**FORWARD-LOOKING STATEMENTS**

Pinnacle Financial Partners, Inc. ("Pinnacle Financial") may from time to time make written or oral statements, including statements contained in this report which may constitute forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). The words "expect", "anticipate", "intend", "consider", "plan", "believe", "seek", "should", "estimate", and similar expressions are intended to identify such forward-looking statements, but other statements may constitute forward-looking statements. These statements should be considered subject to various risks and uncertainties. Such forward-looking statements are made based upon management's belief as well as assumptions made by, and information currently available to, management pursuant to "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Pinnacle Financial's actual results may differ materially from the results anticipated in forward-looking statements due to a variety of factors. Such factors are described below and in Pinnacle Financial's Form 10-K and include, without limitation, (i) unanticipated deterioration in the financial condition of borrowers resulting in significant increases in loan losses and provisions for those losses, (ii) increased competition with other financial institutions, (iii) lack of sustained growth in the economy in the Nashville, Tennessee area, (iv) rapid fluctuations or unanticipated changes in interest rates, (v) the inability of our

bank subsidiary, Pinnacle National Bank, to satisfy regulatory requirements for its expansion plans, (vi) the ability to successfully integrate Pinnacle Financial's operations with the former Cavalry Bancorp, Inc., (vii) the ability of Pinnacle Financial to grow its loan portfolio at historic rates and (viii) changes in the legislative and regulatory environment, including compliance with the various provisions of the Sarbanes-Oxley Act of 2002. Many of such factors are beyond Pinnacle Financial's ability to control or predict, and readers are cautioned not to put undue reliance on such forward-looking statements. Pinnacle Financial does not intend to update or reissue any forward-looking statements contained in this report as a result of new information or other circumstances that may become known to Pinnacle Financial.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**Note 1. Summary of Significant Accounting Policies**

*Nature of Business* — Pinnacle Financial Partners, Inc. (Pinnacle Financial) is a bank holding company whose primary business is conducted by its wholly-owned subsidiary, Pinnacle National Bank (Pinnacle National). Pinnacle National is a commercial bank located in Nashville, Tennessee. Pinnacle National provides a full range of banking services in its primary market areas of Davidson, Rutherford, Williamson, Sumner and Bedford Counties. Pinnacle Financial and Pinnacle National have formed several subsidiaries for various purposes as follows:

- PFP Title Company is a wholly-owned subsidiary of Pinnacle National. PFP Title Company is licensed to sell title insurance policies to Pinnacle National customers and others.
- PNFP Holdings, Inc. is a wholly-owned subsidiary of PFP Title Company and is the parent of PNFP Properties, Inc., which was established as a Real Estate Investment Trust pursuant to Internal Revenue Service regulations.
- Pinnacle Community Development, Inc. is a wholly-owned subsidiary of Pinnacle National and is certified as a Community Development Entity by the Community Development Financial Institutions Fund of the United States Department of the Treasury.
- PNFP Statutory Trust I and PNFP Statutory Trust II, wholly-owned subsidiaries of Pinnacle Financial, were created for the exclusive purpose of issuing capital trust preferred securities.
- Pinnacle Advisory Services, Inc. is a wholly-owned subsidiary of Pinnacle Financial and was established as a registered investment advisor pursuant to regulations promulgated by the Board of Governors of the Federal Reserve System.
- Miller and Loughry Insurance and Services, Inc. is a wholly-owned subsidiary of Pinnacle National. Miller and Loughry is a general insurance agency located in Murfreesboro, Tennessee and is licensed to sell various commercial and consumer insurance products.
- Pinnacle Credit Enhancement Holdings, Inc. is a wholly-owned subsidiary of Pinnacle Financial and was established to own a 24.5% membership interest in Collateral Plus, LLC. Collateral Plus, LLC serves as an intermediary between investors and borrowers in certain financial transactions whereby the borrowers require enhanced collateral in the form of letters of credit issued by the investors for the benefit of banks and other financial institutions.

*Basis of Presentation* — These consolidated financial statements include the accounts of Pinnacle Financial and its wholly-owned subsidiaries. PNFP Statutory Trust I, PNFP Statutory Trust II and Collateral Plus, LLC, are included in these consolidated financial statements pursuant to the equity method of accounting. Significant intercompany transactions and accounts are eliminated in consolidation.

*Use of Estimates* — The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses.

*Impairment*— Long-lived assets, including purchased intangible assets subject to amortization, such as Pinnacle Financial's core deposit intangible asset, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to

be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated.

Goodwill and intangible assets that have indefinite useful lives are tested annually for impairment, and are tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. Pinnacle Financial's annual assessment date will be September 30. Accordingly, should we determine in a future period that the goodwill recorded in connection with our acquisition of Cavalry has been impaired, then a charge to our earnings will be recorded in the period such determination is made.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

*Cash and Cash Flows* — Cash on hand, cash items in process of collection, amounts due from banks, Federal funds sold and securities purchased under agreements to resell, with original maturities within ninety days, are included in cash and cash equivalents. The following supplemental cash flow information addresses certain cash payments and noncash transactions for the six months ended June 30, 2006 and 2005 as follows:

	<i>For the six months ended June 30,</i>	
	<i>2006</i>	<i>2005</i>
<b><i>Cash Payments:</i></b>		
Interest	\$ 12,618,997	\$ 5,863,115
Income taxes	3,600,000	1,770,000
<b><i>Noncash Transactions:</i></b>		
Loans charged-off to the allowance for loan losses	500,158	95,148
Loans foreclosed upon with repossessions transferred to other assets	-	34,750
Common stock and options issued to acquire Cavalry Bancorp, Inc.	171,087,572	-

*Income Per Common Share* — Basic earnings per share (“EPS”) is computed by dividing net income by the weighted average common shares outstanding for the period. Diluted EPS reflects the dilution that could occur if securities or other contracts to issue common stock were exercised or converted. The difference between basic and diluted weighted average shares outstanding was attributable to common stock options and warrants. The dilutive effect of outstanding options and warrants is reflected in diluted earnings per share by application of the treasury stock method, which in 2006 includes consideration of stock-based compensation attributable to future services resulting from the adoption of Statement of Financial Accounting Standards No. 123 (revised 2004), “Share-Based Payment” (“SFAS No.123(R)”).

As of June 30, 2006 and 2005, there were common stock options outstanding to purchase up to 1.6 million and 1.2 million common shares, respectively. Most of these options have exercise prices (and in 2006, compensation costs attributable to current services), which when considered in relation to the average market price of Pinnacle Financial’s common stock, are considered dilutive and are considered in Pinnacle Financial’s diluted income per share calculation for each of the three and six month periods ended June 30, 2006 and 2005. There were common stock options of 380,000 and 149,000 outstanding as of June 30, 2006 and 2005, respectively, which were considered anti-dilutive and thus have not been considered in the fully-diluted share calculations below. Additionally, as of June 30, 2006 and 2005, Pinnacle Financial had outstanding warrants to purchase 406,000 common shares which have been considered in the calculation of Pinnacle Financial’s diluted income per share for the three and six months ended June 30, 2006 and 2005.

The following is a summary of the basic and diluted earnings per share calculation for the three and six months ended June 30, 2006 and 2005:

	<i>For the three months ended June 30,</i>		<i>For the six months ended June 30,</i>	
	<i>2006</i>	<i>2005</i>	<i>2006</i>	<i>2005</i>

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

*Stock-Based Compensation* — On January 1, 2006, Pinnacle Financial adopted SFAS No. 123(R), that addresses the accounting for share-based payment transactions in which a company receives employee services in exchange for equity instruments. SFAS No. 123(R) eliminates the ability to account for share-based compensation transactions, as Pinnacle Financial formerly did, using the intrinsic value method as prescribed by Accounting Principles Board, or APB, Opinion No. 25, “Accounting for Stock Issued to Employees,” and generally requires that such transactions be accounted for using a fair-value-based method and recognized as expense in the accompanying consolidated statement of income.

Pinnacle Financial adopted SFAS No. 123(R) using the modified prospective method which requires the application of the accounting standard as of January 1, 2006. The accompanying consolidated financial statements as of and for the first six months of 2006 reflect the impact of adopting SFAS No. 123(R). In accordance with the modified prospective method, consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R). See Note 7 for further details.

Stock-based compensation expense recognized during the period is based on the value of the portion of stock-based payment awards that is ultimately expected to vest. Stock-based compensation expense recognized in the accompanying consolidated statement of income during 2006 included compensation expense for stock-based payment awards granted prior to, but not yet vested, as of December 31, 2005 based on the grant date fair value estimated in accordance with SFAS No. 123(R). As stock-based compensation expense recognized in the accompanying statement of income for 2006 is based on awards ultimately expected to vest, it has been reduced for estimated forfeitures. SFAS No. 123(R) requires forfeitures to be estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from those estimates. In the pro forma information for 2005, which is also detailed in Note 7, we accounted for forfeitures as they occurred.

*Comprehensive Income (Loss)* —SFAS No. 130, “Reporting Comprehensive Income” describes comprehensive income as the total of all components of comprehensive income including net income. Other comprehensive income refers to revenues, expenses, gains and losses that under generally accepted accounting principles are included in comprehensive income but excluded from net income. Currently, Pinnacle Financial’s other comprehensive income (loss) consists of unrealized gains and losses, net of deferred income taxes, on available-for-sale securities.

*Recent Accounting Pronouncements* — FASB Staff Position on SFAS No. 115-1 and SFAS No. 124-1 (the “FSP”), “The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments,” was issued in November 2005 and addresses the determination of when an investment is considered impaired; whether the impairment is other-than-temporary; and how to measure an impairment loss. The FSP also addresses accounting considerations subsequent to the recognition of an other-than-temporary impairment on a debt security, and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The FSP replaces the impairment guidance on Emerging Issues Task Force (“EITF”) Issue No. 03-1 with references to existing authoritative literature concerning other-than-temporary determinations. Under the FSP, losses arising from impairment deemed to be other-than-temporary, must be recognized in earnings at an amount equal to the entire difference between the securities cost and its fair value at the financial statement date, without considering partial recoveries subsequent to that date. The FSP also requires that an investor recognize an other-than-temporary impairment loss when a decision to sell a security has been made and the investor does not expect the fair value of the security to fully recover prior to the expected time of sale. The FSP was effective for reporting periods beginning after December 15, 2005. The initial adoption of this statement did not have a material impact on Pinnacle Financial’s consolidated financial statements.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3." This statement changes the requirements for the accounting for and reporting of a change in accounting principle. This statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. APB 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS 154 requires retrospective application to prior period financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This statement does not change the guidance for reporting the correction of an error in previously issued financial statements or the change in an accounting estimate. SFAS 154 was effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

SFAS No. 156, "Accounting for Servicing of Financial Assets - an amendment of FASB Statement No. 140." SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes a contractual obligation to service a financial asset in certain circumstances. All separately recognized servicing assets and servicing liabilities are required to be initially measured at fair value. Subsequent measurement methods include the amortization method, whereby servicing assets or servicing liabilities are amortized in proportion to and over the period of estimated net servicing income or net servicing loss, or the fair value method, whereby servicing assets or servicing liabilities are measured at fair value at each reporting date and changes in fair value are reported in earnings in the period in which they occur. If the amortization method is used, an entity must assess servicing assets or servicing liabilities for impairment or increased obligation based on the fair value at each reporting date. SFAS 156 is effective for fiscal years beginning after December 15, 2006. Pinnacle Financial is currently evaluating the impact of SFAS 156 on its consolidated financial statements.

In July 2006, the FASB issued FASB Interpretation 48, "Accounting for Income Tax Uncertainties" ("FIN 48"). FIN 48 defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. The recently issued literature also provides guidance on the derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. FIN 48 also includes guidance concerning accounting for income tax uncertainties in interim periods and increases the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective for fiscal years beginning after December 15, 2006. The differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption will be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. Pinnacle Financial is currently evaluating the impact of FIN 48 on its consolidated financial statements..

In June 2006, the Emerging Issues Task Force issued EITF No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefits Aspects of Endorsement Split-Dollar Life Insurance Arrangements". The EITF concluded that deferred compensation or postretirement benefit aspects of an endorsement split-dollar life insurance arrangement should be recognized as a liability by the employer and the obligation is not effectively settled by the purchase of a life insurance policy. The effective date is for fiscal years beginning after December 15, 2006. Pinnacle Financial is currently evaluating the impact of EITF 06-4 on its consolidated financial statements..

In June 2006, the Emerging Issues Task Force issued EITF No. 06-5, "Accounting for Purchases of Life Insurance - Determining the Amount that Could Be Realized in Accordance with FASB Tech Bulletin 85-4". The EITF concluded that a policyholder should consider any additional amounts included in the contractual terms of the life insurance policy in determining the "amount that could be realized under the insurance contract." For group policies with multiple certificates or multiple policies with a group rider, the Task Force also tentatively concluded that the amount that could be realized should be determined at the individual policy or certificate level, i.e., amounts that would be realized only upon surrendering all of the policies or certificates would not be included when measuring the assets. The effective date is for fiscal years beginning after December 15, 2006. Pinnacle Financial is currently evaluating the impact of EITF 06-5 on its consolidated financial statements..

**Note 2. Merger with Cavalry Bancorp, Inc.**

On March 15, 2006, Pinnacle Financial consummated its merger with Cavalry Bancorp, Inc. ("Cavalry"), a one-bank holding company located in Murfreesboro, Tennessee. Pursuant to the merger agreement, Pinnacle acquired all

Cavalry common stock via a tax-free exchange whereby Cavalry shareholders received a fixed exchange ratio of 0.95 shares of Pinnacle Financial common stock for each share of Cavalry common stock, or approximately 6.9 million Pinnacle Financial shares. The accompanying consolidated financial statements include the activities of the former Cavalry since March 15, 2006.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

In accordance with SFAS No. 141, "Accounting for Business Combinations" ("SFAS No. 141"), SFAS No. 142, "Goodwill and Intangible Assets" ("SFAS No. 142") and SFAS No. 147, "Acquisition of Certain Financial Institutions" ("SFAS No. 147"), Pinnacle Financial recorded at fair value the following assets and liabilities of Cavalry as of March 15, 2006:

Cash and cash equivalents	\$ 37,420,210
Investment securities - available-for-sale	39,476,178
Loans, net of an allowance for loan losses of \$5,102,296	545,598,367
Goodwill	115,835,254
Core deposit intangible	13,168,236
Other assets	47,441,280
Total assets acquired	798,939,525
Deposits	583,640,043
Federal Home Loan Bank advances	17,766,661
Other liabilities	25,255,578
Total liabilities assumed	626,662,282
Total consideration paid for Cavalry	\$ 172,277,243

As discussed more fully below, total consideration is comprised of \$171.1 million in Pinnacle Financial common shares issued to former Cavalry shareholders and options issued to former Cavalry option holders and \$1.2 million in acquisition costs. Pinnacle Financial is in the process of finalizing the allocation of the purchase price to the acquired net assets noted above. Accordingly, the above allocations should be considered preliminary as of June 30, 2006.

