NOTES TO CONDENSED FINANCIAL STATEMENTS

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

Company Name Change and Nature of Business

Effective August 20, 2007, the Company changed its name to Lifequest World Corporation (formerly Phytolabs, Inc. and Jurak Corporation World Wide, Inc.) to better reflect the business the company is involved in -- that of products designed to positively affect the lives of people worldwide. The shares of the Company trade on the Over the Counter Bulletin Board under the symbol, LQWC. We are a product-focused company specializing in the herbal supplement industry and market.

Lifequest World Corporation was incorporated under the laws of the State of Minnesota on November 1, 1997. In this Quarterly Report, the terms Company, us, we, our and its are used as references to Lifequest World Corporation. We develop and distribute dietary herbal supplement products. Our JC Tonic, The Youth Solution first developed in the 1920's and 1930's and introduced to the marketplace in 1943 by Mr. Carl Jurak, the father of the founder of our Company. Our dietary herbal supplement products are distributed through a network marketing system using independent distributors that we refer to as Ambassadors of Health (distributors).

The consolidated balance sheets as of February 29, 2008 and the related consolidated statements of operations for the three and nine months ended February 29, 2008 and February 28, 2007 and the consolidated statements of cash flows for the nine-month periods then ended have been prepared by the Company without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows at February 29, 2008 and February 28, 2007 and for the nine months then ended have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's May 31, 2007 audited financial statements and form 10-KSB. The results of operations for the period ended February 29, 2008 are not necessarily indicative of the operating results for the entire year.

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent assets and liabilities at the balance sheet date, and the reported amounts of revenues and expenses during the reporting period. The estimates and assumptions used in the accompanying condensed financial statements are based upon management's evaluation of the relevant facts and circumstances as of the time of the financial statements. Actual results could differ from those estimates.

NOTE 2 COMPANY'S CONTINUED EXISTENCE

The accompanying consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has sustained substantial losses and has a significant working capital deficit. The Company intends to generate positive cash flows from operations through increased sales utilizing the network of distributors in place and from financing activities by

NOTE 4 OTHER ASSET- IMMUNE BOOSTER LICENSE

From December 6, 2006 through November 30, 2007, the Company made payments of \$2,517,531 for licensing fees associated with an exclusive license and distribution agreement to acquire the worldwide marketing rights to the world's most powerful, natural immune booster discovered to date, as stated by the scientific research team that developed the product. These rights are being acquired from Nordic Immotech Trading APS (Nordic Immotech), a leading life science company with a successful history of producing unique, patented products that are distributed on a global scale. On December 1, 2006, the Company, through its wholly owned subsidiary, Phytolab Solutions, Inc. finalized the closing of this exclusive global license and distribution agreement with respect to this natural immune booster product. Phytolab Solutions, Inc. has started to market and sell these products during the three months ended February 29, 2008. As part of the closing for this agreement, the Company paid \$2,500,000 per the terms of the installment agreement. As of February 29, 2008, there are no remaining installments due under the agreement.

The Company has imputed interest on these installments at a rate of 10% and recorded the discounted installment payments as an other asset in the Company's financial statements which totals \$2,373,190. Additional costs for legal were also incurred which totaled \$17,531 and were added to this other asset. The Company is amortizing the licensed asset over the estimated sales volume that is anticipated over the remaining term of the licensed agreement to properly match revenue and expenses. Amortization of \$1,513 on the licensed asset has been made for the nine months ended February 29, 2008 and has been included in cost of sales. This estimate will be revised as necessary for each reporting period.

Under this license agreement, the Company has minimum purchase commitments for the calendar years as follows: 2007-1,000 Kilograms (KG), 2008-3,000 Kg, 2009-9,000 Kg, 2010-15,000 Kg, and 2011 and each year thereafter-20,000 Kg. If the Company fails to meet the minimum purchase requirements, Nordic Immotech has the right to terminate their license agreement with three months' written notice from the

expiration of the applicable calendar year. The Company has met the minimum purchase requirements for calendar year 2007.

As part of the license agreement noted above, Nordic Immotech shall pay a royalty of ten percent (10%) of net sales of raw materials sold by Nordic and or affiliates to independent third parties in territories outside of the United States.

