration Works, and provide cleaning, extermination, security,

messenger, and restoration services, respectively. In addition, First Quality has the non-exclusive opportunity to provide cleaning and related services to individual tenants at our properties on a basis separately negotiated with any tenant seeking such additional services. The Service Corporation has entered into an arrangement with Alliance whereby it will receive a profit participation above a certain threshold for services provided by Alliance to certain tenants at certain buildings above the base services specified in their lease agreements.

Our company and our tenants accounted for 24.89% of Alliance's 2018 estimated total revenue, based on information provided to us by Alliance. While we believe that the contracts pursuant to which these services are provided were the result of arm's length negotiations, there can be no assurance that the terms of such agreements, or dealings between the parties during the performance

Table of Contents

of such agreements, will be as favorable to us as those which could be obtained from unaffiliated third parties providing comparable services under similar circumstances.

SL Green's failure to qualify as a REIT would be costly and would have a significant effect on the value of our securities.

We believe we have operated in a manner for SL Green to qualify as a REIT for federal income tax purposes and intend to continue to so operate. Many of the REIT compliance requirements, however, are highly technical and complex. The determination that SL Green is a REIT requires an analysis of factual matters and circumstances. These matters, some of which are not totally within our control, can affect SL Green's qualification as a REIT. For example, to qualify as a REIT, at least 95% of our gross income must come from designated sources that are listed in the REIT tax laws. We are also required to distribute to stockholders at least 90% of our REIT taxable income excluding capital gains. The fact that we hold our assets through the Operating Partnership and its subsidiaries further complicates the application of the REIT requirements. Even a technical or inadvertent mistake could jeopardize our REIT status. Furthermore, Congress and the Internal Revenue Service, or the IRS, might make changes to the tax laws and regulations that make it more difficult, or impossible, for us to remain qualified as a REIT.

If SL Green fails to qualify as a REIT, the funds available for distribution to our stockholders would be substantially reduced as we would not be allowed a deduction for dividends paid to our stockholders in computing our taxable income and would be subject to federal income tax at regular corporate rates and possibly increased state and local taxes.

Also, unless the IRS grants us relief under specific statutory provisions, SL Green would remain disqualified as a REIT for four years following the year in which SL Green first failed to qualify. If SL Green failed to qualify as a REIT, SL Green would have to pay significant income taxes and would therefore have less money available for investments, to service debt obligations or to pay dividends and distributions to security holders. This would have a significant adverse effect on the value of our securities. In addition, the REIT tax laws would no longer obligate us to make any distributions to stockholders. As a result of all these factors, if SL Green fails to qualify as a REIT, this could impair our ability to expand our business and raise capital.

Changes to U.S. federal income tax laws could materially and adversely affect us and our stockholders.

The Tax Cuts and Jobs Act (the "Tax Act") signed into law on December 22, 2017, made substantial changes to the Code. Among those changes are a significant permanent reduction in the generally applicable corporate tax rate, changes in the taxation of individuals and other non-corporate taxpayers that generally but not universally reduce their taxes on a temporary basis subject to "sunset" provisions, the elimination or modification of various currently allowed deductions (including substantial limitations on the deductibility of interest and, in the case of individuals, the deduction for personal state and local taxes), and preferential rates of taxation on most ordinary REIT dividends and certain business income derived by non-corporate taxpayers in comparison to other ordinary income recognized by such taxpayers. The Tax Act also imposes certain additional limitations on the deduction of net operating losses, which may in the future cause us to be required to make distributions that will be taxable to our stockholders to the extent of our current or accumulated earnings and profits in order to comply with the annual REIT distribution requirements. The effect of these, and the many other, changes made in the Tax Act is highly uncertain, both in terms of their direct effect on the taxation of an investment in our common stock and their indirect effect on the value of our assets or market conditions generally. Furthermore, many of the provisions of the Tax Act will require guidance through the issuance of Treasury regulations in order to assess their effect. There may be a substantial delay before such regulations are promulgated, increasing the uncertainty as to the ultimate effect of the statutory amendments on us. Technical corrections to the Tax Act were proposed in 2018, and additional corrections may be proposed in 2019, the effect of which cannot be predicted and may be adverse to us or our stockholders.

Additionally, the rules dealing with U.S. federal income taxation are continually under review by Congress, the IRS, and the U.S. Department of the Treasury. Any such changes could have an adverse effect on an investment in our shares or on the market value or the resale potential of our assets.

Loss of our key personnel could harm our operations and our stock price.

We are dependent on the efforts of Marc Holliday, our chairman and chief executive officer, and Andrew W. Mathias, our president. These officers have employment agreements which expire in January 2022 and December 2021, respectively. A loss of the services of either of these individuals could adversely affect our operations and could be negatively perceived by the market resulting in a decrease in our stock price.

Our business and operations would suffer in the event of system failures or cyber security attacks.

Despite system redundancy, the implementation of security measures and the existence of a disaster recovery plan for our internal information technology systems, our systems are vulnerable to a number of risks including energy blackouts, natural disasters, terrorism, war, telecommunication failures and cyber attacks and intrusions, such as computer viruses, malware, attachments to e-mails, intrusion and unauthorized access, including from persons inside our organization or from persons outside our organization with access to our systems. The risk of a security breach or disruption, particularly through cyber attacks and intrusions, including by computer hackers, foreign governments and cyber terrorists, has generally increased as the number, intensity and sophistication of attempted attacks and intrusions from around the world have increased. Our systems are critical

Table of Contents

to the operation of our business and any system failure, accident or security breach that causes interruptions in our operations could result in a material disruption to our business. We may also incur additional costs to remedy damages caused by such disruptions. Although we make efforts to maintain the security and integrity of our systems and have implemented various measures to manage the risk of a security breach or disruption, there can be no assurance that our security efforts and measures will be effective or that attempted security breaches or disruptions would not be successful or damaging. Any compromise of our security could also result in a violation of applicable privacy and other laws, significant legal and financial exposure, damage to our reputation, loss or misuse of the information (which may be confidential, proprietary and/or commercially sensitive in nature) and a loss of confidence in our security measures, which could harm our business.

Forward-looking statements may prove inaccurate.

See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Forward-looking Information," for additional disclosure regarding forward-looking statements.

ITEM 1B. UNRESOLVED STAFF COMMENTS

As of December 31, 2018, we did not have any unresolved comments with the staff of the SEC.

Table of Contents

ITEM 2. PROPERTIES

Our Portfolio

General

As of December 31, 2018, we owned or held interests in 20 consolidated commercial office buildings encompassing approximately 12.4 million rentable square feet and 10 unconsolidated commercial office buildings encompassing approximately 11.3 million rentable square feet located primarily in midtown Manhattan. Many of these buildings include some amount of retail space on the lower floors, as well as basement/storage space. As of December 31, 2018, our portfolio also included ownership interests in 13 consolidated commercial office buildings encompassing approximately 2.3 million rentable square feet and no unconsolidated commercial office buildings encompassing approximately no rentable square feet located outside of Manhattan. We refer to these buildings as our Suburban properties. Some of these buildings also include a small amount of retail space on the lower floors, as well as basement/storage space.

As of December 31, 2018, we also owned investments in 17 prime retail properties encompassing approximately 0.7 million square feet, eight buildings in some stage of development or redevelopment encompassing approximately 0.8 million square feet, 12 residential buildings encompassing 3,058 units (approximately 2.6 million square feet). In addition, we manage two office buildings owned by third parties encompassing approximately 2.1 million square feet and held debt and preferred equity investments with a book value of \$2.1 billion including \$0.1 billion of investments recorded in balance sheet line items other than the Debt and Preferred Equity Investments line item.

The following tables set forth certain information with respect to each of the Manhattan and Suburban office, prime retail, residential, development and redevelopment properties and land interest in the portfolio as of December 31, 2018:

(1) Excludes leases signed but not yet commenced as of December 31, 2018.

Annualized Cash Rent represents the monthly contractual rent under existing leases as of December 31, 2018

multiplied by 12. This amount reflects total rent before any rent abatements and includes expense reimbursements,

(2) which may be estimated as of such date. Total rent abatements for leases in effect as of December 31, 2018 for the 12 months ending December 31, 2019 would reduce cash rent by \$56.5 million for our consolidated properties and \$124.3 million for our unconsolidated properties.

(3) Includes our share of unconsolidated joint venture annualized cash rent.

Annualized Cash Rent Per Leased Square Foot represents Annualized Cash Rent, as described in footnote

(4) (1) above, presented on a per leased square foot basis.

(5) The Company has an option to acquire the fee interest for a fixed price on a specific date.

(6) The Company owns 50% of the fee interest.

(7)

The 1.7 million gross square foot project, which is anticipated to be completed in the third quarter of 2020, has a total development budget, including land mark-up, of \$3.17 billion excluding fees paid to the Company and up to \$50.0 million in discretionary owner contingencies. As of December 31, 2018, \$1.58 billion of the budget remains to be spent, comprised of \$200.6 million of partners' equity, and \$1.38 billion of financing available under the project's construction facility.

Table of Contents

Historical Occupancy

Historically we have achieved consistently higher occupancy rates in our Manhattan portfolio as compared to the overall midtown Manhattan market, as shown over the last five years in the following table:

	Leased Occupancy Rate of Manhattan Operating Portfolio(1)	Occupancy Rate of Class A Office Properties in the Midtown Manhattan Markets(2)(3)		Occupancy Rate of Class B Office Properties in the Midtown Manhattan Markets(2)(3)	
December 31, 2018	94.5 %	91.1 %		89.4 %	
December 31, 2017	93.8 %	90.5 %		90.3 %	
December 31, 2016	94.9 %	90.0 %		92.2 %	
December 31, 2015	94.2 %	90.9 %		91.3 %	
December 31, 2014	95.3 %	89.4 %		91.6 %	

(1) Includes leases signed but not yet commenced as of the relevant date in our wholly-owned and joint venture properties.

(2) Includes vacant space available for direct lease and sublease. Source: Cushman & Wakefield.

The term "Class B" is generally used in the Manhattan office market to describe office properties that are more than 25 years old but that are in good physical condition, enjoy widespread acceptance by high-quality tenants and

(3) are situated in desirable locations in Manhattan. Class B office properties can be distinguished from Class A properties in that Class A properties are generally newer properties with higher finishes and frequently obtain the highest rental rates within their markets.

Lease Expirations

Leases in our Manhattan portfolio, as at many other Manhattan office properties, typically have an initial term of seven to fifteen years, compared to typical lease terms of five to ten years in other large U.S. office markets. For the five years ending December 31, 2023, the average annual lease expirations at our Manhattan consolidated and unconsolidated operating properties is expected to be approximately 1.3 million square feet and approximately 0.5 million square feet, respectively, representing an average annual expiration rate of approximately 10.3% and approximately 4.1%, respectively, per year (assuming no tenants exercise renewal or cancellation options and there are no tenant bankruptcies or other tenant defaults).

The following tables set forth a schedule of the annual lease expirations at our Manhattan consolidated and unconsolidated operating properties, respectively, with respect to leases in place as of December 31, 2018 for each of the next ten years and thereafter (assuming that no tenants exercise renewal or cancellation options and that there are no tenant bankruptcies or other tenant defaults):

Manhattan Consolidated Operating Properties Year of Lease Expiration	Number of Expiring Leases(1)	Square Footage of Expiring Leases	Percentage of Total Leased Square Feet	Annualized Cash Rent of Expiring Leases(2)	Percentage of Annualized Cash Rent of Expiring Leases	Annualized Cash Rent Per Square Foot of Expiring Leases(3)

(1) Tenants may have multiple leases.

Annualized Cash Rent of Expiring Leases represents the monthly contractual rent for December 2018 under existing leases as of December 31, 2018 multiplied by 12. This amount reflects total rent before any rent

(2) abatements and includes expense reimbursements, which may be estimated as of such date. Total rent abatements for leases in effect as of December 31, 2018 for the 12 months ending December 31, 2019 will reduce cash rent by \$54.0 million for the properties.

Table of Contents

(3) Annualized Cash Rent Per Leased Square Foot of Expiring Leases represents Annualized Cash Rent of Expiring Leases, as described in footnote (2) above, presented on a per leased square foot basis.

