ALLIED WORLD ASSURANCE COMPANY HOLDINGS, AG
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Expressed in thousands, except share, per share, percentage and ratio information)

1. GENERAL

Allied World Assurance Company Holdings, AG, a Swiss holding company (“Allied World Switzerland”), through its wholly-owned subsidiaries (collectively, the “Company”), provides property and casualty insurance and reinsurance on a worldwide basis. References to \$ are to the lawful currency of the United States and to CHF are to the lawful currency of Switzerland.

2. BASIS OF PREPARATION AND CONSOLIDATION

These unaudited condensed consolidated financial statements include the accounts of the Company and have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information and with Article 10 of Regulation S-X as promulgated by the U.S. Securities and Exchange Commission (“SEC”). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, these unaudited condensed consolidated financial statements reflect all adjustments that are normal and recurring in nature and necessary for a fair presentation of financial position and results of operations as of the end of and for the periods presented. The results of operations for any interim period are not necessarily indicative of the results for a full year.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The significant estimates reflected in the Company’s financial statements, including, but not limited to:

- The premium estimates for certain reinsurance agreements,
- Recoverability of deferred acquisition costs,
- The reserve for outstanding losses and loss expenses,
- Valuation of ceded reinsurance recoverables,
- Determination of impairment of goodwill and other intangible assets, and
- Valuation of financial instruments.

Intercompany accounts and transactions have been eliminated on consolidation and all entities meeting consolidation requirements have been included in the unaudited condensed consolidated financial statements.

On May 1, 2014, the shareholders approved a 3-for-1 stock split of the Company's common shares. All historical share and per share amounts reflect the effect of the stock split.

These unaudited condensed consolidated financial statements, including these notes, should be read in conjunction with the Company’s audited consolidated financial statements, and related notes thereto, included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2013.

3. NEW ACCOUNTING PRONOUNCEMENTS

In April 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2014-08, “Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity” (“ASU 2014-08”). ASU 2014-08 changes the requirements for reporting discontinued operations, such that a disposal of a component of the Company's operations is required to be reported as discontinued operations if the disposal represents a strategic shift that has, or will have, a major effect on the Company's operations and financial results. Examples of strategic

shifts that could have a major effect on the Company's operations could include a disposal of a major geographical area, a major line of business, a major equity method investment, or other major parts of the Company. ASU 2014-08 is effective for all disposals that occur after January 1, 2015. The Company is currently assessing the impact the adoption of ASU 2014-08 will have on future financial statements.

Table of Contents

ALLIED WORLD ASSURANCE COMPANY HOLDINGS, AG

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands, except share, per share, percentage and ratio information)

In May 2014, the FASB issued Accounting Standards Update 2014-09, "Revenue from Contracts with Customers" ("ASU 2014-09"). ASU 2014-09 provides a framework, through a five-step process, for recognizing revenue from customers, improves comparability and consistency of recognizing revenue across entities, industries, jurisdictions and capital markets, and requires enhanced disclosures. Certain contracts with customers are specifically excluded from the scope of ASU 2014-09, including amongst others, insurance contracts accounted for under Accounting Standard Codification 944, Financial Services - Insurance. ASU 2014-09 is effective on January 1, 2017 with retrospective adoption required for the comparative periods. The Company is currently assessing the impact the adoption of ASU 2014-09 will have on future financial statements.

4. INVESTMENTS

a) Trading Securities

Securities accounted for at fair value with changes in fair value recognized in the unaudited condensed consolidated statements of operations and comprehensive income ("consolidated income statements") by category are as follows:

	June 30, 2014		December 31, 2013	
	Fair Value	Amortized Cost	Fair Value	Amortized Cost
U.S. Government and Government agencies	\$1,274,331	\$1,273,469	\$1,676,788	\$1,684,832
Non-U.S. Government and Government agencies	185,071	186,142	191,776	197,082
States, municipalities and political subdivisions	261,267	256,698	231,555	234,406
Corporate debt:				
Financial institutions	1,168,937	1,149,005	958,794	943,518

-----------------------------	-----------	-----------	-----------	-----------

(1) The redemption frequency and notice periods only apply to the investments without redemption restrictions. Some or all of these investments may be subject to a gate as described below.