In a separate agreement, the Company was granted an option to purchase all the shares in Nordic Immotech (the supplier). Subject to the terms and conditions of the separate agreement, the Company has the option to purchase all of the shares of Nordic Immotech (170,000 shares) at a fixed price of \$76.47 per share for a total of \$13,000,000. The Company may exercise the option anytime before December 1, 2008.

NOTE 5 DISTRIBUTOR STOCK BONUS PLAN

Prior to June 1, 2007, The Company offered to its distributors a plan whereby the distributors could earn a stock bonus based on sales and bonus points. Distributors earned certificates redeemable for a certain number of shares of the Company's common stock three years after the certificate has been earned. The number of certificates outstanding at February 29, 2008 and May 31, 2007 were 103,952. The liability for the bonus points of \$111,695 at February 29, 2008 and May 31, 2007 is included in accrued compensation and benefits. These amounts are redeemable into shares of common stock at the shares fair market value on the date that they are fully earned and redeemed. During the nine month period ended February 29, 2008 and year ended May 31, 2007; no shares were issued to various distributors under this plan. Effective June 1, 2007 this plan was discontinued, however the liability or a portion there of will remain for a period of 3 years relating to the 103,952 shares which were earned but not yet vested and issued. As the shares vest over the three year period of time, the stock certificates will be issued and will correspondingly reduce this liability.

NOTE 6 STOCKHOLDERS EQUITY

In July of 2007, the Board of Directors approved a split of its common stock on a basis of 1 new share for each 3 old shares. Shareholders of record as of the effective date of August 20, 2007 have received 1 new share for three old shares outstanding. All per share information and EPS calculations, including prior periods, reflect the effect of this stock split.

Prior to the stock split in July of 2007, the Company had issued 1,600,000 shares of stock (prior to adjusting for stock split) for \$1,599,950 in proceeds, net of transaction costs. The placement consisted of selling units which included one share of common stock and a warrant (one year term) to purchase one share of our common stock at an exercise price of \$1.25 for a unit price of \$1.00.

After the stock split in July of 2007, there was a single placement of 1,400,000 shares at \$0.50 per share for \$700,000. Subsequently, we authorized a private placement of up to 12,000,000 shares of our common stock. These shares were to be sold on a best efforts basis. This placement will have no warrants issued. We sold 2,500,000 shares at \$0.20 per share for \$500,000 in September 2007. We sold in November 2007, 1,190,476 shares for \$499,965, net of transaction costs, sold in December 2007, 595,238 shares for \$250,000 and sold in February 2008, 714,286 shares for \$300,000 at \$0.42 per share. Subsequent to February 29, 2008, The Company issued 1,500,000 shares for monies received in connection with these stock sales noted above.

During the nine month period ended February 29, 2008, two employees have elected to cancel 166,670 shares of restricted common stock that they received in April of 2007 in lieu of cash compensation. The employees forfeited the shares due to personal tax ramifications and the Company does not intend to replace this form of compensation.

Stock Warrants

As of February 29, 2008, the Company has 533,333 warrants outstanding at an exercise price of \$3.75 with a remaining term of no longer than 1 year.

Stock Option Plan

In June 2007, The Board of Directors authorized a stock option plan whereby management could issue of up to 2,000,000 options to purchase shares of the Company's common stock. The stock options may be issued to directors, officers, employees and consultants of the Company. Options granted under this plan are non-qualified stock options and have exercise prices and vesting terms established by the Board of Directors at the time of each grant. Options must be exercised within five years of grant date, unless otherwise extended by the Board of Directors or unless grantee ceases to be an officer, director, employee or consultant of the Company. As of February 29, 2008, no stock options were issued under this plan.

NOTE 7 CONTINGENCIES

In the ordinary course of business, the Company is exposed to legal actions and threatened claims and incurs costs to defend against such legal actions and claims. Company management is not aware of any such outstanding, pending or threatened action, claim or other circumstance that would materially affect the Company's financial position or results of operations.

NOTE 8 - INCOME TAXES

Effective June 1, 2007, the Company adopted FASB Interpretation 48 (FIN 48), Accounting for Uncertainty in Income Taxes to address the non-comparability in reporting tax assets and liabilities resulting from a lack of specific guidance in FASB Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes

on the uncertainty in income taxes recognized in an enterprise's financial statements. Specifically, FIN 48 prescribes (a) a consistent recognition threshold and (b) a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides related guidance on derecognition, classification, interest and penalties, accounting interim periods, disclosure and transition. To the extent interest and penalties would be assessed by taxing authorities on any underpayment of income taxes, such amounts would be accrued and classified as a component of income tax expenses on the consolidated statement of operations. The adoption of FIN 48 did not impact the consolidated financial statements for the nine months ended February 29, 2008. The Company's federal and state tax returns are potentially open to examinations for fiscal years 2004-2007.

