EXPLANATORY NOTE

Unless otherwise indicated or the context otherwise requires, all references in this Quarterly Report on Form 10-Q to “we,” “us,” “our,” “Jones,” “Jones Soda,” and the “Company” are to Jones Soda Co., a Washington corporation, and our wholly-owned subsidiaries Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc.

In addition, unless otherwise indicated or the context otherwise requires, all references in this Quarterly Report to “Jones Soda” refer to our premium soda, including Jones Soda, Natural JonesTM Soda and Jones Zile[®] sold under the trademarked brand name “Jones Soda Co.[®]”

CAUTIONARY NOTICE REGARDING FORWARD LOOKING STATEMENTS

We desire to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. This Quarterly Report on Form 10-Q (Report) contains a number of forward-looking statements that reflect management’s current views and expectations with respect to our business, strategies, products, future results and events, and financial performance. All statements made in this Report other than statements of historical fact, including statements that address operating performance, the economy, events or developments that management expects or anticipates will or may occur in the future, including statements related to case sales, revenues, profitability, distributor channels, new products, adequacy of funds from operations, cash flows and financing, our ability to continue as a going concern, potential strategic transactions, statements regarding future operating results and non-historical information, are forward-looking statements. In particular, the words such as “believe,” “expect,” “intend,” “anticipate,” “estimate,” “may,” “will,” “can,” “plan,” “predict,” “could,” “future,” “continue,” variations of such words and expressions identify forward-looking statements, but are not the exclusive means of identifying such statements and their absence does not mean that the statement is not forward-looking.

Readers should not place undue reliance on these forward-looking statements, which are based on management’s current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions and apply only as of the date of this Report. Our actual results, performance or achievements could differ materially from historical results as well as from the results expressed in, anticipated or implied by these forward-looking statements. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. In particular, our business, including our financial condition and results of operations and our ability to continue as a going concern may be impacted by a number of factors, including, but not limited to, the following:

• Our ability to successfully execute on our turnaround strategy and our operating plan (Turnaround Plan) which is designed to return us to profitable operations in the future;

• Our ability to establish, maintain and expand distribution arrangements with independent distributors, retailers, brokers and national retail accounts, most of whom sell and distribute competing products, and whom we rely upon to employ sufficient efforts in managing and selling our products, including re-stocking the retail shelves with our products, on which our business plan and future growth are dependent in part;

• Our ability to successfully develop and launch new products that match consumer beverage trends;

• Our ability to increase revenues and achieve case sales goals for our products on reduced operating expenses;

• Our ability to manage our operating expenses and generate sufficient cash flow from operations, or our ability to secure additional financing if our case sales goals take longer to achieve under our Turnaround Plan;

• Our ability to respond to changes in the consumer beverage marketplace, including potential reduced consumer demand due to health concerns (including obesity) and legislative initiatives against sweetened beverages;

• Our ability to manage our inventory levels and to predict the timing and amount of our sales;

• Our reliance on third-party contract manufacturers of our products and the geographic locations of their facilities, which could make management of our distribution efforts inefficient or unprofitable;

• Our ability to secure a continuous supply and availability of raw materials, as well as other factors affecting our supply chain including increases in raw material costs and shortages of glass in the supply chain;

• High or rising fuel and freight costs may have an adverse impact on our results of operations;

• Our ability to source our flavors on acceptable terms from our key flavor suppliers;

• Our ability to attract and retain key personnel, including retaining the services of our CEO, each of which would directly affect our efficiency and operations and could materially impair our ability to execute our Turnaround Plan;

Table of Contents

- Our inability to protect our trademarks and trade secrets, which may prevent us from successfully marketing our products and competing effectively;
- Our ability to create and maintain brand name recognition and acceptance of our products, which are critical to our success in our competitive, brand-conscious industry;
- Our ability to maintain brand image and product quality and avoid risks from other product issues such as product recalls;
- Our ability to compete successfully against much larger, well-funded, established companies currently operating in the beverage industry;
- Litigation or legal proceedings, which could expose us to significant liabilities and damage our reputation;
- Our ability to maintain effective disclosure controls and procedures and internal control over financial reporting;
- Our ability to maintain an effective information technology infrastructure;
- Dilutive and other adverse effects on our existing shareholders and our stock price arising from future securities issuances;
- Our ability to access the capital markets for any future equity financing, and any actual or perceived limitations to our common stock by being traded on the OTCQB Marketplace, including as to the level of trading activity, volatility or market liquidity;
- Regional, national or global economic conditions that may adversely impact our business and results of operations; and
- Our ability to comply with the many regulations to which our business is subject.

