**Grupo Radio Centro Reports Results for Third Quarter and First Nine Months of 2007**

---

Mexico City, October 23, 2007 - Grupo Radio Centro, S.A.B. de C.V. (NYSE: RC, BMV: RCENTRO-A) (the "Company"), one of Mexico's leading radio broadcasting companies, announced today its results of operations for the third quarter and nine months ended September 30, 2007. All figures were prepared in accordance with the Mexican Financial Reporting Standards ("MFRS") issued by the Mexican Board for Research and Development of Financial Information Standards and have been restated in constant pesos as of September 30, 2007.

***Third Quarter Results***

Broadcasting revenue for the third quarter of 2007 was Ps. 177,282,000, representing a decrease of 7.3% compared to Ps. 191,239,000 reported for the third quarter of 2006. This decrease was mainly attributable to lower advertising expenditures by the Company's clients, who purchased less airtime in the third quarter of 2007 compared to the third quarter of 2006.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the third quarter of 2007 were Ps. 104,301,000, representing a decrease of 15.4% compared to Ps. 123,359,000 reported for the third quarter of 2006. This decrease was primarily due to (i) the decrease in the allowance for doubtful accounts in the third quarter of 2007 compared to the third quarter of 2006 when the Company had a larger-than-usual reserve in connection with receivables that the Company ultimately sold in December 2006, (ii) a lower provision for severance payments to Company employees in accordance with Bulletin D-3 "Labor Obligations" under MFRS, and (iii) lower sales commissions paid to the Company's sales force as a result of the reduction in broadcasting revenue in the third quarter of 2007 compared to the third quarter of 2006.

For the third quarter of 2007, the Company reported broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) of Ps. 72,981,000, an increase of 7.5% compared to Ps. 67,880,000 reported for the third quarter of 2006. This increase in broadcasting income was mainly attributable to the decrease in broadcasting expenses described above.

Depreciation and amortization expenses for the third quarter of 2007 were Ps. 8,342,000, a 12.1% decrease compared to Ps. 9,495,000 reported for the third quarter of 2006. Depreciation and amortization expenses were lower in the third quarter of 2007 than in the third quarter of 2006 primarily due to the Company no longer recording depreciation on certain broadcasting equipment, the useful lives of which ended subsequent to the fourth quarter of 2006.

The Company's corporate, general and administrative expenses were Ps. 2,784,000 for the third quarter of 2007, a 4.0% increase compared to Ps. 2,677,000 reported for the third quarter of 2006.

**Grupo Radio Centro, S.A.B. de C.V.**  
Third Quarter and Nine Months Results

The Company reported operating income of Ps. 61,855,000 for the third quarter of 2007, an increase of 11.0% compared to operating income of Ps. 55,708,000 reported in the third quarter of 2006. This increase was due to lower broadcasting expenses during the third quarter of 2007 compared to the third quarter of 2006.

The Company's comprehensive financing cost for the third quarter of 2007 was Ps. 3,096,000, compared to a comprehensive financing cost of Ps. 393,000 reported for the third quarter of 2006. This unfavorable change was mainly due to a significant increase in the loss on net monetary position, from Ps. 290,000 in the third quarter of 2006 to Ps. 2,830,000 in the third quarter of 2007 due to a higher level of monetary assets relative to monetary liabilities during the third quarter of 2007.

During the third quarter of 2007, other expenses, net were Ps. 11,717,000, a 37.7% decrease compared to Ps. 18,811,000 reported for the third quarter of 2006. This decrease was mainly attributable to lower legal expenses during the third quarter of 2007 compared to the third quarter of 2006.

In the third quarter of 2007, the Company reported income before extraordinary items and provisions for income tax and employee profit sharing of Ps. 47,042,000, a 28.9% increase compared to Ps. 36,504,000 reported for the third quarter of 2006, mainly as a result of the decrease in broadcasting expenses and other expenses described above. For the third quarter of 2006, the Company recorded extraordinary income of Ps. 3,847,000 as a result of the inflation adjustment to the extraordinary income that was recorded in June 2006 in connection with the reversal of the provision for the contingent liability relating to the Infored arbitration.

For the third quarter of 2007, the Company reported income before provisions for income tax and employee profit sharing of Ps. 47,042,000, compared to Ps. 40,351,000 for the third quarter of 2006.