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax basis. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the

effects of changes in tax laws and rates on the date of the enactment. The Company has recorded a full valuation allowance for all deferred tax assets due to the significance of its continued operating losses.

NOTE 9 RELATED PARTY TRANSACTIONS

Intellectual Property License Agreement

In January 1999, we entered into an intellectual property license agreement (the "License Agreement") with Jurak Holdings Limited ("JHL"), a corporation organized under the laws of the Province of Alberta, Canada and an affiliate of our Chief Executive Officer and one of our directors. Pursuant to the terms and provisions of the License Agreement, we are required to pay the greater of \$500,000 for fiscal year 2003 and each calendar year thereafter, during the first ten years of the License Agreement (the "Minimum Royalty Fee"), or eight percent of the net sales price of all licensed products sold under the License Agreement (the "Continuing Royalty Fee"). After fiscal 2013, we are required to make payments in the amount of the Continuing Royalty Fee. On any amounts past due on this agreement, interest will accrue at prime plus 1%.

For the nine months ended February 29, 2008 and February 28, 2007, the minimum royalty fee for the amount of \$375,000 was expensed. The accrued payments due and owing to JHL under the License Agreement for the Minimum Royalty Fee and the Continuing Royalty Fee were \$984,167 and \$631,856 February 29, 2008 and May 31, 2007, respectively. The amount owed as of February 29, 2008 includes accrued interest of \$113,241 which was recorded due to continued delinquent payments.

NOTE 10 RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2007, the FASB issued Statement of Financial Accounting Standards Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115* (SFAS No. 159). This standard permits an entity to choose to measure many financial instruments and certain other items at fair value. This standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. We believe the adoption of SFAS No. 159 will not have a material impact on our consolidated financial position or results of operations

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("SFAS No. 157"). This standard clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing an asset or liability. Additionally, it establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. This standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of this statement. We believe the adoption of SFAS No. 157 will not have a material impact on our consolidated financial position or results of operations.

Item 2.

Management's Discussion and Analysis of Financial

Condition and Results of Operations

Overview

Lifequest World Corporation, (formerly Phytolabs, Inc. and Jurak Corporation World Wide, Inc.), a Minnesota corporation incorporated on November 1, 1997, currently trades on the Over-the-Counter Bulletin Board under the symbol "LQWC". We are a product-focused company specializing in the herbal supplement industry and market.

We distribute our products through a network marketing system using independent distributors. Network marketing appeals to a wide cross-section of people, particularly those seeking to supplement income, start a home-based business or pursue entrepreneurial opportunities other than conventional full-time

employment. We consider our attractive compensation plan and cash bonus pools to be attractive components of our network marketing system. We also believe that our network marketing system is ideally suited to market herbal supplement products because sales of such products are strengthened by ongoing personal contact between our distributors and their customers. Distributors are given the

opportunity through sponsored events and training sessions to network with other distributors, develop selling skills and establish personal goals. We supplement monetary incentives with other forms of

recognition in order to further motivate and foster an atmosphere of excitement through our distributor network.

We have obtained trademark protection for the name "JC Tonic" within the United States and within Canada. We also own the web sites www.jurak.com, www.jctonic.com and www.tonicman.com.

The Company has also obtained the worldwide marketing rights to the world's most powerful, natural immune booster discovered to date, as stated by the scientific research team that developed the product. These rights have been acquired from a leading life science company with a successful history of producing unique, patented products that are distributed on a global scale. On December 1, 2006, the Company finalized the closing of this exclusive global license and distribution agreement with respect to this natural immune booster product and has made the entire required installment payments called for in the agreement as of February 29, 2008. The Company has begun to market and sell these products beginning in the third quarter of fiscal 2008.

The following discussion and analysis of our results of operations and financial position should be read in conjunction with our audited financial statements and the notes thereto, included in our 10-KSB filed for the year ended May 31, 2007. Our financial statements are prepared in accordance with U.S. GAAP.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

The following discussion is intended to provide an analysis of our financial condition and should be read in conjunction with our audited financial statements and the notes thereto. The matters discussed in this section, which are not historical or current facts, deal with potential future circumstances and developments. Such forward-looking statements include, but are not limited to, the development plans for our growth, trends in the results of our development, anticipated development plans, operating expenses and our anticipated capital requirements and capital resources. Our actual results could differ materially from the results discussed in the forward-looking statements.

