  - Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
-

**Item 8.01. Other Events.**

Evolution Petroleum Corporation (the Company) issued a press release on August 3, 2011 disclosing that it received formal notice that the U.S. Patent and Trade Office intends to issue a patent on the Company's artificial lift technology upon timely payment of the requisite publication and filing fees. Accordingly, the Company has remitted the payment that should trigger issuance of the patent and it expects the formal patent to be issued within the next business quarter. The artificial lift technology being patented was conceived by the Company's Vice President of Operations prior to his employment with the Company and is designed to extend the life of horizontal wells with oil or associated water production. The technology has been assigned to the Company in exchange for a usage fee in accordance with the terms of a Technology Assignment Agreement. The Company has successfully installed the technology in several of its wholly owned wells and is in discussions to install and demonstrate the technology in wells owned by other companies. The Technology Assignment Agreement is attached to this Form 8-K as Exhibit 99.1 and is incorporated herein by reference.

**Item 9.01. Exhibits.**
