CHICAGO – Nov. 4, 2011 — Telephone and Data Systems, Inc. [NYSE:TDS, TDS.S] reported operating revenues of \$1,325.4 million for the third quarter of 2011, an increase of 5 percent from \$1,266.4 million in the comparable period one year ago. Net income attributable to TDS shareholders and related diluted earnings per share were \$71.3 million and \$0.68, respectively, for the third quarter of 2011, compared to \$41.4 million and \$0.39, respectively, in the comparable period one year ago.

“U.S. Cellular and TDS Telecom are focused on competing more effectively for new customers,” said LeRoy T. Carlson, Jr., TDS president and CEO, “while continuing to satisfy and retain their current customers. Both companies are also working to improve operational excellence and efficiency.”

“U.S. Cellular increased its margins and profitability, through growth in inbound roaming revenue, and through expense control. Average revenue per customer also grew, as more customers chose smartphones and data plans.

“TDS Telecom had a solid quarter, increasing operating revenues and operating income. ILEC data revenues continued to increase, due mainly to growth in hosted and managed services revenues and high-speed data customers. TDS Telecom also continued to add managedIP stations in its commercial business.

“The TDS Board of Directors is currently considering potential changes to our share consolidation proposal and anticipates completing this review process in the near future. Management and the TDS Board of Directors continue to believe that the share consolidation is in the best interests of all TDS shareowners and will simplify TDS' capital structure, improve market liquidity and provide greater financial flexibility.”

Guidance for year ending Dec. 31, 2011

Guidance for the year ending Dec. 31, 2011, as of Nov. 4, 2011, is provided below, compared to the previous guidance provided on Aug. 8, 2011. TDS undertakes no duty to update such information, whether as a result of new information, future events, or otherwise. There can be no assurance that final results will not differ materially from this guidance.

Operating revenues	\$800-\$830 million	Unchanged
Operating income (3)	\$85-\$115 million	Unchanged
Depreciation, amortization and accretion expenses, and losses on asset disposals and impairment of assets (3)	Approx. \$185 million	Unchanged
Adjusted OIBDA (2)	\$270-\$300 million	Unchanged
Capital expenditures (5)	\$175-\$200 million	Unchanged

(1) The 2011 Estimated Results as disclosed in the TDS Quarterly Report on Form 10-Q for the period ended June 30, 2011.

(2) Adjusted OIBDA is defined as Operating income excluding the effects of: Depreciation, amortization and accretion (OIBDA); the net gain or loss on asset disposals and exchanges (if any); and the loss on impairment of assets (if any). This measure also may be commonly referred to by management as operating cash flow. This measure should not be confused with Cash flows from operating activities, which is a component of the Consolidated statement of cash flows.

(3) The 2011 Estimated Results do not include any estimate for losses on impairment of assets since these cannot be predicted.

(4) This guidance is based on U.S. Cellular's current operations, which include a multi-year deployment of Long-term Evolution ("LTE") technology commencing in 2011. As customer demand for data services increases, and competitive conditions in the wireless industry evolve, such as the rate of deployment of LTE technology by other carriers, the timing of U.S. Cellular's deployment of LTE and the timing of other capital expenditures could change. These factors could affect U.S. Cellular's estimated capital expenditures and operating expenses in 2011.

(5) The capital expenditure guidance does not include federal grants of \$105.1 million awarded to TDS Telecom through the Broadband Stimulus program under the American Recovery and Reinvestment Act for 44 projects to be completed between 2011 and 2015.

(1) Used only to calculate market penetration of consolidated markets and consolidated operating markets, respectively. See footnote (2) below.

(2) Market Penetration is calculated by dividing the number of wireless customers at the end of the period by the total population of consolidated markets and consolidated operating markets, respectively, as estimated by Claritas.

(3) Smartphones represent wireless devices which run on a Blackberry®, Windows Mobile, or Android operating system.

(4) Smartphone penetration is calculated by dividing postpaid customers on smartphone service plans by total postpaid customers.

(5) Includes net postpaid additions (losses) and net prepaid additions (losses).

(6) Total ARPU - Average monthly service revenue per customer includes retail service, inbound roaming and other service revenues and is calculated by dividing total service revenues by the number of months in the period and by the average total customers during the period.