In general, the Company has invested in hedge funds that require at least 30 days' notice of redemption and may be redeemed on a monthly, quarterly, semi-annual, annual or longer basis, depending on the fund. Certain hedge funds have lock-

7

Table of Contents

ALLIED WORLD ASSURANCE COMPANY HOLDINGS, AG

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands, except share, per share, percentage and ratio information)

up periods ranging from one to three years from initial investment. A lock-up period refers to the initial amount of time an investor is contractually required to invest before having the ability to redeem. Funds that provide for periodic redemptions may, depending on the funds' governing documents, have the ability to deny or delay a redemption request, called a "gate." The fund may implement this restriction because the aggregate amount of redemption requests as of a particular date exceeds a specified level, generally ranging from 15% to 25% of the fund's net assets. The gate is a method for executing an orderly redemption process to reduce the possibility of adversely affecting investors in the fund. Typically, the imposition of a gate delays a portion of the requested redemption, with the remaining portion settled in cash sometime after the redemption date. Certain funds may impose a redemption fee on early redemptions. Interests in private equity funds cannot be redeemed because the investments include restrictions that do not allow for redemption until termination of the fund.

The following describes each investment type:

Private equity funds: Primary funds may invest in companies and general partnership interests. Secondary funds buy limited partnership interests from existing limited partners of primary private equity funds. As owners of private equity funds seek liquidity, they can sell their existing investments, plus any remaining commitment, to secondary market participants. These funds cannot be redeemed because the investments include restrictions that do not allow for redemption until termination of the fund.

Mezzanine debt funds: Mezzanine debt funds primarily focus on providing capital to upper middle market and middle market companies and private equity sponsors, in connection with leveraged buyouts, mergers and acquisitions, recapitalizations, growth financings and other corporate transactions. The most common position in the capital structure will be between the senior secured debt holder and the equity; however, the funds will utilize a flexible approach when structuring investments, which may include secured debt, subordinated debt, preferred stock and/or private equity. These funds cannot be redeemed because the investments include restrictions that do not allow for redemption until termination of the fund.

Distressed funds: In distressed debt investing, managers take positions in the debt of companies experiencing significant financial difficulties, including bankruptcy, or in certain positions of the capital structure of structured securities. The manager relies on the fundamental analysis of these securities, including the claims on the assets and the likely return to bondholders. Certain funds cannot be redeemed because the investments include restrictions that do not allow for redemption until termination of the fund.

Equity long/short funds: In equity long/short funds, managers take long positions in companies they deem to be undervalued and short positions in companies they deem to be overvalued. Long/short managers may invest in countries, regions or sectors and vary by their use of leverage and by their targeted net long position.

Multi-strategy funds: These funds may utilize many strategies employed by specialized funds including distressed investing, equity long/short, merger arbitrage, convertible arbitrage, fixed income arbitrage and macro trading.

Event driven funds: Event driven strategies seek to deploy capital into specific securities whose returns are affected by a specific event that affects the value of one or more securities of a company. Returns for such securities are linked primarily to the specific outcome of the events and not by the overall direction of the bond or stock markets.

Examples could include mergers and acquisitions (arbitrage), corporate restructurings and spin-offs, and capital structure arbitrage.

Relative value credit funds: These funds seek to take exposure to credit-sensitive securities, long and/or short, based upon credit analysis of issuers and securities and credit market views.

High yield loan fund: A long-only private mutual fund that invests in high yield fixed income securities.

Other private securities: These securities include strategic non-controlling minority investments in private asset management companies and other insurance related investments that are accounted for using the equity method of

accounting.

Other invested assets, trading	(10,494)	2,561	5,736	29,393
Net realized investment gains (losses)	\$85,217	\$(115,198)	\$139,422	\$(35,561)

e) Pledged Assets

As of June 30, 2014 and December 31, 2013, \$2,745,352 and \$2,894,401, respectively, of cash and cash equivalents and investments were deposited, pledged or held in trust accounts in favor of ceding companies and other counterparties or government authorities to comply with reinsurance contract provisions, insurance laws and other contract provisions.

In addition, as of June 30, 2014 and December 31, 2013, a further \$886,220 and \$1,053,632, respectively, of cash and cash equivalents and investments were pledged as collateral for the Company's letter of credit facilities. See Note 10(d) to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for details on the Company's credit facilities.

5. DERIVATIVE INSTRUMENTS

As of June 30, 2014 and December 31, 2013, none of the Company's derivatives were designated as hedges for accounting purposes. The following table summarizes information on the location and amounts of derivative fair values on the unaudited condensed consolidated balance sheets ("consolidated balance sheets"):

	June 30, 2014				December 31, 2013			
	Asset Derivative Notional Amount	Asset Derivative Fair Value	Liability Derivative Notional Amount	Liability Derivative Fair Value	Asset Derivative Notional Amount	Asset Derivative Fair Value	Liability Derivative Notional Amount	Liability Derivative Fair Value
Foreign exchange contracts	\$57,761	\$430	\$158,762	\$1,996	\$294,788	\$6,254	\$122,439	\$1,176
Interest rate swaps	105,000	87	664,500	1,126	491,400	6,829	40,000	4,214
Total derivatives	\$162,761	\$517	\$823,262	\$3,122	\$786,188	\$13,083	\$162,439	\$5,390

Derivative assets and derivative liabilities are classified within "other assets" or "accounts payable and accrued liabilities" on the consolidated balance sheets.

The following table provides the net realized and unrealized gains (losses) on derivatives not designated as hedges recorded on the consolidated income statements:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Foreign exchange contracts	\$(1,598)	\$1,989	\$(2,466)	\$1,245
Total included in foreign exchange loss	(1,598)	1,989	(2,466)	1,245
Put options	—	(90)	—	(3,822)
Foreign exchange contracts	(286)	4,274	(844)	6,089
Interest rate futures and swaps	(13,434)	4,354	(25,796)	5,294
Total included in net realized investment gains (losses)	(13,720)	8,538	(26,640)	7,561
Total realized and unrealized (losses) gains on derivatives	\$(15,318)	\$10,527	\$(29,106)	\$8,806

The losses related to interest rate future and swap contracts for the three and six months ended June 30, 2014 were the result of selling interest rate future and swap contracts to reduce the duration of the investment portfolio. Given the decrease in interest rates during the year, the Company recorded a loss related to these interest rate future and swap contracts.

Derivative Instruments Not Designated as Hedging Instruments

The Company is exposed to foreign currency risk in its investment portfolio. Accordingly, the fair values of the Company's investment portfolio are partially influenced by the change in foreign exchange rates. These foreign currency hedging activities have not been designated as specific hedges for financial reporting purposes.

The Company's insurance and reinsurance subsidiaries and branches operate in various foreign countries and consequently the Company's underwriting portfolio is exposed to foreign currency risk. The Company manages

foreign currency risk by seeking to match liabilities under the insurance policies and reinsurance contracts that it writes and that are payable in foreign currencies with cash and investments that are denominated in such currencies. When necessary, the Company may also use derivatives to economically hedge un-matched foreign currency exposures, specifically forward contracts and currency options.

The Company also purchases and sells interest rate future and interest rate swap contracts to actively manage the duration and yield curve positioning of its fixed income portfolio. Interest rate futures and interest rate swaps can efficiently increase or decrease the overall duration of the portfolio. Additionally, interest rate future and interest rate swap contracts can be utilized to obtain the desired position along the yield curve in order to protect against certain future yield curve shapes.

The Company also purchases options to actively manage its equity portfolio.

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. There is a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon whether the inputs to the valuation of an asset or liability are observable or unobservable in the market at the measurement date, with quoted market prices being the highest level (Level 1) and unobservable inputs being the lowest level (Level 3). A fair value measurement will fall within the level of the hierarchy based on the input that is significant to determining such measurement. The three levels are defined as follows:

Level 1: Observable inputs to the valuation methodology that are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: Observable inputs to the valuation methodology other than quoted market prices (unadjusted) for identical assets or liabilities in active markets. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets in markets that are not active and inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology that are unobservable for the asset or liability.

The following table shows the fair value of the Company's financial instruments and where in the fair value hierarchy the fair value measurements are included as of the dates indicated below:

June 30, 2014	Carrying Amount	Total Fair Value	Level 1	Level 2	Level 3

“Other invested assets” excluded other private securities that the Company did not measure at fair value, but are accounted for using the equity method of accounting. Derivative assets and derivative liabilities relating to foreign exchange contracts and interest rate swaps are classified within “other assets” or “accounts payable and accrued liabilities” on the consolidated balance sheets.

The following describes the valuation techniques used by the Company to determine the fair value of financial instruments held as of the balance sheet date.

Recurring Fair Value of Financial Instruments

U.S. Government and Government agencies: Comprised primarily of bonds issued by the U.S. Treasury, the Federal Home Loan Bank, the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association. The fair values of the Company’s U.S. government securities are based on quoted market prices in active markets and are included in the Level 1 fair value hierarchy. The Company believes the market for U.S. Treasury securities is an actively traded market given the high level of daily trading volume. The fair values of U.S. government agency securities are priced using the spread above the risk-free yield curve. As the yields for the risk-free yield curve and the spreads for these securities are observable market inputs, the fair values of U.S. government agency securities are included in the Level 2 fair value hierarchy.

Non-U.S. Government and Government agencies: Comprised of fixed income obligations of non-U.S. governmental entities. The fair values of these securities are based on prices obtained from international indices and are included in the Level 2 fair value hierarchy.

States, municipalities and political subdivisions: Comprised of fixed income obligations of U.S.-domiciled state and municipality entities. The fair values of these securities are based on prices obtained from the new issue market, and are included in the Level 2 fair value hierarchy.

Corporate debt: Comprised of bonds issued by or loan obligations of corporations that are diversified across a wide range of issuers and industries. The fair values of corporate debt that are short-term are priced using spread above the LIBOR yield curve, and the fair values of corporate debt that are long-term are priced using the spread above the risk-free yield curve. The

Table of Contents

ALLIED WORLD ASSURANCE COMPANY HOLDINGS, AG

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands, except share, per share, percentage and ratio information)

spreads are sourced from broker-dealers, trade prices and the new issue market. As the significant inputs used to price corporate bonds are observable market inputs, the fair values of corporate debt are included in the Level 2 fair value hierarchy.

Mortgage-backed: Primarily comprised of residential and commercial mortgages originated by both U.S. government agencies (such as the Federal National Mortgage Association) and non-U.S. government agencies. The fair values of mortgage-backed securities originated by U.S. government agencies and non-U.S. government agencies are based on a pricing model that incorporates prepayment speeds and spreads to determine the appropriate average life of mortgage-backed securities. The spreads are sourced from broker-dealers, trade prices and the new issue market. As the significant inputs used to price the mortgage-backed securities are observable market inputs, the fair values of these securities are included in the Level 2 fair value hierarchy, unless the significant inputs used to price the mortgage-backed securities are broker-dealer quotes and the Company is not able to determine if those quotes are based on observable market inputs, in which case the fair value is included in the Level 3 hierarchy.

Asset-backed: Principally comprised of bonds backed by pools of automobile loan receivables, home equity loans, credit card receivables and collateralized loan obligations originated by a variety of financial institutions. The fair values of asset-backed securities are priced using prepayment speed and spread inputs that are sourced from the new issue market or broker-dealer quotes. As the significant inputs used to price the asset-backed securities are observable market inputs, the fair values of these securities are included in the Level 2 fair value hierarchy, unless the significant inputs used to price the asset-backed securities are broker-dealer quotes and the Company is not able to determine if those quotes are based on observable market inputs, in which case the fair value is included in the Level 3 hierarchy.

Equity securities: Comprised of common and preferred stocks and mutual funds. Equities are generally included in the Level 1 fair value hierarchy as prices are obtained from market exchanges in active markets. Non-U.S. mutual funds where the net asset value is not provided on a daily basis are included in the Level 3 fair value hierarchy.

Other invested assets: Comprised of funds invested in a range of diversified strategies. In accordance with U.S. GAAP, the fair values of the funds are based on the net asset value of the funds as reported by the fund manager that the Company believes is an unobservable input, and as such, the fair values of those funds are included in the Level 3 fair value hierarchy.

Derivative instruments: The fair value of foreign exchange contracts, interest rate futures and interest rate swaps are priced from quoted market prices for similar exchange-traded derivatives and pricing valuation models that utilize independent market data inputs. The fair value of derivatives are included in the Level 2 fair value hierarchy.

Senior notes: The fair value of the senior notes is based on reported trades. The fair value of the senior notes is included in the Level 2 fair value hierarchy.

Non-recurring Fair Value of Financial Instruments

The Company measures the fair value of certain assets on a non-recurring basis, generally quarterly, annually or when events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable. These assets include investments accounted for using the equity method, goodwill and intangible assets. The Company uses a variety of techniques to measure the fair value of these assets when appropriate, as described below:

Investments accounted for using the equity method: When the Company determines that the carrying value of these assets may not be recoverable, the Company records the assets at fair value with the loss recognized in income. In such cases, the Company measures the fair value of these assets using discounted cash flow models.

Goodwill and intangible assets: The Company tests goodwill and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable, but at least annually for goodwill and indefinite-lived intangibles. If the Company determines that goodwill and intangible assets may be impaired, the Company uses techniques, including discounted expected future cash flows and market multiple models, to measure fair value.

Six Months Ended June 30, 2013				
Opening balance	\$ 655,888	\$ 167,825	\$ 62,246	\$ 54,680
Realized and unrealized gains (losses) included in net income	43,962	(7,613)	(382)	(1,181)
Purchases	169,952	71,752	24,782	—
Sales	(155,411)	(29,864)	(18,478)	—
Transfers into Level 3 from Level 2	—	7,109	—	—
Transfers out of Level 3 into Level 2 (1)	—	(11,206)	(6,883)	—
Ending balance	\$ 714,391	\$ 198,003	\$ 61,285	\$ 53,499

(1) Transfers out of Level 3 are primarily attributable to the availability of market observable information.

The Company attempts to verify the significant inputs used by broker-dealers in determining the fair value of the securities priced by them. If the Company could not obtain sufficient information to determine if the broker-dealers were using significant observable inputs, then such securities have been transferred to the Level 3 fair value hierarchy. The Company believes the prices obtained from the broker-dealers are the best estimate of fair value of the securities being priced as the broker-dealers are typically involved in the initial pricing of the security, and the Company has compared the price per the broker-dealer to other pricing sources and noted no material differences. The Company recognizes transfers between levels at the end of the reporting period. There were no transfers between Level 1 and Level 2 during the period.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands, except share, per share, percentage and ratio information)

The Company's external investment accounting service provider receives prices from internationally recognized independent pricing services to measure the fair values of its fixed maturity investments. Pricing sources are evaluated and selected in a manner to ensure that the most reliable sources are used. The Company uses a pricing service ranking to consistently select the most appropriate pricing service in instances where it receives multiple quotes on the same security. The Company obtains multiple quotes for the majority of its securities. The independent pricing sources obtain market quotations and actual transaction prices for securities that have quoted prices in active markets. Each pricing service has its own proprietary method for determining the fair value of securities that are not actively traded. In general, these methods involve the use of "matrix pricing" in which the independent pricing service uses observable market inputs, including, but not limited to, reported trades, benchmark yields, broker-dealer quotes, interest rates, prepayment speeds, default rates and such other inputs as are available from market sources to determine a reasonable fair value.

All of the Company's securities classified as Level 3, other than investments in other invested assets, are valued based on unadjusted broker-dealer quotes. This includes less liquid securities such as lower quality asset-backed securities, commercial mortgage-backed securities and residential mortgage-backed securities. The primary valuation inputs include monthly payment information, the probability of default, loss severity rates and estimated prepayment rates. Significant changes in these inputs in isolation would result in a significantly lower or higher fair value measurement. In general, a change in the assumption of the probability of default is accompanied by a directionally similar change in the assumption used for the loss severity in an event of default and prepayment rates.

The Company records the unadjusted price provided and validates this price through a process that includes, but is not limited to, monthly and/or quarterly: (i) comparison of prices between two independent sources, with significant differences requiring additional price sources; (ii) quantitative analysis (e.g., comparing the quarterly return for each managed portfolio to their target benchmark, with significant differences identified and investigated); (iii) evaluation of methodologies used by external parties to calculate fair value, including a review of the inputs used for pricing; (iv) comparing the price to the Company's knowledge of the current investment market; and (v) back-testing, which includes randomly selecting purchased or sold securities and comparing the executed prices to the fair value estimates from the pricing service. In addition to internal controls, management relies on the effectiveness of the valuation controls in place at the Company's external investment accounting service provider (supported by a Statement on Standards for Attestation Engagements No. 16 report) in conjunction with regular discussion and analysis of the investment portfolio's structure and performance.

7. RESERVE FOR LOSSES AND LOSS EXPENSES

The reserve for losses and loss expenses consists of the following:

	June 30, 2014	December 31, 2013
Outstanding loss reserves	\$1,543,506	\$1,520,867
Reserves for losses incurred but not reported	4,392,172	4,245,662
Reserve for losses and loss expenses	\$5,935,678	\$5,766,529

Net losses incurred related to:				
Current year	359,994	323,556	684,141	622,804
Prior years	(45,139)	(48,428)	(94,000)	(92,498)
Total incurred	314,855	275,128	590,141	530,306
Net paid losses related to:				
Current year	23,065	21,003	26,808	24,584
Prior years	235,335	241,764	463,929	482,885
Total paid	258,400	262,767	490,737	507,469
Foreign exchange revaluation	1,208	(4,738)	2,507	(9,936)
Net liability at end of period	4,633,936	4,517,340	4,633,936	4,517,340
Reinsurance recoverable at end of period	1,301,742	1,179,525	1,301,742	1,179,525
Gross liability at end of period	\$5,935,678	\$5,696,865	\$5,935,678	\$5,696,865

For the three months ended June 30, 2014, the Company had net unfavorable prior year reserve development in the U.S. insurance segment and recorded net favorable prior year reserve development in the international insurance and reinsurance segments. The net unfavorable prior year reserve development in the U.S. insurance segment related primarily to the healthcare line of business, as well as adverse development on reported claims in the lawyers errors and omissions ("E&O") and primary casualty classes of business. The net favorable prior year reserve development in the international insurance and reinsurance segments was due to actual loss emergence being lower than initially expected.

For the six months ended June 30, 2014, the Company had net unfavorable prior year reserve development in the U.S. insurance segment and recorded net favorable prior year reserve development in the international insurance and reinsurance segments. The net unfavorable prior year reserve development in the U.S. insurance segment related to the healthcare line of business due to higher than expected loss frequency and severity in the medical malpractice class of business. The U.S. insurance segment also experienced adverse development on reported claims in the lawyers E&O class of business and the primary casualty class of business in the 2013 loss year. The net favorable prior year reserve development in the international insurance and reinsurance segments was due to actual loss emergence being lower than initially expected.

For the three months ended June 30, 2013, the Company had net favorable reserve development in each of its segments due to actual loss emergence being lower than initially expected. The majority of the net favorable reserve development was recognized in the 2007 through 2010 loss years across most lines of business. In addition, the reinsurance segment recognized net favorable reserve development for the 2012 loss year due to the low level of reported property losses. This was partially offset by adverse development in the U.S. insurance segment in the 2011 and 2012 loss years.

For the six months ended June 30, 2013, the Company had net favorable reserve development in its international and reinsurance segments due to actual loss emergence being lower than initially expected, primarily for loss years 2004 to 2008. The reinsurance segment recognized net favorable reserve development for the 2012 loss year due to the low level of reported property losses. This was partially offset by adverse development in the U.S. insurance segment in the 2011 and 2012 loss years for certain E&O and director's and officers' classes of business.

While the Company at times has experienced favorable reserve development in its insurance and reinsurance lines, there is no assurance that conditions and trends that have affected the development of liabilities in the past will continue. It is not

appropriate to extrapolate future redundancies based on prior years' development. The methodology of estimating loss reserves is periodically reviewed to ensure that the key assumptions used in the actuarial models continue to be appropriate.

