WATER PIK TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. BASIS OF PRESENTATION

DESCRIPTION OF BUSINESS

Water Pik Technologies, Inc. ("Water Pik Technologies" or the "Company") is a leader in the design, manufacturing and marketing of a broad range of well-recognized personal health care products and pool products and heating systems. The Company's products include: showerheads; oral health products; water filtration products; pool and spa heaters, controls, valves and water features; and residential and commercial water-heating systems. Water Pik Technologies operates in two business segments -- Personal Health Care and Pool Products and Heating Systems.

SPIN-OFF FROM ALLEGHENY TELEDYNE INCORPORATED

Water Pik Technologies, Inc. became an independent public company on November 29, 1999 when Allegheny Teledyne Incorporated, now known as Allegheny Technologies Incorporated ("ATI"), distributed all of the common stock of Water Pik Technologies to the stockholders of ATI in a tax-free transaction (the "spin-off"). Stockholders of ATI received one share of Company common stock for every 20 shares of ATI stock. Following the spin-off, ATI held no equity interest in the Company.

Water Pik Technologies consists of the former consumer products segment of ATI, which includes the operations of the Teledyne Water Pik division with operations in the U.S. and Canada and the Teledyne Laars division with operations in the U.S. and Canada.

UNAUDITED INTERIM FINANCIAL INFORMATION

The accompanying consolidated financial statements have been prepared in

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Certain amounts reported in previous years have been reclassified to conform to the 2001 presentation. These reclassifications had no effect on reported results of operations or stockholders' equity. These financial statements should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2000. Operating results for the interim periods presented are not necessarily indicative of the results to be expected for the full year ended December 31, 2001.

RECENT ACCOUNTING PRONOUNCEMENTS

In June 1998, the Financial Accounting Standards Board (FASB) issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" and in June 2000, issued SFAS No. 138, which amends and clarifies certain guidance in SFAS No. 133. These statements establish accounting and reporting standards for derivative instruments. The statements require that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. Adoption of SFAS No. 133 in the first quarter of 2001 did not have a significant effect on the Company's consolidated results of operations or financial position.

In September 2000, the Emerging Issues Task Force (EITF) reached a final consensus on EITF Issue 00-10, "Accounting for Shipping and Handling Fees and Costs," which addresses the classification of shipping and handling costs and the related revenue. The Company adopted EITF Issue 00-10 in the fourth quarter of 2000 resulting in a reclassification of outgoing freight costs from a deduction in arriving at net sales to an expense in cost of sales. In accordance with the guidance, outgoing freight costs for all prior periods presented have been reclassified. As a result of the reclassification, sales and cost of sales for the three months ended March 31, 2000 increased \$1,935,000 to \$67,104,000 and \$44,782,000, respectively. These reclassifications had no effect on reported gross profit or results of operations.

6

7

In May 2000, the EITF reached a consensus on EITF Issue 00-14, "Accounting for Certain Sales Incentives." EITF 00-14, as amended, addresses the recognition, measurement and income statement classification for sales incentives offered voluntarily by a vendor without charge to customers that can be used in, or that are exercisable by a customer as a result of, a single exchange transaction. The Company is required to adopt EITF Issue 00-14 by the first quarter of 2002. Management does not anticipate that the adoption of EITF Issue 00-14 will have a significant impact on the Company's consolidated results of operations, financial position or income statement classification.

In April 2001, the EITF reached a consensus on EITF Issue 00-25 "Vendor Income Statement Characterization of Consideration from a Vendor to a Retailer." This guidance requires that consideration paid by a vendor to a retailer be classified in the vendor's income statement as a reduction of revenue instead of expense unless certain criteria are met. The Company is required to adopt EITF Issue 00-25 by the first quarter of 2002. Management is currently evaluating the impact of adopting EITF Issue 00-25.

RECLASSIFICATIONS

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Certain amounts reported in previous periods have been reclassified to conform to the 2001 presentation. These reclassifications had no effect on reported results of operations or stockholders' equity.