For a discussion of some of the factors that may affect our business, results and prospects, see “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2012 filed with the Securities and Exchange Commission on March 27, 2013. Readers are also urged to carefully review and consider the various disclosures made by us in this Report and in our other reports we file with the Securities and Exchange Commission, including our periodic reports on Forms 10-Q and current reports on Form 8-K, and those described from time to time in our press releases and other communications, which attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.

JONES SODA CO.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Nature of Operations and Summary of Significant Accounting Policies

Jones Soda Co. develops, produces, markets and distributes premium beverages which we sell and distribute primarily in North America through our network of independent distributors located throughout the U.S. and Canada and directly to our national and regional retail accounts.

We are a Washington corporation and have two operating subsidiaries, Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc.

Basis of presentation and consolidation

The accompanying condensed consolidated balance sheet as of December 31, 2012, which has been derived from audited consolidated financial statements, and unaudited interim condensed consolidated financial statements as of June 30, 2013, have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and the Securities and Exchange Commission (SEC) rules and regulations applicable to interim financial reporting. The condensed consolidated financial statements include our accounts and accounts of our wholly owned subsidiaries. All intercompany transactions between us and our subsidiaries have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all material adjustments, consisting only of those of a normal recurring nature, considered necessary for a fair presentation of our financial position, results of operations and cash flows at the dates and for the periods presented.

The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

Use of estimates

The preparation of the condensed consolidated financial statements requires management to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Significant items subject to such estimates and assumptions include, but are not limited to, inventory valuation, depreciable lives and valuation of capital assets, valuation allowances for receivables, trade promotion liabilities, stock-based compensation expense, valuation allowance for deferred income tax assets, contingencies, and forecasts supporting the going concern assumption and related disclosures. Actual results could differ from those estimates.

Seasonality

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Liquidity

As of June 30, 2013, we had cash and cash-equivalents of approximately \$1.3 million and working capital of \$3.8 million. Cash used in operations during the six months ended June 30, 2013 totaled \$321,000 compared to \$2.1 million for the same period a year ago. Our cash flows vary throughout the year based on seasonality. We traditionally use more cash in the first half of the year as we build inventory to support our historically seasonally-stronger shipping months of April through September, and expect cash used by operating activities to decrease in the second half of the year as we collect receivables generated during our stronger shipping months. We incurred a net loss of \$95,000 for the three months ended June 30, 2013.

As of the date of this Report, we believe that our current cash and cash equivalents will be sufficient to meet our anticipated cash needs through December 31, 2013. During 2012, we made significant reductions in operating

expenses and personnel, primarily in the second half of 2012, to better align our operations with available capital and slow our cash used for operations. We have continued these reduced operating expenses into 2013. We believe that these cost controls and realigned

Table of Contents

JONES SODA CO.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

expenses are strategically important to ensure our long-term viability. However, these significant cost containment measures may negatively impact our sales and may make it difficult to achieve top-line growth.

We have a secured credit facility with Access Business Finance LLC (Access), pursuant to which we may borrow up to 75% of our eligible accounts receivable for our working capital needs, up to \$2.0 million. (The credit facility is described in Note 4 in this Report.) To date, we have not drawn on the facility and we had approximately \$658,000 available for borrowing based on eligible accounts receivable as of June 30, 2013. Our operating plan for 2013 does not factor in the use of our Credit Facility.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. Part of our Turnaround Plan is to focus on core geographic markets and retail channels that we consider operating priorities and to redirect resources to support our distributor network through increased promotion allowances at retail which we believe will drive more volume. It is critical that we meet our case sales goals and increase case sales going forward, as our operating plan already reflects prior significant cost containment measures and may make it difficult to achieve top-line growth if further significant reductions become necessary. We intend to continually monitor and adjust our business plan as necessary to respond to developments in our business, our markets and the broader economy. Although we believe various debt and equity financing alternatives will be available to us to support our working capital needs, new debt or equity financing arrangements may not be available to us when needed on acceptable terms, if at all. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of us and our shareholders, which may include, without limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible. The uncertainties relating to our ability to successfully execute our 2013 operating plan, combined with the difficult financing environment, continue to raise substantial doubt about our ability to continue as a going concern. Our financial statements for the periods presented were prepared assuming we would continue as a going concern, which contemplates that we will continue in operation for the foreseeable future and will be able to realize assets and settle liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that could result should we be unable to continue as a going concern.