As noted above, total consideration for Cavalry approximates \$172.3 million of which \$171.1 million was in the form of Pinnacle Financial common shares and options to acquire Pinnacle Financial common shares and \$1.2 million in costs related to the acquisition. Pinnacle Financial issued 6,856,298 shares of Pinnacle Financial common stock to the former Cavalry shareholders. In accordance with EITF 99-12, "Determination of the Measurement Date for the Market Price of Acquirer Securities Issued in a Purchase Business Combination," the consideration shares were valued at \$24.53 per common share which represents the average closing price of Pinnacle Financial common stock from the two days prior to the merger announcement on September 30, 2005 through the two days after the merger announcement. Aggregate consideration for the common stock issued was approximately \$168.2 million. Additionally, Pinnacle Financial also has assumed the Cavalry Bancorp, Inc. 1999 Stock Incentive Plan (the "Cavalry Plan") pursuant to which Pinnacle is obligated to issue 195,551 shares of Pinnacle Financial common stock upon exercise of stock options awarded to certain former Cavalry employees who held outstanding options as of March 15, 2006. All of these options were fully vested prior to the merger announcement date and expire at various dates between 2011 and 2012. The exercise prices for these stock options range between \$10.26 per share and \$13.68 per share. In accordance with SFAS No. 141, Pinnacle Financial has considered the fair value of these options in determining the acquisition cost of Cavalry. The fair value of these vested options approximated \$2.9 million which has been included as a component of the aggregate purchase price. Additionally, Pinnacle Financial has incurred approximately \$1.2 million in acquisition costs associated with the purchase of Cavalry through June 30, 2006. These costs primarily relate to investment banking and attorney fees.

In accordance with SFAS Nos. 141 and 142, Pinnacle Financial has recognized \$13.2 million as a core deposit intangible. This identified intangible is being amortized over seven years using an accelerated method which

anticipates the life of the underlying deposits to which the intangible is attributable. For the three and six months ended June 30, 2006, approximately \$647,000 and \$713,000, respectively, was recognized in the accompanying statement of income as other noninterest expense. Amortization expense associated with this identified intangible will approximate \$1.8 million to \$2.1 million per year for the next five years with lesser amounts for the remaining two years.

Pinnacle Financial also recorded other adjustments to the carrying value of Cavalry's assets and liabilities in order to reflect the fair value of those net assets in accordance with generally accepted accounting principles, including a \$4.8 million discount associated with the loan portfolio, a \$2.6 million premium for Cavalry's certificates of deposit and a \$4.6 million premium for Cavalry's land and buildings. Pinnacle Financial also recorded the corresponding deferred tax asset or liability associated with these adjustments. The discounts and premiums related to financial assets and liabilities will be amortized into our statements of income in future periods using a method that approximates the level yield method over the anticipated lives of the underlying financial assets or liabilities. For the three and six months ended June 30, 2006, the accretion of the fair value discounts related to the acquired loans and certificates of deposit increased net interest income by approximately \$1.1 million and \$1.3 million, respectively. Based on the estimated useful lives of the acquired loans and deposits, Pinnacle Financial expects to recognize increases in net interest income related to accretion of these purchase accounting adjustments of \$1.9 million for the remainder of fiscal year 2006 and \$4.1 million in subsequent years.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Statement of Position 03-03, *Accounting for Certain Loans or Debt Securities Acquired in a Transfer* (“SOP 03-03”) addresses accounting for differences between contractual cash flows and cash flows expected to be collected from an investor's initial investment in loans or debt securities (loans) acquired in a transfer if those differences are attributable, at least in part, to credit quality. It includes loans acquired in purchase business combinations and applies to all nongovernmental entities, including not-for-profit organizations. The SOP does not apply to loans originated by the entity. The preliminary purchase accounting adjustments reflect a reduction in loans and the allowance for loan losses of \$1.0 million related to Cavalry's impaired loans.

The following pro forma income statements assume the merger was consummated on January 1, 2005. The pro forma information does not reflect Pinnacle Financial's results of operations that would have actually occurred had the merger been consummated on such date (dollars in thousands).

	<b>Six Months Ended June 30,</b>	
	<b>2006</b>	<b>2005(1)</b>
<b>Pro Forma Income Statements:</b>		
Net interest income	\$ 31,866	\$ 26,568
Provision for loan losses	3,075	1,195
Noninterest income	8,825	8,633
Noninterest expense (2):		
Compensation	14,519	12,480
Other noninterest expense	9,714	9,042
Net income before taxes	13,383	12,484
Income tax expense	5,376	3,855
Net income	\$ 8,007	\$ 8,629
<b>Pro Forma Per Share Information:</b>		
Basic net income per common share	\$ 0.52	\$ 0.57
Diluted net income per common share	\$ 0.49	\$ 0.53
<b>Weighted average shares outstanding:</b>		
Basic	15,314,194	15,251,947
Diluted	16,481,573	16,396,739

- 
- (1) In the first quarter of 2005, Cavalry recorded a tax benefit of \$427,000 due to a cash distribution of dividends to the participants in their employee stock ownership plan. Excluding this benefit would have lowered net income for the six months ended June 30, 2005 by \$427,000 resulting in net income of \$8,202,000 or \$0.54 per basic share and \$0.50 per fully-diluted share.
- (2) In preparation for the merger during the first quarter of 2006, Cavalry and Pinnacle incurred significant merger related charges of approximately \$10.6 million in the aggregate primarily for severance benefits, accelerated vesting of defined compensation agreements, investment banker fees, etc. Including these charges would have decreased net income for the six months ended June 30, 2006 by \$6.45 million resulting in net income of \$1,558,000 and a basic and fully diluted net income per share of \$0.10 and \$0.09, respectively.

During the three and six months ended June 30, 2006, Pinnacle Financial incurred merger integration expense related to the merger with Cavalry of \$921,000 and \$1,365,000, respectively. These expenses were directly related to the

merger, recognized as incurred and reflected on the accompanying consolidated statement of income as merger related expense.

	\$ 27,294,377	\$ -	\$ 1,226,033	\$ 26,068,344

	<b>December 31, 2005</b>			
	<b>Amortized Cost</b>	<b>Gross Unrealized Gains</b>	<b>Gross Unrealized Losses</b>	<b>Fair Value</b>
<b>Securities available-for-sale:</b>				
U.S. Treasury securities	\$ -	\$ -	\$ -	\$ -
U.S. government agency securities	31,054,469	-	534,899	30,519,570
Mortgage-backed securities	190,708,007	44,378	3,866,210	186,886,175
State and municipal securities	32,583,283	19,044	464,984	32,137,343
Corporate notes	2,300,442	-	94,436	2,206,006
	\$ 256,646,201	\$ 63,422	\$ 4,960,529	\$ 251,749,094
<b>Securities held-to-maturity:</b>				
U.S. government agency securities	\$ 17,746,883	\$ -	\$ 441,208	\$ 17,305,675
State and municipal securities	9,584,368	-	343,746	9,240,622
	\$ 27,331,251	\$ -	\$ 784,954	\$ 26,546,297

On March 31, 2004, Pinnacle National transferred approximately \$27,656,000 of available-for-sale securities to held-to-maturity at fair value. The transfer consisted of substantially all of Pinnacle National's holdings of Tennessee municipal securities and several of its longer-term agency securities. The net unrealized gain on such securities as of the date of transfer was approximately \$325,000. This amount is reflected in the accumulated other comprehensive income, net of tax, and is being amortized over the remaining lives of the respective held-to-maturity securities. At June 30, 2006, the unamortized amount approximated \$203,000.

Pinnacle Financial realized approximately \$114,000 in gains from the sale of \$6,792,000 of available-for-sale securities during the six months ended June 30, 2005. There were no sales of securities during the three months ended June 30, 2005 and during the three and six months ended June 30, 2006.

At June 30, 2006, approximately \$295,426,000 of Pinnacle Financial's securities were pledged to secure public funds and other deposits and securities sold under agreements to repurchase.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

At June 30, 2006 and December 31, 2005, included in securities were the following investments with unrealized losses. The information below classifies these investments according to the term of the unrealized loss of less than twelve months or twelve months or longer:

	<b>Investments With an Unrealized Loss of Less than 12 months</b>		<b>Investments With an Unrealized Loss of 12 months or longer</b>		<b>Total Investments With an Unrealized Loss</b>	
	<b>Fair Value</b>	<b>Unrealized Losses</b>	<b>Fair Value</b>	<b>Unrealized Losses</b>	<b>Fair Value</b>	<b>Unrealized Losses</b>
<i>At June 30, 2006:</i>						
U.S. government agency securities	\$ 24,176,940	\$ 904,174	\$ 22,658,525	\$ 1,072,944	\$ 46,835,465	\$ 1,977,118
Mortgage-backed securities	121,642,883	4,140,593	78,082,370	4,466,311	199,725,253	8,606,904
State and municipal securities	34,969,725	799,039	16,949,221	705,304	51,918,946	1,504,343
Corporate notes	-	-	2,186,715	106,594	2,186,715	106,594
Total temporarily-impaired securities	\$ 180,789,548	\$ 5,843,806	\$ 119,876,831	\$ 6,351,153	\$ 300,666,379	\$ 12,194,959

*December 31, 2005:*

U.S. government agency securities	\$ 28,605,270	\$ 463,534	\$ 19,219,975	\$ 512,573	\$ 47,825,245	\$ 976,107
Mortgage-backed securities	110,636,351	1,586,394	69,512,865	2,279,816	180,149,216	3,866,210
State and municipal securities	22,692,062	341,869	14,074,344	466,861	36,766,406	808,730
Corporate notes	-	-	2,206,006	94,436	2,206,006	94,436
Total temporarily-impaired securities	\$ 161,933,683	\$ 2,391,797	\$ 105,013,190	\$ 3,353,686	\$ 266,946,873	\$ 5,745,483

Management evaluates securities for other-than-temporary impairment on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the intent and ability of Pinnacle Financial to retain its investment in the issue for a period of time sufficient to allow for any anticipated recovery in fair value. Because the declines in fair value noted above were attributable to increases in interest rates and not attributable to credit quality and because Pinnacle Financial has the ability and intent to hold all of these investments until a market price recovery or maturity, the impairment of these investments is not deemed to be other-than-temporary.

**Note 4. Loans and Allowance for Loan Losses**

The composition of loans at June 30, 2006 and December 31, 2005 is summarized as follows:

	<i>At June 30, 2006</i>	<i>At December 31, 2005</i>
Commercial real estate - Mortgage	\$ 260,167,585	\$ 148,102,053
Commercial real estate - Construction	164,049,024	30,295,106
Commercial - Other	503,797,138	239,128,969
Total Commercial	928,013,747	417,526,128
Consumer real estate - Mortgage	294,118,769	169,952,860

Allowance for loan losses	(14,686,365)	(7,857,774)
Loans, net	\$ 1,343,586,988	\$ 640,166,258

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Changes in the allowance for loan losses for the six months ended June 30, 2006 and for the year ended December 31, 2005 are as follows:

	<b>2006</b>	<b>2005</b>
Balance at beginning of period	\$ 7,857,774	\$ 5,650,014
Charged-off loans	(500,158)	(207,647)
Recovery of previously charged-off loans	132,404	263,441
Allowance from Cavalry acquisition (see note 2)	5,102,296	-
Provision for loan losses	2,094,049	2,151,966
Balance at end of period	\$ 14,686,365	\$ 7,857,774

At June 30, 2006 and 2005, Pinnacle Financial had certain impaired loans on nonaccruing interest status. The principal balance of these nonaccrual loans amounted to \$2,867,000 and \$561,000 at June 30, 2006 and 2005, respectively. In each case, at the date such loans were placed on nonaccrual, Pinnacle Financial reversed all previously accrued interest income against current year earnings. Had these loans been on accruing status, interest income would have been higher by \$54,000 and \$29,000 for the six months ended June 30, 2006 and 2005, respectively.

At June 30, 2006, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$13,350,000 to certain directors, executive officers, and their related entities, of which approximately \$7,055,000 had been drawn upon. At December 31, 2005, Pinnacle Financial had granted loans and other extensions of credit amounting to approximately \$13,223,000 to certain directors, executive officers, and their related entities, of which \$6,958,000 had been drawn upon. The terms on these loans and extensions are on substantially the same terms customary for other persons for the type of loan involved.

During the three and six months ended June 30, 2006 and 2005, Pinnacle Financial sold participations in certain loans to correspondent banks at an interest rate that was less than that of the borrower's rate of interest. In accordance with generally accepted accounting principles, Pinnacle Financial has reflected a net gain on the sale of these participated loans for the three months ended June 30, 2006 and 2005 of approximately \$49,000 and \$152,000, respectively, and for the six months ended June 30, 2006 and 2005, Pinnacle Financial reflected a net gain on the sale of participated loans of \$123,000 and \$137,000, respectively, which is attributable to the present value of the future net cash flows of the difference between the interest payments the borrower is projected to pay Pinnacle Financial and the amount of interest that will be owed the correspondent based on their participation in the loan.

