FONEFRIEND, INC.

NOTES TO FINANCIAL STATEMENTS

September 30, 2003

NOTE 1 - DESCRIPTION OF BUSINESS

A. Background

FoneFriend, Inc. ("FoneFriend" or the "Company") was incorporated on April 24, 2001, under the laws of the State of Nevada, and on November 21, 2002, was merged with and into FoneFriend, Inc., a Delaware corporation. The Company maintains a corporate office at 2722 Loker Avenue, Suite G, Carlsbad, California 92008. The Company's telephone number is: (760) 607-2330.

The Company is a development stage enterprise and has not generated any revenue during its history. The primary business of the Company is to market an Internet telephony device and related services to customers worldwide, called the "FoneFriend". The underlying technology of FoneFriend has been licensed by the Company from FoneFriend Systems, Inc. and will enable the Company's subscribers to make and receive unlimited long distance telephone calls over the Internet, using only their standard residential telephone set (without the need for a computer), for a low monthly fee of about \$10.00 or less. Due to the small cost

## Edgar Filing: FONEFRIEND INC - Form 10QSB

of transmitting calls over the Internet, the Company anticipates that it will realize significant profit margins, in excess of the traditional telecommunications industry.

### B. Basis of Presentation

The accompanying financial statements have been prepared in accordance with Generally Accepted Accounting Principles ("GAAP") which contemplates continuation of the Company as a going concern. Management is attempting to raise additional capital.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### A. Fiscal Year

The Company's fiscal year is March 31 (after the above-described merger of FoneFriend, Inc. of Nevada with and into FoneFriend, Inc. of Delaware). The accompanying unaudited financial statements are for September 30, 2003 and the three month period then ended.

### B. Significant Estimates

In the process of preparing its financial statements in accordance with GAAP, the Company estimates the carrying value of certain assets and liabilities that are subjective in nature. The primary estimates included in the Company's financial statements include capitalized development costs and the ongoing value of its purchased technology license.

FONEFRIEND, INC.

## NOTES TO FINANCIAL STATEMENTS - Continued

### C. Cash and Cash Equivalents

Cash and cash equivalents consist of cash and highly liquid investments with maturity dates of three months or less at the date of purchase. These items are carried at cost, which approximates fair value due to their short-term maturity dates.

### D. Prepaid Expenses and other Current Assets

The Company has cash outlays in advance of expense recognition for items such as interest, financing fees, and service contracts. All amounts identified as prepaid expenses that will be utilized during the next twelve months are identified as current assets, while any portion that will not be utilized during the next twelve months are classified as non-current assets.

### E. Furniture and Equipment

Furniture and equipment are carried at cost and depreciated over the estimated useful lives of the individual assets.

### F. Capitalized Development Costs

Capitalized development costs consist of expenditures made by the Company to

## Edgar Filing: FONEFRIEND INC - Form 10QSB

improve the product and develop marketing channels for the product, and which are deemed by management to have future value to the Company. Such capitalized development costs will be amortized over the estimated useful life once product sales begin.

### G. Technology Rights, FoneFriend License

The Company purchased a license to use the FoneFriend technology for a period of ten years from FoneFriend Systems, Inc. under a license agreement dated April 30, 2001. This license agreement allows the Company to manufacture, market and utilize a proprietary technology referred to as FoneFriend. During the development stage operations, the Company is carrying the asset at cost and will begin amortization over the remaining life of the license when product sales begin. The remaining value to the Company will be reviewed quarterly and if management determines that impairment of the asset has occurred, the carrying value will be adjusted accordingly.

### H. Stock in FoneFriend Systems, Inc.

The Company purchased stock in FoneFriend Systems, Inc. as a long-term investment. Such investment is carried at cost and will be evaluated periodically by management to determine whether impairment has occurred. Should management determine that the value has been impaired, the carrying value will be adjusted accordingly.

#### NOTE 3 - DEPRECIATION AND AMORTIZATION

NOTE 4 - MERGER AND CAPITAL STOCK

The merger of FoneFriend, Inc. of Nevada with and into FoneFriend, Inc. of Delaware was consummated on November 21, 2002 wherein the assets of FoneFriend, Inc. of Nevada were acquired by Universal Broadband Networks, Inc. ("UBN") in a tax-free reorganization pursuant to IRC 368 (the "Merger"). The Merger was effectuated as a "C" type reorganization whereby UBN issued stock in exchange for all of the assets FoneFriend, Inc. of Nevada, after which that corporation was dissolved. UBN was the surviving corporation and changed its name to FoneFriend, Inc. (a Delaware corporation) immediately subsequent to the Merger. Pursuant to the express terms of the Fourth

FONEFRIEND, INC.