(4) Includes approximately 22,898 square feet and annualized cash rent of \$1.5 million occupied by month-to-month holdover tenants whose leases expired prior to December 31, 2018.

(5) Includes 1,146,881 square feet and annualized cash rent of \$72.6 million attributable to leases with Credit Suisse at 1 Madison Avenue that expire in December 2020. The Company has stated that it intends to redevelop this property upon the expiration of these leases.

(1) Tenants may have multiple leases.

Annualized Cash Rent of Expiring Leases represents the monthly contractual rent for December 2018 under existing leases as of December 31, 2018 multiplied by 12. This amount reflects total rent before any rent

(2) abatements and includes expense reimbursements, which may be estimated as of such date. Total rent abatements for leases in effect as of December 31, 2018 for the 12 months ending December 31, 2019 will reduce cash rent by \$124.3 million for the joint venture properties.

(3) Annualized Cash Rent Per Leased Square Foot of Expiring Leases represents Annualized Cash Rent of Expiring Leases, as described in footnote (2) above, presented on a per leased square foot basis.

(4) Includes approximately 16,730 square feet and annualized cash rent of \$1.5 million occupied by month-to-month holdover tenants whose leases expired prior to December 31, 2018.

Table of Contents

Leases in our Suburban portfolio, as at many other suburban office properties, typically have an initial term of five to ten years. For the five years ending December 31, 2023, the average annual lease expirations at our Suburban consolidated operating properties is expected to be approximately 0.2 million square feet representing an average annual expiration rate of approximately 11.5% per year (assuming no tenants exercise renewal or cancellation options and there are no tenant bankruptcies or other tenant defaults).

The following tables set forth a schedule of the annual lease expirations at our Suburban consolidated operating properties, respectively, with respect to leases in place as of December 31, 2018 for each of the next ten years and thereafter (assuming that no tenants exercise renewal or cancellation options and that there are no tenant bankruptcies or other tenant defaults):

Suburban Consolidated Operating Properties Year of Lease Expiration	Number of Expiring Leases(1)	Square Footage of Expiring Leases	Percentage of Total Leased Square Feet	Annualized Cash Rent of Expiring Leases(2)	Percentage of Annualized Cash Rent of Expiring Leases	Annualized Cash Rent Per Leased Square Foot of Expiring Leases(3)
2019 ⁽⁴⁾	39	318,877	16.3 %	\$10,339,795	15.7 %	\$ 32.43
2020	37	248,056	12.7	9,125,479	13.8	36.79
2021	38	272,678	13.9	10,079,197	15.3	36.96
2022	28	126,582	6.5	5,004,423	7.6	39.54
2023	25	159,769	8.2	5,631,282	8.5	35.25
2024	8	49,924	2.5	1,634,598	2.5	32.74
2025	9	87,449	4.5	2,945,942	4.5	33.69

2027	5	190,387	9.7	4,852,149	7.4	25.49
2028 & thereafter	16	247,434	12.5	6,970,040	10.6	28.17
Total/weighted average	221	1,959,951	100.0 %	\$65,896,349	100.0 %	\$ 33.62

(1) Tenants may have multiple leases.

Annualized Cash Rent of Expiring Leases represents the monthly contractual rent under existing leases as of December 31, 2018 multiplied by 12. This amount reflects total rent before any rent abatements and includes

(2) expense reimbursements, which may be estimated as of such date. Total rent abatements for leases in effect as of December 31, 2018 for the 12 months ending December 31, 2019 will reduce cash rent by \$2.5 million for the properties.

(3) Annualized Cash Rent Per Leased Square Foot of Expiring Leases represents Annualized Cash Rent of Expiring Leases, as described in footnote (2) above, presented on a per leased square foot basis.

(4) Includes approximately 71,273 square feet and annualized cash rent of \$2.7 million occupied by month-to-month holdover tenants whose leases expired prior to December 31, 2018.

Tenant Diversification

At December 31, 2018, our Manhattan and Suburban office properties were leased to 1,138 tenants, which are engaged in a variety of businesses, including, but not limited to, professional services, financial services, media, apparel, business services and government/non-profit. The following table sets forth information regarding the leases with respect to the 30 largest tenants in our Manhattan and Suburban office properties, which are not intended to be representative of our tenants as a whole, based on the amount of our share of annualized cash rent as of December 31, 2018:

Tenant Name	Property	Lease Expiration	Total Rentable Square	Annualized Cash Rent of	SLG Share % of Annualized	SLG Share of Annualized	Annualized Rent PSF

(1) SLG Share of Annualized Cash Rent includes Manhattan, Suburban, Retail, Residential, and Development / Redevelopment properties.

Environmental Matters

We engaged independent environmental consulting firms to perform Phase I environmental site assessments on our portfolio, in order to assess existing environmental conditions. All of the Phase I assessments met the American Society for Testing and Materials (ASTM) Standard. Under the ASTM Standard, a Phase I environmental site assessment consists of a site visit, an historical record review, a review of regulatory agency data bases and records, and interviews with on-site personnel, with the purpose of identifying potential environmental concerns associated with real estate. These environmental site assessments did not reveal any known environmental liability that we believe will have a material adverse effect on our results of operations or financial condition.

ITEM 3. LEGAL PROCEEDINGS

As of December 31, 2018, the Company and the Operating Partnership were not involved in any material litigation nor, to management's knowledge, was any material litigation threatened against us or our portfolio which if adversely determined could have a material adverse impact on us.

ITEM 4. MINE SAFETY DISCLOSURES

Not Applicable.

PART II

ITEM 5. MARKET FOR REGISTRANTS' COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES
SL GREEN REALTY CORP.

Our common stock trades on the New York Stock Exchange, or the NYSE, under the symbol "SLG." On February 25, 2019, the reported closing sale price per share of common stock on the NYSE was \$91.18 and there were 391 holders of record of our common stock.

SL GREEN OPERATING PARTNERSHIP, L.P.

At December 31, 2018, there were 4,130,579 units of limited partnership interest of the Operating Partnership outstanding and held by persons other than the Company, which received distributions per unit of the same amount and in the same manner as dividends per share were distributed to common stockholders.

There is no established public trading market for the common units of the Operating Partnership. On February 25, 2019, there were 35 holders of record and 88,489,537 common units outstanding, 84,325,436 of which were held by SL Green.

In order for SL Green to maintain its qualification as a REIT, it must make annual distributions to its stockholders of at least 90% of its taxable income (not including net capital gains). SL Green has adopted a policy of paying regular quarterly dividends on its common stock, and the Operating Partnership has adopted a policy of paying regular quarterly distributions to its common units in the same amount as dividends paid by SL Green. Cash distributions have been paid on the common stock of SL Green and the common units of the Operating Partnership since the initial public offering of SL Green. Distributions are declared at the discretion of the board of directors of SL Green and depend on actual and anticipated cash from operations, financial condition, capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code and other factors SL Green's board of directors may consider relevant.

Each time SL Green issues shares of stock (other than in exchange for common units of limited partnership interest of the Operating Partnership, or OP Units, when such OP Units are presented for redemption), it contributes the proceeds of such issuance to the Operating Partnership in return for an equivalent number of units of limited partnership interest with rights and preferences analogous to the shares issued.

ISSUER PURCHASES OF EQUITY SECURITIES

In August 2016, our Board of Directors approved a share repurchase plan under which we can buy up to \$1.0 billion of shares of our common stock. The Board of Directors has since authorized three separate \$500.0 million increases to the size of the share repurchase program in the fourth quarter of 2017, second quarter of 2018, and fourth quarter of 2018, bringing the total program size to \$2.5 billion.

At December 31, 2018 repurchases executed under the plan were as follows:

Period	Shares repurchased	Average price paid per share	Cumulative number of shares repurchased as part of the repurchase plan or programs
Year ended 2017	8,342,411	\$101.64	8,342,411
First quarter 2018	3,653,928	\$97.07	11,996,339
Second quarter 2018	3,479,552	\$97.22	15,475,891
Third quarter 2018	252,947	\$99.75	15,728,838
Fourth quarter 2018	2,358,484	\$93.04	18,087,322

Table of Contents

SALE OF UNREGISTERED AND REGISTERED SECURITIES; USE OF PROCEEDS FROM REGISTERED SECURITIES

During the year ended December 31, 2018, we issued 160,466 shares of our common stock to holders of units of limited partnership interest in the Operating Partnership upon the redemption of such units pursuant to the partnership agreement of the Operating Partnership. During the years ended December 31, 2017 and 2016, we issued 201,696, and 292,291 shares of our common stock, respectively, to holders of units of limited partnership interest in the Operating Partnership upon the redemption of such units pursuant to the partnership agreement of the Operating Partnership. The issuance of such shares was exempt from registration under the Securities Act, pursuant to the exemption contemplated by Section 4(a)(2) thereof for transactions not involving a public offering. The units were exchanged for an equal number of shares of our common stock.

The following table summarizes information, as of December 31, 2018, relating to our equity compensation plans pursuant to which shares of our common stock or other equity securities may be granted from time to time.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))	
	(a)	(b)	(c)	(4)
Equity compensation plans approved by security holders ⁽¹⁾	3,655,400	(2)\$ 101.28	(3)7,086,746	(4)
Equity compensation plans not approved by security holders	—	—	—	
Total	3,655,400	\$ 101.28	7,086,746	

(1) Includes our Fourth Amended and Restated 2005 Stock Option and Incentive Plan, Amended 1997 Stock Option and Incentive Plan, as amended, and 2008 Employee Stock Purchase Plan.

(2) Includes (i) 1,137,017 shares of common stock issuable upon the exercise of outstanding options (783,035 of which are vested and exercisable), (ii) 32,250 restricted stock units and 113,492 phantom stock units that may be settled in shares of common stock (113,492 of which are vested), (iii) 2,328,675 LTIP units that, upon the satisfaction of certain conditions, are convertible into common units, which may be presented to us for redemption and acquired by us for shares of our common stock (1,800,827 of which are vested).

(3) Because there is no exercise price associated with restricted stock units, phantom stock units or LTIP units, these awards are not included in the weighted-average exercise price calculation.

(4) Balance is after reserving for shares underlying outstanding restricted stock units, phantom stock units granted pursuant to our Non-Employee Directors' Deferral Program and LTIP Units. The number of securities remaining available consists of shares remaining available for issuance under our 2008 Employee Stock Purchase Plan and Third Amended and Restated 2005 Stock Option and Incentive Plan.

FFO is a widely recognized non-GAAP financial measure of REIT performance. The Company computes FFO in accordance with standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company does. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

The Company presents FFO because it considers it an important supplemental measure of the Company's operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions, and real estate related impairment charges, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, and interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company's financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company's liquidity, nor is it indicative of funds available to fund the Company's cash needs, including our ability to make cash distributions

A reconciliation of FFO to net income computed in accordance with GAAP is included in Item 7, of "Management's Discussion and Analysis of Financial Condition and Results of Operations—Funds From Operations."

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

SL Green Realty Corp., which is referred to as SL Green or the Company, a Maryland corporation, and SL Green Operating Partnership, L.P., which is referred to as SLGOP or the Operating Partnership, a Delaware limited partnership, were formed in June 1997 for the purpose of combining the commercial real estate business of S.L. Green Properties, Inc. and its affiliated partnerships and entities. The Company is a self-managed real estate investment trust, or REIT, engaged in the acquisition, development, ownership, management and operation of commercial and residential real estate properties, principally office properties, located in the New York metropolitan area. Unless the context requires otherwise, all references to "we," "our" and "us" means the Company and all entities owned or controlled by the Company, including the Operating Partnership.

Reckson Associates Realty Corp., or Reckson, and Reckson Operating Partnership, L.P. or ROP, are wholly-owned subsidiaries of the SL Green Realty Corp.

The following discussion related to our consolidated financial statements should be read in conjunction with the financial statements appearing in Item 8 of this Annual Report on Form 10-K.

Leasing and Operating

In 2018, our same-store Manhattan office property occupancy inclusive of leases signed but not commenced, was 95.7% compared to 95.8% in the prior year. We signed office leases in Manhattan encompassing approximately 2.3 million square feet, of which approximately 1.3 million square feet represented office leases that replaced previously occupied space. Our mark-to-market on the signed Manhattan office leases that replaced previously occupied space was 6.5% for 2018.

