

Edgar Filing: IMA EXPLORATION INC - Form 6-K

IMA EXPLORATION INC
Form 6-K
February 10, 2004

SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER
PURSUANT TO RULE 13a-16 OR 15d-16 UNDER
THE SECURITIES EXCHANGE ACT OF 1934

For the month of FEBRUARY , 2004.

IMA EXPLORATION INC.

(Translation of registrant's name into English)

#709 - 837 West Hastings Street, Vancouver, British Columbia, V6C 3N6, Canada

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F:

Form 20-F X Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): _____

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): _____

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Edgar Filing: IMA EXPLORATION INC - Form 6-K

Yes _____ No X _____

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3- 2(b): 82-_____

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf of the undersigned, thereunto duly authorized.

IMA Exploration Inc.

MATERIAL CHANGE REPORT

Section 85(1) of the Securities Act, British Columbia
(the "British Columbia Act")
Section 118(1) of the Securities Act, Alberta (the "Alberta Act")
Section 75(2) of the Securities Act, Ontario (the "Ontario Act")

1. REPORTING ISSUER

The full name of the Issuer is IMA Exploration Inc. (the "Issuer"). The address and telephone number of the principal office in Canada of the Issuer is as follows:

#709 - 837 West Hastings Street
Vancouver, BC
V6C 3N6
Phone: (604) 687-1828

2. DATE OF MATERIAL CHANGE

February 5, 2004

3. PRESS RELEASE

Edgar Filing: IMA EXPLORATION INC - Form 6-K

A press release dated February 05, 2004, a copy of which is attached, was released through various approved public media and filed with the TSX Venture Exchange and the British Columbia, Alberta and Ontario Securities Commissions.

4. SUMMARY OF MATERIAL CHANGE(S)

Please see attached press release for details.

5. FULL DESCRIPTION OF MATERIAL CHANGE

Please see attached press release for full details.

6. RELIANCE ON SECTION 85(2) OF THE BRITISH COLUMBIA ACT, SECTION 118(2) OF THE ALBERTA ACT AND SECTION 75(3) OF THE ONTARIO ACT

Not Applicable

NEWS RELEASE

February 5, 2004

IMA'S DRILLING AT NAVIDAD INTERSECTS 115 METERS GRADING 454 G/T (13 OZ/T) SILVER AT GALENA HILL

IMA Exploration Inc. (IMR-TSX.V) is pleased to announce results from drill holes 12 through 14. Hole 14 contains the most significant drill intersection of high-grade mineralization encountered to date at the Company's 100% owned Navidad silver discovery. Highlights include 18.0m of 1,421.2g/t (41.5oz/t) silver, 0.42% copper, 5.24% lead and 1.69% zinc within a much longer intercept of 115.1m grading 453.6 g/t (13.2oz/t) silver, 0.08% copper, 5.26% lead and 0.50% zinc (see Table 1). Hole NV04-14 is located approximately 160 meters along strike to the northwest from drill holes 3, 4, and 5 where results, including 83m grading 229g/t silver, were announced January 6, 2004.

The Company's drill program is now on hole 27 and continuing at a rapid pace, with over 4,400m of the 8,500m expanded drill program completed to date. Drill results will be released as they are received and an updated summary of drill hole locations is available on IMA's website (www.imaexploration.com), as is a summary of the Company's rigorous quality-control and quality-assurance procedures. Dr. Paul Lhotka is IMA's "Qualified Person" at the Navidad project and has overseen all aspects of the current program.

IMA Exploration Inc. is well financed to carry out its exploration objectives and focuses on quality exploration work designed to define economic gold and silver deposits in Argentina and Peru. IMA has put together an enviable property portfolio including over 37 well-located, high-potential projects and is continuing to add to this package through grass-roots exploration and staking.

TECHNICAL SUMMARY

The high-grade intercept in NV04-14 spans the contacts between sulphide-rich mudstones and underlying mineralized volcanic breccias. Locally, this Galena Matrix Breccia contains copper sulphides and may represent the subsurface equivalent of copper-bearing carapace breccias identified in the surface sampling. Hole NV04-14 is interpreted as being in or near a feeder zone of replacement mineralization within the volcanic stratigraphy; this stratigraphy is capped by stratiform mineralization at the base of the overlying mudstone unit. This mineralization is similar to, but higher-grade than the previously reported hole NV03-05.

Further evidence of stratigraphically-controlled mineralization was found in hole NV04-12 where again the contact of the mudstone-volcanic unit is mineralized. Mudstone-hosted stratiform mineralization in NV04-12 contains the first significant zinc values identified at Navidad, with some intervals containing up to 4.6% zinc. The zinc mineral has not been visually identified. The lower part of the mudstone unit in NV04-12 contains 9.0m of 41.6 g/t Ag, 8.01% lead and 2.56% zinc. The volcanic breccias immediately underlying the mudstone host Galena Matrix Breccia and returned an intercept of 7.7 m grading 70.8 g/t Ag, 9.60% lead and 0.54% zinc. The mudstone-volcanic contact is gently west-dipping and forms a dip slope with the mineralization present at shallow depths below surface. Hole NV04-12 indicates a style of mineralization with strong stratigraphic control that was predicted before drilling started by IMA

Edgar Filing: IMA EXPLORATION INC - Form 6-K

geologists. This style of mineralization is contemporaneous with the replacement and structurally controlled mineralization previously discovered and highlights the contemporaneous nature of volcanism, sedimentation and mineralization.

Hole NV04-13 tested a zone of mineralization that outcrops on Galena Hill and is hosted along the margin of a felsic flow-dome. The hole intersected breccia that

- 2 -

is interpreted to be structurally controlled and is sparsely mineralized with galena and pyrite. Assay results indicate the breccias are silver-bearing and contain an intercept of 44.7m grading 223.4 g/t silver, 0.16% copper and 0.56% lead. This mineralization is texturally distinct from the holes drilled at Navidad Hill. However, like mineralization at Navidad Hill, this intersection demonstrates the potential to find significant silver mineralization with low sulphide concentrations that are not associated with strong chargeability anomalies in the I.P. surveys.

ON BEHALF OF THE BOARD

/s/ Joseph Grosso

Mr. Joseph Grosso, President & CEO

For further information please contact Joseph Grosso, President & CEO, or Sean Hurd, Investor Relations Manager, at 1-800-901-0058 or 604-687-1828, or fax 604-687-1858, or by email info@imaexploration.com, or visit the Company's web site at <http://www.imaexploration.com>.
