Press release

Mobile TeleSystems Announces Financial Results for the First Quarter Ended March 31, 2014

May 27, 2014

Moscow, Russian Federation Mobile TeleSystems OJSC (MTS - NYSE: MBT), the leading telecommunications provider in Russia and the CIS, today announces its unaudited US GAAP financial results for the three months ended March 31, 2014.

Key Financial Highlights of Q1 2014

- Consolidated Group revenues increased 5% y-o-y to RUB 98 billion
- Mobile service revenue in Russia rose 7% y-o-y to RUB 68 billion
- Data traffic revenue in Russia grew 42% y-o-y to RUB 14 billion
- Consolidated Group OIBDA(1) up 5% y-o-y to RUB 41 billion
- Group OIBDA margin improved 0.1 pp to 42.5%
- Consolidated net income(2) of RUB 13 billion

- Free cash-flow from continuing operations⁽³⁾ grew 40% to RUB 34 billion for the first three months of 2014

Key Corporate and Industry Highlights

- Announced new 3D Strategy: Data, Differentiation, Dividends
- Launched LTE network in Tatarstan, Primorsky Krai, Sverdlovsk Region, St. Petersburg , Leningrad Region, Adygeya, Komi, Tver region, Stavropol Krai, Novgorod Region
- Concluded a credit facility with Citibank Europe PLC and Swedish Export Credit Corporation for up to \$300 mln (RUB 10.9 bln at the date of conclusion) supported by Sweden's Exportkreditnämnden (EKN)
- Appointed Mr. Valery Shorzhin as Vice President for Procurement and Administration, Member of the Executive Board
- Annual dividend recommendation by the MTS Board of RUB 18.6 per ordinary MTS share (RUB 37.2 per ADR), or a total of RUB 38.435 bln based on the full-year 2013 financial results, upon acceptance by the AGM and completion of this payment, MTS will have paid out up to RUB 49.2 bln rubles based on fiscal year 2013 financial results

(1) See Attachment A for definitions and reconciliation of OIBDA and OIBDA margin to their most directly comparable US GAAP financial measures.

(2) Attributable to the Group.

(3) See Attachment B for reconciliation of free cash-flow to net cash provided by operating activity.

Edgar Filing: MOBILE TELESYSTEMS OJSC - Form 6-K

- Acquired a 10.82% stake in Ozon Holdings (Ozon), the leading Russian e-commerce company, through an additional share issuance for \$75 mln (RUB 2.7 billion at the date of transaction)
- Sold the remaining 49% stake in Business-Nedvizhimost CJSC to Sistema JSFC for a price of RUB 3.1 bln
- Redeemed the remaining amount of RUB 15 bln series 04 bond
- Appointed Mr. Andrei Ushatskiy as Vice President, Chief Technology and Information Officer, Member of the Executive Board

Commentary

Commented Andrei Dubovskoy, President and Chief Executive Officer of MTS, For the period we witnessed a continuation of the drivers of growth and profitability that have been seen over the previous 1 to 2 years. Revenue for the Group grew 5% year-over-year to 97.6 billion rubles. In each of our markets of operations we continue to see many positive trends, including rising usage of voice and strong data adoption in virtually all customer segments; benefits in data adoption from our focus in retail in Russia on sales of low-cost devices; both internal data and independent sources confirm MTS's leadership in network speed, customer service, brand and other important factors that contribute to our leading customer experience; and high-levels of profitability in each our markets.

Vasyl Latsanych, Vice President, Marketing and Chief Marketing Officer, continued, In Q1, our Russian business grew 5% year-over-year to 87.3 billion rubles. Driving this growth was our mobile business, which grew over 7% year-over-year, which was largely driven by the adoption of data plans as smartphone penetration among our active subscribers reached almost 35%, and our data attach rate increased to over 42%. This contributed to an increase in data traffic revenue of 42% year-over-year. Sales of handsets increased 8% year-over-year reflecting rising demand for higher-quality, low-cost smartphones, and we continued to see strong additions of high-value subscribers for the period. Our sales of SIM-cards continue to be both consistent and sustainable; churn in Russia was stable at 9.1% for the quarter, which was still lower than by 40 basis points compared to Q1 2013.

Mr. Latsanych continued, Our fixed business recorded a slight decline under 2% year-on-year. Steady growth in our Moscow-based GPON additions and the migration of older, ADSL customers was offset by the falling numbers of traditional, fixed-line telephony services. At the end of the period, we realized 900,000 telephony subscribers and over 300,000 Internet/pay-tv customers through our GPON network in Moscow. In the regions, we also saw modest growth due to the on-going modernization of our networks and closer integration of acquired businesses.

