PROXY STATEMENT

**FOR THE ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD MAY 24, 2010**

GENERAL INFORMATION

**Information About the Notice of Internet Availability of Proxy
Materials**

This year, instead of mailing a printed copy of our proxy materials, including our Proxy Statement and Annual Report on Form 10-K, to each stockholder, we have decided to provide access to these materials to our stockholders in a fast and efficient manner via the Internet. This reduces the amount of paper necessary to produce these materials, as well as the costs associated with mailing these materials to all stockholders. Accordingly, on or about March 31, 2010, we began mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to some of our stockholders and posted our proxy materials on the website referenced in the Notice (<http://ir.dealertrack.com/2010proxy.cfm>). As more fully described in the Notice, stockholders may choose to access our proxy materials on the website referred to in the Notice or may request to receive a printed set of our proxy materials. In addition, the Notice and website provide information regarding how you may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis.

The Annual Meeting

Our board of directors is soliciting proxies to be used at our Annual Meeting of Stockholders to be held on May 24, 2010. This Proxy Statement, the accompanying Notice of Annual Meeting of Stockholders and form of proxy are being made available to our stockholders on or about March 31, 2010.

Purpose of Meeting

The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice of Annual Meeting. The proposals are described in more detail in this Proxy Statement.

Information Concerning Voting and Solicitation of Proxies

Who Can Vote?

Only stockholders of record at the close of business on March 30, 2010 may vote at the Annual Meeting. As of March 29, 2010, there were 40,262,773 shares of our common stock outstanding.

How You Can Vote

Stockholders of Record. If your shares are registered directly in your name with our transfer agent, American Stock and Transfer & Trust Company, LLC, you are considered a stockholder of record with respect to those shares, and the proxy materials, including the Proxy Statement and proxy card, were sent directly to you by the Company.

Street Name Holders. If you hold your shares in an account at a brokerage firm, bank, broker-dealer, or other similar organization, then you are the beneficial owner of shares held in street name. The proxy materials, including the Proxy Statement and voting instruction card, were forwarded to you by the bank or broker holding your account, which is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that bank or broker on how to vote the shares held in your account.

TABLE OF CONTENTS

You may vote using one of the following methods:

By Mail. If you received proxy materials by mail, you may vote your shares by mail by marking your proxy card, dating, signing and returning it in the postage-paid envelope provided. If you received a Notice, you may request a proxy card at any time by following the instructions on the Notice. If you are a street name holder, you will receive instructions on how you may vote from your bank or broker, unless you previously enrolled in electronic delivery.

In Person. If you are a stockholder of record, you may vote your shares in person by attending the Annual Meeting. If you are a street name holder, you may vote in person at the Annual Meeting if you have a legal proxy from the bank or broker that holds your shares. A legal proxy is a bank's or broker's authorization for you to vote the shares it holds in its name on your behalf.

Via the Internet. If you received proxy materials by mail, you also can vote through the Internet using the procedures and instructions described on the proxy card. If you received a Notice, you may request a proxy card at any time by following the instructions on the Notice. Street name holders may vote by Internet if their bank or broker makes those methods available, in which case the bank or broker will enclose the instructions with the proxy materials.

If the bank or broker that holds your shares does not have discretion to vote shares held in street name on a particular proposal and does not receive voting instructions on how to vote those shares, the bank or broker may return the proxy card without voting on that proposal. This is generally referred to as a broker non-vote. Your bank or broker generally may vote without instructions on routine matters such as the ratification of our independent registered public accounting firm. Your bank or broker generally may not vote without instructions on non-routine matters such as the election of directors.

All shares that have been voted properly by an unrevoked proxy will be voted at the Annual Meeting in accordance with your instructions. If you sign your proxy card or vote via the Internet, but do not give voting instructions, the shares represented by that proxy will be voted as our board of directors recommends.

If any other matters are brought properly before the Annual Meeting, the persons named as proxies in the proxy card materials will have the discretion to vote on those matters for you. As of the date of this Proxy Statement, we did not know of any other matter to be raised at the Annual Meeting.

How You Can Access the Proxy Materials for the Annual Meeting

Stockholders may access the proxy materials, which include the Notice of Annual Meeting, Proxy Statement (including a form of proxy card) and Annual Report on Form 10-K for the year ended December 31, 2009, on the Internet at <http://ir.dealertrack.com/annual-proxy.cfm>. We will also provide a hard copy of any of these documents free of charge upon request, which may be sent to Investor Relations, DealerTrack Holdings, Inc., 1111 Marcus Ave., Suite M04, Lake Success, NY 11042, submitted via the form set forth on our Investor Relations site at <http://ir.dealertrack.com/contactus.cfm> or submitted by calling our Investor Relations department at (888) 450-0478.

Instead of receiving future copies of our proxy materials by mail, you can elect to receive an e-mail that will provide electronic links to these documents. Opting to receive your proxy materials online will save the cost of producing and mailing documents to your home or business, will give you an electronic link to the proxy voting site and will help preserve environmental resources.

Stockholders of Record. If you vote on the Internet at www.proxyvote.com, simply follow the prompts for enrolling in the electronic proxy delivery service. You also may enroll in the electronic proxy delivery service at any time by going directly to <http://ir.dealertrack.com/2010proxy.cfm> and following the enrollment instructions.

Street Name Holders. If you hold your shares in a bank or brokerage account, you also may have the opportunity to receive the proxy materials electronically. Please check the information provided in the proxy materials you receive from your bank or broker regarding the availability of this service.

Your election to receive proxy materials by email will remain in effect until you terminate it.

How to Revoke Your Proxy or Change Your Vote

You can revoke your proxy or change your vote before your proxy is voted at the Annual Meeting by:

Giving written notice of revocation to: Secretary, DealerTrack Holdings, Inc., 1111 Marcus Ave., Suite M04, Lake Success, NY 11042;

Submitting another timely proxy or voting instruction card with a later date by mail;

Voting again over the Internet prior to 11:59 p.m., Eastern Time, on May 23, 2010 (or, if you are a street name holder, such earlier time as your bank or broker may direct); or

Attending the Annual Meeting and voting in person. If your shares are held in street name, to vote at the Annual Meeting you must obtain a proxy executed in your favor from the holder of record. Attendance at the Annual Meeting will not, by itself, revoke your prior proxy.

How Many Votes You Have

Each stockholder has one vote for each share of common stock that he or she owned on the record date for all matters being voted on.

Quorum

A quorum is constituted by the presence, in person or by proxy, of holders of our common stock representing a majority of the aggregate number of shares of common stock entitled to vote. Abstentions and broker non-votes will be considered present to determine the presence of a quorum. If a quorum is not present, the Annual Meeting will be adjourned until a quorum is obtained.

Votes Required

Election of Directors. The three nominees for director receiving the highest vote totals will be elected. Abstentions and broker non-votes will have no effect on the election of directors.

Ratification of PricewaterhouseCoopers LLP as Our Independent Registered Public Accounting Firm. To pass, this proposal must receive a for vote of a majority of the votes present and entitled to vote in person or by proxy at the Annual Meeting. Abstentions will have the effect of a vote against the ratification of our independent registered public accounting firm.

Attending the Annual Meeting

Stockholders of Record. If you are a stockholder of record and received a Notice, the Notice is your admission ticket.

If you are a stockholder of record and received proxy materials by mail, your admission ticket is attached to your proxy card. You will need to bring the Notice or the admission ticket along with photo identification with you to the Annual Meeting in order to be admitted to the meeting.

Street Name Holders. If you hold your shares in street name, bring your most recent brokerage statement or a letter from your broker or other nominee along with photo identification with you to the Annual Meeting. We will use that statement or letter to verify your ownership of common stock and admit you to the Annual Meeting; however, you will not be able to vote your shares at the Annual Meeting without a legal proxy from your bank or broker.

Board Meetings Held During 2009

Our board of directors held nine meetings during 2009 and acted two times by written consent. During 2009, each director attended at least 75% of the board of directors and committee meetings held while such director served as a director and committee member. At each regular meeting of the board of directors, the non-management directors met in executive session with our lead director presiding.

TABLE OF CONTENTS

Board Independence

The Nominating and Corporate Governance Committee and our board of directors annually assess the independence of the non-management directors by reviewing the financial and other relationships between the directors and us. This review is designed to determine whether these directors are independent under the criteria established by the NASDAQ Stock Market (NASDAQ) for independent board members. The Nominating and Governance Committee and our board of directors have determined that all of our non-management directors (i.e., directors other than Mr. O Neil) and our director nominees qualify as independent under those standards.

Board Leadership Structure

Mark O Neil serves as both Chairman of the Board and Chief Executive Officer. The Board believes that having Mr. O Neil serve in both capacities is in the best interests of the company and its stockholders because it enhances communication between the Board and management and allows Mr. O Neil to more effectively execute the company's strategic initiatives and business plans and confront its challenges. Mr. O Neil possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing the company and is best positioned to develop agendas that ensure that the Board's time and attention are focused on the most critical matters. The Board believes that the appointment of an independent Lead Director and the use of regular executive sessions of the non-management directors, along with the Board's strong committee system and substantial majority of independent directors, allow it to maintain effective oversight of management. The Board of Directors has designated Mr. Tischler as the Lead Director.

Board Oversight of Risk

Our Board of Directors oversees our management, which is responsible for the day-to-day issues of risk management. Our board's committees assist the board in fulfilling its oversight responsibilities in certain areas of risk. The audit committee focuses on financial risk, such as including the areas of financial reporting, internal controls, and compliance with legal and regulatory requirements. The compensation committee assists the board in fulfilling its oversight responsibilities with respect to the management of risks arising from our compensation policies and programs. The nominating and governance committee manages risks associated with corporate governance, board organization, membership and structure. In addition, members of management may also report directly to the Board of Directors on significant risk management issues.

Stockholder Communications With the Board of Directors

Stockholders and other interested parties may communicate with any of our directors, including our non-management directors, by writing to them c/o Secretary, DealerTrack Holdings, Inc., 1111 Marcus Ave., Suite M04, Lake Success, NY 11042. Our Secretary will forward all correspondence to the board of directors, except for spam, junk mail, mass mailings, product complaints or inquiries, job inquiries, surveys, business solicitations or advertisements, or patently offensive or otherwise inappropriate material. Our Secretary may forward certain correspondence, such as product-related inquiries, elsewhere within DealerTrack for review and possible response.

Director Attendance at Annual Meeting

Our board of directors' policy regarding director attendance at the Annual Meeting is that they are welcome to attend, and that we will make all appropriate arrangements for directors who choose to attend. Mr. O Neil attended our 2009

Code of Business Conduct and Ethics

We have adopted a code of ethics, as defined by regulations promulgated under the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, that applies to all of our directors and employees, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A current copy of our Code of Business Conduct and Ethics is available on our website at www.dealertrack.com. The Audit Committee has the sole and direct responsibility for appointing, evaluating and retaining our independent registered public accounting firm and for overseeing their work. All audit and non-audit services, other than de minimis non-audit services, to be provided to us by our independent registered public accounting firm must be approved in advance by our Audit Committee. The Audit Committee also reports to stockholders as required by the SEC (please see page 13).

TABLE OF CONTENTS**Non-Management Directors Compensation for Fiscal Year 2009**

Directors who are also employees receive no fees for their services as directors. During 2009, all other directors received the following compensation for their services:

Annual Fee:	\$50,000 per director.
Initial Equity Grant:	Options to purchase 30,000 shares of our common stock upon becoming a director. The grant vests in three equal annual installments commencing on the first anniversary of the grant date, subject to the director's continued service on the board. No Initial Equity Grants were granted in 2009 because no new directors were appointed.
Annual Equity Grant:	Restricted common stock equal to a fixed dollar value of \$135,000 is granted each year on the date of our Annual Meeting. This grant vests on the day of the following Annual Meeting, subject to the director's continued service on the board.

For 2010, the annual equity grant will be in restricted stock units, rather than restricted common stock. Directors are eligible to participate in the Directors' Deferred Compensation Plan, a non-qualified retirement plan. The Directors' Deferred Compensation Plan allows our non-employee directors to elect to defer between zero and 100% of the fees they would otherwise be entitled to receive in cash for services rendered as directors. Amounts deferred under the Directors' Deferred Compensation Plan are general liabilities of ours and are represented by bookkeeping accounts maintained on behalf of the participants. Such accounts are deemed to be invested in share units that track the value of our common stock. Distributions will generally be made to a participant either following the end of the participant's service on our board of directors, following a change of control if so elected, or at a specified time elected by the participant prior to the deferral. Distributions will generally be made in the form of shares of our common stock. Our Directors' Deferred Compensation Plan is intended to comply with Section 409A of the Internal Revenue Code.

Our stock ownership and retention program requires non-employee members of our board of directors to own shares equal in value to four times their annual retainer. Directors are expected to attain the required share ownership level within five years from joining our board of directors.

The following table sets forth our non-management directors' compensation for 2009.

Each deferred stock unit converts into one share of common stock upon the payment commencement date selected by the director. Directors receive 25% of their annual cash compensation at the end of each quarter. The rate of conversion into deferred stock units is based on the closing price of the company's common stock at the end of each quarter. The closing prices at the end of each quarter in 2009 were \$13.10, \$16.99, \$18.91, and \$18.79 respectively.

COMPENSATION DISCUSSION AND ANALYSIS

This section contains a discussion of the material elements of DealerTrack's compensation awarded to, earned by or paid to its named executive officers. DealerTrack's named executive officers for fiscal 2009 are the Chief Executive Officer, Chief Financial Officer and the three most highly compensated executive officers at the end of fiscal 2009, plus our former Chief Financial Officer, Robert Cox, whose employment terminated effective March 2, 2009.

Overview

The Compensation Committee of the board of directors is responsible for establishing with our management the compensation philosophy of DealerTrack. The company's compensation philosophy is designed to support the key objective of creating value for the stockholders by growing revenue and Adjusted EBITDA, as well as increasing the company's total market capitalization and stock price. A significant portion of each named executive officer's total compensation opportunity is directly related to DealerTrack's stock price performance, as well as other performance factors that measure our progress against the goals of our strategic plan. The Compensation Committee is responsible for overseeing the design and administration of our compensation programs for our executive officers, certain other key employees designated by our Compensation Committee, and the board of directors.

DealerTrack believes that a sound compensation philosophy and strategy serve to align team members and focus the executive team and the entire company on the vision and the achievement of our stated strategic plan.

The company has established the following principles in determining the compensation of the named executive officers:

balance rewards for executives between short-term results and the long-term strategic decisions needed to ensure sustained success for the company and its stockholders over time;

attract and retain high-performing executive talent by paying competitive compensation;

provide rewards consistent with performance by tying both the annual cash incentive program and the long-term equity incentive program to corporate performance; and

provide equity-based long term incentives which align management and stockholder interests.

TABLE OF CONTENTS

Peer Group and Benchmarking

In connection with compensation decisions for 2009, the Compensation Committee reviewed market compensation data of a peer group of companies established by Ernst & Young, an independent compensation consultant that was retained by and reported to the Compensation Committee. On November 12, 2008, the Compensation Committee evaluated the thirteen peer group companies that comprised the peer group for 2008 and elected to remove two companies that were acquired: Choicepoint, Inc. and Witness Systems, Inc. The following companies from the 2008 peer group remained as part of the 2009 peer group: Digital River, Inc., f5 Networks Inc., Radiant Systems, Inc., Salesforce.com, Inc., Tier Technologies, Inc., Websense, Inc., Blackbaud, Inc., Blackboard Inc., Heartland Payment Systems, Jack Henry & Associates and TNS, Inc.

The Compensation Committee uses the peer group compensation data primarily to ensure that the total direct compensation for executives is within 15% above or below the peer group median, while providing an opportunity for the annual cash bonus to attain the 75th percentile of the peer group median when targeted performance levels are exceeded. While the peer group market data provides a useful starting point for compensation decisions, the Compensation Committee also takes into account factors such as level of responsibility, prior experience, individual performance and internal pay relationships in arriving at final compensation decisions. The elements of executive compensation are base salary, annual and long term incentive compensation, and annual grants of equity awards. Our executive compensation has a high proportion of total direct compensation delivered through pay-for-performance incentive and long-term equity compensation, equating to a greater proportion of at-risk compensation.

In September 2009, the Compensation Committee re-evaluated the 2009 peer group companies to determine if any revisions should be made in connection with compensation decisions for 2010. At that time, the Compensation Committee elected to remove Heartland Payment Systems., whose level of revenues made it no longer an appropriate peer for the company. The Compensation Committee replaced Heartland Payment Systems in the 2010 peer group with Ariba Inc., whose level of revenue and business model are closer to the company's.

Role of Compensation Consultant

The Compensation Committee, with our management, establishes our compensation philosophy and approves our compensation programs with input from our outside compensation consultants. The Compensation Committee is responsible for selecting any consultant they may use, negotiating the fees that are paid to the consultant and determining the scope of the engagement. The Compensation Committee retained Ernst & Young, an outside consulting firm, to provide independent, third-party advice to assist it in the evaluation and design of the company's policies and programs on executive compensation and with other compensation decisions for 2009. E&Y has provided compensation information on an annual basis to the Compensation Committee and management on market compensation trends, but has not had a material additional relationship outside of the services that it provided to the Compensation Committee. The Compensation Committee decided in the fourth quarter of 2009 to retain a new compensation consultant, Frederic W. Cook, to assist with compensation matters for 2010. The Compensation Committee is responsible for making all compensation decisions, incorporating feedback from our outside consultants and our Chief Executive Officer.

Assessment of Company and Individual Performance

Annually, the Compensation Committee, in collaboration with the executive team, establishes the specific revenue and adjusted EBITDA targets that will be used to determine the size of the bonus pool under the annual incentive bonus plan. Both company and individual performance are factored into the determination of total direct compensation levels

(consisting of annual salary, annual bonus awards and long-term incentives) for the Chief Executive Officer and other named executive officers.

The Compensation Committee meets with the Chief Executive Officer at the beginning of the year to establish the Chief Executive Officer's individual and company performance objectives. At the end of the year, the Compensation Committee conducts a performance review of the Chief Executive Officer based on his level of achievement of these objectives. In setting the Chief Executive Officer's compensation, the Compensation Committee considers the overall performance of the Chief Executive Officer and the company.

TABLE OF CONTENTS

For all other executive officers, the Compensation Committee receives a performance assessment and compensation recommendation from the Chief Executive Officer. The performance evaluation of the other executive officers is based on achievement of pre-established corporate and individual objectives that have been established by the Chief Executive Officer after consulting with each executive officer.

Total Compensation Review

Annually, the Compensation Committee reviews each executive officer's base pay, bonus and equity incentive awards with the guidance of the Compensation Committee's independent consultant. In addition to these compensation elements, the Compensation Committee reviews the long-term incentive program, the deferred compensation program, as well as the payments that would be required to be paid to the executive officers under various severance and change in control scenarios.

In making compensation decisions, the Compensation Committee considers all elements of compensation, including both direct, and indirect and current and deferred compensation. This consideration includes severance and change in control provisions, perquisites and employee benefits. The Compensation Committee uses market information to ensure that compensation programs for our executive officers are competitive in our industry and in the areas in which we compete for talent, and reflect the scope and responsibilities of each executive's role.

Risk Considerations

The Compensation Committee believes the elements of the company's executive compensation program effectively link performance-based compensation to financial goals and shareholder interests without encouraging executives to take unnecessary or excessive risks in the pursuit of those objectives. The Compensation Committee believes that the overall mix of compensation elements is appropriately balanced and does not encourage the taking of short-term risks at the expense of long-term results. Long-term incentives for our executives are awarded in the form of equity instruments reflecting, or valued by reference to, our common stock. Long-term incentive awards are generally made on an annual basis and are subject to a multi-year vesting schedule which helps ensure that award recipients always have significant value tied to long-term stock price performance. The Compensation Committee believes that the combination of granting 100% of long-term incentives in the form of stock awards, together with the company stock actually owned by our executives, appropriately links the long-term interests of executives and shareholders, and balances the short-term nature of annual incentive cash bonuses and any incentives for undue risk-taking in our other compensation arrangements.

Components of Executive Compensation for 2009

Base Salary

The Compensation Committee believes that payment of competitive base salaries is an important element in attracting, retaining and motivating our executive officers. In addition, the Compensation Committee believes that having a certain level of fixed compensation allows our executive officers to dedicate their full time business attention to our company. Each named executive officer's base salary is designed to provide the executive with a fixed amount of annual compensation that is competitive with the marketplace. Base salaries represent less than 25% of the total direct compensation opportunity for each named executive officer.

Our Compensation Committee reviews base salary levels annually, but only makes adjustments when warranted based

on performance, market trends or surveys of peer group compensation levels.

The annual base salary for each named executive officer is the primary form of fixed compensation. The base salary is set at the market median and is competitive with similar positions at the peer group companies. Base salary may be adjusted during the year if a change in the scope of the executive officer's responsibilities justifies such consideration.

For 2009, the Compensation Committee, based on the recommendation of the Chief Executive Officer, determined that due to the downturn of the automotive industry and its negative financial impact on our business, the base salaries for the executive officers would not be increased (other than Mr. McLeer, whose scope of responsibility changed when he became the company's Senior Vice President and Chief Information

TABLE OF CONTENTS

Officer). Then, DealerTrack instituted a company-wide decrease as of April 16, 2009, of 5.29% in base salary for the remainder of 2009 for all employees, including executive officers. In November 2009, the company decided to pay the amount of the 2009 salary reduction as lump sum bonuses to all employees (including all executive officers with the approval of the Compensation Committee). Base salaries, however, remained at the decreased level.

Annual Incentive Bonus Plan

Annual incentive bonuses are paid to reward achievement of critical shorter term operating, financial, strategic and individual performance objectives that are expected to contribute to stockholder value creation over time.

The Compensation Committee believes that the primary portion of the annual target cash compensation of each named executive officer should be in the form of variable incentive pay. The pay philosophy is to target annual cash compensation at the 50th percentile of the peer group, with the opportunity to earn annual cash compensation in excess of that level based on superior performance. Under the annual incentive plan, if the company's achievement level is superior to the target goals, the annual incentive bonus amount for each executive officer is then targeted at the 75th percentile of the peer group's annual bonus compensation.

For fiscal year 2009 corporate performance targets were: adjusted EBITDA before the payment of bonuses to the company's employees and officers of \$42.9 million and revenue of \$250.0 million.

For each named executive officer, the bonus awards are calculated by multiplying the individual's annual base salary by the individual's target award percentage, and multiplying the result by a company performance factor. The result is then increased or decreased based on the performance related to individual goals.

Adjusted EBITDA is a key metric used to review and assess the operating performance and the performance of the management team because adjusted EBITDA provides useful information with respect to the performance of the company's fundamental business activities and is also frequently used by equity research analysts and others in the evaluation of the company. For all executive officers, equal weight is given to total company revenue and adjusted EBITDA targets. This approach is intended to drive a balanced focus on growth in revenues and earnings.

The annual incentive bonus target amounts, expressed as a percentage of base salary, are established for the executive officers each year, with a target range of 50% to 85% of base salary for 2009 and a maximum range of 170% to 210% of base salary for 2009. For fiscal 2009, we achieved revenues of \$225.6 million and pre-bonus adjusted EBITDA of \$43.8 million. The Compensation Committee may positively or negatively adjust the actual award to each executive officer (other than the chief executive officer) depending on its assessment of each individual's performance. In making this assessment, the Compensation Committee also considers the input of the Chief Executive Officer with respect to awards to the other executive officers. In the case of the chief executive officer, unlike the rest of the named executive officers, the Compensation Committee may negatively adjust, but may not positively adjust, the actual incentive bonus award depending on its assessment of his performance, considering additional non-financial factors such as leadership development, talent management and succession planning. The Compensation Committee may adjust the financial metrics in appropriate circumstances, such as the acquisition or divestiture of a business or the impact of foreign exchange rates.

In 2009, the company's revenue declined 7% from 2008 due to the unprecedented decline in the number of vehicles financed and the closing of auto dealerships. However, despite the challenging economic environment for our business, the company achieved 21% growth in revenue in its subscription business. Growing the subscription business is a key focus in reducing our dependency on our transaction business, which declined 29%. In addition,

through aggressive cost saving efforts, the company exceeded its pre-bonus adjusted EBITDA targets by \$0.9 million. Based on fiscal 2009 financial performance, the Compensation Committee approved a payout of 83% to 93% of target bonus amounts for our named executive officers. These bonus payments, which were calculated based on the reduced base salary of each executive officer, were paid to the named executive officers in February 2010, and were in addition to the payout of the 5.29% salary reduction amounts that were paid to all employees in November 2009.

TABLE OF CONTENTS

Annual Equity Grants

In order to align the executive officers' interests with those of the stockholders, the Compensation Committee makes an annual equity grant each year to each executive officer. The Compensation Committee reviewed and considered competitive market information at or near the 75th percentile for total direct compensation and the impact to the value of historical equity grants due to the economic downturn. The following factors were also considered in determining the level of long-term incentives awarded to the executive officers:

- the executive's performance;
- the executive's potential future contributions to the company;
- the current compensation of the executive; and
- the current overall value of the executive's long-term incentives.

The Compensation Committee uses non-qualified stock options instead of incentive stock options in order to preserve the company's compensation expense tax deduction. For 2009, approximately 50% of the named executive officers equity incentive award value was granted in the form of restricted stock units and approximately 50% in the form of stock options.

The annual equity grants also serve as a retention tool because they become vested and earned through service with the company over a four-year period, and have a seven-year life. These equity grants further the long-term perspective necessary for continued success of the business. The equal split between award types balances the objectives of retention (i.e., time vested restricted stock units) and stock price appreciation (i.e., stock options, which only have value to the extent that the stock price appreciates from the date of grant).

The Compensation Committee typically makes the annual equity grants at its first regularly scheduled meeting of the year. Option grants to new hires are generally made at the first regularly scheduled Compensation Committee meeting that follows the date of hire. The Compensation Committee adopted an equity grant policy that commences in 2010 under which equity grants will be granted on the fifth business day each quarter after earnings are released.

All equity grants to our named executive officers in 2009 were made pursuant to our Third Amended and Restated 2005 Incentive Award Plan.

Stock Ownership Requirements

In 2005, the Compensation Committee implemented stock ownership requirements for members of the senior management team that required these individuals to hold shares equal to defined multiples of their base salaries. The senior management team includes all vice presidents and executive officers of the Company. In September 2009, the Compensation Committee approved a revision to the policy. The new requirements employ a combination approach whereby covered individuals are required to maintain the lesser of (a) a multiple of base salary and (b) a fixed number of shares. The Chief Executive Officer is required to hold shares with a value equal to six times his base salary, and the other named executive officers are required to hold shares with a value equal to two times their respective base salaries.

Each executive officer is expected to attain his or her stock ownership level within five years of becoming an executive officer. Stock options are not included in determining compliance with the share ownership requirement. Named executive officers are expected to retain 25% of the net after-tax shares acquired pursuant to the exercise of a stock option until they achieve the minimum share ownership position. The Compensation Committee reviews compliance with the stock ownership requirements annually. Shares acquired through the company's Employee Stock

Purchase Plan are counted toward the stock ownership requirement.

As of the end of 2009, the Chief Executive Officer and the other named executive officers each met the stock ownership requirements.

TABLE OF CONTENTS

Long-Term Equity Incentive Program

In August 2006, the Compensation Committee implemented a performance-based long-term equity incentive program and made significant grants of restricted common stock to the named executive officers. These grants were targeted to deliver total direct compensation (annual base salary, annual bonus awards and long-term incentives) at the 75th percentile of the peer group upon the achievement of exceptional performance. These grants would be fully earned and vested only if during the three fiscal year measurement period: (i) we achieved annual growth for the EBITDA and market capitalization metrics as set forth below; and (ii) the executive officers remained continuously employed with us through January 31, 2010. As provided in the award agreements, the EBITDA goals could be adjusted by the Compensation Committee from time to time to reflect both the positive and negative impact of acquisitions, in order to neutralize their impact. The performance-based long-term equity incentive awards were granted pursuant to the Amended and Restated 2005 Incentive Award Plan.

Performance Goals	EBITDA	Market Cap
December 31, 2007	\$ 54.1 million	\$ 928 million
December 31, 2008	\$ 66.9 million	\$ 1,136 million
December 31, 2009	\$ 82.9 million	\$ 1,400 million

The company met its performance goals for fiscal year 2007 for both EBITDA and market capitalization but did not meet its performance goals for fiscal year 2008 and 2009 for either EBITDA or market capitalization. Accordingly 1/3 of each executive's initial long-term equity incentive program grant vested on January 31, 2010 and the remaining 2/3 were cancelled.

Employment Agreements

The company has entered into employment agreements with each of the named executive officers. These agreements provide for severance equal to twelve months base salary in the event of termination without cause or for resignation for good reason, payable on the sixtieth day following the severance commencement date. However, in the event that the executive's termination of employment is within twelve months after a change in control, the severance amount is increased to twenty-four months of base salary.

In November 2009, the employment agreements were amended to comply with Section 162(m) of the Internal Revenue Code by changing the calculation of the annual cash incentive payout upon termination from a pro-rata calculation based on the officer's bonus target for the year to a pro-rata calculation determined by multiplying the actual incentive achievement for the fiscal year, as though the executive's employment had not terminated, by the fraction of the year the executive is employed in the fiscal year, payable at the time the company pays bonuses for such fiscal year.

Additionally, these agreements provide for limited accelerated vesting of equity grants (other than performance-based restricted common stock) in the event of a termination of employment by us without cause or by the named executive officer for good reason. Furthermore, these agreements contain restrictive covenants requiring that the executive not compete with the company or solicit the company's employees for two years from the date of termination.

The employment agreements also provide change in control benefits. In the event we were to undergo a change of control, the employment agreements provide for 36 months of accelerated vesting for time-based stock option and restricted common stock grants and full vesting of such grants in the event of termination within twelve months of the change of control. The performance-based restricted common stock grants provide for full acceleration upon a change

in control. We believe that it is important to provide for accelerated vesting because equity grants provide such a high proportion of the named executive officers' total compensation. Very often, members of senior management lose their jobs in connection with a change of control. By agreeing up front to protect the named executive officers from losing their equity in the event of a change in control, we believe we can reinforce and encourage the continued attention and dedication of the executive officers to their assigned duties without distraction in the face of an actual or threatened change of control. This protection also aligns the named executive officers' interests with the stockholders' interests.

The employment agreements also provide for a tax gross-up payment to the named executive officers should they become subject to the 20% golden parachute excise tax.

TABLE OF CONTENTS

Mr. Sundaram's employment agreement contains an additional term that resulted from his joining the company upon the acquisition of certain assets of Automotive Lease Guide (alg), LLC. We agreed to honor an existing arrangement that he had with respect to a promissory note owed to his former employer in order to encourage Mr. Sundaram to remain with the company after the acquisition. This arrangement terminated on December 31, 2009.

Please see page 33 for more information regarding the material terms of the named executive officers' employment agreements.

Perquisites

We believe that cash and equity compensation are the two key components in attracting and retaining management talent and therefore do not provide any perquisites other than relocation expenses.

Deferred Compensation Plan

We have a deferred compensation plan that allows the named executive officers to defer bonus compensation by investing it in deferred stock units based on the fair market value of the common stock on the date the bonuses would otherwise be paid. This plan provides a tax effective means of allowing the executive officers to invest in the stock and fulfills the objective of encouraging equity ownership. None of our named executive officers elected to have any portion of their 2009 bonuses deferred.

401(k) Plan

We maintain a 401(k) plan which covers substantially all employees. The 401(k) plan is an essential part of the retirement package needed to attract and retain employees in the industry. The 401(k) plan permits employees to contribute up to the lesser of 20% of earnings or the annual dollar limit prescribed by the tax laws. The company provides a matching contribution, the amount of which is determined at our discretion. For the first quarter of 2009, the matching contribution was 50% of each employee's contribution up to 6% of eligible pay, subject to Internal Revenue Code limitations. As part of cost reduction initiatives described previously, the company match was eliminated for all employees, including the named executive officers, for the period of April 1, 2009 through December 31, 2009. However, the company later made a discretionary contribution of 1% of base salary and commissions for all employees, including all named executive officers, for 2009.

Section 162(m) Policy

Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public companies for compensation over \$1,000,000 paid to their chief executive officers and the four other most highly compensated executive officers unless certain tests are met. The Compensation Committee's general intent is to design and administer our executive compensation programs to preserve the deductibility of compensation payments to named executive officers. However, our goal of preserving the deductibility of compensation is secondary in importance to achievement of the company's compensation objectives. We believe that the potential increased tax liability is of insufficient magnitude to warrant alteration of our current executive compensation programs, which we believe are achieving our desired compensation objectives while retaining our flexibility to exercise judgment in assessing our named executive officers' performance.

Actions Taken After the 2009 Fiscal Year

On March 9, 2010, the Compensation Committee approved long-term performance equity awards consisting of performance stock units (PSUs) for certain of the company's named executive officers. Subject to adjustment as described below, the PSUs vest in full on January 31, 2013, provided that the executive officer remain employed at the company on such date. The target number of PSUs (100%) awarded is subject to adjustment ranging from 0% (threshold) to 137.5% (maximum) based solely upon achievement of certain pre-established performance goals. These performance goals are equally based on both the company's Adjusted Net Income for calendar year 2010 and the total shareholder return of the company's common stock as compared to other companies in the NASDAQ Internet Index in the aggregate for calendar years 2010, 2011 and 2012. The awards will accelerate in full if an executive is terminated without cause, or resigns for good reason, in each case, within 12 months of a change of control.

TABLE OF CONTENTS

EXECUTIVE COMPENSATION

Summary Compensation Table

- (1) In April 2009 the company instituted a company-wide decrease of 5.29% in base salary for all employees, including all executive officers. The amount of salary lost in 2009 was paid back to all employees and executive officers in a lump sum payment in November 2009. The amounts shown for 2009 in this column represent the amount of the salary reduction paid back to each named executive officer.
- (2) This column represents the aggregate grant date fair value of restricted stock awards and does not correspond to the actual value that will be recognized by the named executive officers. For restricted common stock and restricted stock units, fair value is calculated using the closing price of our common stock on the date of grant. For a discussion of the assumptions and methodologies used to calculate the amounts reported, refer to Notes 2 and 11 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009. Under general accounting principles, stock-based compensation expense is generally recognized over the vesting periods applicable to the awards. The SEC's disclosure rules previously required that the company present stock award and option award information for 2008 and 2007 based on the amount recognized during the corresponding year for financial statement reporting purposes with respect to these awards (which meant, in effect, that in any given year the company could recognize for financial statement reporting purposes amounts with respect to grants made in that year as well as with respect to grants from past years that vested in or were still vesting during that year). However, the recent changes in the SEC's disclosure rules require that we now present the stock award and option award amounts in the applicable columns of the table above with respect to 2008 and 2007 on a similar basis as the 2009 presentation using the grant date fair value of the awards granted during the corresponding year (regardless of the period over which the awards are scheduled to vest). Since this requirement differs from the SEC's past disclosure rules, the amounts reported in the table above for stock award and option awards in 2008 and 2007 differ from the amounts previously reported in our Summary Compensation Table for these years. As a result, each named executive officer's

TABLE OF CONTENTS

total compensation amounts for 2008 and 2007 also differ from the amounts previously reported in our Summary Compensation Table for these years.

(3) This column represents the aggregate grant date fair value of stock options granted in such year, as well as prior fiscal years. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions. For a discussion of the assumptions and methodologies used to calculate the amounts reported, refer to Notes 2 and 11 of our consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2009. See the Grants of Plan-Based Awards Table for information on options granted in 2009. These amounts reflect the grant date fair value for these awards, and do not correspond to the monetary value that will be recognized by the named executive officers. As described in footnote (2) above, the amounts shown in this column for 2008 and 2007 are presented on a similar basis as the 2009 presentation using the grant date fair value of the awards as required under recent changes in the SEC rules and differ from the amounts reported in our Summary Compensation Table for those years.

(4) The amounts shown include awards earned under our annual incentive bonus plan in fiscal year 2009 although such amounts are payable in the following year.

(5) Mr. O Neil notified the Compensation Committee that he did not wish to be considered for a bonus for 2008 due to overall company performance. No other form of compensation was provided in lieu of Mr. O Neil's forgone bonus.

(6) See the table below for a listing and description of each component of All Other Compensation.

Mr. Jacobs became DealerTrack's Senior Vice President and Chief Administrative Officer as of January 5, 2009.

(7) Mr. Jacobs also assumed the role of Chief Financial Officer and Treasurer on March 2, 2009. Mr. Jacobs served as DealerTrack's Senior Vice President, General Counsel and Secretary in 2008.

(8) Mr. Cox's employment at DealerTrack ended on March 2, 2009.
