**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**MARCH 31, 2013 (UNAUDITED)**

**NOTE 1 ORGANIZATION AND ACCOUNTING POLICIES**

UMH Properties, Inc. ( we , our , us or the Company ) owns and operates sixty-seven manufactured home communities containing approximately 12,500 developed homesites. In April 2013, we acquired Holiday Mobile Village, a 274-site community in Nashville, Tennessee (See Note 10). With this acquisition, we now own sixty-eight communities consisting of approximately 12,800 sites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company also invests in securities of other REITs.

The Company has elected to be taxed as a real estate investment trust (REIT) under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim consolidated financial statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2013 are not necessarily indicative of the results that may be expected for the year ending December 31, 2013. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2012.

**Use of Estimates**

In preparing the consolidated financial statements in accordance with US GAAP, management is required to make estimates and assumptions that affect the reported amounts of

assets and liabilities, as well as contingent assets and liabilities as of the dates of the consolidated balance sheets and revenue and expenses for the years then ended. Actual results could differ significantly from these estimates and assumptions.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$132,580 and \$107,972 have been recognized for the three months ended March 31, 2013 and 2012, respectively.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants during the three months ended March 31, 2013:

	2013
Dividend yield	6.70%
Expected volatility	32.66%
Risk-free interest rate	1.26%
Expected lives	8
Estimated forfeitures	-0-

The weighted-average fair value of options granted during the three months ended March 31, 2013 was \$1.33.

As of March 31, 2013, there were options outstanding to purchase 745,000 shares and 558,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended. During the three months ended March 31, 2013, options to one employee to purchase a total of 50,000 shares expired. As of March 31, 2012, there were options outstanding to purchase 725,000 shares and 632,188 shares were available for grant under the Company's 2003 Stock Option and Stock Award Plan, as amended.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on our variable rate debt. We attempt to limit these risks by following established risk management policies, procedures and

strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company had entered into various interest rate swap agreements that had the effect of fixing interest rates relative to specific mortgage loans.

During 2012, the Company entered into two interest rate swap agreements that have the

effect of fixing interest rates relative to specific mortgage loans as follows:

		Mortgage	Effective	Balance
Mortgage	Due Date	Interest Rate	Fixed Rate	3/31/13
Allentown/Clinton	2/1/2017	LIBOR + 3.25%	4.39%	\$11,034,418
Various 11 properties	8/1/2017	LIBOR + 3.00%	3.89%	\$13,437,015

The Company's interest rate swap agreements are based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreements coincide with those of the underlying mortgage. The interest rate swap agreements are net settled monthly. The Company has designated these derivatives as cash flow hedges and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 7 for information on the determination of fair value). The effective portion of the gain or loss on these hedges will be reported as a component of Accumulated Other Comprehensive Income in our Consolidated Balance Sheets. To the extent that the hedging relationships are not effective or do not qualify as cash flow hedges, the ineffective portion is recorded in interest expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of March 31, 2013 and December 31, 2012, the Company has determined that these interest rate swap agreements are highly effective as cash flow hedges. As a result, the fair value of these derivatives of \$(325,696) and \$(377,795), respectively, was recorded as a component of Accumulated Other Comprehensive Income, with the corresponding liability included in Accrued Liabilities and Deposits.

#### Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. ASU 2013-02 does not change the current requirements for reporting net income or other comprehensive income in financial statements. However, ASU 2013-02 requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under US GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under US GAAP that provide additional detail about those amounts. This ASU is effective prospectively, for annual and interim periods, beginning on or after December 15, 2012. The adoption of ASU 2013-02 did not have a material impact on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying consolidated financial statements.

Reclassifications

Certain amounts in the financial statements for the prior periods have been reclassified to conform to the statement presentation for the current periods.

NOTE 2 NET INCOME PER SHARE

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 60,509 and 58,292 shares for the three months ended March 31, 2013 and 2012, respectively, are included in the diluted weighted average shares outstanding. As of March 31, 2013 and 2012, options to purchase 536,000 and 522,000 shares, respectively, were antidilutive.