2. 2012 Equity Financing

In January 2012, we entered into a placement agent agreement with Rodman & Renshaw, pursuant to which Rodman & Renshaw agreed to use its reasonable best efforts to arrange for the sale of our registered securities. We agreed to pay Rodman & Renshaw an aggregate fee equal to 8% of the gross proceeds received in the offering and agreed to customary representations, warranties, and indemnification by us.

In February 2012, we entered into a Securities Purchase Agreement with certain purchasers, arranged by Rodman & Renshaw, pursuant to which we sold to the Purchasers in a registered offering 6,415,000 shares of our common stock and Warrants to purchase up to 3,207,500 shares of common stock. The securities were sold in units, consisting of one share of common stock and a Warrant to purchase 0.5 of a share of common stock, at a price of \$0.50 per unit, for gross proceeds of \$3,207,500. The Offering closed on February 7, 2012. The Warrants became exercisable on August 6, 2012, six months following their issuance, and expire on August 6, 2017. After deducting the placement agent fee and our offering expenses (and excluding any potential future proceeds from the exercise of the Warrants), the net

proceeds from the Offering were approximately \$2.8 million.

Each Warrant has an exercise price of \$0.70 per share, for total potential additional proceeds to us of up to \$2,245,250 if the Warrants are exercised in full for cash. The Warrants are exercisable for cash or, solely in the absence of an effective registration statement, by cashless exercise. The exercise price of the Warrants is subject to adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions, and also upon any distributions to Company shareholders, business combinations, sale of substantially all assets and other fundamental transactions. The exercise of the Warrants is subject to certain beneficial ownership and other limitations set forth in the Warrants. As of June 30, 2013,

Table of Contents

JONES SODA CO.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

none of the Warrants had been exercised. (See Note 7 Subsequent Event.) Any Warrants that are outstanding on August 6, 2017, the expiration date, will automatically be exercised at that time by cashless exercise.

3. Inventory

Inventory consisted of the following (in thousands):

	June 30, 2013	December 31, 2012
Finished goods	\$2,284	\$1,784
Raw materials	516	439
	\$2,800	\$2,223

Finished goods primarily include product ready for shipment, as well as promotional merchandise held for sale. Raw materials primarily include ingredients, concentrate and packaging.

4. Line of Credit

In December 2011, we entered into a secured revolving credit facility with Access Business Finance LLC, pursuant to which we, through two of our wholly owned subsidiaries, Jones Soda (Canada) Inc. and Jones Soda Co. (USA) Inc., may borrow up to \$2.0 million, subject to satisfaction of certain conditions.

Under this credit facility, we may periodically request advances for up to 75% of our eligible accounts receivable, bearing interest at the prime rate plus 2%, but no less than 5.25% per annum, with a minimum facility payment of \$2,500 per month unless we borrow on the facility, in which case the minimum facility payment is \$5,000 per month. As of June 30, 2013, we had approximately \$658,000 available for borrowing under this credit facility based on eligible accounts receivable. The credit facility has a current term expiring December 27, 2013, which will be automatically extended for successive terms of 1 year unless either party gives notice of non-renewal. The credit facility is guaranteed by us and is secured by a first priority security interest in all of our assets. The credit facility contains customary representations and warranties as well as affirmative and negative covenants. We were in compliance with all debt covenants as of June 30, 2013.

To date, we have not borrowed on this credit facility.

We paid a \$20,000 loan fee in December 2011, upon execution of the credit facility, and an additional \$20,000 loan fee in December 2012 upon the annual renewal. For each future annual renewal, we will be required to pay a further \$20,000 loan fee. Additionally, upon our initial borrowing on the credit facility, we will issue Access a warrant to purchase \$50,000 in shares of our common stock with an exercise price equal to the 20 days trailing average closing price from the date of the initial borrowing.

