Attachment A

The Company expects to record between a \$350 million and \$400 million pre-tax charge related primarily to the Gulfstream business jet programs. As a result of the charge, the Company will report an operating loss and a net loss in the second quarter of 2013, compared with operating income of \$83 million and net income of \$35 million in the second quarter of 2012. The charge is primarily related to forecasted cost growth in the Wing segment in the years 2014-2021 with minimal cash flow impact in the current period.

The Company also expects to report that second quarter 2013 revenues were \$1.521 billion, up 13% from \$1.341 billion for the same period of 2012, driven by higher production volumes and non-production revenues. Total operating performance also improved year over year excluding the charge described above.

The financial information in this Form 12b-25 is preliminary and subject to the results of the auditor's review described above.

This Form 12b-25 contains forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995.