NOTE 3 INVESTMENT PROPERTY AND EQUIPMENT

On March 1, 2013, the Company acquired 10 manufactured home communities for approximately \$67.5 million. These 10 all-age communities total 1,854 sites and are situated on approximately 400 acres. There are five communities located in Indiana, four communities located in Pennsylvania, and one community located in Michigan. The average occupancy for these communities is approximately 85%. The Company obtained a \$53,760,000 mortgage loan from JP Morgan Chase Bank, N.A. and paid the balance in cash. Interest on the mortgage loan is fixed at 4.065%. This mortgage loan matures on March 1, 2023.

NOTE 4 SECURITIES AVAILABLE FOR SALE

The Company holds a portfolio of securities of other REITs. During the three months ended March 31, 2013, the Company sold securities with an adjusted cost of \$11,929,305 and recognized a gain on sale of \$3,310,028. The Company also made purchases of \$2,018,694 in securities available for sale.

As of March 31, 2013, the Company had two securities that were temporarily impaired. The Company considers many factors in determining whether a security is other than temporarily impaired, including the nature of the security and the cause, severity and duration of the impairment.

The following is a summary of temporarily impaired securities at March 31, 2013:

	Less Than 12 Months		12 Months or Longer	
	<u>Fair Value</u>	<u>Unrealized Loss</u>	<u>Fair Value</u>	<u>Unrealized Loss</u>
Preferred Stock	\$ 249,500	\$ (500)	\$ -0-	\$ -0-
Common Stock	108,600	(49,600)	-0-	-0-
Total	\$ 358,100	\$ (50,100)	\$ -0-	\$ -0-

The following is a summary of the range of the losses:

Number of			
<u>Individual Securities</u>	<u>Fair Value</u>	<u>Unrealized Loss</u>	<u>Range of Loss</u>
1	\$ 249,500	\$ (500)	Less than or equal to 10%
1	108,600	(49,600)	Less than or equal to 40%
2	\$ 358,100	\$ (50,100)	

The Company has determined that these securities are temporarily impaired as of March 31, 2013. The Company normally holds REIT securities long term and has the ability and intent to hold securities to recovery. As of March 31, 2013, the Company had total net unrealized gains of \$8,237,269 in its REIT securities portfolio.

#### NOTE 5 LOANS AND MORTGAGES PAYABLE

On February 27, 2013, the Company had one mortgage loan due for D&R Village and Waterfalls Village with a balance of approximately \$7,400,000. Under the terms of the loan agreement, this loan may be extended for an additional two years. Management has extended this loan to February 27, 2015. Interest during the extension period is at LIBOR plus 225 basis points.

On March 1, 2013, the Company obtained a \$53,760,000 mortgage loan from JP Morgan Chase Bank, N.A. on the 10 community acquisition. The Company also included 3 additional communities in this mortgage. Interest on the

mortgage loan is fixed at 4.065%. This mortgage loan matures on March 1, 2023.

On March 29, 2013, the Company entered into a new \$35 million Unsecured Revolving Credit Facility with Bank of Montreal ( BMO Line ). The Company has the ability to increase the borrowing capacity by an amount not to exceed \$15 million, representing a maximum aggregate borrowing capacity of \$50 million, subject to the obtaining of additional commitments. The maturity date of the Facility is March 29, 2016 with a one year extension available at the Company's option. Borrowings under the Facility can be used for, among other things, acquisitions, working capital, capital expenditures, and repayment of other indebtedness.

Borrowings will bear interest at the Company's option of LIBOR plus 2.00% to 2.75% or BMO's prime lending rate plus 1.00% to 1.75%, based on the Company's overall leverage. The Company will pay a fee on the unused commitment amount of up to 0.35% per annum. The BMO Line replaces our current \$5.0 million unsecured line of credit. On April 1, 2013, the Company borrowed \$20,000,000 on the BMO Line in anticipation of the acquisition of Holiday Mobile Village and for other corporate purposes (see Note 10).

NOTE 7 - FAIR VALUE MEASUREMENTS

In accordance with ASC 820-10, Fair Value Measurements and Disclosures, the Company measures certain financial assets and liabilities at fair value on a recurring basis, including securities available for sale. The fair value of these financial assets and liabilities were determined using the following inputs at March 31, 2013 and December 31, 2012:

## Fair Value Measurements at Reporting Date Using

The Company is required to disclose certain information about fair values of financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's securities available for sale have quoted market prices and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy.

