**Item 2.02. Results of Operations and Financial Condition.**

On May 1, 2007, United Therapeutics Corporation issued a press release setting forth our earnings for our quarterly fiscal period ended March 31, 2007.

The press release contains certain financial measures that do not comply with generally accepted accounting principles in the United States ( GAAP ). Such measures supplement our financial results prepared in accordance with GAAP. We believe such non-GAAP pro forma measures contained in the press release are meaningful to investors because they help investors understand:

- (a) Adjusted Operating Cashflow because it is one of the most important metrics that our management uses to judge our performance, since Adjusted Operating Cashflow reflects both the generation of and the collection of revenue, as well as how well our managers are doing managing the cashflow of our business; and
- (b) the impact of (i) the HeartBar® trade name impairment on our financial results for the three month period ended March 31, 2006, and (ii) the issuance of 200,000 shares to Toray Industries, Inc. in connection with an amended license agreement for modified release beraprost, on our financial results for the three month period ended March 31, 2007, which aid investors in comparing our financial results for such periods taking into account the effect of each of those non-recurring events.

The presentation of these non-GAAP financial measures is not to be considered in isolation or as a substitute for our financial results prepared in accordance with GAAP.

A copy of this press release is attached hereto as Exhibit 99.1.
