INVESTMENTS**

\$253,539 \$252,647 185

- (a) All of our investments are issued by eligible U.S. portfolio companies, as defined in the Investment Company Act of 1940. All investments are non-controlled/non-affiliate company investments, unless otherwise noted.
The majority of the investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR" or "L") or Prime ("P") which reset daily, monthly, quarterly, or semiannually. For each the Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at March 31, 2015. Certain investments are subject to a LIBOR or Prime interest rate floor.
Because there is no readily available market value for these investments, the fair value of these investments is (c) determined in good faith by our board of directors as required by the Investment Company Act of 1940. (See Note 4 in the accompanying notes to the consolidated financial statements.)
(d) Percentages are based on net assets of \$135,927 as of March 31, 2015.
- (e) A portion of this loan (principal of \$4,479) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility.
- (f) All or a portion of this commitment was unfunded at March 31, 2015. As such, interest is earned only on the funded portion of this commitment.
As defined in the 1940 Act, the Company is deemed to be an "Affiliated Person" of the portfolio company as it owns five percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was an Affiliated Person (but not a portfolio company that the Company is deemed to control.)
- (g) All of this loan is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility.
- (i) A portion of this loan (principal of \$2,861) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility.
- (j) A portion of this loan (principal of \$2,731) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility.
- (k) This delayed draw loan requires that certain financial covenants be met by the portfolio company prior to any fundings.
(l) A portion of this loan (principal of \$5,007) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility.
As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and "Control" this portfolio company as it owns 25% percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control.
- (m) The sale of a portion of this loan does not qualify for sale accounting under ASC Topic 860 — *Transfers and Servicing*, and therefore, the entire unitranche loan asset remains in the Consolidated Schedule of Investments.
- (n) Represents less than 5% ownership of the class and the portfolio company.
The PIK portion of the interest rate for Landpoint, LLC is structured as a guaranteed fee paid upon the termination (p) of the commitment. The fee accrues at 2.25% per annum and is subject to a minimum payment upon termination of \$338.
A portion of the PIK interest rate for TRG, LLC is structured as a guaranteed fee paid upon the termination of the (q) commitment. The fee accrues at 5.92% per annum and is subject to an estimated minimum payment upon termination of \$891.
- (r) The PIK portion of the interest rate for Gracelock Industries, LLC is structured as a fee paid upon the termination of the commitment. The fee accrues at 2.55% per annum.
- (s) This position includes a PIK dividend and is currently on non-accrual status.
n/a - not applicable

(a) All of our investments are issued by eligible U.S. portfolio companies, as defined in the Investment Company Act of 1940. All investments are non-controlled/non-affiliate company investments, unless otherwise noted.

(b) The majority of the investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR" or "L") or Prime ("P") which reset daily, monthly, quarterly, or semiannually. For each the

Edgar Filing: MONROE CAPITAL Corp - Form 10-Q

Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at December 31, 2014. Certain investments are subject to a LIBOR or Prime interest rate floor.

Because there is no readily available market value for these investments, the fair value of these investments is

(c) determined in good faith by our board of directors as required by the Investment Company Act of 1940. (See Note 4 in the accompanying notes to the consolidated financial statements.)

(d) Percentages are based on net assets of \$133,738 as of December 31, 2014.

A portion of this loan (principal of \$4,656) is held in the Company's wholly-owned subsidiary, Monroe Capital

(e) Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility discussed in Note 7 in the accompanying notes to the consolidated financial statements.

(f) All or a portion of this commitment was unfunded at December 31, 2014. As such, interest is earned only on the funded portion of this commitment.

As defined in the 1940 Act, the Company is deemed to be an "Affiliated Person" of the portfolio company as it

(g) owns five percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was an Affiliated Person (but not a portfolio company that the Company is deemed to control.)

All of this loan is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP and is

(h) therefore not collateral to the Company's revolving credit facility discussed in Note 7 in the accompanying notes to the consolidated financial statements.

A portion of this loan (principal of \$2,939) is held in the Company's wholly-owned subsidiary, Monroe Capital

(i) Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility discussed in Note 7 in the accompanying notes to the consolidated financial statements.

A portion of this loan (principal of \$2,798) is held in the Company's wholly-owned subsidiary, Monroe Capital

(j) Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility discussed in Note 7 in the accompanying notes to the consolidated financial statements.

(k) This delayed draw loan requires that certain financial covenants be met by the portfolio company prior to any fundings.

