To Our Stockholders:

On behalf of NetSol's dedicated employees, strategic partners and valued customers, it is my pleasure to share with you the accomplishments of the past year - a year which will go down in NetSol's history as a watershed year. It is our belief that our tremendous success in 2005 is just the beginning and we are extremely excited about NetSol's outlook.

Our business plan that was approved by the board of directors in 2004 included significant capital investments. Accordingly, throughout 2004, the company focused on capital - intellectual, technological and financial capital. We invested in a sound infrastructure to support future growth. We invested in building a seasoned team of professionals who could design, develop and aggressively market a world class suite of software and services. As a result, we more than doubled our revenues for fiscal 2005 and posted, for the first time, net profit in Q1 2005 and have since then maintained a streak of profits for the last six quarters consecutively. The demand for our offshore services started to surge, brand awareness of NetSol improved on a global scale, sales of our flagship product, LeaseSoft, and related information technology ("IT").

The dramatic top line growth was driven by new licensing agreements with DaimlerChrysler and Toyota. We signed our first major contract with Toyota Leasing Thailand for over \$2.3 million - the largest contract in NetSol history. In addition to strengthened relationships with some blue chip clients, we have been experiencing an overall surge in demands for higher valued contracts particularly in Asia Pacific markets. This is a testament of the global acceptance and maturation of LeaseSoft into a sophisticated, top tier, asset based leasing software suite.

The significant influx of LeaseSoft license agreements and exponential growth in our services business resulted in a 116 percent increase in revenue for fiscal 2005. Contributing to this dramatic growth was our wholly owned subsidiary, NetSol Technologies(Pvt) Ltd. with its record revenue of \$6.6 million.

NetSol has become a premium Information Technology ("IT") company in Pakistan as is evidenced by the awards of Biggest IT Exporter by NCR and IT Pioneer by the Pakistani IT Ministry in 2004-2005. Our domestic business in most of 2005 thrived both in the public and private sectors of Pakistan. Our name recognition and good works has resulted in the respect and appreciation of the highest level of leadership and IT ministry. In March of 2005, we held an inauguration ceremony for our new state-of-the-art facility for IT services and software development, NetSol IT Village, in Lahore, Pakistan. During the ceremony, Pakistan's Prime Minister Aziz praised NetSol, its employees and its founders for its contribution to the growth of the country's IT industry.

Along with our significant organic growth, we made significant strides in growth through acquisitions, joint ventures and strategic alliances. In February 2005, we completed our acquisition of CQ Systems Ltd., located in Horsham, UK. The acquisition of CQ Systems has been our most significant and successful acquisition thus far. The acquisition has elevated NetSolCQ, the renamed and combined UK company, to a new platform in the European markets. We acquired a matured IT company in our domain, with a healthy revenue stream, a profitable business, high quality employees and customers across Europe. NetSolCQ signed off a strategic alliance with Fiserv, a financial institution, to give NetSol a needed recognition in the finance and banking industry. NetSolCQ Systems is now effectively migrating some of its projects to the Company's development facility in Lahore to improve both productivity and operating margins. NetSolCQ, has been transformed into an international organization offering an improved, innovative range of high quality leasing and finance software solutions for its clients.

In early 2005, NetSol forged a watershed joint venture ("JV") alliance with a UK based insurance processors The Innovation Group (TiG). TiG would create a brand new revenue and profit stream for NetSol. Starting with five programmers in January 2005, the newly launched JV entity, known as 'Extended Innovation', which is hosted at NetSol's Lahore facility, now has over 60 programmers fully dedicated to TiG customers worldwide. The revenue from this JV by far exceeded our own internal estimates and exceeded over \$2.0 million in the very first year. We are very excited by this JV and we expect this to become our biggest revenue contributor in 2007 with steady net margins exceeding 50%.

To further our position as a center of IT excellence, we were named an Oracle Approved Education Centre. This strategic partnership with Oracle leverages partner facility and instructor resources to deliver Oracle Education's core curriculum to the marketplace. NetSol has now created a new division in alliance with Oracle to bid collectively in major public sector projects in Pakistan.

Another significant milestone in 2005 was our Pakistan-based subsidiary, NetSol Technologies, Ltd., being the first IT company to go public in Pakistan with shares trading on the Karachi Stock Exchange Ready Board (KSE) on August 26, 2005, under the symbol 'NETSOL.' The listing of our subsidiary provided NetSol with higher visibility and credibility in an emerging capital market and one of the fastest growing economies in the South East Asia. Our stock has performed extremely well at KSE with a high of Rs. 56 in January 2006 in comparison with the IPO price of Rs. 25.

During 2004, we announced to shareholders and the financial community a major goal of establishing a strong footprint in the U.S., Europe and Asia. Today, we are already capturing market share in all three regions. Our latest contract with DaimlerChrysler Auto Finance China is one of the largest LeaseSoft contracts to date, having been the first time we implemented the entire product suite simultaneously. Additionally, the new Beijing, China, office is fully operational and serving as a service delivery base for legacy systems migration, information technology consultancy, and software engineering, from our resources in India. With two new client projects already underway, the Asia Pacific region promises to be one of the largest opportunities for our leasing and asset management solutions. We plan on continued aggressive expansion in all of these regions as we move forward in 2006.

