### **VOTING INFORMATION**

The \$.10 par value common stock of the Company is the only class of capital stock outstanding. Each outstanding share of common stock is entitled to one vote with respect to each matter to be voted on by the shareholders, which vote may be given in person or by proxy. Cumulative voting is not permitted. A quorum, being a majority of shares of outstanding common stock, is necessary in order for business to be transacted at the meeting. Abstentions and

broker non-votes represented by submitted proxies will be included in the calculation of the number of shares present at the meeting for the purposes of determining a quorum. Broker non-votes means shares held of record by a broker that are not voted because the broker has not received voting instructions from the beneficial owner of the shares and either lacks or declines to exercise the authority to vote the shares in its discretion.

*Proposal One.* Directors are elected by a plurality and the nominees who receive the most votes will be elected. Proposal One is considered a routine matter under NASDAQ rules but brokerage firms and nominees **DO NOT** have the authority to vote their customers' unvoted shares on Proposal One or to vote the customers' shares if the customers have not furnished voting instructions to their brokers within a specified period of time prior to the Annual Meeting of Shareholders. Abstentions and broker non-votes will not affect the outcome of the vote on Proposal One.

*Proposal Two.* In order to be approved, the ratification of Ernst & Young, LLP, as the Company's independent public accounting firm for fiscal year 2012 must receive the affirmative vote of the majority of the shares of common stock present in person or by proxy at the Annual Meeting of Shareholders and entitled to vote. Proposal Two is considered a routine matter under NASDAQ rules and brokerage firms and nominees **DO** have the authority to vote their customers' unvoted shares on Proposal Two or to vote the customers' shares if the customers have not furnished voting instructions within a specified period of time prior to the Annual Meeting of Shareholders. Abstentions will have the effect of a vote against Proposal Two. Broker non-votes will not affect the outcome of the vote on Proposal Two.

#### **ADVICE TO BENEFICIAL HOLDERS OF SHARES OF COMMON STOCK**

THE INFORMATION SET FORTH IN THIS SECTION IS OF SIGNIFICANT IMPORTANCE TO MANY SHAREHOLDERS OF OUR COMPANY, AS A SUBSTANTIAL NUMBER OF SHAREHOLDERS DO NOT HOLD SHARES IN THEIR OWN NAME.

Shareholders who do not hold their shares in their own name (referred to in this Proxy Statement as beneficial shareholders) should note that only proxies submitted by shareholders whose names appear on the records of our Company as the registered holders of shares of common stock can be recognized and acted upon at our Annual Meeting. If shares of common stock are listed in an account statement provided to a shareholder by a broker, then in almost all cases those shares of common stock will not be registered in the shareholder's name on the records of our Company and are most likely registered under the names of the shareholder's broker or an agent of that broker. In the United States, the vast majority of such shares are registered under the name of Cede & Co. as nominee for The Depository Trust Company (which acts as depository for many U.S. brokerage firms and custodian banks). Beneficial shareholders should ensure that instructions respecting the voting of their shares of common stock with respect to the election of directors are communicated to the appropriate person, as without specific instructions, brokers/nominees are prohibited from voting shares for their clients.

Applicable regulatory policy requires intermediaries/brokers to seek voting instructions from beneficial shareholders in advance of shareholders meetings, unless the beneficial shareholders have waived the right to receive meeting materials. Every intermediary/broker has its own mailing procedures and provides its own return instructions to clients, which should be carefully followed by beneficial shareholders in order to ensure that their shares of common stock are voted at our Annual Meeting. The Form of Proxy supplied to a beneficial shareholder by its broker (or the agent of the broker) is similar to the Form of Proxy provided to registered shareholders by our Company. However, its purpose is limited to instructing the registered shareholder (the broker or agent of the broker) how to vote on behalf of the beneficial shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (Broadridge). Broadridge typically applies a special sticker to proxy forms, mails those forms to the beneficial shareholders and the beneficial shareholders return the proxy forms to Broadridge. Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of shares to be represented at our Annual Meeting. **A beneficial shareholder receiving a Broadridge proxy cannot use that proxy to vote shares of common stock directly at our Annual Meeting. The proxy must be returned to Broadridge well in advance of our Annual Meeting in order to have the shares of common stock voted.**

Alternatively, a beneficial shareholder may request in writing that his or her broker send to the beneficial shareholder a legal proxy which would enable the beneficial shareholder to attend our annual meeting and vote his or her shares of common stock.