A portion of this loan (principal of \$3,238) is held in the Company's wholly-owned subsidiary, Monroe Capital

(l) Corporation SBIC, LP and is therefore not collateral to the Company's revolving credit facility discussed in Note 7 in the accompanying notes to the consolidated financial statements.

As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and "Control" this

(m) portfolio company as it owns 25% percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control.

The sale of a portion of this loan does not qualify for sale accounting under ASC Topic 860 — *Transfers and*

(n) *Servicing*, and therefore, the entire unitranche loan asset remains in the Consolidated Schedule of Investments. (See Note 7 in the accompanying notes to the consolidated financial statements.)

(o) Represents less than 5% ownership of the class and the portfolio company.

The PIK portion of the interest rate for Landpoint, LLC is structured as a guaranteed fee paid upon the termination

(p) of the commitment. The fee accrues at 2.25% per annum and is subject to a minimum payment upon termination of \$338.

A portion of the PIK interest rate for TRG, LLC is structured as a guaranteed fee paid upon the termination of the

(q) commitment. The fee accrues at 5.92% per annum and is subject to an estimated minimum payment upon termination of \$891.

(r) The PIK portion of the interest rate for Gracelock Industries, LLC is structured as a fee paid upon the termination of the commitment. The fee accrues at 2.55% per annum.

(s) This position includes a PIK dividend and is currently on non-accrual status.

MONROE CAPITAL CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

(in thousands, except share and per share data)

Note 1. Organization and Principal Business

Monroe Capital Corporation (“Monroe Capital” and together with its subsidiaries, the “Company”) was formed in February 2011 to act as an externally-managed nondiversified, closed-end management investment company and has elected to be treated as a business development company under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company had no substantive operating activities prior to October 24, 2012, the date of its initial public offering. Monroe Capital’s investment objective is to maximize the total return to its stockholders in the form of current income and capital appreciation through investment in senior secured, junior secured and unitranche (a combination of senior secured and junior secured debt in the same facility) debt and, to a lesser extent, unsecured subordinated debt and equity investments. Monroe Capital is managed by Monroe Capital BDC Advisors, LLC (“MC Advisors”), a registered investment adviser under the Investment Advisers Act of 1940, as amended. In addition, for U.S. federal income tax purposes, Monroe Capital has elected to be treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”).

On February 6, 2015, the Company entered into an at-the-market (“ATM”) program with MLV & Co. LLC and JMP Securities LLC through which the Company may sell, by means of ATM offerings from time to time, up to \$50,000 of the Company’s common stock. On April 20, 2015, the Company closed a public offering of 2,450,000 shares of its common stock at a public offering price of \$14.85 per share, raising approximately \$36,383 in gross proceeds. The Company also granted the underwriters a 30-day option to purchase up to an additional 367,500 shares of common stock to cover over-allotments, if any.

On February 28, 2014, the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP (“MRCC SBIC”), a Delaware limited partnership, received a license from the Small Business Administration (“SBA”) to operate as a Small Business Investment Company (“SBIC”) under Section 301(c) of the Small Business Investment Company Act of 1958, as amended. MRCC SBIC commenced operations on September 16, 2013. As of March 31, 2015, MRCC SBIC had \$20,000 in regulatory and leveragable capital and \$34,800 in SBA-guaranteed debentures outstanding.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The accompanying consolidated financial statements of the Company and related financial information have been prepared pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. The Company has determined it meets the definition of an investment company and follows the accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 — *Financial Services — Investment Companies* (“ASC Topic 946”).

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation

As permitted under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a portfolio company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of the Company’s wholly-owned subsidiaries, MRCC SBIC and its wholly-owned general partner MCC SBIC GP, LLC, in its consolidated financial statements beginning with the commencement of their operations in September 2013.

Fair Value of Financial Instruments

The Company applies fair value to substantially all of its financial instruments in accordance with ASC Topic 820 — *Fair Value Measurements and Disclosures* (“ASC Topic 820”). ASC Topic 820 defines fair value, establishes a framework used to measure fair value, and requires disclosures for fair value measurements, including the categorization of financial instruments into a three-level hierarchy based on the transparency of valuation inputs. See Note 4 to the consolidated financial statements for further discussion regarding the fair value measurements and hierarchy.

ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. The Company believes that the carrying amounts of its other financial instruments such as cash, receivables and payables approximate the fair value of such items due to the short maturity of such instruments. Fair value of the Company's revolving credit facility is estimated by discounting remaining payments using applicable market rates or market quotes for similar instruments at the measurement date, if available. The Company believes that the carrying value of its revolving credit facility approximates the fair value.