5. Stock-based Compensation

Under the terms of our 2011 Incentive Plan (Plan), the Board may grant awards to employees, officers, directors, consultants, agents, advisors and independent contractors. Awards may consist of stock options, stock appreciation rights, stock awards, restricted stock, stock units, performance awards or other stock or cash-based awards. Stock options are granted with an exercise price equal to the closing price of our stock on the date of grant, and generally have a ten-year term and vest over a period of 48 months with the first 25.0% cliff vesting 1 year from the grant date and monthly thereafter. As of June 30, 2013, there were 2,108,016 shares of unissued common stock authorized and available for future awards under the 2011 Plan.

Table of Contents

(a) Stock options:

A summary of our stock option activity is as follows:

	Outstanding Options	
	Number of Shares	Weighted Average Exercise Price
Balance at January 1, 2013	3,627,467	\$0.48
Options granted	755,000	0.27
Options exercised	—	—
Options cancelled/expired	(459,647) 0.73
Balance at June 30, 2013	3,922,820	\$0.41
Exercisable, June 30, 2013	1,662,018	\$0.57
Vested and expected to vest	3,808,753	\$0.41

(b) Restricted stock awards:

A summary of our restricted stock activity is as follows:

	Restricted Shares	Weighted-Average Grant Date Fair Value	Weighted-Average Contractual Life
Non-vested restricted stock at January 1, 2013	20,310	0.68	8.69 years
Granted	—	—	
Vested	(20,310) 0.68	
Cancelled/expired	—	—	
Non-vested restricted stock at June 30, 2013	—	—	—

(c) Stock-based compensation expense:

Stock-based compensation expense is recognized using the straight-line attribution method over the requisite service period. We recognize compensation expense for only the portion of stock options or restricted stock that are expected to vest. Therefore, we apply estimated forfeiture rates that are derived from historical employee termination behavior. If the actual number of forfeitures differs from those estimated by management, additional adjustments to stock-based compensation expense may be required in future periods.

At June 30, 2013, we had unrecognized compensation expense related to stock options of \$296,000 to be recognized over a weighted-average period of 1.3 years. At June 30, 2013, all prior awards of restricted stock had vested, and we had no unrecognized compensation expense related to non-vested restricted stock.

The following table summarizes the stock-based compensation expense (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Type of awards:				
Stock options	\$79	\$42	\$144	\$129
Restricted stock	—	4	3	7
	\$79	\$46	\$147	\$136
Income statement account:				
Promotion and selling	\$21	\$19	\$32	\$43
General and administrative	58	27	115	93
	\$79	\$46	\$147	\$136

We employ the following key weighted-average assumptions in determining the fair value of stock options, using the Black-Scholes option pricing model and the provisions of Staff Accounting Bulletin (SAB) 107 and 110, which allow the simplified method to estimate the expected term of “plain vanilla” options:

Table of Contents

	Six Months Ended June 30,		
	2013	2012	
Expected dividend yield	—	—	
Expected stock price volatility	107.6	% 102.0	%

Expected term (in years)	5.8 years	6.1 years	
Weighted-average grant date fair-value	\$0.22	\$0.41	

During the six months ended June 30, 2013, no modifications were made to outstanding stock options.

The aggregate intrinsic value of stock options outstanding at June 30, 2013 and 2012 was \$756,300 and \$0 and for options exercisable was \$384,800 and \$0, respectively. The intrinsic value of outstanding and exercisable stock options is calculated as the quoted market price of the stock at the balance sheet date less the exercise price of the option. There was no intrinsic value of options exercised or restricted stock vested during the three and six months ended June 30, 2013 and 2012.

6. Segment Information

We have one operating segment with operations primarily in the United States and Canada. Sales are assigned to geographic locations based on the location of customers. The 2012 revenue is being presented to conform with 2013 presentation in consideration of transfer pricing adjustments. Geographic information is as follows (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Revenue:				
United States	\$2,834	\$3,343	\$5,129	\$6,150
Canada	1,404	1,617	2,174	2,619
Other countries	49	303	80	361
Total revenue	\$4,287	\$5,263	\$7,383	\$9,130

During the three months ended June 30, 2013 and 2012, three of our customers represented approximately 37% and 40%, respectively of revenues, one of which, A. Lassonde Inc., a Canadian DSD distributor, represented approximately 24% and 28%, respectively of revenue. During the six months ended June 30, 2013 and 2012, three of our customers represented approximately 36% and 39%, respectively of revenues, one of which, A. Lassonde Inc., a Canadian DSD distributor, represented approximately 22% and 25%, respectively of revenue.