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS**

The Board of Directors met four times in person and held six telephonic meetings during fiscal 2011. All directors attended more than 75% of Board and committee meetings. It is Company policy that Board members attend the Annual Meeting of Shareholders unless health, family or other important personal matters prohibit such attendance. All members of the Board of Directors attended the Company's 2011 Annual Meeting of Shareholders.

## Edgar Filing: CREDO PETROLEUM CORP - Form DEF 14A

The Board of Directors has an Executive Committee consisting of Messrs. Hall, Huffman and Skewes. Mr. Hall and Mr. Skewes are independent directors in accordance with NASDAQ standards. The Executive Committee did not meet during fiscal 2011 because the full Board filled that function. During 2010, the Board formed a Compensation Committee consisting of Messrs. Hall, Skewes and Rigas, all of whom are independent directors. The Compensation Committee met two times during the year. There is no standing Nominating Committee because such matters are

considered by the entire Board of Directors. The Directors believe that, due to its size and composition, the full Board is capable and qualified to fulfill the function of a separate Nominating Committee.

The Audit Committee of the Board of Directors has three members: Mr. Hall, a retired CPA, Mr. Brown, a former oil company executive and Mr. Skewes, an attorney in private practice. The Audit Committee met six times during fiscal 2011. Mr. Hall is a retired CPA and is a retired PricewaterhouseCoopers audit partner. Hall, Brown and Skewes are independent directors in accordance with NASDAQ standards.

### **Board Leadership Structure**

In January 2010, Mr. Huffman retired as CEO of the Company. The Board determined that, in connection with the appointment of Marlis E. Smith, Jr. as the Chief Executive Officer, it would be appropriate to separate the roles of Chief Executive Officer and Chairman. Until stepping down from his position on January 31, 2012, Mr. Smith was responsible for the Company's day-to-day operations and for executing the Company's long-term strategies in collaboration with the Board. Mr. Michael D. Davis, Credo's Chief Operating Officer, was appointed interim Chief Executive Officer effective February 1, 2012.

Mr. Huffman is the non-executive Chairman of the Board. In addition to chairing the Board, he acts as an advisor to the CEO, and provides consulting services as requested by the CEO. This structure enables the Company and the Board to benefit from the CEO's skills and expertise as well as Mr. Huffman's long term institutional knowledge of the Company.

### **Board Oversight of Risk Management**

The oil and gas exploration and production business is inherently risky. One of the Board's functions is to oversee how management deals with risk. The Board seeks to ensure that management has in place processes for dealing appropriately with risk. It is the responsibility of the Company's senior management to implement the Company's short and long-term business strategy and to identify and manage risks. The full Board exercises its risk oversight responsibilities primarily through management briefings on the potentially significant risks that the Company faces and how the Company is seeking to control risk where appropriate. Board members also often discuss risks as a part of their review of the business strategy, new and ongoing business, financial, and other activities of the Company.

Risks vary in many ways, including the ability of the Company to anticipate and understand risks, the types of adverse impacts that could occur if the undesired event occurs, the likelihood that an undesired event and a particular adverse impact would occur, and the ability of the Company to control risks and the potential adverse impacts. Some risks may be identified and largely controlled, and others are unknown. Some risks can be avoided or mitigated, and some risks are unavoidable as a practical matter. For some risks, the potential adverse impact would be minor, and, as a matter of business judgment, it may not be appropriate to allocate significant resources to avoid the impact. In other cases, the impact could be significant, and it is prudent to expend resources to seek to avoid or mitigate a potential adverse impact. The Company seeks to align its voluntary risk-taking with overall Company objectives, and perceived potential rewards. The Audit Committee oversees issues related to internal control over financial reporting. The Board also has overall responsibility for executive officer succession planning.

**Consideration of Director Nominees**

**Shareholder Nominees**

If a shareholder wishes to recommend a nominee for the Board of Directors, the shareholder should write to the Corporate Secretary of the Company at:

CREDO Petroleum Corporation  
1801 Broadway, Suite 900  
Denver, Colorado 80202

Shareholders should specify the name and address of the nominee and the qualifications of such nominee for membership on the Board of Directors. All such recommendations will be brought to the attention of the Company's Board of Directors.

### **Evaluating Nominees for Director**

Nominations for open positions on the Board of Directors may come from a variety of sources including business contacts of current and former directors or officers, the use of a professional search firm selected by the Board of Directors and shareholder nominations, all of whom are evaluated on the same basis. In evaluating such nominations, the Board of Directors will seek to achieve a balance of knowledge, skills and experience on the Board. Each nominee will be considered based on the need or desire to fill existing vacancies or expand the size of the Board and otherwise to select nominees that best suit the Company's needs. While the Company does not have a formal policy with respect to the consideration of diversity when assessing director nominees, it considers diversity as a part of its overall assessment of the Board's functioning and needs. Shareholder nominations to the Board of Directors must be submitted in accordance with the procedures prescribed in the Company's By-Laws.

### **Director Qualifications**

Director candidates will be evaluated based on criteria developed by the Board of Directors from time to time for each individual vacancy. Qualifications that will be considered for all nominees include, but are not limited to:

- the ability of the prospective nominee to represent the interests of the Company's shareholders;
- the prospective nominee's personal and professional experience and expertise;
- the prospective nominee's standards of integrity, commitment and independence of thought and judgment; and
- the prospective nominee's ability to dedicate sufficient time, energy and attention to the performance of his or her duties.

### **Certain Relationships and Related Transactions**

#### **Review, Approval or Ratification of Transactions with Related Persons**

The Board of Directors recognizes that transactions between the Company and certain related persons present a heightened risk of conflicts of interest. In order to ensure that the Company acts in the best interest of its stockholders, the Board of Directors has delegated the review of related party transactions to the Audit Committee. Any related party transaction required to be disclosed in accordance with applicable SEC regulations must be reviewed by the Audit Committee. In reviewing a proposed transaction, the Audit Committee must (i) satisfy itself that it has been fully informed as to the related party's relationship and interest and the material facts of the proposed transaction and (ii) consider all of the relevant facts and circumstances available to the Committee. After its review, the Audit Committee will present its finding to the full Board of Directors, who will only approve or ratify transactions that are fair to the Company and not inconsistent with the best interests of the

Company and its stockholders.

## Compensation Discussion and Analysis

### REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee recommends to the Board the form and amount of compensation to be paid or awarded to all Named Executive Officers of the Company. The Compensation Committee has reviewed the below compensation discussion and analysis required by Item 402(b) of Regulation S-K. Based on such review, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement.

The Compensation Committee

John A. Rigas

### Introduction and Overview

The following discussion and analysis is intended to assist you in understanding our compensation program. It is intended to cover the elements of compensation paid to our Named Executive Officers and the reasoning used by the Compensation Committee in recommending to the board of Directors the structure of our executive compensation program, which is designed primarily to incentivize our Named Executive Officers to build stockholder value.

We believe our success depends on the continued contributions of our Named Executive Officers. Our executive compensation programs are designed with the philosophy of attracting, motivating and retaining experienced and qualified Named Executive Officers and directors with compensation that is competitive with comparable public companies and that recognizes both overall business and individual performance. Our policies are also intended to support the achievement of our strategic objectives by tying the interests of our Named Executive Officers with those of our stockholders through operational and financial performance goals and incentive-based compensation.

The three principal elements of our current executive compensation programs are annual base salary, performance bonuses, and long-term equity incentives in the form of stock-based awards under our Stock Option Plan. Base salary is annual salary that pays for skill and experience and is required for market competitiveness. Performance bonuses are awards for achievement of then-current business goals. Long-term equity incentives are primarily stock-based awards that provide a competitive, long-term incentive to employees and Named Executive Officers that is aligned with stockholder interest in the price of the Company's stock.

## Edgar Filing: CREDO PETROLEUM CORP - Form DEF 14A

Named Executive Officers receive health and welfare benefits, including medical, prescription drug, dental and vision, that are offered to all employees. The same contribution amounts and plan design provisions apply to all employees. The Named Executive Officers also participate in the same qualified 401(k) plan as other employees. Under the plan, the Company, at its discretion, may match a portion of an employee's elective deferrals. All matching contributions are subject to applicable federal limitations under the Internal Revenue Code and U.S. Treasury regulations. These benefits are part of our overall compensation program and are designed to encourage continuity in employment and executive leadership and to remain competitive in the market for talent and experience in the E&P business.

Throughout this proxy statement, the individuals who serve as our CEO and Chief Financial Officer, or CFO, are referred to as our Named Executive Officers or executive officers.

### **Compensation Program Objectives and Methodology**

The objectives of our executive compensation programs are as follows:

- attract, retain and motivate talented and experienced executives in the highly competitive oil and gas industry;

- pay for performance, whereby Company and individual performance substantially influence a Named Executive Officer's total compensation opportunity;
- align the interests of our Named Executive Officers and stockholders by motivating Named Executive Officers to increase stockholder value and rewarding Named Executive Officers when stockholder value increases; and
- compensate our Named Executive Officers accordingly to meet our annual and long-term objectives.

To accomplish these objectives, we intend to provide a competitive total compensation package. Base salaries and total compensation are intended to be competitive with our industry peers, considering individual performance and experience, to ensure that each Named Executive Officer is appropriately compensated.

#### **Setting Executive Officer Compensation**

#### **Role of the Compensation Committee**

The Compensation Committee is responsible for reporting to the Board of Directors on its evaluation and oversight of our compensation plans, policies and programs. The members of our Compensation Committee are William F. Skewes (Chairman), Oakley Hall and John A. Rigas, each of whom is an independent director under applicable SEC rules and regulations and NASDAQ Marketplace Rules. The Committee held two meetings in 2011 and took action two times by written consent. In addition, Committee members speak with each other concerning compensation matters outside of regular meetings.

The Committee meets outside the presence of all of our Named Executive Officers to consider the appropriate compensation for each of our Named Executive Officers. The committee analyzes the performance of our Named Executive Officers and determines the base salary, payments to be made under our incentive programs and any grant of long-term incentive awards.

Based on this analysis of each Named Executive Officer's performance, and the other considerations discussed in this Compensation Discussion and Analysis, the Committee recommends to the Board the annual compensation package of each of our Named Executive Officers.

The function of the Compensation Committee is more fully described in its charter, which is available under the Corporate Governance section of our website at [www.credopetroleum.com](http://www.credopetroleum.com). The information on our website is not part of this proxy statement.

#### **Use of Peer Group Comparisons**

Among other things, we use public information compiled by Equilar as a guide in structuring the compensation of our Named Executive Officers. Actual compensation paid will be higher or lower than peer group averages depending on a number of factors, including Company and individual performance, accomplishment of our goals, our financial condition, and general industry and economic conditions. The Compensation Committee does not utilize outside compensation consultants.

In analyzing and determining 2012 compensation levels, we reviewed comparative compensation data for certain US publicly traded companies engaged in the oil and gas business that were similar to us in the areas of market capitalization, annual revenues, and enterprise value. We believe that these criteria were effective in yielding an appropriate peer group of comparable companies. The benchmarking results provided background and context for the Compensation Committee's recommendations and decisions. The information regarding peer companies and pay practices of the peer group assisted in its analysis but did not govern the Compensation Committee's award recommendation for any particular Named Executive Officer. The Compensation Committee approves any revisions to the peer group on an annual basis. The following 14 companies comprised the industry peer group used during 2011 in connection with executive compensation decisions:

Abraxas Petroleum Corp.  
Cano Petroleum, Inc.

Approach Resources, Inc  
Crimson Exploration, Inc.

Double Eagle Petroleum Co.  
Gastar Exploration Ltd.  
Goodrich Petroleum Corp.  
Panhandle Oil & Gas, Inc.  
Royale Energy, Inc.

Gasco Energy, Inc.  
GeoMet, Inc.  
Isramco, Inc.  
Rex Energy Corp.  
Warren Resources, Inc.

