**NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

*Principles of Consolidation*

The consolidated financial statements include our accounts and those of our wholly-owned and majority-owned subsidiaries and VIEs for which we are the primary beneficiary. Noncontrolling interests represents a minority owner's proportionate share of the equity in certain of our consolidated entities. All intercompany transactions and account balances have been eliminated in consolidation.

*Discontinued Operations*

In accordance with Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale, we reported the financial position and results of operations of our stations in Lansing, Michigan (WLAJ-TV) and Providence, Rhode Island (WLWC-TV), as assets and liabilities held for sale in the accompanying consolidated balance sheets and discontinued operations consolidated statements of operations. Discontinued operations have not been segregated in the consolidated statements of cash flows and, therefore, amounts for certain captions will not agree with the accompanying consolidated balance sheets and consolidated statements of operations. The operating results of WLAJ-TV, which was sold effective March 1, 2013 for \$14.4 million, and WLWC-TV, which was sold effective April 1, 2013 for \$13.8 million, are not included in our consolidated results of operations from continuing operations for the three months ending March 31, 2013. Total revenues for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the three months ending March 31, 2013, were \$0.6 million and \$1.6 million, respectively. Total income before taxes for WLAJ-TV and WLWC-TV, which are included in discontinued operations for the three months ending March 31, 2013 are \$0.2 million and \$0.4 million, respectively. The resulting gain on the sale of these stations in 2013 was negligible. Basic and diluted earnings per share from discontinued operations was less than \$0.01 per share for the quarter ended March 31, 2013.

*Assets Held of Sale*

As discussed in *Note 3. Commitments and Contingencies - Pending Acquisitions*, we expect to sell the license and certain related assets of our stations in Birmingham, AL - WABM (MNT), Harrisburg/Lancaster/Lebanon/York, PA - WHP (CBS), Charleston, SC - WMMP (MNT) and assets related to our LMAs to provide services to Harrisburg/Lancaster/Lebanon/York, PA - WLYH (CW) and Charleston, SC - WTAT (FOX).

In accordance with Financial Accounting Standards Board's (FASB) guidance on reporting assets held for sale, we reported our assets and liabilities related to WABM, WHP, WMMP, WLYH, and WTAT as held for sale in the accompanying consolidated balance sheet as of March 31, 2014. We expect the sale of the stations will occur in the third quarter of 2014. The results of operations of these stations are included within the results from continuing operations as the criteria for classification as discontinued operations was not met.

***Interim Financial Statements***

The consolidated financial statements for the three months ended March 31, 2014 and 2013 are unaudited. In the opinion of management, such financial statements have been presented on the same basis as the audited consolidated financial statements and include all adjustments, consisting only of normal recurring adjustments necessary for a fair statement of the consolidated balance sheets, consolidated statements of operations, consolidated statements of comprehensive income, consolidated statement of equity (deficit) and consolidated statements of cash flows for these periods as adjusted for the adoption of recent accounting pronouncements discussed below.

As permitted under the applicable rules and regulations of the Securities and Exchange Commission (SEC), the consolidated financial statements do not include all disclosures normally included with audited consolidated financial statements and, accordingly, should be read together with the audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the year ended December 31, 2013 filed with the SEC. The consolidated statements of operations presented in the accompanying consolidated financial statements are not necessarily representative of operations for an entire year.

***Variable Interest Entities***

In determining whether we are the primary beneficiary of a VIE for financial reporting purposes, we consider whether we have the power to direct the activities of the VIE that most significantly impact the economic performance of the VIE and whether we have the obligation to absorb losses or the right to receive returns that would be significant to the VIE. We consolidate VIEs when we are the primary beneficiary. The assets of each of our consolidated VIEs can only be used to settle the obligations of the VIE. All the liabilities are non-recourse to us except for certain debt of VIEs which we guarantee.

We have entered into LMAs to provide programming, sales and managerial services for seven television stations of Cunningham Broadcasting Company (Cunningham), the license owner of these television stations as of December 31, 2013. We pay LMA fees to Cunningham and also reimburse all operating expenses. We also have an acquisition agreement in which we have a purchase option to buy the license assets of these television stations which includes the FCC license and certain other assets used to operate the station (License Assets). Our applications to acquire these FCC license related assets are pending FCC approval. We also perform sales and other non-programming support services to two other stations owned by Cunningham (acquired in November 2013) pursuant to joint sales agreements (JSAs) and shared services agreements (SSAs). We have purchase options to acquire the license assets of these stations. We own the majority of the non-license assets of these nine Cunningham stations and we have guaranteed the debt of Cunningham. We have determined that Cunningham and these nine stations are VIEs and that based on the terms of the agreements, the significance of our investment in the stations and our guarantee of the debt of Cunningham, we are the primary beneficiary of the variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIEs through the services we provide pursuant to the LMAs, and other outsourcing agreements, and we absorb losses and returns that would be considered significant to Cunningham. See *Note 5. Related Person Transactions* for more information on our arrangements with Cunningham. The net revenues of these stations which we consolidate were \$27.8 million and \$24.6 million for the three months ended March 31, 2014 and 2013, respectively. The fees paid between us and Cunningham pursuant to these arrangements are eliminated in consolidation. See *Changes in the Rules of Television Ownership and Joint Sale Agreements in Note 3. Commitment and Contingencies* for discussion of recent changes in FCC rules related to JSAs.

We have certain outsourcing agreements, including certain JSAs and SSAs, with certain other license owners under which we provide certain non-programming related sales, operational and administrative services. The terms of the agreements vary, but generally have initial terms of over five years with several optional renewal terms. We own the majority of the non-license assets of these stations and in certain cases have

guaranteed the debt of licensee. We also have purchase options to buy the assets of the licensees. We have determined that these licensees (18 and 10 licenses as of March 31, 2014 and 2013, respectively) are VIEs, and, based on the terms of the agreements and the significance of our investment in the stations, we are the primary beneficiary of the variable interests because, subject to the ultimate control of the licensees, we have the power to direct the activities which significantly impact the economic performance of the VIE through the sales and managerial services we provide and because we absorb losses and returns that would be considered significant to the VIEs. The net revenues of these stations which we consolidate were \$38.7 million and \$24.2 million for the three months ended March 31, 2014 and 2013, respectively. The fees paid between us and other license owners pursuant to these arrangements are eliminated in consolidation. See *Changes in the Rules of Television Ownership and Joint Sale Agreements* in Note 3. *Commitment and Contingencies* for discussion of recent changes in FCC rules related to JSAs.

The amounts above represent the consolidated assets and liabilities of the VIEs described above, for which we are the primary beneficiary, and have been aggregated as they all relate to our broadcast business. Excluded from the amounts above are payments made to Cunningham under the LMAs which are treated as a prepayment of the purchase price of the stations and capital leases between us and Cunningham which are eliminated in consolidation. The total payments made under these LMAs as of March 31, 2014 and December 31, 2013, which are excluded from liabilities above, were \$33.4 million and \$32.4 million, respectively. The total capital lease liabilities excluded from above were \$11.2 million as of March 31, 2014 and December 31, 2013, respectively. Also excluded from the amounts above are liabilities associated with the certain outsourcing agreements and purchase options with certain VIEs totaling \$58.9 million and \$59.9 million as of March 31, 2014 and December 31, 2013, respectively, as these amounts are eliminated in consolidation. The risk and reward characteristics of the VIEs are similar.