**Note 5. Income Taxes**

Income tax expense attributable to income from continuing operations for the three and six months ended June 30, 2006 and 2005 consists of the following:

	<b>Three Months Ended June 30,</b>	<b>2006</b>	<b>2005</b>	<b>Six Months Ended June 30,</b>	<b>2006</b>	<b>2005</b>
<i>Current tax expense:</i>						
Federal	\$	2,738,722	\$	945,422	\$	4,212,938
State		200,060		32,107		310,094
Total current tax expense		2,938,780		977,529		4,523,032
						1,935,269
						92,649
						2,027,918

*Deferred tax benefit:*

Federal	(667,940)	(144,933)	(979,266)	(420,494)
State	(129,953)	(29,418)	(176,119)	(85,351)
Total deferred tax benefit	(797,893)	(174,351)	(1,155,385)	(505,845)
	\$ 2,140,887	\$ 803,178	\$ 3,367,647	\$ 1,522,073

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Pinnacle Financial's income tax expense (benefit) differs from the amounts computed by applying the Federal income tax statutory rates of 35% in 2006 and 34% in 2005 to income before income taxes. A reconciliation of the differences for the three and six months ended June 30, 2006 and 2005 is as follows:

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2006</b>	<b>2005</b>	<b>2006</b>	<b>2005</b>
Income taxes at statutory rate	\$ 2,262,176	\$ 939,197	\$ 3,605,706	\$ 1,788,737
State tax expense, net of federal tax effect	45,568	1,775	87,084	23,395
Federal tax credits	(75,000)	(75,000)	(150,000)	(150,000)
Tax-exempt securities	(150,639)	(62,628)	(270,612)	(115,977)
Other items	58,782	(166)	95,469	(24,082)
Income tax expense	\$ 2,140,887	\$ 803,178	\$ 3,367,647	\$ 1,522,073

The effective tax rate for 2006 and 2005 is impacted by Federal tax credits related to the New Markets Tax Credit program whereby a subsidiary of Pinnacle National has been awarded approximately \$2.3 million in future Federal tax credits which are available thru 2010. Tax benefits related to these credits will be recognized for financial reporting purposes in the same periods that the credits are recognized in the Company's income tax returns. The credit that is available for each of the years ended December 31, 2006 and 2005 is \$300,000. Pinnacle Financial believes that it will comply with the various regulatory provisions of the New Markets Tax Credit program in fiscal 2006, and therefore has reflected the impact of the credits in its estimated annual effective tax rate for 2006. During 2004, Pinnacle National formed a real estate investment trust which provides Pinnacle Financial with an alternative vehicle for raising capital. Additionally, the ownership structure of this real estate investment trust provides certain state income tax benefits to Pinnacle National and Pinnacle Financial.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely than not that Pinnacle Financial will realize the benefit of these deductible differences. However, the amount of the deferred tax asset considered realizable could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

The components of deferred income taxes included in other assets in the accompanying consolidated balance sheets at June 30, 2006 and December 31, 2005 are as follows:

	<b>2006</b>	<b>2005</b>
<i>Deferred tax assets:</i>		
Loans and loan loss allowance	\$ 8,008,908	\$ 3,019,094
Securities	4,089,659	1,773,521
Merger related deferred deductions	1,082,765	-
Accrued liability for salaried executive retirement plan	1,461,516	-

Edgar Filing: PINNACLE FINANCIAL PARTNERS INC - Form 10-Q

Other deferred tax assets	156,075	174,816
	14,798,923	4,967,431
<i>Deferred tax liabilities:</i>		
Depreciation and amortization	2,100,308	417,207
Deposits	4,107,535	-
FHLB dividends	694,837	-
Other deferred tax liabilities	61,264	139,602
	6,963,944	556,809

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**Note 6. Commitments and Contingent Liabilities**

In the normal course of business, Pinnacle Financial has entered into off-balance sheet financial instruments which include commitments to extend credit (i.e., including unfunded lines of credit) and standby letters of credit. Commitments to extend credit are usually the result of lines of credit granted to existing borrowers under agreements that the total outstanding indebtedness will not exceed a specific amount during the term of the indebtedness. Typical borrowers are commercial concerns that use lines of credit to supplement their treasury management functions, thus their total outstanding indebtedness may fluctuate during any time period based on the seasonality of their business and the resultant timing of their cash flows. Other typical lines of credit are related to home equity loans granted to consumers. Commitments to extend credit generally have fixed expiration dates or other termination clauses and may require payment of a fee.

Standby letters of credit are generally issued on behalf of an applicant (our customer) to a specifically named beneficiary and are the result of a particular business arrangement that exists between the applicant and the beneficiary. Standby letters of credit have fixed expiration dates and are usually for terms of two years or less unless terminated beforehand due to criteria specified in the standby letter of credit. A typical arrangement involves the applicant routinely being indebted to the beneficiary for such items as inventory purchases, insurance, utilities, lease guarantees or other third party commercial transactions. The standby letter of credit would permit the beneficiary to obtain payment from Pinnacle Financial under certain prescribed circumstances. Subsequently, Pinnacle Financial would then seek reimbursement from the applicant pursuant to the terms of the standby letter of credit.

Pinnacle Financial follows the same credit policies and underwriting practices when making these commitments as it does for on-balance sheet instruments. Each customer's creditworthiness is evaluated on a case-by-case basis, and the amount of collateral obtained, if any, is based on management's credit evaluation of the customer. Collateral held varies but may include cash, real estate and improvements, marketable securities, accounts receivable, inventory, equipment, and personal property.

The contractual amounts of these commitments are not reflected in the consolidated financial statements and would only be reflected if drawn upon. Since many of the commitments are expected to expire without being drawn upon, the contractual amounts do not necessarily represent future cash requirements. However, should the commitments be drawn upon and should our customers default on their resulting obligation to us, Pinnacle Financial's maximum exposure to credit loss, without consideration of collateral, is represented by the contractual amount of those instruments.

A summary of Pinnacle Financial's total contractual amount for all off-balance sheet commitments at June 30, 2006 is as follows:

Commitments to extend credit	\$ 459,129,544
Standby letters of credit	\$ 61,678,900

At June 30, 2006, the fair value of Pinnacle Financial's standby letters of credit was \$211,000. This amount represents the unamortized fee associated with these standby letters of credit and is included in the consolidated balance sheet of Pinnacle Financial. This fair value will decrease over time as the existing standby letters of credit approach their expiration dates.

Various legal claims also arise from time to time in the normal course of business. In the opinion of management, the resolution of claims outstanding at June 30, 2006 will not have a material effect on Pinnacle Financial's consolidated financial statements.

**Note 7. Stock Option Plan and Restricted Shares**

Pinnacle Financial has two equity incentive plans under which it has granted stock options to its employees to purchase common stock at or above the fair market value on the date of grant and granted restricted share awards to employees and directors. During the first quarter of 2006 and in connection with its merger with Cavalry, Pinnacle Financial assumed a third equity incentive plan, (the "Cavalry Plan"). All options granted under the Cavalry Plan were fully vested prior to Pinnacle Financial's merger with Cavalry and expire at various dates between January 2011 and June 2012. In connection with the merger, all options to acquire Cavalry common stock were converted to options to acquire Pinnacle Financial common stock at the 0.95 exchange ratio. The exercise price was adjusted using the same conversion ratio. All other terms of the Cavalry options were unchanged. There are 195,551 Pinnacle shares which can be acquired by the participants in the Cavalry Plan at exercise prices that range between \$10.26 per share and \$13.68 per share.

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

As of June 30, 2006, of the 1,562,000 stock options outstanding, 1,352,000 options were granted with the intention to be incentive stock options qualifying under Section 422 of the Internal Revenue Code for favorable tax treatment to the option holder while 210,000 options would be deemed non-qualified stock options and thus not subject to favorable tax treatment to the option holder. All stock options under the plans vest in equal increments over five years from the date of grant and are exercisable over a period of ten years from the date of grant.

A summary of the activity within the three equity incentive plans during the six months ended June 30, 2006 and information regarding expected vesting, contractual terms remaining, intrinsic values and other matters was as follows:

	Number	Weighted-Average Exercise Price	Weighted-Average Contractual Remaining Term (in years)	Aggregate Intrinsic Value (1) (000's)
<b>Outstanding at December 31, 2005</b>	<b>1,242,393</b>	<b>\$ 9.78</b>		
Additional stock option grants resulting from assumption of the Cavalry Plan	195,551	10.80		
Granted	210,569	26.57		
Exercised	(83,667)	9.83		
Forfeited	(3,182)	18.36		
<b>Outstanding at June 30, 2006</b>	<b>1,561,664</b>	<b>\$ 12.15</b>	<b>6.57</b>	<b>\$ 28,543</b>
<b>Outstanding and expected to vest at June 30, 2006</b>	<b>1,533,201</b>	<b>\$ 12.07</b>	<b>6.56</b>	<b>\$ 28,153</b>
<b>Options exercisable at June 30, 2006</b>	<b>943,308</b>	<b>\$ 7.22</b>	<b>5.38</b>	<b>\$ 21,891</b>

(1) The aggregate intrinsic value is calculated as the difference between the exercise price of the underlying awards and the quoted price of Pinnacle Financial common stock of \$30.43 per common share for the 1.56 million options that were in-the-money at June 30, 2006.

During the six months ended June 30, 2006, 133,453 option awards vested at an average exercise price of \$11.82 and an intrinsic value of approximately \$4.06 million.

During the six months ended June 30, 2006 and 2005, the aggregate intrinsic value of options exercised under our equity incentive plans was \$1,479,000 and \$274,000, respectively, determined as of the date of option exercise. As of June 30, 2006, there was approximately \$3.4 million of total unrecognized compensation cost related to unvested share-based compensation arrangements granted under our equity incentive plans. That cost is expected to be recognized over a weighted-average period of 3.9 years.

Pinnacle Financial adopted SFAS No. 123(R) using the modified prospective transition method beginning January 1, 2006. Accordingly, during the six-month period ended June 30, 2006, we recorded stock-based compensation expense using the Black-Scholes valuation model for awards granted prior to, but not yet vested, as of January 1, 2006 and for stock-based awards granted after January 1, 2006, based on fair value estimated using the Black-Scholes valuation

model. For these awards, we have recognized compensation expense using a straight-line amortization method. As SFAS No. 123(R) requires that stock-based compensation expense be based on awards that are ultimately expected to vest, stock-based compensation for the six-month period ended June 30, 2006 has been reduced for estimated forfeitures. The impact on our results of operations (compensation and employee benefits expense) and earnings per share of recording stock-based compensation in accordance with SFAS No. 123(R) (related to stock option awards) for the six-month period ended June 30, 2006 was as follows:

	<b>Awards granted with the intention to be classified as incentive stock options</b>		<b>Non-qualified stock option awards</b>	<b>Totals</b>
Stock-based compensation expense	\$	284,625	\$ 120,769	\$ 405,394
Deferred income tax benefit		-	42,269	42,269
Impact of stock-based compensation expense after deferred income tax benefit	\$	284,625	\$ 78,500	\$ 363,125
Impact on earnings per share:				
Basic - 12,473,187 weighted average shares outstanding	\$	0.023	\$ 0.006	\$ 0.029
Fully diluted - 13,640,565 weighted average shares outstanding	\$	0.021	\$ 0.006	\$ 0.027

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

For purposes of these calculations, the fair value of options granted for each of the six months ended June 30, 2006 and 2005 was estimated using the Black-Scholes option pricing model and the following assumptions:

	<i>For the six months ended</i>	
	<i>June 30,</i>	
	<i>2006</i>	<i>2005</i>
Risk free interest rate	4.48%	2.37%
Expected life of options	6.50 years	5.00 years
Expected dividend yield	0.00%	0.00%
Expected volatility	23.6%	39.6%
Weighted average fair value	\$9.61	\$8.98

Pinnacle Financial's computation of expected volatility is based on historical volatility. Pinnacle Financial used the simplified method in determining the estimated life of stock option issuances. The risk free interest rate of the award is based on the closing market bid for U.S. Treasury securities corresponding to the expected life of the stock option issuances in effect at the time of grant.

Additionally, Pinnacle Financial's 2004 Equity Incentive Plan provides for the granting of restricted share awards and other performance-based awards, such as stock appreciation rights. During 2005 and 2004, Pinnacle Financial awarded 16,366 shares and 3,846 shares, respectively, of restricted common stock to certain executives of Pinnacle Financial. The fair value of these awards as of the date of grant was \$24.98 and \$22.62 per share, respectively. The forfeiture restrictions on the restricted shares lapse in three separate tranches should Pinnacle Financial achieve certain earnings and soundness targets over the subsequent three year period, excluding the impact of merger related expense in 2006. Compensation expense associated with the restricted share awards is recognized over the time period that the restrictions associated with the awards lapse based on a graded vesting schedule such that each tranche is amortized separately. Earnings and soundness targets for the 2005 and 2004 fiscal years were achieved and the restrictions related to 6,734 shares and 1,282 shares, respectively, were released. For the six months ended June 30, 2006 and 2005, Pinnacle Financial recognized approximately \$76,000 and \$15,000, respectively, in compensation costs attributable to these awards. Accumulated compensation costs since the date these shares were awarded have amounted to approximately \$402,000 through June 30, 2006. Pinnacle Financial anticipates that should the remaining restrictions on these restricted shares lapse, Pinnacle Financial will incur an additional \$131,000 in compensation costs based on the closing price at June 30, 2006 of Pinnacle Financial common stock on the NASDAQ National Market.

During 2006, the Board of Directors of Pinnacle Financial awarded 4,400 shares of restricted common stock to the eleven outside members of the board in accordance with their 2006 board compensation package. Each board member received an award of 400 shares. The restrictions on these shares will lapse on the one year anniversary date of the award provided the individual board members meets attendance goals for the various board and board committee meetings to which they are scheduled to attend during the fiscal year ended December 31, 2006. The weighted average fair value of these awards as of the date of grant was \$26.05 per share. For the six months ended June 30, 2006, Pinnacle Financial recognized approximately \$52,000, respectively, in compensation costs attributable to these awards. Accumulated compensation costs since the date these shares were awarded have amounted to approximately \$52,000 through June 30, 2006. Pinnacle Financial anticipates that should the remaining restrictions on these shares lapse, Pinnacle Financial will incur an additional \$63,000 in compensation costs.