As part of the total compensation review process, the Compensation Committee reviews each element and the mix of compensation that comprises the total executive compensation package. This process includes comparing historical data for the executives in the peer group to similar data for our Named Executive Officers. The Compensation Committee also makes an assessment of skills, experience, and achievements of the Named Executive Officers. The Compensation Committee considers each of the factors comprising performance results in recommending the amount of each Named Executive Officer's compensation. To support our compensation objectives, the Compensation Committee may recommend that the Board adjust elements of compensation for our Named Executive Officers to align them with the various elements of the peer group executives.

In sessions outside the presence of the Named Executive Officers, the Compensation Committee reviews and recommends to the Board compensation for the Named Executive Officers. The Board then reviews and considers the Compensation Committee's recommendation in the light of its own analysis of these compensation factors.

## **Components of Executive Compensation**

### **Annual Base Salary**

We provide our Named Executive Officers with an annual base salary to compensate them for their services during the year. Although we have no written policies or guidelines for setting the base salaries of our Named Executive Officers, our Named Executive Officers' salaries are intended to be competitive with our industry peers. Our Board recognizes that a substantial amount of competition exists in the oil and gas industry for attracting and retaining qualified management teams. Our philosophy is to set our Named Executive Officers' base salaries at levels that we believe will enable us to retain them, with the goal of growing stockholder value.

We review salary ranges and individual salaries for our Named Executive Officers annually. We establish the base salary for each Named Executive Officer based on consideration of pay levels of our industry peers and business requirements for certain skills, individual experience and contributions, the roles and responsibilities of the executive and other factors. We believe competitive base salaries are necessary to attract and retain an executive management team with the appropriate abilities and experience required to lead us.

### **2012 Base Salaries**

For 2012 annual base salaries, the committee did not establish benchmarks. Rather, the committee reviewed comparable base salary levels and incentive bonus targets to determine the relative competitiveness of the Company's compensation structure. Based on the committee's review, the committee recommended, and the Board approved, the CFO's annual base salary was increased 7.9% from his 2011 annual base salary. This conclusion was largely based on economic factors and the overall performance of the Company in 2011. As the CEO had announced his intent to step down from his position, effective January 31, 2012, no salary adjustment for 2012 was considered.

**Performance-Based Incentive Awards**

**2011 Bonus Award Overview**

A core component of our executive compensation philosophy is that pay should be linked directly to performance. We provide the opportunity for our Named Executive Officers to earn performance-based bonus awards. We plan to continue to provide this opportunity to attract and retain an appropriate caliber of talent for these positions and to motivate Named Executive Officers to achieve our business goals. Bonus awards are discretionary. We review bonus awards for our Named Executive Officers annually in the first 90 days of our fiscal year to determine award

payments for the most recently completed fiscal year. A 2011 performance bonus award of \$75,000 was approved for the CEO. No bonus award was considered for other Named Executive Officers.

### **Long-Term Incentives**

### **Equity Awards**

We maintain equity compensation plans under which we make periodic, discretionary grants of stock options to eligible Named Executive Officers. Equity incentives often represent a significant element of our total compensation program. As with other elements, the value received through various stock-based awards is included in our annual total compensation review process. Among other things, we review competitive peer group data regarding equity incentives. In addition, individual awards are determined, based on a subjective assessment of individual performance, contribution, and future potential. No equity awards were granted in, or for, 2011.

### **Other Benefits**

The Named Executive Officers are entitled to the same benefits coverage as other employees of the Company, including health insurance, participation in the Company's 401(K) plan, and the reimbursement of ordinary and reasonable business expenses. Certain Named Executive Officers and certain other technical employees may receive payments from oil and gas production interests granted to them periodically by the Company. The CEO may receive other benefits, as approved by the Board of Directors, as described in the Summary Compensation Table.

The Company does not currently offer any deferred compensation program, supplemental executive retirement plan or any financial planning services for its Named Executive Officers.

### Potential Payments Upon Termination or Change in Control

#### Key Employee Retention Plan

The Company has established a Key Employee Retention Plan (the "Plan") for certain of its key employees which includes the chief executive officer and the chief financial officer. The purpose of the Plan is to provide a bonus incentive to certain key employees to remain in the employ of the Company during periods when there is a potential for a change in control of the Company. Employees who are participants in the Plan are generally entitled to receive qualified payments equal to one month for each year of service, but in no case less than twelve months, or such greater amount as the Board of Directors may deem appropriate considering the circumstances. Such payments include the employee's current monthly base salary and the greater of (i) one-twelfth of their prior year bonus or (ii) one-twelfth of the average of their prior three years bonus. Such payments become effective in the event that their employment is terminated within two years after a change in control of the Company (a) without cause by the new controlling party or (b) for good reason by the employee (e.g. an adverse change in the officer's status after a change in control), each as defined in the Plan. In addition, all insurance and fringe benefits will be provided for a period equal to the greater of one month of coverage for each year of employment with the Company or 12 months of coverage.

A change in control is defined to include (i) any person or group becomes the beneficial owner, directly or indirectly of 30% or more of the outstanding voting stock of the Company, (ii) the stockholders of the Company approve a merger, combination or consolidation of the Company with any other entity resulting in the voting securities of the Company immediately prior to the transaction representing less than 51% of the merged, combined or consolidated securities, (iii) any transaction (or combination of transactions) is consummated for the sale, disposition or liquidation of at least 50% of the Company's net assets, or (iv) election of one-third of the members of the Company's Board of Directors proposed by any party or group nominating directors in opposition to the directors nominated for election by the Company.

The following table presents the amount of compensation payable to Mr. Smith and Mr. Neely if the triggering termination event had occurred on the last day of the Company's most recently completed fiscal year, October 31, 2011.

**RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

**(Item 2 on Proxy Card)**

The Board of Directors has appointed Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2012. Representatives of Ernst & Young LLP will be present at the Annual Meeting of Shareholders to make any statement they so desire and will be available to answer appropriate shareholder questions.

In the event this proposal is defeated, the shareholder vote will not be binding on the Company but may be considered by the Audit Committee when it considers selecting other auditors for the next fiscal year. However, because of the difficulty and expense of making any substitution of auditors after the beginning of the fiscal year, Ernst & Young's appointment for the 2012 fiscal year will be permitted to stand unless the Audit Committee finds other reasons for making a change.

In the absence of contrary instructions by a shareholder, the shares represented by the proxy will be voted FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2012.

The Audit Committee pre-approves all audit and non-audit services expected to be performed by Ernst & Young LLP in any fiscal year. In addition, the Audit Committee has delegated authority to its Chairman to pre-approve additional non-audit services by Ernst & Young LLP, and ensures that the independent registered public accounting firm shall not be engaged to perform the specific non-audit services that are prohibited by law or regulation. The Audit Committee Chairman must report any such additional pre-approved services at the next scheduled Audit Committee meeting. The Company's *Audit Committee Charter* is posted on the Company's Internet website ([www.credopetroleum.com](http://www.credopetroleum.com)). In addition, a copy of the *Audit Committee Charter* can be obtained from the Company, without charge, by written request to the Chief Financial Officer at the Company's address.

The Audit Committee met six times during fiscal 2011 and has met once since fiscal 2011 year-end. The Audit Committee reviewed and discussed the Company's audited financial statements for fiscal 2011 with management and the Company's independent registered public accounting firm, and discussed with the Company's independent registered public accounting firm the matters required to be discussed by Codification of Statements on Auditing Standards, AU 380 (formerly Statement on Auditing Standards 61) and as adopted by the Public Company Accounting Oversight Board in Rule 3200T, as in effect for the Company's fiscal 2011. The Audit Committee has received the written disclosures and the letter from the independent registered public accounting firm as required by applicable requirements of the PCAOB regarding their communication with the audit committee concerning independence, and has discussed with them their independence from the Company. Based on these reviews and discussions, the Audit Committee recommended to the Board of Directors that the Company's audited financial statements for the year ended October 31, 2011 be included in the Company's Annual Report on Form 10-K.

If a shareholder does not seek inclusion of a proposal in the proxy material and submits the proposal outside the process described in Rule 14a-8 promulgated under the Securities Exchange Act of 1934, as amended, the proposal must be received by the Company's Secretary on or before December 31, 2012. The Board of Directors will then determine, in its sole judgment, whether a response is appropriate.

If you hold your shares through an intermediary that is utilizing householding and you want to receive separate copies of our annual report and proxy statement in the future, you should contact your bank, broker or other nominee record holder.
