**Notes to the Consolidated Financial Statements**

Corresponding to the nine-month periods beginning on July 1, 2007 and 2006  
and ended on March 31, 2008 and 2007

**NOTE 1: BASIS OF PRESENTATION OF THE FINANCIAL STATEMENTS**

As a consequence of the application of the unifying accounting standards approved by the Comisión Nacional de Valores (C.N.V.), which require that consolidated Financial Statements be presented as established by Technical Resolution No. 21 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas (F.A.C.P.C.E.), the Balance Sheet as of March 31, 2008 and 2007 and the Statements of Income and the Statements of Cash Flows for the nine-month periods ended on those dates were consolidated on a line by line basis with the financial statements of such companies in which it holds a majority of the voting shares (see Note 1.b to the basic financial statements).

Since December 31, 2006, Cresud S.A. has stopped the application of the proportional consolidation method with Cactus Argentina S.A. (Cactus), due to the reduction of the interest in Cactus from 50% to 24% (see Note 12.c of the basic financial statements).

The financial statements of the subsidiary companies Inversiones Ganaderas S.A., Futuros y Opciones.Com S.A. and Agropecuaria Cervera S.A. as of March 31, 2008 and 2007 have been used in order to determine the investment at its equity value and line by line consolidation.

For purposes of comparability, certain reclassifications have been made on the information as of June 30, 2007 and March 31, 2007.

These Financial Statements and the corresponding notes and schedules are presented in Argentine Pesos.

**Notes to the Consolidated Financial Statements (Continued)**

**NOTE 3:** (Continued)

When adding Agropecuaria Cervera S.A. (ACER), the total price paid was allocated to identified individual assets; they include PS. 23.6 million as concession rights that are booked as intangible assets (See Exhibit B) to these stand-alone financial statements.

High relevant valuation and disclosure criteria applied in preparing the financial statements of Agropecuaria Cervera S.A. (ACER) and not explained in the valuation criteria note of the holding company are as follows:

**Valuation criteria - fixed assets**

The tree plantations included in the caption have been valued at replacement cost in accordance with the Tree Plantation Increase Report made in December 2003 by a forestry expert at the request of ACER previous shareholders.

ACER former board of directors based on such report as well as on own estimates accepted the value of Ps. 4,320,000 and recorded an equal amount in retained earnings in shareholders equity.

The current ACER management has reclassified such asset as Fixed Asset on the basis of its destination of use.

**Long-term investments**

Long-term investments of Inversiones Ganaderas S.A. (IGSA) in affiliates were valued by the equity method.

The positive goodwill related to acquiring an additional interest in IRSA Inversiones y Representaciones S.A. generated by the acquisition of GDR s has been valued at cost, which was calculated as the difference between the value paid by such investment and the book value of the interest acquired. As to this goodwill, IGSA is currently analyzing the fair value of assets and liabilities acquired, identified as provided by Technical Resolution No. 21. point 1.3.1.

**Other considerations    concessions granted**

Among other goods and rights ACER has the concession planning and execution of an integral development project including: biological, economical and social issues on several real estates located in the department of Anta, province of Salta. The company is also duty authorized to perform a significant agricultural, cattle farming and forestry project which was awarded under resolution No. 190/99 and bidding No. 58/98 of the Ministry of Production and Employment.

Such concession was granted for a 35 year term with a postponement option of 29 additional years by ACER.

Among other obligations ACER has to invest Ps. 16 million in agriculture, cattle farming, hydraulic resources, continuing education, forestry development, forest planting, fauna, natural reserve and eco-tourism, and has to pay an annual US\$ 60,000 cannon to the province of Salta to be paid as from the 20th year as from the commencement of the concession.