2. INVENTORIES

Inventories are stated at the lower of cost (last-in, first-out (LIFO) and first-in, first-out (FIFO) cost methods) or market. Inventories consist of the following:

	March 31, 2001	December 31, 2000

(In thousands)		
Raw materials and supplies	\$ 14,530	\$ 12,207
Work-in-process	6,282	5,273
Finished goods	25,866	21,026
	-----	-----
Total inventories at current cost	46,678	38,506
Less: Allowances to reduce current cost values to LIFO basis	(4,692)	(4,640)
	-----	-----
Total inventories	\$ 41,986	\$ 33,866
	=====	=====

Inventories determined using the LIFO cost method were \$35,278,000 at March 31, 2001 and \$28,515,000 at December 31, 2000, net of the respective LIFO reserves. The remainder of inventory was determined using the FIFO cost method. These inventory values prior to the LIFO reserve do not differ materially from cost to current cost.

3. LONG-TERM DEBT

Long-term debt is comprised of the following:

	March 31, 2001	December 31, 2000

(In thousands)		
Revolving credit facility	\$ 45,519	\$ 36,845
Canadian revolving credit facility	6,649	2,399
8 percent promissory note	3,174	3,133
Capitalized leases	303	358
	-----	-----
	55,645	42,735
Less: Current portion	(10,028)	(5,740)
	-----	-----
Long-term debt	\$ 45,617	\$ 36,995
	=====	=====

4. STOCKHOLDERS' EQUITY

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

On January 3, 2001, the Company sold 1,973,685 shares of common stock at \$7.60 per share to two investment funds managed by Special Value Investment Management, LLC in a private placement. Proceeds from the offering in the amount of \$15,000,006, net of \$1,354,000 in offering costs, were used for capital expenditures related to new product development activities and to repay borrowings under the Company's revolving credit facility pending their future use for new product development activities and for further development of lower cost manufacturing capabilities in accordance with the amended IRS tax ruling received by ATI in connection with the spin-off. Subsequent to January 3, 2002, at the request of the purchaser, the Company has the obligation to register these shares, plus an additional 386,800 shares of common stock that the purchasers owned prior to the offering, under the Securities Act of 1933, as amended, and to pay certain registration expenses.

5. COMPREHENSIVE INCOME (LOSS)

The components of comprehensive income (loss) were as follows:

	Three Months Ended March 31,	
	2001	2000
	(in thousands)	
Net income (loss)	\$(752)	\$ 541
Foreign currency translation gains	3	47
Comprehensive income (loss)	\$(749)	\$ 588
	=====	

6. INCOME TAXES

The provision for income taxes for the 2001 and 2000 interim periods was computed in accordance with FASB Interpretation No. 18, "Accounting for Income Taxes in Interim Periods," and was based on projections of total year pretax income in accordance with SFAS No. 109, "Accounting for Income Taxes." The effective income tax rate was 39.1 percent and 41.3 percent for the three months ended March 31, 2001 and 2000, respectively. The decrease in the effective tax rate in 2001 is due to a more favorable apportionment method for state income taxes and to the identification and utilization of state tax credits and research and development credits not utilized in prior years.

7. LEGAL CONTINGENCIES

A number of lawsuits, claims and proceedings have been or may be asserted against the Company relating to the conduct of its business, including those pertaining to product liability, personal injury, patent infringement, commercial, employment and employee benefits. While the outcome of litigation cannot be predicted with certainty and some of these lawsuits, claims or proceedings may be determined adversely to the Company, management does not believe that the disposition of any such pending matters is likely to have a material adverse effect on the Company's financial condition or liquidity, although the resolution in any reporting period of one or more of these matters could have a material adverse effect on the Company's results of operations for that period.

