Notes to Financial Statements

June 30, 2014

1.

ORGANIZATION AND PRINCIPAL ACTIVITIES

Deal a Day Group Corp. ("DADG" or "the Company") is a corporation organized under the laws of the State of Nevada.

DADG changed its business direction in the wake of the massive growth and evolution of the multi-billion dollar daily deal market space. We have redirected our company with the vision of creating balance between merchants and their customers and to create platforms that will help merchants grow their businesses through cost effective promotional resources. Our business units will focus on the Daily Deals/Group buying arena, print media, and software and applications development.

As of June 30, 2014, 50,380,399 shares of common stock are outstanding.

2.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation and Accounting

The accompanying interim unaudited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the United States Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information and footnotes necessary for a comprehensive presentation of financial position, results of operations, stockholders' equity or cash flows. It is management's opinion, however, that all material adjustments (consisting of normal recurring adjustments) have been made which are necessary for a fair financial statement presentation. The interim unaudited financial statements should be read in conjunction with the Company's Annual Report on Form 10-K, which contains the annual audited financial statements and notes thereto, together with the Management's Discussion and Analysis, for the year ended December 31, 2013. The interim results for the three and six months ended June 30, 2014 are not necessarily indicative of the results for the full fiscal year. The interim unaudited financial statements are presented in USD. The Company has adopted a December 31 year end.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Company's financial instruments consist of cash and cash equivalents, prepaid expenses and other assets, accounts payable, due to director, accrued interest, and notes payable. The carrying amounts of these financial instruments approximates fair value due either to length of maturity or interest rates that approximate prevailing market rates unless otherwise disclosed in these financial statements.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on deposit. As of June 30, 2014 and December 31, 2013, the Company had no cash on deposit.

Related Parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

Stock-Based Compensation

The Company accounts for employee stock-based compensation in accordance with the guidance of FASB ASC Topic 718, Compensation-Stock Compensation, which requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values.

The Company follows ASC Topic 505-50, formerly EITF 96-18, *Accounting for Equity Instruments that are Issued to Other than Employees for Acquiring, or in Conjunction with Selling Goods and Services*, for stock options and warrants issued to consultants and other non-employees. In accordance with ASC Topic 505-50, these stock options and warrants issued as compensation for services provided to the Company are accounted for based upon the fair value of services provided or the estimated fair market value of the option or warrant, whichever can be more clearly determined. The fair value of the equity instrument is charged directly to compensation expense or prepaid expense and additional paid-in capital over the period during which services are rendered.

Basic and Diluted Net Loss per Share

Basic net loss per common share is computed by dividing net loss applicable to common shareholders by the weighted-average number of common shares outstanding during the period. Diluted net loss per common share is determined using the weighted-average number of common shares outstanding during the period, adjusted for the dilutive effect of common stock equivalents, consisting of shares that might be issued upon exercise of common stock options. In periods where losses are reported, the weighted-average number of common shares outstanding excludes common stock equivalents, because their inclusion would be anti-dilutive.

Income Taxes

The Company records deferred tax assets and liabilities based on the net tax effects of tax credits, operating loss carryforwards and temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company assesses the likelihood that its deferred tax assets will be recovered from future taxable income and the Company establishes a valuation allowance to reduce deferred tax assets to an amount which it believes to be more likely than not realizable. The valuation allowance is based on the Company's estimates of taxable income by jurisdiction in which it operates and the period over which its deferred tax assets will be recoverable.

Going Concern

The accompanying financial statements have been prepared assuming that the company will continue to operate as a going concern. Through June 30, 2014, the Company has not generated any revenue, has a negative working capital and has losses since inception. As of June 30, 2014, the accumulated deficit is \$10,154,124 and the working capital deficiency is \$2,866,715.

Recently Issued Accounting Standards

On June 10, 2014, the Financial Accounting Standards Board ("FASB") issued update ASU 2014-10, Development Stage Entities (Topic 915). Amongst other things, the amendments in this update removed the definition of development stage entity from Topic 915, thereby removing the distinction between development stage entities and other reporting entities from US GAAP. In addition, the amendments eliminate the requirements for development stage entities to (1) present inception-to-date information on the statements of income, cash flows and shareholders equity, (2) label the financial statements as those of a development stage entity; (3) disclose a description of the development stage activities in which the entity is engaged and (4) disclose in the first year in which the entity is no longer a development stage entity that in prior years it had been in the development stage. The amendments are effective for annual reporting periods beginning after December 31, 2014 and interim reporting periods beginning after December 15, 2015, however entities are permitted to early adopt for any annual or interim reporting period for which the financial statements have yet to be issued. The Company has elected to early adopt these amendments and accordingly have not labeled the financial statements as those of a development stage entity and have not presented inception-to-date information on the respective financial statements.

There are no other accounting standards or interpretations issued or recently adopted that are expected to have a material impact on the Company's financial position, operations or cash flows.

3.

DUE TO DIRECTOR

A director loaned the Company money during the period for cash flow needs. The balance due to the director of \$49,027 as of June 30, 2014 (December 31, 2013: \$30,725) is unsecured, non-interest bearing and has no specific terms of repayment.