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, which contemplate continuation of the Company as a going concern. However, the Company has sustained substantial losses and its current liabilities exceed

its current assets. The Company intends to generate positive cash flows from operations through increased sales utilizing the network of distributors in place with existing products and the new natural immune booster products, issuing additional stock, and obtaining necessary capital through additional advances from the Company's principal stockholder or through private placements.

To continue operations, the Company must raise additional capital. As stated in Note 6, the Company has sold additional stock in a private placement during the nine months ended February 29, 2008. However, there can be no assurance the Company will be able to obtain additional capital from private placements in the future. The Company has no other committed sources or arrangements for additional financing.

Prior to the stock split in July of 2007, the Company had issued 1,600,000 shares of stock (prior to adjusting for stock split) for \$1,599,950 in proceeds, net of transaction costs. The placement consisted of selling units which included one share of common stock and a warrant (one year term) to purchase one share of our common stock at an exercise price of \$1.25 for a unit price of \$1.00.

After the stock split in July of 2007, there was a single placement of 1,400,000 shares at \$0.50 per share for \$700,000. Subsequently, we authorized a private placement of up to 12,000,000 shares of our common stock. These shares were to be sold on a best efforts basis. This placement will have no warrants issued. We sold 2,500,000 shares at \$0.20 per share for \$500,000 in September 2007. We sold in November 2007, 1,190,476 shares for \$499,965, net of transaction costs, sold in December 2007, 595,238 shares for \$250,000 and sold in February 2008, 714,286 shares for \$300,000 at \$0.42 per share. Subsequent to February 29, 2008, the Company issued 1,500,000 shares for monies received in connection with these sales noted above.

During the three months ended February 29, 2008, the Company began selling the new immune booster product in the North American market.

Three months Ended February 29, 2008 Compared to Three months Ended February 28, 2007

Total revenue for the three months ended February 29, 2008 was \$244,054 compared to \$240,088 in the same period ended in 2007. Gross profit was \$219,764 for the three months ended February 29, 2008 compared to \$200,259 for the same period ended in 2007, as further discussed below. The net loss during the three months ended February 29, 2008 was \$409,566 compared to a net loss of \$287,283 in the same period ended in 2007.

Sales and Gross Profit

Product sales for three months ended February 29, 2008 decreased slightly to \$223,204 compared to \$240,088 in the same period ended in 2007. The Company recorded \$24,080 in sales for the immune booster product for the three months ended February 29, 2008 and none for the comparable period. The 2008 revenue amount includes \$20,850 of royalty income due from Nordic Immotech for their sales of our natural immune booster product in Europe which is compared to no royalty revenue for the comparable period.

Gross profit in the three months ended February 29, 2008 increased slightly to \$219,764 compared to \$200,259 in the same period ended in 2007. Gross profit as a percentage of revenue increased slightly to 90% in the three months ended February 29, 2008 compared to 83% in the same period ended in 2007, due to the royalty income earned in 2008 which has no direct costs aside from the immune booster license amortization.

Royalty Expense-Related Party

The minimum royalty expense-related party accrued to Jurak Holdings Limited (related party) remained consistent for both periods at \$125,000.

Distribution, Selling and Administrative Expenses

Total distribution, selling and administrative expenses for the three months ended February 29, 2008 were \$387,357 compared with \$316,962 for the same period ended in 2007. The selling and administrative expenses increased slightly compared to 2007 due to the investment in launching the new immune booster product line in 2008 which included increased consulting and marketing costs.

Interest expense for the three months ended February 29, 2008 was \$116,973 compared with \$45,580 for the same period in the prior year. Current year interest costs increased over prior year due to increased interest expense on the royalty agreement with a related party for which the Company is in arrears on payments due.

Nine months Ended February 29, 2008 Compared to Nine months Ended February 28, 2007

Total revenue for the nine months ended February 29, 2008 was \$801,547 compared to \$796,674 in the same period ended in 2007. The 2008 revenue amount includes \$80,417 of royalty income due from Nordic Immotech for their raw material sales of our natural immune booster product in Europe, which is compared to no royalty revenue for the comparable period. Gross profit was \$644,865 for the nine months ended February 29, 2008 compared to \$619,436 for the same period ended in 2007, as further discussed below. The net loss during the nine months ended February 29, 2008 was \$1,029,800 compared to a net loss of \$811,313 in the same period ended in 2007.