The Tax Sharing and Indemnification Agreement between the Company and ATI

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

provides that the Company will indemnify ATI and its directors, officers, agents and representatives for any taxes imposed on, and other amounts paid by, them or ATI's stockholders if the Company takes actions or fails to take actions that result in the spin-off not qualifying as a tax-free distribution. Pursuant to the Tax Sharing and Indemnification Agreement, the Company has agreed for a two-year period following the date of the spin-off: (i) to continue to engage in the Company's businesses; (ii) to continue to own and manage at least 50 percent of the assets owned directly or indirectly immediately after the spin-off; and (iii) not to engage in a number of specified transactions without the consent of ATI. If any of the taxes or other amounts were to become payable by the Company, the payment could have a material adverse effect on the Company's business, results of operations, financial condition and cash flow.

8

9

8. EARNINGS PER SHARE

Basic income (loss) per common share is calculated by dividing net income (loss) by the weighted average number of common shares outstanding during the period. Diluted net income (loss) per share is calculated by dividing net income (loss) by the sum of the weighted average number of common shares outstanding plus the dilutive effect of unvested restricted shares and outstanding stock options using the "treasury stock" method.

A reconciliation of weighted average shares outstanding, used to calculate basic net income (loss) per common share, to weighted average shares outstanding assuming dilution, used to calculate diluted net income (loss) per common share, follows:

	Three Months Ended March 31,	
	2001	2000
	(in thousands)	
Weighted average common shares outstanding - basic	11,643	9,742
Dilutive effect of employee stock options and restricted shares	--	30

Weighted average common shares outstanding - diluted	11,643	9,772
	=====	

As a result of the net loss reported for the three months ended March 31, 2001, unvested restricted stock and outstanding stock options have been excluded from the calculation of diluted loss per share because their effect would be anti-dilutive.

9. BUSINESS SEGMENTS

The Company operates in two business segments organized around its products: Personal Health Care and Pool Products and Heating Systems. The Personal Health Care segment designs, manufactures and markets showerheads, oral health products, water filtration products and professional dental products. The Pool Products and Heating Systems segment designs, manufactures and markets swimming pool and spa heaters, electronic controls, valves, water features and residential and commercial water-heating systems.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Information on the Company's business segments is as follows:

	Three Months Ended March 31,	
	2001	2000
	(in thousands)	
Sales:		
Personal Health Care	\$ 27,607	\$ 28,265
Pool Products and Heating Systems	28,567	38,839
Total sales	\$ 56,174	\$ 67,104
Operating profit (loss):		
Personal Health Care	\$ 1,274	\$ 1,000
Pool Products and Heating Systems	(1,726)	863
Total operating profit (loss)	(452)	1,863
Interest expense	883	1,001
Other income	(100)	(60)
Income (loss) before taxes	\$ (1,235)	\$ 922

9

10

	March 31, 2001	December 31, 2000
	(in thousands)	
Identifiable assets:		
Personal Health Care	\$ 55,437	\$ 53,842
Pool Products and Heating Systems	116,777	108,867
Corporate	10,685	10,487
Total identifiable assets:	\$182,899	\$173,196

Total international sales were \$9,814,000 and \$12,121,000 for the three months ended March 31, 2001 and 2000, respectively. Of these amounts, sales by operations in the United States to customers in other countries amounted to \$4,498,000 and \$4,898,000 for the three months ended March 31, 2001 and 2000, respectively.

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

10

11

ITEM 2 -- MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis contains forward-looking statements regarding future events or the future financial performance of the Company that involve certain risks and uncertainties which are discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2000. Actual events or the actual future results of the Company may differ materially from any forward-looking statement due to such risks and uncertainties.

OVERVIEW OF BUSINESS

Water Pik Technologies is a leader in the design, manufacturing and marketing of a broad range of well-recognized personal health care products and pool and water-heating products. The Company operates in two business segments: Personal Health Care and Pool Products and Heating Systems. The Personal Health Care segment designs, manufactures and markets personal health care products, including showerheads, oral health products, water filtration products and professional dental products. The Pool Products and Heating Systems segment designs, manufactures and markets swimming pool and spa heaters, electronic controls, valves, water features and residential and commercial water-heating systems.