We have investments in other real estate ventures and investment companies which are considered VIEs. However, we do not participate in the management of these entities including the day-to-day operating decisions or other decisions which would allow us to control the entity, and therefore, we are not considered the primary beneficiary of these VIEs. We account for these entities using the equity or cost method of accounting.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

The carrying amounts of our investments in these VIEs for which we are not the primary beneficiary as of March 31, 2014 and December 31, 2013 was \$25.1 million and \$26.7 million, respectively, which are included in other assets in the consolidated balance sheets. Our maximum exposure is equal to the carrying value of our investments. The income and loss related to these investments are recorded in income from equity and cost method investments in the consolidated statement of operations. We recorded income of \$0.2 million and \$0.4 million in the three months ended March 31, 2014 and 2013, respectively.

### *Recent Accounting Pronouncements*

In July 2013, the FASB issued new guidance requiring new disclosure of unrecognized tax benefit, or a portion of an unrecognized tax benefit, in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. If a company does not have: (i) a net operating loss carryforward; (ii) a similar tax loss; or (iii) a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the entity does not intend to use the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. The authoritative guidance is effective for fiscal years and the interim periods within those fiscal years beginning on or after December 15, 2013 and should be applied on a prospective basis. This guidance does not have a material impact on our financial statements.

In April 2014, the FASB issued new guidance that changes the criteria for determining which disposals can be presented as discontinued operations and modifies related disclosure requirements. Under the new guidance, a discontinued operation is defined as a disposal of a component or group of components that is disposed of and represents a strategic shift that has, or will have, a major effect on an entity's operations and financial results. The revised guidance will become effective for annual fiscal periods beginning after December 15, 2014. Under the revised guidance, we expect that it will be less likely for any future sales of assets, asset groups, or stations to be considered discontinued operations because such sales would need to represent a strategic shift and

Table of Contents

have a major effect on our future operations. Historically, under the previous guidance, sales of minor components of our business were required to be classified as discontinued operations.

*Use of Estimates*

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the consolidated financial statements and in the disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

*Restricted Cash*

During 2013, we entered into certain definitive agreements to purchase the assets of pending acquisitions, which required certain deposits to be made into escrow accounts. As of March 31, 2014 and December 31, 2013, we held \$12.4 million and \$11.4 million, respectively, in restricted cash classified as noncurrent related to the amounts held in escrow for these acquisitions.

*Revenue Recognition*

Total revenues include: (i) cash and barter advertising revenues, net of agency commissions; (ii) retransmission consent fees; (iii) network compensation; (iv) other broadcast revenues and (v) revenues from our other operating divisions.

Advertising revenues, net of agency commissions, are recognized in the period during which time spots are aired.

Our retransmission consent agreements contain both advertising and retransmission consent elements. We have determined that our retransmission consent agreements are revenue arrangements with multiple deliverables. Advertising and retransmission consent deliverables sold under our agreements are separated into different units of accounting at fair value. Revenue applicable to the advertising element of the arrangement is recognized similar to the advertising revenue policy noted above. Revenue applicable to the retransmission consent element of the arrangement is recognized over the life of the agreement.

Network compensation revenue is recognized over the term of the contract. All other revenues are recognized as services are provided.

*Share Repurchase Program*

On February 6, 2008, the Board of Directors renewed a \$150.0 million share repurchase program. On March 20, 2014, the Board of Directors authorized an additional \$150.0 million share repurchase authorization. There is no expiration date and currently, management has no plans to terminate this program. For the three months ended March 31, 2014, we have purchased approximately 2.9 million shares for \$82.4 million. As of March 31, 2014, the total remaining authorization was \$185.1 million.

### *Income Taxes*

Our income tax provision for all periods consists of federal and state income taxes. The tax provision for the three months ended March 31, 2014 and 2013 is based on the estimated effective tax rate applicable for the full year after taking into account discrete tax items and the effects of the noncontrolling interests. We provide a valuation allowance for deferred tax assets if we determine that it is more likely than not that some or all of the deferred tax assets will not be realized. In evaluating our ability to realize net deferred tax assets, we consider all available evidence, both positive and negative, including our past operating results, tax planning strategies and forecasts of future taxable income. In considering these sources of taxable income, we must make certain judgments that are based on the plans and estimates used to manage our underlying businesses on a long-term basis. A valuation allowance has been provided for deferred tax assets related to a substantial portion of our available state net operating loss (NOL) carryforwards, based on past operating results, expected timing of the reversals of existing temporary book/tax basis differences, alternative tax strategies and projected future taxable income.

Our effective income tax rate for the three months ended March 31, 2014 and 2013 approximated the statutory rate.

We believe it is reasonably possible that our liability for unrecognized tax benefits related to continuing operations could be reduced by up to \$10.5 million, in the next twelve months, as a result of expected statute of limitations expirations, the application of limits under available state administrative practice exceptions, and the resolution of examination issues and settlements with federal and certain state tax authorities.

### *Reclassifications*

Certain reclassifications have been made to prior years' consolidated financial statements to conform to the current year's presentation.

Table of Contents**2. ACQUISITIONS***Fisher Communications*

Effective August 8, 2013, we completed the acquisition of all of the outstanding common stock of Fisher Communications, Inc. (Fisher). We paid \$373.2 million to the shareholders of the Fisher common stock, representing \$41.0 per common share. We financed the total purchase price with cash on hand. Fisher owns certain broadcast assets related to the following twenty-two stations, and four radio stations in 8 markets along with the respective network affiliation or program service arrangements: KOMO (ABC) and KUNS (Univision) in Seattle-Tacoma, WA; KATU (ABC), KUNP(Univision), and KUNP-LP (Univision) in Portland, OR; KLEW (CBS) in Spokane, WA; KBOI (CBS) and KYUU-LD (CW) in Boise, ID; KVAL (CBS), KCBY (CBS), KPIC (CBS), KMTR (NBC), KMCB (NBC), and KTCW (NBC) in Eugene, OR; KIMA (CBS), KEPR (CBS), KUNW-CD (Univision), and KVVK-CD (Univision), in Yakima/Pasco/Richland/Kennewick, WA; KBAK (CBS) and KBFX-CD (FOX) in Bakersfield, CA; as well as KIDK (CBS/FOX) and KXPI (FOX) in Idaho Falls/Pocatello, ID. The four radio stations are: KOMO (AM/FM), KPLZ (FM) and KVI (AM) in the Seattle/Tacoma, WA market. This acquisition provides expansion into additional markets and increases value based on the synergies we can achieve.