Sales and Gross Profit

Product sales for nine months ended February 29, 2008 decreased slightly to \$721,130 compared to \$796,674 in the same period ended in 2007. Management is confident an improved computerized tracking and reporting system,

updated website and significant new offerings from the immune booster product in fiscal 2008 will result in future increases in sales volume.

Gross profit in the nine months ended February 29, 2008 increased slightly to \$644,865 compared to \$619,436 in the same period ended in 2007. Gross profit as a percentage of revenue was 81% in the nine months ended February 29, 2008 compared to 78% in the same period ended in 2007 partly due to the royalty income earned on the immune booster product in 2008.

Royalty Expense-Related Party

The minimum royalty expense-related party accrued to Jurak Holdings Limited (related party) remained consistent for both periods at \$375,000.

Distribution, Selling and Administrative Expenses

Total distribution, selling and administrative expenses for the nine months ended February 29, 2008 were \$1,132,469 compared with \$1,010,169 for the same period ended in 2007. The selling and administrative

expenses increased slightly compared to 2007 due to the investment in launching the new immune booster product line in 2008 which included increased consulting and marketing costs.

Interest expense for the nine months ended February 29, 2008 was \$167,196 compared with \$45,580 for the same period in the prior year. Current year interest costs increased over prior year due to increased interest expense on the royalty agreement with a related party for which the Company is in arrears on payments due.

Liquidity and Capital Resources

Nine Month Period Ended February 29, 2008

We have historically had more expenses and cost of sales than revenue in each year of our operations. The accumulated deficit as of February 29, 2008 was \$7,041,034 compared to \$6,011,234 as of May 31, 2007. Generally, we have financed operations to date through the proceeds of the private placement of equity and debt securities and sales revenue. In connection with our business plan, management anticipates that there may be additional increases in operating expenses and capital expenditures relating to the new immune booster products. We intend to finance these expenses with further issuances of our securities and revenues from operations. Therefore, we expect we may need to raise additional capital and increase our revenues to meet long-term operating requirements.

At February 29, 2008, the Company had \$214,723 of unrestricted cash compared to \$197,338 of unrestricted cash at May 31, 2007. The Company had current assets of \$542,868 and current liabilities of \$1,390,819 at February 29, 2008 compared to current assets of \$282,824 and current liabilities of \$2,377,809 at May 31, 2007.

Net cash used in operating activities was \$831,032 during the nine months ended February 29, 2008 compared to net cash used in operating activities of \$258,777 in the same period ended in 2007. The increase was due primarily to the increased operating loss for the nine months ended February 29, 2008 compared to the operating loss for the nine months ended February 28, 2007 and the significant increase in inventory for the new immune booster product launch which were offset by increases in accounts payable and accrued expense. The Company has been incurring additional expenses attempting to launch the natural immune booster product line during 2008.

Net cash used in (provided by) investing activities was \$0 in the first nine months ended February 29, 2008 compared to \$(609,368) in the same period ended in 2007, primarily for the initial investment in the immune booster license.

Net cash provided by financing activities was \$848,417 during the nine months ended February 29, 2008 compared to net cash provided by financing activities in the same period in 2007 of \$824,797. Proceeds from the issuance of common stock were \$2,249,965 in the nine months ended February 29, 2008 compared to \$800,000 in the same period of 2007. Payments on the installment note for the immune booster license was \$1,384,513 in the nine months ended February 29, 2008 compared to \$0 in the same period in 2007.

Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgements underlying them, are discussed in our fiscal 2007 Form 10-KSB in Note 1 Summary of Significant Accounting Policies included in our Consolidated Financial Statements. There was one significant change to our critical accounting policies during the period ended February 29, 2008. The Company is amortizing the licensed immune booster asset over the estimated sales volume that is anticipated over the remaining term of the licensed agreement to properly match revenue and expenses. This estimate will be revised as necessary for each reporting period.

