PROXY STATEMENT
for
Annual Meeting of Stockholders
to be held May 19, 2003

GENERAL INFORMATION

This proxy statement is being furnished to the stockholders of Gold Banc Corporation, Inc., a Kansas corporation (the "Company"), in connection with the Annual Meeting of Stockholders to be held in Cottonwood 3 Ballroom at the Sheraton Overland Park, 6100 College Blvd, Overland Park, Kansas on Monday, May 19, 2003, at 9:00 a.m. local time. This proxy statement was first mailed on or about April 28, 2003 to all stockholders entitled to vote at the Annual Meeting.

The Company's Board of Directors is soliciting proxies in order to provide every stockholder with an opportunity to vote on all matters scheduled to come before the Annual Meeting and to be able to transact business at the meeting. Whether or not you are able to attend the Annual Meeting, you are urged to sign, date and return the proxy in the enclosed envelope. Upon execution and return of the enclosed proxy, the shares represented by it will be voted by the persons designated therein as proxies in accordance with the stockholder's directions. A stockholder may vote on a matter by marking the appropriate box on the proxy or, if no box is marked for a specific matter, the shares will be voted as recommended by the Board of Directors on that matter.

The enclosed proxy may be revoked at any time before it is voted by (a) so notifying the Corporate Secretary of the Company in writing, (b) executing a proxy with a later date and delivering such later proxy to the Corporate Secretary of the Company prior to the Annual Meeting or (c) attending the Annual Meeting and voting in person. Unless the proxy is revoked or is received in a form that renders it invalid, the shares represented by it will be voted in accordance with the instructions contained therein.

Employees of the Company and its affiliates who participate in either the Gold Banc Corporation, Inc. Employees' Stock Ownership Plan and Trust or the Gold Banc Corporation, Inc. Employees' 401(k) Plan may vote shares of common stock of the Company credited to their account by instructing Gold Trust Company, St. Joseph, Missouri, the trustee of the plans. The enclosed proxy card will serve as the instruction card. The trustee of each plan will vote such shares in accordance with duly executed instructions received by May 16, 2003. The trustee at its discretion will vote shares credited to a participant's account for which no instructions are received. Each participant may revoke previously given voting instructions by filing with the trustee a written notice to that effect by May 16, 2003.

For the purpose of determining whether the stockholders have approved matters other than the election of directors, abstentions are treated as shares present or represented and voting, so abstaining has the same effect as a negative vote. With respect to the election of directors, abstentions and instructions on the accompanying proxy card to withhold authority to vote for one or more of the nominees will result in the respective nominees receiving fewer votes. If no instructions are given on the accompanying proxy, the shares registered thereby will be voted for the nominees listed herein. Shares held by brokers who do not have discretionary authority to vote on a particular matter and who have not received voting instructions from their customers are not counted or deemed to be present or represented for the purpose of determining whether stockholders have approved that matter, but they are counted as present for the purpose of determining the existence of a quorum at the Annual Meeting.

The Company will bear the cost of solicitation of proxies, which will be principally conducted by mail; however, certain officers of the Company may also solicit proxies by telephone, internet, facsimile or in person. Such cost may also include ordinary charges and expenses of brokerage firms and others for forwarding soliciting material to beneficial owners. The Company has retained the Altman Group to assist with soliciting proxies. The Altman Group will charge the Company \$5,000.00, plus expenses, for its services.

On March 20, 2003, the record date for determining stockholders entitled to vote at the Annual Meeting and any postponements and adjournments thereof, the Company had outstanding and entitled to vote approximately 39,451,182 shares of common stock, par value \$1.00 per share (the "Common Stock"). Each outstanding share of Common Stock entitles the record holder to one vote.

The following table sets forth information as of March 20, 2003 concerning the shares of Common Stock beneficially owned by (a) each person known by the Company to be the beneficial owner of 5% or more of the Company's outstanding Common Stock, (b) each of the directors and nominees for election as a director of the Company, (c) each of the executive officers of the Company named in the Summary Compensation Table and (d) all directors, nominees and executive officers of the Company as a group. COMPENSATION OF DIRECTORS AND EXECUTIVES

Compensation of Directors

Non-employee directors of the Company in 2002 received annual retainers of up to \$11,000, \$1,500 per meeting attended, and \$500 per telephonic meeting. In January 2002, non-employee directors received options to purchase 5,000 shares of the Company's common stock at an exercise price of \$7.10 per share for serving on the Board of Directors. Options granted to directors vest and become fully exercisable on the first anniversary of the grant date. Accordingly, all the options granted by the company to the non-employee directors have vested as of February 1, 2003. As of the date of this proxy, the Company has granted options for 126,268 shares of Common Stock to non-employee directors. In addition, the Company reimburses directors for expenses incurred in connection with attendance at meetings of the Board of Directors and committees thereof. Employees of the Company receive no additional compensation for serving as a director.

Compensation Committee Report on Executive Compensation

The Compensation Committee was composed of Allen D. Petersen, William F. Wright, and E. Miles Prentice, III for the 2002 fiscal year. Mr. Wright resigned on April 22, 2003 in order to assist the Company by creating a Board vacancy which could be filled by Mr. Connealy. Mr. Connealy was added to the Board and Audit Committee to satisfy a NASD rule requiring a third independent director be added to the Audit Committee and to satisfy a SEC rule encouraging audit committees to have at least one Audit Committee Financial Expert. The Compensation

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

Committee meets periodically during the course of the year to consider compensation programs for executive officers and senior managers of the Company. Although the Company's former Chairman and Chief Executive Officer, Michael W. Gullion, attended meetings of the Compensation Committee, he did not participate in any deliberations or decision-making involving his own compensation.

Compensation Philosophy and Objectives

The Company's compensation programs are designed to provide fair and reasonable compensation to all employees, including its executive officers and senior managers. The Committee's specific objectives are to: (i) provide annual compensation that takes into account the Company's performance relative to its financial goals and objectives; (ii) align the financial interests of the executive officers with those of stockholders by providing significant equity-based long-term incentives; and (iii) offer a total compensation program for executive officers based on the level of responsibility of the executive's

4

position and necessary skills and experience relative to other senior management positions and comparative compensation of similarly positioned executives and senior managers of peer financial institutions.

Compensation Components and Process

There are three major components of the Company's executive officer and senior manager compensation programs: (1) base salary, (2) annual incentive awards and (3) long-term incentives (stock options).

The process utilized by the Committee in determining executive officer compensation levels for all of these components is based upon the Committee's judgment and takes into account objective qualitative and quantitative factors. However, the Committee emphasizes that in determining executive officer compensation levels, particular attention is placed on tying a significant portion of executive compensation to the success of the executive officer and the Company in meeting established financial and performance goals.

For support in the compensation decision process, the Committee engaged an independent compensation consultant to provide assistance in developing guidelines for executive compensation and providing market data to determine relevant compensation practices of the Company's peer group of banks. The Company's peer group of banks, as developed by the independent compensation consultant, consists of national and regional bank holding companies that offer diversified financial services to its customers and are of comparable asset size. The committee takes into account the peer information when formulating its recommendations, but the Committee does not target total compensation or any component thereof to any particular point within, or outside, the range of the peer group results.

Long-term Incentive Awards

The stock-based awards (typically, Incentive Stock Option Grants) are generally granted to executive officers on an annual basis by the Committee. The stock option awards cannot be issued with an exercise price below the market price of the Company's common stock price at the time of the award and the exercise price cannot be changed after the award is issued, except to accommodate any dividends, stock splits or conversions that would affect all stockholders.

The Committee has historically granted stock options as a means of providing long-term incentives to employees. All options granted under the Company's 1996 Equity Compensation Plan, as amended (the "Plan"), "vest" incrementally over a five-year period based upon the optionee's continued employment by the Company. The Committee therefore bases its decision with regard to stock options granted to its executive officers primarily upon the total number of options available for grant and the officer's position.

Compensation of Chief Executive Officer

Malcolm M. Aslin became the Chief Executive Officer on March 17, 2003. Mr. Aslin's base salary has been set by the Compensation Committee at \$425,000. See "Employment Contracts."

Compensation of Former Chief Executive Officer

Michael W. Gullion served as Chief Executive Officer during 2002 and during the first quarter of 2003 until his removal on March 17, 2003. Mr. Gullion's base salary for 2002 was set by the Committee at \$500,000. His 2002 compensation also included \$225,000 in payments earned under the Company's incentive award program. The Committee also granted options for 80,000 shares of common stock and 100,000 shares of common stock to Mr. Gullion in 2002 and 2003, respectively. None of these options had vested when Mr. Gullion's employment was

terminated and, thus, have been forfeited.

15

Audit Committee Report

The role of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. The Board of Directors, in its business judgement, has determined that all members of the Audit Committee are "independent" as required by applicable listing standards of Nasdaq. The Audit Committee operates pursuant to a Charter that was last amended and restated by the Board on March 25, 2003. As set forth in the Charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors are responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles.

