**Item 8.01. Other Events.**

On May 15, 2006 the Company announced first quarter 2006 financial results and the acquisition of 70 miles of pipeline.

**Item 9.01. Financial Statements and Exhibits.**

**PRB GAS TRANSPORTATION, INC. ANNOUNCES**

**FIRST QUARTER 2006 FINANCIAL RESULTS**

**TO ACQUIRE 70 MILES OF PIPELINE IN RECLUSE AREA OF**

**THE POWDER RIVER BASIN**

Denver, Colorado May 15, 2006 PRB Gas Transportation, Inc., ( PRB or the Company ) (AMEX:PRB), an oil and gas exploration and development company, today reported financial results for the first quarter 2006. See accompanying tables.

Robert W. Wright, PRB's CEO noted, Despite the losses that were incurred during the first quarter, we remain confident that our 2006 financial objectives are achievable and expect revenues of approximately \$14 million to \$16 million and net income of \$3.5 million to \$4 million with earnings per share within the range of \$.33 to \$.38.

Mr. Wright added, As previously announced, a significant portion of the first quarter pre-tax loss is attributable to non-cash charges including approximately \$320,000 of depletion depreciation, \$279,000 associated with SFAS 123(R) (accounting for share-based compensation), \$97,000 of exploration expense that had been previously capitalized, and \$64,000 of amortization of issuance costs in connection with the \$21 million private placement in the first quarter. The remainder of the pre-tax loss was attributable to lost production due to serious weather problems in January and February which impacted both gathering and production revenues. There has been minimal weather-related disruption to gathering and production since March.

#### Acquisition Announced

Additionally PRB announces that it has entered into an agreement with a private company to purchase approximately 70 miles of gathering lines in the Recluse area in Wyoming's Powder River Basin. This gathering line is complementary to PRB's previously acquired gathering assets from Storm Cat Energy and Clear Creek LLC. Closing is subject to PRB's review of surface use agreements and receipt of an environmental report. The proposed purchase price was not disclosed.

The combined pipelines will allow PRB to expand its gas gathering services to gas producers in the approximately 100,000 acres surrounding the pipelines. Furthermore, PRB believes that the acquisition of this system combined with its other Recluse gathering lines should stimulate gas production in the area. In addition, the Company is pursuing working interest agreements with land owners and leaseholders.

Mr. Wright noted, This transaction makes PRB the dominant gatherer in the Recluse area of Wyoming. It comes on the heels of our acquisition of nearby gathering assets from Storm Cat Energy and Clear Creek as well as our preferred gathering status in Termo's Homestead Draw CBM Project, where we also have a working interest. This acquisition is a good example of our business strategy which involves focusing our gas gathering activities where there is a strong likelihood of increasing gas throughput in our systems, as well as gas production participation opportunities.

**Business Summary and Update**

## Edgar Filing: PRB Gas Transportation, Inc. - Form 8-K

**William Hayworth, PRB's President and COO added, In 2005, we initiated our first drilling program in Wyoming's Powder River Basin and, as of this writing, we have completed the drilling of 48 wells primarily in the North and South Gillette fields. During the first quarter of 2006, we commenced drilling 23 wells. Our plans for the balance of 2006 include the drilling of approximately 130 wells in the areas of North and South Gillette, Termo and Reno by year end. In addition to our drilling activities, we continue to seek out new acquisitions as we have discovered new opportunities. Mr. Hayworth added, We now have the financial strength to achieve our growth objectives for the year and we are executing a very ambitious \$21 million capital program.**

William Brand, Jr. PRB's VP-Finance, noted, We entered the second quarter with approximately \$22.6 million in cash and continue to have discussions with our bankers regarding the financing of a portion of our gathering and development activities.

Mr. Brand added, Last week, we mailed out to our shareholders the 2005 Annual Report and the Proxy Statement of the Annual Stockholders Meeting which is scheduled for June 14, 2006. We encourage shareholders to vote the resolution adopted by the Board of Directors in April 06, to change the Company's name to PRB Energy, Inc. The Company's stock symbol PRB will remain unchanged. We believe that the name PRB Energy, Inc. better reflects the larger scope of our business activities and our current and future operations.

### Conference Call

Robert W. Wright, CEO, William Hayworth, President & COO, and William P. Brand Jr., Vice President-Finance of PRB Gas Transportation will host a conference call today, Monday, May 15, 2006 at 11:00 am EDT/9:00 am MDT, to discuss the subjects covered in this news release. Interested parties may participate in the call by dialing 706-679-0885. Please call in 10 minutes before the conference is scheduled to begin and ask for the PRB conference call. After opening remarks, there will be a question and answer period. This conference call will be webcast live over the Internet at [www.prbtrans.com](http://www.prbtrans.com). To listen to the live call, please go to the website at least 15 minutes early to register and, if necessary, download and install any audio software. If you are unable to listen live, the conference call will be archived and can be accessed for approximately 90 days. We suggest listeners use Microsoft Explorer as their browser.

PRB is an oil and gas exploration and development company operating in the Rocky Mountain states. In addition, PRB also provides gas gathering, processing and compression services on properties it operates and for third party producers.

This press release may include certain statements concerning expectations for the future that are forward-looking statements. Such forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that are difficult to predict and many of which are beyond management's control. An extensive list of factors that can affect future results are discussed in the Company's 10-K filed with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise any forward-looking statements to reflect new information or events.