Total sales of the Company's two segments for the three months ended March 31, 2001 and 2000 are summarized below:

Segment	Three Months Ended March 31,			
	2001		2000	
	(Dollars in thousands)			
Personal Health Care	\$27,607	49.1%	\$28,265	42.1%
Pool Products and Heating Systems	28,567	50.9%	38,839	57.9%
Total sales	\$56,174	100.0%	\$67,104	100.0%

RESULTS OF OPERATIONS

Consolidated Results of Operations

	Three Months Ended March 31,		
	2001	2000	% Change
	(Dollars in thousands)		
Sales	\$56,174	\$67,104	(16.3)%
Gross profit	\$17,940	\$22,322	(19.6)%
Operating profit (loss)	\$ (452)	\$ 1,863	(124.3)%
Gross profit as a percentage of sales	31.9%	33.3%	

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Operating profit (loss) as a percentage of sales	(0.8)%	2.8%
International sales as a percentage of sales	17.5%	18.1%

THREE MONTHS ENDED MARCH 31, 2001 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2000

Sales for the three months ended March 31, 2001 were \$56,174,000, representing a decrease of \$10,930,000 or 16.3 percent over the comparable period in 2000, primarily due to lower sales in the Pool Products and Heating Systems segment. Gross profit (sales less cost of sales) as a percentage of sales for the three months ended March 31, 2001 decreased to 31.9 percent compared with 33.3 percent for the three months ended March 31, 2000 primarily due to the lower sales volume as discussed above.

11

12

Operating profit (gross profit less selling expenses and general and administrative expenses) decreased \$2,315,000 to an operating loss of \$452,000 for the three months ended March 31, 2001 from an operating profit of \$1,863,000 for the three months ended March 31, 2000. The decrease in gross profit of \$4,382,000 resulting from lower sales of pool products and heating systems products was partially offset by a \$2,067,000 decrease in selling, general and administrative expenses.

Selling expenses decreased \$646,000 to \$11,450,000 for the three months ended March 31, 2001 from \$12,096,000 for the three months ended March 31, 2000. The decrease relates primarily to the lower sales levels as well as to cost reduction initiatives implemented during the quarter to mitigate the impact of lower sales.

General and administrative expenses decreased \$1,421,000 to \$6,942,000 for the three months ended March 31, 2001 from \$8,363,000 for the three months ended March 31, 2000. This improvement is primarily due to cost cutting measures implemented in the first quarter of 2001 and to higher initial costs experienced in the first quarter of 2000 subsequent to the spin-off from ATI partially offset by an increase in research and development expense related to new product development.

Interest expense, which relates to borrowings under the Company's credit facilities and to the promissory note issued in connection with the acquisition of Olympic, decreased \$118,000 to \$883,000 for the three months ended March 31, 2001 from \$1,001,000 for the three months ended March 31, 2000. This decrease is due to lower average balances outstanding under the credit facilities during first quarter 2001 compared to first quarter 2000 as net offering proceeds of \$13,646,000 were used to repay borrowings pending their use for new product development activities and for further development of lower cost manufacturing capabilities in accordance with the amended IRS tax ruling received by ATI in connection with the spin-off. Additionally, the weighted average interest rate on borrowings during first quarter 2001 was lower than the weighted average rate during first quarter 2000.

PERSONAL HEALTH CARE

	Three Months Ended March 31,		
	2001	2000	% Change

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

Operating profit as a percentage of sales	4.6%	3.5%	
International sales as a percentage of sales	16.9%	19.8%	

THREE MONTHS ENDED MARCH 31, 2001 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2000

Sales in the Personal Health Care segment for the three months ended March 31, 2001 were \$27,607,000, a decrease of \$658,000 or 2.3 percent over the comparable period in 2000, reflecting the continued difficult U.S. retail environment. Lower sales of showerheads and professional oral health products offset increased consumer oral health sales, including increased sales of the Water Pik(TM) flosser and oral irrigators.

Operating profit increased \$274,000 to \$1,274,000 for the three months ended March 31, 2001 from \$1,000,000 for the three months ended March 31, 2000. Lower selling, general and administrative costs from cost reduction initiatives implemented in the fourth quarter of 2000 and first quarter of 2001 were partially offset by increased research and development costs related to new product development.

POOL PRODUCTS AND HEATING SYSTEMS

	Three Months Ended March 31,		
	2001	2000	% Change

(Dollars in thousands)			
Sales	\$28,567	\$38,839	(26.4)%
Operating profit (loss)	\$(1,726)	\$ 863	(300.0)%
Operating profit (loss) as a percentage of sales	(6.0)%	2.2%	
International sales as a percentage of sales	18.0%	16.8%	

THREE MONTHS ENDED MARCH 31, 2001 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2000

Sales in the Pool Products and Heating Systems were \$28,567,000 for the three months ended March 31, 2001, a decrease of \$10,272,000 or 26.4 percent from the comparable period of 2000. This decrease is primarily due to high customer inventory levels resulting from aggressive customer purchasing during the fourth quarter 2000 as well as unusually wet weather patterns in the Sunbelt states and a prolonged winter in the Northern states during the first quarter 2001 compared to the first quarter of 2000.

Operating profit decreased \$2,589,000 to an operating loss of \$1,726,000 for the three months ended March 31, 2001 from an operating profit of \$863,000 in the comparable period of 2000. This decrease is due to lower sales across all product lines within the segment partially offset by the impact of cost

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

reduction initiatives implemented in the first quarter of 2001.

SEASONALITY

Our business is highly seasonal, with operating results varying from quarter to quarter. The Personal Health Care segment has historically experienced higher sales in the fourth quarter of each year due to stronger retail demand during the holiday season. However, a number of the Company's larger U.S. retail customers have reported lower retail sales for the fourth quarter 2000 and for the first quarter 2001 and have taken steps to more closely manage their inventories. The Pool Products and Heating Systems segment has historically experienced higher sales in the second and fourth quarters of each year as customers purchase such products in preparation for the cooler weather and in anticipation of the warm spring and summer months. In addition, as a result of the seasonality of sales, the Pool Products and Heating Systems segment offers incentive programs and extended payment terms to encourage pool product customers to purchase products during the winter months, as is consistent with industry practice. However, a number of the Company's larger pool customers have reported a significant slowdown in their business during the first quarter of 2001 due to unusually wet weather patterns in the Sunbelt states and a prolonged winter in the Northern states during the first quarter 2001 compared to the first quarter last year.

FINANCIAL CONDITION AND LIQUIDITY

Our principal capital requirements are to fund working capital needs and capital expenditures and to meet required debt payments. We anticipate that our operating cash flow, together with available borrowings under our credit facilities described below, will be sufficient to meet our working capital requirements, capital expenditure requirements and interest service requirements on our debt obligations for at least the next 12 months.

On January 3, 2001, the Company sold 1,973,685 shares of its common stock at \$7.60 per share to two investment funds managed by Special Value Investment Management in a private placement. Proceeds from the offering in the amount of \$15,000,006, net of \$1,354,000 in offering costs, were used for capital expenditures related to new product development activities and to repay borrowings under the revolving credit facility pending their use for new product development activities and for further development of lower cost manufacturing capabilities in accordance with the amended IRS tax ruling received by ATI in connection with the spin-off. Subsequent to January 3, 2002, at the request of the purchaser, the Company has the obligation to register these shares, plus an additional 386,800 shares of common stock that the purchasers owned prior to the offering, under the Securities Act of 1933, as amended, and to pay certain registration expenses.

13

14

The transaction satisfies the requirements of the tax ruling from the Internal Revenue Service (the IRS) regarding the tax-free status of the spin-off from ATI, as amended on July 12, 2000, which required the Company to complete an equity offering of \$15,000,000 by April 30, 2001.

Cash and cash equivalents decreased \$56,000 from \$1,383,000 at December 31, 2000 to \$1,327,000 at March 31, 2001. Cash provided by financing activities, including net proceeds of \$13,646,000 from the issuance of common stock and \$12,914,000 in increased borrowings under the credit facilities, were used to fund operating activities in the amount of \$21,221,000 and capital expenditures of \$5,284,000.