The Company recorded provisions for income tax and employee profit sharing of Ps. 14,682,000 for the third quarter of 2007, compared to Ps. 8,652,000 for the third quarter of 2006. This increase in provisions was primarily due to higher taxable income for the third quarter of 2007 compared to the third quarter of 2006.

As a result of the foregoing, the Company's net income for the third quarter of 2007 was Ps. 32,360,000, compared to net income of Ps. 31,699,000 in the third quarter of 2006.

***Nine Months Results***

For the nine months ended September 30, 2007, broadcasting revenue was Ps. 447,800,000, representing a 27.7% decrease compared to Ps. 619,627,000 reported for the same period of 2006. The decrease in broadcasting revenue was mainly attributable to a decrease in advertising expenditures by political parties, which purchased more airtime in 2006 in connection with the July 2006 presidential and congressional elections.

The Company's broadcasting expenses (excluding depreciation, amortization and corporate, general and administrative expenses) for the nine months ended September 30, 2007 were Ps. 312,071,000, a 12.1% decrease compared to Ps. 355,016,000 reported for the same period of 2006. This decrease was primarily due to the decrease in allowance for doubtful accounts, the decrease in sales commissions to the Company's general sales force as a result of the decrease in broadcasting revenue, and a lower provision for severance payments to Company employees during the nine months ended September 30, 2007 compared to the same period of 2006.

Third Quarter and Nine Months Results

Broadcasting income (i.e., broadcasting revenue minus broadcasting expenses, excluding depreciation, amortization and corporate, general and administrative expenses) for the nine months ended September 30, 2007 was Ps. 135,729,000, representing a decrease of 48.7% compared to Ps. 264,611,000 reported for the same period of 2006. This decrease was mainly attributable to the decrease in broadcasting revenue described above.

Depreciation and amortization expenses for the nine months ended September 30, 2007 were Ps. 25,636,000, a decrease of 8.2% compared to Ps. 27,917,000 reported for the same period of 2006. This decrease was attributable to the Company no longer recording depreciation on certain broadcasting equipment, the useful lives of which ended subsequent to the fourth quarter of 2006.

The Company's corporate, general and administrative expenses for the nine months ended September 30, 2007 were Ps. 9,858,000, a slight decrease compared to Ps. 9,916,000 reported for the same period of 2006.

As a result of the foregoing, the Company reported operating income of Ps. 100,235,000 for the nine months ended September 30, 2007, a 55.8% decrease compared to Ps. 226,778,000 reported for the same period of 2006.

The Company's comprehensive financing cost for the nine months ended September 30, 2007 was Ps. 5,105,000, a 37.0% decrease compared to Ps. 8,104,000 reported for the same period of 2006. This favorable change was mainly due to a decrease in interest expense for the nine months ended September 30, 2007 compared to the same period of 2006 as a result of the Company no longer recording interest on bank debt after paying off the remaining balance of its bank debt in May 2006. The favorable effect of this decrease was partially offset by a loss on net monetary position of Ps. 3,604,000 for the nine months ended September 30, 2007, compared to a gain on net monetary position of Ps. 1,037,000 reported for the same period of 2006 due to a higher level of monetary assets relative to monetary liabilities during the nine months ended September 30, 2007.

Other expenses, net for the nine months ended September 30, 2007 were Ps. 31,654,000, a 26.5% decrease compared to Ps. 43,047,000 reported for the same period of 2006. This decrease was mainly attributed to lower legal expenses during the nine months ended September 30, 2007 compared to the same period of 2006.

For the nine months ended September 30, 2007, the Company had income before extraordinary items and provisions for income tax and employee profit sharing of Ps. 63,476,000, a 63.9% decrease compared to Ps. 175,627,000 reported for the same period of 2006, mainly as a result of the decrease in broadcasting revenue described above.

For the nine months ended September 30, 2007, the Company reported income before provisions for income tax and employee profit sharing of Ps. 63,476,000, compared to Ps. 435,790,000 reported for the same period of 2006. In addition to higher broadcasting revenue, the 2006 period benefited from extraordinary income of Ps. 260,163,000, resulting from the cancellation in June 2006 of a provision for the contingent liability relating to the Infored arbitration.