Corresponding to the nine-month periods beginning as from July 1, 2007 and 2006

and ended on March 31, 2008 and 2007

**NOTE 1: ACCOUNTING STANDARDS**

Below is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous period.

a. Presentation standards

These financial statements are stated in Argentine Pesos (Ps.), and have been prepared in accordance with the disclosure and valuation accounting standards contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas (F.A.C.P.C.E.), as approved, with resolutions issued by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires (C.P.C.E.C.A.B.A.) and the Comisión Nacional de Valores (C.N.V.).

b. Unifying of accounting standards

On July 8, 2004, the F.A.C.P.C.E. and the C.P.C.E.C.A.B.A. entered into an agreement with the purpose of unifying technical standards. The latter council issued Resolution CD 93/05 on August 10, 2005 adopting the accounting standards approved by the former including the changes up to April 1, 2005.

The standards referred to above became effective for annual or interim periods financial statements of years started on January 1, 2006. On the other hand, the C.N.V. has adopted the same standards including certain modifications, and has also established their applicability for the years started as from January 1, 2006 as well.

The changes introduced due to the unifying of accounting standards that have generated significant effects on the Company's financial statements are:

In accordance with the new accounting standards, the Company has decided not to recognize the deferred liabilities generated by the adjustment for inflation on fixed assets and other non-monetary assets. Consequently, additional information on this issue is stated in Note 6.

The balance of the Transitory Conversion Differences account has to be shown in the statement of changes in stockholders' equity as from the time the unifying accounting standards became effective.

The financial statements for the nine-month periods ended March 31, 2008 and 2007 have not been audited. The Company's management estimates that such statements include all adjustments necessary to fairly present the income accounts of each period, which do not necessarily show the proportion of the Company's profits and losses for the entire fiscal years.

c. The effects of inflation

## Edgar Filing: CRESUD INC - Form 6-K

The financial statements have been prepared in constant currency units by recognizing the effects of inflation up to August 31, 1995. As from this date and up to December 31, 2001 the restatement of the financial statements has been discontinued due to that period of monetary stability. As from January 1, 2002 and up to March 2003 the effects of inflation were recognized as it was an inflationary period. As from such date, in accordance with Resolution 441

2. Goodwill

The negative goodwill corresponding to the investment in Inversiones y Representaciones S.A. (IRSA) had been valued at cost restated as of February 28, 2003, and calculated as a difference between the market value of such investment and its equity value at the time of changing the March 2002-valuation method, and in each one of the purchases restated, if any, at that same date (Note 1.c) as well as the investment arising from subsequent acquisitions and from the conversion of negotiable bonds into shares or share warrants of IRSA at cost value.

The negative goodwill related to the recent acquisition of the additional interest in IRSA Inversiones y Representaciones S.A. generated by the conversions of corporate bonds into shares and exercising warrants, mentioned in note 14, has been valued at cost, which was calculated as a difference between the value paid for such investment and the book value of the interest acquired. As to this goodwill, the Company is currently analyzing the fair value of assets and liabilities acquired identified as provided by Technical Resolution No. 21. Point 1.3.1.

Amortization is calculated in accordance with the estimated useful life, which is 20 years and has been classified under Gain (loss) from controlled and related companies in the statement of income.

m. Other investments

**SUMMARY as of March 31, 2008**

**Buenos Aires, May 12, 2008** - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BCBA: CRES), one of the leading agricultural companies in Argentina, announces today its results for the first nine months of fiscal 2008, ended March 31, 2008.

**The results for the nine-month period of 2008 showed a net profit of Ps. 27.6 million** compared to the Ps.36.7 million profit for the same period of the previous fiscal year. The decrease in the net result is mainly due to a 49.9% decrease in results from our ownership interests in related companies.

**Consolidated net sales for the period** were Ps. 103.2 million, 89.9% higher than the figure recorded for the same period of the previous fiscal year. This rise is mainly due to a 214.1% increase in the sales of crops resulting from the rise in the tons sold and the higher average prices per ton compared to the same period of the previous year.

**Gross profit** for the first nine-month period of fiscal year 2008 was Ps.37.4 million compared to Ps.25.3 million gross profit for the same period the previous year.