NOTES TO FINANCIAL STATEMENTS - Continued

Amended Plan of Reorganization, as approved by the U.S. Bankruptcy court (the "Plan"), the Merger was accomplished as follows:

1. All of UBN's issued and outstanding shares of capital stock were cancelled and extinguished and the stockholders of UBN prior to the Merger have no further interest or rights in UBN.
2. UBN issued 2,200,000 shares of newly created common stock in favor of FoneFriend, Inc. (Nevada corporation) in exchange for all of FoneFriend, Inc.'s assets and 115,750 of newly created common stock in favor of a Liquidating Trust for the benefit of UBN's creditors. As a result, the merged entity had a total of 2,315,750 shares of newly created common stock issued and outstanding, of which former shareholders of the dissolved Nevada corporation owned 95%, and J. Michael Issa, Esq., as Trustee of the Liquidating Trust (which was created under the Plan), owned 5%.
3. The issuance of stock pursuant to the Plan, as filed within the U.S. Bankruptcy Court, was ordered by the Court to be exempt from all applicable Federal, State and local securities law, pursuant to 11 U.S.C. ss.1145 (a).
4. The dissolved Nevada corporation's management distributed the newly issued 2,200,000 shares of FoneFriend, inc. (Delaware corporation) to its former shareholders, on a pro-rata basis. Each of such former shareholders received one share of stock in FoneFriend, Inc. (Delaware corporation) for every four-share shares held in the dissolved Nevada corporation.
5. Immediately subsequent to the Merger, the Company authorized the issuance of 820,361 shares of a newly created Series A Preferred Stock (each share of which is convertible into one share of common stock) to be issued to shareholders of preferred stock in the dissolved Nevada corporation prior to the Merger.
6. The Company then issued 4,600,000 shares of common stock to various management personnel and consultants in order to hire or

## Edgar Filing: FONEFRIEND INC - Form 10QSB

retain their services. The Company also issued 423,000 shares of common stock to Dennis H. Johnston, Esq. as compensation for his services in connection with the Merger. Additionally, the Company issued 307,250 shares of common stock to the Liquidating Trust so as to be in compliance with the Anti-Dilution Protection provisions of the Plan.

12

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the Company's financial statements and related footnotes included elsewhere herein. Statements contained in this Management's Discussion and Analysis of Financial Condition and Results of Operations which are not historical facts are forward looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Examples of such forward looking statements include the Company's expectations regarding its intended plan of operation, the potential sale of its product, the Company's planned financing of this venture and the sufficiency of the Company's available liquidity for working capital, the Company's belief that its technology-based business will grow and result in profitability, that it is positioned to take advantage of new opportunities, and that it will focus on strengthening and growing its business and commercializing innovative technologies and services. Actual results may differ materially from those stated or implied in the forward looking statements. Further, certain forward looking statements are based upon assumptions of future events which may not prove to be accurate and are subject to risks and uncertainties that could cause actual results to differ materially from those set forth or implied by forward looking statements. These risks and uncertainties include, but are not limited to, those referred to in the Company's annual report on Form 10-KSB, for the fiscal year ended March 31, 2003, including the Company's entry into a new commercial business, its ability to access the capital markets and obtain working capital, risks associated with technological changes in the market for telecommunications and voice transmission over the Internet, risks of competition in the emerging internet telephony industry, and other risks described in the Company's Securities and Exchange Commission filings.

#### OVERVIEW

The Company is a development stage enterprise and has not generated any revenue during its history. The primary business of the Company is to market an Internet telephony device and related services to customers worldwide, called the "FoneFriend". The underlying technology of FoneFriend has been licensed by the Company from FoneFriend Systems, Inc. and will enable the Company's subscribers to make and receive unlimited long distance telephone calls over the Internet, using only their standard residential telephone set (without the need for a computer), for a low monthly fee of about \$10.00 or less. Due to the small cost of transmitting calls over the Internet, the Company anticipates that it will realize significant profit margins, in excess of the traditional telecommunications industry.

The Company has experienced significant losses during development stage operations and has yet to realize any revenues from its operations.

## Edgar Filing: FONEFRIEND INC - Form 10QSB

13

During the fourth quarter of fiscal year 2003, management of the Company evaluated the future benefit of the Company's capitalized development costs and determined that it was prudent to write down the value of that asset to its estimated fair value.

During the first two quarters of the current fiscal year, the Company's management focused its efforts primarily on reducing its overhead, to conserve financial resources, and the hiring of consultants that would help further its quest for financing, as well as assist in implementing the Company's intended plan of business and preparing the technical infrastructure and marketing support necessary for its operational stage.

To date, the Company has established the foundation necessary upon which it can build a next generation telecommunications company, utilizing the Internet and VoIP technology, that will carry customer calls at rates which are dramatically lower than traditional international long distance carriers with excellent quality.

### RESULTS OF OPERATIONS

The Company had no revenue during the three months ended September 30, 2003, or during its entire history.

Expenses of the Company for the second quarter of the current fiscal year, ending March 31, 2004, increased to \$315,883, from \$211,316 for the three month period ending September 30, 2003, compared to the three month period ending September 30, 2002. The increase was due primarily to the accrual of consulting fees and officer salary expense, which was not previously accrued by the Company. Current expenses consist primarily of consultant fees, officer salaries, overhead and other general expenses related to continuing operations, developing its product and bringing that product to market.