According to Cushman & Wakefield, leasing activity in Manhattan in 2018 totaled approximately 35.9 million square feet. Of the total 2018 leasing activity in Manhattan, the Midtown submarket accounted for approximately 23.7 million square feet, or approximately 66.0%. Manhattan's overall office vacancy went from 8.9% at December 31, 2017 to 9.2% at December 31, 2018 primarily as a result of increased vacancy in the Downtown submarket partially offset by decreased vacancy in the Midtown submarket. Overall average asking rents in Manhattan increased in 2018 by 0.04% from \$72.25 per square foot at December 31, 2017 to \$72.28 per square foot at December 31, 2018.

Acquisition and Disposition Activity

Overall Manhattan sales volume increased by 43.5% in 2018 to \$32.4 billion as compared to \$22.5 billion in 2017. Consistent with our multi-faceted approach to property acquisitions, we were the successful bidder at the foreclosure of the leasehold interest in 2 Herald Square, and accepted equity interests in 1231 Third Avenue, 133 Greene Street, and 712 Madison Avenue in lieu of repayment of the respective mezzanine loans.

We also continued to take advantage of significant interest by both international and domestic institutions and individuals seeking ownership interests in Manhattan properties to sell assets, disposing of a significant volume of properties that were non-core or had more limited growth opportunities, raising efficiently priced capital that was used primarily for share repurchases and debt reduction. During the year, we sold all or part of our interest in 600 Lexington Avenue, 1515 Broadway, 1745 Broadway, 3 Columbus Circle, 2 Herald Square, 115-117 Stevens Avenue, Jericho Plaza, 1-6 International Drive, 175-225 Third Street, 635 Madison Avenue, 724 Fifth Avenue, and the 72nd Street Assemblage for total gross valuations of \$5.0 billion

Debt and Preferred Equity

In 2017 and 2018, in our debt and preferred equity portfolio we continued to focus on the origination of financings, typically in the form of mezzanine debt, for owners, acquirers or developers of properties in New York City. This investment strategy provides us with the opportunity to fill a need for additional debt financing, while achieving attractive risk adjusted returns to us on the investments and receiving a significant amount of additional information on the New York City real estate market. The typical investments made by us during 2017 and 2018 were to reputable owners or acquirers which have sizable equity subordinate to our last dollar of exposure. During 2018, our debt and preferred equity activities included purchases and originations, inclusive of advances under future funding obligations, discount and fee amortization, and paid-in-kind interest, net of premium amortization, of \$986.0 million, and sales,

redemption and participations of \$994.9 million.

For descriptions of significant activities in 2018, refer to "Part I, Item 1. Business - Highlights from 2018."

Table of Contents

Critical Accounting Policies

Our discussion and analysis of financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, and contingencies as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. We evaluate our assumptions and estimates on an ongoing basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Investment in Commercial Real Estate Properties

Real estate properties are presented at cost less accumulated depreciation and amortization. Costs directly related to the development or redevelopment of properties are capitalized. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives.

We recognize the assets acquired, liabilities assumed (including contingencies) and any noncontrolling interests in an acquired entity at their respective fair values on the acquisition date.

We incur a variety of costs in the development and leasing of our properties. After the determination is made to capitalize a cost, it is allocated to the specific component of a project that is benefited. Determination of when a development project is substantially complete and capitalization must cease involves a degree of judgment. The costs of land and building under development include specifically identifiable costs. The capitalized costs include, but are not limited to, pre-construction costs essential to the development of the property, development costs, construction costs, interest costs, real estate taxes, salaries and related costs and other costs incurred during the period of development. We consider a construction project as substantially completed and held available for occupancy upon the completion of tenant improvements, but no later than one year after major construction activity ceases. We cease capitalization on the portions substantially completed and occupied or held available for occupancy, and capitalize only those costs associated with the portions under construction.

On a periodic basis, we assess whether there are any indications that the value of our real estate properties may be other than temporarily impaired or that their carrying value may not be recoverable. A property's value is considered impaired if management's estimate of the aggregate future cash flows (undiscounted) to be generated by the property is less than the carrying value of the property. To the extent impairment has occurred, the loss will be measured as the excess of the carrying amount of the property over the calculated fair value of the property.

We also evaluate our real estate properties for impairment when a property has been classified as held for sale. Real estate assets held for sale are valued at the lower of their carrying value or fair value less costs to sell and depreciation expense is no longer recorded. See Note 4, "Properties Held for Sale and Dispositions."

Investments in Unconsolidated Joint Ventures

We account for our investments in unconsolidated joint ventures under the equity method of accounting in cases where we exercise significant influence over, but do not control, these entities and are not considered to be the primary beneficiary. We consolidate those joint ventures that we control or which are variable interest entities (each, a "VIE") and where we are considered to be the primary beneficiary. In all these joint ventures, the rights of the joint venture partner are both protective as well as participating. Unless we are determined to be the primary beneficiary in a VIE, these participating rights preclude us from consolidating these VIE entities. These investments are recorded initially at cost, as investments in unconsolidated joint ventures, and subsequently adjusted for equity in net income (loss) and cash contributions and distributions. Equity in net income (loss) from unconsolidated joint ventures is allocated based on our ownership or economic interest in each joint venture and includes adjustments related to basis differences that were identified as part of the initial accounting for the investment. When a capital event (as defined in each joint venture agreement) such as a refinancing occurs, if return thresholds are met, future equity income will be

allocated at our increased economic interest. We recognize incentive income from unconsolidated real estate joint ventures as income to the extent it is earned and not subject to a clawback feature. Distributions we receive from unconsolidated real estate joint ventures in excess of our basis in the investment are recorded as offsets to our investment balance if we remain liable for future obligations of the joint venture or may otherwise be committed to provide future additional financial support. None of the joint venture debt is recourse to us. The Company has performance guarantees under a master lease at one joint venture. See Note 6, "Investments in Unconsolidated Joint Ventures."

We assess our investments in unconsolidated joint ventures for recoverability, and if it is determined that a loss in value of the investment is other than temporary, we write down the investment to its fair value. We evaluate our equity investments for

Table of Contents

impairment based on the joint ventures' projected discounted cash flows. We do not believe that the values of any of our equity investments were impaired at December 31, 2018.

We may originate loans for real estate acquisition, development and construction, where we expect to receive some of the residual profit from such projects. When the risk and rewards of these arrangements are essentially the same as an investor or joint venture partner, we account for these arrangements as real estate investments under the equity method of accounting for investments. Otherwise, we account for these arrangements consistent with the accounting for our debt and preferred equity investments.

Revenue Recognition

Rental revenue is recognized on a straight-line basis over the term of the lease. The excess of rents recognized over amounts contractually due pursuant to the underlying leases are included in deferred rents receivable on the consolidated balance sheets. We establish, on a current basis, an allowance for future potential tenant credit losses, which may occur against this account. The balance reflected on the consolidated balance sheets is net of such allowance.

We record a gain on sale of real estate when title is conveyed to the buyer, subject to the buyer's financial commitment being sufficient to provide economic substance to the sale and provided that we have no substantial economic involvement with the buyer.

Interest income on debt and preferred equity investments is accrued based on the contractual terms of the instruments and when, in the opinion of management, it is deemed collectible. Some debt and preferred equity investments provide for accrual of interest at specified rates, which differ from current payment terms. Interest is recognized on such loans at the accrual rate subject to management's determination that accrued interest is ultimately collectible, based on the underlying collateral and operations of the borrower. If management cannot make this determination, interest income above the current pay rate is recognized only upon actual receipt.

Deferred origination fees, original issue discounts and loan origination costs, if any, are recognized as an adjustment to the interest income over the terms of the related investments using the effective interest method. Fees received in connection with loan commitments are also deferred until the loan is funded and are then recognized over the term of the loan as an adjustment to yield.

Debt and preferred equity investments are placed on a non-accrual status at the earlier of the date at which payments become 90 days past due or when, in the opinion of management, a full recovery of interest income becomes doubtful. Interest income recognition on any non-accrual debt or preferred equity investment is resumed when such non-accrual debt or preferred equity investment becomes contractually current and performance is demonstrated to be resumed.

Interest is recorded as income on impaired loans only to the extent cash is received.

We may syndicate a portion of the loans that we originate or sell the loans individually. When a transaction meets the criteria for sale accounting, we derecognize the loan sold and recognize gain or loss based on the difference between the sales price and the carrying value of the loan sold. Any related unamortized deferred origination fees, original issue discounts, loan origination costs, discounts or premiums at the time of sale are recognized as an adjustment to the gain or loss on sale, which is included in investment income on the consolidated statement of operations. Any fees received at the time of sale or syndication are recognized as part of investment income.

Asset management fees are recognized on a straight-line basis over the term of the asset management agreement.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability of our tenants to make required payments. If the financial condition of a specific tenant were to deteriorate, resulting in an impairment of its ability to make payments, additional allowances may be required.

Allowance for loan loss and other investment reserves

The expense for loan loss and other investment reserves in connection with debt and preferred equity investments is the charge to earnings to adjust the allowance for possible losses to the level that we estimate to be adequate, based on Level 3 data, considering delinquencies, loss experience and collateral quality.

The Company evaluates debt and preferred equity investments that are held to maturity for possible impairment or credit deterioration associated with the performance and/or value of the underlying collateral property as well as the

financial and operating capability of the borrower/sponsor. Quarterly, the Company assigns each loan a risk rating. Based on a 3-point scale, loans are rated "1" through "3," from less risk to greater risk, which ratings are defined as follows: 1 - Low Risk Assets - Low probability of loss, 2 - Watch List Assets - Higher potential for loss, 3 - High Risk Assets - Loss more likely than not.

When it is probable that we will be unable to collect all amounts contractually due, the investment is considered impaired. A valuation allowance is measured based upon the excess of the recorded investment amount over the fair value of the collateral.

Table of Contents

Any deficiency between the carrying amount of an asset and the calculated value of the collateral is charged to expense. We continue to assess or adjust our estimates based on circumstances of a loan and the underlying collateral. If additional information reflects increased recovery of our investment, we will adjust our reserves accordingly.

Debt and preferred equity investments that are classified as held for sale are carried at the lower of cost or fair market value using available market information obtained through consultation with dealers or other originators of such investments as well as discounted cash flow models based on Level 3 data pursuant to ASC 820-10. As circumstances change, management may conclude not to sell an investment designated as held for sale. In such situations, the investment will be reclassified at its net carrying value to debt and preferred equity investments held to maturity. For these reclassified investments, the difference between the current carrying value and the expected cash to be collected at maturity will be accreted into income over the remaining term of the investment.

Derivative Instruments

In the normal course of business, we use a variety of commonly used derivative instruments, such as interest rate swaps, caps, collars and floors, to manage, or hedge, interest rate risk. Effectiveness is essential for those derivatives that we intend to qualify for hedge accounting. Some derivative instruments are associated with an anticipated transaction. In those cases, hedge effectiveness criteria also require that it be probable that the underlying transaction occurs. Instruments that meet these hedging criteria are formally designated as hedges at the inception of the derivative contract.

To determine the fair values of derivative instruments, we use a variety of methods and assumptions that are based on market conditions and risks existing at each balance sheet date. For the majority of financial instruments including most derivatives, long-term investments and long-term debt, standard market conventions and techniques such as discounted cash flow analysis, option pricing models, replacement cost, and termination cost are used to determine fair value. All methods of assessing fair value result in a general approximation of value, and such value may never actually be realized.

Table of Contents

Reconciliation of Net Income to Same-Store Operating Income

We present Same-Store Operating Income because we believe that this measure, when taken together with the corresponding GAAP financial measures and our reconciliation, provides investors with meaningful information regarding the operating performance of our properties. When operating performance is compared across multiple periods, the investor is provided with information not immediately apparent from net income that is determined in accordance with GAAP. Same-Store Operating Income provides information on trends in the revenue generated and expenses incurred in operating our properties, unaffected by the cost of leverage, depreciation, amortization, and other net income components. We use this metric internally as a performance measure. This measure is not an alternative to net income (determined in accordance with GAAP) and same-store performance should not be considered an alternative to GAAP net income performance. This metric may be defined differently, and may not be comparable, to similarly named metrics used by other companies.

