**ITEM 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.**

On October 19, 2007, Boston Scientific Corporation (the “Company”) issued a press release announcing financial results for the third quarter ended September 30, 2007. A copy of the release is furnished with this report as Exhibit 99.1.

The information in this Item 2.02 on Form 8-K and Exhibit 99.1 attached hereto shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934 (the “Exchange Act”) or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act, regardless of any general incorporation language in such filing.

**ITEM 2.05. COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.**

On October 15, 2007, the Board of Directors of Boston Scientific Corporation (the “Company”) approved, and the Company committed to, an expense and workforce reduction plan (the “Plan”), which will result in the elimination of approximately 2,300 positions worldwide. This represents more than 13% of the Company’s 18,000-person non-direct labor workforce as of June 30, 2007. The Plan is intended to bring expenses in line with revenues and is designed to enhance short- and long-term shareholder value. Activities under the Plan will be initiated this month and are expected to be substantially completed worldwide by the end of 2008. The Plan includes the restructuring of several business units and product franchises in order to leverage resources, strengthen competitive positions, and create a more simplified and efficient business model. The Company estimates that the Plan will result in total pre-tax charges of approximately \$450 million to \$475 million, and that approximately \$400 million to \$425 million of these charges will result in future cash outlays.

The following table provides a summary of the Company’s estimates of costs associated with the Plan by major type of cost:

<b>Type of Cost</b>	<b>Amount of Cost</b>
Termination benefits	\$265 million to \$275 million
Retention incentives	\$70 million to \$75 million
Asset write-offs and accelerated depreciation	\$55 million to \$60 million
Other (1)	\$60 million to \$65 million

(1) Other costs primarily consist of costs to transfer product lines from one facility to another and consultant fees.

The Company estimates that \$275 million to \$300 million of the total charges will be recorded in the fourth quarter of 2007. The fourth quarter charges relate primarily to termination benefits recorded pursuant to FASB Statement No. 112, *Employer’s Accounting for Postemployment Benefits* and asset write-offs. The Company estimates asset write-offs in the fourth quarter of approximately \$40 million. These impairment charges relate primarily to intangible assets and fixed assets that are not recoverable following the Company’s decision on October 15, 2007 to (i) commit to the Plan, including the elimination, delay or reduction of spending on certain R&D projects, and (ii) restructure several businesses. The press release announcing the Plan is attached as Exhibit 99.2.