For a portion of the Company's other financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties, future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only and, therefore, cannot be compared to the historical accounting model. Use of different assumptions or

methodologies is likely to result in significantly different fair value estimates.

The fair value of cash and cash equivalents and notes receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate mortgages payable and loans payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of March 31, 2013, the fair and carrying value of fixed rate mortgages payable amounted to \$138,677,739 and \$135,767,605, respectively. The fair value of mortgages payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

#### NOTE 8 - CONTINGENCIES AND COMMITMENTS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claim or litigation has a material adverse effect on the financial position or results of operations.

On April 2, 2013, the Company acquired Holiday Mobile Village, a 274-site manufactured home community located in Nashville, Tennessee, for a purchase price of \$7,250,000 (See Note 10).

#### NOTE 9 - SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest during the three months ended March 31, 2013 was \$1,754,064 and \$1,702,394, respectively. Interest cost capitalized to Land Development was \$69,976 and \$69,827 for the three months ended March 31, 2013 and 2012, respectively.

During the three months ended March 31, 2013 and 2012, the Company had dividend reinvestments of \$341,016 and \$341,218, respectively, which required no cash transfers.

#### NOTE 10 SUBSEQUENT EVENTS

Material subsequent events have been evaluated and are disclosed through the date these financial statements were issued.

On April 1, 2013, the Company borrowed \$20,000,000 on the BMO Line in anticipation of the acquisition of Holiday Mobile Village and for other corporate purposes. Interest on this borrowing is at LIBOR plus 225 basis points.

On April 2, 2013, the Company acquired Holiday Mobile Village, a 274-site manufactured home community situated on approximately 68 acres, located in Nashville, Tennessee, for a purchase price of \$7,250,000. The occupancy for this community is approximately 82%.

On April 3, 2013, the Company repaid its mortgages on Cranberry Village and Forest Park for a total amount of approximately \$5,700,000. The interest rate on these mortgages was 6.8%.

#### NOTE 11 PROFORMA FINANCIAL INFORMATION (UNAUDITED)

The following unaudited pro forma condensed financial information reflects the acquisitions during 2012 and through March 31, 2013. This information has been prepared utilizing the historical financial statements of the Company and the effect of additional revenue and expenses from the properties acquired during this period assuming that the acquisitions had occurred as of January 1, 2012, after giving effect to certain adjustments including (a) rental and related income; (b) community operating expenses; (c) interest expense resulting from the assumed increase in mortgages and loans payable related to the new acquisitions and (d) depreciation expense related to the new acquisitions; (e) net income attributable to common shareholders have been reduced by preferred dividends related to the proceeds from capital raising used for property acquisitions. The unaudited pro forma condensed financial information is not indicative of the results of operations that would have been achieved had the acquisitions reflected herein been consummated on the dates indicated or that will be achieved in the future.

## **ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **Overview**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our

annual report on Form 10-K for the year ended December 31, 2012.

The Company is a self-administered, self-managed, real estate investment trust (REIT) with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities leasing manufactured home spaces on an annual or month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F) sells and finances homes to residents and prospective residents of our communities. At

March 31, 2013, the Company owned sixty-seven manufactured home communities containing approximately 12,500 developed homesites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company also invests in securities of other REITs.

The Company's income primarily consists of rental and related income from the operation of its manufactured home communities. Income also includes sales of manufactured homes as well as sales finance operations.

Although current economic indicators show the US economy to be improving, the rate of recovery has been much slower than anticipated. However, activity in our communities has recently increased. Occupancy has increased from 80% at year-end to 81% currently. We are seeing increased demand for rental units and during 2013, have added a net of approximately 140 rental units to selected communities as well as acquired 220 rental units with fiscal 2013 acquisitions. Occupied rental units represent approximately 14% of total occupied sites at quarter end. We hope to convert renters to new homeowners in the future.