Comparison of the year ended December 31, 2018 to the year ended December 31, 2017

For properties owned since January 1, 2017 and still owned and operated at December 31, 2018, Same-Store Operating Income is determined as follows (in millions):

(in millions)	Year Ended	
	December 31,	
	2018	2017
Net income	\$270.9	\$101.1
Equity in net gain on sale of interest in unconsolidated joint venture/real estate	(304.0)	(16.2)
Purchase price and other fair value adjustment	(57.4)	—
Loss (gain) on sale of real estate, net	30.8	(73.2)
Depreciable real estate reserves and impairment	227.5	178.5
Gain on sale of investment in marketable securities	—	(3.3)
Depreciation and amortization	279.5	403.3
Interest expense, net of interest income	208.7	257.0
Amortization of deferred financing costs	12.4	16.5
Operating income	668.4	863.7
Less: Operating income from other properties/affiliates	(131.3)	(345.9)
Same-store operating income	\$537.1	\$517.8

Comparison of the year ended December 31, 2017 to the year ended December 31, 2016

For properties owned since January 1, 2016 and still owned and operated at December 31, 2017, Same-Store Operating Income is determined as follows (in millions):

(in millions)	Year Ended	
	December 31,	
	2017	2016
Net income	\$101.1	\$278.9
Equity in net gain on sale of interest in unconsolidated joint venture/real estate	(16.2)	(44.0)
Gain on sale of real estate, net	(73.2)	(238.1)
Depreciable real estate reserves and impairment	178.5	10.4
(Gain) loss on sale of investment in marketable securities	(3.3)	0.1
Depreciation and amortization	403.3	821.0
Interest expense, net of interest income	257.0	321.2
Amortization of deferred financing costs	16.5	24.6
Operating income	863.7	1,174.1
Less: Operating income from other properties/affiliates	(244.2)	(556.9)
Same-store operating income	\$619.5	\$617.2

Results of Operations

Comparison of the year ended December 31, 2018 to the year ended December 31, 2017

The following comparison for the year ended December 31, 2018, or 2018, to the year ended December 31, 2017, or 2017, makes reference to the effect of the following:

- i. "Same-Store Properties," which represents all operating properties owned by us at January 1, 2017 and still owned by us in the same manner at December 31, 2018 (Same-Store Properties totaled 40 of our 49 consolidated operating properties),
- ii. "Acquisition Properties," which represents all properties or interests in properties acquired in 2018 and 2017 and all non-Same-Store Properties, including properties that are under development or redevelopment,
- iii. "Disposed Properties" which represents all properties or interests in properties sold in 2018 and 2017, and
- iv. "Other," which represents properties where we sold an interest resulting in deconsolidation and corporate level items not allocable to specific properties, as well as the Service Corporation and eEmerge Inc.

Rental, Escalation and Reimbursement Revenues

Rental revenues decreased primarily as a result of Disposed Properties (\$53.2 million), including the partial sale and deconsolidation of 1515 Broadway, along with the deconsolidation of 919 Third Avenue (\$190.6 million). The decrease was partially offset by increased revenue at our Same-Store properties (\$16.2 million).

Table of Contents

Escalation and reimbursement revenue decreased primarily as a result of the partial sale and deconsolidation of 1515 Broadway and the deconsolidation of 919 Third Avenue (\$56.3 million), partially offset by higher recoveries at our Same-Store properties (\$6.6 million).

The following table presents a summary of the commenced leasing activity for the year ended December 31, 2018 in our Manhattan and Suburban portfolio:

(1) Annual initial base rent.

(2) Escalated rent is calculated as total annual income less electric charges.

(3) Includes expiring space, relocating tenants and move-outs where tenants vacated. Excludes lease expirations where tenants held over.

Average starting office rent excluding new tenants replacing vacancies was \$72.42 per rentable square feet for (4) 1,127,841 rentable square feet. Average starting office rent for office space (leased and early renewals, excluding new tenants replacing vacancies) was \$66.29 per rentable square feet for 629,518 rentable square feet.

Average starting office rent excluding new tenants replacing vacancies was \$30.05 per rentable square feet for (5) 217,842 rentable square feet. Average starting office rent for office space (leased and early renewals, excluding new tenants replacing vacancies) was \$32.17 per rentable square feet for 104,571 rentable square feet.

Investment Income

Investment income increased primarily as a result of new originations, a larger weighted average book balance, and higher acceleration of previously unrecognized fees as a result of sales, redemptions, modifications or syndications (\$1.3 million).

For the year ended December 31, 2018, the weighted average debt and preferred equity investment balance outstanding and weighted average yield were \$2.1 billion and 9.0%, respectively. Excluding our investment in Two Herald Square which was put on non-accrual in August 2017, the weighted average debt and preferred equity investment balance outstanding and weighted average yield for the year ended December 31, 2017 were to \$1.9 billion and 9.3%, respectively. As of December 31, 2018, the debt and preferred equity investments had a weighted average term to maturity of 1.8 years excluding extension options.

Other Income

Other income increased primarily as a result of fees recognized in connection with the recapitalization of a joint venture property (\$5.8 million), real estate tax refunds at our Same-Store Properties (\$3.2 million), lease termination income (\$2.9 million),

Table of Contents

and promote income related to the sale of 1274 Fifth Avenue (\$2.1 million), partially offset by net fees recognized in connection with the One Vanderbilt joint venture (\$8.4 million).

Property Operating Expenses

Property operating expenses decreased primarily as a result of the partial sale and deconsolidation of 1515 Broadway, the deconsolidation of 919 Third Avenue (\$103.2 million) and the Disposed Properties (\$22.8 million), which was partially offset by increased real estate taxes at our Same-Store Properties (\$8.0 million).

Marketing, General and Administrative Expenses

Marketing, general and administrative expenses decreased by \$7.9 million to \$92.6 million for the year ended December 31, 2018, or 5.2% of total combined revenues, including our share of joint venture revenues, compared to \$100.5 million, or 5.3% of total revenues including our share of joint venture revenues, for the year ended December 31, 2017.

Interest Expense and Amortization of Deferred Financing Costs, Net of Interest Income

Interest expense and amortization of deferred financing costs, net of interest income, decreased primarily as a result of the partial sale and deconsolidation of 1515 Broadway (\$33.0 million) and the deconsolidation of 919 Third Avenue (\$26.5 million). The weighted average consolidated debt balance outstanding was \$5.7 billion for the year ended December 31, 2018 as compared to \$6.6 billion for the year ended December 31, 2017. The consolidated weighted average interest rate increased to 4.06% for the year ended December 31, 2018 as compared to 4.00% for the year ended December 31, 2017 as a result of an increase in LIBOR.

Depreciation and Amortization

Depreciation and amortization decreased primarily as a result of 185 Broadway which was moved to development (\$50.4 million) in the first quarter of 2018, the deconsolidation of 919 Third Avenue, the partial sale and deconsolidation of 1515 Broadway (\$60.6 million) and the Disposed Properties (\$22.4 million).

Equity in Net Income in Unconsolidated Joint Venture/Real Estate

Equity in net income from unconsolidated joint ventures decreased primarily as a result of the repayment and redemption of certain debt and preferred equity positions accounted for under the equity method (\$8.7 million), and the sale of 1745 Broadway in the second quarter of 2018 (\$2.9 million), partially offset by the partial sale and deconsolidation of 1515 Broadway and the deconsolidation of 919 Third Avenue (\$6.6 million).

Equity in Net Gain on Sale of Interest in Unconsolidated Joint Ventures

During the year ended December 31, 2018, we recognized a gain on sale related to our joint venture interests in 3 Columbus Circle (\$160.4 million), 724 Fifth Avenue (\$64.6 million), 1745 Broadway (\$52.0 million), 175-225 Third Avenue (\$19.5 million), 720 Fifth Avenue (\$6.3 million) and Jericho Plaza (\$0.1 million), and a loss related to the sale of our interest in Stonehenge Village (\$5.7 million).

Purchase price and other fair value adjustments

In January 2018, the partnership agreement for our investment in 919 Third Avenue was modified resulting in our partner now having substantive participating rights in the venture and the Company no longer having a controlling interest in the investment. As a result the investment in this property was deconsolidated as of January 1, 2018. The Company recorded its non-controlling interest at fair value resulting in a \$49.3 million fair value adjustment in the consolidated statement of operations. This fair value was allocated to the assets and liabilities, including identified intangibles of the property.

In May, 2018, the Company was the successful bidder at the foreclosure of 2 Herald Square, at which time the Company's \$250.5 million outstanding principal balance on its debt and preferred equity investment and \$7.7 million accrued interest balance receivables were credited to our equity investment in the property. We recorded the assets acquired and liabilities assumed at fair value. This resulted in the recognition of a fair value adjustment of \$8.1 million, which is reflected on the Company's consolidated statement of operations within purchase price and other fair value adjustments. This fair value was allocated to the assets and liabilities, including identified intangibles of the property.

(Loss) Gain on Sale of Real Estate, Net

During the year ended December 31, 2018, we recognized a gain on sale related to our interests in 600 Lexington (\$23.8 million) and we recognized a loss on sale related to our interest in 300-400 Summit Lake Drive (\$36.2 million), 635 Madison (\$14.1 million), Reckson Executive Park (\$2.6 million) and 115-117 Stevens Avenue (\$0.7 million). During the year ended December 31, 2017, we recognized a gain on sale associated with the sale of the property at 16 Court Street (\$64.9 million), and the partial sale of the property at 102 Greene Street (\$4.9 million). This gain was partially offset by a loss on the sale of 885

Table of Contents

Third Avenue (\$8.8 million) which closed in 2016, but was only recognized in the second quarter of 2017 due to the sale not meeting the criteria for sale accounting under the full accrual method in ASC 360-20 until the second quarter of 2017.

Depreciable Real Estate Reserves and Impairment

During the year ended December 31, 2018, we recorded a charge related to 5 suburban office properties comprised of 13 buildings (\$221.9 million), which the company has stated it intends to dispose of, and a charge related to the Upper East Side Residential Assemblage (\$5.8 million). During the year ended December 31, 2017, we recorded a \$178.5 million of depreciable real estate reserves and impairment related to Reckson Executive Park, Stamford Towers, 125 Chubb Avenue in Lyndhurst, NJ, 115-117 Stevens Avenue in Valhalla, New York, 520 White Plains Road in Tarrytown, NY, and our investment in Jericho Plaza.

Loss on early extinguishment of debt

During the year ended December 31, 2018, we recognized a loss on early extinguishment of debt as a result of the early repayment of the debt at One Madison Avenue (\$14.9 million), and the mortgage at 220 East 42nd (\$2.2 million).

Loan loss and other investment reserves, net of recoveries

During the year ended December 31, 2018, we recognized a loss related to two of our debt and preferred equity positions (\$5.8 million) that are being marketed for sale, and the repayment of an investment pursuant to the sale of a property (\$1.1 million).

Comparison of the year ended December 31, 2017 to the year ended December 31, 2016

The following comparison for the year ended December 31, 2017, or 2017, to the year ended December 31, 2016, or 2016, makes reference to the effect of the following:

- i. "Same-Store Properties," which represents all operating properties owned by us at January 1, 2016 and still owned by i.us in the same manner at December 31, 2017 (Same-Store Properties totaled 43 of our 60 consolidated operating properties),
- ii. "Acquisition Properties," which represents all properties or interests in properties acquired in 2017 and 2016 and all non-Same-Store Properties, including properties that are under development or redevelopment,
- iii. "Disposed Properties" which represents all properties or interests in properties sold in 2017 and 2016, and
- iv. "Other," which represents properties where we sold an interest resulting in deconsolidation and corporate level items not allocable to specific properties, as well as the Service Corporation and eEmerge Inc.

Rental, Escalation and Reimbursement Revenues

Rental revenues decreased primarily as a result of Disposed Properties (\$239.7 million), which included 388-390 Greenwich Street and the effect of the partial sale and deconsolidation of 11 Madison Avenue in the third quarter of 2016. This decrease was offset by increased rental revenue at Same-Store Properties (\$19.1 million), and by 1515 Broadway which, in 2016, recognized accounting write-offs (\$17.4 million) related to the space previously leased to Aeropostale following the tenant's bankruptcy.