<i>(number of share awards)</i>	<i>Executive Management Grants</i>			<i>Board of Director Grants</i>

**PINNACLE FINANCIAL PARTNERS, INC. AND SUBSIDIARIES**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

Prior to January 1, 2006, Pinnacle Financial applied APB Opinion No. 25 and related interpretations in accounting for its stock option plans. All option grants carry exercise prices equal to or above the fair value of the common stock on the date of grant. Accordingly, no compensation cost had been recognized for such periods. Had compensation cost for Pinnacle Financial's equity incentive plans been determined based on the fair value at the grant dates for awards under the plans consistent with the method prescribed in SFAS No. 123(R), Pinnacle Financial's net income and net income per share would have been adjusted to the pro forma amounts indicated below for the three and six months ended June 30, 2005:

Net income, as reported	\$
Add: Compensation expense recognized in the accompanying consolidated statement of income, net of related tax effects	
Deduct: Total stock-based compensation expense determined under the fair value based method for all awards, net of related tax effects	
Pro forma net income	\$

***Per share information:***

Basic net income reported	As	\$
Pro forma		Pro
Diluted net income reported	As	\$
Pro forma		Pro

**Note 8. Regulatory Matters**

Pinnacle National is subject to restrictions on the payment of dividends to Pinnacle Financial under federal banking laws and the regulations of the Office of the Comptroller of the Currency. Pinnacle Financial is also subject to limits on payment of dividends to its shareholders by the rules, regulations and policies of federal banking authorities. Pinnacle Financial has not paid any cash dividends since inception, and it does not anticipate that it will consider paying dividends until Pinnacle National generates sufficient capital from operations to support both anticipated asset growth and dividend payments.

Pinnacle Financial and Pinnacle National are subject to various regulatory capital requirements administered by federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possibly additional discretionary actions, by regulators that, if undertaken, could have a direct material effect on the financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, Pinnacle Financial and Pinnacle National must meet specific capital guidelines that involve quantitative measures of the assets,

liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. Pinnacle Financial's and Pinnacle National's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require Pinnacle Financial and Pinnacle National to maintain minimum amounts and ratios of Total and Tier I capital to risk-weighted assets and of Tier I capital to average assets. Management believes, as of June 30, 2006 and December 31, 2005, that Pinnacle Financial and Pinnacle National met all capital adequacy requirements to which they are subject. To be categorized as well-capitalized, Pinnacle National must maintain minimum Total risk-based, Tier I risk-based, and Tier I leverage ratios as set forth in the following table. Pinnacle Financial and Pinnacle National's actual capital amounts and ratios are presented in the following table (dollars in thousands):

**Note 9. Business Segment Information**

Pinnacle Financial has four reporting segments comprised of commercial banking, trust and investment services, mortgage origination and insurance services. Pinnacle Financial's primary segment is commercial banking which consists of commercial loan and deposit services as well as the activities of Pinnacle National's branch locations. Trust and investment services include trust services offered by Pinnacle National and all brokerage and investment activities associated with Pinnacle Asset Management, an operating unit within Pinnacle National. Mortgage origination is also

Edgar Filing: PINNACLE FINANCIAL PARTNERS INC - Form 10-Q

a separate unit within Pinnacle National and focuses on the origination of residential mortgage loans for sale to investors in the secondary residential mortgage market. The following tables present financial information for each reportable segment for the six months ended June 30, 2006 and 2005 (dollars in thousands):

	Commercial Banking	Trust and Investment Services	Mortgage Origination	Insurance Services	Total Company
<i>For the six months ended June 30, 2006:</i>

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion of our financial condition at June 30, 2006 and December 31, 2005 and our results of operations for the three and six months ended June 30, 2006 and 2005. The purpose of this discussion is to focus on information about our financial condition and results of operations which is not otherwise apparent from the consolidated financial statements. The following discussion and analysis should be read along with our consolidated financial statements and the related notes included elsewhere herein.

### Overview

*General.* Our rapid growth from inception through the second quarter of 2006 has had a material impact on our financial condition and results of operations. This rapid growth resulted in fully diluted net income per common share for the three months ended June 30, 2006 and 2005 of \$0.26 and \$0.21, respectively. At June 30, 2006, loans totaled \$1.36 billion, as compared to \$648 million at December 31, 2005, while total deposits increased to \$1.56 billion at June 30, 2006 compared to \$810 million at December 31, 2005.

*Acquisition.* On March 15, 2006, we consummated our merger with Cavalry Bancorp, Inc. ("Cavalry"), a one-bank holding company located in Murfreesboro, Tennessee. Pursuant to the merger agreement, we acquired all Cavalry common stock via a tax-free exchange whereby Cavalry shareholders received a fixed exchange ratio of 0.95 shares of our common stock for each share of Cavalry common stock, or approximately 6.9 million Pinnacle Financial shares. The financial information herein includes the activities of the former Cavalry (the "Rutherford County market") since March 15, 2006.

In accordance with Statement of Financial Accounting Standards ("SFAS") No. 141, "Accounting for Business Combinations" ("SFAS No. 141"), SFAS No. 142, "Goodwill and Intangible Assets" ("SFAS No. 142") and SFAS No. 147, "Acquisition of Certain Financial Institutions" ("SFAS No. 147"), we recorded at fair value the following assets and liabilities of Cavalry as of March 15, 2006:

Cash and cash equivalents	\$ 37,420,210
Investment securities - available-for-sale	39,476,178
Loans, net of an allowance for loan losses of \$5,102,296	545,598,367
Goodwill	115,835,254
Core deposit intangible	13,168,236
Other assets	47,441,280
Total assets acquired	798,939,525
Deposits	583,640,043
Federal Home Loan Bank advances	17,766,661
Other liabilities	25,255,578
Total liabilities assumed	626,662,282
Total consideration paid for Cavalry	\$ 172,277,243

---

*We are in the process of finalizing the allocation of the purchase price to the acquired net assets noted above. Accordingly, the above allocations should be considered preliminary as of June 30, 2006.*

As noted above, total consideration for Cavalry approximates \$172.3 million of which \$171.1 million was in the form of our common shares and options to acquire our common shares and \$1.2 million in costs related to the acquisition. We issued 6,856,298 shares of our common stock to the former Cavalry shareholders. In accordance with EITF 99-12, "Determination of the Measurement Date for the Market Price of Acquirer Securities Issued in a Purchase Business

Combination,” the shares were valued at \$24.53 per common share which represents the average closing price of our common stock from the two days prior to the merger announcement on September 30, 2005 through the two days after the merger announcement. Aggregate consideration for the common stock issued was approximately \$168.2 million. Additionally, we also have assumed the Cavalry Bancorp, Inc. 1999 Stock Incentive Plan (the “Cavalry Plan”) pursuant to which we were obligated to issue 195,551 shares of our common stock upon exercise of stock options awarded to certain former Cavalry employees who held outstanding options as of March 15, 2006. All of these options were fully vested prior to the merger announcement date and expire at various dates between 2011 and 2012. The exercise prices for these stock options range between \$10.26 per share and \$13.68 per share. In accordance with SFAS No. 141, we considered the fair value of these options in determining the acquisition cost of Cavalry. The fair value of these vested options approximated \$2.9 million which has been included as a component of the aggregate purchase price.

Additionally, we have incurred approximately \$1.2 million in acquisition costs associated with the purchase of Cavalry through June 30, 2006. These costs primarily relate to investment banking and attorney fees.

In accordance with SFAS Nos. 141 and 142, we recognized \$13.2 million as a core deposit intangible. This identified intangible is being amortized over seven years using an accelerated method which anticipates the life of the underlying deposits to which the intangible is attributable. For the three and six months ended June 30, 2006, approximately \$647,000 and \$713,000, respectively, was recognized in the statement of income as other noninterest expense. Amortization expense associated with this identified intangible will approximate \$1.8 million to \$2.1 million per year for the next five years with lesser amounts for the remaining two years.

We also recorded other adjustments to the carrying value of Cavalry's assets and liabilities in order to reflect the fair value of those net assets in accordance with generally accepted accounting principles, including a \$4.8 million discount associated with the loan portfolio, a \$2.6 million premium for Cavalry's certificates of deposit and a \$4.6 million premium for Cavalry's land and buildings. We have also recorded the corresponding deferred tax asset or liability associated with these adjustments. The discounts and premiums related to financial assets and liabilities will be amortized into our statements of income in future periods using a method that approximates the level yield method over the anticipated lives of the underlying financial assets or liabilities. For the three and six months ended June 30, 2006, the accretion of the fair value discounts related to the acquired loans and certificates of deposit increased net interest income by approximately \$1.1 million and \$1.3 million, respectively. Based on the estimated useful lives of the acquired loans and deposits, we expect to recognize increases in net interest income related to accretion of these purchase accounting adjustments of \$1.9 million for the remainder of fiscal year 2006 and \$4.1 million in subsequent years.

The Cavalry acquisition had a significant impact on our financial condition as of June 30, 2006. As of June 30, 2006, the Rutherford County market composed approximately 42.4% of our total loans and 41.9% of total deposits. Our consolidated balance sheet at June 30, 2006 reflects \$1.36 billion in loans and \$1.56 billion in deposits which compares to approximately \$1.01 billion in loans and \$1.23 billion in deposits at June 30, 2005. The June 30, 2005 amounts are the sum of loans and deposits for Pinnacle Financial and Cavalry as of that date which results in an increase of 35% in loans and 27% in deposits between the two periods.

We also incurred approximately \$921,000 and \$1,365,000 in merger related expenses during the three and six months ended June 30, 2006, respectively, directly related to the Cavalry merger. These charges were for our integration of Cavalry and accelerated depreciation and amortization related to software and other technology assets whose useful lives were shortened as a result of the Cavalry acquisition.

*Results of Operations.* Our net interest income increased to \$16.9 million for the second quarter of 2006 compared to \$6.8 million for the second quarter of 2005. Our net interest income increased to \$26.4 million for the first six months of 2006 compared to \$13.3 million for the same period in 2005. The net interest margin (the ratio of net interest income to average earning assets) for the period was 4.17% for the second quarter of 2006 compared to 3.57% for the same period in 2005. The net interest margin was 3.97% for the first six months of 2006 compared to 3.67% for the same period in 2005.

Prior to the merger with Cavalry, Cavalry's net interest margin was higher than ours. As a result, since the merger date, our net interest margin is higher compared to the same periods last year due to the impact of the net assets of Cavalry being included with our net assets. We believe our net interest margin for the third quarter of 2006 will be lower than our net interest margin for the second quarter of 2006. Based on our current models, we believe our net interest margin for the third quarter of 2006 should be within a range of 3.90% to 4.10%, compared to 4.17% for the second quarter of 2006.

Absent the impact of continued competitive pressure on deposit pricing, we believe that a rising interest rate environment, which we believe is more likely than a falling rate environment over the next few quarters, should result in greater net interest income for us than in a falling or stagnant rate environment. We also believe we will continue to increase assets with particular emphasis on floating rate lending. However, the additional revenues provided by these two items may not be sufficient to overcome any immediate increases in funding costs which would also be incurred in a rising rate environment as a result of competitive deposit pricing in our market area.

Conversely, a falling rate environment would serve to have the opposite effect on our net interest income. In a falling rate environment, we may not be able to reduce our deposit funding costs by any meaningful amount due to market pressures, while our interest income would decrease at a more rapid pace.

*Page 23*

---

Our provision for loan losses was \$1,707,000 for the second quarter of 2006 compared to \$483,000 for the same period in 2005 and \$2,094,000 for the first six months of 2006 compared to \$1,084,000 for the same period in 2005. Although we continued to make provisions due to the increases in loan volumes in 2006 compared to 2005, the provision amount also increased due to increases in charge-offs in 2006 compared to 2005.

Noninterest income for the second quarter of 2006 compared to the same time period in 2005 increased by \$2,967,000, or 210%. For the first six months of 2006, noninterest income was \$3,834,000 greater than the first six months of 2005. These increases are largely attributable to the fee businesses associated with the Cavalry acquisition, particularly with regard to service charges on deposit accounts, insurance sales commissions and trust fees.

Our continued growth in 2006 resulted in increased noninterest expense compared to 2005 due to the addition of the Rutherford County market, increases in salaries and employee benefits, equipment and occupancy expenses and other operating expenses. The number of full-time equivalent employees increased from 156.5 at December 31, 2005 to 359.0 at June 30, 2006. As a result, we experienced increases in compensation and employee benefit expense. We expect to add additional employees throughout 2006 which will cause our compensation and employee benefit expense to increase in future periods. Additionally, our branch expansion efforts during the last few years also increased noninterest expense. The increased operational expenses for the recently opened branches and the additional planned branch in the Donelson area of Davidson County expected to open in late 2006 will continue to result in increased noninterest expense in future periods. Our efficiency ratio (the ratio of noninterest expense to the sum of net interest income and noninterest income) was 61.6% for the second quarter of 2006 compared to 60.4% for the same period of 2005 and 62.2% for the first six months of 2006 compared to 60.1% for the first six months of 2005. These calculations include the impact of approximately \$921,000 and \$1,365,000 in merger related charges for the three and six months ended June 30, 2006, respectively.

The effective income tax expense rate for the three and six months ended June 30, 2006 was approximately 33.1% and 32.7%, respectively, compared to an effective income tax expense rate for the three and six months ended June 30, 2005 of approximately 29.1% and 28.9%, respectively. The increase in the effective tax rate between 2006 and 2005 was due to the additional earnings (primarily attributable to operations within our Rutherford County market) in 2006 over that of 2005 being taxed at a higher rate as the various tax savings initiatives (i.e., municipal bond income) had a lesser impact in 2006 when compared to 2005 and the impact of our incentive stock options and their treatment pursuant to the adoption of SFAS No. 123(R).

Net income for the second quarter of 2006 was \$4.3 million compared to \$2.0 million for the second quarter of 2005, an increase of 121%. Net income for the first six months of 2006 was \$6.9 million compared to \$3.7 million for the same period in 2005, an increase of 86%. Fully-diluted net income per common share was \$0.26 for the second quarter of 2006 compared to \$0.21 for the second quarter of 2005, an increase of 13%. Fully-diluted net income per common share was \$0.51 for the first six months of 2006 compared to \$0.40 for the same period in 2005, an increase of 28%.

Excluding the impact of merger related charges at the statutory tax rate of 39.23%, net income for the second quarter of 2006 was \$4.9 million compared to \$2.0 million for the second quarter of 2005, an increase of 149%. Additionally, excluding the after tax impact of merger related charges, net income for the first six months of 2006 was \$7.8 million compared to \$3.7 million for the same period in 2005, an increase of 108%. As a result, as adjusted fully-diluted net income per common share was \$0.30 for the second quarter of 2006 compared to \$0.21 for the second quarter of 2005, an increase of 30%. As adjusted fully-diluted net income per common share was \$0.57 for the first six months of 2006 compared to \$0.40 for the same period in 2005, an increase of 43%. For a reconciliation of these non-GAAP financial measures to their most directly comparable GAAP financial measure, see “-Reconciliation of Non-GAAP financial measures” below.

*Financial Condition.* Loans increased \$710 million during the first six months of 2006 of which \$546 million was attributable to the Cavalry acquisition. Thus, the net increase in our loan portfolio attributable to organic growth was \$160 million. As we seek to increase our loan portfolio, we must also continue to monitor the risks inherent in our lending operations. If our allowance for loan losses is not sufficient to cover the estimated loan losses in our loan portfolio, increases to the allowance for loan losses would be required which would decrease our earnings.

We have successfully grown our total deposits to \$1.56 billion at June 30, 2006 compared to \$810 million at December 31, 2005, an increase of \$750 million of which \$584 million was attributable to the Cavalry acquisition. As a result, we increased our deposits by \$166 million, excluding the Cavalry acquisition. This growth in deposits had a higher funding cost due to rising rates and increased deposit pricing competition in 2006 compared to 2005. We typically adjust our loan yields at a faster rate than we adjust our deposit rates. As such, unless significant competitive pressures exist, our deposit funding costs do not usually adjust as quickly as do revenues from interest income on floating rate earning assets.

*Page 24*

---

We continue to believe there is broad acceptance of our business model within the Nashville/Davidson/Murfreesboro MSA and in our target markets of small businesses and affluent clients. As a result, and because our sales pipeline remains strong at the current time, we believe we will continue to increase our loan and deposit balances for the remainder of 2006 at amounts comparable to prior periods but less than the increase for the second quarter of 2006.

*Capital and Liquidity.* At June 30, 2006, our capital ratios, including our bank's capital ratios, met regulatory minimum capital requirements. Additionally, at June 30, 2006, our bank would be considered to be "well-capitalized" pursuant to banking regulations. As our bank grows it will require additional capital from us over that which can be earned through operations. We anticipate that we will continue to use various capital raising techniques in order to support the growth of our bank. In the near term, the most likely form of new capital will be from the issuance of trust preferred securities where we have significant capacity to include trust preferred securities as Tier 1 capital pursuant to regulatory guidelines. Capital raised through trust preferred issuances would not dilute our current shareholder base.

In the past, we have been successful in procuring additional capital from the capital markets (via public and private offerings). This additional capital was required to support our growth. As of June 30, 2006, we believe we have, or can generate through trust preferred offerings, sufficient capital to support our current growth plans. As a result, we do not foresee the need to consider any additional public or private offerings of common stock at this time. Although we do not have any current plans to do so, should we consider entering any additional markets other than the Nashville/Davidson/Murfreesboro MSA, the market expansion may require us to raise additional capital which would likely be in the form of common equity.

### **Critical Accounting Estimates**

The accounting principles we follow and our methods of applying these principles conform with United States generally accepted accounting principles and with general practices within the banking industry. In connection with the application of those principles, we have made judgments and estimates which, in the case of the determination of our allowance for loan losses ("ALL"), the adoption of SFAS No. 123 (revised 2004), "Share Based Payments" ("SFAS No. 123(R)") and the accounting for the Cavalry merger have been critical to the determination of our financial position and results of operations.

*Allowance for Loan Losses (ALL).* Our management assesses the adequacy of the ALL prior to the end of each calendar quarter. This assessment includes procedures to estimate the allowance and test the adequacy and appropriateness of the resulting balance. For the June 30, 2006 financial statements, we elected to assess the ALL in two separate processes using methodologies for both the Pinnacle footprint as it existed prior to the merger with Cavalry (the "Nashville market") and the Rutherford County market. Our methodology for the first six months of 2006 was consistent with the past practices of Pinnacle Financial and Cavalry on a stand-alone basis. In view of the acquisition, we are currently evaluating what changes should be made to the process by which we determine our consolidated allowance for loan losses. We expect to implement any such changes prior to the end of the third quarter of 2006.

For the Nashville market, the ALL consists of two portions: (1) an allocated amount representative of specifically identified credit exposure and exposures readily predictable by historical or comparative experience; and (2) an unallocated amount representative of inherent loss which is not readily identifiable. Even though the ALL is composed of two components, the entire ALL is available to absorb any credit losses.

We establish the allocated amount separately for two different risk groups: (1) unique loans (commercial loans, including those loans considered impaired); and (2) homogeneous loans (generally consumer loans). We base the allocation for unique loans primarily on risk rating grades assigned to each of these loans as a result of our loan management and review processes. We then assign each risk-rating grade a loss ratio, which is determined based on

the experience of management, discussions with banking regulators and our independent loan review process. We estimate losses on impaired loans based on estimated cash flows discounted at the loan's original effective interest rate or based on the underlying collateral value. Based on management's experience, we also assign loss ratios to our consumer portfolio. These loss ratios are assigned to the various homogenous categories of the consumer portfolio (e.g., automobile, residential mortgage, home equity).

*Page 25*

---

The unallocated amount is particularly subjective and does not lend itself to exact mathematical calculation. The unallocated amount represents estimated inherent credit losses which may exist, but have not yet been identified, as of the balance sheet date. In estimating the unallocated amount, we consider such matters as changes in the local or national economy, the depth or experience in the lending staff, any concentrations of credit in any particular industry group, and new banking laws or regulations. After we assess applicable factors, we evaluate the aggregate unallocated amount based on our management's experience.

We then test the resulting ALL balance by comparing the balance in the ALL to historical trends and peer information. Our management then evaluates the result of the procedures performed, including the result of our testing, and concludes on the appropriateness of the balance of the ALL in its entirety. The audit committee of our board of directors reviews the assessment prior to the filing of quarterly and annual financial information.

For the Rutherford County market, the allowance for loan losses methodology incorporates a variety of risk considerations, both quantitative and qualitative, in establishing an allowance that management believes to be appropriate for each reporting date. Quantitative factors include the historical loss experience, delinquency and charge-off trends, collateral values, and changes in non-performing loans in Rutherford County. The Rutherford County market also incorporates known information about individual loans, including borrower's sensitivity to interest rate movements and other relevant factors. Qualitative factors include the general economic environment in the market and throughout the Southeast and the state of industries predominant in the Middle Tennessee area.

In assessing the adequacy of the consolidated ALL, we also consider the results of our ongoing independent loan review process. We undertake this process both to ascertain whether there are loans in the portfolio whose credit quality has weakened over time and to assist in our overall evaluation of the risk characteristics of the entire loan portfolio. Our loan review process includes the judgment of management, the input from our independent loan reviewer, and reviews that may have been conducted by bank regulatory agencies as part of their usual examination process.

*Share Based Payments* - On January 1, 2006, we adopted SFAS No. 123(R), which addresses the accounting for share-based payment transactions in which a company receives employee services in exchange for equity instruments. SFAS No. 123(R) eliminates the ability to account for share-based compensation transactions, as we formerly did, using the intrinsic value method as prescribed by Accounting Principles Board, or APB, Opinion No. 25, "Accounting for Stock Issued to Employees," and generally requires that such transactions be accounted for using a fair-value-based method and recognized as an expense.

We adopted SFAS No. 123(R) using the modified prospective method which requires the application of the accounting standard as of January 1, 2006. The accompanying consolidated financial statements for 2006 reflect the impact of adopting SFAS No. 123(R). In accordance with the modified prospective method, the consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS No. 123(R). Application of SFAS No. 123(R) required us to assess numerous factors including the historical volatility of our stock price, anticipated option forfeitures and estimates concerning the length of time that our options would remain unexercised. Many of these assessments impact the fair value of the underlying stock option more significantly than others and changes to these assessments in future periods could be significant. We believe the assumptions we have incorporated into our stock option fair value assessments are reasonable.

*Accounting for the Cavalry Acquisition* - In accordance with SFAS No. 141, SFAS No. 142 and SFAS No. 147, we recorded the assets and liabilities of Cavalry as of March 15, 2006 at estimated fair value. Arriving at these fair values required numerous assumptions regarding the economic life of assets, decay rates for liabilities and other factors. We engaged a third party to assist us in valuing certain of the financial assets and liabilities of Cavalry. We also engaged a real estate appraisal firm to value the more significant properties that were acquired by us in the acquisition. As a

result, we consider the values we have assigned to the acquired assets and liabilities of Cavalry to be reasonable and consistent with the application of generally accepted accounting principles. However, we are still in the process of obtaining and evaluating certain other information. Accordingly, we may have to reassess our purchase price allocations. We believe that we will conclude the allocation of the purchase price to the acquired net assets in the third quarter of 2006.

Long-lived assets, including purchased intangible assets subject to amortization, such as our core deposit intangible asset, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated.

Goodwill and intangible assets that have indefinite useful lives are tested annually for impairment, and are tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. An impairment loss is recognized to the extent that the carrying amount exceeds the asset's fair value. Our annual assessment date will be September 30. Accordingly, should we determine in a future period that the goodwill recorded in connection with our acquisition of Cavalry has been impaired, then a charge to our earnings will be recorded in the period such determination is made.

## Results of Operations

Our results for the three and six months ended June 30, 2006 and 2005 were highlighted by the continued growth in loans and other earning assets and deposits, which resulted in increased revenues and expenses. The following is a summary of our results of operations (dollars in thousands):

	<i>Three months ended June 30, 2006</i>		<i>2006-2005 Percent Increase (decrease)</i>	<i>Six months ended June 30, 2006</i>		<i>2006-2005 Percent Increase (decrease)</i>
	<i>2006</i>	<i>2005</i>		<i>2006</i>	<i>2005</i>	
Interest income	\$ 28,305	\$ 10,544	168.4%	\$ 45,115	\$ 19,811	127.7%
Interest expense	11,410	3,749	204.3%	18,713	6,516	187.2%
Net interest income	16,895	6,795	148.6%	26,402	13,295	98.6%
Provision for loan losses	1,707	483	253.4%	2,094	1,084	93.2%
Net interest income after provision for loan losses	15,188	6,312	140.6%	24,308	12,211	99.1%
Noninterest income	4,380	1,413	210.0%	6,428	2,594	147.8%
Noninterest expense:						
Merger related expense	921	-	-	1,365	-	-
Other noninterest expense	12,184	4,963	145.5%	19,069	9,544	99.8%
Net income before income taxes	6,463	2,762	134.0%	10,302	5,261	95.8%
Income tax expense	2,141	803	166.6%	3,368	1,522	121.3%
Net income	\$ 4,322	\$ 1,959	120.6%	\$ 6,934	\$ 3,739	85.5%

Our results for the three and six months ended June 30, 2006 included merger related expense. Excluding merger related expense from our net income resulted in fully diluted net income per common share for the three and six months ended June 30, 2006 of \$0.30 and \$0.57, respectively. A comparison of these amounts to the same periods in 2005 and a reconciliation of this non-GAAP financial measure follow:

	<i>Three months ended June 30, 2006</i>		<i>Six months ended June 30, 2006</i>	
	<i>2006</i>	<i>2005</i>	<i>2006</i>	<i>2005</i>
<b>Reconciliation of Non-GAAP financial measures:</b>				
Net income	\$ 4,322	\$ 1,959	\$ 6,934	\$ 3,739
Merger related expense net of tax of \$361 and \$535 for the three and six months ended June 30, 2006, respectively	560	-	830	-
Net income excluding merger related expense	\$ 4,882	\$ 1,959	\$ 7,764	\$ 3,739

Fully-diluted net income per common share	\$	0.26	\$	0.21	\$	0.51	\$	0.40
Fully-diluted net income per common share, excluding merger related expense	\$	0.30	\$	0.21	\$	0.57	\$	0.40

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for any measure prepared in accordance with GAAP. Because non-GAAP financial measures presented are not measurements determined in accordance with GAAP and are susceptible to varying calculations, these non-GAAP financial measures, as presented, may not be comparable to other similarly titled measures presented by other companies.

Pinnacle Financial believes that these non-GAAP financial measures excluding the impact of merger related expenses facilitate making period-to-period comparisons and are meaningful indications of its operating performance. Pinnacle Financial included non-GAAP net income and non-GAAP fully-diluted EPS because it believes that these measures more clearly reflect our operating performance for the 2006 second quarter and six months ended June 30, 2006 when compared to the same period in 2005 and because we believe that the information provides investors with additional information to evaluate our past financial results and ongoing operational performance.

Pinnacle Financial's management utilizes this non-GAAP financial information to compare our operating performance versus the comparable periods in 2005 and will utilize non-GAAP fully-diluted earnings per share for the 2006 fiscal year (excluding the merger related expenses) in calculating whether or not we met the performance targets of our 2006 Annual Cash Incentive Plan and our earnings per share targets in our restricted stock award agreements.

*Net Interest Income.* Net interest income represents the amount by which interest earned on various earning assets exceeds interest paid on deposits and other interest bearing liabilities and is the most significant component of our earnings. For the three months ended June 30, 2006 and 2005, we recorded net interest income of \$16,895,000, and \$6,795,000 respectively, which resulted in a net interest margin of 4.17% and 3.57%. For the six months ended June 30, 2006, and 2005 we recorded net interest income of \$26,402,000 and \$13,295,000 which resulted in a net interest margin of 3.97% and 3.67% respectively.

The following table sets forth the amount of our average balances, interest income or interest expense for each category of interest-earning assets and interest-bearing liabilities and the average interest rate for total interest-earning assets and total interest-bearing liabilities, net interest spread and net interest margin for the three and six months ended June 30, 2006 and 2005 (dollars in thousands):

(1) Yields computed on tax-exempt instruments on a tax equivalent basis.

(2) Yields realized on interest-earning assets less the rates paid on interest-bearing liabilities.

(3) Net interest margin is the result of annualized net interest income divided by average interest-earning assets for the period.