In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements with management and the independent auditors. The Audit Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standard No. 61, *Communication with Audit Committees*, as currently in effect. Finally, the Audit Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board No. 1, *Independence Discussions with Audit Committees*, as currently in effect, and written confirmations from management with respect to internal audit services provided by the auditors. The Audit Committee has considered whether internal audit and other non-audit services provided by the independent auditors to the Company is compatible with maintaining the auditors' independence and has discussed with the auditors their independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the independent accountants. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements have been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles, or that the Company's auditors are in fact "independent".

Based on the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Charter, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2002 filed with the Securities and Exchange Commission.

The Board of Directors, upon recommendation of its Audit Committee, has determined to continue the services of KPMG LLP for the current fiscal year ending December 31, 2003. Such services will include the audit of the financial statements of the Company for the fiscal year ending on such date and other appropriate accounting services. A member of KPMG LLP will attend the annual meeting and will have the opportunity to make a statement if desired. Such member will also be available to respond to appropriate questions from the stockholders.

Audit Committee Members(1)

William R. Hagman, Jr.
J. Gary Russ

(1) Neither Mr. Connealy nor Mr. Prentice were members of the Audit Committee at the time the Audit Committee Report was prepared or at the time the Company filed its annual report on Form 10-K, as amended on Form 10-K/A, with the Securities and Exchange Commission. The Audit Committee conducted the procedures required by the report and recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10K/A for the year ended December 31, 2002 prior to Mr. Connealy joining the Board and Mr. Prentice joining the Audit Committee.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended December 31, 2002, there were no interlocking relationships between any executive officers of the Company and any entity whose directors or executive officers serve on the Board's Compensation Committee, nor did any current or past officers of the Company serve on the Compensation Committee.

CERTAIN RELATED TRANSACTIONS*Loans to Executive Officers, Directors and Principal Stockholders*

Certain of the officers, directors and principal stockholders of the Company and its subsidiary banks, and members of their immediate families and businesses in which these individuals hold controlling interests, are customers of the Company's banks and it is anticipated such parties will continue to be customers of the banks in the future. Credit transactions with these parties are subject to review by each bank's Board of Directors.

Except as discussed below, all outstanding loans and extensions of credit by the banks to these parties were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and, in the opinion of management, did not and do not involve more than the normal risk of collectibility or present other features unfavorable to the banks. None of the loans to the directors and executive officers of the Company have been classified by regulatory authorities. The aggregate balance of loans and advances under existing lines of credit to these parties was \$54.7 million and \$41.1 million at December 31, 2002 and 2001, respectively.

On October 9, 2002, William F. Wright, then a director of the Company, drew \$625,000 on what he thought was a secured line of credit from Gold Bank-Kansas to purchase Common Stock in the Company's recent public offering. On September 19, 2002, Mr. Wright had established a custodial account with Gold Trust Company and instructed a third party custodian, in writing, to transfer marketable equity securities to his Gold Trust Company account to fully secure the line of credit. Unbeknownst to Mr. Wright and due to circumstances beyond his control, such marketable equity securities were not delivered by the third party custodian to his Gold Trust Company account until November 15, 2002 and November 18, 2002. When he drew on his Gold Bank-Kansas line of credit on October 9, 2002, Mr. Wright was not aware that his line of credit was actually unsecured at that time. On November 28, 2002, Mr. Wright repaid in full the draw and all accrued interest on his line of credit from Gold Bank-Kansas.

In October 2002, E. Miles Prentice, III, a current director of the Company, drew \$546,000 on a new line of credit from Gold Bank-Kansas to purchase Common Stock in the Company's recent public offering. Mr. Prentice's line of credit was unsecured. On April 10, 2003, Mr. Prentice pledged and delivered marketable equity securities (other than Common Stock) to fully secure his loan, which remains outstanding.

Bank regulators have taken the position that these loans were subject to compliance by Gold Bank-Kansas with Section 23A of the Federal Reserve Act because the proceeds of the loans were indirectly transferred to the Company, an affiliate of Gold Bank-Kansas, through the purchase of newly issued Common Stock. These transactions complied with Section 23A as to the dollar limitations that Gold Bank-Kansas could loan to Mr. Wright and Mr. Prentice. However, because neither line of credit was fully secured at the time the advances were made, these loans did not meet the collateral requirements of Section 23A, which may be applicable to such transactions. The Company believes these alleged regulatory violations have been cured.