Net cash used in operating activities is primarily due to increases in inventory and decreases in accounts payable, accrued liabilities and income taxes

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

partially offset by a decrease in accounts receivable. The increase in inventory is due to lower than anticipated sales. Accounts payable decreased due to reduced purchasing in response to higher inventory levels and to cost reduction initiatives implemented during first quarter 2001. The decrease in accrued liabilities is due to the payment of customer rebates and commissions in first quarter 2001 as well as to lower accruals of rebates, commissions, cooperative advertising and warranties due to lower sales in first quarter 2001 as compared with fourth quarter 2000. Accrued income tax decreased due to the payment of federal and state income taxes in first quarter 2001. The decrease in accounts receivable is primarily due to collections on seasonally higher sales in the fourth quarter of 2000.

For the three months ended March 31, 2000, cash used in operating activities of \$13,471,000 and cash used in capital expenditures of \$1,111,000 were funded by \$14,918,000 from increased borrowings under the credit facilities.

The increase in cash used in operating activities in first quarter 2001 as compared to first quarter 2000 is due to lower net income in first quarter 2001, to a decrease in deferred tax assets in first quarter 2001 compared to an increase in first quarter 2000 resulting from changes in the underlying temporary differences in expense recognition for financial reporting and income tax purposes and to an increase in cash used for working capital requirements. Cash used for working capital requirements increased in first quarter 2001 due to a larger increase in inventory resulting from lower sales, to increased income tax payments related to the first full year as an independent public company and to increased rebate and cooperative advertising payments as well as lower accruals in 2001 based on sales levels. These increases in cash usage were partially offset by net cash provided by accounts receivable in first quarter 2001 as compared to net cash used in the comparable period of 2000.

The Company's working capital increased to \$64,472,000 at March 31, 2001 from \$46,488,000 at December 31, 2000. The current ratio increased to 2.3 at March 31, 2001 from 1.8 at December 31, 2000. The increase in working capital at March 31, 2001 was primarily due to higher inventory and deferred income tax asset balances as well as to lower accounts payable, accrued income tax, and accrued liability balances. These effects were partially offset by a lower accounts receivable balance and a higher current portion of long-term debt balance.

The Company has a \$60,000,000 revolving bank credit facility that expires in November 2004. Borrowings under the facility are limited to borrowing base calculations based upon eligible account receivable, inventory, real property and machinery and equipment balances. The credit facility also provides for the issuance of letters of credit up to the borrowing base less the outstanding line of credit, not to exceed \$5,000,000. At March 31, 2001, there was \$8,985,000 of borrowing availability remaining under borrowing base limitations of the credit facility.

The Company's Canadian subsidiary has a CDN. \$11,000,000 revolving bank line of credit facility, increasing by CDN. \$1,000,000 for certain months of the year, a forward exchange contract facility of up to CDN. \$2,000,000 and a letter of credit facility of up to CDN. \$500,000. At March 31, 2001, the Company had CDN. \$1,637,000 of borrowing availability remaining under the credit facility.

Due to the seasonality of the Company's pool products business, the extended payment term receivables offered during the winter months are collected during the spring and summer. This creates a seasonal peak in borrowing levels during the spring months.

These credit facilities require the Company to comply with various financial covenants and restrictions, including covenants and restrictions relating to indebtedness, liens, investments, dividend payments, consolidated net worth, interest coverage and the relationship of total consolidated indebtedness to

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

earnings before interest, taxes, depreciation and amortization. A security interest in substantially all of the Company's assets was granted to the

14

15

lenders under the credit agreements as collateral.

The Company currently anticipates that no cash dividends will be paid on Water Pik Technologies common stock in order to conserve cash for use in the Company's business, including new product development and possible future acquisitions. In addition, the terms of the Company's credit facilities prohibit the Company from paying dividends. The Company's Board of Directors will periodically re-evaluate the dividend policy taking into account operating results, capital needs, the terms of the credit facilities and other factors.