4.

The note is currently in default.	\$ 60,000	\$ 60,000
On October 26, 2009, the Company entered into a note payable for \$141,623.23 at 10% interest per annum due December 31, 2010. The note also calls for 5% additional interest per annum in the event of default. As of June 30, 2014 and December 31, 2013, the note has accrued interest of \$87,076 and \$76,454, respectively. The note is currently in default.	141,632	141,632
On November 4, 2011, the Company entered into an amended note payable for \$945,962 at 10% interest per annum due December 31, 2012. As of June 30, 2014 and December 31, 2013, the note has accrued interest of \$252,256 and \$204,958, respectively. The note is currently in default.	945,962	945,962
On October 11, 2011, the Company entered into a convertible line of credit note up to \$500,000 at 8% interest per annum due December 31, 2012. The Company has received extensions to date that move the maturity date up to October 1, 2014. As of June 30, 2014 and December 31, 2013, the note has accrued interest of \$92,304 and \$72,157, respectively. See note 5.	497,440	497,440
	\$ 1,645,034	\$ 1,645,034

All of the outstanding principal debt of \$1,645,034 is due within one year.

5.

CONVERTIBLE DEBT

On October 1, 2011, the Company issued a convertible credit line of \$500,000 with a 10% interest rate per annum. The amount drawn plus any accrued interest is convertible into shares of the Company's common stock at a rate of 85% multiplied by the average market price of the previous 30 days trading prior to the conversion. As of June 30, 2014 and December 31, 2013, the amount drawn is \$497,440 and \$497,440, respectively. The total accrued interest as of June 30, 2014 and December 31, 2013 is \$92,304 and \$72,157, respectively. See note 4.

In accordance with ASC 815, the Company has bifurcated the conversion feature of the note and recorded a derivative liability.

The Company uses the Black-Scholes option pricing model to value the separate derivative liabilities for each of the draws against the credit line. Included in the model are the following assumptions: stock price at valuation date of \$0.03 (2013: \$0.01-\$0.30), exercise price of \$0.03 (2013: \$0.03-\$0.27), dividend yield of zero (2013: zero), years to maturity of 0.50 (2013: 0.08-1 year), a risk free rate of 0.11% (2013: 0.12%-0.16%), and annualized volatility of 294% (2013: 93%-325%). The Company recognized a derivative expense of \$0 and \$0 during the three and six months ended June 30, 2014 and 2013, respectively.

ASC 815 requires Company management to assess the fair market value of certain derivatives at each reporting period and recognize any change in the fair market value as another income or expense item. The Company's only asset or liability measured at fair value on a recurring basis is its derivative liability associated with the above convertible debt. During the three and six months ended June 30, 2014, the Company recorded a change in fair market value of derivative liability of \$(1,598) and \$(120,538) (2013: \$7,791 and \$69,866), respectively, in relation to the aforementioned credit line. During the three and six months ended June 30, 2014 and 2013, \$0 and \$0 (2013: \$11,688 and \$21,229), respectively, of debt discount was amortized.

6.

CAPITAL STOCK

The Company is authorized to issue 1,800,000,000 shares of its \$0.001 par value common stock.

Common Stock

During the year ended December 31, 2013, the Company retired \$31,848 of debt by issuing 1,061,594 shares of common stock.

During the year ended December 31, 2013, the Company issued 100,000 shares of common stock as settlement for a dispute. The cumulative fair value of the shares issued is \$4,000.

Stock-Based Compensation

During the three and six months ended June 30, 2014, the Company recognized stock-based compensation of \$0 and \$0 (2013: \$0 and \$9,951), respectively, related to stock options issued between June 1, 2009 and April 19, 2010.

The following table summarizes the stock options outstanding at June 30, 2014:

6.

SUBSEQUENT EVENTS

The Company has analyzed its operations subsequent to June 30, 2014 through the date these financial statements were filed with the OTC Disclosure and News Service and has determined that it does not have any material subsequent events to disclose.

7.

RESTATEMENTS

The Company has restated its financial statements for the periods ended June 30, 2013 to reflect the following adjustments:

(i)**Fair value of conversion feature included in notes payable**

In connection with a convertible line of credit, the Company has recorded an expense for the fair value of the conversion feature using Black Scholes Option Pricing Model and re-valued the conversion feature at year end. This has resulted in the inclusion of Derivative Liability, Debt Discount, Derivative Expense, Amortization of Debt Discount and Change in Fair Market Value of Derivative accounts and a change to Interest Expense as demonstrated above.

(ii)**Loan payable**

A re-examination of the Company's loan documents revealed the Company was calculating interest expense and payable based upon an understated loan payable balance as there was a re-allocation between accrued interest payable and loan payable. In addition, it was noted that the Company failed to accrue default interest and penalties on certain loans payable. The net result of the above misstatements was a decrease to Interest Payable, an increase to Loan Payable and an increase to Interest expense.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements that involve known and unknown risks, significant uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, or implied, by those forward-looking statements. You can identify forward-looking statements by the use of the words may, will, should, could, expects, plans, anticipates, believes, estimates, predicts, intends, potential, proposed, or continue or the negative of those terms. These statements are only predictions. In evaluating these statements, you should consider various factors which may cause our actual results to differ materially from any forward-looking statements. Although we believe that the exceptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

RESULTS OF OPERATIONS

Comparison of the three month period ended June 30, 2014 and the three month period ended June 30, 2013

The Company has no sales or revenue as of the date of this report.