The Company also holds a portfolio of securities of other REITs with a fair value of \$49,038,142 at March 31, 2013, which earns dividend and interest income. The dividends received from our securities investments were at a weighted-average yield of approximately 6.2% as of March 31, 2013. During the three months ended March 31, 2013, the Company recognized gains on sales of securities of \$3,310,028. At March 31, 2013, the Company had net unrealized gains of \$8,237,269 in its REIT securities portfolio. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

The Company intends to continue to increase its real estate investments. In 2011 and 2012, we added twenty-two manufactured home communities, encompassing approximately 2,600 developed homesites, to our portfolio. On March 1, 2013, the Company acquired 10 manufactured home communities for approximately \$67.5 million. These 10 all-age communities total 1,854 sites and are situated on approximately 400 acres. There are five communities located in Indiana, four communities located in Pennsylvania, and one community located in Michigan. The average occupancy for these communities is approximately 85%. On April 2, 2013, the Company acquired Holiday Mobile Village, a 274-site manufactured home community situated on approximately 68 acres, located in Nashville, Tennessee, for a purchase price of approximately \$7.3 million. The occupancy for this community is approximately 82%. We have been positioning ourselves for future growth and will continue to seek opportunistic investments.

See PART I, Item 1 Business in the Company's 2012 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

### **Changes In Results Of Operations**

Rental and related income increased 33% from \$8,760,043 for the three months ended March 31, 2012 to \$11,642,186 for the three months ended March 31, 2013. This was primarily due to the acquisitions made during 2012 and 2013, and an increase in rental home income. Occupancy increased from 77% at March 31, 2012 to 81% at March 31, 2013.

Sales of manufactured homes amounted to \$1,784,109 and \$2,130,903 for the quarters ended March 31, 2013 and 2012, respectively. Cost of sales of manufactured homes amounted to \$1,522,532 and \$1,972,326 for the quarters ended March 31, 2013 and 2012, respectively. These decreases are related to a decrease in sales. Selling expenses amounted to \$508,902 and \$431,063 for the quarters ended March 31, 2013 and 2012, respectively. This increase is primarily due to increased expenses related to integrating the sales operations for our new acquisitions as well as other miscellaneous selling expenses. Loss from the sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$247,325 or 14% of total sales, and \$272,486 or 13% of total sales for the quarters ended March 31, 2013 and 2012, respectively. The gross profit percentage was 15% and 7% for the quarters ended March 31, 2013 and 2012, respectively. Activity in our communities has increased and we have raised our prices. The Company believes that sales of new homes produces new rental revenue and is an investment in the upgrading of the communities.

Community operating expenses increased 24% from \$4,794,270 for the quarter ended March 31, 2012 to \$5,947,365 for the quarter ended March 31, 2013. This was primarily due to the acquisitions made during 2012 and 2013 and an increase in personnel and related costs. General and administrative expenses remained relatively stable for the quarter ended March 31, 2013 as compared to the quarter ended March 31, 2012. Franchise taxes increased 100% from \$33,000 for the quarter ended March 31, 2012 to \$66,000 for the quarter ended March 31, 2013. This increase was due to the acquisition of additional communities. Acquisition costs increased from \$82,657 for the quarter ended March 31, 2012 to \$591,068 for the quarter ended March 31, 2013. Acquisition costs relate to transaction and due diligence costs associated with the acquisitions of the communities. Depreciation expense increased 49% from \$1,609,291 for the quarter ended March 31, 2012 to \$2,389,854 for the quarter ended March 31, 2013. This was primarily due to the acquisitions made during 2012 and 2013.

Interest income increased 13% from \$477,949 for the quarter ended March 31, 2012 to \$538,132 for the quarter ended March 31, 2013. This was primarily due to an increase in notes receivable. The average balance of notes receivable was approximately \$22,179,000 and \$19,888,000 at March 31, 2013 and 2012, respectively. Dividend income increased 10% from \$776,866 for the quarter ended March 31, 2012 to \$850,793 for the quarter ended March 31, 2013. This was primarily due to an increase in securities available for sale. The average balance of the securities portfolio was approximately \$53,200,000 and \$45,500,000 at March 31, 2013 and 2012, respectively.

Gain on securities transactions, net amounted to \$3,310,028 and \$1,212,712 for the quarter ended March 31, 2013 and 2012, respectively. The market for REIT securities has continued to improve. At March 31, 2013, the Company had net unrealized gains of \$8,237,269

in its REIT securities portfolio. The dividends received from our securities investments continue to meet our expectations. It is our intent to hold these securities long-term.

Other income remained relatively stable for the quarter ended March 31, 2013 as compared to the quarter ended March 31, 2012.