This rise in gross profit is due to the improvement in the results from sales based on the increase in sales of crops, milk and other.

**Operating results** for the period ended on March 31, 2008 amounted to a Ps. 33.8 million profit, compared to a Ps. 12.7 million profit as recorded a year earlier. This difference arises mainly from the fact that income was recorded in the second quarter of fiscal 2008 as a result of the sale of 4,974 hectares in the Los Pozos farm and of the adjustment in the valuation of other assets at their net realizable value as from the execution of the preliminary sales agreement with the assignment of possession over 2,471 hectares in the La Esmeralda farm.

**Results from related companies** were a Ps.20.1 million profit compared to a Ps.40.2 million profit in the same period of fiscal year 2007, mainly due to the result of our ownership share in IRSA Inversiones y Representaciones S.A. as of March 31, 2008.

**Summary of operations**

**Crops**

Crop sales totaled Ps. 53.1 million for the period of 2008 under consideration, compared to Ps. 16.9 million crop sales for the previous period. In terms of volume, crop sales amounted to 96,201 tons at an average price per ton of Ps. 557 compared to 40,352 tons sold at an average price of Ps. 419 during the same period of the previous fiscal year. The increase in the tons sold is mainly due to the higher levels of crop inventories at the beginning of fiscal 2008. Crop output dipped from 69,861 tons for the first nine months of fiscal 2007 to 60,560 tons for the same period of fiscal 2008. In turn, at March 2008, the percentage surface area planted amounted to 31.7%. Income from production totaled Ps. 36.5 million, 18.1% higher than the income obtained from production in the same period of fiscal 2007. This increase has been mainly due to the increase in the prices of the commodities traded.

The stock of crops as of the end of the period totaled 39,029 tons, broken down as follows: 14,519 tons of wheat, 8,999 tons of corn, 6,930 tons of sunflower and 6,798 tons of soybean. The balance corresponds to barley, sorghum and other crops.

Gross profit in this segment for the period ended March 31, 2008 amounted to Ps. 16.8 million compared to the Ps. 10.3 million profit for the same period in the previous fiscal year.

Business Highlight (Continued)

For the current season we have allocated 59,547 hectares to our agricultural activities, 28,747 hectares out of the above total are leased from third parties and 3,963 hectares are operated under concessions. Compared to the previous fiscal year, the total number of hectares allocated to agricultural activities has risen by 7,032.

The table below shows the degree of progress of harvesting for the various crops as of March 31, 2008:

Crop	Hectares sown	Tons harvested	% harvested
Wheat	6,164	21,583	99.2%

<b>Total</b>	<b>59,547</b>	<b>60,560</b>	<b>31.7%</b>

In late 2007, the Argentine Secretariat of Agriculture and Livestock resolved to close the wheat export registries. At present, the associations representing agricultural farmers and the Government are conducting negotiations to reach an agreement as now is the time to define the direction of the winter season.

In turn, in November 2007, the Argentine Government increased withholdings on exports of soybean and its by-products (from 27.5% to 35%), wheat (from 20% to 28%) and corn (from 20 to 25%). Under this mechanism the Government withheld a fixed percentage over the FOB price of crops, which meant that any future price increase would have an impact on the level of the revenues earned by farmers and by the Government. In early March 2008, the Argentine Government changed such mechanism to turn it into a sliding scale withholding regime applicable to oilseed, grains and by-products. With this system, the percentage of marginal withholdings applied rises to the extent there is a rise in the price per ton of the commodity allowing the Government to take hold of the price increase in excess of certain levels under which farmers are subject to a scheme with characteristics similar to a regime that sets maximum prices.

The following is the scheme of sliding-scale withholdings established for each type of crop:

Faced with this decision, the entities that represent farmers called a nationwide strike as a sign of protest. Right now, both the Government and these entities are conducting negotiations to reach an agreement.

**Beef cattle**

At March 31, 2008, the Company had a 98,989-head cattle stock, and the hectares allocated to beef cattle activities totaled 130,395.