Our tremendous success to date is a direct reflection of our ability to continue hiring the best and brightest in the industry. To advance the company's mission and remain competitive on a global scale, it is imperative that our employees and board of directors have direct experience in building and managing global finance, leasing and services. Throughout 2005, we continued to add exceptional talent to our organization. Ms. Tina Gilger joined NetSol's executive team as our new Chief Financial Officer of the parent company. Graham Tarrant was appointed to the newly created position of Chief Product Architect, and focuses on driving the development of the next generation of the LeaseSoft product family. We were also pleased to announce the appointment of Derek Soper to our board of directors. We also moved Paul Grace from CQ Systems to head our new office in China. In addition to these industry veterans, we hired more than 100 engineering, marketing, sales, and technical services professionals during the year.

Let us briefly mention a serious natural disaster, the earthquake in October 2005 devastating Northern Pakistan which affected millions of people in a most rugged terrain. Pakistan had never witnessed anything like this disaster that contributed to loss of 100,000 lives with millions more displaced and homeless. Fortunately, no one at any location of NetSol was hurt. Our main technology campus was unaffected. But, there was a temporary disruption of normal business activities causing some delays in our local business in Pakistan and that was fully expected. Our caring employees in USA, UK and in Pakistan made generous donations to earthquake President Relief Funds to help the victims of this earthquake.

We strongly encourage you to vote your proxies or attend the annual meeting of stockholders on April 21, 2006 in New York City, New York. With the second quarter of fiscal 2006 behind us, we are now seeing all business units across the globe contributing to what was our sixth consecutive quarter of profitability, remain confident in our guidance in excess of \$19 million in revenue and, expect to continue the profitability trend throughout fiscal 2006.

We congratulate and thank each of our shareholders. Your loyalty, patience and support have directly impacted our growth and success. You are now owners in a profitable, global software and IT services provider with record revenue growth, marquee customers and strategic partners who are leaders in their markets. January 2006 marked NetSol's 10 year anniversary, and we believe our combination of intellectual, financial, and technological capital will continue to drive our success moving forward.

We thank you again for your continued support and confidence in us.

Sincerely,

Najeeb U. Ghauri

(Proposal No. One)**ELECTION OF DIRECTORS****GENERAL INFORMATION**

The Bylaws of the Company provide that the Company is authorized to have up to nine directors, and that stockholders will elect the directors of the Company at each annual meeting. Directors are elected to serve a one-year term. Directors being elected at the Annual Meeting will serve until the Company's next annual meeting of stockholders, or until their successors have been duly elected and qualified. The Board of Directors does not contemplate that any of the persons it will nominate will be unable or unwilling to serve as a director. However, if that should occur, the Board of Directors reserves the right to name a substitute nominee at the Annual Meeting and persons named as nominees may exercise their discretion to vote for such nominee.

The board is currently comprised of seven members. All seven members are standing for re-election.

The seven nominees receiving the highest number of affirmative votes of the shares present in person or represented by proxy and entitled to vote for them, a quorum being present, shall be elected as directors. Only votes cast for a nominee will be counted, except that the accompanying proxy will be voted for all nominees in the absence of instruction to the contrary. Abstentions, broker nonvotes and instructions on the accompanying proxy to withhold authority to vote for one or more nominees will result in the respective nominees receiving fewer votes. However, the number of votes otherwise received by the nominee will not be reduced by such action. Mr. Soper replaced Mr. Irfan Mustafa in mid-term. Mr. Mustafa had to resign for personal reasons and not due to any disagreements with the Company or otherwise. Mr. Mustafa has chosen not to seek re-election for this term.

The Company's nominating committee evaluates a potential nominee by considering whether the potential nominee meets the minimum qualifications described above, as well as by considering the following factors:

- whether the potential nominee has leadership, strategic, or policy setting experience in a complex organization, including any scientific, governmental, educational, or other non-profit organization;

- whether the addition of the potential nominee to the Board of Directors would assist the Board of Directors in achieving a mix of Board members that represents a diversity of background and experience, including diversity with respect to age, gender, national origin, race, and competencies;
- whether the potential nominee has high ethical character and a reputation for honesty, integrity, and sound business judgment;
- whether the potential nominee is independent, as defined by NASDAQ listing standards, whether he or she is free of any conflict of interest or the appearance of any conflict of interest with the best interests of the Company and its shareholders, and whether he or she is willing and able to represent the interests of all shareholders of the Company; and
- Any factor which would prohibit the potential nominee to devote sufficient time to its business.

In addition, with respect to an incumbent director whom the nominating committee is considering as a potential nominee for re-election, the Company's nominating committee reviews and considers the incumbent director's service to the Company during his or her term, including the number of meetings attended, level of participation, and overall contribution to the Company. The manner in which the nominating committee evaluates a potential nominee will not differ based on whether the potential nominee is recommended by a shareholder or the Company.

The Company did not pay any fee to any third party to identify or evaluate or assist in identifying or evaluating potential nominees for director at the 2006 Annual Meeting of Shareholders.
