APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the financial position of Applied Industrial Technologies, Inc. (the “Company”, or “Applied”) as of September 30, 2013, and the results of its operations for the three month periods ended September 30, 2013 and 2012 and its cash flows for the three months ended September 30, 2013 and 2012, have been included. The condensed consolidated balance sheet as of June 30, 2013 has been derived from the audited consolidated financial statements at that date. This Quarterly Report on Form 10-Q should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended June 30, 2013.

Operating results for the three month period ended September 30, 2013 are not necessarily indicative of the results that may be expected for the remainder of the fiscal year ending June 30, 2014.

Change in Accounting Principle - Alignment of Canadian Subsidiary Reporting

Effective July 1, 2013, the Company aligned the consolidation of the Company’s Canadian subsidiary in the consolidated financial statements which previously included results on a one month reporting lag. The Company believes that this change in accounting principle is preferable as it provides contemporaneous reporting within our consolidated financial statements. In accordance with applicable accounting literature, the elimination of a one month reporting lag of a subsidiary is treated as a change in accounting principle and requires retrospective application. The Company has determined that the effect of this change is not material to the financial statements for all periods presented and therefore, the Company has not presented retrospective application of this change. The net impact of the lag elimination of \$1.2 million of income for the month of June 2013 has been included within “Other (Income) Expense, net” on the Statement of Consolidated Income for the first quarter of fiscal 2014. The three months ended September 30, 2013 reflect the same results, had the financial statements been retrospectively adjusted, with the exception of net income which would have decreased \$1.2 million. Net sales, operating income and net income for the three months ended September 30, 2012, would have decreased by \$1.5 million, \$0.8 million and \$0.8 million respectively had the financial statements been retrospectively adjusted.

Inventory

The Company uses the last-in, first-out (LIFO) method of valuing U.S. inventories. An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management’s estimates of expected year-end inventory levels and costs and are subject to the final year-end LIFO inventory determination.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES

(Amounts in thousands, except per share amounts) (Unaudited)

2. GOODWILL AND INTANGIBLES

The changes in the carrying amount of goodwill for the three month period ended September 30, 2013 are as follows:

	Service Center Based Distribution	Fluid Power Businesses	Total
Balance at July 1, 2013	\$105,920	\$929	\$106,849
Goodwill acquired during the period	—	—	—
Other, primarily currency translation	124	—	124
Balance at September 30, 2013	\$106,044	\$929	\$106,973

At September 30, 2013, accumulated goodwill impairment losses subsequent to fiscal year 2002, totaled \$36,605 and related to the Fluid Power Businesses segment.

The Company's intangible assets resulting from business combinations are amortized over their estimated period of benefit and consist of the following:

September 30, 2013	Amount	Accumulated Amortization	Net Book Value
Finite-Lived Intangibles:			
Customer relationships	\$101,009	\$41,146	\$59,863
Trade names	26,436	8,987	17,449
Vendor relationships	15,352	5,684	9,668
Non-competition agreements	3,290	2,309	981
Total Intangibles	\$146,087	\$58,126	\$87,961
June 30, 2013	Amount	Accumulated Amortization	Net Book Value
Finite-Lived Intangibles:			
Customer relationships	\$100,854	\$38,844	\$62,010
Trade names	26,690	8,643	18,047
Vendor relationships	15,433	5,443	9,990
Non-competition agreements	4,743	3,523	1,220
Total Intangibles	\$147,720	\$56,453	\$91,267

Amounts include the impact of foreign currency translation. Fully amortized amounts are written off.

Estimated future amortization expense by fiscal year (based on the Company's intangible assets as of September 30, 2013) is as follows: \$9,700 for the remainder of 2014, \$11,400 for 2015, \$10,300 for 2016, \$9,600 for 2017, \$8,400 for 2018 and \$7,500 for 2019.