Escalation and reimbursement revenue decreased primarily as a result of Disposed Properties (\$12.7 million) and lower recoveries at our Same-Store properties (\$10.6 million).

(1) Annual initial base rent.

(2) Escalated rent is calculated as total annual income less electric charges.

(3) Includes expiring space, relocating tenants and move-outs where tenants vacated. Excludes lease expirations where tenants held over.

Average starting office rent excluding new tenants replacing vacancies was \$70.21 per rentable square feet for (4) 120,566 rentable square feet. Average starting office rent for office space (leased and early renewals, excluding new tenants replacing vacancies) was \$72.83 per rentable square feet for 217,384 rentable square feet.

Average starting office rent excluding new tenants replacing vacancies was \$37.88 per rentable square feet for (5) 25,866 rentable square feet. Average starting office rent for office space (leased and early renewals, excluding new tenants replacing vacancies) was \$35.19 per rentable square feet for 96,688 rentable square feet.

Investment Income

Investment income decreased primarily as a result of additional income recognized from the recapitalization of a debt investment (\$41.0 million) in the third quarter of 2016, partially offset by income related to our preferred equity investment in 885 Third Avenue (\$16.9 million) and a larger weighted average book balance. For the twelve months

ended December 31, 2017, the weighted average debt and preferred equity investment balance outstanding and weighted average yield were \$1.9 billion and 9.3% excluding our investment in Two Herald Square which was put on non-accrual in August 2017, respectively, compared to \$1.5 billion and 9.7%, respectively, for the same period in 2016. As of December 31, 2017, the debt and preferred equity investments had a weighted average term to maturity of 2.2 years excluding extension options and our investment in Two Herald Square.

Other Income

Other income decreased primarily as a result of the termination fee earned in connection with the termination of the lease with Citigroup, Inc. at 388-390 Greenwich in 2016 (\$94.0 million) and promote income earned in connection with the sale of 33

Table of Contents

Beekman in the second quarter of 2016 (\$10.8 million). The decrease was partially offset by net fees recognized in connection with the One Vanderbilt venture in 2017 (\$13.3 million).

Property Operating Expenses

Property operating expenses decreased primarily as a result of Disposed Properties (\$33.4 million) partially offset by increased real estate taxes at our Same-Store Properties (\$8.2 million).

Transaction Related Costs

The decrease in transaction related costs in 2017 is primarily due to the adoption of ASU No. 2017-01 in 2017, which clarified the definition of a business and provided guidance to assist in determining whether transactions should be accounted for as acquisitions of assets or businesses. Following the adoption of the guidance, most of our real estate acquisitions are considered asset acquisitions and transaction costs are therefore capitalized to the investment basis when they would have previously been expensed under the previous guidance. Transaction costs expensed in 2017 relate primarily to transactions that are not moving forward for which any costs incurred are expensed.

Marketing, General and Administrative Expenses

Marketing, general and administrative expenses for the year ended December 31, 2017 were \$100.5 million, including a \$4.1 million charge related to forfeiture of the Company's 2014 Outperformance Plan awards, or 5.3% of total combined revenues, including our share of joint venture revenues, and 53 basis points of total combined assets, including our share of joint venture assets compared to \$99.8 million, or 4.7% of total revenues including our share of joint venture revenues, and 53 basis points of total combined assets including our share of joint venture assets for 2016.

Interest Expense and Amortization of Deferred Financing Costs, Net of Interest Income

Interest expense and amortization of deferred financing costs, net of interest income, decreased primarily as a result of the Disposed Properties (\$72.2 million). The weighted average consolidated debt balance outstanding was \$6.6 billion for the year ended December 31, 2017 from \$8.5 billion for the year ended December 31, 2016. The consolidated weighted average interest rate was 4.00% for the year ended December 31, 2017 as compared to 3.82% for the year ended December 31, 2016.

Depreciation and Amortization

Depreciation and amortization decreased primarily as a result of the Disposed Properties (\$448.9 million), partially offset by accelerated amortization at 5-7 Dey Street, 183 & 187 Broadway upon the commencement of demolition of the properties (\$32.0 million).

Equity in Net Income in Unconsolidated Joint Venture/Real Estate

Equity in net income from unconsolidated joint ventures increased primarily as a result of the sale of a 40% interest in 11 Madison in the third quarter of 2016 (\$13.0 million), as well as higher net income contributions from 1745 Broadway (\$7.3 million) and 605 West 42nd Street (\$3.5 million) in 2017. These increases were partially offset by lower net income contributions from 280 Park Avenue (\$5.7 million) as a result of the write off of deferred financing costs in conjunction with the refinancing of the debt on the property, reduced occupancy at 3 Columbus Circle (\$3.9 million), and revenues from a debt and preferred equity investment that was contributed to a joint venture in the first quarter of 2016, and repaid in the second quarter of 2017 (\$2.7 million).

Equity in Net Gain on Sale of Interest in Unconsolidated Joint Ventures

During the year ended December 31, 2016 we recognized a gain on the sale related to our interests in 747 Madison Avenue (\$13.0 million), 102 Greene Street (\$0.3 million) and part of our interest in the Stonehenge Portfolio (\$0.9 million). The sale of 747 Madison, which occurred in 2014, did not meet the criteria for sale accounting at that time and, therefore, remained on our consolidated financial statement until the criteria was met in the second quarter of 2017. During the year ended December 31, 2016, in which we recognized a gain on the sale of our interests in 33 Beekman Street (\$33.0 million), 7 Renaissance Square (\$4.2 million), 1 Jericho (\$3.3 million) and EOP Denver (\$3.1 million).

Gain on Sale of Real Estate, Net

During the year ended December 31, 2017, we recognized a gain on sale associated with the sale of the property at 16 Court Street (\$64.9 million), and the partial sale of the property at 102 Greene Street (\$4.9 million). This gain was

partially offset by a loss on the sale of 885 Third Avenue (\$8.8 million) which closed in 2016, but was only recognized in the second quarter of 2017 due to the sale not meeting the criteria for sale accounting under the full accrual method in ASC 360-20 until the second quarter of 2017. During the year ended December 31, 2016 we recognized a gain on sale associated with the sales of 388-390 Greenwich (\$206.5 million), a 49% interest in 400 East 57th Street (\$23.9 million), 248-252 Bedford Avenue in Brooklyn, New York (\$15.3 million), and a 40% interest in 11 Madison Avenue (\$3.6 million), partially offset by the loss on the sale of 7 International Drive, Westchester County, NY (\$6.9 million).

Table of Contents

Depreciable Real Estate Reserves and Impairment

During the year ended December 31, 2017, we recorded a \$178.5 million of depreciable real estate reserves and impairment related to Reckson Executive Park, Stamford Towers, 125 Chubb Avenue in Lyndhurst, NJ, 115-117 Stevens Avenue in Valhalla, New York, 520 White Plains Road in Tarrytown, NY, and our investment in Jericho Plaza. During the year ended December 31, 2016, we recognized depreciable real estate reserves and impairment related to 500 West Putnam (\$10.4 million).

Liquidity and Capital Resources

We currently expect that our principal sources of funds to meet our short-term and long-term liquidity requirements for working capital, acquisitions, development or redevelopment of properties, tenant improvements, leasing costs, share repurchases, dividends to shareholders, distributions to unitholders, repurchases or repayments of outstanding indebtedness (which may include exchangeable debt) and for debt and preferred equity investments will include:

- (1) Cash flow from operations;
- (2) Cash on hand;
- (3) Net proceeds from divestitures of properties and redemptions, participations and dispositions of debt and preferred equity investments;
- (4) Borrowings under the 2017 credit facility;
- (5) Other forms of secured or unsecured financing; and
- (6) Proceeds from common or preferred equity or debt offerings by the Company or the Operating Partnership (including issuances of units of limited partnership interest in the Operating Partnership and Trust preferred securities).

Cash flow from operations is primarily dependent upon the occupancy level of our portfolio, the net effective rental rates achieved on our leases, the collectability of rent, operating escalations and recoveries from our tenants and the level of operating and other costs. Additionally, we believe that our debt and preferred equity investment program will continue to serve as a source of operating cash flow.

The combined aggregate principal maturities of our property mortgages and other loans payable, corporate obligations and our share of joint venture debt, including as-of-right extension options, as of December 31, 2018 were as follows (in thousands):

	2019	2020	2021	2022	2023	Thereafter	Total
Property mortgages and other loans	\$6,241	\$26,640	\$151,505	\$208,017	\$122,851	\$1,145,405	\$1,660,659
MRA and FHLB facilities	27,500	300,000	—	—	—	—	327,500
Corporate obligations	—	250,000	350,000	800,000	1,800,000	400,000	3,600,000
Joint venture debt-our share	115,295	278,791	518,371	220,810	277,996	2,430,198	3,841,461
Total	\$149,036	\$855,431	\$1,019,876	\$1,228,827	\$2,200,847	\$3,975,603	\$9,429,620

As of December 31, 2018, we had \$158.1 million of consolidated cash on hand, inclusive of \$28.6 million of marketable securities. We expect to generate positive cash flow from operations for the foreseeable future. We may seek to divest of properties or interests in properties or access private and public debt and equity capital when the opportunity presents itself, although there is no guarantee that this capital will be made available to us at efficient levels or at all. Management believes that these sources of liquidity, if we are able to access them, along with potential refinancing opportunities for secured and unsecured debt, will allow us to satisfy our debt obligations, as described above, upon maturity, if not before.

We also have investments in several real estate joint ventures with various partners who we consider to be financially stable and who have the ability to fund a capital call when needed. Most of our joint ventures are financed with non-recourse debt. We believe that property level cash flows along with unfunded committed indebtedness and proceeds from the refinancing of outstanding secured indebtedness will be sufficient to fund the capital needs of our joint venture properties.

Cash Flows

The following summary discussion of our cash flows is based on our consolidated statements of cash flows in "Item 1. Financial Statements" and is not meant to be an all-inclusive discussion of the changes in our cash flows for the years

presented below.

Cash, restricted cash, and cash equivalents were \$279.1 million and \$250.0 million at December 31, 2018 and 2017, respectively, representing a increase of \$29.1 million. The increase was a result of the following changes in cash flows (in thousands):

53

Table of Contents

	Year Ended December 31,		
	2018	2017	(Decrease) Increase
Net cash provided by operating activities	\$441,537	\$543,001	\$(101,464)
Net cash provided by investing activities	\$681,662	\$22,014	\$659,648
Net cash used in by financing activities	\$(1,094,112)	\$(684,956)	\$(409,156)

Our principal source of operating cash flow is related to the leasing and operating of the properties in our portfolio. Our properties provide a relatively consistent stream of cash flow that provides us with resources to pay operating expenses, debt service, and fund quarterly dividend and distribution requirements. Our debt and preferred equity investments and joint venture investments also provide a steady stream of operating cash flow to us.

Cash is used in investing activities to fund acquisitions, development or redevelopment projects and recurring and nonrecurring capital expenditures. We selectively invest in new projects that enable us to take advantage of our development, leasing, financing and property management skills, and invest in existing buildings that meet our investment criteria. During the year ended December 31, 2018, when compared to the year ended December 31, 2017, we used cash primarily for the following investing activities (in thousands):

Acquisitions of real estate	\$ (31,806)
Capital expenditures and capitalized interest	81,541
Escrow cash-capital improvements/acquisition deposits/deferred purchase price	—
Joint venture investments	(11,180)
Distributions from joint ventures	(86,627)
Proceeds from sales of real estate/partial interest in property	538,208
Debt and preferred equity and other investments	169,512
Increase in net cash used in investing activities	\$659,648

Funds spent on capital expenditures, which are comprised of building and tenant improvements, decreased from \$336.0 million for the year ended December 31, 2017 to \$254.5 million for the year ended December 31, 2018. The decrease in capital expenditures relates primarily to lower costs incurred in connection with the redevelopment of properties.