The remaining policies have been consistently applied in all material respects and disclose such matters as allowance for doubtful accounts, sales returns, inventory valuation, income taxes, revenue recognition and fixed asset and intangible asset impairment recognition. On an ongoing basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the result of which form the basis for making judgements about the carrying value of assets and liabilities that are not readily apparent from other sources. Results may differ from these estimates due to actual outcomes being different from those on which we based our assumptions. Management on an ongoing basis reviews these estimates and judgements.

Recently Issued Accounting Pronouncements

In February 2007, the FASB issued Statement of Financial Accounting Standards Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of FASB Statement No. 115* (SFAS No. 159). This standard permits an entity to choose to measure many financial instruments and certain other items at fair value. This standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. We believe the adoption of SFAS No. 159 will not have a material impact on our consolidated financial position or results of operations.

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* ("SFAS No. 157"). This standard clarifies the principle that fair value should be based on the assumptions that market participants would use when pricing an asset or liability. Additionally, it establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. This standard is effective for financial statements issued for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of this statement. We believe the adoption of SFAS No. 157 will not have a material impact on our consolidated financial position or results of operations.

Item 3. Controls and Procedures

(a)

Evaluation of Disclosure Controls and Procedures

The Company's management, Anthony Carl Jurak, our Chief Executive Officer and acting Chief Accounting Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of February 29, 2008 (the "Disclosure Controls Evaluation"). Based on that evaluation, the Company's Chief Executive Officer and Chief Accounting Officer, concluded that as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to provide a reasonable level of assurance that: (i) information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the specific time periods in the Securities and Exchange Commission's rules and forms and (ii) information required to be disclosed in the reports the Company files or submits under Exchange Act are accumulated and communicated to management, including the Chief Executive Officer and Chief Accounting Officer, to allow timely decisions regarding required disclosure, all in accordance with Exchange Act Rule 13a-15(e).

There were no changes in the Company's internal control over financial reporting, as defined in Exchange Act Rule 13a-15(f), during the quarter ended February 29, 2008, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

Due to the limited number of Company employees engaged in the authorization, recording, processing and reporting of transactions, there is inherently a lack of segregation of duties. The Company periodically assesses the cost versus benefit of adding the resources that would remedy or mitigate this situation, and currently does not consider the benefits to outweigh the costs of adding additional staff in light of the limited number of transactions related to the Company's operations.

(b)

Changes in Internal Controls Over Financial Reporting

There were no changes in the Company's internal control over financial reporting, during the quarter ended February 29, 2008, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

On December 13, 2006, a civil suit was filed in the District Court of Clark County in and for the State of Nevada by Jurak Corporation World Wide, Inc. (plaintiffs) and one former employee and her spouse (defendants). The suit entails that the former employee processed credit refunds to a debit/credit card held at their banking institution. In addition, the former employee embezzled funds by setting up a merchant processing system and diverting the charging of our distributors' credit cards from our merchant processor to their processor. All is evidenced by information located on the computer used by the former employee at the Company as well as through other reporting mechanisms and processing systems. The Company is

Seeking relief for damages in excess of \$60,000; special damages according to proof; for attorneys' fees and costs of suit; and for other and further relief as the Court may deem just and proper as compensation

for monies embezzled by the former employee and her spouse. No answer has been received from the defendant and the Company is seeking a default judgment granting all of the relief sought.

Item 2 Changes in Securities

During the nine month period ended February 29, 2008, the Company authorized a single placement at \$0.50 per share with no warrants. Subsequently, we authorized a private placement of up to 12,000,000 shares of our common stock on a best efforts basis. This placement will have no warrants issued. We have sold 6,400,000 shares for \$2,249,965, net of transaction costs, through February 29, 2008 under these placements. Subsequent to February 29, 2008, the Company issued 1,500,000 shares for monies received in connection with these sales noted above. These shares are unregistered with no underwriter used for the sale of common stock. The shares of stock were sold pursuant to an exemption from registration under Rule 506 of Regulation D.

Item 5 Other Information

No items occurred during the period of this report which would have been required to be reported in a Form 8-K which have not been reported.

There have been no material changes to the procedures by which security holders may recommend nominees to the Company's board of directors.

Item 6 Exhibits

The following exhibits are included herein:

31.1

Certification of Chief Executive Officer and Chief Accounting Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (Rules 13a-14 and 15d-14 of the Exchange Act).

32.

Certification pursuant Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. §1350).

Signatures

In accordance with the requirements of the Exchange Act of 1934, the registrant caused this report to be signed on its behalf by the undersigned thereto, duly authorized.

Lifequest World Corporation.