Revenue Recognition

The Company's revenue recognition policies are as follows:

Investments and related investment income: Interest and dividend income is recorded on the accrual basis to the extent that the Company expects to collect such amounts. Interest and dividend income is accrued based upon the outstanding principal amount and contractual terms of debt and preferred equity investments. Interest is accrued on a daily basis. All other income is recorded into income when earned. The Company records prepayment fees and amendment fees on loans as interest income in the period earned. For the three months ended March 31, 2015 and 2014, interest income included \$567 and \$197 of prepayment and amendment fees, respectively. Dividend income is recorded as dividends when declared or at the point an obligation exists for the portfolio company to make a distribution. Distributions of earnings from portfolio companies are evaluated to determine if the distribution is income or a return of capital.

Loan origination fees, original issue discount and market discount or premiums are capitalized, and the Company then amortizes such amounts using the effective interest method as interest income over the life of the investment. Unamortized discounts and loan origination fees totaled \$5,224 and \$4,002 as of March 31, 2015 and December 31, 2014, respectively. Upfront loan origination and closing fees received for the three months ended March 31, 2015 and 2014 totaled \$918 and \$760, respectively. For the three months ended March 31, 2015 and 2014, interest income included \$198 and \$161 of accretion of loan origination fees, original issue discounts and market discounts or premiums, respectively. Upon the prepayment of a loan or debt security, any unamortized premium or discount or loan origination fees are recorded as interest income. For the three months ended March 31, 2015 and 2014, interest income included \$267 and \$229 of unamortized discount or loan origination fees recorded as interest income upon prepayment of a loan or debt security, respectively.

The Company has certain investments in its portfolio that contain a payment-in-kind ("PIK") interest provision, which represents contractual interest or dividends that are added to the principal balance and recorded as income. For the three months ended March 31, 2015 and 2014, interest income included \$530 and \$130 of PIK interest, respectively. The Company stops accruing PIK interest when it is determined that PIK interest is no longer collectible. To maintain RIC tax treatment, and to avoid corporate tax, substantially all of this income must be paid out to stockholders in the form of distributions, even though the Company has not yet collected the cash.

Investment transactions are recorded on a trade-date basis. Realized gains or losses on portfolio investments are calculated based upon the difference between the net proceeds from the disposition and the amortized cost basis of the investment, without regard to unrealized gains and losses previously recognized. Realized gains and loss are recorded within net realized gain (loss) on investments in the consolidated statements of operations. Changes in the fair value of investments from the prior period, as determined by the Company's board of directors (the "Board") through the application of the Company's valuation policy, are included within net change in unrealized appreciation (depreciation) on investments in the consolidated statements of operations.

Non-accrual: Loans or preferred equity securities are placed on non-accrual status when principal, interest or dividend payments become materially past due, or when there is reasonable doubt that principal, interest or dividends will be collected. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal, interest or dividends are paid and, in management's judgment, are likely to remain current. During the three months ended March 31, 2015 and 2014, no loans were on non-accrual status. During the three months ended June 30, 2014, the Company's investments in one portfolio company were restructured and as part of the restructuring the Company received preferred units with a stated PIK interest rate. These preferred units were placed on non-accrual status at the time of the restructuring and remain on non-accrual status. There were no other portfolio company investments on non-accrual status for the three months ended March 31, 2015 and 2014.

Partial loan sales: The Company follows the guidance in ASC Topic 860 — *Transfers and Servicing* ("ASC Topic 860"), when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain on the Company's consolidated statements of assets and liabilities and the proceeds are recorded as a secured borrowing until the definition is met. For these partial loan sales, the interest earned on the entire loan balance is recorded within "interest income" and the interest earned by the buyer in the partial loan sale is recorded within "interest and other debt financing expenses" in the accompanying consolidated statements of operations. Changes in the fair value of secured borrowings from the prior period, as determined by the Board through the application of the Company's valuation policy, are included as changes in unrealized appreciation (depreciation) on secured borrowings in the consolidated statements of operations. See Note 7 "Secured Borrowings" for additional information.

Distributions

Distributions to common stockholders are recorded on the record date. The amount, if any, to be distributed, is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are distributed at least annually, although the Company may decide to retain such capital gains for investment.

The determination of the tax attributes for the Company's distributions is made annually, based upon its taxable income for the full year and distributions paid f