We generally fund our investment activity through the sale of real estate, property-level financing, our credit facilities, our MRA facilities, senior unsecured notes, convertible or exchangeable securities, and construction loans. From time to time, the Company may issue common or preferred stock, or the Operating Partnership may issue common or preferred units of limited partnership interest. During the year ended December 31, 2018, when compared to the year ended December 31, 2017, we used cash for the following financing activities (in thousands):

Proceeds from our debt obligations	\$29,333
Repayments of our debt obligations	(249,600)
Net distribution to noncontrolling interests	12,532
Other financing activities	(39,155)
Proceeds from stock options exercised and DRSP issuance	5,511
Payment of debt extinguishment costs	(13,918)
Repurchase of common stock	(173,239)
Redemption of preferred stock	(933)
Dividends and distributions paid	20,313
Increase in net cash provided by financing activities	\$(409,156)

Capitalization

Our authorized capital stock consists of 260,000,000 shares, \$0.01 par value per share, consisting of 160,000,000 shares of common stock, \$0.01 par value per share, 75,000,000 shares of excess stock, at \$0.01 par value per share, and 25,000,000 shares of preferred stock, \$0.01 par value per share. As of December 31, 2018, 83,683,847 shares of common stock and no shares of excess stock were issued and outstanding.

Table of Contents

Share Repurchase Program

In August 2016, our Board of Directors approved a share repurchase plan under which we can repurchase up to \$1.0 billion of shares of our common stock. The Board of Directors has since authorized three separate \$500.0 million increases to the size of the share repurchase program in the fourth quarter of 2017, second quarter of 2018, and fourth quarter of 2018, bringing the total program size to \$2.5 billion.

At December 31, 2018 repurchases executed under the plan were as follows:

Period	Shares repurchased	Average price paid per share	Cumulative number of shares repurchased as part of the repurchase plan or programs
Year ended 2017	8,342,411	\$101.64	8,342,411
First quarter 2018	3,653,928	\$97.07	11,996,339
Second quarter 2018	3,479,552	\$97.22	15,475,891
Third quarter 2018	252,947	\$99.75	15,728,838
Fourth quarter 2018	2,358,484	\$93.04	18,087,322

At-The-Market Equity Offering Program

In March 2015, the Company, along with the Operating Partnership, entered into an "at-the-market" equity offering program, or ATM Program, to sell an aggregate of \$300.0 million of our common stock. The Company did not make any sales of its common stock under the ATM program in the years ended December 31, 2018, 2017, or 2016.

Dividend Reinvestment and Stock Purchase Plan ("DRSPP")

In February 2018, the Company filed a registration statement with the SEC for our dividend reinvestment and stock purchase plan, or DRSPP, which automatically became effective upon filing. The Company registered 3,500,000 shares of our common stock under the DRSPP. The DRSPP commenced on September 24, 2001.

The following table summarizes SL Green common stock issued, and proceeds received from dividend reinvestments and/or stock purchases under the DRSPP for the years ended December 31, 2018, 2017, and 2016, respectively (in thousands):

	Year Ended		
	December 31,		
	2018	2017	2016
Shares of common stock issued	1,399	2,141	2,687
Dividend reinvestments/stock purchases under the DRSPP	\$136	\$223	\$277

Fourth Amended and Restated 2005 Stock Option and Incentive Plan

The Fourth Amended and Restated 2005 Stock Option and Incentive Plan, or the 2005 Plan, was approved by the Company's board of directors in April 2016 and its stockholders in June 2016 at the Company's annual meeting of stockholders. Subject to adjustments upon certain corporate transactions or events, awards with respect to up to a maximum of 27,030,000 fungible units may be granted as options, restricted stock, phantom shares, dividend equivalent rights and other equity-based awards under the 2005 Plan. As of December 31, 2018, 6.7 million fungible units were available for issuance under the 2005 Plan after reserving for shares underlying outstanding restricted stock units, phantom stock units granted pursuant to our Non-Employee Directors' Deferral Program and LTIP Units.

Table of Contents

2014 Outperformance Plan

In August 2014, the compensation committee of the Company's board of directors approved the general terms of the SL Green Realty Corp. 2014 Outperformance Plan, or the 2014 Outperformance Plan. Participants in the 2014 Outperformance Plan could earn, in the aggregate, up to 610,000 LTIP Units in our Operating Partnership based on our total return to stockholders for the three-year period beginning September 1, 2014. Under the 2014 Outperformance Plan, two-thirds of the LTIP Units were subject to performance based vesting based on the Company's absolute total return to stockholders and one-third of the LTIP Units were subject to performance based vesting based on relative total return to stockholders compared to the constituents of the MSCI REIT Index. LTIP Units earned under the 2014 Outperformance Plan were to be subject to continued vesting requirements, with 50% of any awards earned vesting on August 31, 2017 and the remaining 50% vesting on August 31, 2018, subject to continued employment with us through such dates. Participants were not entitled to distributions with respect to LTIP Units granted under the 2014 Outperformance Plan unless and until they are earned. If LTIP Units were earned, each participant would have been entitled to the distributions that would have been paid had the number of earned LTIP Units been issued at the beginning of the performance period, with such distributions being paid in the form of cash or additional LTIP Units. Thereafter, distributions were to be paid currently with respect to all earned LTIP Units, whether vested or unvested.

Based on our performance, none of the LTIP Units granted under the 2014 Outperformance Plan were earned pursuant to the terms of the 2014 Outperformance Plan, and all units issued were forfeited in 2017.

The cost of the 2014 Outperformance Plan (\$27.9 million subject to forfeitures), based on the portion of the 2014 Outperformance Plan granted prior to termination, was amortized into earnings through December 31, 2017. We recorded zero compensation expense during the year ended December 31, 2018, and compensation expense of \$13.6 million and \$8.4 million during the years ended December 31, 2017 and 2016, respectively, related to the 2014 Outperformance Plan.

Deferred Compensation Plan for Directors

Under our Non-Employee Director's Deferral Program, which commenced July 2004, the Company's non-employee directors may elect to defer up to 100% of their annual retainer fee, chairman fees, meeting fees and annual stock grant. Unless otherwise elected by a participant, fees deferred under the program shall be credited in the form of phantom stock units. The program provides that a director's phantom stock units generally will be settled in an equal number of shares of common stock upon the earlier of (i) the January 1 coincident with or the next following such director's termination of service from the Board of Directors or (ii) a change in control by us, as defined by the program. Phantom stock units are credited to each non-employee director quarterly using the closing price of our common stock on the first business day of the respective quarter. Each participating non-employee director is also credited with dividend equivalents or phantom stock units based on the dividend rate for each quarter, which are either paid in cash currently or credited to the director's account as additional phantom stock units.

During the year ended December 31, 2018, 13,638 phantom stock units were earned and 9,459 shares of common stock were issued to our board of directors. We recorded compensation expense of \$2.4 million during the year ended December 31, 2018 related to the Deferred Compensation Plan. As of December 31, 2018, there were 113,492 phantom stock units outstanding pursuant to our Non-Employee Director's Deferral Program.

Employee Stock Purchase Plan

In 2007, the Company's board of directors adopted the 2008 Employee Stock Purchase Plan, or ESPP, to encourage our employees to increase their efforts to make our business more successful by providing equity-based incentives to eligible employees. The ESPP is intended to qualify as an "employee stock purchase plan" under Section 423 of the Code, and has been adopted by the board to enable our eligible employees to purchase the Company's shares of common stock through payroll deductions. The ESPP became effective on January 1, 2008 with a maximum of 500,000 shares of the common stock available for issuance, subject to adjustment upon a merger, reorganization, stock split or other similar corporate change. The Company filed a registration statement on Form S-8 with the SEC with respect to the ESPP. The common stock is offered for purchase through a series of successive offering periods. Each offering period will be three months in duration and will begin on the first day of each calendar quarter, with the first

offering period having commenced on January 1, 2008. The ESPP provides for eligible employees to purchase the common stock at a purchase price equal to 85% of the lesser of (1) the market value of the common stock on the first day of the offering period or (2) the market value of the common stock on the last day of the offering period. The ESPP was approved by our stockholders at our 2008 annual meeting of stockholders. As of December 31, 2018, 116,368 shares of our common stock had been issued under the ESPP.

Table of Contents

Indebtedness

The table below summarizes our consolidated mortgages and other loans payable, 2017 credit facility, senior unsecured notes and trust preferred securities outstanding at December 31, 2018 and 2017, (amounts in thousands).

Debt Summary:	December 31,		
	2018	2017	
Balance			
Fixed rate	\$2,543,476	\$3,805,165	
Variable rate—hedged	1,000,000	500,000	
Total fixed rate	3,543,476	4,305,165	
Total variable rate	2,048,442	1,605,431	
Total debt	\$5,591,918	\$5,910,596	
Debt, preferred equity, and other investments subject to variable rate	1,299,390	1,325,166	
Net exposure to variable rate debt	749,052	280,265	
Percent of Total Debt:			
Fixed rate	63.4	% 72.8	%
Variable rate	36.6	% 27.2	%
Total	100.0	% 100.0	%
Effective Interest Rate for the Year:			
Fixed rate	4.34	% 4.31	%
Variable rate	3.57	% 2.76	%
Effective interest rate	4.06	% 4.00	%

The variable rate debt shown above generally bears interest at an interest rate based on 30-day LIBOR (2.50% and 1.56% at December 31, 2018 and 2017, respectively). Our consolidated debt at December 31, 2018 had a weighted average term to maturity of 4.66 years.

Certain of our debt and preferred equity investments, with a carrying value of \$1.3 billion at December 31, 2018, are variable rate investments, which mitigate our exposure to interest rate changes on our unhedged variable rate debt.

Mortgage Financing

As of December 31, 2018, our total mortgage debt (excluding our share of joint venture mortgage debt of \$3.8 billion) consisted of \$1.4 billion of fixed rate debt, including swapped variable rate debt, with an effective weighted average interest rate of 4.26% and \$0.6 billion of variable rate debt with an effective weighted average interest rate of 4.87%.

Corporate Indebtedness

2017 Credit Facility

In November 2017, we entered into an amendment to the credit facility, referred to as the 2017 credit facility, that was originally entered into by the Company in November 2012, or the 2012 credit facility. As of December 31, 2018, the 2017 credit facility consisted of a \$1.5 billion revolving credit facility, a \$1.3 billion term loan (or "Term Loan A"), and a \$200.0 million term loan (or "Term Loan B") with maturity dates of March 31, 2022, March 31, 2023, and November 21, 2024, respectively. The revolving credit facility has two six-month as-of-right extension options to March 31, 2023. We also have an option, subject to customary conditions, to increase the capacity of the credit facility to \$4.5 billion at any time prior to the maturity dates for the revolving credit facility and term loans without the consent of existing lenders, by obtaining additional commitments from our existing lenders and other financial institutions.

As of December 31, 2018, the 2017 credit facility bore interest at a spread over 30-day LIBOR ranging from (i) 82.5 basis points to 155 basis points for loans under the revolving credit facility, (ii) 90 basis points to 175 basis points for loans under Term Loan A, and (iii) 150 basis points to 245 basis points for loans under Term Loan B, in each case based on the credit rating assigned to the senior unsecured long term indebtedness of the Company.

At December 31, 2018, the applicable spread was 100 basis points for the revolving credit facility, 110 basis points for Term Loan A, and 165 basis points for Term Loan B. We are required to pay quarterly in arrears a 12.5 to 30 basis point facility fee on

57

Table of Contents

the total commitments under the revolving credit facility based on the credit rating assigned to the senior unsecured long term indebtedness of the Company. As of December 31, 2018, the facility fee was 20 basis points.

As of December 31, 2018, we had \$11.8 million of outstanding letters of credit, \$500.0 million drawn under the revolving credit facility and \$1.5 billion outstanding under the term loan facilities, with total undrawn capacity of \$1.0 billion under the 2017 credit facility. At December 31, 2018 and December 31, 2017, the revolving credit facility had a carrying value of \$492.2 million and \$30.3 million, respectively, net of deferred financing costs. At December 31, 2018 and December 31, 2017, the term loan facilities had a carrying value of \$1.5 billion and \$1.5 billion, respectively, net of deferred financing costs.

The Company and the Operating Partnership are borrowers jointly and severally obligated under the 2017 credit facility.

The 2017 credit facility includes certain restrictions and covenants (see Restrictive Covenants below).