Misappropriation of Bank Funds by Mr. Gullion

In late October 2002, the Company's Audit Committee received information from the Company's Chief Financial Officer and Internal Auditor that a circumvention of the internal controls of Gold Bank-Kansas, one of the Company's subsidiary banks, appeared to have occurred. Steven Rector, who was then serving as the cashier of Gold Bank-Kansas, credited the demand deposit account of Michael W. Gullion, who was then serving as the Chairman of the Board and Chief Executive Officer of the Company and as the Chairman of the Board, Chief Executive Officer and President of Gold

Bank-Kansas, in the amount of \$565,915 before an incoming wire transfer of funds was received by Gold Bank-Kansas to offset that credit. Mr. Gullion used the amount credited to his personal account to purchase common stock in the Company's October 2002 public offering. An internal investigation conducted by the Audit Committee, with assistance from its independent legal counsel, discovered that two additional transactions in the aggregate amount of \$225,000 had occurred in June and October of 2002 that also involved a credit to Mr. Gullion's demand deposit account before incoming wire transfers were received, which transfers appear to have been made at the direction of Mr. Gullion. Mr. Gullion has reimbursed Gold Bank-Kansas for these anticipatory credits, including interest at the prime rate of 4.5% from the dates of the original credits to his account.

As a result of this investigation, the Company notified bank regulatory authorities of these suspicious transactions. The Federal Reserve Bank of Kansas City ("FRB-KC") and the Office of the Kansas State Bank Commissioner (the "Commissioner") reviewed these transactions as part of their regularly scheduled joint examination of Gold Bank-Kansas. During that examination, additional suspicious transactions were discovered which caused the Audit Committee and its independent counsel to expand the scope of the internal investigation.

The expanded investigation revealed that in November 2000, Gold Bank-Kansas issued a cashier's check for \$1.0 million to a broker-dealer account controlled by Mr. Gullion. Mr. Gullion subsequently received from that broker-dealer account three checks for \$100,000, \$400,000 and \$500,000, respectively. It also revealed that in May 2001, a \$900,000 check payable to Gold Bank-Kansas was deposited into Mr. Gullion's demand deposit account. These amounts were part of a real estate transaction in which a business acquaintance of Mr. Gullion purchased real estate for \$2.4 million and immediately sold it to Gold Bank-Kansas for \$4.4 million. This transaction was not presented to or approved by the Board of Directors of Gold Bank-Kansas or the Company. Mr. Gullion received \$1.9 million of bank funds in the transaction. Mr. Gullion has not reimbursed Gold Bank-Kansas for these funds. As a result of these revelations, the Company has recorded a pre-tax expense of \$1.0 million

for 2000, which increased its previously reported 2000 loss per share from \$(0.12) to \$(0.14). The Company recorded an additional pre-tax expense of \$900,000 for 2001, which reduced its previously reported 2001 earnings per share from \$0.69 to \$0.67. The Company also reduced its investments in real estate by \$1.0 million in 2000 and \$900,000 in 2001 to reflect the bank funds diverted to Mr. Gullion. The Company has restated its previously reported financial statements for such years.

The expanded investigation also discovered improper credits to Mr. Gullion's personal bank account and improper expenses incurred for the personal benefit of Mr. Gullion and his family members, including purchases of automobiles for personal use. These funds were obtained through various means including the use of his Company credit card for personal use, improper reimbursement of personal expenses charged to his personal credit card, and improper recording of such payments in various expense accounts of Gold Bank-Kansas. The amount of these improper credits and expenses total approximately \$600,000. Mr. Gullion has not reimbursed Gold Bank-Kansas for these improper expenses. Since these amounts have been previously expensed, these losses do not adversely affect the Company's previously reported results of operations. These expenses, however, have been reclassified by the Company as "Loss resulting from misapplication of bank funds" in the Company's consolidated financial statements for 2001 and 2000.

The expanded investigation also revealed that Mr. Rector made an unauthorized transfer of \$40,000 from Mr. Gullion's account to his own account.

Gold Bank-Kansas maintains various types of insurance policies covering defalcations by officers and employees that may cover most or all of the losses, subject to applicable deductibles. The Company is examining whether to submit an insurance claim based on a determination as to whether the risk of increased premiums or difficulty in obtaining insurance coverage in the future would more than offset

that benefit. Mr. Gullion has offered, through his attorney, to make restitution of all amounts appropriately due us and to secure that obligation with his assets in an appropriate amount. Because Gold Bank-Kansas has recognized these losses, if in the future Mr. Gullion makes such restitution or Gold Bank-Kansas receives insurance proceeds, Gold Bank-Kansas will record those payments as income in the period received.

