SHAREHOLDER LETTER

YOUR FUND'S GOAL: FRANKLIN FLOATING RATE TRUST'S PRIMARY GOAL IS TO PROVIDE AS HIGH A LEVEL OF CURRENT INCOME AND PRESERVATION OF CAPITAL AS IS CONSISTENT WITH INVESTMENT PRIMARILY IN SENIOR SECURED CORPORATE LOANS AND CORPORATE DEBT SECURITIES WITH FLOATING INTEREST RATES.

Dear Shareholder:

This annual report for Franklin Floating Rate Trust covers the fiscal year ended July 31, 2002.

ECONOMIC OVERVIEW

The U.S. economy was already in a recession at the beginning of the year under review, weakened by slack industrial demand and rising unemployment, when the September 11 terrorist attacks exacerbated the downturn. Since early 2001, the Federal Reserve Board had anticipated the potential slowdown and reduced borrowing rates to help spur economic activity. The federal funds target rate, which was 3.75% on July 31, 2001, stood at just 1.75% at period-end.

Short-term interest rates continued their steep descent, with the 3-month London InterBank Offered Rate (LIBOR), the benchmark underlying many of the Trust's floating rate loans, falling significantly from 3.67% on July 31, 2001, to

WHAT ARE SYNDICATED BANK LOANS?

SYNDICATED BANK LOANS ARE TYPICALLY SECURED, FLOATING RATE LOANS TO CORPORATE BORROWERS MADE BY A GROUP, OR SYNDICATE, OF BANKS AND OTHER LENDERS. A GROUP OF LENDERS PROVIDES CAPITAL TO COMPANIES FOR VARIED PURPOSES, SUCH AS MERGER AND ACQUISITION ACTIVITY, LEVERAGED BUYOUTS OR REFINANCINGS. BORROWING RATES ARE GENERALLY PEGGED TO AN INDEX, SUCH AS LIBOR, THE LONDON INTERBANK OFFERED RATE.

1.82% on July 31, 2002. Long-term interest rates also declined during the past 12 months, with the 10-year Treasury note yield dropping slightly from 5.07% to 4.51% at period-end. Equity markets fell sharply, as the Dow Jones Industrial Average closed the year under review at 8736.59, down from 10522.81 at the beginning of the reporting period.(1)

SYNDICATED BANK LOAN MARKET

The bank loan asset class experienced a difficult 12-month period, with challenging conditions in the new-issue market during fourth quarter 2001 and early 2002. Slowing economic trends, continued credit deterioration and multiple corporate accounting scandals created a gloomy outlook for the high yield market. Yield spreads over LIBOR widened considerably, and the loan market was virtually closed to all but the strongest borrowers. By the spring, however, the demand for primary and secondary loan assets improved considerably. A somewhat stronger economy, the apparent stabilization of loan default rates and new demand from institutional investment vehicles helped drive the increased demand.

Throughout much of the reporting period loan investors continued to favor issuers with higher credit quality, allowing a number of more stable borrowers to refinance at lower rates during the first half of 2002. The growing demand for loans gave borrowers the ability to stipulate many concessions from lenders. As a result, the second quarter of 2002 recorded the highest volume of issuance since early 2000, and many issuers

1. The Dow Jones Industrial Average is price-weighted based on the average market price of 30 blue chip stocks of companies that are generally industry leaders.

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

were able to refinance their capital structures through a healthy and robust high yield market. Consequently, loan spreads over LIBOR tightened considerably, reducing borrowers' interest expense. The combined effect of narrower loan spreads and LIBOR's significant decline negatively impacted the Fund's returns.

By the end of 2002's second quarter, however, the market began to reverse its course in favor of lenders. Mixed economic figures, high default rates and declining institutional demand contributed to cooling the overheated loan market. The closely linked high yield bond market also weakened significantly, adding more pressure to the bank loan market.

After declining since February 2002, the 12-month institutional default rate hit a new high in June. The default rate change was mainly due to the bankruptcy of Adelphia Communications, a cable television provider that was one of the largest issuers in the high yield loan and bond market. Still, the loan market continued to hold up as some investors believed that default rates would trend downward in the rest of 2002 due to an improving economy and strengthening U.S. manufacturing sector.

