- (1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrowers to repay at their election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.

- (2) This Senior Loan will settle after January 31, 2008, at which time the interest rate will be determined.
- (3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (4) Unfunded or partially unfunded loan commitments. The Fund may enter into certain credit agreements whereby all or a portion of which may be unfunded. The Fund obligated to fund these commitments at the borrower's discretion.
- (5) All or a portion of this security was on loan at January 31, 2008.
- (6) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (7) Adjustable rate securities. Rates shown are the rates at period end.
- (8) Security pays 3.8% coupon and accrues principle based on annual increases in the Chilean UF Rate, for an effective yield of 7.433%.
- (9) Bond pays a coupon of 5% on the face at the end of the payment period. Principal grows with the Uruguayan inflation rate. Original face of the bond is UYU 38,030,000.
- (10) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of January 31, 2008. Net income allocated from the Investment in Cash Management Portfolio for the fiscal year to date ended January 31, 2008 was \$51,763.
- (11) Bond pays a 6% coupon on the face at the end of the payment period. Principal is adjusted based on the IPCA (Amplified Consumer Price Index) as determined by the Brazilian Institute of Geography and Statistics. The original face is BRL 1,569,000 and the current face is BRL 2,663,680.
