**NEWS RELEASE**

**VICTORIA RINGS UP A NEW CHOICE FOR HOME PHONE SERVICE**

**Shaw Digital Phone arrives to offer a new, reliable alternative**

**CALGARY, AB (October 12, 2005)** Shaw Communications announced today that a new choice for home phone service is now available in Victoria. Shaw Digital Phone has arrived, giving customers unlimited North American calling, all the popular home phone features, and industry-leading reliability for a flat monthly rate.

The service is priced at \$55.00 per month for Shaw customers when they bundle the service with any other Shaw service, such as Cable TV, Digital TV, or High-Speed Internet.

Customers across Western Canada have embraced this new choice for home phone service and we're extremely excited to bring the service to B.C. and the provincial capital, said Jim Shaw, CEO of Shaw Communications Inc. Our phone customers appreciate the ability to call anywhere, anytime across North America to keep in touch with friends and family.

Shaw Digital Phone also includes professional installation, enhanced-911 service, directory and operator services, and 24/7/365 customer support, all at no additional cost. Customers also have the option of keeping their current home phone number, and the service works with existing telephones in a customer's home, so no additional equipment is required.

The Victoria launch continues the positive momentum of Shaw Digital Phone across Western Canada and represents Shaw's fourth market launch this year. The new service has continued to exceed the company's expectations as more and more customers in Western Canada choose to move their home phone service to Shaw.

Unique to Shaw Digital Phone is the ability to receive a new phone number and get connected to the service the next day. When customers find out they can have a Shaw technician at their home for an installation tomorrow and begin enjoying their home phone service right away, they're taking advantage of the opportunity, continued Jim Shaw.

Shaw Digital Phone is a primary line telephone service that uses Shaw's managed broadband network, not the public Internet, allowing Shaw to offer a consistent level of quality and reliability to its phone customers.

Shaw Communications Inc. is a diversified Canadian communications company whose core business is providing broadband cable television, Internet, Digital Phone, telecommunications services (through Big Pipe Inc.) and satellite direct-to-home services (through Star Choice Communications Inc.) to approximately 3.0 million customers. Shaw is traded on the Toronto and New York stock exchanges and is a member of the S&P/TSX 60 index (Symbol: TSX - SJR.NV.B, NYSE - SJR).