(7) Billed ARPU - Average monthly billed revenue per customer is calculated by dividing total retail service revenues by the number of months in the period and by the average total customers during the period. Retail service revenues include revenues attributable to postpaid, prepaid and reseller customers.

(8) Postpaid ARPU - Average monthly revenue per postpaid customer is calculated by dividing total retail service revenues from postpaid customers by the number of months in the period and by the average postpaid customers during the period.

(9) Represents the percentage of the retail postpaid customer base that disconnects service each month. This amount represents the average postpaid churn rate for each respective quarterly period.

(1) Includes ILEC and CLEC intercompany eliminations.

(2) Consists of a non-reportable segment (Suttle-Straus), corporate operations and, intercompany eliminations between U.S. Cellular, TDS Telecom and corporate investments. Amounts in this column are presented only to reconcile to consolidated totals and may not otherwise be meaningful.

(3) Adjusted OIBDA is a segment measure reported to the chief operating decision maker for purposes of making decisions about allocating resources to the segments and assessing their performance. Adjusted OIBDA is defined as Operating income excluding the effects of: Depreciation, amortization and accretion (OIBDA); the net gain or loss on asset disposals and exchanges(if any); and the loss on impairment of assets (if any). This measure also may be commonly referred to by management as operating cash flow. This measure should not be confused with Cash flows from operating activities, which is a component of the Consolidated Statement of Cash flows. Adjusted OIBDA excludes the net gain or loss on asset disposals and exchanges and loss on impairment of assets, if any, in order to show operating results on a more comparable basis from period to period. TDS does not intend to imply that any of such amounts that are excluded are non-recurring, infrequent or unusual, and accordingly, they may be incurred in the future. TDS believes this measure provides useful information to investors regarding TDS' financial condition and results of operations because it highlights certain key cash and non-cash items and their impacts on cash flows from operating activities.

(4) Adjusted OIBDA margin is defined as adjusted OIBDA divided by service revenues (U.S. Cellular) and operating revenues (TDS Telecom). Equipment revenues are excluded from the denominator of the U.S. Cellular calculation since equipment is generally sold at a net loss, and such net loss is included in adjusted OIBDA as a cost of earning service revenues for purposes of assessing business results. TDS believes that this calculation method is consistent with the method used by certain investors to assess U.S. Cellular's business results. Adjusted OIBDA margin may also be commonly referred to by management as operating cash flow margin.

(5) Free cash flow is defined as cash flows from operating activities minus capital expenditures. Free cash flow is a non-GAAP financial measure. TDS believes that free cash flow as reported by TDS may be useful to investors and other users of its financial information in evaluating the amount of cash generated by business operations, after consideration of capital expenditures.

(6) Amounts have been adjusted. See "Revision of Prior Period Amounts" section for additional details.

Revision of Prior Period Amounts

In preparing its financial statements for the nine months ended September 30, 2011, TDS discovered certain errors related to accounting for asset retirement obligations and asset retirement costs. These errors resulted in the overstatement of Total operating expenses, Property, plant and equipment, net and Other deferred liabilities and credits for the first and second quarter 2011 interim financial statements and in the 2010, 2009 and 2008 annual periods reported in the Company's December 31, 2010 financial statements. The beginning retained earnings balance presented in the December 31, 2010 annual financial statements was also understated as a result of these errors. In accordance with *SEC Staff Accounting Bulletin Nos. 99 and 108* ("SAB 99 and SAB 108"), TDS evaluated these errors and determined that they were immaterial to each of the reporting periods affected and, therefore, amendments of previously filed reports were not required. However, if the adjustments to correct the cumulative errors had been recorded in the third quarter 2011, TDS believes the impact would have been significant to the third quarter results and would have impacted comparisons to prior periods. As permitted by SAB 108, revisions for these immaterial amounts to previously reported annual and quarterly results are reflected in the financial information herein and will be reflected in future filings containing such financial information. In addition, TDS has recorded adjustments to prior-year amounts to correct other immaterial items.

The Consolidated Balance Sheet at December 31, 2010 was revised to reflect the cumulative effect of these errors which resulted in an increase to Retained earnings of \$4.0 million. In accordance with SAB 108, the Consolidated Balance Sheet, Consolidated Statement of Operations and the Consolidated Statement of Cash Flows have been revised as follows:
