PORTA SYSTEMS CORP. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Management's Responsibility For Interim Financial Statements Including All Adjustments Necessary For Fair Presentation

Management acknowledges its responsibility for the preparation of the accompanying interim consolidated financial statements which reflect all adjustments, consisting of normal recurring adjustments, considered necessary in its opinion for a fair statement of its consolidated financial position and the results of its operations for the interim period presented. These consolidated financial statements should be read in conjunction with the summary of significant accounting policies and notes to consolidated financial statements included in the Company's Form 10-K annual report for the year ended December 31, 2006. These financial statements have been prepared assuming that the Company will continue as a going concern and, accordingly, do not include any adjustments that might result from the outcome of the uncertainties described within. The audit opinion included in the December 31, 2006 Form 10-K annual report contained an explanatory paragraph regarding the Company's ability to continue as a going concern. The factors which resulted in the explanatory paragraph are continuing. Results for the third quarter or the first nine months of 2007 are not necessarily indicative of results for the year.

Note 2: Inventories

Inventories are stated at the lower of cost (on the average or first-in, first-out method) or market. The composition of inventories at the end of the respective periods is as follows (net of reserve of \$1,953,000 for 2007 and \$2,345,000 for 2006):

	September 30, 2007	December 31, 2006
	(In thousands)	
Parts and components	\$ 3,535	\$ 3,637
Work-in-process	1,096	543
Finished goods	1,345	411
	\$ 5,976	\$ 4,591

Note 3: Senior and Subordinated Debt

On September 30, 2007, the Company's liability to its senior debt holder was \$23,373,000 plus accrued interest of \$312,000. During the fourth quarter of 2004, SHF IX LLC, an affiliate of Stonehill Financial, LLC, purchased the Company's senior debt of approximately \$25,000,000 from Wells Fargo Foothill, Inc. The Company has made payments through September 30, 2007 totaling \$2,876,000 as required by amendments and extensions of the loan agreement, of which \$659,000 was applied to interest and \$2,217,000 was applied to principal. On February 7, 2007 Cheyne Special Situations Fund L.P ("Cheyne") purchased the Company's senior debt of approximately \$23,400,000 from SHF IX, LLC and subsequently extended the maturity of the senior debt to February 1, 2008. Through September 30, 2007, the Company had made interest payments of approximately \$493,000 to Cheyne. The Company can not give any assurance that the holder of its senior debt will extend the loan beyond February 1, 2008. Any adverse event, including declines in business, could have an effect on the decision of the senior debt holder to extend or demand payment on the notes. If the senior debt holder does not extend the maturity of the Company's senior debt beyond February 1, 2008 or if the senior debt holder demands payment of all or a significant portion of the senior debt when due, the Company will not be able to continue in business, and it is likely that it will seek protection under the Bankruptcy Code. See Note 8 regarding additional loans to the Company, subsequent to September 30, 2007.

As of September 30, 2007, the Company's short-term debt also included \$6,144,000 principal amount of subordinated notes that became due on July 3, 2001 and \$385,000 principal amount of 6% debentures which became due on July 2, 2002. The interest rate on the 6% debentures increased to 8.26% as a result of our failure to make interest payments on the debentures since July 1, 2000 and our failure to pay principal on July 2, 2002. The interest rate on the subordinated note increased to 15% as a result of our failure to pay the subordinated notes when due on July 3, 2001. Accrued interest on the subordinated notes and the 6% debentures was approximately \$6,844,000, which represents interest through September 30, 2007. We are precluded by our senior debt holder from paying any principal or interest on the subordinated debt.

Note 4: Accounting for Stock Based Compensation

For the nine months ended September 30, 2007, the Company issued nonqualified stock options to purchase 20,000 shares of common stock under its 1999 Plan that provides for the automatic grant to non-management directors. This Plan provides for the automatic grant to non-management directors of non-qualified options to purchase 5,000 shares on May 1st of each year commencing May 1, 1999, based upon the average closing price of the last ten trading days of April of each year. Options under this Plan have a term of 10 years. The Company uses the Black-Scholes valuation model and straight-line amortization of compensation expense over the requisite service period when granting stock options. All options previously granted are fully vested. Based on the Black-Scholes valuation model there is no non-cash compensation expense attributable to stock options granted during the quarters. Stock compensation expense for all vested options to date is diminutive.

Note 5: Segment Data

The Company has two reportable segments: Line Connection and Protection Equipment ("Line") whose products interconnect copper telephone lines to switching equipment and provide fuse elements that protect telephone equipment and personnel from electrical surges, and Signal Processing ("Signal") whose products are used in data communication devices that employ high frequency transformer technology.

The Company formerly had a third reportable segment - Operating Support Systems ("OSS"), which was engaged in the business of marketing, manufacturing and selling products that automated the testing, provisioning, maintenance and administration of communication networks and the management of support personnel and equipment. Due to continuing losses in the OSS division, combined with difficulties in marketing OSS products in view of the Company's financial condition, the Company decided in December 2003 that it would discontinue this operating segment. As a result, the Company limited the OSS activities to the performance of contractual maintenance and warranty services through June 2007 (see Note 7). Accordingly, as of June 30, 2007, the net assets of \$434,000 of this operation were written off and the results of operations of the OSS division have been segregated and reported separately as discontinued operations on the consolidated financial statements in this Form 10-Q.

The factors used to determine the above segments focused primarily on the types of products and services provided, and the type of customer served. Each of these segments is managed separately from the others, and management evaluates segment performance based on operating income.

There has been no significant change, from December 31, 2006, in the basis of measurement of segment revenues and profit or loss, and no significant change in the Company's assets for the Line and Signal reporting segments.

	Nine Months Ended		Three Months Ended	
	September 30, 2007	September 30, 2006	September 30, 2007	September 30, 2006
Sales:				
Line	\$ 18,228,000	\$ 21,308,000	\$ 5,594,000	\$ 7,694,000
Signal	3,694,000	3,731,000	1,057,000	1,324,000
Total of Continuing Operations	\$ 21,922,000	\$ 25,039,000	\$ 6,651,000	\$ 9,018,000
Segment profit:				
Line	\$ 2,383,000	\$ 3,956,000	\$ 637,000	\$ 1,341,000
Signal	933,000	1,067,000	235,000	462,000
Total of Continuing Operations	\$ 3,316,000	\$ 5,023,000	\$ 872,000	\$ 1,803,000

The following table reconciles segment totals to consolidated totals:

Operating income (loss):				
Total segment income for reportable segments	\$ 3,316,000	\$ 5,023,000	\$ 872,000	\$ 1,803,000
Corporate and unallocated	(2,260,000)	(1,831,000)	(740,000)	(615,000)
Consolidated total operating income	\$ 1,056,000	\$ 3,192,000	\$ 132,000	\$ 1,188,000

Note 6: New accounting pronouncements

In June 2006, the FASB issued Interpretation No. 48 ("FIN 48"), Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109. The objective of this interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for the fiscal years beginning after December 15, 2006. The adoption of this statement did not have an effect on our financial position or results of operations.

In September 2006, FASB issued SFAS No. 157, "Fair Value Measurements," which provides enhanced guidance for using fair value to measure assets and liabilities. SFAS No. 157 establishes a common definition of fair value, provides a framework for measuring fair value under U.S. GAAP and expands disclosures requirements about fair value measurements. SFAS No. 157 is effective for financial statements issued in fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The adoption of this statement is not expected to have a material effect on our financial position or results of operations.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" or SFAS 159. SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. SFAS 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the impact of implementation of SFAS No. 159 on our consolidated financial statements.

Note 7: Discontinued operations

In December, 2003, the Company decided to wind down its OSS business. This decision was made because of continuing losses combined with difficulties in marketing OSS products in view of the Company's financial condition. As of June 30, 2007, the Company discontinued operating this business. Accordingly, as of June 30, 2007, the OSS net assets of \$434,000 were written off and the operations of the segment are reported in the Consolidated Financial Statements as a discontinued operation.

Results of operations for OSS have been segregated from continuing operations and are reflected as discontinued operations approximately as follows:

	Nine Months Ended September 30,	
	2007	2006
Revenues	\$ 100,000	\$ 276,000
Loss from discontinued operations	(87,000)	(245,000)
Write off of net assets of discontinued operations	(434,000)	—
Loss from discontinued operations	\$ (521,000)	\$ (245,000)
	Three Months Ended September 30,	
	2007	2006
Revenues	\$ —	\$ 80,000
Loss from discontinued operations	—	(87,000)
Write off of net assets of discontinued operations	—	—
Loss from discontinued operations	\$ —	\$ (87,000)

Note 8: Subsequent events

On October 23, 2007 the Company borrowed \$1,000,000 ("the New Note") from Cheyne, our senior debt holder. Interest accrues at an amount equal to the six month Libor rate plus 10%. Principal and accrued interest is payable December 1, 2007 and January 1, 2008, based on average excess cash availability over \$250,000. The principal balance of the note and accrued interest is due on February 1, 2008. The new note is collateralized by all of the assets which are secured to the existing senior debt holder.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Company's consolidated statements of operations for the periods indicated below, shown as a percentage of sales, are as follows:

	Nine Months Ended September 30,		Three Months Ended September 30,	
	2007	2006	2007	2006
Sales	100%	100%	100%	100%
Cost of sales	69%	66%	69%	67%
Gross profit	31%	34%	31%	33%
Selling, general and administrative expenses	21%	17%	23%	16%
Research and development expenses	5%	5%	6%	4%
Operating income	5%	12%	2%	13%
Interest expense - net	(7)%	(3)%	(8)%	(3)%
Income (loss) from continuing operations	(2)%	9%	(6)%	10%
Loss from discontinued operations	(3)%	(1)%	(0)%	(1)%
Net (loss) income	(5)%	8%	(6)%	9%

The Company's sales, from continuing operations, by product line for the periods ended September 30, 2007 and 2006 are as follows:

Line	Nine Months Ended September 30, \$(000)					
	2007		2006			
	\$	18,228	83%	\$	21,308	85%

	2007		2006			
	\$	5,594	84%	\$	7,694	85%
Signal		1,057	16%		1,324	15%
	\$	6,651	100%	\$	9,018	100%

Overview

We operate in the telecommunications industry, and our customer base consists largely of government-owned and privately-owned telecommunications companies. Our line connection and protection equipment ("Line") interconnects copper telephone lines to switching equipment and provides fuse elements that protect telephone equipment and personnel from electrical surges. Our signal processing ("Signal") equipment is used in data communication devices that employ high frequency transformer technology.

Our Line equipment is designed to connect copper-wired telecommunications networks and to protect telecommunications equipment from voltage surges. We market this equipment primarily to telephone operating companies outside the United States and through distribution to designers, engineers and installers in the United States. Our Line division generated net income from operations for the three and nine months ended September 30, 2007 and the comparable periods of 2006. We market Signal equipment principally for use in defense and aerospace applications. The Signal division generated net income from operations for the three and nine months ended June 30, 2007 and 2006. We recognize revenue from Line and Signal products when the product is shipped.

On September 30, 2007, our liability to our senior debt holder was \$23,373,000 plus accrued interest of \$312,000. On February 7, 2007, Cheyne purchased our senior debt of \$23,400,000 from SHF IX, LLC and subsequently extended the maturity of our senior debt to February 1, 2008. In October 2007, Cheyne lent us an additional \$1,000,000 which is due on February 1, 2008. We cannot give any assurance that our senior debt holder will extend the maturity date beyond February 1, 2008. Any adverse event, including declines in business, could have an effect on the decision of our senior debt holder to extend or demand payment on the notes. If our senior debt holder does not extend the maturity of our senior debt beyond February 1, 2008 or if our senior debt holder demands payment of all or a significant portion of the senior debt when due, we will not be able to continue in business, and it is likely that we will seek protection under the Bankruptcy Code.

We are very dependent upon a small number of customers, particularly British Telecommunications. Total sales to British Telecommunications, consisting of direct sales and sales to systems integrators for British Telecommunications (including Fujitsu) were \$10,200,000 (47 % of sales) for the nine months ended September 30, 2007, \$20,000,000 (62%) for the year end 2006, \$13,900,000 (50%) for the year 2005 and \$13,600,000 (50%) for the year 2004. To the extent that British Telecommunications reduces its purchases from, or purchases products at a price which results in a reduced gross margin, our ability to operate profitably will be impaired. During the nine months ended September 30, 2007, British Telecommunication changed its equipment purchase practices, with a result that our sales to British Telecommunications and its systems integrators declined from \$15,500,000 for the nine months ended September 30, 2006 to \$10,200,000 for the nine months ended September 30, 2007. This decline in sales is the principal reason for our loss from continuing operation of \$531,000 as compared to income of \$2,254,000 for the comparable period of 2006. We may not be able to replace this business from other customers and we cannot give any assurance that British Telecommunications will increase its purchases from us in the future.

We are engaged in discussions with Cheyne and the holders of our subordinated debt and other creditors regarding the restructuring of our debt. Any such restructuring, if approved by our lenders and our stockholders, would result in both a reduction of senior, subordinated debt and other debt and a significant increase in the number of our outstanding shares of common stock. If we are unable to increase our sales to a level where we can operate profitably or if we are unable to obtain stockholder approval, we may not be able to effect a debt restructuring, in which event it is likely that we will seek protection under the Bankruptcy Code.

Results of Continuing Operations

The below narratives discuss the activities of our continuing operations.

Line equipment sales for the nine months ended September 30, 2007, compared to the nine months ended September 30, 2006, decreased by \$3,080,000 (14%) from \$21,308,000 to \$18,228,000. Sales for the three months ended September 30, 2007 decreased by \$2,100,000 (27%) from \$7,694,000 in 2006 to \$5,594,000 in 2007. The decrease in sales for the nine and the three months is the result of a significant decline in orders from British Telecommunications that was partially offset by higher demand for connection and protection product from North America customers. The increased demand of connection and protection product was \$1,908,000 and \$541,000 for the nine and three months ending September 30, 2007, respectively. A significant percentage of our revenues are derived from British Telecommunications and its installers. Any continuation of the significant reductions in the level of business from British Telecommunications and its installers could continue to have a material adverse effect upon both our revenue and net income. Thus far this year we have experienced a significant drop off of orders from British Telecommunications' installers, although direct sales to British Telecommunications remain significant.

Signal sales for the nine months ended September 30, 2007 were \$3,694,000, compared to \$3,731,000 in the same period of 2006, a decrease of \$37,000 (1%). Sales for the three months ended September 30, 2007 compared to 2006, decreased by \$267,000 (20%) from \$1,324,000 to \$1,057,000. The decline in Signal revenue for the third quarter of 2007 was \$267,000 (20%) primarily due to the deferral of anticipated orders from the military sector resulting from Congress' failure to approve the U.S. military budget.

Gross margin for the nine months ended September 30, 2007 was 31% compared to 34% for the nine months ended September 30, 2006. Gross margin for the quarter ended September 30, 2007 was 31% compared to 33% for the quarter ended September 30, 2006. The decrease for the quarter and nine months is primarily related to a change in product mix sold to British Telecommunications from the higher gross profit DSL products to the lower margin local loop unbundling products and less absorption of manufacturing overhead due to the lower level of revenue. Our Signal segment gross margin slightly increased during the quarter and nine months due to sales mix.

Selling, general and administrative expenses increased by \$436,000 (11%) from \$4,090,000 to \$4,526,000 for the nine months ended September 30, 2007 compared to 2006. For the quarter ended September 30, 2007 selling, general and administrative expenses increased by \$147,000 (11%) from \$1,386,000 in 2006 to \$1,533,000 in 2007. The selling expense increase for the nine months ended September 30, 2007 relates primarily to increased commission expenses. Selling expenses decreased in the third quarter primarily due to less advertising expenses, somewhat offset by higher commission, when compared to the 2006 quarter. General and administrative costs increased, for the nine months and the quarter, primarily due to increased expenses related to our debt restructuring efforts.

For the nine months ended September 30, 2007 compared to 2006, research and development expenses increased by \$37,000 (3%) to \$1,201,000 from \$1,164,000. For the quarter ended September 30, 2007 compared to 2006, research and development expenses increased by \$15,000 (4%) to \$423,000 from \$408,000. The increase for the nine months and the quarter resulted primarily from increased spending by our line division to enhance our existing line products and develop new products.

As a result of the foregoing, for the nine months ended September 30, 2007, we had an operating income from continuing operations of \$1,056,000 compared with \$3,192,000 in the same period of 2006. We had an operating income from continuing operations of \$132,000 for the quarter ended September 30, 2007 as compared with \$1,188,000 in the same period of 2006.

Interest expense, net, for the nine months ended September 30, 2007 was \$1,536,000, an increase of \$688,000 from \$848,000 for the nine months ended September 30, 2006. For the three months ended September 30, 2007 the interest expense was \$547,000 compared to \$261,000 for the comparable period last year. These increases of \$688,000 and \$286,000 for the nine months and three months, respectively, are primarily related to interest on our senior debt under the terms of our extension agreement with the senior debt holder. We do not accrue interest on the entire amount of the senior debt of \$23,373,000 under the terms of our agreement with the holder of our senior debt. Interest has accrued from February 7, 2007 on \$10,000,000 of the senior debt at 12.5% as a result of the terms of the February 7, 2007 extension of the maturity of our senior debt.

Income tax expense for the quarter and nine months ended September 30, 2007 relates to state and foreign taxes. No federal income tax expense has been provided due to losses incurred during the nine month period

As a result of the foregoing, we generated a net loss from continuing operations of (\$531,000), or (\$.05) per share (basic and diluted), for the nine months ended September 30, 2007, compared with net income from continuing operations of \$2,254,000, or \$.22 per share (basic and diluted) in 2006. The net loss for the three months ended September 30, 2007, from continuing operations, was (\$425,000), or (\$.04) per share (basic and diluted), compared with net income of from continuing operations \$905,000, or \$.09 per share (basic and diluted) in the comparable quarter of 2006.

Liquidity and Capital Resources

At September 30, 2007, we had cash and cash equivalents of \$396,000 compared with \$2,102,000 at December 31, 2006. The reduction in our cash position primarily reflects increases of \$97,000 in accounts receivable and \$1,385,000 in inventory, a decrease of \$634,000 in accounts payable and payments of \$633,000 with respect to our senior debt, of which \$140,000 was principal and \$493,000 was interest. These factors were also reflected in our working capital deficit at September 30, 2007 of \$32,643,000, as compared with a working capital deficit of \$31,646,000 at December 31, 2006, an increase of \$997,000 in our working capital deficit.

During the first nine months of 2007, we paid \$633,000 to our senior debt holder of which approximately \$140,000 was applied to principal and \$493,000 was applied to interest.

As of September 30, 2007, our senior debt includes \$23,373,000 of principal and \$312,000 of accrued interest, which matures on February 1, 2008; and \$6,529,000 of principal and \$6,844,000 of accrued interest on our subordinated notes and 6% debentures that became due on July 3, 2001 and July 2, 2002, respectively. We are prohibited by our senior debt holder from paying principal or interest on any of the subordinated debt. At September 30, 2007, we did not have sufficient resources to repay either the senior lender or the subordinated lenders and it is unlikely that we can generate such cash from our operations. Subsequent to the quarter ended September 30, 2007 the Company borrowed \$1,000,000 from Cheyne Special Situation Fund, our senior debt holder in order to meet current working capital requirements. This loan, along with the existing senior debt, matures on February 1, 2008.

As of June 30, 2007, the Company discontinued operating the OSS division. Accordingly, as of June 30, 2007, the OSS net assets of \$434,000 were written off and the operations of the OSS segment are reported in the Consolidated Financial Statements as a discontinued operation.

We are seeking to address our working capital and liquidity problems by seeking a restructuring of our senior and subordinated debts as well as significant amounts of unsecured debt due to third parties. Although the debt restructuring, if implemented, will improve our working capital, it will not provide us with any additional cash for our operations. Our only source of funds is Cheyne, which advanced us \$1,000,000 in October 2007. However, our continuing losses and the uncertainty of any significant increase in business from British Telecommunications will increase the difficulties in obtaining financings from other sources, and we cannot give any assurance that Cheyne will provide us with any additional funding if the need arises. Any restructuring of our Company will result in very significant dilution to the holders of our common stock and will require the approval of the holders of our common stock and subordinated debt. If we do not restructure our debt and the senior lender does not extend the maturity of our senior debt beyond February 1, 2008, or if our senior debt holder demands payment of all or a significant portion of the senior debt when due, whether on February 1, 2008 or upon the expiration of a subsequent extension, we will not be able to continue in business, and it is likely that we will seek protection under the Bankruptcy Code.

We have in the past, and may in the future, consider the sale of one or more of our divisions. However, all of our past discussions terminated without any agreement and we cannot give any assurance that we would be able to effect any sale of our business or that such a sale would not be part of a bankruptcy reorganization.

Forward Looking Statements

Statements contained in this Form 10-Q include forward-looking statements that are subject to risks and uncertainties. In particular, statements in this Form 10-Q that state our intentions, beliefs, expectations, strategies, predictions or any other statements relating to our future activities or other future events or conditions are “forward-looking statements.” Forward-looking statements are subject to risks, uncertainties and other factors, including, but not limited to, those identified under “Risk Factors,” in our Form 10-K for the year ended December 31, 2006 and in the Form 10-Q and those described in “Management's Discussion and Analysis of Financial Conditions and Results of Operations” in our Form 10-K and this Form 10-Q, and those described in any other filings by us with the Securities and Exchange Commission, as well as general economic conditions and economic conditions affecting the telecommunications industry, any one or more of which could cause actual results to differ materially from those stated in such statements. Such statements could be affected by risks and uncertainties related to our financial conditions, our relationship with the holder of our senior and subordinated debt, including the willingness or unwillingness of the holder of the senior debt to extend the maturity date of the senior debt and the amount and timing of any payments which the holder of the senior debt may require, our ability to sell any or all of our divisions or effect a restructure of our business and our debt and equity structure on terms acceptable to the holder of the senior debt, our relationship with British Telecommunications including its continued requirements for our products, factors which affect the telecommunications industry, market and customer acceptance, our access to current technology, competition, domestic and foreign government regulations and requirements and pricing, as well as general industry and market conditions and growth rates, and general economic conditions. Any forward-looking statements speak only as of the date on which they are made, and we do not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosure About Market Risk.

We conduct certain operations outside the United States. A substantial portion of our revenue and expenses from our United Kingdom operations are denominated in Sterling. Any Sterling-denominated receipts are promptly converted into United States dollars. We do not engage in any hedging or other currency transactions.

Item 4. Controls and Procedures

Management's assessment identified the following weaknesses at December 31, 2006 in our internal control over financial reporting and, subsequent to December 31, 2006, we took the following steps to address those weaknesses. Accordingly, as of the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of our disclosure controls and procedures. Based on his evaluation, the Chief Executive Officer and Chief Financial Officer has concluded that our disclosure controls and procedures are effective.

Internal Control over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the fiscal quarter covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1 A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part 1, “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2006, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form

10-K and in this Form 10-Q are not the only risks facing our Company.

Page 13 of 15

During the quarter and nine months ended September 30, 2007, we sustained declines in revenue from our largest customer, British Telecommunications, from the comparable three and nine month periods of 2006, and, based on a change in the product mix, our gross margin declined on our sales to British Telecommunications. Due to our reliance on significant business from British Telecommunications, our revenue and net income could be impaired by any material reduction of sales to British Telecommunications or any material reduction in the gross margin on sales to British Telecommunications

Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

Item 3. Defaults Upon Senior Securities.

See Note 3 of Notes to Unaudited Consolidated Financial Statements and “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources” for information concerning defaults on our subordinated debt.

Item 6. Exhibits

- 31.1 Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certificate of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