8. INCOME TAXES

Under Swiss law, a resident company is subject to income tax at the federal, cantonal and communal levels that is levied on net income. Income attributable to permanent establishments or real estate located abroad is excluded from the Swiss tax base. Allied World Switzerland is a holding company and, therefore, is exempt from cantonal and communal income tax. As a result, Allied World Switzerland is subject to Swiss income tax only at the federal level. Allied World Switzerland is a resident of the Canton of Zug and, as such, is subject to an annual cantonal and communal capital tax on the taxable equity of Allied World Switzerland. Allied World Switzerland has a Swiss operating company resident in the Canton of Zug. The operating company is subject to federal, cantonal and communal income tax and to annual cantonal and communal capital tax.

Under current Bermuda law, Allied World Assurance Company Holdings, Ltd ("Allied World Bermuda") and its Bermuda subsidiaries are not required to pay taxes in Bermuda on either income or capital gains. Allied World Bermuda and Allied World Assurance Company, Ltd have received an assurance from the Bermuda Minister of Finance under the Exempted Undertakings Tax Protection Act 1966 of Bermuda, that in the event of any such taxes being imposed, Allied World Bermuda and Allied World Assurance Company, Ltd will be exempted until March 2035.

Certain subsidiaries of Allied World Switzerland file U.S. federal income tax returns and various U.S. state income tax returns, as well as income tax returns in Canada, Hong Kong, Ireland, Labuan, the United Kingdom, Singapore and Switzerland. To the best of the Company's knowledge, there are no income tax examinations pending by any tax authority.

Management has deemed all material tax positions to have a greater than 50% likelihood of being sustained based on technical merits if challenged. The Company does not expect any material unrecognized tax benefits within 12 months of June 30, 2014.

9. SHAREHOLDERS' EQUITY

a) Authorized shares

The issued share capital consists of the following:

	June 30, 2014	December 31, 2013
Common shares issued and fully paid, 2014: CHF 4.10 per share; 2013: CHF 4.10 per share	99,515,760	103,477,452
Share capital at end of period	\$402,907	\$418,988
		Six Months Ended June 30, 2014
Shares issued at beginning of period		103,477,452
Shares cancelled		(3,961,692)

Edgar Filing: Allied World Assurance Co Holdings, AG - Form 10-Q

Total shares issued at end of period	99,515,760
Treasury shares issued at beginning of period	3,223,806
Shares repurchased	3,961,692
Shares issued out of treasury	(637,137)
Shares cancelled	(3,961,692)
Total treasury shares at end of period	2,586,669
Total shares outstanding at end of period	96,929,091

During the six months ended June 30, 2014, 3,961,692 shares repurchased and designated for cancellation were constructively retired and cancelled.

(Expressed in thousands, except share, per share, percentage and ratio information)

b) Dividends

The Company paid the following dividends during the six months ended June 30, 2014:

Dividend Paid	Dividend Per Share	Total Amount Paid
January 2, 2014	\$0.167	\$16,732
April 3, 2014	\$0.167	\$16,495

On May 2, 2013, the shareholders approved the Company's proposal to pay cash dividends in the form of a distribution out of general legal reserve from capital contributions. The distribution amounts were paid to shareholders in quarterly dividends of \$0.167 per share in July 2013, October 2013, January 2014 and April 2014.

On May 1, 2014, the shareholders approved the Company's proposal to pay cash dividends in the form of a distribution out of general legal reserve from capital contributions. The distribution amount will be paid to shareholders in quarterly installments of \$0.225 per share. The first installment of the dividend was on July 2, 2014. The Company expects to distribute the remaining installments of the dividend in October 2014, January 2015 and April 2015.

c) Share Repurchases

On May 1, 2014, the shareholders approved a new share repurchase program in order for the Company to repurchase up to \$500,000 of its common shares. This new share repurchase program supersedes the 2012 share repurchase program and no further repurchases will be made under the 2012 share repurchase program. Repurchases may be effected from time to time through open market purchases, privately negotiated transactions, tender offers or otherwise. The timing, form and amount of the share repurchases under the program will depend on a variety of factors, including market conditions, the Company's capital position, legal requirements and other factors. Under the terms of this share repurchase program, the first three million of common shares repurchased will remain in treasury and will be used by the Company to satisfy share delivery obligations under its equity-based compensation plans. Any additional common shares repurchased will be designated for cancellation at acquisition and will be canceled upon shareholder approval. Shares repurchased and designated for cancellation are constructively retired and recorded as a share cancellation.