Interest expense increased 17% from \$1,431,698 for the quarter ended March 31, 2012 to \$1,679,809 for the quarter ended March 31, 2013. This increase is primarily due to the new loan for the ten community acquisition in 2013 and the new loan for the eleven community acquisition in 2012.

Amortization of financing costs remained relatively stable for the quarter ended March 31, 2013 as compared to the quarter ended March 31, 2012.

Income from community operations (defined as rental and related income less community operating expenses) amounted to \$5,694,821 and \$3,965,773 for the quarter ended March 31, 2013 and 2012, respectively. This increase is primarily due to the acquisitions during 2013 and 2012.

### **Changes in Financial Condition**

Total investment property and equipment increased 28% or \$72,771,708 during the three months ended March 31, 2013. This increase was primarily due to the acquisition of 10 communities for a purchase price of \$67,500,000, which included 220 rental units. The Company also added approximately 140 rental units.

Securities available for sale decreased 14% or \$8,287,298 during the three months ended March 31, 2013. The decrease was due to sales with an adjusted cost of \$11,929,305. This decrease was partially offset by purchases of securities available for sale of \$2,018,694 and an increase in the unrealized gain of \$1,623,313.

Mortgages payable increased 49% or \$52,871,126 during the three months ended March 31, 2013. This increase was due to one new mortgage totaling \$53,760,000 partially offset by principal repayments of \$888,874.

The Company also raised \$6,785,788 from the issuance of common stock in the DRIP during the three months ended March 31, 2013, which included dividend reinvestments of \$341,016. Dividends paid on the common stock for the three months ended March 31, 2013 were \$3,155,607 of which \$341,016 was reinvested. On April 8, 2013, the Company declared a dividend of \$0.18 per share to be paid June 17, 2013 to common shareholders of record as of May 15, 2013.

Dividends paid on the preferred stock for the three months ended March 31, 2013 was \$1,889,147. On April 8, 2013, the Company declared a preferred dividend of \$0.515625 per share to be paid on June 17, 2013 to preferred shareholders of record as of May 15, 2013.

### **Liquidity And Capital Resources**

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in securities of other REITs and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

Current economic indicators show the US economy to be slowly improving. The affordability of our homes should enable the Company to perform well despite the challenging economy. While the recent recession has proven difficult, the manufactured housing community property type has been more stable than other commercial property types.

The Company uses a variety of sources to fund its cash needs in addition to cash generated through operations. The Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets.

On March 29, 2013, the Company entered into a new \$35 million Unsecured Revolving Credit Facility with Bank of Montreal. The Company has the ability to increase the borrowing capacity by an additional amount not to exceed \$15 million, representing a maximum aggregate borrowing capacity of \$50 million, subject to the obtaining of additional commitments.

Net cash provided by operating activities amounted to \$1,678,445 and \$2,755,502 for the three months ended March 31, 2013 and 2012, respectively. As of March 31, 2013, the Company had cash and cash equivalents of \$8.5 million, securities available for sale of \$49.0 million, \$35.0 million available on its unsecured line of credit, and \$6.9 million available on its revolving lines of credit for the financing of home sales and the purchase of inventory. The Company owns 67 properties, of which 22 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings of its preferred stock.

The Company believes that funds generated will be adequate to meet its obligations over the next several years.

**Off-Balance Sheet Arrangements**

The Company does not have any off-balance sheet arrangements.

**Funds From Operations**

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding extraordinary items, as defined under US GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. Core Funds From Operations (Core FFO), is defined as FFO plus acquisition costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost basis. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent cash flow from operations as defined by US GAAP; (ii) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) is not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.

The Company's FFO for the three months ended March 31, 2013 and 2012 is calculated as follows:

	Three Months Ended	
	3/31/13	3/31/12
Net Income Attributable to Common Shareholders	\$2,260,364	\$1,059,378
Depreciation Expense	2,389,854	1,609,291
(Gain) Loss on Sales of Depreciable Assets	12,861	(13,132)
FFO Attributable to Common Shareholders	4,663,079	2,655,537
Acquisition Costs	591,068	82,657
Core FFO Attributable to Common Shareholders	\$5,254,147	\$2,738,194

The following are the cash flows provided (used) by operating, investing and financing activities for the three months ended March 31, 2013 and 2012:
