2. Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission ("SEC") and in accordance with accounting principles generally accepted in the United States of America for interim financial reporting. Accordingly, certain information and note disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States have been condensed or omitted. In management's opinion, the accompanying interim condensed consolidated financial statements include all adjustments, consisting of normal recurring adjustments, necessary for a fair statement of the results presented. The accompanying interim condensed consolidated financial statements have been prepared without audit. The results for interim periods are not necessarily indicative of results that may be expected for any other interim period or for the full year. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended April 29, 2012 as filed with the SEC and all of our other filings, including Current Reports on Form 8-K, filed with the SEC after such date and through the date of this report, which are available on the SEC's website at www.sec.gov or our website at www.islecorp.com.

Our fiscal year ends on the last Sunday in April. Periodically, this system necessitates a 53-week year. Fiscal 2013 is a 52-week year which commenced on April 30, 2012 and fiscal 2012 was a 53-week year, which commenced on April 25, 2011, with the fourth quarter having 14 weeks.

The condensed consolidated financial statements include our accounts and those of our subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications have been made to prior period financial statements to conform to the current period presentation. We view each property as an operating segment and all such operating segments have been aggregated into one reporting segment.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

We evaluated all subsequent events through the date of the issuance of the consolidated financial statements. Other than the agreement with Tower Investments, Inc (See Note 14), no material subsequent events have occurred that required recognition in the condensed consolidated financial statements.

3. Discontinued Operations

On November 29, 2012, we completed the sale of our Biloxi, Mississippi casino operations. The balance sheet items related to Biloxi were classified as held for sale at April 29, 2012 and the results of operations are presented as discontinued operations for all periods presented. During the nine months ended January 27, 2013, we recorded a \$1,500 valuation allowance reflecting a credit against the purchase price to satisfy our obligation to repair the property after Hurricane Isaac, as required by the purchase agreement.

The results of our discontinued operations are summarized as follows:

During fiscal 2012, we settled all of our claims with our insurance carriers and collected the insurance receivable recorded at April 29, 2012 during the nine months ended January 27, 2013.

5. Long-Term Debt

Long-term debt consists of the following:

Senior Secured Credit Facility:

Credit Facility - Our Senior Secured Credit Facility, as amended (*Credit Facility*), consists of a \$300,000 revolving line of credit and a \$500,000 term loan. The Credit Facility is secured on a first priority basis by substantially all of our assets and guaranteed by all of our significant subsidiaries.

Our net line of credit availability at January 27, 2013, as limited by our maximum senior secured leverage covenant, was approximately \$243,000, after consideration of \$30,000 in outstanding surety bonds and letters of credit. We pay a commitment fee related to the unused portion of the Credit Facility of up to 0.625% which is included in interest expense in the accompanying consolidated statements of operations. The weighted average effective interest rate of the Credit Facility for the nine months ended January 27, 2013 was 5.10%.

The Credit Facility includes a number of affirmative and negative covenants. Additionally, we must comply with certain financial covenants including maintenance of a senior secured leverage ratio, a total leverage ratio and minimum interest coverage ratio. The Credit Facility also restricts our ability to make certain investments or distributions. We were in compliance with all covenants as of January 27, 2013.

7.75% Senior Notes In March 2011, we issued \$300,000 of 7.75% Senior Notes due 2019 at a price of 99.264% (*7.75% Senior Notes*). The 7.75% Senior Notes are guaranteed, on a joint and several basis, by substantially all of our significant subsidiaries and certain other subsidiaries as described in Note 13. All of the guarantor subsidiaries are wholly owned by us. The 7.75% Senior Notes are general unsecured obligations and rank junior to all of our senior secured indebtedness and senior to our senior subordinated indebtedness. The 7.75% Senior Notes are redeemable, in whole or in part, at our option at any time on or after March 15, 2015, with call premiums as defined in the indenture governing the Senior Notes.

The indenture governing the 7.75% Senior Notes limits, among other things, our ability and our restricted subsidiaries ability to borrow money, make restricted payments, use assets as security in other transactions, enter into transactions with affiliates, pay dividends, or repurchase stock. The indenture also limits our ability to issue and sell capital stock of subsidiaries, sell assets in excess of specified amounts or merge with or into

other companies.

8.875% Senior Subordinated Notes On August 7, 2012, we completed the issuance and sale of \$350,000 of 8.875% Senior Subordinated Notes due 2020 (the "New Subordinated Notes") in a private offering. We received

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

net proceeds of \$343,000 for this issuance after deducting underwriting fees. We repurchased and retired all of our \$357,275, 7% Senior Subordinated Notes with proceeds from the issuance of the New Subordinated Notes and cash on hand.

As a result of the above transactions, we incurred expenses related to the write-off of deferred financing costs, issuance costs and other related fees of approximately \$2,500, including \$1,000 in non-cash charges, during the nine months ended January 27, 2013.

6. Earnings Per Share

The following table sets forth the computation of basic and diluted loss per share:

Net loss	\$ (0.06)	\$ (0.03)	\$ (0.06)	\$ (0.13)

Our basic loss per share are computed by dividing net loss by the weighted average number of shares outstanding for the period. Due to the loss from continuing operations for the three and nine months ended January 27, 2013, stock options representing 18,041 and 22,206 shares, which are potentially dilutive, and 1,009,160 and 1,009,160 shares, which are anti-dilutive, were excluded from the calculation of common shares for diluted loss per share for that period. Due to the loss from continuing operations for the three and nine months ended January 22, 2012, stock options representing zero and 21,655 shares, which are potentially dilutive, and 1,279,710 and 1,069,710 shares, which are anti-dilutive, were excluded from the calculation of common shares for diluted loss per share for that period. As the minimum market performance conditions related to our restricted stock units have not been achieved as of January 27, 2013, 1,714,286 shares have been excluded from the calculation of diluted earnings per share for our three and nine months then ended.

7. Stock Based Compensation

Under our Amended and Restated 2009 Long Term Stock Incentive Plan we have issued restricted stock units, restricted stock and stock options.

Restricted Stock Units During the nine months ended January 27, 2013, we granted restricted stock units (RSUs) containing market performance conditions which will determine the ultimate amount of RSUs, if any, to be awarded up to 1,714,286 shares. Any RSUs earned will vest 50% on April 26, 2015 and 50% on April 24, 2016. The fair value of these RSUs is determined utilizing a lattice pricing model which considers a range of assumptions including volatility and risk-free interest rates. The aggregate compensation cost related to these RSUs is \$4,932 to be recognized over the vesting periods. As of January 27, 2013, our unrecognized compensation cost for these RSUs is \$4,211.

Restricted Stock During the nine months ended January 27, 2013, we issued 350,634 shares of restricted stock with a weighted average grant-date fair value of \$6.01 to employees and 176,078 shares of restricted stock with a weighted-average grant date fair value of \$6.53 to directors. Restricted stock awarded to employees under annual long-term incentive grants primarily vests one-third on each anniversary of the grant date and for directors vests one-half on the grant date and one-half on the first anniversary of the grant date. restricted stock for employees is 5%. No forfeiture rate is estimated for directors. As of January 27, 2013, our unrecognized compensation cost for unvested restricted stock is \$2,695 with a remaining weighted average vesting period of 1.1 years.

Stock Options - We have issued incentive stock options and nonqualified stock options which have a maximum term of 10 years and are, generally, vested and exercisable in yearly installments of 20% commencing one year after the date of grant. As of January 27, 2013, our unrecognized compensation cost for unvested stock options was \$87 with a weighted average vesting period of 0.5 years.

8. Interest Rate Derivatives

We have entered into various interest rate derivative agreements in order to manage market risk on variable rate term loans outstanding. At January 27, 2013, we have an interest rate swap agreement with an aggregate notional value of \$50,000 with a maturity date in September 2013. Previously we had additionally entered into interest rate cap contracts, which matured prior to January 27, 2013.

The fair values of derivatives included in our consolidated balance sheet are as follows:

Type of Derivative Instrument	Balance Sheet Location	January 27, 2013	April 29, 2012
Interest rate swap contracts	Accrued interest	\$ 1,248	\$ 2,493
Interest rate swap contracts	Other long-term liabilities		

The interest rate cap agreements met the criteria for hedge accounting for cash flow hedges. As a result, there was no impact on our consolidated statement of operations from changes in fair value of the interest rate cap agreements. The loss recorded in other comprehensive income (loss) for our interest rate cap agreements is recorded net of a deferred income tax benefit of \$8 as of April 29, 2012. The change in unrealized loss on our derivatives qualifying for hedge accounting was an immaterial amount for the three and nine months ended January 27, 2013. The change in unrealized loss on our derivatives qualifying for hedge accounting was \$0 and \$26 for the three and nine months ended January 22, 2012, respectively.

Our interest rate swaps no longer meet the criteria for hedge effectiveness, and therefore changes in the fair value of the swaps subsequent to the date of ineffectiveness in February 2010, are recorded in derivative income in the consolidated statement of operations. The cumulative loss recorded in other comprehensive income (loss) through the date of ineffectiveness is being amortized into derivative expense over the remaining term of the individual interest rate swap agreements or when the underlying transaction is no longer expected to occur. As of January 27, 2013, the weighted average fixed LIBOR interest rate of our interest rate swap agreement was 3.995%.

The loss recorded in other comprehensive income (loss) of our interest rate swap agreements is recorded net of deferred income tax benefits of \$238 and \$506, as of January 27, 2013 and April 29, 2012, respectively.

Derivative income related to the change in fair value of interest rate swap contracts is as follows:

9. Fair Value

The fair value of our interest swap and cap contracts are recorded using Level 3 inputs at the present value of all expected future cash flows based on the LIBOR-based swap yield curve as of the date of the valuation.

The following table presents the changes in Level 3 liabilities measured at fair value on a recurring basis for the three and nine months ended January 27, 2013:

	Three Months Ended		Nine Months Ended	
	January 27, 2013	January 22, 2012	January 27, 2013	January 22, 2012

Financial Instruments - The estimated carrying amounts and fair values of our other financial instruments are as follows:

	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 67,830	\$ 67,830	\$ 94,461	\$ 94,461

Other long-term obligations	16,732	16,732	16,556	16,556

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents, restricted cash and notes receivable are carried at cost, which approximates fair value due to their short-term maturities.

Marketable securities are based upon Level 1 inputs obtained from quoted prices available in active markets and represent the amounts we would expect to receive if we sold these marketable securities.

The fair value of our long-term debt or other long-term obligations is estimated based on the quoted market price of the underlying debt issue (Level 1) or, when a quoted market price is not available, the discounted cash flow of future payments utilizing current rates available to us for debt of similar remaining maturities (Level 3). Debt obligations with a short remaining maturity are valued at the carrying amount.

Our effective income tax rates from continuing operations for the three and nine months ended January 22, 2012 were 38.8% and 37.9%, respectively, of pretax income. 14. Commitments and Contingencies

Development Projects The Pennsylvania Gaming Control Board (PGCB) has selected the Nemacolin Woodlands Resort (Nemacolin) in Farmington, Pennsylvania to be awarded a Category 3 resort gaming license. We have an agreement with Nemacolin to complete the build-out of the casino space and provide management services of the casino. We currently estimate the project cost to be approximately \$57,000 to \$60,000, including licensing fees, and we expect to open Lady Luck Nemacolin during summer 2013. To date, we have expended approximately \$10,000.

Subsequent Event - On February 1, 2013, we signed an agreement with Tower Investments, Inc. to manage The Provence, the resort and casino on North Broad Street, Philadelphia (the Project), proposed by Tower Entertainment, LLC (the Tower JV), if the Project is selected by the PGCB. The Tower JV is one of six

applicants for the final gaming license in Philadelphia. As part of our agreement with the Tower JV, we loaned \$25,000 to the Tower JV in the form of a stand-by letter of credit issued for the purpose of securing the Pennsylvania gaming license fee relating to the Project. The \$25,000 letter of credit can only be drawn upon if the Tower JV is awarded the license. If the Tower JV is selected, we have the option to convert the \$25,000 loan into a minority investment in the Tower JV.

Legal and Regulatory Proceedings We and our wholly-owned subsidiary, Riverboat Corporation of Mississippi - Vicksburg, are defendants in a lawsuit filed in the Circuit Court of Adams County, Mississippi by Silver Land, Inc., alleging breach of contract in connection with our 2006 sale of casino operations in Vicksburg, Mississippi, to a third party. In January 2011, the court ruled in favor of Silver Land and in September 2011 the court awarded damages of \$1,979. We filed a notice of appeal in November 2011 and oral arguments were held in January 2013. While the outcome of this matter is still in doubt and cannot be predicted with any degree of certainty, we have accrued an estimated liability, including interest, of \$2,119. We intend to continue a vigorous and appropriate appeal of this judgment.

We have been named as a defendant in a complaint filed in the Circuit Court for Broward County, Florida. The complaint alleges we sent unsolicited fax advertisements in violation of the Telephone Consumer Protection Act of 1991, as amended by the Junk Fax Prevention Act of 2005 (the TCPA), and seeks to certify a class action. The complaint seeks statutory damages for alleged negligent and willful violations of the TCPA, attorneys' fees, costs and injunction relief. The TCPA provides for statutory damages of \$0.5 for each violation (\$1.5 for willful violations). We intend to vigorously defend ourselves. This matter is subject to additional discovery and other legal proceedings and while the ultimate outcome is unknown, we have accrued \$1,000 as our current estimate of the most probable outcome of this matter.

Our wholly owned subsidiary, Lady Luck Gaming Corporation and several joint venture partners have been defendants in the Greek Civil Courts and the Greek Administrative Courts in similar lawsuits brought by the country of Greece. The actions allege that the defendants failed to make specified payments in connection with the gaming license bid process for Patras, Greece. Although it is difficult to determine the damages being sought from the lawsuits, the action may seek damages up to that aggregate amount plus interest from the date of the action.

In the Civil Court lawsuit, the Civil Court of First Instance ruled in our favor and dismissed the lawsuit in 2001. Greece appealed to the Civil Appeal Court and, in 2003, the Court rejected the appeal. Greece then appealed to the Civil Supreme Court and, in 2007, the Supreme Court ruled that the matter was not properly before the Civil Courts and should be before the Administrative Court.

In the Administrative Court lawsuit, the Administrative Court of First Instance rejected the lawsuit stating that it was not competent to hear the matter. Greece then appealed to the Administrative Appeal Court, which court rejected the appeal in 2003. Greece then appealed to the Supreme Administrative Court, which remanded the matter back to the Administrative Appeal Court for a hearing on the merits. The re-hearing took place in 2006, and in 2008 the Administrative Appeal Court rejected Greece's appeal on procedural grounds. On December 22, 2008 and January 23, 2009, Greece appealed the ruling to the Supreme Administrative Court. A hearing was held during November 2012. The Supreme Administrative Court requested both parties file briefs within 90 days.

The outcome of this matter is still in doubt and cannot be predicted with any degree of certainty. We intend to continue a vigorous and appropriate defense to the claims asserted in this matter. Through January 27, 2013, we have accrued an estimated liability including interest of \$13,758. Our accrual is based upon management's estimate of the original claim by the plaintiffs for lost payments. We continue to accrue interest on the asserted claim. We are unable to estimate a total possible loss as information as to possible additional claims, if any, have not been asserted or quantified by the plaintiffs at this time.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

We are subject to certain federal, state and local environmental protection, health and safety laws, regulations and ordinances that apply to businesses generally, and are subject to cleanup requirements at certain of our facilities as a result thereof. We have not made, and do not anticipate making material expenditures, nor do we anticipate incurring delays with respect to environmental remediation or protection. However, in part because our present

and future development sites have, in some cases, been used as manufacturing facilities or other facilities that generate materials that are required to be remediated under environmental laws and regulations, there can be no guarantee that additional pre-existing conditions will not be discovered and we will not experience material liabilities or delays.

We are subject to various contingencies and litigation matters and have a number of unresolved claims. Although the ultimate liability of these contingencies, this litigation and these claims cannot be determined at this time, we believe they will not have a material adverse effect on our consolidated financial position, results of operations or cash flows.

Executive Overview

We are a developer, owner and operator of branded gaming facilities and related lodging and entertainment facilities in regional markets in the United States. We have intentionally sought geographic diversity to limit the risks caused by weather, regional economic difficulties and local gaming authorities and regulations. We currently operate casinos in Mississippi, Louisiana, Missouri, Iowa, Colorado and Florida. We also operate a harness racing track at our casino in Florida.

Our operating results for the periods presented have been affected, both positively and negatively, by current economic conditions and several other factors discussed in detail below. Our historical operating results may not be indicative of our future results of operations because of these factors and the changing competitive landscape in each of our markets, as well as by factors discussed elsewhere herein. This Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the year ended April 29, 2012 and by giving consideration to the following:

Items Impacting Loss from Continuing Operations Significant items impacting our loss from continuing operations during the fiscal quarters ended January 27, 2013, and January 22, 2012 are as follows:

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

Isle Casino Cape Girardeau Opening We opened our new casino in Cape Girardeau, Missouri on October 30, 2012.

Construction Disruption During fiscal 2013 we have undertaken significant renovation projects at our Lake Charles and Vicksburg properties. In Lake Charles we renovated our main hotel tower which resulted in approximately 1/3 of the rooms being out of service at any given time. In Vicksburg we completely rebranded the property into a Lady Luck branded property. Both projects were substantially

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

completed during the third quarter; however certain areas of these properties were not easily accessible to our customers during the construction periods which had a negative impact on our operating results.

Increased Competition From time to time, new or expanded facilities by our competitors impact our results. For example, competition from a new casino in Natchez opened at the end of December 2012 has the potential to negatively impact our Natchez casino. Competition from a new casino in Kansas which opened during February 2012 has negatively impacted our Kansas City casino and expansion by a competitor in February 2012 has negatively impacted our Pompano casino. Expansions by Arkansas based competitors have negatively impacted our Lula property.

Flooding in Fiscal 2012 Due to flooding along the Mississippi River, five of our properties were closed for portions of the nine months ended January 22, 2012. A summary of the closure dates and subsequent reopening is as follows:

	Closing Date	Reopening Date	Number Days Closed
Davenport, Iowa	April 15, 2011	May 1, 2011	15(A)
Caruthersville, Missouri	May 1, 2011	May 13, 2011	12
Lula, Mississippi	May 3, 2011	June 3, 2011	31
		September 2, 2011	91(B)
Vicksburg, Mississippi	May 11, 2011	May 27, 2011	16

(A) Six days of closure in the first quarter of fiscal 2012 and nine days of closure in the fourth quarter of fiscal 2011.

(B) The second casino barge reopened on September 2, 2011 after flood damage was remediated.

Income Tax Provision(Benefit) During the fourth quarter of fiscal 2012 we recorded a valuation allowance reducing our deferred tax assets, as a result of evaluating the expected net realizable value of our deferred tax assets, including our net operating loss carry forwards. Our actual effective rate will fluctuate based upon the amount of our pretax book income, permanent differences and other items, including fluctuations in valuation allowances, used in the calculation of our income tax benefit.

Discontinued Operations

Sale of Biloxi On November 29, 2012, we completed the sale of our Biloxi, Mississippi casino operations. During the nine months ended January 27, 2013, we recorded a \$1.5 million valuation allowance reflecting a credit against the purchase price to satisfy our obligation to repair the property after Hurricane Isaac, as required by the purchase agreement.

Availability of Cash and Additional Capital - At January 27, 2013, we had cash and cash equivalents of \$67.8 million and marketable securities of \$25.1 million. As of January 27, 2013, we had \$10.0 million in outstanding borrowings under our revolving credit. Our line of credit availability at January 27, 2013 was approximately \$243 million as limited by our senior secured leverage ratio.

On August 7, 2012, we completed the issuance and sale of \$350 million of 8.875% Senior Subordinated Notes due 2020 in a private offering. We received net proceeds of \$343 million for this issuance after deducting underwriting fees. We repurchased and retired our \$357.3 million 7% Senior Subordinated Notes due 2014 with proceeds from the issuance of the New Subordinated Notes and cash on hand.

Following completion of the issuance of our New Subordinated Notes and the retirement of the 7% Subordinated Notes due 2014, the maturities of our Credit Facility are extended to March 25, 2016 and March 25, 2017 for the revolving line of credit and term loans, respectively, based on the terms of the Credit Facility.

In November 2012, we amended certain provisions of the Credit Facility to; 1) give us more flexibility to incur additional indebtedness, in certain circumstances, 2) increase our flexibility to incur asset sales, 3) modify our maximum allowed leverage covenant and 4) allow for the annualization of EBITDA during the first year of operations on new build projects.

Capital Expenditures and Development Activities As part of our business development activities, historically we have entered into agreements which have resulted in the acquisition or development of businesses or assets. These business development efforts and related agreements typically require the expenditure of cash, which may be significant. The amount and timing of our cash expenditures relating to development activities may vary based upon our evaluation of current and future development opportunities, our financial condition and the condition of the financing markets. Our development activities are subject to a variety of factors including but not limited to: obtaining permits, licenses and approvals from appropriate regulatory and other agencies, legislative changes and, in certain circumstances, negotiating acceptable leases.

For instance, we opened our new casino in Cape Girardeau, Missouri on October 30, 2012. We have incurred cash-based capital expenditures and capitalized interest of \$128.0 million through January 27, 2013, including \$79.2 million during the current fiscal year.

On August 20, 2012, the Pennsylvania Supreme Court affirmed the decision of the Pennsylvania Gaming Control Board to award a Category 3 resort gaming license to the Nemaquin Woodlands Resort in Farmington, Pennsylvania. We have a development and management agreement with Nemaquin to build and operate a casino. We currently estimate the cost of the project to be approximately \$57 million to \$60 million, including licensing fees, and expect to open Lady Luck Nemaquin during the summer of 2013. To date, we have expended \$10.0 million.

On February 1, 2013, we signed an agreement with Tower Investments, Inc. to manage The Provencence, the resort and casino on North Broad Street, Philadelphia (the Project), proposed by Tower Entertainment, LLC (the Tower JV), if the Project is selected by the PGCB. The Tower JV is one of six applicants for the final gaming license in Philadelphia. As part of our agreement with the Tower JV, we loaned \$25 million to the Tower JV in the form of a stand-by letter of credit issued for the purpose of securing the Pennsylvania gaming license fee relating to the Project. The \$25 million letter of credit can only be drawn upon if the Tower JV is awarded the license. If the Tower JV is selected, we have the option to convert the \$25 million loan into a minority investment in the Tower JV.

Historically, we have made significant investments in property and equipment and expect that our operations will continue to demand ongoing investments to keep our properties competitive. During the nine months ended January 27, 2013, we have incurred capital expenditures at our existing properties of \$40.5 million. For the balance of the current fiscal year, we estimate additional capital expenditures at our existing properties to be approximately \$45 million to \$50 million, including maintenance capital, final costs in Cape Girardeau and construction costs in Nemaquin of approximately \$25 million to \$30 million. During fiscal 2013 we have completed several capital projects primarily focused on refreshing our hotel room inventory as well as additional

improvements to our Black Hawk and Lake Charles properties, and rebranding our Vicksburg property to a Lady Luck. Additionally we expect to make several other improvements to our properties including additional Farmers Pick buffets and other food and beverage outlets as well as ongoing maintenance capital. The timing, completion and amount of additional capital projects will be subject to improvement of economic and local market conditions, cash flows from our continuing operations and borrowing availability under our Credit Facility.

Typically, we have funded our daily operations through net cash provided by operating activities and our significant capital expenditures through operating cash flow and debt financing. While we believe that cash on hand, cash flow from operations, and available borrowings under our Credit Facility will be sufficient to support our working capital needs, planned capital expenditures and debt service requirements for the foreseeable future, there is no assurance that these sources will in fact provide adequate funding for our planned and necessary expenditures or that the level of our capital investments will be sufficient to allow us to remain competitive in our existing markets.

We are highly leveraged and may be unable to obtain additional debt or equity financing on acceptable terms if our current sources of liquidity are not sufficient or if we fail to stay in compliance with the covenants of our senior secured credit facility. We will continue to evaluate our planned capital expenditures at each of our existing locations in light of the operating performance of the facilities at such locations.