The results of the acquired operations are included in the financial statements of the Company beginning on August 8, 2013. Under the acquisition method of accounting, the initial purchase price has been allocated to the acquired assets and assumed liabilities based on estimated fair values. The allocation reflects the consolidation of net assets of the third party which owns the license and related assets of KMTR in Eugene, OR, which we have consolidated, as the licensee is considered to be a VIE and we are the primary beneficiary of the variable interests. Additionally, another third party that performs certain services pursuant to an outsourcing agreement to our stations in Idaho Falls, ID (KIDK and KXPI), exercised an existing purchase option to purchase the broadcast assets of the two stations for \$6.3 million, which closed in November 2013. The assets of these stations were classified as assets held for sale in the initial purchase price allocation. The purchase price allocation is preliminary pending a final determination of the fair values of the assets and liabilities. The allocated fair value of acquired assets and assumed liabilities is summarized as follows (in thousands):

Cash	\$	13,531
Accounts receivable		29,962
Prepaid expenses and other current assets		19,337
Program contract costs		10,968
Property and equipment		48,616

Definite-lived intangible assets		155,073
Other assets		8,348
Assets held for sale		6,339
Accounts payable and accrued liabilities		(20,384)
Program contracts payable		(10,977)

Other long-term liabilities		(22,127)
Fair value of identifiable net assets acquired		198,720
Goodwill		174,476
Total	\$	373,196

The preliminary allocation presented above is based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The amount allocated to

definite-lived intangible assets represents the estimated fair values of network affiliations of \$100.6 million, the decaying advertiser base of \$15.0 million, and other intangible assets of \$39.5 million. These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations, 10 years for the decaying advertiser base and a weighted average life of 15 years for the other intangible assets. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. We expect that goodwill deductible for tax purposes will be approximately \$11.1 million. The initial purchase price allocation is based upon all information available to us at the present time and is subject to change, and such changes could be material. Certain measurement period adjustments have been made since the initial allocation in the third quarter of 2013, which were not material to our consolidated financial statements.

Net broadcast revenues and operating income of the Fisher stations included in our consolidated statements of operations, were \$39.1 million and \$0.5 million for the three months ended March 31, 2014.

### *Barrington*

Effective November 22, 2013, we completed the acquisition of the broadcast assets of Barrington Broadcasting Company, LLC for \$370.0 million, less working capital of \$2.4 million, and entered into agreements to operate or provide sales and administrative services to another five stations. The purchase price includes \$7.5 million paid by third parties for the license related assets of certain stations. The acquired assets relate to the following twenty four stations located in fifteen markets along with the respective network affiliation or program service arrangements: WEYI (NBC) and WBSF (CW) in Flint/Saginaw/Bay City/Midland, MI; WNWO (NBC) in Toledo, OH; WACH (FOX) in Columbia, SC; WSTM (NBC), WTVH (CBS) and WSTQ (CW) in Syracuse, NY; KGBT (CBS) in Harlingen/Weslaco/Brownsville/McAllen, TX; KXRM (FOX) and KXTU (CW) in Colorado Springs, CO; WPDE (ABC) and WWMB (CW) in Myrtle Beach/Florence, SC; WHOI (ABC) in Peoria/Bloomington, IL; WPBN/WTOM (NBC), and WGTU/WGTQ (ABC) in Traverse City/Cadillac, MI; KVII (ABC) and KVIH (ABC) in Amarillo, TX; KRCG (CBS) in Columbia/Jefferson City, MO; WFXL (FOX) in Albany, GA; KHQA (CBS) in Quincy, IL/Hannibal, MO/Keokuk, IA; WLUC (NBC) in Marquette, MI; and KTVO (ABC) in Ottumwa, IA/Kirksville, MO.

Concurrent with the Barrington acquisition, due to FCC conflict ownership rules, we sold our station, WSYT (FOX), and assigned its LMA with WNYS-TV (MNT), in Syracuse, NY to a third party for \$15 million, and recognized a loss on sale of approximately \$3.3 million. We also sold our station, WYZZ (FOX) in Peoria, IL, which currently receives non-programming related sales, operational and administrative services from Nexstar Broadcasting pursuant to certain outsourcing agreements, to Cunningham for \$22.0 million. Although we have no continuing involvement in the operations of this station, because Cunningham is a consolidated VIE and we have a purchase plan option to acquire these assets from Cunningham, the assets of WYZZ were not derecognized and the transaction was accounted for as a transaction between parties under common control. Thus no gain or loss has been recognized in the consolidated statement of operations for sale of WYZZ.

The results of the acquired operations are included in the financial statements of the Company beginning on November 22, 2013. Under the acquisition method of accounting, the initial purchase price has been allocated to the acquired assets and assumed liabilities based on estimated fair values. The allocation reflects the consolidation of net assets of the third party licensees which own the license and related assets of WEYI and WBSF in Flint, MI, WWMB in Myrtle Beach, SC and WGTU/WGTQ in Traverse City, MI, which we have consolidated, as the licensees are considered to be VIEs and we are the primary beneficiary of the variable interests. The purchase price allocation is preliminary pending a final determination of the fair values of the assets and liabilities. The allocated fair value of acquired assets and assumed liabilities is summarized as follows (in thousands):

Prepaid expenses and other current assets	\$	681
Program contract costs		3,813

The preliminary allocation presented above is based upon management's estimate of the fair values using valuation techniques including income, cost and market approaches. In estimating the fair value of the acquired assets and assumed liabilities, the fair value estimates are based on, but not limited to, expected future revenue and cash flows, expected future growth rates, and estimated discount rates. The amount allocated to definite-lived intangible assets represents the estimated fair values of network affiliations of \$99.3 million, the decaying advertiser base of \$43.8 million, and other intangible assets of \$77.4 million. These intangible assets will be amortized over the estimated remaining useful lives of 15 years for network affiliations, 10 years for the decaying advertiser base and a weighted average life of 14 years for the other intangible assets. Acquired property and equipment will be depreciated on a straight-line basis over the respective estimated remaining useful lives. Goodwill is calculated as the excess of the consideration transferred over the fair value of the identifiable net assets acquired and represents the future economic benefits expected to arise from other intangible assets acquired that do not qualify for separate recognition, including assembled workforce and noncontractual relationships, as well as expected future synergies. We expect that goodwill will be deductible for tax purposes. The initial purchase price allocation is based upon all information available to us at the present time and is subject to change, and such changes could be material.

Net broadcast revenues and operating income of the Barrington stations included in our consolidated statements of operations, were \$39.1 million and \$10.2 million for the three months ended March 31, 2014.

Table of Contents*Pro Forma Information*

The following table sets forth unaudited pro forma results of continuing operations for the three months ended March 31, 2013, assuming that the acquisitions of the Fisher and Barrington stations discussed above, along with transactions necessary to finance the acquisitions, occurred at the beginning of the annual period presented (in thousands, except per share data):

	(Unaudited)	
	2013	
Total Revenues	\$	351,105
Net Income		10,843
Net Income attributable to Sinclair Broadcast Group		10,970
Basic and diluted earnings per share attributable to Sinclair Broadcast Group	\$	0.13

This pro forma financial information is based on historical results of operations, adjusted for the allocation of the purchase price and other acquisition accounting adjustments, and is not indicative of what our results would have been had we operated the businesses since the beginning of the annual period presented because the pro forma results do not reflect expected synergies. The pro forma adjustments reflect depreciation expense, amortization of intangibles and amortization of program contract costs related to the fair value adjustments of the assets acquired, additional interest expense related to the financing of the transactions, exclusion of nonrecurring financing and transaction related costs, alignment of accounting policies and the related tax effects of the adjustments. Depreciation and amortization expense are higher than amounts recorded in the historical financial statements of the acquirees due to the fair value adjustments recorded for long-lived tangibles and intangible assets in purchase accounting. The pro forma revenues exclude the revenues of WLAJ-TV and WLWC-TV which are classified as discontinued operations in the consolidated statements of operations.

