Dear [Major Customer],

We are very pleased to inform you that today we signed a definitive agreement to be acquired by Inverness Medical Innovations, Inc.

The acquisition presents us with a unique opportunity to leverage the resources and skills of Inverness and Cholestech, allowing us to extend a broader range of next-generation products and solutions for our customers. As you know, Inverness is a leading supplier of a broad range of diagnostic tests.

The acquisition is expected to close in the fall of 2007, subject to obtaining approval from Cholestech shareholders, any required regulatory approvals and satisfaction or waiver of certain conditions to closing set forth in the merger agreement relating to the acquisition.

Please note that until the transaction formally closes, Cholestech and Inverness will need to continue to operate and compete as separate, independent companies, as they have in the past. In addition, there will be no immediate changes to our business. We will continue to supply you with our full line of quality products consistent with and under our existing agreements and arrangements. Please continue to work with your respective Cholestech Sales Management and Field Personnel regarding any product and service needs.

We will continue to keep you updated on the transaction, including updates being posted on our web site over the next several months. In the interim, feel free to contact us with any questions you may have.

Thank you for your support.

Sincerely,

Warren E. Pinckert II

President and Chief Executive Officer

Forward-Looking Statements

This document contains forward-looking statements within the meaning of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, and is subject to the safe harbors created therein. These statements include, but are not limited to, those regarding the prospects and timing associated with consummation of the merger; and our ability to leverage the resources and skills of Inverness and Cholestech, allowing us to extend a broader range of next-generation products and solutions for our customers. These risks and uncertainties include, among others, the risk that the merger does not close, including the risk that required shareholder and regulatory approvals for the merger may not be obtained; diversion of management's attention away from other business concerns; the risks associated with the development, generally, of the combined company's overall strategic objectives; the ability of the combined company to build additional value in its business; the existence of unanticipated technical, commercial or other setbacks related to the combined company's products and services; and the other risks set forth in Inverness' and Cholestech's most recent Annual Reports of Form 10-K and Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission. The combined company may not successfully integrate the operations of Inverness and Cholestech in a timely manner, or at all, and the combined company may not realize the anticipated benefits or synergies of the merger. Cholestech undertakes no obligation to update any forward-looking statements to reflect new information, events, or circumstances occurring after the date of this document.