Sales of beef showed a slight decline compared to the previous fiscal year, as they went from Ps. 20.6 million as of March 31, 2007 to Ps. 18.9 million as of March 31, 2008. During the first nine months of this fiscal year sales totaled 7,384 tons, whereas in the same period of the previous fiscal year the tons sold had amounted to 8,680. Beef cattle output was 7,053 tons, which indicated a 13.1% decrease compared to the previous fiscal year. The drop in the volumes of sales and output was mainly due to the de-consolidation of Cactus Argentina S.A. due to the reduction in our interest in said company from 50% down to 24%, compared to the proportional consolidation of the results of Cactus Argentina S.A. with those of Cresud for the first nine months of fiscal 2007.

Gross profit, which in the first nine months of fiscal 2007 had been a Ps. 7.9 million profit, went down to Ps. 7.3 million for the first nine months of fiscal 2008.

In March 2008, the Argentine Government decided to close the registries for beef exports seeking to prevent an increase in prices in the domestic market. In early May 2008, the registries for beef exports were re-opened. The Argentine Government and the entities representing the industry are currently conducting negotiations to reach an agreement.

As regards the international scenario, the prices of beef cattle strengthened during 2007 due to a slow recovery in demand. The European Union has recently closed its borders to Brazilian beef for health-related reasons, which measure pushed up prices even more. Restricted inputs, in combination with the continued increase in demand, are expected to strengthen international beef prices in the short term.

**Milk**

Milk output increased by 26.3% in the period, up from 12.6 million liters at March 31, 2007 to 15.9 million at March 31, 2008. This increase was mainly due to the start of production at the new dairy facility in our La Juanita farm, which saw its milking capacity rise to 1,800 cows as well as an improvement in the efficiency of daily average output per head.

During the first nine months, sales totaled Ps. 13.2 million, 98.1% higher than sales for the first nine months of fiscal 2007. The increase in sales is due both to the increase in output and to the increase in the average price per liter of milk.

During the first nine months of fiscal 2007 we had 7,043 head of cattle over 2,376 hectares allocated to the production of milk, whereas in the period under consideration the number of head has risen to 8,514 over 3,723 hectares. On average, we have 3,100 cows in milking per day, 18.3% more than the average a year earlier.

Gross profit in this segment amounted to Ps. 4.5 million, compared to the Ps. 2.5 million profit for the first nine months of the previous fiscal year, which points to an 80.1% improvement.

At present, the Company's dairy facilities are located at La Juanita and El Tigre, a dairy facility equipped with state-of-the-art technology.

**Purchase and Sale of Farms**

In March 2008 we executed a preliminary purchase agreement for an undivided 80% over 980 hectares in the La Esperanza farm in the Province of La Pampa. The price of the transaction was fixed at US\$ 1.3 million. Thirty per cent of the price was paid at the execution of the preliminary purchase agreement and the balance shall be paid upon delivering the deed. This is a farm with outstanding prospects for agricultural activities.

During the first six months of fiscal 2008 we executed the preliminary agreement to purchase the remaining 25% undivided interest over 72 hectares of the La Adela farm in the Province of Buenos Aires. We also executed the sales deed for 4,974 hectares in the Los Pozos farm located in the Province of Salta, for a price of US\$ 225.0 per hectare, whereas the Company had recorded the value of the plot in its books at US\$ 7.0 per hectare. This sale yielded income for approximately US\$ 1.0 million. In turn, a preliminary sales agreement that included the assignment of possession was executed concerning 2,471 hectares in the La Esmeralda farm located in the Province of Santa Fe. This plot of land has been valued at its net realizable value, with income for approximately US\$ 5.2 million being recognized. The Company had this plot booked at US\$ 309 per hectare, whereas the price of the transaction was agreed at US\$ 2,549 per hectare.

**Development of Marginal Lands**

We believe that there is major potential in the development of marginal land: with the help of currently available technologies we can obtain yields in these lands similar to, and returns better than, those in the core areas.