During the second quarter of fiscal 2004, the Company issued 400,000 shares of stock to consultants for future services to be provided to the Company. The value of such shares issued to consultants is being amortized to consulting expense over the term of each individual's contract, usually either a six or a twelve-month period. Also, the Company issued an additional 60,000 shares of common stock in settlement of litigation.

As previously disclosed in the Company's Form 10-QSB, for the period ending June 30, 2003, the Company received notice on July 30, 2003, that Francois Van Der Hoeven had resigned as a director. Mr. Van Der Hoeven had previously resigned as Senior Vice President of Marketing in May of 2003. In addition, the Company had notified its transfer agent to place a stop transfer order on 1,300,000 shares that were previously issued to him in anticipation of his services over a 3-year employment term. Mr. Van Der Hoeven's shares are being counted as outstanding until such time as the certificate is either returned or the Company issues a cancellation order.

14

### FACTORS THAT MAY AFFECT FUTURE RESULTS

The Company anticipates that it will market its product through direct marketing to segments of the population that use significant long distance service to foreign countries.

## Edgar Filing: FONEFRIEND INC - Form 10QSB

The initial target markets will be areas in which the population includes significant European, Hispanic and Asian segments. These segments of the population typically spend substantial time on international long distance calls to their native countries.

Other products may be developed that compete with the Company's product, thereby reducing future potential revenue.

Further, since the Company's product requires significant lead time in the manufacturing process, any delay in filling orders could affect customer satisfaction.

The Loss Of Our Key Personnel Could Harm Our Business.

The loss of the services of the Company's CEO and other key consultants or employees could have a material adverse effect on our operations, as hiring replacements would most likely involve the payment of salaries, for which we do not currently have the financial resources. Our inability to hire suitable replacements could have a material adverse effect on our ability to continue operating.

The Company is in Breach of Key Employment and Consulting Agreements.

For the last year, the Company has failed to make the required payments of \$7,500 per month to Jackelyn Giroux, the President and Director, under her employment agreement. There is no guarantee that she will continue to work without being paid. The Company may be forced to amend her Employment Agreement on less favorable terms. The loss of Ms. Giroux as President would have a material adverse effect on the Company's ability to continue operating.

For the last year, the Company has failed to make the required payments of \$10,000 a month to Gary A. Rasmussen, a Consultant and founder, under the terms of his Consulting Agreement. There is no guarantee that he will continue to work without being paid. The Company may be forced to amend his Consulting Agreement on less favorable terms. The loss of Mr. Rasmussen would have a material adverse effect on the Company's ability to continue operating.

Additional Risk Factors are set forth in the Company's 10KSB.

For additional Risk Factors please see the Risk Factors located in the Company's Form 10KSB, for the fiscal year ended March 31, 2003 which are hereby adopted and incorporated by reference.

### LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2003, the Company had limited working capital and the Company had no material unused sources of liquid assets. Also at September 30, 2003, the Company had no existing credit facility. As a result, the Company is delinquent in certain general and administrative expenses and has a shortage of cash to pay its pending accounts payable.

A part of the Company's strategy is to seek external financing to grow its commercial business. Management is presently negotiating with several qualified investment sources in order to obtain the necessary financing required to implement its intended plan of business. The Company's current operating capital has been provided primarily through cash advances from its officers and various third parties.

## Edgar Filing: FONEFRIEND INC - Form 10QSB

While the Company intends to generate working capital from its product and related services in the future, we expect our minimum capital needs during the current fiscal year to be approximately \$2.0 million. This amount will primarily be used for manufacturing, implementing a large scale network system, marketing programs and for general working capital.

However, the Company may not be able to obtain the required financing, or such financing may not be available on acceptable terms. Due to the Company's historical operating losses, there can be no assurance that projected capital requirements will not substantially exceed current and future capital resources. This could result in a significant and material adverse effect on our ability to continue operating.

Additional working capital needs of the Company may require issuance of equity securities, either on a public or private basis. Such issuances would, if consummated, affect the ongoing capital structure of the Company and may result in substantial dilution to shareholders. If additional funds are raised through the issuance of equity, convertible debt, or similar securities of the Company, the percentage of ownership of the Company's current shareholders will be reduced, and such new securities may have rights or preferences senior to those of the common stock held by current shareholders. No agreement with respect to any such financing has been entered into, and such issuance may not be consummated. In the event that funding sources are not available as and when needed by the Company, it could have a severe adverse impact on the combined business and results of operations of the Company and could result in the Company being unable to continue as a going concern. Management is continually monitoring and evaluating the financing sources available to achieve the Company's goals.

Due to the losses sustained by the Company and its lack of working capital, the Company's ability to remain a going concern depends upon its ability to generate sufficient cash flow to meet its obligations and to obtain additional financing as may be required.

16

As of September 30, 2003, management estimated that the Company's cash resources were not enough to meet the Company's estimated funding requirements for the remainder of the year.