(Amounts in thousands, except per share amounts) (Unaudited)

3. FAIR VALUE MEASUREMENTS

Marketable securities measured at fair value at September 30, 2013 and June 30, 2013 totaled \$10,906 and \$10,483, respectively. These marketable securities are held in a rabbi trust for a non-qualified deferred compensation plan. The marketable securities are included in other assets on the condensed consolidated balance sheets and their fair values were derived using quoted market prices (Level 1 in the fair value hierarchy).

4. SHAREHOLDERS' EQUITY

Accumulated Other Comprehensive Income (Loss)

Changes in the accumulated other comprehensive income (loss) for the three months ended September 30, 2013, is comprised of the following:

	Foreign currency translation adjustment	Unrealized gain (loss) on securities available for sale	Postemployment benefits	Total Accumulated other comprehensive income (loss)
Balance at July 1, 2013	\$360	\$(52) \$(3,729) \$(3,421
Other comprehensive income (loss)	550	23		573
Amounts reclassified from accumulated other comprehensive income (loss)			58	58
Net current-period other comprehensive income (loss), net of taxes	550	23	58	631
Balance at September 30, 2013	\$910	\$(29) \$(3,671) \$(2,790

Other Comprehensive Income (Loss)

Details of other comprehensive income (loss) are as follows:

	Three Months Ended September 30,					
	2013			2012		
	Pre-Tax Amount	Tax Expense (Benefit)	Net Amount	Pre-Tax Amount	Tax Expense (Benefit)	Net Amount
Foreign currency translation adjustments	\$550	\$—	\$550	\$9,001	\$—	\$9,001
Postemployment benefits:						
Reclassification of actuarial losses and prior service cost into SD&A expense and included in net periodic pension costs	95	37	58	218	85	133
Unrealized gain (loss) on investment securities available for sale	34	11	23	23	9	14
Other comprehensive income (loss)	\$679	\$48	\$631	\$9,242	\$94	\$9,148

Antidilutive Common Stock Equivalents

In the three month periods ended September 30, 2013 and 2012, stock options and stock appreciation rights related to the acquisition of 272 and 221 shares of common stock, respectively, were not included in the computation of diluted earnings per share for the periods then ended as they were anti-dilutive.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

5. BENEFIT PLANS

The following table provides summary disclosures of the net periodic postemployment costs recognized for the Company's postemployment benefit plans:

Three Months Ended September 30,	Pension Benefits		Retiree Health Care Benefits	
	2013	2012	2013	2012
Components of net periodic cost:				
Service cost	\$19	\$19	\$12	\$20
Interest cost	295	315	35	47
Expected return on plan assets	(104) (101)	
Recognized net actuarial loss (gain)	153	184	(9) (13
Amortization of prior service cost	20	21	(68) 27
Net periodic cost	\$383	\$438	\$(30) \$81

The Company contributed \$5,108 to its pension benefit plans and \$50 to its retiree health care plans in the three months ended September 30, 2013. Expected contributions for the remainder of fiscal 2014 are \$1,600 for the pension benefit plans to fund scheduled retirement payments and \$200 for retiree health care plans.

6. SEGMENT AND GEOGRAPHIC INFORMATION

The accounting policies of the Company's reportable segments are generally the same as those used to prepare the condensed consolidated financial statements. Sales primarily from the Fluid Power Businesses segment to the Service Center Based Distribution segment of \$5,533 and \$3,735, in the three months ended September 30, 2013 and 2012, respectively, have been eliminated in the Segment Financial Information tables below.

Three Months Ended	Service Center Based Distribution	Fluid Power Businesses	Total
September 30, 2013			
Net sales	\$492,072	\$113,233	\$605,305
Operating income for reportable segments	28,372	9,457	37,829
Assets used in business	841,770	208,319	1,050,089
Depreciation and amortization of property	2,999	432	3,431
Capital expenditures	1,394	177	1,571
September 30, 2012			
Net sales	\$497,826	\$112,693	\$610,519
Operating income for reportable segments	33,720	10,536	44,256
Assets used in business	787,028	214,739	1,001,767
Depreciation and amortization of property	2,564	458	3,022
Capital expenditures	3,714	178	3,892

ERP related assets are included in assets used in business and capital expenditures within the Service Center Based Distribution segment. Within the geographic disclosures, these assets are included in the United States. Expenses

associated with the ERP are included in Corporate and other expense (income), net, line in the reconciliation of operating income for reportable segments to the consolidated income before taxes table below.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Amounts in thousands, except per share amounts) (Unaudited)

A reconciliation of operating income for reportable segments to the condensed consolidated income before income taxes is as follows:

	Three Months Ended	
	September 30,	
	2013	2012
Operating income for reportable segments	\$37,829	\$44,256
Adjustment for:		
Intangible amortization—Service Center Based Distribution	1,495	1,223
Intangible amortization—Fluid Power Businesses	1,754	1,832
Corporate and other expense (income), net	(4,959)	(3,117)
Total operating income	39,539	44,318
Interest expense, net	61	25
Other (income) expense, net	(1,091)	(459)
Income before income taxes	\$40,569	\$44,752

The change in corporate and other expense (income), net is due to changes in the levels and amounts of expenses being allocated to the segments. The expenses being allocated include corporate charges for working capital, logistics support and other items.

Net sales are presented in geographic areas based on the location of the company making the sale and are as follows:

	Three Months Ended	
	September 30,	
	2013	2012
Geographic Areas:		
United States	\$501,051	\$499,536
Canada	69,747	74,211
Other countries	34,507	36,772
Total	\$605,305	\$610,519

Other countries consist of Mexico, Australia and New Zealand.

7. OTHER (INCOME) EXPENSE , NET

Other (income) expense, net consists of the following:

	Three Months Ended	
	September 30,	
	2013	2012
Unrealized (gain) loss on assets held in rabbi trust for a nonqualified deferred compensation plan	\$(596)	\$(441)
Foreign currency transactions (gain) loss	605	(81)
Elimination of one-month Canadian reporting lag effective July 1, 2013	(1,167)	—
Other, net	67	63
Total other (income) expense, net	\$(1,091)	\$(459)

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The accompanying condensed consolidated financial statements of the Company have been reviewed by the Company's independent registered public accounting firm, Deloitte & Touche LLP, whose report covering their reviews of the condensed consolidated financial statements follows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of
Applied Industrial Technologies, Inc.
Cleveland, Ohio

We have reviewed the accompanying condensed consolidated balance sheet of Applied Industrial Technologies, Inc. and subsidiaries (the "Company") as of September 30, 2013, and the related condensed statements of consolidated income, consolidated comprehensive income and consolidated cash flows for the three month periods ended September 30, 2013 and 2012. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Company as of June 30, 2013, and the related statements of consolidated income, consolidated comprehensive income, consolidated shareholders' equity, and consolidated cash flows for the year then ended (not presented herein); and in our report dated August 20, 2013, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of June 30, 2013 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

/s/ Deloitte & Touche LLP

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

With more than 5,000 associates across North America, Australia and New Zealand, Applied Industrial Technologies (“Applied,” the “Company,” “We,” “Us” or “Our”) is a leading industrial distributor serving MRO (Maintenance, Repair & Operations) and OEM (Original Equipment Manufacturer) customers in virtually every industry. In addition, Applied provides engineering, design and systems integration for industrial and fluid power applications, as well as customized mechanical, fabricated rubber and fluid power shop services. Applied also offers maintenance training and inventory management solutions that provide added value to our customers. We have a long tradition of growth dating back to 1923, the year our business was founded in Cleveland, Ohio. During the first quarter of fiscal 2014, business was conducted in the United States, Canada, Mexico, Puerto Rico, Australia and New Zealand from 521 facilities.

The following is Management's Discussion and Analysis of significant factors which have affected our financial condition, results of operations and cash flows during the periods included in the accompanying condensed statements of consolidated income, consolidated comprehensive income and consolidated cash flows. When reviewing the discussion and analysis set forth below, please note that the majority of SKUs we sell in any given period were not necessarily sold in the comparable period of the prior year, resulting in the inability to quantify certain commonly used comparative metrics analyzing sales, such as changes in product mix and volume.

Overview

Sales for the quarter ended September 30, 2013 decreased \$5.2 million or 0.9% compared to the prior year quarter including the impact of one additional sales day, with acquisitions contributing \$18.3 million or 3.0% and an unfavorable foreign currency translation of \$2.6 million decreasing sales by 0.4%. Operating margin decreased to 6.5% of sales from 7.3% for the prior year quarter, largely driven by increases in SD&A as a percentage of sales which were only slightly offset by increases in gross profit margin. Net income of \$26.8 million decreased 9.1% compared to the prior year quarter. Shareholders' equity was \$774.6 million at September 30, 2013, up from the June 30, 2013 level of \$759.6 million. The current ratio was 3.3 to 1 at September 30, 2013 and 3.0 to 1 at June 30, 2013.

Applied monitors several economic indices that have been key indicators for industrial economic activity in the United States. These include the Industrial Production and Manufacturing Capacity Utilization (MCU) indices published by the Federal Reserve Board and the Purchasing Managers Index (PMI) published by the Institute for Supply Management (ISM). Historically, our performance correlates well with the MCU, which measures productivity and calculates a ratio of actual manufacturing output versus potential full capacity output. When manufacturing plants are running at a high rate of capacity, they tend to wear out machinery and require replacement parts.

In the September quarter, Industrial Production rose at an annual rate of 2.3%. The MCU for September was 76.1, down slightly from the June 2013 reading of 76.2. The ISM PMI averaged 56.2 in the September quarter, an improvement from 50.9 in the June quarter, and above 50 (its expansionary threshold).

The number of Company associates was 5,132 at September 30, 2013, 5,109 at June 30, 2013, and 4,868 at September 30, 2012. The number of operating facilities totaled 521 at September 30, 2013, 522 at June 30, 2013 and 517 at September 30, 2012.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Results of Operations

Three Months Ended September 30, 2013 and 2012

The following table is included to aid in review of Applied's condensed statements of consolidated income.

	Three Months Ended September 30, As a Percent of Net Sales				Change in \$'s Versus Prior Period % Increase	
	2013		2012			
Net Sales	100.0	%	100.0	%	(0.9)%
Gross Profit	28.1	%	26.9	%	3.2	%
Selling, Distribution & Administrative	21.5	%	19.7	%	8.4	%
Operating Income	6.5	%	7.3	%	(10.8)%
Net Income	4.4	%	4.8	%	(9.1)%

During the quarter ended September 30, 2013, sales decreased \$5.2 million or 0.9% compared to the prior year quarter, with acquisitions accounting for \$18.3 million or 3.0%, and foreign currency translation decreasing sales by \$2.6 million or 0.4%. There were 64 selling days in the quarter ended September 30, 2013 versus 63 selling days in the quarter ended September 30, 2012.

Sales from our Service Center Based Distribution segment, which, operates primarily in MRO markets, decreased \$5.8 million or 1.2% during the quarter from the same period in the prior year, attributed to slow downs in sales to certain sectors of the industrial economy, primarily mining. Acquisitions within this segment had a positive impact on sales of \$16.3 million or 3.3%.

Sales from our Fluid Power Businesses segment, which operates primarily in OEM markets, increased \$0.5 million or 0.5% during the quarter from the same period in the prior year, primarily attributed to improved sales within one customer group in one of our Fluid Power Businesses. Acquisitions within this segment has a positive impact on sales of \$2.0 million or 1.8%.

Sales in our U.S. operations were up \$1.5 million or 0.3% with acquisitions adding \$9.8 million or 2.0%. Sales from our Canadian operations decreased \$4.5 million or 6.0%, with acquisitions adding \$2.4 million or 3.2% and an unfavorable foreign currency translation decreasing Canadian sales by \$1.7 million or 2.3%. Consolidated sales from our other country operations, which include Mexico, Australia and New Zealand, were \$2.3 million or 6.2% below the prior year, including a positive acquisition impact of \$6.1 million or 16.7% and an unfavorable foreign currency translation decreasing other country sales by \$0.9 million or 2.4%.

During the quarter ended September 30, 2013, industrial products and fluid power products accounted for 70.5% and 29.5%, respectively, of sales as compared to 72.1% and 27.9%, respectively, for the same period in the prior year.

Our gross profit margin for the quarter was 28.1%, as compared to the prior year's quarter of 26.9%. The increase in gross profit margin is attributed to our recent acquisitions which operate at higher gross profit margin levels.

Selling, distribution and administrative expense (SD&A) consists of associate compensation, benefits and other expenses associated with selling, purchasing, warehousing, supply chain management and providing marketing and distribution of the Company's products, as well as costs associated with a variety of administrative functions such as

human resources, information technology, treasury, accounting, legal, and facility related expenses. SD&A was 21.5% of sales in the quarter ended September 30, 2013 compared to 19.7% in the prior year quarter. On an absolute basis, SD&A increased \$10.0 million or 8.4% compared to the prior year quarter. Contributing to the increase in SD&A were acquisitions representing a \$7.1 million or 5.9% while one additional sales day added approximately \$1.9 million or 1.6%, therefore core SD&A increased only \$1.0 million or 0.8%.

Operating income decreased 10.8% or \$4.8 million, and as a percent of sales decreased to 6.5% from 7.3% during the prior year quarter. The quarterly decrease in operating income primarily reflects lower sales levels coupled with higher SD&A as compared to the prior year quarter. The decline in the operating margin percentage is driven by lower sales coupled with an increase in SD&A as a percentage of sales to 21.5% versus 19.7% in the prior year quarter.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Operating income as a percentage of sales for the Service Center Based Distribution segment decreased to 5.8% in the current year quarter, from 6.8% in the prior year quarter. This decrease is primarily attributable to lower sales levels coupled with increases in SD&A, offset somewhat by an increase in gross profit margin. The impact of SD&A increases represent 1.8% of the decrease while increases in gross profit margin offset 0.8% of the decrease in operating income as a percentage of sales.

Operating income as a percentage of sales for the Fluid Power Businesses decreased to 8.4% in the current year quarter from 9.3% in the prior year quarter. The impact of SD&A increases represent 0.7% of the decrease coupled with decreases in gross profit margin which contributed 0.2% of the decrease in operating income as a percentage of sales.

Other income was \$1.1 million in the quarter which included unrealized gains on investments held by non-qualified deferred compensation trusts of \$0.6 million, net unfavorable foreign currency transaction losses of \$0.6 million as well as \$1.2 million in income from the elimination of the one-month Canadian reporting lag. During the prior year quarter other income was \$0.5 million which included unrealized gains on investments held by non-qualified deferred compensation trusts of \$0.4 million and net favorable foreign currency transaction gains of \$0.1 million.

The effective income tax rate was 33.8% for the quarter ended September 30, 2013 compared to 34.0% for the quarter ended September 30, 2012. We expect our full year tax rate to be in the 34.0% to 34.5% range.

As a result of the factors addressed above, net income decreased \$2.7 million or 9.1% compared to the prior year quarter. Net income per share was \$0.63 per share for the quarter ended September 30, 2013, compared to \$0.70 in the prior year quarter.

Liquidity and Capital Resources

Our primary source of capital is cash flow from operations, supplemented as necessary by bank borrowings or other sources of debt. At September 30, 2013 and at September 30, 2012, we had no outstanding borrowings. Management expects that our existing cash, cash equivalents, funds available under the revolving credit facility, cash provided from operations, and the use of operating leases will be sufficient to finance normal working capital needs in each of the countries we operate in, payment of dividends, acquisitions, investments in properties, facilities and equipment, and the purchase of additional Company common stock. Management also believes that additional long-term debt and line of credit financing could be obtained based on the Company's credit standing and financial strength.

The Company holds, from time to time, relatively significant cash and cash equivalent balances outside of the United States of America. The following table shows the Company's total cash as of September 30, 2013 by geographic location.

Country	Amount
United States	\$27,822
Canada	45,543
Other Countries	3,512
Total	\$76,877

To the extent cash in foreign countries is distributed to the U.S., it could become subject to U.S. income taxes. Foreign tax credits may be available to offset all or a portion of such taxes. For financial reporting purposes, the Company has provided for \$2.8 million of U.S. income taxes on approximately \$11.0 million of undistributed earnings from Canada.

The Company's working capital at September 30, 2013 was \$508.2 million, compared to \$491.4 million at June 30, 2013. The current ratio was 3.3 to 1 at September 30, 2013 and 3.0 to 1 at June 30, 2013.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Net Cash Flows

The following table is included to aid in review of Applied's condensed statements of consolidated cash flows; all amounts are in thousands.

	Three Months Ended September 30,	
	2013	2012
Net Cash Provided by (Used in):		
Operating Activities	\$ 16,956	\$ 23,947
Investing Activities	(1,388) (39,058
Financing Activities	(11,837) (8,423
Exchange Rate Effect	(18) 1,765
Increase (Decrease) in Cash and Cash Equivalents	\$ 3,713	\$ (21,769

Net cash provided by operating activities was \$17.0 million for the three months ended September 30, 2013 as compared to \$23.9 million for the same period a year ago. The decrease is primarily the result of decreases in net income of \$2.7 million coupled with increases in the utilization of working capital of \$4.6 million.

Net cash used in investing activities during the three months ended September 30, 2013 was \$1.4 million; \$1.6 million was used for capital expenditures which were partially offset by \$0.2 million of proceeds from property sales. In the three months ended September 30, 2012, investing activities used \$39.1 million including \$35.4 million for acquisitions and \$3.9 million for capital expenditures. These uses of cash were partially offset by \$0.2 million of proceeds from property sales.

Net cash used in financing activities was \$11.8 million for the three months ended September 30, 2013. Financing activities included \$9.7 million used to pay dividends, \$3.0 million used for the purchase of treasury shares, as well as \$0.6 million for acquisition holdback payments, offset by \$1.5 million from tax benefits from share based compensation. During the same period in the prior year, financing activities used \$8.4 million of cash including \$8.9 million used to pay dividends as well as \$0.8 million for acquisition holdback payments, offset by \$1.2 million from tax benefits from share based compensation.

ERP (Enterprise Resource Planning) Project

In the second quarter of 2011 Applied commenced its ERP (SAP) project to transform the Company's technology platforms and enhance its business information and technology systems for future growth. We have deployed our solution in a portion of our Canadian and U.S. operations. Deployments have continued in the first quarter with further deployments planned for the remainder of fiscal 2014. We expect to complete the U.S. deployment in fiscal 2014.

Share Repurchases

The Board of Directors has authorized the repurchase of shares of the Company's common stock. These purchases may be made in open market and negotiated transactions, from time to time, depending upon market conditions. We acquired 60,700 shares of treasury stock on the open market in the three months ended September 30, 2013 for \$3.0 million. At September 30, 2013, we had authorization to repurchase an additional 1,080,800 shares. We did not acquire any shares of treasury stock in the three months ended September 30, 2012.

Borrowing Arrangements

The Company has a five-year committed revolving credit agreement that expires in May 2017. This agreement provides for unsecured borrowings of up to \$150.0 million. We had no borrowings outstanding under our revolving credit agreements at September 30, 2013 or September 30, 2012. At September 30, 2013 unused lines under this facility, net of outstanding letters of credit, totaled \$141.3 million and were available to fund future acquisitions or other capital and operating requirements. Borrowings under this agreement would be at variable interest rates tied to either LIBOR, prime, or the bank's cost of funds.

We also have an uncommitted long-term financing shelf facility which expires in February 2016 and enables us to borrow up to \$125.0 million with terms of up to fifteen years. At September 30, 2013 we had no outstanding borrowings under this facility.

Table of ContentsAPPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS

Accounts Receivable Analysis

The following table is included to aid in analysis of accounts receivable and the associated provision for losses on accounts receivable:

	September 30, 2013	June 30, 2013	
Accounts receivable, gross	\$327,863	\$337,617	
Allowance for doubtful accounts	7,582	7,737	
Accounts receivable, net	\$320,281	\$329,880	
Allowance for doubtful accounts, % of gross receivables	2.3	%2.3	%
	For the three months ended September 30,		
	2013	2012	
Provision for losses on accounts receivable	\$112	\$224	
Provision as a % of net sales	0.02	%0.04	%

Accounts receivable are reported at net realizable value and consist of trade receivables from customers. Management monitors accounts receivable by reviewing Days Sales Outstanding (DSO) and the aging of receivables for each of the Company's locations.

On a consolidated basis, DSO was 47.6 at September 30, 2013 versus 46.4 at June 30, 2013. Accounts receivable decreased 2.9% this year, compared to a 0.9% decrease in sales in the three months ended September 30, 2013. We primarily attribute the increase in DSO to slower payments associated with large contract accounts.

Approximately 3.3% of our accounts receivable balances are more than 90 days past due. On an overall basis, our provision for losses from uncollected receivables represents 0.02% of our sales in the three months ended September 30, 2013. Historically, this percentage is around 0.12%. Management believes the overall receivables aging and provision for losses on uncollected receivables are at reasonable levels.

Inventory Analysis

Inventories are valued at the lower of cost or market, using the last-in, first-out (LIFO) method for U.S. inventories and the average cost method for foreign inventories. Management uses an inventory turnover ratio to monitor and evaluate inventory. Management calculates this ratio on an annual as well as a quarterly basis and uses inventory valued at current costs. The annualized inventory turnover for the period ended September 30, 2013 was 3.9 versus 4.1 at June 30, 2013. We believe our inventory turnover ratio in fiscal 2014 will remain similar to the fiscal 2013 levels.

AND RESULTS OF OPERATIONS

Cautionary Statement Under Private Securities Litigation Reform Act

Management's Discussion and Analysis, contains statements that are forward-looking, based on management's current expectations about the future. Forward-looking statements are often identified by qualifiers, such as "guidance," "expect," "believe," "plan," "intend," "will," "should," "could," "would," "anticipate," "estimate," "forecast," "may," and derivative or similar words or expressions. Similarly, descriptions of objectives, strategies, plans, or goals are also forward-looking statements. These statements may discuss, among other things, expected growth, future sales, future cash flows, future capital expenditures, future performance, and the anticipation and expectations of the Company and its management as to future occurrences and trends. The Company intends that the forward-looking statements be subject to the safe harbors established in the Private Securities Litigation Reform Act of 1995 and by the Securities and Exchange Commission in its rules, regulations and releases.

Readers are cautioned not to place undue reliance on any forward-looking statements. All forward-looking statements are based on current expectations regarding important risk factors, many of which are outside the Company's control. Accordingly, actual results may differ materially from those expressed in the forward-looking statements, and the making of those statements should not be regarded as a representation by the Company or any other person that the results expressed in the statements will be achieved. In addition, the Company assumes no obligation publicly to update or revise any forward-looking statements, whether because of new information or events, or otherwise, except as may be required by law.

Important risk factors include, but are not limited to, the following: risks relating to the operations levels of our customers and the economic factors that affect them; changes in the prices for products and services relative to the cost of providing them; reduction in supplier inventory purchase incentives; loss of key supplier authorizations, lack of product availability, or changes in supplier distribution programs; the cost of products and energy and other operating costs; changes in customer preferences for products and services of the nature and brands sold by us; changes in customer procurement policies and practices; competitive pressures; our reliance on information systems; our ability to implement our ERP system in a timely, cost-effective, and competent manner, limiting disruption to our business, and to capture its planned benefits while maintaining an adequate internal control environment; the impact of economic conditions on the collectability of trade receivables; reduced demand for our products in targeted markets due to reasons including consolidation in customer industries and the transfer of manufacturing capacity to foreign countries; our ability to retain and attract qualified sales and customer service personnel and other skilled managers and professionals; our ability to identify and complete acquisitions, integrate them effectively, and realize their anticipated benefits; the variability and timing of new business opportunities including acquisitions, alliances, customer relationships, and supplier authorizations; the incurrence of debt and contingent liabilities in connection with acquisitions; our ability to access capital markets as needed on reasonable terms; disruption of operations at our headquarters or distribution centers; risks and uncertainties associated with our foreign operations, including volatile economic conditions, political instability, cultural and legal differences, and currency exchange fluctuations; the potential for goodwill and intangible asset impairment; changes in accounting policies and practices; organizational changes within the Company; the volatility of our stock price and the resulting impact on our consolidated financial statements; risks related to legal proceedings to which we are a party; adverse regulation and legislation, both enacted and under consideration, including with respect to health care and federal tax policy (e.g., affecting the use of the LIFO inventory accounting method and the taxation of foreign-sourced income); and the occurrence of extraordinary events (including prolonged labor disputes, power outages, telecommunication outages, terrorist acts, earthquakes, extreme weather events, other natural disasters, fires, floods, and accidents). Other factors and unanticipated events

could also adversely affect our business, financial condition or results of operations. We discuss certain of these matters more fully throughout our "Management's Discussion and Analysis" as well as other of our filings with the Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended June 30, 2013 .

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For quantitative and qualitative disclosures about market risk, see Item 7A "Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the year ended June 30, 2013.

APPLIED INDUSTRIAL TECHNOLOGIES, INC. AND SUBSIDIARIES
ITEM 4: CONTROLS AND PROCEDURES

The Company's management, under the supervision and with the participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), has evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Exchange Act Rule 13a-15(e), as of the end of the period covered by this report. Based on that evaluation, the CEO and CFO have concluded that the Company's disclosure controls and procedures are effective.

The Company has undertaken a multi-year ERP (SAP) project to transform the Company's technology platforms and enhance its business information and transaction systems with SAP enterprise resource planning software. The Company began to implement SAP in parts of its Canadian and U.S. businesses to support both accounting and operating activities. The implementation at operating locations is expected to continue through fiscal year 2014. All changes in the Company's key business applications and financial processes as a result of the continuing implementation of SAP are being evaluated by management. The Company is designing processes and internal controls to address changes in the Company's internal control over financial reporting as a result of the SAP implementation. This ongoing implementation presents transitional risks to maintaining adequate internal controls over financial reporting.

Other than as described above, management has not identified a change in internal control over financial reporting during the three months ended September 30, 2013 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

ITEM 1. Legal Proceedings

The Company is a party to pending legal proceedings with respect to various product liability, commercial, and other matters. Although it is not possible to predict the outcome of these proceedings or the range of reasonably possible loss, the Company believes, based on circumstances currently known, that the likelihood is remote that the ultimate resolution of any of these proceedings will have, either individually or in the aggregate, a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

Repurchases in the quarter ended September 30, 2013 were as follows:

Period	(a) Total Number of Shares	(b) Average Price Paid per Share (\$)	(c) Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (1)(2)
July 1, 2013 to July 31, 2013	0	—	0	1,141,500
August 1, 2013 to August 31, 2013	25,000	48.66	25,000	1,116,500
September 1, 2013 to September 30, 2013	35,700	49.97	35,700	1,080,800
Total	60,700	49.43	60,700	1,080,800

On October 25, 2011, the Board of Directors authorized the purchase of up to 1.5 million shares of the Company's (1) common stock. The Company publicly announced the authorization that day. Purchases can be made in the open market or in privately negotiated transactions.

(2) During the quarter the Company purchased one hundred ninety-two shares in connection with the vesting of stock awards. This purchase is not counted in the authorization in note (1) above.