Operating Expenses

Our operating expenses for the three months ended June 30, 2014 compared to the three months ended June 30, 2013 consisted primarily of general and administrative expenses.

General and administrative expenses for the three months ended June 30, 2014 were \$29,952 compared to the three months ended June 30, 2013 which were \$11,435. The increase of \$18,517 is a result of the Company incurring consulting fees to ensure all filings were without deficiencies.

Interest expense for the three months ended June 30, 2014 totaled \$41,108 compared to \$41,159 for the three months ended June 30, 2013.

Change in the fair market value of the derivative liability was an expense of \$1,598 for the three months ended June 30, 2014 compared to a gain of \$7,791 during the three months ended June 30, 2013. The Company also recorded an amortization of debt discount of \$11,688 in 2013 which did not occur in 2014 as there was no remaining debt discount to amortize.

Net Loss

As a result of the foregoing, we reported a net loss attributable to common shareholders for the three months ended June 30, 2014 and 2013 of \$72,958 and \$56,491, respectively.

Comparison of the six month period ended June 30, 2014 and the six month period ended June 30, 2013

The Company has no sales or revenue as of the date of this report.

Operating Expenses

Our operating expenses for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 consisted primarily of general and administrative expenses and stock based compensation.

General and administrative expenses for the six months ended June 30, 2014 were \$48,829 compared to the six months ended June 30, 2013 which were \$38,485. The increase of \$10,344 is a result of the Company incurring consulting fees to ensure all filings were without deficiencies.

Stock based compensation for the six months ended June 30, 2014 was \$nil compared to the six months ended June 30, 2013 which were \$9,951. The decrease of \$9,951 is a result of all options completing their vesting periods during fiscal 2013.

Interest expense for the six months ended June 30, 2014 totaled \$82,567 compared to \$82,319 for the six months ended June 30, 2013.

Change in the fair market value of the derivative liability was an expense of \$120,538 for the six months ended June 30, 2014 compared to a gain of \$69,866 during the six months ended June 30, 2013. The Company also recorded an amortization of debt discount of \$21,229 in 2013 which did not occur in 2014 as there was no remaining debt discount to amortize.

Net Loss

As a result of the foregoing, we reported a net loss attributable to common shareholders for the six months ended June 30, 2014 and 2013 of \$251,934 and \$82,118, respectively.

Liquidity and Capital Resources

There is substantial doubt about our ability to continue as a going concern as the continuation of our business is dependent upon obtaining further long-term financing, successful and sufficient market acceptance of our products and achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, would provide liquidity and increase our liabilities and future cash commitments. Presently, our revenues are not sufficient to meet our operating and capital expenses. Management projects that we will require additional funding to maintain our current operations

Operating Activities: Net cash used in operating activities for the six months ended June 30, 2014 was \$0 as compared to \$22,280 used in operating activities for the six months ended June 30, 2013. The decrease is primarily due to the Company being able to finance operations through debt in the comparable period whereas operations decreased drastically in the most recently completed financial period.

Financing Activities: The Company did not receive cash from financing activities for the six months ended June 30, 2014. During the six months ended June 30, 2013, the Company raised \$25,000 through debt.

The Company had cash and cash equivalents of \$0 as of June 30, 2014 and December 31, 2013. The ability the Company to continue as a going concern is dependent on its success in obtaining additional financing.

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund our operations and other activities.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Critical Accounting Policies

Our financial statements and accompanying notes have been prepared in accordance with United States generally accepted accounting principles applied on a consistent basis. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods.

We regularly evaluate the accounting policies and estimates that we use to prepare our financial statements. A complete summary of these policies is included in the notes to our financial statements. In general, management's estimates are based on historical experience, on information from third party professionals, and on various other assumptions that are believed to be reasonable under the facts and circumstances. Actual results could differ from those estimates made by management.

Recently Issued Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by our company in the reports that it files or submits under the Exchange Act is accumulated and communicated to our management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Our management carried out an evaluation under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (Exchange Act). Based upon that evaluation, our Principal Executive Officer and Principal Financial Officer have concluded that our disclosure controls and procedures were not effective as of June 30, 2014, due to the material weaknesses resulting from the Board of Directors not currently having any independent members and no director qualifies as an audit committee financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K, and controls were not designed and in place to ensure that all disclosures required were originally addressed in our financial statements.

Changes in Internal Control over Financial Reporting

Our management has also evaluated our internal control over financial reporting, and there have been no significant changes in our internal controls or in other factors that could significantly affect those controls subsequent to the date of our last evaluation.

The Company is not required by current SEC rules to include, and does not include, an auditor's attestation report. The Company's registered public accounting firm has not attested to Management's reports on the Company's internal control over financial reporting.