Critical Accounting Estimates

Our consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles that require our management to make estimates and assumptions that affect reported amounts and related disclosures. Management identifies critical accounting estimates as:

- those that require the use of assumptions about matters that are inherently and highly uncertain at the time the estimates are made;
- those estimates where, had we chosen different estimates or assumptions, the resulting differences would have had a material impact on our financial condition, changes in financial condition or results of operations; and
- those estimates that, if they were to change from period to period, likely would result in a material impact on our financial condition, changes in financial condition or results of operations.

Goodwill and Other Intangible Assets At April 29, 2012, we had goodwill and other intangible assets of \$387.5 million, representing 24.6% of total assets. In accordance with ASC Topic 350, Intangibles – Goodwill and Other, if necessary, we perform an annual impairment test for goodwill and indefinite-lived intangible assets in the fourth fiscal quarter of each year, or on an interim basis if indicators of impairment exist. For properties with goodwill and/or other intangible assets with indefinite lives, this test requires the comparison of the implied fair value of each reporting unit to carrying value.

Edgar Filing: ISLE OF CAPRI CASINOS INC - Form 10-Q

We must make various assumptions and estimates in performing our impairment testing. The implied fair value includes estimates of future cash flows that are based on reasonable and supportable assumptions which represent our best estimates of the cash flows expected to result from the use of the assets including their eventual disposition and by a market approach based upon valuation multiples for similar companies. Changes in estimates, increases in our cost of capital, reductions in transaction multiples, operating and capital expenditure assumptions or application of alternative assumptions and definitions could produce significantly different results. Future cash flow estimates are, by their nature, subjective and actual results may differ materially from our estimates. If our ongoing estimates of future cash flows are not met, we may have to record additional impairment charges in future accounting periods. Our estimates of cash flows are based on the current regulatory, social and economic climates, recent operating information and budgets of the various properties where we conduct operations. These estimates could be negatively impacted by changes in federal, state or local

regulations, economic downturns, or other events affecting various forms of travel and access to our properties. We engage an independent third party valuation firm to assist management in our annual impairment testing.

Based upon our fiscal 2012 annual impairment testing, we noted reporting units with goodwill and/or other long-lived intangibles had fair values which exceeded their carrying values by at least 10%, except for our Lula and Black Hawk reporting units. In conjunction with this impairment testing, we recorded an impairment charge related to goodwill at our Lula property of \$14.4 million, resulting in a remaining goodwill balance of \$80.6 million. Black Hawk's goodwill and indefinite-lived assets as of April 29, 2012 were \$37.7 million, which fair value exceeded its carrying value by 9%.

During our quarter ended January 27, 2013, a new casino opened in direct competition to our Natchez casino property. As of January 27, 2013, our Natchez reporting unit currently has \$24.6 million in goodwill. There is insufficient information to assess the impact of this opening at this time; however, we plan to monitor this development and should the future operating results of our Natchez property not meet current estimates, we could record an impairment charge reducing Natchez goodwill.

For a discussion of our significant accounting policies and estimates, please refer to Management's Discussion and Analysis of Financial Condition and Results of Operations and Notes to Consolidated Financial Statements presented in our 2012 Annual Report on Form 10-K. There were no newly identified significant accounting estimates in the third quarter of fiscal year 2013, nor were there any material changes to the critical accounting policies and estimates set forth in our 2012 Annual Report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss arising from adverse changes in market rates and prices, including interest rates, commodity prices and equity prices. Our primary exposure to market risk is interest rate risk associated with our Isle of Capri Casinos, Inc. senior secured credit facility (Credit Facility).

We have an interest rate swap agreement with a notional value of \$50.0 million as of January 27, 2013. The swap agreement effectively converts portions of the Credit Facility variable debt to a fixed-rate basis until the swap agreement terminates, which occurs in September 2013.

During the nine months ended January 27, 2013, we issued \$350.0 million of 8.875% Subordinated Notes and tendered our \$357.3 million 7% Subordinated Notes. These transactions increased our fixed interest rate on \$350 million of our outstanding debt by 1.875%.

The maturities of our revolving line of credit and our variable rate term loans under our Credit Facility have been extended to March 25, 2016 and March 25, 2017, respectively. Minimum annual principal payments under our variable rate term loans are \$5 million.