7. Subsequent Event

In connection with the February 2012 equity financing described in Note 2, in August 2013, 150,000 warrants were exercised at a price of \$0.70 per share resulting in proceeds to the Company of \$105,000. The remaining balance of warrants outstanding as of the date of this Report was of 3,057,500. We cannot predict the timing or amount of cash proceeds we may receive from exercise, if at all, of any of the other outstanding warrants.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS.

You should read the following discussion and analysis in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this Report and the 2012 audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K, which was filed with the Securities and Exchange Commission (SEC) on March 27, 2013.

This Report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as "believe," "expect," "intend," "anticipate," "estimate," "may," "will," "can," "plan," "predict," "could," "future," "continue," variations of such words and expressions. These statements are only predictions. Actual events or results may differ materially. In evaluating these statements, you should specifically consider various factors, including the risks outlined at the beginning of this report under "Cautionary Notice Regarding Forward-Looking Statements" and in Item 1A of our most recent Annual Report on Form 10-K filed with the SEC. These factors may cause our actual results to differ materially from any forward-looking statements. Except as required by law, we undertake no obligation to publicly release any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

Overview

We develop, produce, market and distribute premium beverages which we sell and distribute primarily in North America through our network of independent distributors located throughout the U.S. and Canada and directly to our national and regional retail accounts. We refer to our network of independent distributors as our direct store delivery (DSD) channel, and we refer to our national and regional accounts who receive shipments directly from us as our direct to retail (DTR) channel. Additionally, in limited circumstances we sell concentrate for distribution or production of our products. We do not directly manufacture our products but instead outsource the manufacturing process to third-party contract manufacturers.

Our products are sold throughout the U.S. and Canada and in select international markets, primarily in grocery stores, convenience and gas stores, up and down the street in independent accounts such as delicatessens and sandwich shops, as well as through our national accounts with several large retailers. We also sell various products on-line, including soda with customized labels, wearables, candy and other items.

Turnaround Plan

On June 27, 2012, we hired Jennifer Cue as our new Chief Executive Officer. Ms. Cue had previously worked for the Company from 1995 to 2005, serving in various capacities including as our Chief Operating Officer and Chief Financial Officer. Ms. Cue has developed and implemented a comprehensive turnaround strategy that is geared to returning the Company to profitable operations.

Key components of the turnaround strategy and the operating plan (Turnaround Plan) that we believe will return us to profitable operations in the future are:

- Align our operating expenses with our capital resources;
- Hire and retain a team of employees who are highly entrepreneurial and aligned with our Turnaround Plan and long-term growth strategy;
- Focus our efforts on certain core geographic markets, distributor partners and product lines where we believe we can achieve profitable, long-term growth while maintaining a highly efficient, streamlined operating structure;
- Refocus on core geographic markets, including the Western U.S., Midwest U.S. and Canada;
- Redirect resources to support our distributor network through increased promotion allowances at retail;
- Redeploy our marketing resources to initiatives that more directly drive sales growth while re-invigorating the Jones Soda brand with an emphasis on marketing initiatives that are viewed by consumers as highly creative, unique and fun; and
- Launch and market lower calorie, yet full flavor and good tasting products in response to the growing demand for more healthful beverage options.

Table of Contents

In order to compete effectively in the beverage industry, from time to time we introduce new products and product extensions, and when warranted, new brands. In February 2013, we selectively launched our new product offering, Natural Jones™ Soda, a natural ingredient and low-calorie product in California to enhance our sparkling portfolio. Although we believe that we will be able to continue to create competitive and relevant brands and products to satisfy consumers' changing preferences, there can be no assurance that we will be able to do so or that other companies will not be more successful in this regard over the long term.

