Edgar Filing: ABIOMED INC - Form 8-K

---

Item 8.01 Other Events.

On January 7, 2008 the Company announced it had submitted what the Company believes to be the final response to the U.S. Food and Drug Administration (FDA) in connection with its submission for 510(k) clearance for its Impella 2.5 circulatory support device. This response included data related to use of the Impella 2.5 treating 35 patients and the Company believes that the respective data demonstrates the device's safety based on an audit from an independent third party group. The Company stated that the submission also referenced data related to the treatment of hundreds of patients from European peer-reviewed studies. The Company also indicated that the predicate devices were approved without any respective clinical data. The Impella 2.5 device is approved in Europe under CE-mark. The Company expects to receive a response from the FDA on its 510(k) clearance submission sometime before March 31, 2008.