Prior to November 29, 1999 the Company participated in the general liability, product liability, and workers' compensation insurance programs sponsored by ATI. The Company has since entered into general liability, product liability and workers' compensation insurance programs of its own. Insurance coverage under these programs are subject to policy deductibles for which the Company is at risk for losses. In connection with the spin-off, the Company has agreed to indemnify ATI for losses attributable to its operations prior to the spin-off. Reserves have been established based upon existing and estimated claims and historical experience in settling such matters. As a result of the spin-off, ATI transferred to the Company reserves for estimated losses under these insurance programs totaling \$10,423,000 and related deferred taxes of \$4,882,000. During 2000 and 2001, a number of these cases were settled and at March 31, 2001, the Company had reserves for estimated losses on claims existing at the time of the spin-off and estimated claims subsequent to the spin-off of \$8,537,000. The actual settlements of claims under these insurance programs may differ from estimated reserves, but the possible range of loss in excess of those accrued is not reasonably estimable. Based upon currently available information, management does not believe that settlement of insurance claims will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

In connection with the spin-off, ATI received a tax ruling from the IRS stating that the spin-off would be tax-free to ATI and to ATI's stockholders. The continuing validity of the Internal Revenue Service tax ruling, as amended on July 12, 2000, is subject to certain factual representations and assumptions, including the completion of a required offering of the Company's common stock by April 30, 2001 and use of the proceeds from the offering, less associated costs, for further development of high quality, lower cost manufacturing capabilities, for product line extensions, to expand channels of distribution, to develop a self-sustaining product development process, and for acquisitions and/or joint ventures. Pursuant to the Separation and Distribution Agreement that Water Pik Technologies signed prior to the spin-off and pursuant to the supplemental ruling issued by the IRS to ATI modifying certain requirements imposed under the prior tax ruling, the Company agreed with ATI to undertake such an offering. In January 2001, the Company issued 1,973,685 shares of common stock at \$7.60 per share in a private placement for gross proceeds of \$15,000,006 to fulfill a material requirement of the ruling.

The Tax Sharing and Indemnification Agreement between ATI and Water Pik Technologies provides that the Company will indemnify ATI and its agents and representatives for taxes imposed on, and other amounts paid by, them or ATI's stockholders if the Company takes actions or fails to take actions that result in the spin-off not qualifying as a tax-free distribution. If any of the taxes or other amounts were to become payable by the Company, the payment could have a material adverse effect on the Company's business, results of operations,

Edgar Filing: WATER PIK TECHNOLOGIES INC - Form 10-Q

financial condition and cash flow and the amount the Company could be required to pay could exceed its net worth by a substantial amount.

ITEM 3--QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Reference is made to Part II, Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in the Registrant's Annual Report on Form 10-K for the year ended December 31, 2000. There has been no significant change in the nature or amount of market risk since year-end.

15

16

PART II--OTHER INFORMATION

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

On January 3, 2001, the Company sold 1,973,685 shares of common stock at \$7.60 per share to two investment funds managed by Special Value Investment Management, LLC in a private placement. Proceeds from the offering in the amount of \$15,000,006, net of \$1,354,000 in offering costs, were used for capital expenditures related to new product development activities and to repay borrowings under the revolving credit facility pending their future use for new product development activities and for further development of lower cost manufacturing capabilities in accordance with the amended IRS tax ruling received by ATI in connection with the spin-off. The shares of common stock were issued to the investment funds in reliance on the exemption from registration under Section 4(2) of the Securities Act of 1933, as amended (the "Securities Act"). Subsequent to January 3, 2002, at the request of the purchaser, the Company has the obligation to register these shares, plus an additional 386,800 shares of common stock that the purchasers owned prior to the offering, under the Securities Act of 1933, as amended, and to pay certain registration expenses.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits -

- *10.1 1999 Non-Employee Director Stock Compensation Plan of Water Pik Technologies, Inc., as amended