*Other Acquisitions*

In addition to the Fisher and Barrington acquisitions, we acquired nineteen television stations during the year ended December 31, 2013 in ten markets, of which five stations in four of the ten markets were acquired from Cox Media Group in May 2013. Additionally, ten of the nineteen stations were acquired in four markets from TTBG LLC (TTBG) during September 2013 and October 2013. The initial purchase price allocated includes \$272.7 million paid for certain broadcast assets of these stations, working capital of \$9.5 million, and \$0.7 million paid by certain VIEs for the license assets of certain of these stations owned by VIEs that we consolidate. The purchase price allocations are preliminary pending a final determination of the fair values of the assets and liabilities. The allocated fair value of acquired assets and assumed liabilities is summarized as follows (in thousands):

Fair value of identifiable net assets acquired	208,031
Goodwill	74,847
Total	\$ 282,878

The initial purchase price allocations are based upon all information available to us at the present time and is subject to change. Certain measurement period adjustments have been made since the initial allocation in 2013, which were not material to our consolidated financial statements. The definite-lived intangible assets in the table above, will be amortized over the remaining useful lives of 15 years for network affiliations, 10 years for decaying advertiser base, and a weighted average of 14 years for the other intangible assets. In conjunction with these acquisitions, for the years ended December 31, 2013, we incurred transaction costs of approximately \$0.6 million, which are reported in general and administrative expenses in the accompanying consolidated statements of operations for the years ended December 31, 2013. Net broadcast revenues and operating income for the three months ended March 31, 2014 related to stations acquired in 2013 were \$30.8 million and \$4.0 million.

**3. COMMITMENTS AND CONTINGENCIES:**

*Litigation*

We are a party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various stages and no material judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

Various parties have filed petitions to deny our applications or our LMA partners' applications for the following stations' license renewals: WXLV-TV, Winston-Salem, North Carolina; WMYV-TV, Greensboro, North Carolina; WLFL-TV, Raleigh / Durham, North Carolina; WRDC-TV, Raleigh / Durham, North Carolina; WLOS-TV, Asheville, North Carolina; WMMP-TV, Charleston, South Carolina; WTAT-TV, Charleston, South Carolina; WMYA-TV, Anderson, South Carolina; WICS-TV Springfield, Illinois; WBFF-TV, Baltimore, Maryland; KGAN-TV, Cedar Rapids, Iowa; WTTE-TV, Columbus, Ohio; WRGT-TV, Dayton, Ohio; WVAH-TV, Charleston / Huntington, West Virginia; WCGV-TV, Milwaukee, Wisconsin; WTTO-TV, Birmingham, AL; KXVO-TV, Omaha, NE (acquired on October 1, 2013); WPMI-TV, Mobile, AL; WWHO-TV, Chillicothe, OH and WUTB-TV in Baltimore, MD. The FCC is in the process of considering the renewal applications and we believe the petitions have no merit.

*Changes in the Rules of Television Ownership and Joint Sale Agreements*

On March 12, 2014, the FCC issued a public notice with respect to the processing of broadcast television applications proposing sharing arrangements and contingent interests. The public notice indicated that the FCC will closely scrutinize any application that proposes that two or more stations in the same market that will enter into an agreement to share facilities, employees and/or services or to jointly acquire programming or sell advertising including through a JSA, LMA or similar agreement and enter into an option, right of first refusal, put/call arrangement or other similar contingent interest, or a loan guarantee. We cannot now predict what actions the FCC may require in connection with the processing of applications for FCC consent to pending transactions. In addition, on March 31, 2014, the FCC issued proposed rules that would consider a company an owner of a station if it has a JSA that allows for sale of more than 15% of the ad time on a particular station. Stations with current arrangements that would put them in violation of the new rules will have two years from the date on which the rules become effective to amend or terminate those arrangements, unless they are able to obtain a waiver of such rules. We cannot now predict whether or when the proposed rule will be adopted. If adopted as written, among other things, the proposed rule would limit our ability to create duopolies or other two-station operations in certain markets. During the three months ended March 31, 2014 and 2013, we earned \$11.0 million and \$6.9 million of revenue, respectively, from JSAs arrangements.

*Pending Acquisitions*

In July 2013, we entered into a definitive agreement to purchase the stock of Perpetual Corporation and the equity interest of Charleston Television, LLC, both owned and controlled by the Allbritton family (Allbritton), for an aggregate purchase price of \$985.0 million. The Allbritton stations consist of seven ABC Network affiliates and NewsChannel 8, a 24-hour cable/satellite news network covering the Washington D.C. metropolitan area. The transaction is expected to close during the third quarter of 2014, subject to approval of the FCC,

antitrust clearance, and other customary closing conditions. We expect to fund the purchase price at closing through our bank credit facility and/or debt capital markets. We expect to sell the license and certain related assets of existing stations in Birmingham, AL - WABM (MNT), Harrisburg/Lancaster/Lebanon/York, PA - WHP (CBS), Charleston, SC - WMMP (MNT) and assets related to our LMAs to provide services to Harrisburg/Lancaster/Lebanon/York, PA - WLYH (CW) and Charleston, SC - WTAT (FOX).

In September 2013, we entered into a definitive agreement to purchase the broadcast assets of eight television stations owned by New Age Media located in three markets, for an aggregate purchase price of \$90.0 million. The original contemplated transaction involved Wilkes/Barre/Scranton, PA - WSWB, Tallahassee, FL - WTLH and WTLF and Gainesville, FL - WNBW to be purchased by a third party and we would provide sales and other non-programming support services to each of these stations, pursuant to customary shared services and joint sales agreements. We expect that this transaction will be modified in order to comply with a recently issued FCC order. The transaction is expected to close during the second half of 2014, subject to approval of the FCC and other customary closing conditions. We expect to fund the purchase price through cash on hand and/or our bank credit facility.

Table of Contents**4. EARNINGS PER SHARE**

The following table reconciles income (numerator) and shares (denominator) used in our computations of diluted earnings per share for the periods presented (in thousands):

	<b>Three Months Ended March 31,</b>	
	<b>2014</b>	<b>2013</b>
<b>Income (Numerator)</b>		
Income from continuing operations	\$ 27,657	\$ 16,515

Net (income) loss attributable to noncontrolling interests included in continuing operations	(499)	127
Numerator for diluted earnings per common share from continuing operations available to common shareholders	27,158	16,713
Income from discontinued operations, net of taxes		355
Numerator for diluted earnings available to common shareholders	\$ 27,158	\$ 17,068
<b>Shares (Denominator)</b>		
Weighted-average common shares outstanding	98,824	81,191
Dilutive effect of stock-settled appreciation rights, restricted stock awards and outstanding stock options	678	223
Dilutive effect of 4.875% Notes		339
Dilutive effect of 3.0% Notes		311
Weighted-average common and common equivalent shares outstanding	99,502	82,064

Potentially dilutive securities representing zero and 1.6 million shares of common stock for the three months ended March 31, 2014 and 2013, respectively, were excluded from the computation of diluted earnings per common share for these periods because their effect would have been antidilutive. The decrease in potentially dilutive securities is primarily related to the increase in share price since March 31, 2013 as well the redemption of the 4.875% and 3.0% Notes.