In Ukraine, we continue to see volatility in the market. Revenues grew year-over-year by 1.4% to 2.4 million hryvnas. In Armenia, revenue fell by over 3% year-over-year to nearly 17.1 billion drams. Competitive pressures and the slowing macroeconomic environment may impact our performance, but we remain the dominant operator in this market. In Turkmenistan, we delivered a year-on-year increase of 36% in revenues up to nearly 66 million manats. Operating indicators are characteristically volatile for an early-stage business, but more importantly we are steadily growing our subscriber base. Further investments in coverage, capacity and 3G/UMTS will allow us to realize further growth in this market.

Concluded Mr. Dubovskov, Naturally we must acknowledge the macro-economic issues that we face. Since last year, estimates of GDP performance in our core markets have moved downward, and we witnessed currency volatility in Russia and Ukraine. This may impact our performance, but for now, we continue to see steady, profitable growth throughout our markets of operation. But this is not necessarily new for us. As we have seen in the past, our sensible strategy, organizational strengths and focus on efficiency will provide us with the flexibility to manage our macroeconomic risks and continue to create value for our shareholders.

Additional Information

MTS continues to see sustained macroeconomic volatility in its markets of operations that may impact the financial and operational performance throughout the Group

This press release provides a summary of some of the key financial and operating indicators for the period ended March 31, 2014. For full disclosure materials, please visit <http://www.mtsghm.com/resources/reports/>.

**Attachments to the First Quarter 2014
Earnings Press Release**

Attachment A

Non-GAAP financial measures. This press release includes financial information prepared in accordance with accounting principles generally accepted in the United States of America, or US GAAP, as well as other financial measures referred to as non-GAAP. The non-GAAP financial measures should be considered in addition to, but not as a substitute for, the information prepared in accordance with US GAAP. Due to the rounding and translation practices, Russian ruble and functional currency margins, as well as other non-GAAP financial measures, may differ.

Operating Income before Depreciation and Amortization (OIBDA) and OIBDA margin. OIBDA represents operating income before depreciation and amortization. OIBDA margin is defined as OIBDA as a percentage of our net revenues. OIBDA may not be similar to OIBDA measures of other companies, is not a measurement under accounting principles generally accepted in the United States and should be considered in addition to, but not as a substitute for, the information contained in our consolidated statement of operations and comprehensive income. We believe that OIBDA provides useful information to investors because it is an indicator of the strength and performance of our ongoing business operations, including our ability to fund discretionary spending such as capital expenditures, acquisitions of mobile operators and other investments and our ability to incur and service debt. While depreciation and amortization are considered operating costs under generally accepted accounting principles, these expenses primarily represent the non-cash current period allocation of costs associated with long-lived assets acquired or constructed in prior periods. Our OIBDA calculation is commonly used as one of the bases for investors, analysts and credit rating agencies to evaluate and compare the periodic and future operating performance and value of companies within the wireless telecommunications industry. OIBDA can be reconciled to our consolidated statements of operations as follows:

Group (RUB mln)	Q1 13	Q2 13	Q3 13	Q4 13	Q1 14

Definitions

Subscriber. We define a subscriber as an individual or organization whose account shows chargeable activity within sixty one days in the case of post-paid tariffs, or one hundred and eighty three days in the case of our pre-paid tariffs, or whose account does not have a negative balance for more than this period.

Average monthly service revenue per subscriber (ARPU). We calculate our ARPU by dividing our service revenues for a given period, including interconnect, guest roaming fees and connection fees, by the average number of our subscribers during that period and dividing by the number of months in that period.

Average monthly minutes of usage per subscriber (MOU). MOU is calculated by dividing the total number of minutes of usage during a given period by the average number of our subscribers during the period and dividing by the number of months in that period.

Churn. We define our churn as the total number of subscribers who cease to be a subscriber as defined above during the period (whether involuntarily due to non-payment or voluntarily, at such subscriber's request), expressed as a percentage of the average number of our subscribers during that period.

Subscriber acquisition cost (SAC). We define SAC as total sales and marketing expenses and handset subsidies for a given period. Sales and marketing expenses include advertising expenses and commissions to dealers. SAC per gross additional subscriber is calculated by dividing SAC during a given period by the total number of gross subscribers added by us during the period.