As noted above, the net interest margin for the three and six months ended June 30, 2006 was 4.17% and 3.97%, respectively, compared to a net interest margin of 3.57% and 3.67% for the same periods in 2005. The increase in our net interest margin was significant between 2006 and 2005 and was largely due to the addition of the net assets of Cavalry. Other matters related to the changes in net interest income, net interest yields and rates, and net interest margin are presented below:

- Our loan yields increased by 134 basis points for the first six months of 2006 when compared to the first six months of 2005. The pricing of a large portion of our loan portfolio is tied to our prime rate which increased throughout 2005 and through June 30, 2006 consistent with the announced increases in the Federal funds target rate by the Open Market Committee of the Federal Reserve System. During the period from January 1, 2005 through June 30, 2006, the Open Market Committee increased the Federal funds target rate from 2.25% to 5.25%.
- We have been able to grow our funding base significantly. For asset/liability management, we continue to allocate a greater proportion of such funds to our loan portfolio versus our securities and shorter-term investment portfolio. Average loan balances for the first six months of 2006 approximated 69% of total assets compared to 65% for the same period in 2005. Loans generally have higher yields than do securities and other shorter-term investments.
- Impacting our net interest margin at any point in time will be the level of fixed rate assets and liabilities. In a rising rate environment, these assets and liabilities do not reprice and thus impact the performance of our net interest margin. Fixed rate assets include fixed rate loans and substantially our entire investment portfolio. Fixed rate liabilities include, certificates of deposits, FHLB advances and a portion of our subordinated indebtedness. In a rising rate environment these liabilities impact our margin positively. We have experienced a rising rate environment over the last few quarters. We believe that since we have more fixed rate assets than fixed rate liabilities the negative impact of our fixed rate assets impacted our net interest margin to a greater degree than the impact of our fixed rate liabilities when comparing the three and six months ended June 30, 2006 with that of the comparable prior year periods.
- During 2006, overall deposit rates were higher than those rates for the comparable period in 2005. Changes in interest rates paid on such products as interest checking, savings and money market accounts, securities sold under agreements to repurchase and Federal funds purchased will generally increase or decrease in a manner that is consistent with changes in the short-term rate environment. During 2006, as was the case with our prime lending rate, short-term rates were higher than in 2005. We also monitor the pricing of similar products by our primary competitors. Deposit pricing in our markets has been very competitive over the last few years and we anticipate that such pricing pressure will continue. The changes in the short-term rate environment and the pricing of our primary competitors required us to increase these rates in 2006 compared to the same period in 2005 which resulted in increased pressure on our net interest margin.
- During the first six months of 2006, the average balances of noninterest bearing deposit balances, interest bearing transaction accounts, savings and money market accounts and securities sold under agreements to repurchase amounted to 62% of our total funding compared to 59% for the first six month in 2005. These funding sources generally have lower rates than do other funding sources, such as certificates of deposit and other borrowings. As a result, this contributed favorably to our net interest margin in 2006 when compared to 2005.
  - Also impacting the net interest margin during 2006 compared to 2005 was pricing of our floating rate subordinated indebtedness and the incurrence of additional fixed rate subordinated indebtedness. The average rate on our subordinated indebtedness increased by 88 basis points during the first six months of 2006 when compared to the same period in 2005. The interest rate charged on this indebtedness is generally higher than other funding sources. The rate charged on the floating rate portion of the indebtedness is determined in relation to the three-month LIBOR index and reprices quarterly. During 2006, the short-term

interest rate environment was higher than during 2005, and, as a result, the pricing for this funding source was higher in 2006 than in 2005. Additionally, in September 2005, we issued an additional \$20 million in fixed rate subordinated indebtedness at a rate of 5.85% for the first five years with a floating rate determined in relation to three-month LIBOR thereafter.

*Provision for Loan Losses.* The provision for loan losses represents a charge to earnings necessary to establish an allowance for loan losses that, in our management's evaluation, should be adequate to provide coverage for the inherent losses on outstanding loans. The provision for loan losses amounted to \$1,707,000 and \$483,000 for the three months ended June 30, 2006 and 2005, respectively and \$2,094,000 and \$1,084,000 for the six months ended June 30, 2006 and 2005, respectively.

Based upon our management's evaluation of the loan portfolio, we believe the allowance for loan losses to be adequate to absorb our estimate of probable losses existing in the loan portfolio at June 30, 2006. An increase in loan volumes and an increase in charge-offs were the primary causes for the increase in our provision for loan losses in 2006 when compared to 2005.

Based upon management's assessment of the loan portfolio, we adjust our allowance for loan losses to an amount deemed appropriate to adequately cover inherent risks in the loan portfolio. While our policies and procedures used to estimate the allowance for loan losses, as well as the resultant provision for loan losses charged to operations, are considered adequate by our management and are reviewed from time to time by our regulators, they are necessarily approximate and imprecise. There exist factors beyond our control, such as general economic conditions both locally and nationally, which may negatively impact, materially, the adequacy of our allowance for loan losses and, thus, the resulting provision for loan losses.

*Noninterest Income.* Our noninterest income is composed of several components, some of which vary significantly between quarterly periods. Service charges on deposit accounts and other noninterest income generally reflect our growth, while investment services and fees from the origination of mortgage loans will often reflect market conditions and fluctuate from period to period. The opportunities for recognition of gains on loans and loan participations sold and gains on sales of investment securities may also vary widely from quarter to quarter and year to year and may diminish overtime as our lending and industry concentration limits increase.

The following is the makeup of our noninterest income for the three and six months ended June 30, 2006 and 2005 (dollars in thousands):

	<i>Three months ended June 30,</i>		<i>2006-2005 Percent Increase (decrease)</i>	<i>Six months ended June 30,</i>		<i>2006-2005 Percent Increase (decrease)</i>
	<i>2006</i>	<i>2005</i>		<i>2006</i>	<i>2005</i>

Edgar Filing: PINNACLE FINANCIAL PARTNERS INC - Form 10-Q

Total noninterest income	\$	4,380	\$	1,413	210.0%	\$	6,428	\$	2,594	147.8%
--------------------------	----	-------	----	-------	--------	----	-------	----	-------	--------

Service charge income for 2006 increased over that of 2005 due to increased volumes from our Rutherford County market and an increase in the number of Nashville deposit accounts subject to service charges. However, for the Nashville accounts, the increase in service charges in 2006 when compared to 2005 was offset significantly by the earnings credit rate provided by Pinnacle National to its commercial deposit customers. This earnings credit rate serves to reduce the deposit service charges for our commercial customers and is based on the average balances of their checking accounts at Pinnacle National. This earnings credit rate is indexed to a national index.

Also included in noninterest income are commissions and fees from our financial advisory unit, Pinnacle Asset Management, a division of Pinnacle National. At June 30, 2006, Pinnacle Asset Management was receiving commissions and fees in connection with approximately \$501 million in brokerage assets held with Raymond James Financial Services, Inc. compared to \$441 million at December 31, 2005. Additionally, at June 30, 2006 our trust department was receiving fees on approximately \$295 million in assets. Following our merger with Cavalry, we now offer trust services through the bank's trust division and insurance services through Miller and Loughry Insurance and Services, Inc. which we believe will increase our noninterest income in future periods.

Page 32

---

Additionally, mortgage related fees also provided for a significant portion of the increase in noninterest income between 2006 and 2005. These mortgage fees are for loans originated in both the Nashville and Rutherford County markets and subsequently sold to third-party investors. All of these loan sales transfer servicing rights to the buyer. Generally, mortgage origination fees increase in lower interest rate environments and decrease in rising interest rate environments. As a result, mortgage origination fees may fluctuate greatly in response to a changing rate environment.

We also sell certain loan participations to our correspondent banks. Such sales are primarily related to new lending transactions in excess of internal loan limits or industry concentration limits. At June 30, 2006 and pursuant to participation agreements with these correspondents, we had participated approximately \$80.4 million of originated loans to these other banks compared to \$60.3 million at December 31, 2005. These participation agreements have various provisions regarding collateral position, pricing and other matters. Many of these agreements provide that we pay the correspondent less than the loan's contracted interest rate. Pursuant to SFAS No. 140, "*Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities — a replacement of FASB Statement No. 125*", in those transactions whereby the correspondent is receiving a lesser amount of interest than the amount owed by the customer, we record a net gain along with a corresponding asset representing the present value of our net retained cash flows. The resulting asset is amortized over the term of the loan. Conversely, should a loan be paid prior to maturity any remaining unamortized asset is charged as a reduction to gains on loan participations sold. We recorded net gains of \$49,000 and \$122,000 during the three and six months ended June 30, 2006, respectively, compared to net gains of \$151,000 and \$137,000 for the same periods in 2005 related to the loan participation transactions. We intend to maintain relationships with our correspondents in order to sell participations in future loans to these or other correspondents primarily due to limitations on loans to a single borrower or industry concentrations. In general, the Cavalry merger has resulted in an increase in capital which has resulted in increased lending limits for such items as loans to a single borrower and loans to a single industry such that our need to participate such loans in the future will be reduced. In any event, the timing of participations may cause the level of gains, if any, to vary significantly.

Also included in noninterest income for the six months ended June 30, 2005, were net gains of approximately \$114,000 realized from the sale of approximately \$6.8 million of available-for-sale securities.

At the end of 2004, we formed a wholly-owned subsidiary, Pinnacle Credit Enhancement Holdings, Inc. ("PCEH"). PCEH owns a 24.5% interest in Collateral Plus, LLC. Collateral Plus, LLC serves as an intermediary between investors and borrowers in certain financial transactions whereby the borrowers require enhanced collateral in the form of guarantees or letters of credit issued by the investors for the benefit of banks and other financial institutions. Our equity in the earnings of Collateral Plus, LLC for the three and six months ended June 30, 2006 was \$22,000 and \$59,000, respectively.

*Noninterest Expense.* Noninterest expense consists of salaries and employee benefits, equipment and occupancy expenses, and other operating expenses. The following is the makeup of our noninterest expense for the three and six months ended June 30, 2006 and 2005 (dollars in thousands):

	<i>Three months ended June 30,</i>		<i>2006-2005 Percent Increase (decrease)</i>	<i>Six months ended June 30,</i>		<i>2006-2005 Percent Increase (decrease)</i>
	<i>2006</i>	<i>2005</i>		<i>2006</i>	<i>2005</i>	
<b>Noninterest expense:</b>						
Salaries and employee benefits:						
Salaries	\$ 4,798	\$ 2,316	107.2%	\$ 7,788	\$ 4,466	74.4%
Commissions	325	183	77.6%	559	353	58.4%
Other compensation, primarily incentives	1,100	419	162.5%	1,720	926	85.7%
Employee benefits and other	1,067	193	452.8%	1,671	336	397.3%
Total salaries and employee benefits	7,290	3,111	134.3%	11,738	6,081	93.0%

Postage and supplies	445	158	181.6%	631	294	114.6%
Other noninterest expense:						
Accounting and auditing	301	90	234.4%	473	180	162.8%
Consultants, including independent loan review	133	31	329.0%	164	63	160.3%
Legal, including borrower-related charges	24	36	(33.3)%	56	63	(11.1)%
OCC exam fees	58	42	38.1%	114	84	35.7%
Directors' fees	70	34	105.9%	126	99	27.3%
Insurance, including FDIC assessments	175	72	143.1%	276	152	81.6%
Other noninterest expense	1,249	315	296.2%	1,689	557	203.1%
Total other noninterest expense	2,010	620	224.0%	2,898	1,198	141.8%
Merger related expense	921	0	-	1,365	0	-
Total noninterest expense	\$ 13,105	\$ 4,963	164.1%	\$ 20,434	\$ 9,544	114.1%

Expenses have generally increased between the above periods due to personnel additions occurring throughout each period, the continued development of our branch network and other expenses which increase in relation to our growth rate. We anticipate continued increases in our expenses in the future for such items as additional personnel, the opening of additional branches, legal and audit expenses and other expenses which tend to increase in relation to our growth. We also will have increased noninterest expense as a result of our merger with Cavalry. Additionally, we adopted SFAS No. 123(R) in 2006 which addresses the accounting for employee equity based incentives. As a result, our compensation expense will increase in all future periods as a result of this accounting pronouncement. For the three and six months ended June 30, 2006, approximately \$250,000 and \$405,000, respectively, of compensation expense related to stock options is included in employee benefits and other expense.

At December 31, 2005, we employed 156.5 full time equivalent employees compared to 359.0 at June 30, 2006, an increase of 202.5 full time employees. We intend to continue to add employees to our work force for the foreseeable future, which will cause our salary and employee benefit costs to increase in future periods.

Included in noninterest expense for the three and six months ended June 30, 2006 is \$921,000 and \$1,365,000, respectively, of merger related expenses associated with the Cavalry merger. These charges consisted of integration costs incurred in connection with the merger, including accelerated depreciation associated with software and other technology assets whose useful lives were shortened as a result of the Cavalry acquisition.

## Financial Condition

Our consolidated balance sheet at June 30, 2006 reflects significant growth since December 31, 2005 as a result of our organic growth and the consummation of our merger with Cavalry. Total assets grew to \$1.99 billion at June 30, 2006 from \$1.02 billion at December 31, 2005, a 95.3% increase. Total deposits grew \$750 million during the six months ended June, 2006, including \$584 million acquired with the Cavalry merger. Substantially all of the additional deposits and other fundings were invested in loans, which grew by \$710 million during the six months ended June 30, 2006, including \$546 million in loans acquired in the Cavalry merger.

*Loans.* The composition of loans at June 30, 2006 and at December 31, 2005 and the percentage (%) of each classification to total loans are summarized as follows (dollars in thousands):

	<i>June 30, 2006</i>		<i>December 31, 2005</i>	
	<i>Amount</i>	<i>Percent</i>	<i>Amount</i>	<i>Percent</i>
Commercial real estate - Mortgage	\$ 260,168	19.2%	\$ 148,102	22.9%

Commercial - Other	503,797	37.0%	239,129	36.9%
Total commercial	928,014	68.3%	417,526	64.4%
Consumer real estate - Mortgage	294,119	21.7%	169,953	26.2%
Consumer real estate - Construction	86,978	6.4%	37,372	5.8%
Consumer - Other	49,162	3.6%	23,173	3.6%
Total consumer	430,259	31.7%	230,498	35.6%
Total loans	\$ 1,358,273	100.0%	\$ 648,024	100.0%

As noted above, based largely on the Cavalry merger, we have increased the percentage of our outstanding loans in commercial and consumer real estate construction significantly. These types of loans require that we maintain effective credit and construction monitoring systems. Also and as a result of the Cavalry merger, we have increased our resources in this area so that we can effectively manage this area of exposure through utilization of experienced professionals who are well-trained in this type of lending and who have significant experience in our geographic market.

*Non-Performing Assets.* The specific economic and credit risks associated with our loan portfolio include, but are not limited to, a general downturn in the economy which could affect employment rates in our market area, general real estate market deterioration, interest rate fluctuations, deteriorated or non-existent collateral, title defects, inaccurate appraisals, financial deterioration of borrowers, fraud, and any violation of laws and regulations.

We attempt to reduce these economic and credit risks by adherence to loan to value guidelines for collateralized loans, by investigating the creditworthiness of the borrower and by monitoring the borrower's financial position. Also, we establish and periodically review our lending policies and procedures. Banking regulations limit our exposure by prohibiting loan relationships that exceed 15% of Pinnacle National's statutory capital in the case of loans that are not fully secured by readily marketable or other permissible types of collateral. Furthermore, we have an internal limit for aggregate indebtedness to a single borrower of \$15 million. Our loan policy requires our board of directors approve any relationships that exceed this internal limit.

Pinnacle National discontinues the accrual of interest income when (1) there is a significant deterioration in the financial condition of the borrower and full repayment of principal and interest is not expected or (2) the principal or interest is more than 90 days past due, unless the loan is both well-secured and in the process of collection. At June 30, 2006, we had \$2,867,000 in loans on nonaccrual compared to \$460,000 at December 31, 2005. The increase in nonperforming loans between December 31, 2005 and June 30, 2006 was related to loans acquired from Cavalry and

identified as being impaired as discussed more fully below.

*Page 35*

---

There was approximately \$492,000 in other loans 90 past due and still accruing interest at June 30, 2006 compared to no loans at December 31, 2005. At June 30, 2006 and at December 31, 2005, no loans were deemed to be restructured loans. The following table is a summary of our nonperforming assets at June 30, 2006 and December 31, 2005 (dollars in thousands):

	<i>At June 30, 2006</i>	<i>At Dec. 31, 2005</i>
Nonaccrual loans (1)	\$ 2,867	\$ 460
Restructured loans	-	-
Other real estate owned	67	-
Total nonperforming assets	2,934	460
Accruing loans past due 90 days or more	492	-
Total nonperforming assets and accruing loans past due 90 days or more	\$ 3,426	\$ 460
Total loans outstanding	\$ 1,358,273	\$ 648,024
Ratio of nonperforming assets and accruing loans past due 90 days or more to total loans outstanding at end of period	0.25%	0.07%
Ratio of nonperforming assets and accruing loans past 90 days or more to total allowance for loan losses at end of period	23.32%	5.85%

---

(1) Interest income that would have been recorded in 2006 related to nonaccrual loans was \$54,000.

Potential problem assets, which are not included in nonperforming assets, amounted to approximately \$4.2 million or 0.31% of total loans outstanding at June 30, 2006, compared to \$1.2 million or 0.20% of total loans outstanding at December 31, 2005. Potential problem assets represent those assets with a potential weakness or a well-defined weakness and where information about possible credit problems of borrowers has caused management to have serious doubts about the borrower's ability to comply with present repayment terms. This definition is believed to be substantially consistent with the standards established by Pinnacle National's primary regulator for loans classified as substandard.

*Allowance for Loan Losses (ALL).* We maintain the ALL at a level that our management deems appropriate to adequately cover the inherent risks in the loan portfolio. As of June 30, 2006 and December 31, 2005, our allowance for loan losses was \$14,686,000 and \$7,858,000, respectively, which our management deemed to be adequate at each of the respective dates. The significant increase in our ALL was primarily the result of our merger with Cavalry. The judgments and estimates associated with our ALL determination are described under "Critical Accounting Estimates" above.

Approximately 68% of our loan portfolio at June 30, 2006 consisted of commercial loans compared to 64% at December 31, 2005. Using the North American Industry Classification System, we periodically analyze our loan position with respect to our borrowers' industries to determine if a concentration of credit risk exists to any one or more industries. We have significant credit exposures arising from loans outstanding and unfunded lines of credit to borrowers in the home building and land subdividing industry, the trucking industry and to lessors of residential and commercial properties. We evaluate our exposure level to these industry groups periodically in order to determine if additional allowance allocations are warranted. At June 30, 2006 and December 31, 2005, we determined that we did not have any excessive exposure to any single industry which would warrant additional allowance allocations.

The following is a summary of changes in the allowance for loan losses for the six months ended June 30, 2006 and for the year ended December 31, 2005 and the ratio of the allowance for loan losses to total loans as of the end of each period (dollars in thousands):

	<i>Six months ended June 30, 2006</i>	<i>Year ended Dec. 31, 2005</i>
Balance at beginning of period	\$ 7,858	\$ 5,650
Provision for loan losses	2,094	2,152
Allowance from Cavalry acquisition	5,102	-
Charged-off loans:		
Commercial real estate - Mortgage	-	-
Commercial real estate - Construction	-	-
Commercial - Other	(404)	(61)
Consumer real estate - Mortgage	-	(38)
Consumer real estate - Construction	-	-
Consumer - Other	(96)	(109)
Total charged-off loans	(500)	(208)
Recoveries of previously charged-off loans:		
Commercial real estate - Mortgage	-	-
Commercial real estate - Construction	-	-
Commercial - Other	102	3
Consumer real estate - Mortgage	-	231
Consumer real estate - Construction	-	-
Consumer - Other	30	30
Total recoveries of previously charged-off loans	132	264
Net (charge-offs) recoveries	(368)	56
Balance at end of period	\$ 14,686	\$ 7,858
Ratio of allowance for loan losses to total loans outstanding at end of period	1.08%	1.21%
Ratio of net charge-offs to average loans outstanding for the period	0.04%	(0.01)%

As a relatively new institution (excluding the impact of Cavalry), we do not have extensive loss experience comparable to more mature financial institutions; however, as our loan portfolio matures, we will have additional charge-offs as our losses materialize. We consider the amount and nature of our charge-offs in determining the adequacy of our allowance for loan losses.

At June 30, 2006, we assessed our allowance for loan losses using an assessment methodology for Pinnacle and a separate methodology for the former Cavalry franchise, the Cavalry methodology being consistent with Cavalry's past practice. In view of the acquisition, we are currently evaluating what changes should be made to the process by which we determine our consolidated allowance for loan losses. We expect to implement any such changes prior to the end of the third quarter of 2006.

Statement of Position 03-03, *Accounting for Certain Loans or Debt Securities Acquired in a Transfer* (“SOP 03-03”) addresses accounting for differences between contractual cash flows and cash flows expected to be collected from an investor's initial investment in loans or debt securities (loans) acquired in a transfer if those differences are attributable, at least in part, to credit quality (i.e., “impaired loans”). SOP 03-03 does not apply to loans originated by us but does apply to the loans we acquired in our merger with Cavalry. Our assessment indicated that Cavalry had approximately \$3.9 million of loans to which the application of the provisions of SOP 03-03 is required. As a result of the application of SOP 03-03, we recorded preliminary purchase accounting adjustments to reflect a reduction in loans and the allowance for loan losses of \$1.0 million related to these impaired loans thus reducing the carrying value of these loans to \$2.9 million at March 15, 2006. All of these loans were classified as nonperforming at June 30, 2006. The resulting impact on Cavalry's allowance for loan losses at March 15, 2006 was as follows:

<b>Impact of SOP 03-03 on Rutherford County's allowance for loan losses at March 15, 2006</b>	<b>Before Application of SOP 03-03</b>	<b>Impact of Application of SOP 03-03</b>	<b>After Application of SOP 03-03</b>
Allowance for loan losses	\$ 6,129	\$ 1,027	\$ 5,102
Fair value of Cavalry loans at acquisition date			\$ 550,700
Allowance for loan losses to fair value of Cavalry loans at acquisition date	1.11%		0.93%

*Investments.* Our investment portfolio, consisting primarily of Federal agency bonds, state and municipal securities and mortgage-backed securities, amounted to \$305.6 million at June 30, 2006 and \$279.1 million at December 31, 2005. Our investment portfolio serves many purposes including serving as a stable source of income, collateral for public funds and as a liquidity source. The most significant component of our investment portfolio is our mortgage-backed securities. At June 30, 2006, the fair value of our mortgage-backed securities was approximately \$200.0 million compared to a fair value at December 31, 2005, of approximately \$186.9 million. All of these securities were included in our available-for-sale securities portfolio. A statistical comparison of our mortgage-backed portfolio at June 30, 2006 and at December 31, 2005 is as follows:

	<b>June 30, 2006</b>	<b>December 31, 2005</b>
Weighted average life	4.60 years	4.81 years
Weighted average coupon	5.17 %	5.24 %
Tax equivalent yield	4.88 %	4.74 %
Modified duration (*)	3.75 %	3.71 %

(\*) Modified duration represents an approximation of the change in value of a security for every 100 basis point increase or decrease in market interest rates.

*Deposits and Other Borrowings.* We had approximately \$1.56 billion of deposits at June 30, 2006 compared to \$810 million at December 31, 2005. Our deposits consist of noninterest and interest-bearing demand accounts, savings accounts, money market accounts and time deposits. Additionally, we entered into agreements with certain customers to sell certain of our securities under agreements to repurchase the security the following day. These agreements (which are typically associated with comprehensive treasury management programs for our clients and provide them with short-term returns for their excess funds) amounted to \$104.4 million at June 30, 2006 and \$65.8 million at December 31, 2005. Additionally, at June 30, 2006, we had borrowed \$33.7 million in advances from the Federal Home Loan Bank of Cincinnati compared to \$41.5 million at December 31, 2005.

Generally, banks classify their funding base as either core funding or non-core funding. Core funding consists of all deposits other than time deposits issued in denominations of \$100,000 or greater while all other funding is deemed to be non-core. The following table represents the balances of our deposits and other fundings and the percentage of each type to the total at June 30, 2006 and December 31, 2005 (dollars in thousands):

*Page 38*

---

	<i>June 30,</i>	<i>Percent</i>	<i>Dec. 31,</i>	<i>Percent</i>
	<i>2006</i>		<i>2005</i>	
<b>Core funding:</b>				
Noninterest-bearing deposit accounts	\$ 312,709	18.1%	\$ 155,811	16.4%
Interest-bearing demand accounts	186,750	10.8%	72,521	7.6%
Savings and money market accounts	456,055	26.4%	304,162	32.1%
Time deposit accounts less than \$100,000	147,431	8.5%	31,408	3.3%
Total core funding	1,102,945	63.8%	563,902	59.5%
<b>Non-core funding:</b>				
Time deposit accounts greater than \$100,000				
Public funds	120,342	7.0%	106,928	11.3%
Brokered deposits	78,636	4.5%	55,360	5.8%
Other time deposits	257,963	14.9%	83,961	8.9%
Securities sold under agreements to repurchase	104,380	6.0%	65,834	6.9%
Federal Home Loan Bank advances	33,749	2.0%	41,500	4.4%
Subordinated debt	30,929	1.8%	30,929	3.3%
Total non-core funding	625,999	36.2%	384,512	40.5%
Totals	\$ 1,728,944	100.0%	\$ 948,414	100.0%

*Subordinated debt.* In 2003, we established PNFP Statutory Trust I, and in September of 2005, we established PNFP Statutory Trust II (collectively, the “Trusts”). Both are wholly-owned statutory business trusts. Pinnacle Financial is the sole sponsor of the Trusts and owns \$929,000 of the Trusts’ common securities. The Trusts were created for the exclusive purpose of issuing 30-year capital trust preferred securities (“Trust Preferred Securities”) in the aggregate amount of \$30,000,000 and using the proceeds from the issuance of the common and preferred securities to purchase \$30,929,000 of junior subordinated debentures (“Subordinated Debentures”) issued by Pinnacle Financial. The sole assets of the Trusts are the Subordinated Debentures. Our \$929,000 investment in the Trusts is included in other assets and the \$30,929,000 obligation of Pinnacle Financial is included in subordinated debt.

The \$10 million in Trust Preferred Securities issued in 2003 bear a floating interest rate based on a spread over 3-month LIBOR which is set each quarter and mature on December 30, 2033. The \$20 million in Trust Preferred Securities issued in 2005 bear interest at a fixed rate of 5.848% for the first five years and then at a floating rate based on a spread over 3-month LIBOR which is set each quarter and mature on September 30, 2035. Distributions are payable quarterly. The Trust Preferred Securities are subject to mandatory redemption upon repayment of the Subordinated Debentures at their stated maturity date or their earlier redemption in an amount equal to their liquidation amount plus accumulated and unpaid distributions to the date of redemption. Pinnacle Financial guarantees the payment of distributions and payments for redemption or liquidation of the Trust Preferred Securities to the extent of funds held by the Trusts. Our obligations under the Subordinated Debentures together with the guarantee and other back-up obligations, in the aggregate, constitute a full and unconditional guarantee by Pinnacle Financial of the obligations of the Trusts under the Trust Preferred Securities.

Interest on the Subordinated Debentures is payable quarterly on each of the debentures. We may defer the payment of interest at any time for a period not exceeding 20 consecutive quarters provided that the deferral period does not extend past the stated maturity. During any such deferral period, distributions on the Trust Preferred Securities will also be deferred and our ability to pay dividends on our common shares will be restricted.

The Trust Preferred Securities may be redeemed prior to maturity at our option on or after September 17, 2008 for PNFP Statutory Trust I and on or after September 30, 2010 for PNFP Statutory Trust II. The Trust Preferred Securities may also be redeemed at any time in whole (but not in part) in the event of unfavorable changes in laws or regulations that result in (1) the Trusts becoming subject to federal income tax on income received on the Subordinated Debentures, (2) interest payable by the parent company on the Subordinated Debentures becoming non-deductible for federal tax purposes, (3) the requirement for the Trusts to register under the Investment Company Act of 1940, as amended, or (4) loss of the ability to treat the Trust Preferred Securities as “Tier I capital” under the Federal Reserve capital adequacy guidelines.

*Capital Resources.* At June 30, 2006 and December 31, 2005, our stockholders' equity amounted to \$238.7 million and \$63.4 million, respectively, or an increase of \$175.3 million. This increase was primarily attributable to \$171.1 million as a result of the Cavalry acquisition and \$3.0 million in comprehensive income, which was composed of \$6.9 million in net income offset by \$3.9 million of net unrealized holding losses associated with our available-for-sale portfolio.

*Dividends.* Pinnacle National is subject to restrictions on the payment of dividends to Pinnacle Financial under federal banking laws and the regulations of the Office of the Comptroller of the Currency. We, in turn, are also subject to limits on payment of dividends to our shareholders by the rules, regulations and policies of federal banking authorities and the laws of the State of Tennessee. We have not paid any dividends to date, nor do we anticipate paying dividends to our shareholders for the foreseeable future. Future dividend policy will depend on Pinnacle National's earnings, capital position, financial condition and other factors.

### **Market and Liquidity Risk Management**

Our objective is to manage assets and liabilities to provide a satisfactory, consistent level of profitability within the framework of established liquidity, loan, investment, borrowing, and capital policies. Our Asset Liability Management Committee ("ALCO") is charged with the responsibility of monitoring these policies, which are designed to ensure acceptable composition of asset/liability mix. Two critical areas of focus for ALCO are interest rate sensitivity and liquidity risk management.

As a result of our merger with Cavalry, we are currently reviewing our interest rate sensitivity and liquidity risk management systems. We anticipate that during 2006, we may make certain modifications to these risk management systems. Although these modifications could be significant, we do not believe the impact of the addition of the net assets of Cavalry will cause our risk levels to fall materially outside our internal guidelines.

*Interest Rate Sensitivity.* In the normal course of business, we are exposed to market risk arising from fluctuations in interest rates. ALCO measures and evaluates the interest rate risk so that we can meet customer demands for various types of loans and deposits. ALCO determines the most appropriate amounts of on-balance sheet and off-balance sheet items. Measurements which we use to help us manage interest rate sensitivity include an earnings simulation model, an economic value of equity model, and gap analysis computations. These measurements are used in conjunction with competitive pricing analysis.

Earnings simulation model. We believe that interest rate risk is best measured by our earnings simulation modeling. Forecasted levels of earning assets, interest-bearing liabilities, and off-balance sheet financial instruments are combined with ALCO forecasts of interest rates for the next 12 months and are combined with other factors in order to produce various earnings simulations. To limit interest rate risk, we have guidelines for our earnings at risk which seek to limit the variance of net income to less than 10 percent for a 200 basis point change up or down in rates from management's flat interest rate forecast over the next twelve months. The results of our current simulation model would indicate that our net interest income should increase with a gradual rise in interest rates over the next twelve months and decrease should interest rates fall over the same period.

Economic value of equity. Our economic value of equity model measures the extent that estimated economic values of our assets, liabilities and off-balance sheet items will change as a result of interest rate changes. Economic values are determined by discounting expected cash flows from assets, liabilities and off-balance sheet items, which establishes a base case economic value of equity. To help limit interest rate risk, we have a guideline stating that for an instantaneous 200 basis point change in interest rates up or down, the economic value of equity will not change by more than 20 percent from the base case.

Gap analysis. An asset or liability is considered to be interest rate-sensitive if it will reprice or mature within the time period analyzed; for example, within three months or one year. The interest rate-sensitivity gap is the difference between the interest-earning assets and interest-bearing liabilities scheduled to mature or reprice within such time period. A gap is considered positive when the amount of interest rate-sensitive assets exceeds the amount of interest rate-sensitive liabilities (i.e., "asset sensitive"). A gap is considered negative when the amount of interest rate-sensitive liabilities exceeds the interest rate-sensitive assets (i.e., "liability sensitive"). During a period of rising interest rates, a negative gap would tend to adversely affect net interest income, while a positive gap would tend to result in an increase in net interest income. Conversely, during a period of falling interest rates, a negative gap would tend to result in an increase in net interest income, while a positive gap would tend to adversely affect net interest income. If our assets and liabilities were equally flexible and moved concurrently, the impact of any increase or decrease in interest rates on net interest income would be minimal.

Each of the above analyses may not, on its own, be an accurate indicator of how our net interest income will be affected by changes in interest rates. Income associated with interest-earning assets and costs associated with interest-bearing liabilities may not be affected uniformly by changes in interest rates. In addition, the magnitude and duration of changes in interest rates may have a significant impact on net interest income. For example, although certain assets and liabilities may have similar maturities or periods of repricing, they may react in different degrees to changes in market interest rates. Interest rates on certain types of assets and liabilities fluctuate in advance of changes in general market rates, while interest rates on other types may lag behind changes in general market rates. In addition, certain assets, such as adjustable rate mortgage loans, have features (generally referred to as "interest rate caps and floors") which limit changes in interest rates. Prepayment and early withdrawal levels also could deviate significantly from those assumed in calculating the maturity of certain instruments. The ability of many borrowers to service their debts also may decrease during periods of rising interest rates. ALCO reviews each of the above interest rate sensitivity analyses along with several different interest rate scenarios as part of its responsibility to provide a satisfactory, consistent level of profitability within the framework of established liquidity, loan, investment, borrowing, and capital policies.

We may also use derivative financial instruments to improve the balance between interest-sensitive assets and interest-sensitive liabilities and as one tool to manage our interest rate sensitivity while continuing to meet the credit and deposit needs of our customers. At June 30, 2006 and December 31, 2005, we had not entered into any derivative contracts to assist managing our interest rate sensitivity.

*Liquidity Risk Management.* The purpose of liquidity risk management is to ensure that there are sufficient cash flows to satisfy loan demand, deposit withdrawals, and our other needs. Traditional sources of liquidity for a bank include asset maturities and growth in core deposits. A bank may achieve its desired liquidity objectives from the management of its assets and liabilities and by internally generated funding through its operations. Funds invested in marketable instruments that can be readily sold and the continuous maturing of other earning assets are sources of liquidity from an asset perspective. The liability base provides sources of liquidity through attraction of increased deposits and borrowing funds from various other institutions.

Changes in interest rates also affect our liquidity position. We currently price deposits in response to market rates and our management intends to continue this policy. If deposits are not priced in response to market rates, a loss of deposits could occur which would negatively affect our liquidity position.

Scheduled loan payments are a relatively stable source of funds, but loan payoffs and deposit flows fluctuate significantly, being influenced by interest rates, general economic conditions and competition. Additionally, debt security investments are subject to prepayment and call provisions that could accelerate their payoff prior to stated maturity. We attempt to price our deposit products to meet our asset/liability objectives consistent with local market conditions. Our ALCO is responsible for monitoring our ongoing liquidity needs. Our regulators also monitor our liquidity and capital resources on a periodic basis.

In addition, Pinnacle National is a member of the Federal Home Loan Bank of Cincinnati. As a result, Pinnacle National receives advances from the Federal Home Loan Bank of Cincinnati, pursuant to the terms of various borrowing agreements, which assist it in the funding of its home mortgage and commercial real estate loan portfolios. Pinnacle National has pledged under the borrowing agreements with the Federal Home Loan Bank of Cincinnati certain qualifying residential mortgage loans and, pursuant to a blanket lien, all qualifying commercial mortgage loans as collateral. At June 30, 2006, Pinnacle National had received advances from the Federal Home Loan Bank of Cincinnati totaling \$33.7 million at the following rates and maturities (dollars in thousands):

*Page 41*

---

	Amount	Interest Rate
August 25, 2006	\$ 1,000	3.81%
September 29, 2006	4,000	2.39
January 26, 2007	2,000	3.24
September 4, 2007	1,000	3.95
December 29, 2008	10,000	4.97
January 27, 2009	15,000	5.01
April 1, 2020	749	2.25
Total	\$ 33,749	
<i>Weighted average interest rate</i>		4.45%

At June 30, 2006, brokered certificates of deposit approximated \$78.6 million which represented 4.5% of total fundings compared to \$55.4 million and 5.8% at December 31, 2005. We issue these brokered certificates through several different brokerage houses based on competitive bid. Typically, these funds are for varying maturities from six months to two years and are issued at rates which are competitive to rates we would be required to pay to attract similar deposits from the local market as well as rates for Federal Home Loan Bank of Cincinnati advances of similar maturities. We consider these deposits to be a ready source of liquidity under current market conditions.

At June 30, 2006, we had no significant commitments for capital expenditures. However, we are in the process of developing our branch network in the Nashville/Davidson/Murfreesboro MSA. As a result, we anticipate that we will enter into contracts to buy property or construct branch facilities and/or lease agreements to lease facilities in the Nashville/Davidson/Murfreesboro MSA.

*Off-Balance Sheet Arrangements.* At June 30, 2006, we had outstanding standby letters of credit of \$61.7 million and unfunded loan commitments outstanding of \$459.1 million. Because these commitments generally have fixed expiration dates and most will expire without being drawn upon, the total commitment level does not necessarily represent future cash requirements. If needed to fund these outstanding commitments, Pinnacle National has the ability to liquidate Federal funds sold or securities available-for-sale, or on a short-term basis to borrow and purchase Federal funds from other financial institutions. At June 30, 2006, Pinnacle National had accommodations with upstream correspondent banks for unsecured short-term advances. These accommodations have various covenants related to their term and availability, and in most cases must be repaid within less than a month.

### Impact of Inflation

The consolidated financial statements and related consolidated financial data presented herein have been prepared in accordance with accounting principles generally accepted in the United States and practices within the banking industry which require the measurement of financial position and operating results in terms of historical dollars without considering the changes in the relative purchasing power of money over time due to inflation. Unlike most industrial companies, virtually all the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates have a more significant impact on a financial institution's performance than the effects of general levels of inflation.

### Recent Accounting Pronouncements

FASB Staff Position on SFAS No. 115-1 and SFAS No. 124-1 ("the FSP"), "The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments," was issued in November 2005 and addresses the determination of when an investment is considered impaired; whether the impairment is other-than-temporary; and how to measure an impairment loss. The FSP also addresses accounting considerations subsequent to the recognition of an

other-than-temporary impairment on a debt security, and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporary impairments. The FSP replaces the impairment guidance on Emerging Issues Task Force (EITF) Issue No. 03-1 with references to existing authoritative literature concerning other-than-temporary determinations. Under the FSP, losses arising from impairment deemed to be other-than-temporary, must be recognized in earnings at an amount equal to the entire difference between the securities cost and its fair value at the financial statement date, without considering partial recoveries subsequent to that date. The FSP also requires that an investor recognize an other-than-temporary impairment loss when a decision to sell a security has been made and the investor does not expect the fair value of the security to fully recover prior to the expected time of sale. The FSP was effective for reporting periods beginning after December 15, 2005. The initial adoption of this statement did not have a material impact on our financial position or results of operations.

In May 2005, the FASB issued SFAS No. 154, "Accounting Changes and Error Corrections—a replacement of APB Opinion No. 20 and FASB Statement No. 3." This statement changes the requirements for the accounting for and reporting of a change in accounting principle. This statement applies to all voluntary changes in accounting principle. It also applies to changes required by an accounting pronouncement in the unusual instance that the pronouncement does not include specific transition provisions. When a pronouncement includes specific transition provisions, those provisions should be followed. APB 20 previously required that most voluntary changes in accounting principle be recognized by including in net income of the period of the change the cumulative effect of changing to the new accounting principle. SFAS 154 requires retrospective application to prior period financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. This statement does not change the guidance for reporting the correction of an error in previously issued financial statements or the change in an accounting estimate. SFAS 154 was effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005.

SFAS No. 156, "Accounting for Servicing of Financial Assets - an amendment of FASB Statement No. 140." SFAS 156 requires an entity to recognize a servicing asset or servicing liability each time it undertakes a contractual obligation to service a financial asset in certain circumstances. All separately recognized servicing assets and servicing liabilities are required to be initially measured at fair value. Subsequent measurement methods include the *amortization* method, whereby servicing assets or servicing liabilities are amortized in proportion to and over the period of estimated net servicing income or net servicing loss, or the *fair value* method, whereby servicing assets or servicing liabilities are measured at fair value at each reporting date and changes in fair value are reported in earnings in the period in which they occur. If the amortization method is used, an entity must assess servicing assets or servicing liabilities for impairment or increased obligation based on the fair value at each reporting date. SFAS 156 is effective for fiscal years beginning after December 15, 2006. We are currently evaluating the impact of SFAS 156 on our consolidated financial statements.

In July 2006, the FASB issued FASB Interpretation 48, "Accounting for Income Tax Uncertainties" ("FIN 48"). FIN 48 defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. The recently issued literature also provides guidance on the derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. FIN 48 also includes guidance concerning accounting for income tax uncertainties in interim periods and increases the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective for fiscal years beginning after December 15, 2006. The differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption will be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. We are currently evaluating the impact of FIN 48 on our consolidated financial statements.

In June 2006, the Emerging Issues Task Force issued EITF No. 06-4, "Accounting for Deferred Compensation and Postretirement Benefits Aspects of Endorsement Split-Dollar Life Insurance Arrangements." The EITF concluded that deferred compensation or postretirement benefit aspects of an endorsement split-dollar life insurance arrangement should be recognized as a liability by the employer and the obligation is not effectively settled by the purchase of a life insurance policy. The effective date is for fiscal years beginning after December 15, 2006. We are currently evaluating the impact of EITF 06-4 on our consolidated financial statements.

In June 2006, the Emerging Issues Task Force issued EITF No. 06-5, "Accounting for Purchases of Life Insurance - Determining the Amount that Could Be Realized in Accordance with FASB Tech Bulletin 85-4." The EITF concluded that a policyholder should consider any additional amounts included in the contractual terms of the life insurance policy in determining the "amount that could be realized under the insurance contract." For group policies with multiple certificates or multiple policies with a group rider, the Task Force also tentatively concluded that the amount that could be realized should be determined at the individual policy or certificate level, i.e., amounts that would be realized

only upon surrendering all of the policies or certificates would not be included when measuring the assets. The effective date is for fiscal years beginning after December 15, 2006. We are currently evaluating the impact of EITF 06-5 on our consolidated financial statements.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The information required by this Item 3 is included on pages 40 through 42 of Item 2 - "Management's Discussion and Analysis of Financial Condition and Results of Operations."

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

Pinnacle Financial maintains disclosure controls and procedures, as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed by it in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to Pinnacle Financial's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Pinnacle Financial carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures as of the end of the period covered by this report. Based on the evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer concluded that Pinnacle Financial's disclosure controls and procedures were effective.

#### **Changes in Internal Controls**

For the three months ended June 30, 2006, Pinnacle Financial expanded its internal control system over financial reporting to incorporate procedures specifically related to its merger with Cavalry Bancorp, Inc. We reviewed the financial information obtained from Cavalry from April 1, 2006 thru the date such information was integrated into Pinnacle Financial's financial data systems and performed additional procedures with respect to such information in order to determine its accuracy and reliability. Pinnacle Financial anticipates that it will continue to monitor and enhance its system of internal controls over financial reporting in 2006, particularly with respect to the continued integration of Cavalry.

There were no other changes in Pinnacle Financial's internal control over financial reporting during Pinnacle Financial's fiscal quarter ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, Pinnacle Financial's internal control over financial reporting.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

There are no material pending legal proceedings to which the Company is a party or of which any of their property is the subject.

### ITEM 1A. RISK FACTORS

There have been no material changes to our risk factors as previously disclosed in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2005.