**5. RELATED PERSON TRANSACTIONS**

*Transactions with our controlling shareholders.* David, Frederick, J. Duncan and Robert Smith (collectively, the controlling shareholders) are brothers and hold substantially all of the Class B Common Stock and some of our Class A Common Stock. We engaged in the following transactions with them and/or entities in which they have substantial interests.

*Leases.* Certain assets used by us and our operating subsidiaries are leased from Cunningham Communications Inc., Keyser Investment Group, Gerstell Development Limited Partnership and Beaver Dam, LLC (entities owned by the controlling shareholders). Lease payments made to these entities were \$1.5 million and \$1.1 million for the three months ended March 31, 2014 and 2013, respectively.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

*Charter Aircraft.* From time to time, we charter aircraft owned by certain controlling shareholders. We incurred \$0.3 million and less than \$0.1 million for the three months ended March 31, 2014 and 2013, respectively.

*Cunningham Broadcasting Corporation.* As of March 31, 2014, Cunningham was the owner-operator and FCC licensee of:

WNUV-TV Baltimore, Maryland; WRGT-TV Dayton, Ohio; WVAH-TV Charleston, West Virginia; WTAT-TV Charleston, South

Carolina; WMYA-TV Anderson, South Carolina; WTTE-TV Columbus, Ohio; WDBB-TV Birmingham, Alabama; WBSF-TV Flint, Michigan; and WGTU-TV/WGTQ-TV Traverse City/Cadillac, Michigan (collectively, the Cunningham Stations) and WYZZ Peoria/Bloomington, IL.

During the first quarter of 2013, the estate of Carolyn C. Smith, a parent of our controlling shareholders, distributed all of the non-voting stock owned by the estate to our controlling shareholders, and a portion was repurchased by Cunningham for \$1.7 million in the aggregate. As of March 31, 2014, our controlling shareholders own approximately 4.4% of the total capital stock of Cunningham, none of which have voting rights. The remaining amount of non-voting stock is owned by trusts established for the benefit of the children of our controlling shareholders. The estate of Mrs. Smith currently owns all of the voting stock. The sale of the voting stock by the estate to an unrelated party is pending approval of the FCC. We have options from the trusts, which grant us the right to acquire, subject to applicable FCC rules and regulations, 100% of the voting and nonvoting stock of Cunningham.

Table of Contents

We also have options from each of Cunningham's subsidiaries, which are the FCC licensees of the Cunningham stations, which grant us the right to acquire, and grant Cunningham the right to require us to acquire, subject to applicable FCC rules and regulations, 100% of the capital stock or the assets of Cunningham's individual subsidiaries.

In addition to the option agreements, certain of our stations provide programming, sales and managerial services pursuant to LMAs to seven of their stations: WNUV-TV, WRGT-TV, WVAH-TV, WTAT-TV, WMYA-TV, WTTE-TV, and WDBB-TV (collectively, the Cunningham LMA Stations). Each of these LMAs has a current term that expires on July 1, 2016 and there are three additional 5-year renewal terms remaining with final expiration on July 1, 2031. Effective November 5, 2009, we entered into amendments and/or restatements of the following agreements between Cunningham and us: (i) the LMAs, (ii) option agreements to acquire Cunningham stock and (iii) certain acquisition or merger agreements relating to the Cunningham LMA Stations.

Pursuant to the terms of the LMAs, options and other agreements, beginning on January 1, 2010 and ending on July 1, 2012, we were obligated to pay Cunningham the sum of approximately \$29.1 million in 10 quarterly installments of \$2.75 million and one quarterly payment of approximately \$1.6 million, which amounts were used to pay down Cunningham's bank credit facility and which amounts were credited toward the purchase price for each Cunningham station. An additional \$1.2 million was paid on July 1, 2012 and another installment of \$2.75 million was paid on October 1, 2012 as an additional LMA fee and was used to pay off the remaining balance of Cunningham's bank credit facility. The aggregate purchase price of the television stations, which was originally \$78.5 million pursuant to certain acquisition or merger agreements subject to 6% annual increases, was decreased by each payment made by us to Cunningham, through 2012, up to \$29.1 million in the aggregate, pursuant to the foregoing transactions with Cunningham as such payments were made. Beginning on January 1, 2013, we are obligated to pay Cunningham an annual LMA fee for the television stations equal to the greater of (i) 3% of each station's annual net broadcast revenue and (ii) \$5.0 million, of which a portion of this fee will be credited toward the purchase price to the extent of the annual 6% increase. The remaining purchase price as of March 31, 2014 was approximately \$57.1 million. Additionally, we reimburse Cunningham for 100% of its operating costs.

We made payments to Cunningham under these LMAs and other agreements with the Cunningham LMA Stations of \$4.5 million, and \$1.9 million for the three months ended March 31, 2014 and 2013, respectively. For the three months ended March 31, 2014 and 2013, Cunningham LMA Stations provided us with approximately \$27.2 million, and \$24.6 million, respectively, of total revenue. The financial statements for Cunningham are included in our consolidated financial statements for all periods presented.

In November 2013, concurrent with our acquisition of the Barrington stations, Cunningham acquired the license related assets of WBSF-TV and WGTU-TV/WGTQ-TV, which was funded by bank debt, for which we have provided a guarantee. We provide certain non-programming related sales, operational and administrative services to these stations pursuant to certain outsourcing agreements. The agreements for WBSF-TV and WGTU-TV/WGTQ-TV expire in November 2021 and August 2015, respectively, and each have renewal provisions for successive eight year periods. Under these arrangements, we earned \$0.8 million from the services we perform for these stations for the three months ended March 31, 2014. As we consolidate the licensees as VIEs, the amounts we earn under the arrangements are eliminated in consolidation and the gross revenues of the stations are reported within our consolidated statement of operations. For the three months ended March 31, 2014, our consolidated revenues include \$1.5 million related to these stations.

Also, concurrent with the Barrington acquisition, we also sold our station, WYZZ (FOX) in Peoria, IL, which currently receives non-programming related sales, operational and administrative services from Nexstar Broadcasting pursuant to certain outsourcing agreements, to Cunningham for \$22 million. Although we have no continuing involvement in the operations of this station, because Cunningham is a consolidated VIE and we have a purchase plan option to acquire these assets from Cunningham, the assets of WYZZ were not derecognized and the transaction was accounted for a transaction between parties under common control, therefore no gain or loss was recognized in the consolidated statement of operations upon sale to Cunningham.

During October 2013, we purchased the outstanding membership interests of KDBC-TV from Cunningham for \$21.2 million, plus a working capital adjustment of \$0.2 million. See *Other Acquisitions* within *Note 2. Acquisitions*, for further information.

*Atlantic Automotive.* We sold advertising time to and purchased vehicles and related vehicle services from Atlantic Automotive Corporation (Atlantic Automotive), a holding company that owns automobile dealerships and an automobile leasing company. David D. Smith, our President and Chief Executive Officer, has a controlling interest in, and is a member of the Board of Directors of Atlantic Automotive. We received payments for advertising time totaling less than \$0.1 million for both the three months ended March 31, 2014 and 2013. We paid \$0.4 million for vehicles and related vehicle services from Atlantic Automotive for the three months ended March 31, 2013. No payments were made for the three months ended March 31, 2014. Additionally, in August 2011, Atlantic Automotive entered into an office lease agreement with Towson City Center, LLC (Towson City Center), a subsidiary of one of our real estate ventures, and began occupying the space in June 2012. Atlantic Automotive paid \$0.3 million and \$0.2 million in rent during the three months ended March 31, 2014 and 2013, respectively.

*Leased property by real estate ventures.* Certain of our real estate ventures have entered into leases with entities owned by David Smith to lease restaurant space. There are leases for three restaurants in a building owned by one of our consolidated real estate ventures in Baltimore, MD. Total rent received under these leases was \$0.1 million and less than \$0.1 million for the three months ended

Table of Contents

March 31, 2014 and 2013, respectively. There is also one lease for a restaurant in a building owned by one of our real estate ventures, accounted for under the equity method, in Towson, MD. We received under this lease \$0.1 million for the three months ending March 31, 2014. No payments related to this property were received for the three months ended March 31, 2013.

*Thomas & Libowitz P.A.* Steven A. Thomas, a partner and founder of Thomas & Libowitz, P.A. (Thomas & Libowitz), a law firm providing legal services to us on an ongoing basis, is the son of a former member of the Board of Directors, Basil A. Thomas. Mr. Thomas resigned from Board of Directors effective September 2013. We paid fees of \$0.4 million to Thomas & Libowitz for the three months ended March 31, 2013.

**6. SEGMENT DATA**

We measure segment performance based on operating income (loss). Excluding discontinued operations, our broadcast segment includes stations in 71 markets located throughout the continental United States. The operating results of WLAJ-TV and WLWC-TV, which were sold effective March 1, 2013 and April 1, 2013, respectively, are classified as discontinued operations and are not included in our consolidated results of continuing operations for the three months ended March 31, 2013. Our other operating divisions primarily consist of sign design and fabrication; regional security alarm operating and bulk acquisitions; manufacturing and service of broadcast antennas and transmitters; and real estate ventures. All of our other operating divisions are located within the United States. Corporate costs primarily include our costs to operate as a public company and to operate our corporate headquarters location. Other Operating Divisions and Corporate are not reportable segments but are included for reconciliation purposes. We had approximately \$172.0 million and \$171.5 million of intercompany loans between the broadcast segment, other operating divisions and corporate as of March 31, 2014 and 2013, respectively. We had \$4.9 million in intercompany interest expense related to intercompany loans between the broadcast segment, other operating divisions and corporate for both the three months ending March 31, 2014 and 2013, respectively. All other intercompany transactions are immaterial.

Table of Contents**7. FAIR VALUE MEASUREMENTS:**

Accounting guidance provides for valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow), and the cost approach (cost to replace the service capacity of an asset or replacement cost). A fair value hierarchy using three broad levels prioritizes the inputs to valuation techniques used to measure fair value. The following is a brief description of those three levels:

- *Level 1:* Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- *Level 2:* Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- *Level 3:* Unobservable inputs that reflect the reporting entity's own assumptions.

The following Management's Discussion and Analysis provides qualitative and quantitative information about our financial performance and condition and should be read in conjunction with our consolidated financial statements and the accompanying notes to those statements. This discussion consists of the following sections:

Executive Overview financial events since December 31, 2013.

Results of Operations an analysis of our revenues and expenses for the three months ended March 31, 2014 and 2013, including comparisons between quarters and expectations for the three months ended June 30, 2014.

Liquidity and Capital Resources a discussion of our primary sources of liquidity, an analysis of our cash flows from or used in operating activities, investing activities and financing activities and an update of our debt refinancings during the three months ended March 31, 2014.

**EXECUTIVE OVERVIEW**

*First Quarter 2014 Events*

- In February 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable on March 14, 2014 to the holders of record at the close of business on February 28, 2014.

## Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

- During February 2014, we announced our intent to repurchase, under an existing authorization, from time to time, up to \$100 million of our Class A common shares on the open market. During March 2014, the Board of Directors authorized an additional \$150.0 million share repurchase authorization of Class A common shares, to be accessed once the existing authorization is exhausted. Since February 2014, we have purchased approximately 2.9 million shares for \$82.4 million under the existing authorizations.
- In March 2014, we submitted to the FCC a proposed restructuring for the Allbritton transaction in order to meet certain objections of the FCC. Under the proposed restructuring, we will sell certain stations we currently own to parties other than the parties who were originally contemplated to buy these stations, and following the sale will not provide any services to such stations. The stations to be sold are WHP, the CBS affiliate in Harrisburg, Pennsylvania, WMMP, the MyNetwork affiliate in Charleston, South Carolina and WABM, the MyNetwork affiliate in Birmingham, Alabama; Sinclair would also discontinue providing services to WTAT, the FOX affiliate in Charleston and would transfer to the buyer of WHP, the rights under an existing LMA to provide services to WLYH, the CW affiliate in Harrisburg. The assets and liabilities related to these stations are classified as held for sale in the accompanying consolidated balance sheet as of March 31, 2014.
- In March 2014, we entered into a definitive agreement to purchase the assets of WGXA the FOX affiliate, which also broadcasts ABC as a multicast, in Macon, Georgia for \$33.0 million. The transaction is expected to close in the third quarter of 2014, subject to the approval of the FCC, and other customary closing conditions.

### *Other Events*

- Effective April 1, 2014, we promoted David B. Amy to Executive Vice President and Chief Operating Officer from Executive Vice President and Chief Financial Officer and named Christopher Ripley as Chief Financial Officer.
- In May 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share, payable on June 13, 2014, to the holders of record at the close of business on May 30, 2014.

Table of Contents**RESULTS OF OPERATIONS**

In general, this discussion is related to the results of our continuing operations, except for discussions regarding our cash flows, which also include the results of our discontinued operations. The results of the acquired stations from Fisher as of August 8, 2013, Barrington as of November 22, 2013, and nineteen other television stations during the year ended 2013 are included in our results of our continuing operations for the three months ended March 31, 2014. We determined that the operating results of WLAJ-TV, sold March 1, 2013, and WLWC-TV, sold April 1, 2013, are classified as discontinued operations and therefore the results are not included in our consolidated results of continuing operations for the three months ended March 31, 2013. Unless otherwise indicated, references in this discussion and analysis to the first quarter of 2014 and 2013 refer to the three months ended March 31, 2014 and 2013, respectively. Additionally, any references to the second, third or fourth quarter are to the three months ended June 30, September 30, and December 31, respectively, for the year being discussed. We have one reportable segment, broadcast that is disclosed separately from our other operating divisions and corporate activities.

**SEASONALITY/CYCLICALITY**

Our operating results are usually subject to seasonal fluctuations. Usually, the second and fourth quarter operating results are higher than first and third quarters because advertising expenditures are increased in anticipation of certain seasonal and holiday spending by consumers.

Our operating results are usually subject to fluctuations from political advertising. In even numbered years, political spending is usually significantly higher than in odd numbered years due to advertising expenditures preceding local and national elections. Additionally, every four years, political spending is usually elevated further due to advertising expenditures preceding the presidential election.

**BROADCAST SEGMENT****Broadcast Revenue**

The following table presents our revenues from continuing operations, net of agency commissions, for the periods presented (in millions):

	For the Three Months Ended			Percent Change
	March 31,			
	2014	2013		
Local revenues:				
Non-political	\$ 300.8	\$ 201.5		49.3%

Political	5.4	0.8	(a)
Total national	72.4	51.3	41.1%
Total net broadcast revenues	\$ 373.9	\$ 252.9	47.8%

(a) Political revenue is not comparable from year to year due to cyclicity of elections. See *Political Revenues* below for more information.

*Net broadcast revenues.* Net broadcast revenues increased \$121.0 million when comparing the first quarter 2014 to the same period in 2013, of which \$109.0 million was related to stations acquired after the first quarter of 2013. The remaining increase is primarily the result of higher retransmission revenues from multichannel video programming distributors (MVPD) and increases in advertising revenues in the political, services, medical and furniture sectors. These increases were partially offset by a decrease in advertising revenues in the direct response, retail and fast food sectors. Excluding the stations acquired after the first quarter of 2013, automotive, which typically is our largest category, represented 23.7% of net time sales for the three months ended March 31, 2014.

Table of Contents

From a network affiliation or program service arrangement perspective, the following table sets forth our affiliate percentages of net time sales for the periods presented:

(a) During 2013, we acquired or entered into outsourcing agreements to provide certain non-programming related sales, operational and administrative services to 63 stations with the following network affiliation or program service arrangements: CBS (ten stations in the third quarter and four in the fourth quarter), FOX (two stations in the second quarter, three in the third quarter and eight in the fourth quarter), NBC (two stations in the second quarter, three in the third quarter and eight in the fourth quarter), ABC (two stations in the third quarter and six in the fourth quarter), CW (one station in the third quarter and seven the fourth quarter), Univision (five stations in the third quarter), and MyNetworkTV (two stations in the second quarter).

(b) We broadcast programming from network affiliations or program service arrangements with FOX, ABC, CBS, NBC, The CW, MyNetworkTV, This TV, ME TV, Retro TV, Weather Radar, Weather Nation, Live Well Network, Antenna TV, Bounce Network, Zuus Country, Azteca, Tele-Romantica, Inmigrante TV, MundoFox, Telemundo and Estrella TV on additional channels through our stations' second and third digital signals.

*Political Revenues.* Political revenues increased by \$5.2 million to \$6.1 million for the first quarter 2014 when compared to the same period in 2013. Political revenues are typically higher in election years such as 2014.

*Local Revenues.* Excluding political revenues, our local broadcast revenues, which include local times sales, retransmission revenues and other local revenues, were up \$99.3 million for the first quarter 2014 when compared to the same period in 2013, of which \$88.0 million was related to the stations acquired after the first quarter of 2013. The remaining increase, for the three month period, is primarily due to an increase in advertising revenues from the services, automotive and medical sectors as well as an increase in retransmission revenues from MVPDs. These increases were partially offset by a decrease in advertising revenues from the fast food, retail and other sectors.

*National Revenues.* Excluding political revenues, our national broadcast revenues, which include national time sales and other national revenues, were up \$16.5 million for the first quarter 2014 when compared to the same period in 2013, of which \$19.9 million was related to the stations acquired after the first quarter of 2013. The residual decrease was due to a decline in advertising revenues in the restaurant/other, religion and other sectors.

*Broadcast Expenses*

The following table presents our significant expense categories in our broadcast segment for the periods presented (in millions):

	<b>For the Three Months Ended March 31,</b>		<b>Percent Change (Increase/ (Decrease))</b>
	<b>2014</b>	<b>2013</b>	
Station production expenses	\$ 127.0	\$ 80.4	58.0%
Station selling, general and administrative expenses	\$ 81.9	\$ 51.9	57.8%
Amortization of program contract costs and net realizable value adjustments	\$ 23.9	\$ 18.9	26.5%
Corporate general and administrative expenses	\$ 14.7	\$ 10.1	45.5%
Depreciation and amortization expenses	\$ 46.7	\$ 28.7	62.7%

Table of Contents

*Station production expenses.* Station production expenses increased \$46.6 million during the first quarter of 2014 as compared to the same period in 2013, of which \$42.1 million related to the stations acquired after the first quarter of 2013. The remaining increase for the three month period is primarily due to an increase in fees pursuant to network affiliation agreements.

*Station selling, general and administrative expense.* Station selling, general and administrative expenses increased \$30.0 million during the first quarter 2014 compared to the same period in 2013, of which \$29.4 million related to the stations acquired after the first quarter of 2013. The remaining increase for the three month period is primarily due to an increase in information technology infrastructure related costs.

*Amortization of program contract costs and net realizable value adjustments.* The amortization of program contract costs increased \$5.0 million during the first quarter of 2014 compared to the same period in 2013, due to stations acquired after the first quarter of 2013.

*Corporate general and administrative expenses.* See explanation under *Corporate and Unallocated Expenses*.

*Depreciation and Amortization expenses.* Depreciation of property and equipment and amortization of definite-lived intangibles and other assets increased \$18.0 million during the first quarter of 2014 compared to the same period in 2013, of which \$18.1 million related to stations acquired after the first quarter of 2013.

**OTHER OPERATING DIVISIONS**

Triangle Sign & Service, LLC (Triangle), a sign designer / fabricator, Alarm Funding Associates, LLC (Alarm Funding), a regional security alarm operating and bulk acquisition company, Dielectric, LLC, a manufacturer of broadcast equipment, real estate ventures and other nominal businesses make up our other operating divisions. Revenues for our other operating divisions increased \$3.3 million to \$14.7 million during the first quarter 2014 compared to \$11.4 million during the same period in 2013. Expenses of our other operating divisions including operating expenses, depreciation and amortization and applicable other income (expense) items such as interest expense, increased \$2.4 million to \$12.3 million during the first quarter 2014 compared to \$9.9 million during the same period in 2013. The increases in both revenue and expenses relate primarily to the Alarm Funding, Triangle, and acquisition of Dielectric, which was acquired after the same period in 2013.

*Income from Equity and Cost Method Investments.* Results of our equity and cost method investments in private investment funds and real estate ventures are included in income from equity and cost method investments in our consolidated statements of operations, within other operating divisions. During the three months ended March 31, 2014, we recorded a loss of \$0.2 million related to our real estate ventures and income of \$0.3 million related to certain private investment funds. During the three months ended March 31, 2013, we recorded a loss of \$1.5 million related to our real estate ventures and income of \$0.4 million related to certain private investment funds.