Results of Operations

The following selected financial and operating data are derived from our consolidated financial statements and should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and our consolidated financial statements:

	Three Months Ended June 30,				Six Months Ended June 30,			
	2013	% of Revenue	2012	% of Revenue	2013	% of Revenue	2012	% of Revenue

Table of Contents

Quarter Ended June 30, 2013 Compared to Quarter Ended June 30, 2012

Revenue

For the quarter ended June 30, 2013, revenue was approximately \$4.3 million, a decrease of \$976,000, or 18.5% from \$5.3 million in revenue for the quarter ended June 30, 2012. The decrease in revenue was primarily due to the implementation of our Turnaround Plan and decline in case sales of 18.7%. Additionally, in the prior year, international sales were higher due to the initial load-in to support a new distributor. Partially offsetting our decrease in case sales was a price increase effective in August 2012.

For the quarter ended June 30, 2013, promotion allowances and slotting fees, which offset revenue, totaled \$472,000, a decrease of \$14,000, or 2.9%, from \$486,000, in 2012; however, on a per case basis, promotion allowances and slotting fees increased. As part of our Turnaround Plan, in 2013 we are redirecting resources to support our distributor network through increased and focused promotion allowances at retail. Accordingly, we expect promotion allowances and slotting fees on a per case basis will be higher in 2013 compared to 2012 as we concentrate on traditional trade spend strategies to increase distribution.

Gross Profit

For the quarter ended June 30, 2013, gross profit decreased by approximately \$333,000 or 21.3%, to \$1.2 million compared to \$1.6 million for the quarter ended June 30, 2012 due primarily to the total case sales decrease of 18.7% impacted by the refocusing of resources in conjunction with our Turnaround Plan, and the decrease in international sales described above. For the quarter ended June 30, 2013, gross margin decreased to 28.8% from 29.8% for the quarter ended June 30, 2012.

Promotion and Selling Expenses

Promotion and selling expenses for the quarter ended June 30, 2013 were approximately \$625,000, a decrease of \$295,000, or 32.1%, from \$920,000 for the quarter ended June 30, 2012. Promotion and selling expenses as a percentage of revenue decreased to 14.6% for the quarter ended June 30, 2013, from 17.5% in 2012. The decrease in promotion and selling expenses reflects a 21.9% decrease in selling expenses to \$511,000 (11.9% of revenue) for 2013 from \$654,000 in 2012, driven by reduced sales personnel versus a year ago. Also contributing to this decrease was a 57.1% reduction in trade promotion and marketing expenses to \$114,000 (2.7% of revenue) for 2013 from \$266,000 in 2012 due in part to a reduction in sponsorship costs. We anticipate increasing our investment in promotion and selling expenses within a more sustainable cost structure aligned with our working capital resources.

General and Administrative Expenses

General and administrative expenses for the quarter ended June 30, 2013 were \$690,000, a decrease of \$388,000 or 36.0%, compared to \$1.1 million for the quarter ended June 30, 2012. General and administrative expenses as a percentage of revenue decreased to 16.1% for the quarter ended June 30, 2013 from 20.5% in 2012. The decrease in general and administrative expenses was primarily due to decreases in salaries and benefits, driven by reductions in personnel, reduced executive salaries, and decreases in director fees and professional fees. We anticipate decreased general and administrative expenses as a percentage of revenue during 2013 as a result of the full year impact of our 2012 cost initiatives in conjunction with our Turnaround Plan. We will continue to balance general and administrative expenses within this more sustainable cost structure that is aligned with our working capital resources.

Income Tax Expense

We had income tax expense of \$5,000 for the quarter ended June 30, 2013, compared to \$23,000 for the quarter ended June 30, 2012, primarily related to the tax provision on income from our Canadian operations. We have not recorded any tax benefit for the loss in our U.S. operations as we have recorded a full valuation allowance on our U.S. net deferred tax assets. We expect to continue to record a full valuation allowance on our U.S. net deferred tax assets until we sustain an appropriate level of taxable income through improved U.S. operations. Our effective tax rate is based on recurring factors, including the forecasted mix of income before taxes in various jurisdictions, estimated permanent differences and the recording of a full valuation allowance on our U.S. net deferred tax assets.

Net Loss

Net loss for the quarter ended June 30, 2013 improved by 79.3% to \$95,000 from a net loss of \$459,000 for the quarter ended June 30, 2012. This improvement in net loss reflects a decrease in operating expenses due to the changes made to align our cost structure with our available capital.

Table of Contents

Six Months Ended June 30, 2013 Compared to Six Months Ended June 30, 2012

Revenue

For the six months ended June 30, 2013, revenue was approximately \$7.4 million, a decrease of \$1.7 million, or 19.1% from \$9.1 million in revenue for the six months ended June 30, 2012. The decrease in revenue was primarily due to the implementation of our Turnaround Plan and decline in case sales of 21.0%. Partially offsetting our decrease in case sales was a price increase effective in August 2012.

For the six months ended June 30, 2013, promotion allowances and slotting fees, which offset revenue, totaled \$866,000, a decrease of \$38,000, or 4.2%, from \$904,000, in 2012; however, on a per case basis, promotion allowances and slotting fees increased. As part of our Turnaround Plan, in 2013 we are redirecting resources to support our distributor network through increased and focused promotion allowances at retail. Accordingly, we expect promotion allowances and slotting fees on a per case basis will be higher in 2013 compared to 2012 as we concentrate on traditional trade spend strategies to increase distribution.

Gross Profit

For the six months ended June 30, 2013, gross profit decreased by approximately \$626,000 or 23.9%, to \$2.0 million compared to \$2.6 million for the six months ended June 30, 2012 due primarily to the total case sales decrease of 21.0% impacted by the refocusing of resources in conjunction with our Turnaround Plan described above. For the six months ended June 30, 2013, gross margin decreased to 27.0% from 28.7% for the six months ended June 30, 2012 and was affected by a combination of product mix and production cycles.

Promotion and Selling Expenses

Promotion and selling expenses for the six months ended June 30, 2013 were approximately \$1.1 million, a decrease of \$1.2 million, or 51.8%, from \$2.3 million for the six months ended June 30, 2012. Promotion and selling expenses as a percentage of revenue decreased to 14.9% for the six months ended June 30, 2013, from 24.9% in 2012. The decrease in promotion and selling expenses reflects a 41.8% decrease in selling expenses to \$900,000 (12.2% of revenue) for 2013 from \$1.5 million in 2012, driven by reduced sales personnel versus a year ago. Also contributing to this decrease was a 72.9% reduction in trade promotion and marketing expenses to \$198,000 (2.7% of revenue) for 2013 from \$731,000 in 2012 due in part to a reduction in sponsorship costs. We anticipate decreased promotion and selling expenses as a percentage of revenue during 2013 as a result of the full year impact of our 2012 cost initiatives in conjunction with our Turnaround Plan. We anticipate increasing our investment in promotion and selling expenses within a more sustainable cost structure aligned with our working capital resources.

General and Administrative Expenses

General and administrative expenses for the six months ended June 30, 2013 were \$1.4 million, a decrease of \$1.0 million or 43.4%, compared to \$2.4 million for the six months ended June 30, 2012. General and administrative expenses as a percentage of revenue decreased to 18.5% for the six months ended June 30, 2013 from 26.4% in 2012. The decrease in general and administrative expenses was primarily due to decreases in salaries and benefits, driven by reductions in personnel and reduced executive salaries and decreases in director fees and professional fees. We anticipate decreased general and administrative expenses as a percentage of revenue during 2013 as a result of the full year impact of our 2012 cost initiatives in conjunction with our Turnaround Plan. We will continue to balance general and administrative expenses within this more sustainable cost structure that is aligned with our working capital resources.

Income Tax Expense

We had income tax expense of \$29,000 for the six months ended June 30, 2013, compared to \$48,000 for the six months ended June 30, 2012, primarily related to the tax provision on income from our Canadian operations. We have not recorded any tax benefit for the loss in our U.S. operations as we have recorded a full valuation allowance on our U.S. net deferred tax assets. We expect to continue to record a full valuation allowance on our U.S. net deferred tax assets until we sustain an appropriate level of taxable income through improved U.S. operations. Our effective tax rate is based on recurring factors, including the forecasted mix of income before taxes in various jurisdictions, estimated permanent differences and the recording of a full valuation allowance on our U.S. net deferred tax assets.

Table of Contents

Net Loss

Net loss for the six months ended June 30, 2013 improved by 76.8% to \$494,000 from a net loss of \$2.1 million for the six months ended June 30, 2012. This improvement in net loss reflects a decrease in operating expenses due to the changes made to align our cost structure with our available capital.