Federal Home Loan Bank of New York Facility

The Company's wholly-owned subsidiary, Ticonderoga Insurance Company, or Ticonderoga, a Vermont licensed captive insurance company, is a member of the Federal Home Loan Bank of New York, or FHLB NY. As a member, Ticonderoga may borrow funds from the FHLB NY in the form of secured advances. As of December 31, 2018, we had \$13.0 million and \$14.5 million in outstanding secured advances with a borrowing rate of 30-day LIBOR over 27 basis points and 30-day LIBOR over 18 basis points, respectively.

Master Repurchase Agreements

The Company has entered into two Master Repurchase Agreements, or MRAs, known as the 2016 MRA and 2017 MRA, which provide us with the ability to sell certain debt investments with a simultaneous agreement to repurchase the same at a certain date or on demand. We seek to mitigate risks associated with our repurchase agreement by managing the credit quality of our assets, early repayments, interest rate volatility, liquidity, and market value. The margin call provisions under our repurchase facilities permit valuation adjustments based on capital markets activity, and are not limited to collateral-specific credit marks. To monitor credit risk associated with our debt investments, our asset management team regularly reviews our investment portfolio and is in contact with our borrowers in order to monitor the collateral and enforce our rights as necessary. The risk associated with potential margin calls is further mitigated by our ability to recollateralize the facility with additional assets from our portfolio of debt investments, our ability to satisfy margin calls with cash or cash equivalents and our access to additional liquidity through the 2017 credit facility, as defined above.

In June 2017, we entered into the 2017 MRA, with a maximum facility capacity of \$300.0 million. In April 2018, we increased the maximum facility capacity to \$400.0 million. The facility bears interest on a floating rate basis at a spread to 30-day LIBOR based on the pledged collateral and advance rate and has an initial one year term, with two one year extension options. In June 2018, we exercised a one year extension option. At December 31, 2018, the facility had a carrying value of \$299.6 million, net of deferred financing costs.

In July 2016, we entered into a restated 2016 MRA, with a maximum facility capacity of \$300.0 million. In June 2018, we terminated the restated 2016 MRA. The facility bore interest ranging from 225 and 400 basis points over 30-day LIBOR depending on the pledged collateral and had an initial two-year term, with a one year extension option. Since December 6, 2015, we had been required to pay monthly in arrears a 25 basis point fee on the excess of \$150.0 million over the average daily balance during the period when the average daily balance was less than \$150.0 million.

Table of Contents

Senior Unsecured Notes

The following table sets forth our senior unsecured notes and other related disclosures as of December 31, 2018 and 2017, respectively, by scheduled maturity date (amounts in thousands):

Issuance	December 31, 2018 Unpaid Principal Balance	December 31, 2018 Accreted Balance	December 31, 2017 Accreted Balance	Interest Rate ⁽¹⁾	Initial Term (in Years)	Maturity Date
March 16, 2010 ⁽²⁾	\$ 250,000	\$ 250,000	\$ 250,000	7.75 %	10	March 2020
August 7, 2018 ^{(3) (4)}	350,000	350,000	—	L+0.98 %	3	August 2021
October 5, 2017 ⁽³⁾	500,000	499,591	499,489	3.25 %	5	October 2022
November 15, 2012 ⁽⁵⁾	300,000	304,168	305,163	4.50 %	10	December 2022
December 17, 2015 ⁽²⁾	100,000	100,000	100,000	4.27 %	10	December 2025
August 5, 2011 ^{(2) (6)}	—	—	249,953			
	\$ 1,500,000	\$ 1,503,759	\$ 1,404,605			
Deferred financing costs, net		(8,545)	(8,666)			
	\$ 1,500,000	\$ 1,495,214	\$ 1,395,939			

(1) Interest rate as of December 31, 2018, taking into account interest rate hedges in effect during the period. Floating rate notes are presented with the stated spread over 3-month LIBOR, unless otherwise specified. Interest on the senior unsecured notes is payable semi-annually with principal and unpaid interest due on the scheduled maturity dates.

(2) Issued by the Company and the Operating Partnership as co-obligors.

(3) Issued by the Operating Partnership with the Company as the guarantor.

Beginning on August 8, 2019 and at any time thereafter, the notes are subject to redemption at the Company's option, in whole but not in part, at a redemption price equal to 100% of the principal amount of the notes, plus unpaid accrued interest thereon to the redemption date.

(4) In October 2017, the Company and the Operating Partnership as co-obligors issued an additional \$100.0 million of 4.50% senior unsecured notes due December 2022. The notes were priced at 105.334%.

(5) The balance was repaid in August 2018.

Restrictive Covenants

The terms of the 2017 credit facility and certain of our senior unsecured notes include certain restrictions and covenants which may limit, among other things, our ability to pay dividends, make certain types of investments, incur additional indebtedness, incur liens and enter into negative pledge agreements and dispose of assets, and which require compliance with financial ratios relating to the maximum ratio of total indebtedness to total asset value, a minimum ratio of EBITDA to fixed charges, a maximum ratio of secured indebtedness to total asset value and a maximum ratio of unsecured indebtedness to unencumbered asset value. The dividend restriction referred to above provides that, we will not during any time when a default is continuing, make distributions with respect to common stock or other equity interests, except to enable the Company to continue to qualify as a REIT for Federal income tax purposes. As of December 31, 2018 and 2017, we were in compliance with all such covenants.

Junior Subordinated Deferrable Interest Debentures

In June 2005, the Company and the Operating Partnership issued \$100.0 million in unsecured trust preferred securities through a newly formed trust, SL Green Capital Trust I, or the Trust, which is a wholly-owned subsidiary of the Operating Partnership. The securities mature in 2035 and bear interest at a floating rate of 125 basis points over the three-month LIBOR. Interest payments may be deferred for a period of up to eight consecutive quarters if the Operating Partnership exercises its right to defer such payments. The Trust preferred securities are redeemable at the option of the Operating Partnership, in whole or in part, with no prepayment premium. We do not consolidate the Trust even though it is a variable interest entity as we are not the primary beneficiary. Because the Trust is not

consolidated, we have recorded the debt on our consolidated balance sheets and the related payments are classified as interest expense.

Interest Rate Risk

We are exposed to changes in interest rates primarily from our variable rate debt. Our exposure to interest rate fluctuations are managed through either the use of interest rate derivative instruments and/or through our variable rate debt and preferred equity investments. Based on the debt outstanding as of December 31, 2018, a hypothetical 100 basis point increase in the floating rate interest rate curve would increase our consolidated annual interest cost, net of interest income from variable rate debt and preferred equity investments, by \$7.1 million and would increase our share of joint venture annual interest cost by \$14.3 million. At December 31, 2018, 61.9% of our \$2.1 billion debt and preferred equity portfolio is indexed to LIBOR.

Table of Contents

We recognize most derivatives on the balance sheet at fair value. Derivatives that are not hedges are adjusted to fair value through income. If a derivative is considered a hedge, depending on the nature of the hedge, changes in the fair value of the derivative will either be offset against the change in fair value of the hedged asset, liability, or firm commitment through earnings, or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value is immediately recognized in earnings.

Our long-term debt of \$3.5 billion bears interest at fixed rates, and therefore the fair value of these instruments is affected by changes in the market interest rates. Our variable rate debt and variable rate joint venture debt as of December 31, 2018 bore interest at rates between LIBOR plus 18 basis points and LIBOR plus 340 basis points.

Contractual Obligations

The combined aggregate principal maturities of mortgages and other loans payable, the 2017 credit facility, senior unsecured notes (net of discount), trust preferred securities, our share of joint venture debt, including as-of-right extension options and put options, estimated interest expense, and our obligations under our capital lease and ground leases, as of December 31, 2018 are as follows (in thousands):

	2019	2020	2021	2022	2023	Thereafter	Total
Property mortgages and other loans	\$6,241	\$26,640	\$151,505	\$208,017	\$122,851	\$1,145,405	\$1,660,659
MRA and FHLB facilities	27,500	300,000	—	—	—	—	327,500
Revolving credit facility	—	—	—	—	500,000	—	500,000
Unsecured term loans	—	—	—	—	1,300,000	200,000	1,500,000
Senior unsecured notes	—	250,000	350,000	800,000	—	100,000	1,500,000
Trust preferred securities	—	—	—	—	—	100,000	100,000
Capital lease	2,411	2,620	2,794	2,794	2,794	817,100	830,513
Ground leases	31,066	31,436	31,628	29,472	27,166	676,090	826,858
Estimated interest expense	222,554	196,142	185,017	150,712	81,781	193,794	1,030,000
Joint venture debt	115,295	278,791	518,371	220,810	277,996	2,430,198	3,841,461
Total	\$405,067	\$1,085,629	\$1,239,315	\$1,411,805	\$2,312,588	\$5,662,587	\$12,116,991

Off-Balance Sheet Arrangements

We have off-balance sheet investments, including joint ventures and debt and preferred equity investments. These investments all have varying ownership structures. Substantially all of our joint venture arrangements are accounted for under the equity method of accounting as we have the ability to exercise significant influence, but not control, over the operating and financial decisions of these joint venture arrangements. Our off-balance sheet arrangements are discussed in Note 5, "Debt and Preferred Equity Investments" and Note 6, "Investments in Unconsolidated Joint Ventures" in the accompanying consolidated financial statements.

Capital Expenditures

We estimate that for the year ending December 31, 2019, we expect to incur \$151.1 million of recurring capital expenditures and \$65.2 million of development or redevelopment expenditures on existing consolidated properties, and our share of capital expenditures at our joint venture properties will be \$449.6 million. Future property acquisitions may require substantial capital investments for refurbishment and leasing costs. We expect to fund these capital expenditures with operating cash flow, existing liquidity, or incremental borrowings. We expect our capital needs over the next twelve months and thereafter will be met through a combination of cash on hand, net cash provided by operations, potential asset sales, borrowings or additional equity or debt issuances.

Dividends/Distributions

We expect to pay dividends to our stockholders based on the distributions we receive from our Operating Partnership primarily from property revenues net of operating expenses or, if necessary, from working capital.

To maintain our qualification as a REIT, we must pay annual dividends to our stockholders of at least 90% of our REIT taxable income, determined before taking into consideration the dividends paid deduction and net capital gains. We intend to continue to pay regular quarterly dividends to our stockholders. Based on our current annual dividend rate of \$3.40 per share, we would pay \$298.6 million in dividends to our common stockholders on an annual basis.

Before we pay any dividend, whether for

60

Table of Contents

Federal income tax purposes or otherwise, which would only be paid out of available cash to the extent permitted under the 2017 credit facility and senior unsecured notes, we must first meet both our operating requirements and scheduled debt service on our mortgages and loans payable.

Related Party Transactions

Cleaning/ Security/ Messenger and Restoration Services

Alliance Building Services, or Alliance, and its affiliates are partially owned by Gary Green, a son of Stephen L. Green, who serves as a member and as the chairman emeritus of our board of directors, and provide services to certain properties owned by us. Alliance's affiliates include First Quality Maintenance, L.P., or First Quality, Classic Security LLC, Bright Star Couriers LLC and Onyx Restoration Works, and provide cleaning, extermination, security, messenger, and restoration services, respectively. In addition, First Quality has the non-exclusive opportunity to provide cleaning and related services to individual tenants at our properties on a basis separately negotiated with any tenant seeking such additional services. The Service Corporation has entered into an arrangement with Alliance whereby it will receive a profit participation above a certain threshold for services provided by Alliance to certain tenants at certain buildings above the base services specified in their lease agreements.

Income earned from the profit participation, which is included in other income on the consolidated statements of operations, was \$3.9 million, \$3.9 million and \$3.5 million for the years ended December 31, 2018, 2017 and 2016, respectively.

We also recorded expenses, inclusive of capitalized expenses, of \$18.8 million, \$22.6 million and \$23.4 million the years ended December 31, 2018, 2017 and 2016, respectively, for these services (excluding services provided directly to tenants).

Management Fees

S.L. Green Management Corp., a consolidated entity, receives property management fees from an entity in which Stephen L. Green owns an interest. We received management fees from this entity of \$0.6 million, \$0.5 million and \$0.7 million for the years ended December 31, 2018, 2017, and 2016 respectively.

One Vanderbilt Investment

In December 2016, we entered into agreements with entities owned and controlled by Marc Holliday and Andrew Mathias, pursuant to which they agreed to make an investment in our One Vanderbilt project at the appraised fair market value for the interests acquired. This investment entitles these entities to receive approximately 1.50% - 1.80% and 1.00% - 1.20%, respectively, of any profits realized by the Company from its One Vanderbilt project in excess of the Company's capital contributions. The entities have no right to any return of capital. Accordingly, subject to previously disclosed repurchase rights, these interests will have no value and will not entitle these entities to any amounts (other than limited distributions to cover tax liabilities incurred) unless and until the Company has received distributions from the One Vanderbilt project in excess of the Company's aggregate investment in the project. In the event that the Company does not realize a profit on its investment in the project (or would not realize a profit based on the value at the time the interests are repurchased), the entities owned and controlled by Messrs. Holliday and Mathias will lose the entire amount of their investment. The entities owned and controlled by Messrs. Holliday and Mathias paid \$1.4 million and \$1.0 million, respectively, which equal the fair market value of the interests acquired as of the date the investment agreements were entered into as determined by an independent third party appraisal that we obtained.

Messrs. Holliday and Mathias cannot monetize their interests until after stabilization of the property (50% within three years after stabilization and 100% three years or more after stabilization). In addition, the agreement calls for us to repurchase these interests in the event of a sale of One Vanderbilt or a transactional change of control of the Company. We also have the right to repurchase these interests on the seven-year anniversary of the stabilization of the project or upon the occurrence of certain separation events prior to the stabilization of the project relating to each of Messrs. Holliday's and Mathias's continued service with us. The price paid upon monetization of the interests will equal the liquidation value of the interests at the time, with the value of One Vanderbilt being based on its sale price, if applicable, or fair market value as determined by an independent third party appraiser.

Table of Contents

Insurance

We maintain “all-risk” property and rental value coverage (including coverage regarding the perils of flood, earthquake and terrorism, excluding nuclear, biological, chemical, and radiological terrorism (“NBCR")), within three property insurance programs and liability insurance. Separate property and liability coverage may be purchased on a stand-alone basis for certain assets, such as the development of One Vanderbilt. Additionally, one of our captive insurance companies, Belmont Insurance Company, or Belmont, provides coverage for NBCR terrorist acts above a specified trigger. Belmont's retention is reinsured by our other captive insurance company, Ticonderoga Insurance Company (“Ticonderoga”). If Belmont or Ticonderoga are required to pay a claim under our insurance policies, we would ultimately record the loss to the extent of required payments. However, there is no assurance that in the future we will be able to procure coverage at a reasonable cost. Further, if we experience losses that are uninsured or that exceed policy limits, we could lose the capital invested in the damaged properties as well as the anticipated future cash flows from those properties. Additionally, our debt instruments contain customary covenants requiring us to maintain insurance and we could default under debt our instruments if the cost and/or availability of certain types of insurance make it impractical or impossible to comply with such covenants relating to insurance. Belmont and Ticonderoga provide coverage solely on properties owned by the Company or its affiliates.

Furthermore, with respect to certain of our properties, including properties held by joint ventures, or subject to triple net leases, insurance coverage is obtained by a third-party and we do not control the coverage. While we may have agreements with such third parties to maintain adequate coverage and we monitor these policies, such coverage ultimately may not be maintained or adequately cover our risk of loss.

Funds from Operations

FFO is a widely recognized non-GAAP financial measure of REIT performance. The Company computes FFO in accordance with standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than the Company does. The revised White Paper on FFO approved by the Board of Governors of NAREIT in April 2002, and subsequently amended, defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of properties and real estate related impairment charges, plus real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures.

The Company presents FFO because it considers it an important supplemental measure of the Company’s operating performance and believes that it is frequently used by securities analysts, investors and other interested parties in the evaluation of REITs, particularly those that own and operate commercial office properties. The Company also uses FFO as one of several criteria to determine performance-based bonuses for members of its senior management. FFO is intended to exclude GAAP historical cost depreciation and amortization of real estate and related assets, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO excludes depreciation and amortization unique to real estate, gains and losses from property dispositions, and real estate related impairment charges, it provides a performance measure that, when compared year over year, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, and interest costs, providing perspective not immediately apparent from net income. FFO does not represent cash generated from operating activities in accordance with GAAP and should not be considered as an alternative to net income (determined in accordance with GAAP), as an indication of the Company’s financial performance or to cash flow from operating activities (determined in accordance with GAAP) as a measure of the Company’s liquidity, nor is it indicative of funds available to fund the Company’s cash needs, including our ability to make cash distributions.

Table of Contents

FFO for the years ended December 31, 2018, 2017, and 2016 are as follows (in thousands):

	Year Ended December 31,		
	2018	2017	2016
Net income attributable to SL Green common stockholders	\$232,312	\$86,424	\$234,946
Add:			
Depreciation and amortization	279,507	403,320	821,041
Joint venture depreciation and noncontrolling interest adjustments	187,147	102,334	69,853
Net income (loss) attributable to noncontrolling interests	12,210	(11,706)	17,780
Less:			
(Loss) gain on sale of real estate and discontinued operations	(30,757)	73,241	238,116
Equity in net gain on sale of interest in unconsolidated joint venture/real estate	303,967	16,166	44,009
Purchase price and other fair value adjustment	57,385	—	—
Depreciable real estate reserves and impairment	(227,543)	(178,520)	(10,387)
Depreciation on non-rental real estate assets	2,404	2,191	2,027
Funds from Operations attributable to SL Green common stockholders and noncontrolling interests	\$605,720	\$667,294	\$869,855
Cash flows provided by operating activities	\$441,537	\$543,001	\$644,010
Cash flows provided by investing activities	\$681,662	\$22,014	\$1,973,382
Cash flows used in by financing activities	\$(1,094,112)	\$(684,956)	\$(2,736,402)

Inflation

Substantially all of our office leases provide for separate real estate tax and operating expense escalations as well as operating expense recoveries based on increases in the Consumer Price Index or other measures such as porters' wage. In addition, many of the leases provide for fixed base rent increases. We believe that inflationary increases will be at least partially offset by the contractual rent increases and expense escalations described above.

Accounting Standards Updates

The Accounting Standards Updates are discussed in Note 2, "Significant Accounting Policies - Accounting Standards Updates" in the accompanying consolidated financial statements.

Forward-Looking Information

This report includes certain statements that may be deemed to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and are intended to be covered by the safe harbor provisions thereof. All statements, other than statements of historical facts, included in this report that address activities, events or developments that we expect, believe or anticipate will or may occur in the future, including such matters as future capital expenditures, dividends and acquisitions (including the amount and nature thereof), development trends of the real estate industry and the New York metropolitan area markets, business strategies, expansion and growth of our operations and other similar matters, are forward-looking statements. These forward-looking statements are based on certain assumptions and analyses made by us in light of our experience and our perception of historical trends, current conditions, expected future developments and other factors we believe are appropriate.

Forward-looking statements are not guarantees of future performance and actual results or developments may differ materially, and we caution you not to place undue reliance on such statements. Forward-looking statements are generally identifiable by the use of the words "may," "will," "should," "expect," "anticipate," "estimate," "believe," "intend," "project," "continue," or the negative of these words, or other similar words or terms.

Forward-looking statements contained in this report are subject to a number of risks and uncertainties that may cause our actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by forward-looking statements made by us. These risks and uncertainties include: the effect of general economic, business and financial conditions, and their effect on the New York City real estate market in particular;

dependence upon certain geographic markets;

risks of real estate acquisitions, dispositions, development and redevelopment, including the cost of construction delays and cost overruns;

63

Table of Contents

risks relating to debt and preferred equity investments;

availability and creditworthiness of prospective tenants and borrowers;

bankruptcy or insolvency of a major tenant or a significant number of smaller tenants or borrowers;

adverse changes in the real estate markets, including reduced demand for office space, increasing vacancy, and increasing availability of sublease space;

availability of capital (debt and equity);

unanticipated increases in financing and other costs, including a rise in interest rates;

our ability to comply with financial covenants in our debt instruments;

our ability to maintain our status as a REIT;

risks of investing through joint venture structures, including the fulfillment by our partners of their financial obligations;

the threat of terrorist attacks;

our ability to obtain adequate insurance coverage at a reasonable cost and the potential for losses in excess of our insurance coverage, including as a result of environmental contamination; and

legislative, regulatory and/or safety requirements adversely affecting REITs and the real estate business including costs of compliance with the Americans with Disabilities Act, the Fair Housing Act and other similar laws and regulations.

Other factors and risks to our business, many of which are beyond our control, are described in other sections of this report and in our other filings with the SEC. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of future events, new information or otherwise.

Table of Contents

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

See Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations—Market Rate Risk" for additional information regarding our exposure to interest rate fluctuations.

The table below presents the principal cash flows based upon maturity dates of our debt obligations and debt and preferred equity investments and the weighted-average interest rates by expected maturity dates, including as-of-right extension options, as of December 31, 2018 (in thousands):

	Long-Term Debt			Debt and Preferred Equity Investments ⁽¹⁾		
	Fixed Rate	Average Interest Rate	Variable Rate	Average Interest Rate	Amount	Weighted Yield
2019	\$6,241	4.08 %	\$27,500	4.04 %	\$442,557	10.31 %
2020	261,117	3.87 %	315,523	3.79 %	1,273,679	8.21 %
2021	11,636	3.83 %	489,869	3.73 %	26,471	9.54 %
2022	1,008,017	3.82 %	—	4.00 %	204,790	11.46 %
2023	1,007,301	4.08 %	915,550	4.38 %	42,706	8.55 %
Thereafter	1,245,405	4.29 %	300,000	4.45 %	109,190	8.46 %
Total	\$3,539,717	3.92 %	\$2,048,442	3.92 %	\$2,099,393	9.01 %
Fair Value	\$3,230,127		\$2,057,966			

(1) Our debt and preferred equity investments had an estimated fair value ranging between \$2.1 billion and \$2.3 billion at December 31, 2018.

The table below presents the principal cash flows based upon maturity dates of our share of our joint venture debt obligations and the weighted-average interest rates by expected maturity dates as of December 31, 2018 (in thousands):

	Long Term Debt			
	Fixed Rate	Average Interest Rate	Variable Rate	Average Interest Rate
2019	\$106,255	4.16 %	\$9,040	4.47 %
2020	11,236	4.16 %	267,555	4.45 %
2021	11,730	4.16 %	506,641	4.41 %
2022	220,779	4.12 %	31	4.70 %
2023	271,064	3.95 %	6,932	5.13 %
Thereafter	1,719,845	3.91 %	710,353	5.27 %
Total	\$2,340,909	4.12 %	\$1,500,552	4.55 %
Fair Value	\$2,327,716		\$1,510,470	

Table of Contents

The table below lists our consolidated derivative instruments, which are hedging variable rate debt, and their related fair values as of December 31, 2018 (in thousands):

	Asset Hedged	Benchmark Rate	Notional Value	Strike Rate	Effective Date	Expiration Date	Fair Value
Interest Rate Swap	Credit Facility	LIBOR	\$200,000	1.131%	July 2016	July 2023	\$11,148
Interest Rate Swap	Credit Facility	LIBOR	100,000	1.161%	July 2016	July 2023	5,447
Interest Rate Cap	Mortgage	LIBOR	137,500	4.000%	September 2017	September 2019	—
Interest Rate Swap	Credit Facility	LIBOR	100,000	1.928%	December 2017	November 2020	1,045
Interest Rate Swap	Credit Facility	LIBOR	100,000	1.934%	December 2017	November 2020	1,035
Interest Rate Swap	Credit Facility	LIBOR	150,000	2.696%	January 2019	January 2024	(1,858)

Total Consolidated Hedges							\$11,013

In addition to these derivative instruments, some of our joint venture loan agreements require the joint venture to purchase interest rate caps on its debt. All such interest rate caps represented in aggregate an asset of \$7.0 million at December 31, 2018. We also swapped certain floating rate debt at some of our joint ventures. These swaps represented in aggregate an asset of \$11.1 million at December 31, 2018.

Report of Independent Registered Public Accounting Firm

To the Shareholders and the Board of Directors of SL Green Realty Corp.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of SL Green Realty Corp. (the Company) as of December 31, 2018 and 2017, the related consolidated statements of operations, comprehensive income, equity and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedules listed in the Index at Item 15(a)(2) (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 26, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 1997.