During the third quarter of fiscal 2008 development efforts continued at our Los Pozos farm located in the province of Salta, and we expect that by the end of the fiscal year there will be 62,000 net hectares of prairies planted. In addition, we continued with the development of Agropecuaria Cervera S.A. with our goal being to reach the end of fiscal 2008 with 17,500 hectares in production.

At March 31, 2008, Cresud had as land reserves 224,682 hectares of its own land, which had been acquired at very affordable prices, and 152,889 hectares in farms assigned to it under concessions. In our opinion, the development of these areas, accompanied by technological breakthroughs will contribute to an appreciation in the value of land which will in turn imply significant gains for the Company.

**Results from IRSA Inversiones y Representaciones S.A.**

The net income posted by IRSA Inversiones y Representaciones (NYSE: IRS BCBA: IRSA) for the nine months ended on March 31, 2008 totaled Ps.22.9 million compared to the Ps.113.9 million income posted during the same period of fiscal 2007. It must be noted that in the first quarter of the current fiscal year, IRSA had recorded a Ps. 30 million loss, which means that in the second and third quarter it had the capacity of generating income sufficient to offset the loss in cumulative terms. Besides, this drop in income that arises from the comparison to the same period of the previous fiscal year is not explained by factors inherent in the operation of the various business segments that showed good performance throughout the fiscal year but rather by non-operational results, such as an increase in financial expenses and losses sustained by other companies. The result recorded is mainly due to the following:

IRSA's operating income improved considerably, reaching Ps.223.7 million as of March 31, 2008 compared to Ps.159.8 million as of March 31, 2007. Such increase was mainly driven by the better performance shown by revenues, which rose by 58.7%, up from Ps. 521.9 million at March 31, 2007 to Ps. 828.5 million at March 31, 2008. The share of IRSA's various segments in net sales was as follows: sales and developments Ps.175.2 million, offices and other rental properties Ps.73.0 million, shopping centers Ps.252.0 million, hotels Ps.115.1 million, credit cards Ps.212.7 million and financial operations and others Ps.0.5 million.

The results from related companies showed a loss of Ps.16.5 million compared to a gain of Ps.25.4 million in the same period of fiscal 2007. This may be mainly attributed to IRSA's interest in Banco Hipotecario S.A. which incurred extraordinary losses in fiscal 2008.

As regards financial results, they entailed a Ps.74 million loss for the nine months ended on March 31, 2008, compared to income for Ps.23.6 million in the same period of fiscal 2007. The reason for this variation is twofold: on one hand, there is the issuance of Notes (Negotiable Obligations) by IRSA and APSA in fiscal 2007 which accrued interest as reflected in the increase in financing expenses. On the other hand, there was an impairment in certain financial assets in the portfolio resulting from the conditions prevailing in the market.

IRSA is Argentina's leading real estate company with a fully diversified portfolio of properties. IRSA is actively engaged in the following business segments:

Office rental with more than 241,332 sqm. of premium office space for lease.

Operation of Shopping Centers through its 62.5% equity interest in Alto Palermo S.A. (APSA) (Nasdaq: APSA, BCBA: APSA). APSA is one of the leading operators of shopping centers in Argentina and owns or has majority interests in 10 shopping centers with a total of 261,999 sqm. of Gross Leaseable Area.

Holding and operation of luxury hotels through its equity interest in 3 five-star hotels.

Besides, IRSA owns residential properties for sale and land reserves for current and future developments amounting to a book value of Ps.465.8 million.

Additionally, IRSA has an 11.76% ownership interest in Banco Hipotecario, the leading Argentine mortgage bank whose net worth amounts to Ps.2,469.9 million. This amount has been calculated in accordance with professional accounting standards.

IRSA's total consolidated assets amount to Ps. 4,199 million and its net worth amounts to Ps. 1,892 million.