Liquidity and Capital Resources

As of June 30, 2013, we had cash and cash-equivalents of approximately \$1.3 million and working capital of \$3.8 million. Cash used in operations during the six months ended June 30, 2013 totaled \$321,000 compared to \$2.1 million for the same period a year ago. Our cash flows vary throughout the year based on seasonality. We traditionally use more cash in the first half of the year as we build inventory to support our historically seasonally-stronger shipping months of April through September, and expect cash used by operating activities to decrease in the second half of the year as we collect receivables generated during our stronger shipping months.

For the six months ended June 30, 2013, net cash provided by investing activities totaled approximately \$38,000 due primarily to the sale of fixed assets. For the six months ended June 30, 2012, net cash provided by investing activities totaled approximately \$61,000 due primarily to the sale of fixed assets, partially offset by the purchase of fixed assets. Net cash used in financing activities for the six months ended June 30, 2013 totaled approximately \$47,000 due to the payoff on the capital lease obligation for the vehicle sold during the first quarter. This compares to net cash provided by financing activities for the six months ended June 30, 2012, which totaled approximately \$2.8 million, due to the net proceeds from our registered offering in February 2012. We incurred a net loss of \$95,000 for the quarter ended June 30, 2013 and our accumulated deficit increased to \$56.6 million as of June 30, 2013.

Subsequent to the quarter ended June 30, 2013, in August 2013, we received \$105,000 from the exercise of 150,000 warrants (issued in our February 2012 equity financing, as described in Note 2 in this Report) at a price of \$0.70 per share. The remaining balance of warrants outstanding as of the date of this Report was 3,057,500. We cannot predict the timing or amount of cash proceeds we may receive from exercise, if at all, of any of the other outstanding warrants.

As of the date of this Report, we believe that our current cash and cash equivalents will be sufficient to meet our anticipated cash needs through December 31, 2013. During 2012, we made significant reductions in operating expenses and personnel, primarily in the second half of 2012, to better align our operations with available capital and slow our cash used for operations. We have continued these reduced operating expenses into 2013. We believe that these cost controls and realigned expenses are strategically important to ensure our long-term viability. However, these significant cost containment measures may negatively impact our sales and may make it difficult to achieve top-line growth.

We have a secured credit facility with Access Business Finance LLC (Access), pursuant to which we may borrow up to 75% of our eligible accounts receivable for our working capital needs, up to \$2.0 million. (The credit facility is described in Note 4 in this Report.) To date, we have not drawn on the facility and we had approximately \$658,000 available for borrowing based on eligible accounts receivable as of June 30, 2013. Our operating plan for 2013 does not factor in the use of our Credit Facility.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. Part of our Turnaround Plan is to focus on core geographic markets and retail channels that we consider operating priorities and to redirect resources to support our distributor network through increased promotion allowances at retail which we believe will drive more volume. It is critical that we meet our case sales goals and increase case sales going forward, as our operating plan already reflects prior significant cost containment measures and may make it difficult to achieve top-line growth if further significant reductions become necessary. We intend to continually monitor and adjust our business plan as necessary to respond to developments in our business, our markets and the broader economy. Although we believe various debt and equity

financing alternatives will be available to us to support our working capital needs, new debt or equity financing arrangements may not be available to us when needed on acceptable terms, if at all. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of us and our shareholders, which may include, without limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible.

Table of Contents

The uncertainties relating to our ability to successfully execute our 2013 operating plan, combined with the difficult financing environment, continue to raise substantial doubt about our ability to continue as a going concern. Our financial statements for the periods presented were prepared assuming we would continue as a going concern, which contemplates that we will continue in operation for the foreseeable future and will be able to realize assets and settle liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that could result should we be unable to continue as a going concern.

Off-balance Sheet Arrangements

We have no off-balance sheet arrangements.

Seasonality

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Critical Accounting Policies

See the information concerning our critical accounting policies included under “Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012, filed with the Securities and Exchange Commission on March 27, 2013. There have been no material changes in our critical accounting policies during the three months ended June 30, 2013.

ITEM 4.CONTROLS AND PROCEDURES.

Procedures

(a) Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended). Management, under the supervision and with the participation of our Chief Executive Officer and our Principal Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of June 30, 2013. Based on that evaluation, our Chief Executive Officer and Principal Financial Officer concluded that these disclosure controls and procedures were effective as of June 30, 2013.

(b) Changes in internal controls

There were no changes in our internal control over financial reporting during the three months ended June 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