**CORPORATE AND UNALLOCATED EXPENSES**

Edgar Filing: SINCLAIR BROADCAST GROUP INC - Form 10-Q

	For the Three Months Ended			Percent Change (Increase/ (Decrease))
	2014	March 31, 2013		
Corporate general and administrative expenses	\$ 0.9	\$ 0.8		12.5%
Interest expense	\$ 38.6	\$ 37.0		4.3%
Income tax provision	\$ (14.8)	\$ (8.8)		68.2%

*Corporate general and administrative expenses.* We allocate most of our corporate general and administrative expenses to the broadcast segment. The explanation that follows combines the corporate general and administrative expenses found in the *Broadcast Segment* section with the corporate general and administrative expenses found in this section, *Corporate and Unallocated Expenses*. These results exclude general and administrative costs from our other operating divisions which are included in our discussion of expenses in the *Other Operating Divisions* section.

Corporate general and administrative expenses combined increased by \$4.6 million and for the three months ended March 31, 2014, when compared to the same period in 2013. The increase is primarily due to an increase in overhead costs related to our recent acquisitions.

We expect corporate general and administrative expenses to increase slightly in the second quarter of 2014 compared to first quarter of 2014.

*Interest expense.* Interest expense has increased primarily due to the issuance of \$600.0 million of 5.375% Notes in the second quarter of 2013, the issuance of \$350 million of 6.375% Notes in the fourth quarter of 2013 and incremental borrowings on our

Table of Contents

Term Loan A and Term Loan B under our Bank Credit Agreement for our acquisitions in 2013. Interest expense was partially offset by a decrease due to the redemption of our 9.25% Notes, 4.875% Notes and 3.0% Notes in the fourth quarter of 2013. See *Liquidity and Capital Resources* for more information.

*Income tax (provision) benefit.* The effective tax rate for the three months ended March 31, 2014 including the effects of the noncontrolling interest was a provision of 35.3% as compared to a provision of 34.7% during the same period in 2013. The increase in the effective tax rate for the three months ended March 31, 2014 as compared to the same period in 2013 is primarily due to a 2013 reduction of liability for unrecognized tax benefits of \$0.7 million as a result of the application of limits under available state administrative practice exceptions, primary offset by a larger benefit from the domestic production activities deduction (DPAD) in 2014.

**LIQUIDITY AND CAPITAL RESOURCES**

As of March 31, 2014, we had \$317.8 million in cash and cash equivalent balances and net working capital of approximately \$380.9 million. Cash generated by our operations and borrowing capacity under the Bank Credit Agreement are used as our primary sources of liquidity. As of March 31, 2014, we had \$154.5 million of borrowing capacity available on our Revolving Credit Facility.

During February and March 2014, we repurchased 2.9 million shares of Class A Common Stock for \$82.4 million. The repurchase was completed using cash on hand. As of March 31, 2014 we had \$185.1 million remaining under our existing \$300.0 million repurchase authorization.

We anticipate that existing cash and cash equivalents, cash flow from our operations and borrowing capacity under the Revolving Credit Facility and general committed incremental term loan capacity under our amended and restated bank credit agreement will be sufficient to satisfy our debt service obligations, capital expenditure requirements, and working capital needs for the next twelve months. We anticipate raising additional funds for our pending acquisitions. For our long-term liquidity needs, in addition to the sources described above, we may rely upon the issuance of long-term debt, the issuance of equity or other instruments convertible into or exchangeable for equity, or the sale of non-core assets. However, there can be no assurance that additional financing or capital or buyers of our non-core assets will be available, or that the terms of any transactions will be acceptable or advantageous to us.

*Operating Activities*

Net cash flows from operating activities increased during the first quarter 2014 compared to the same period in 2013. This is primarily due to receipt of more cash from customers, which is primarily due to our acquisitions since the same period in 2013, timing of interest payments and payments to vendors, partially offset by higher overhead expenses primarily due to our acquisitions since the same period in 2013 and higher program payments.

*Investing Activities*

Net cash flows used in investing activities decreased during the first quarter of 2014 compared to the same period in 2013. This decrease is primarily due to less cash used for acquisition related escrow deposits on acquisitions and an increase in the proceeds from the sale of life insurance policies, which were assumed in the Fisher acquisition, partially offset by increased capital expenditures and decrease in the sale of television stations.

In the second quarter and/or third quarter of 2014, we anticipate incurring more capital expenditures than incurred in the first quarter of 2014, due to expenditures related to Barrington stations and the pending acquisitions.

*Financing Activities*

Net cash flows used in financing activities increased in the first quarter 2014 compared to the same period in 2013. This increase was primarily due to the repurchase of \$82.4 million of Class A common stock during the first quarter 2014, partially offset by a decrease in repayments of notes payable, net of proceeds.

In May 2014, our Board of Directors declared a quarterly dividend of \$0.15 per share. Future dividends on our common shares, if any, will be at the discretion of our Board of Directors and will depend on several factors including our results of operations, cash requirements and surplus, financial condition, covenant restrictions and other factors that the Board of Directors may deem relevant.

**CONTRACTUAL CASH OBLIGATIONS**

As of March 31, 2014, there were no material changes to our contractual cash obligations.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Other than the foregoing, there have been no material changes from the quantitative and qualitative discussion about market risk previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

#### ITEM 4. CONTROLS AND PROCEDURES

##### *Evaluation of Disclosure Controls and Procedures and Internal Control over Financial Reporting*

Our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the design and effectiveness of our disclosure controls and procedures and our internal control over financial reporting as of March 31, 2014.

The term disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, means controls and other procedures of a company that are designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to provide reasonable assurance that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate, to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The term internal control over financial reporting, as defined in Rules 13a-15d-15(f) under the Exchange Act, means a process designed by, or under the supervision of our Chief Executive and Chief Financial Officers and effected by our Board of Directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP) and includes those policies and procedures that:

Table of Contents

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and disposition of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and expenditures are being made in accordance with authorizations of management or our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material adverse effect on our financial statements.

*Assessment of Effectiveness of Disclosure Controls and Procedures*

Based on the evaluation of our disclosure controls and procedures as of March 31, 2014, our Chief Executive Officer and Chief Financial Officer concluded that, as of such date, our disclosure controls and procedures were effective at the reasonable assurance level.

*Changes in Internal Control over Financial Reporting*

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter ended March 31, 2014, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

*Limitations on the Effectiveness of Controls*

Management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management's override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

We are party to lawsuits and claims from time to time in the ordinary course of business. Actions currently pending are in various preliminary stages and no judgments or decisions have been rendered by hearing boards or courts in connection with such actions. After reviewing developments to date with legal counsel, our management is of the opinion that the outcome of our pending and threatened matters will not have a material adverse effect on our consolidated balance sheets, consolidated statements of operations or consolidated statements of cash flows.

**ITEM 1A. RISK FACTORS**

There have been no material changes to the Risk Factors contained in our Annual Report on Form 10-K for the year ended December 31, 2013.