Prospects for a loan market rebound exist, benefiting investors with longer-term time horizons. The recent interest rate environment is one of the lowest ever, and, in our opinion, interest rates should eventually rise, benefiting the Fund's yield. We believe default rates should eventually stabilize and then decline.

PORTFOLIO NOTES

During the year under review, we continued to position Franklin Floating Rate Trust defensively, selling off riskier credits and investing in loans in relatively stable industries such as food, media and health care.

We favored the health care industry due to our expectations that hospital services should continue experiencing strong demand regardless of economic conditions. In particular, we like IASIS Healthcare, a for-profit hospital management company, which currently owns or operates 11 hospitals and 5 surgery centers in growing urban markets such as Phoenix, San Antonio, Salt Lake City and Tampa-St.Petersburg.

During the reporting period, we invested in the senior secured credit facility of PanAmSat Corp. PanAmSat is a leading global provider of video, broadcasting and network services through satellites. The company helps deliver entertainment and information to cable television systems, television broadcast affiliates, direct-to-home television operators and telecommunications companies. PanAmSat boasts one of the world's largest commercial geostationary satellite networks, and as a result, is one of only a few companies worldwide capable of servicing a global market through its own satellite fleet. We view this loan as a defensive investment that could hold up if the economy were to slow. PanAmSat should benefit from its strong market share with little competition, as well as the satellite industry's inherently high barriers to entry. In addition, the company seems

4

well-positioned with stable revenues and cash flows, high profit margins, and a substantial revenue backlog.

The Fund also recently participated in a refinancing for Corrections Corp. of America, the largest owner and operator of U.S. privatized correctional and detention facilities. The company provides management services for inmates through contracts with approximately 60 federal, state and local agencies. Demographics illustrate this business's defensive nature. The U.S. prison population and incarceration rate have risen steadily since 1925, independent of economic cycles, according to the Bureau of Justice Statistics. Furthermore, recently proposed initiatives related to homeland security may increase demand for prison beds. The President's fiscal year 2003 budget included a proposal for an additional \$2 billion to address national defense, including more than \$1 billion for the U.S. Marshals Service and Immigration and Naturalization Service. We believe Corrections Corp. is well-positioned to benefit from the

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

needs discussed above, given the shortfall in federal- and state-owned prison capacity.

Looking forward, we will maintain our strategy of holding loans from companies that we believe possess defensive market positions and strong asset coverage in industries that we feel will do well even during periods of economic decline. With its potential for high, current income, we believe the Fund is an attractive investment for investors seeking to diversify portfolios heavily weighted in equities.

DISTRIBUTIONS AND RETURNS WILL VARY BASED ON EARNINGS OF THE FUND'S PORTFOLIO AND ANY PROFITS REALIZED FROM THE SALE OF THE PORTFOLIO'S SECURITIES, AS WELL AS THE LEVEL OF THE FUND'S OPERATING EXPENSES. THE PERFORMANCE TABLE DOES NOT REFLECT THE DEDUCTION OF TAXES THAT A SHAREHOLDER WOULD PAY ON FUND DISTRIBUTIONS OR THE REDEMPTION OF FUND SHARES.

Shares repurchased within 12 months of investment are subject to 1% early withdrawal charge. The Fund's manager agreed in advance to waive a portion of its management fees. If the manager had not taken this action, the Fund's total return would have been lower. The fee waiver may be discontinued at any time, upon notice to the Fund's Board of Trustees.

THE FUND'S REPURCHASE OFFERS

The Fund will make quarterly repurchase offers for a portion of its shares. With any repurchase offer, shareholders may elect to tender (have the Fund repurchase) all, a portion or none of their shares. With each repurchase offer, shareholders will be notified in writing about the offer, how to request that the Fund repurchase their shares and the deadline for submitting repurchase requests.

Each quarter the Board of Trustees will set the amount of the repurchase offer, as a percentage of outstanding shares. This amount is known as the repurchase offer amount and will generally be between 5% and 25% of the Fund's outstanding shares. If repurchase requests exceed the repurchase offer amount, the Fund will prorate requests. The Fund may, however, first accept any requests to repurchase ALL of a shareholder's shares if the shareholder owns less than 100 shares. The Board will also determine the date by which the Fund must receive shareholders' repurchase requests, which is known as the repurchase request deadline. The Board will base these decisions on investment management considerations, market conditions, liquidity

9

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

of the Fund's assets, shareholder servicing and administrative considerations and other factors it deems appropriate. Each repurchase request deadline will occur within the period that begins 21 days before, and ends 21 days after, the end of the quarterly interval. The repurchase price of the shares will be the net asset value as of the close of the NYSE on the date the Board sets as the repurchase pricing date. The maximum number of days between the repurchase request deadline and the repurchase pricing date is 14 days.

SUMMARY OF REPURCHASE OFFERS - 8/1/01 THROUGH 7/31/02

	REPURCHASE REQUEST DEADLINE	REPURCHASE OFFER AMOUNT	% OF SHARES TENDERED*	NUMBER OF SHARES TENDERED*

4.	7/1/02	25%	10.720%	25,539,306.103

*In connection with the repurchase offers, due to the limited number of shares tendered, the Fund did not have to consider whether to repurchase an additional amount of shares, not in excess of 2% of the shares outstanding, and did not need to repurchase any shares on a pro rata basis as described in the Prospectus and Repurchase Offer/Request Form.

FRANKLIN FLOATING RATE TRUST
Notes to Financial Statements

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Franklin Floating Rate Trust (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end, continuously offered investment company. The Fund seeks current income and preservation of capital. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION:

The Fund invests primarily in senior secured corporate loans and senior secured debt that meet credit standards established by Franklin Advisers, Inc. The Fund values its securities based on quotations provided by banks, broker/dealers or pricing services experienced in such matters. Restricted securities and

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

securities for which market quotations are not readily available are valued at fair value as determined by management in accordance with procedures established by the Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION:

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities and income items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollars equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. INCOME TAXES:

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and to distribute substantially all of its taxable income.

D. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS:

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Discount from securities is amortized on a yield to maturity basis. Facility fees are recognized as income over the expected term of the loan. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

E. ORGANIZATION COSTS:

Organization costs are amortized on a straight-line basis over five years.

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONT.)

F. ACCOUNTING ESTIMATES:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expense during the reporting period. Actual results could differ from those estimates.

G. AUDIT GUIDE:

In November 2000, a revised AICPA Audit and Accounting Guide, Audits of Investment Companies, was issued, and is effective for fiscal years beginning after December 15, 2000. The revised Guide requires the Fund to amortize all premium and discount on fixed-income securities. Such amortization is included in net investment income but did not impact the net assets or the distributions of the Fund. Prior to August 1, 2001, premiums on fixed income securities were included in realized gains and losses. The cumulative effect of this accounting change resulted in a reduction of \$58,234 in the recorded cost of investments and a corresponding increase in net unrealized appreciation.

The effect of this change for the year ended July 31, 2002 was to decrease net investment income by \$1,633,047, decrease unrealized losses by \$1,519,562, and decrease realized losses by \$113,485. The statement of changes in net assets and the financial highlights for prior periods have not been restated to reflect this change in accounting policy.

H. UNFUNDED LOAN COMMITMENTS:

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the borrowers' discretion. These commitments are disclosed in the accompanying Statement of Investments and Statement of Assets and Liabilities.

2. SHARES OF BENEFICIAL INTEREST

At July 31, 2002, there were an unlimited number of shares authorized (\$.01 par value). Transactions in the Fund's shares were as follows:

	YEAR ENDED JULY	
	2002	
	SHARES	AMOUNT
Shares sold	28,062,186	\$ 250,305,588
Shares issued in reinvestment of distributions	11,096,664	97,874,769
Shares redeemed	(131,170,493)	(1,154,860,210)
Net increase (decrease)	(92,011,643)	\$ (806,679,853)

FRANKLIN FLOATING RATE TRUST
Notes to Financial Statements (CONTINUED)

3. TENDER OF SHARES

On a quarterly basis, the Fund may make tender offers, the amount of which is determined by the Board of Trustees, for the repurchase of at least 5% but not more than 25% of the shares outstanding. The repurchase price is the net asset value on the tender offer expiration date.

4. REVOLVING CREDIT FACILITY

The Fund participates in a \$200 million senior unsecured revolving credit facility to fund shareholder redemptions or meet unfunded loan commitments. The facility agreement ends on December 20, 2002. Interest is charged at the Federal Funds Rate plus .50%. Facility fees paid are amortized on a straight line basis over the term of the commitment. Annual commitment fees of .09% are charged on the unused portion of the facility and allocated among the participating funds based on net assets.

During the year ended July 31, 2002, the Fund did not utilize the facility.

5. TRANSACTIONS WITH AFFILIATES

Certain officers and trustees of the Fund are also officers and/or directors of the following entities:

ENTITY	AFFILIATION
Franklin Templeton Services LLC (FT Services)	Administrative manager
Franklin Advisers Inc. (Advisers)	Investment manager
Franklin/Templeton Distributors Inc. (Distributors)	Principal underwriter
Franklin/Templeton Investor Services LLC (Investor Services)	Transfer agent

The Fund pays an investment management fee to Advisers of .80% per year of the average daily net assets of the Fund.

Management fees were reduced on assets invested in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund) in an amount not to exceed the management fees paid by the Sweep Money Fund.

The Fund pays an administrative fee to FT Services based on the average net assets of the Fund as follows:

ANNUALIZED FEE RATE	AVERAGE DAILY NET ASSETS
.150%	First \$200 million
.135%	Over \$200 million, up to and including \$700 million
.100%	Over \$700 million, up to and including \$1.2 billion
.075%	In excess of \$1.2 billion

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

Distributors received contingent deferred sales charges for the year of \$1,010,664.

The Fund pays a transfer agent fee to Investor Services of .40% per year of the average daily net assets of the Fund.

6. INCOME TAXES

At July 31, 2002, the cost of investments, net unrealized depreciation, undistributed ordinary income and undistributed long term capital gains for income tax purposes were as follows:

Cost of investments	\$2,114,730,693
	=====
Unrealized appreciation	\$ 10,015,424
Unrealized depreciation	(339,258,749)

Net unrealized depreciation	\$ (329,243,325)
	=====
Undistributed ordinary income	\$ 1,856,670
Undistributed long term capital gains ..	\$ --

Distributable earnings	\$ 1,856,670
	=====

At July 31, 2002, the Fund had tax basis capital losses of \$2,115,134 which may be carried over to offset future capital gains. Such losses expire in 2009.

At July 31, 2002, the Fund has deferred capital losses occurring subsequent to October 31, 2001 of \$125,816,398. For tax purposes, such losses will be reflected in the year ending July 31, 2003.

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions, and bond premiums.

Net realized capital losses differ for financial statement and tax purposes primarily due to differing treatment of wash sales, foreign currency transactions, and bond premiums.

The tax character of distributions paid during the year ended July 31, 2002, was substantially the same for financial statement and tax purposes.

7. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the year ended July 31, 2002 aggregated \$1,348,120,572 and \$2,262,523,614, respectively.

8. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 92.90% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions rather than higher rated securities. At July 31, 2002, the Fund held defaulted securities with a value aggregating \$17,838,493 representing 1.00% of the Fund's net assets. For information as to specific securities, see the accompanying Statement of Investments.

For financial reporting purposes, the Fund discontinues accruing income on defaulted bonds and provides an estimate for losses on interest receivable.

9. RESTRICTED SECURITIES

The Fund may purchase securities through a private offering that generally cannot be resold to the public without prior registration under the Securities Act of 1933. The costs of registering such securities are paid by the issuer. At July 31, 2002, the Fund held one restricted security as follows:

SHARES	ISSUER

72,960	Rivus Internet Group Inc.

FRANKLIN FLOATING RATE TRUST
 Independent Auditors' Report

TO THE SHAREHOLDERS AND BOARD OF TRUSTEES
 OF FRANKLIN FLOATING RATE TRUST

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations, and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Franklin Floating Rate Trust (hereafter referred to as "the Fund") at July 31, 2002, the results of its

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-30D

operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at July 31, 2002 by correspondence with the custodian and brokers, provide a reasonable basis for our opinion.