As a result of the aforementioned discoveries, the Boards of Directors of the Company and Gold Bank-Kansas terminated Mr. Gullion and Mr. Rector from all positions with the Company, Gold Bank-Kansas and the Company's other subsidiaries. They also obtained the resignation of Mr. Gullion from the Company's Board of Directors. The Company has taken significant additional actions to improve its internal controls, control environment, corporate governance and its standards for ethical and honest conduct by all of its employees, which are discussed in more detail in the Company's Form 10-K/A for 2002 under "Item 14 Controls and Procedures".

In connection with the issuance of a March 14, 2003 press release announcing the replacement of Mr. Gullion with a new Chief Executive Officer due to improper conduct described more fully above, the Company filed a Current Report on Form 8-K on the same date, notified the SEC of these discoveries and pledged its full cooperation with any inquiry made by the SEC into these matters. The SEC subsequently initiated an informal investigation of these matters. The Company and its directors and officers are cooperating fully with that investigation. Nasdaq also has made an informal request for information concerning these matters and the Company is cooperating fully with that request.

(Adopted March 25, 2003)

I. PURPOSE AND ROLE

The Audit Committee is appointed by the Board of Directors (the "Board") of Gold Banc Corporation, Inc. and its subsidiaries (collectively, "Gold") to assist the Board in fulfilling its oversight responsibilities. The Audit Committee's primary duties and responsibilities are to:

oversee and review the integrity of Gold's financial statements, financial reports and other financial information provided by Gold to any governmental body or the public;

oversee and review the integrity and adequacy of Gold's auditing, accounting and financial reporting processes and systems of internal controls for financial reporting and disclosure controls and procedures, regarding finance, accounting and reporting that management and the Board have established;

oversee and review Gold's compliance with legal and regulatory requirements, including internal controls designed for that purpose;

oversee, handle and review reports and complaints regarding the financial reporting, auditing, accounting and internal controls of Gold;

oversee and review any significant findings by bank regulatory agencies, together with management's responses, and monitor corrective actions to such findings;

oversee and review the independence, qualifications and performance of Gold's independent auditor and internal auditing department;

oversee and review the qualifications of the internal auditors and the performance of Gold's internal audit function;

provide an avenue of free, open and clear communication among the independent auditor, management, the internal auditing department and the Board;

review areas of potential significant financial risk to Gold and discuss guidelines and the process by which risk assessment and management is undertaken;

prepare the Audit Committee report required by the Securities and Exchange Commission ("SEC") rules to be included in Gold's annual proxy statement; and

report to the Board.

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

The Audit Committee's responsibilities include performance of the duties required of an audit committee to the Board of Directors of any of Gold's subsidiaries (collectively, the "Subsidiary Board") to the extent permitted and in the manner required by applicable law and regulations.

The term "independent auditor" means any accounting firm that has been engaged for the purpose of rendering or issuing an audit report or related work or performing other audit, review or attest services for Gold. All "independent auditors" shall be "registered public accounting firms" after the Public Company Accounting Oversight Board has established registration procedures therefor.

The Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to the independent auditor as well as anyone in the organization. The Audit Committee has the ability to retain, at Gold's expense, and without seeking Board approval, any outside legal, accounting, or other consultants or experts it deems necessary in the performance of its duties and to determine the funding therefor.

A-1

II. COMPOSITION

The Audit Committee shall be comprised of three or more directors as determined by the Board, each of whom shall be independent directors. Each member of the Audit Committee shall be considered independent if (i) the Board affirmatively determines the member is not an "affiliated person" and has no relationship with Gold or any of its subsidiaries, which in the opinion of the Board would interfere with the exercise of independent judgment of a director (either directly or indirectly, such as being a partner, shareholder or officer of an organization that has a relationship with Gold or any of its subsidiaries), (ii) the member does not own or control 10% or more of Gold's common stock, and (iii) the member is independent of the management of Gold as the Federal Reserve Board may define such independence from time to time. Such relationships may include, among others, commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships.

An "affiliated person" is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with, Gold or any of its subsidiaries. A director will be deemed to be an "affiliated person" if he or she is a director, executive officer, partner, member, principal or designee of an affiliate of Gold or any of its subsidiaries; provided, however, that a director that is also a director of a direct or indirect consolidated majority-owned subsidiary of Gold will not be considered an "affiliated person" if he or she otherwise meets the independence requirements of this Charter for both Gold and the subsidiary. A director will be deemed not to be in control of Gold or any of its subsidiaries for purposes of this Charter if the person: (i) is not the beneficial owner, directly or indirectly, of more than 10% of any class of equity securities of Gold or any of its subsidiaries and (ii) is not an executive officer of Gold or any of its subsidiaries. The term "control" (including the terms "controlling", "controlled by" and under "common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of a person, whether through the ownership of voting securities, by contract, or otherwise.

The following persons shall not be considered independent:

Current or Former Employees: A director being employed by Gold or any parent or subsidiary of Gold or any other affiliate of Gold for the current year or any of the past five years.

Present Auditor: A director being currently, or during the past five years, affiliated with or employed by the current independent auditor of Gold (or any of its affiliates).

Former Auditor: A director being currently, or during the past five years, affiliated with or employed by any accounting firm that audited the financial statements of Gold (or any of its affiliates) during the past five years.

Business Relationships: A director being a partner in, or a controlling shareholder or an executive officer of, any business organization to which Gold made, or from which Gold received, payments (other than those arising solely from investments in Gold's securities) that exceed five percent of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is greater, in the current fiscal year or any of the past three fiscal years.

Cross-Directorships: Currently or during the past five years, a director being employed by another entity where any of Gold's executive officers concurrently serves, or served, on that entity's compensation committee.

Family Members: A director (i) who is a relative by blood, marriage or adoption (which includes, without limitation, a person's spouse, parents, children, siblings, mother-in-law, father-in-law, brother-in-law, sister-in-law, son-in-law, daughter-in-law) of an individual who would not be independent under any of the foregoing criteria, or (ii) who resides in the same residence as any individual who would not be independent under any of the foregoing criteria.

Director Compensation: A director accepting, directly or indirectly, any consulting, advisory or other compensation from Gold or any of its affiliates during the current year or the three previous fiscal years (including any compensation paid to a firm in which the director is a

A-2

partner, member, principal or occupies a similar position for any accounting, consulting, legal, investment banking, financial or other advisory services or any similar services even if the director is not the actual service provider of the services) other than compensation for service on the Board, or any Subsidiary Board or any committee of the Board or any Subsidiary Board.

All members of the Audit Committee shall have a working knowledge of basic finance, accounting and auditing practices and shall be capable of reading and understanding fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. At least annually, if available, each member of the audit committee shall attend a seminar or a training class regarding improving and expanding such member's skills and ability as an audit committee member.

At least one member of the Audit Committee shall be an "Audit Committee Financial Expert" through either (i) education and experience as a principal financial officer, principal accounting officer, controller, public accountant or auditor or experience in one or more positions that involve the performance of similar functions; (ii) experience actively supervising a principal financial officer, principal accounting officer, controller, public accountant, auditor or person performing similar functions, or experience overseeing or assessing the performance of companies or public accountants with respect to the preparation, auditing or evaluation of financial statements; or (iii) other relevant experience. An "Audit Committee Financial Expert" is a person who possesses all of the following attributes: (i) an understanding of financial statements and generally accepted accounting principles; (ii) an ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves; (iii) experience preparing, auditing, analyzing or evaluating financial statements that present a breadth and level of complexity of accounting issues that are generally comparable to the breadth and complexity of issues that can reasonably be expected to be raised by the registrant's financial statements, or experience actively supervising one or more persons engaged in such activities; (iv) an understanding of internal controls and procedures for financial reporting; and (v) an understanding of audit committee functions. The determination as to whether a member of the Audit Committee is an "Audit Committee Financial Expert" shall be made by the Board.

No member of the Audit Committee may simultaneously serve on the audit committees of more than two other public companies, unless the Board determines that such simultaneous service would not impair the ability of such member to effectively serve on the Audit Committee and such determination is disclosed in Gold's annual proxy statement.

Audit Committee members shall be appointed by the Board at the annual meeting of the Board. The members of the Audit Committee shall serve until their successors shall be duly appointed and qualified or their earlier resignation or removal. If a Chair is not designated by the full Board or is not present at a particular meeting, the members of the Audit Committee may designate a Chair by majority vote of the Audit Committee membership in attendance.

III. MEETINGS

The Audit Committee shall meet at least four times annually, or more frequently as circumstances dictate. The Audit Committee Chair shall prepare and/or approve an agenda in advance of each meeting. The Audit Committee shall meet in separate executive sessions at least quarterly with management, the Director of Internal Audit, the independent auditor, and as a committee to discuss any matters that the Audit Committee or each of these groups believe should be discussed privately. In addition, the Audit Committee, or at least its Chair, should communicate with financial management and the independent auditor quarterly either in person or telephonically to review Gold's financial statements and significant findings based upon the independent auditor's limited review procedures as provided in Section IV.A.2. below.

A-3

 5. Discuss with management and the independent auditor the quality and adequacy of Gold's internal controls for financial reporting and internal auditing procedures, including any significant deficiencies in the design or operation of those controls which could adversely affect Gold's ability to record, process, summarize and report financial data and any fraud, whether or not material, that involves management or other employees who have a significant role in Gold's internal controls, and discuss with the independent auditor how Gold's financial systems and controls compare with industry practices.
 6. Discuss with management the type of information to be disclosed in any quarterly or year-end earnings press releases and earnings guidance provided to analysts and rating agencies and the type of presentation, if any, to be made in connection with the disclosure of such information, including the procedures to be followed to assure compliance with Regulation FD in connection with such disclosures and presentations.

-
9. Conduct an annual performance self-evaluation of the Audit Committee, including: (a) major issues regarding accounting principles and financial statement presentations, including any significant changes in Gold's selection or application of accounting principles, and major issues as to the adequacy of Gold's internal controls for financial reporting and any special audit steps adopted in light of material control deficiencies; (b) analyses prepared by management and/or the independent auditor setting forth significant financial reporting issues and judgments made in connection with the preparation of the financial statements, including analyses of the effects of alternative GAAP methods on the financial statements; (c) the effect of regulatory and accounting initiatives, as well as any off-balance sheet structures, on Gold's financial statements; and (d) earnings press releases (paying particular attention to any use of "pro forma" or "adjusted" non-GAAP information), as well as financial information and earnings guidance provided to analysts and rating agencies. The Audit Committee shall report its conclusions regarding this evaluation to the Board. The Committee's report should generally include an assessment of its compliance with this Charter, as well as identification of areas in which the Committee could improve its

performance and the Charter could be improved.

B.

Independent Auditor

1. The independent auditor is ultimately accountable to and shall report directly to the Audit Committee, as the representative of Gold's stockholders. The Audit Committee has the sole authority and direct responsibility to select, hire, evaluate and, where appropriate, replace the independent auditor or to nominate the independent auditor to be proposed for shareholder approval in any proxy statement. The Audit Committee must also approve any non-audit relationship with the independent auditor, and all non-audit services provided by the independent auditor and determine whether such relationships and services are compatible with the auditor's independence. The Audit Committee shall annually review the independence, qualifications and performance of the auditors, including the review and evaluation of the lead partner of the independent auditor, and shall oversee the work of the independent auditor for the purpose of preparing or issuing an audit report on Gold's financial statements or related work or performing other audit, review or attest services for Gold. In making its evaluation, the Audit Committee shall taken into account the opinions of management and the Director of Internal Audit.
2. The Audit Committee has the authority to, and shall, approve the fees and other compensation to be paid to the independent auditor and the funding therefor.
3. Require the independent auditor to submit on a periodic basis (but at least annually) to the Audit Committee a formal written statement in accordance with Independence Standards Board ("ISB") Statement No. 1 (as may be modified or amended) and such other requirements as may be established by the Public Company Accounting Oversight Board delineating all relationships between them and Gold and to actively engage in a dialogue with the independent auditor with respect to any relationships or services disclosed in the statement that may impact the independent auditor objectivity and independence, and take appropriate action in response to the statement of the independent auditor to satisfy itself of the outside auditors' independence and objectivity.
4. On an annual basis, obtain and review a report from the independent auditor describing: (i) the independent auditor's internal quality-control procedures; and (ii) any material issues raised by the most recent internal quality-control review or peer review of the independent auditor or by any inquiry or investigation by governmental or professional authorities, within the preceding five years, respecting one or more independent audits carried out by the independent auditor and any steps taken to deal with any such issues.
5. At least annually, consult with the independent auditor out of the presence of management about the adequacy, quality and integrity of the internal controls for financial reporting and the fair presentation and accuracy of Gold's financial statements.
6. Resolve disagreements, if any, between management and the independent auditor regarding financial reporting.
7. Review the independent auditor engagement letter and audit plan discuss scope and general approach of the audit, staffing, locations and reliance upon management and the internal audit staff.
8. Approve in advance any audit services (which may entail providing comfort letters in connection with securities underwritings) and non-audit services (including the fees and terms thereof) to be performed by the independent auditor; provided, however, that the following services cannot be provided even with Audit Committee approval, except to the extent permitted by SEC rule or the Public Company Accounting Oversight Board approves an exemption on a case by case basis: (A) bookkeeping or other services related to the accounting records or financial statements of Gold; (B) financial information systems design and implementation; (C) appraisal or valuation services, fairness opinions or contribution-in-kind reports; (D) actuarial services; (E) internal audit outsourcing services; (F) management functions or human resources; (G) broker-dealer, investment adviser, or investment banking services; (H) legal services and expert services unrelated to the audit; and (I) any other service that the Public Accounting Oversight Board determines, by regulation is not permissible.
9. The Audit Committee may pre-approve audit and non-audit services by either (a) designating one or more members of the Audit Committee to pre-approve any audit or non-audit services to be performed by the

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

independent auditor; provided that such members present such pre-approved activity to the full Audit Committee at its next scheduled meeting or (b) establishing pre-approval policies and procedures; provided the policies and procedures are detailed as to the particular service, the Audit Committee is informed of each service and such policies do not delegate the Audit Committee's responsibilities to management.

10.

Prior to releasing the year-end earnings, review and discuss the results of the audit with the independent auditor. Also review and discuss certain matters required to be communicated to audit committees in accordance with AICPA SAS 61, as amended by SAS 90, (as may be modified or amended), including, without limitation, the independent auditor's judgments about the quality, not just the acceptability, of Gold's accounting principles as applied in its financial reporting. Items to be reviewed and discussed include (communications may be written or oral):

the auditor's responsibility under Generally Accepted Auditing Standards ("GAAS");

critical or significant accounting policies and practices to be used;

methods used to account for significant unusual transactions;

effects of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;

process used by management in formulating particularly sensitive accounting estimates and the basis for the auditor's conclusions regarding the reasonableness of those estimates;

management judgments and accounting estimates;

A-6

how Gold's accounting policies compare with those in Gold's industry;

significant audit adjustments and any accounting adjustments that were noted or proposed by the independent auditor but were "passed" (whether or not material);

the auditor's responsibility for other information in documents containing audited financial statements;

disagreements with management, including those over accounting principles, scope of audit, the basis for management's accounting estimates and disclosures;

the auditor's views about significant matters that were the subject of consultation with other accountants by management;

all alternative accounting treatments of financial information within GAAP that have been discussed with management, including the ramifications of the use of such alternative disclosures and treatments and the treatment preferred by the independent auditor;

any communications between the audit team and the independent auditor' national office respecting auditing or accounting issues presented by the engagement;

any material written communications between the independent auditor and management, such as any "management" or "internal control" letter or schedule of unadjusted differences issued, or proposed to be issued, by the independent auditor to Gold;

major issues discussed with management prior to retention;

difficulties encountered in performing the audit, including any restrictions on the scope of the independent auditor's activities or on access to requested information; and

management's responses to any of the foregoing.

11.

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

Consider the independent auditor's judgments about the quality and appropriateness of Gold's accounting principles as applied in financial reporting:

discuss with management and the independent auditor the quality of the accounting principles and underlying estimates used in the preparation of Gold's financial statements;

discuss with the independent auditor the clarity and fair presentation of the financial disclosure practices used or proposed by Gold; and

inquire as to the independent auditor's view about whether management's choices of accounting principles appear reasonable from the perspective of income, assets and liability recognition, and whether those principles are common practices or are minority practices.

12.

The Audit Committee shall periodically discuss with the independent auditor whether all material correcting adjustments identified by the independent auditor in accordance with generally accepted accounting principles and rules of the SEC are reflected in Gold's financial statements.

13.

The Audit Committee shall review with management and the independent auditor any material financial or other arrangements of Gold which do not appear on Gold's financial statements and any transactions or courses of dealing with third parties that are significant in size or involve terms or other aspects that differ from those that would likely be negotiated with independent parties, and which arrangements or transactions are relevant to an understanding of Gold's financial statements.

A-7

14.

Assure that the independent auditor change the audit partners for the audit in accordance with the rules of the SEC and at least annually consider whether, in order to assure continuing auditor independence, Gold should change the independent auditor.

15.

Annually, present its conclusions with respect to the independent auditor to the Board.

C.

The internal audit function (currently being outsourced to Deloitte & Touche, hereinafter referred to as the "Internal Auditor") reports directly to the Audit Committee.

1.

Review with the Internal Auditor the budget, plan, and changes in plan, activities, organization structure, responsibilities, staffing, and qualifications of the personnel performing the internal audit function, as needed.

2.