**Other Relevant Events****Financial Debt**

As a result of the great investment opportunities that we consummated during the previous fiscal year, such as our interest in BrasilAgro and the acquisition of farms together with the growth in our developments in North West Argentina in the course of this fiscal year, we have incurred indebtedness at levels in excess of previous fiscal years, and at March 31, 2008 such indebtedness totals Ps. 176.2 million.

The analysis of the components of such debt shows a loan granted by Credit Suisse to finance our investment in BrasilAgro for Ps. 25.3 million and Ps. 46.6 million to finance our production of crops. The balance, i.e., Ps. 104.3 million is mostly short-term debt.

Type of indebtedness	Currency	Equivalent Amount in Pesos (million)	Term
Short-term	Ps.	104.3	Up to 180 days
Crop production financing	US\$	46.6	Up to 144 days
Medium-term	US\$	25.3	Up to 215 days

Note: The exchange rate considered for the loans denominated in US\$ was US\$ 1= Ps. 3.168, which reflects the selling exchange rate as published by Banco de la Nación Argentina and prevailing on March 31, 2008.

**Capital Increase**

In the month of March 2008, the process to increase our capital by 180 million shares of par value Ps. 1 per share and the right to one vote per share which had been approved by the Shareholders Meeting dated October 10, 2007 was completed. Thus, a total of 180 million shares that had been offered at a subscription price of US\$ 1.60 or Ps. 5.0528 per share was fully subscribed by both local and foreign investors.

After this capital increase, the Company's outstanding shares amount to 500,774,772.

Additionally, for each share subscribed, each shareholder received, at no additional charge, 1 warrant that entitles its holder to purchase 0.33333333 new shares at a price of US\$ 1.68 per share to be bought. This means that 180 million warrants were granted which entitle their holders to buy a total of 60 million additional shares at the price mentioned. These warrants expire on May 22, 2015. The warrants are listed on the Buenos Aires Stock Exchange under the ticker symbol CREW2. We have additionally applied for listing on the Nasdaq.

**Prospects for the coming quarter**

The prospects of the agricultural industry at the global, regional and national levels are highly appealing. We believe that companies such as Cresud, with a history that goes back many years and in-depth knowledge of the industry will be in an unbeatable position to take advantage of the best opportunities arising in the market.

Business Highlight (Continued)

Within the favorable international context, Cresud has wisely tapped the opportunities in the sector. We have to emphasize the appreciation of the farms and the decisions made regarding the acquisition and sale of lands, which have allowed the Company to raise significant revenues; such as the sale of 4,974 hectares in the Los Pozos farm and of 2,471 hectares in the La Esmeralda farm for values close to 32 times and 8 times their book value. Cresud has increased its planted surface area in the last year and an increase has been perceived in the output in tons of the crops with a high degree of progress in harvesting as of March 31, 2008.

The last quarter of the fiscal year exerts the greatest impact on the agricultural and livestock business as a major portion of the soybean and corn seasons is harvested. We will continue with the harvest of crops in this season and we will start to prepare to plant the crops for the next stage.

As regards our cattle beef business, the strategy for the next quarter will be to continue with production and to focus on vertical integration so that we can slaughter our own cattle and export on behalf of third parties.

We will also continue with the expansion of our milk business. Besides, we are analyzing the possibility of growing in the milk production chain with by-products.

In terms of land being phased into production, we will continue to move forward also in the last quarter of fiscal 2008 with the development of marginal land in order to complete the 17,500 hectares in production in Agropecuaria Cervera S.A. and the 62,000 net hectares of planted prairies in our Los Pozos farm.

In line with our regional expansion strategy, we are currently analyzing new alternatives in other Latin American countries that offer conditions of soil, weather and infrastructure fit for agricultural development. We believe that there is an attractive opportunity to acquire and develop agricultural properties outside Argentina and our aim is to replicate our business model in countries such as Brazil, Bolivia, Paraguay and Uruguay. Our idea is to put together a regional portfolio with a major potential for appreciation.