The Company's share repurchases were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2014	2013	2014	2013
Common shares repurchased	1,949,496	1,524,984	3,961,692	2,821,335
Total cost of shares repurchased	\$70,874	\$46,326	\$139,532	\$82,571
Average price per share	\$36.36	\$30.38	\$35.22	\$29.27

10. EMPLOYEE BENEFIT PLANS

a) Restricted stock units and performance-based equity awards

Restricted stock units ("RSUs") vest pro-rata over four years from the date of grant. The compensation expense for the RSUs is based on the fair market value of Allied World Switzerland's common shares at the date of grant. The Company estimates the expected forfeitures of RSUs at the date of grant and recognizes compensation expense only for those awards that the Company expects to vest. The forfeiture assumption is ultimately adjusted to the actual forfeiture rate.

Performance-based equity awards represent the right to receive a number of common shares in the future, based upon the achievement of established performance criteria during an applicable performance period. For the performance-based equity awards granted in 2014, 2013 and 2012, the Company anticipates that the performance goals are likely to be achieved. Based on the performance goals, the performance-based equity awards granted in 2014, 2013 and 2012 are expensed at 100%, 100%

Table of Contents

ALLIED WORLD ASSURANCE COMPANY HOLDINGS, AG

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Expressed in thousands, except share, per share, percentage and ratio information)

and 135%, respectively, of the fair value of Allied World Switzerland's common shares on the date of grant. The expense is recognized over the performance period.

The activity related to the Company's RSUs awards is as follows:

	Six Months Ended June 30, 2014	
	Number of Awards	Weighted Average Grant Date Fair Value
Outstanding at beginning of period	143,697	\$21.69
RSUs granted	454,176	33.56
RSUs forfeited	(5,097)	(30.64)
RSUs fully vested	(76,230)	(21.75)
Outstanding at end of period	516,546	\$32.03

The activity related to the Company's performance-based equity awards is as follows:

	Six Months Ended June 30, 2014	
	Number of Awards	Weighted Average Grant Date Fair Value
Outstanding at beginning of period	804,519	\$23.21
Performance-based equity awards granted	166,302	33.56
Additional awards granted due to achievement of performance criteria	104,895	(20.50)
Performance-based equity awards forfeited	(1,848)	(25.28)
Performance-based equity awards fully vested	(454,440)	(20.50)
Outstanding at end of period	619,428	\$27.51

b) Cash-equivalent stock awards

As part of the Company's annual year-end compensation awards, the Company granted both awards classified as equity and cash-equivalent stock awards. The cash-equivalent awards were granted to employees who received RSUs and performance-based equity awards in tandem with stock-based awards. The cash-equivalent RSU awards vest pro-rata over four years from the date of grant. The cash-equivalent performance-based equity awards vest after a three-year performance period. The amount payable per unit awarded will be equal to the price per share of Allied World Switzerland's common shares, and as such the Company measures the value of the award each reporting period based on the period-ending share price. The effects of changes in the share price at each period-end during the service period are recognized as changes in compensation expense ratably over the service period. The liability is included in "accounts payable and accrued liabilities" in the consolidated balance sheets and changes in the liability are recorded in "general and administrative expenses" in the consolidated income statements.

(Expressed in thousands, except share, per share, percentage and ratio information)

For the three months ended June 30, 2014, there were no common shares considered anti-dilutive and therefore excluded from the calculation of the diluted earnings per share. For the three months ended June 30, 2013, there were no common share equivalents included in calculating diluted earnings per share as there was a net loss and any additional shares would be anti-dilutive.

For the six months ended June 30, 2014 and 2013, there were no common shares considered anti-dilutive and therefore excluded from the calculation of the diluted earnings per share.

12. SEGMENT INFORMATION

The determination of reportable segments is based on how senior management monitors the Company's underwriting operations. Management monitors the performance of its direct underwriting operations based on the geographic location of the Company's offices, the markets and customers served and the type of accounts written. The Company is currently organized into three operating segments: U.S. insurance, international insurance and reinsurance. All lines of business fall within these classifications.

The U.S. insurance segment includes the Company's direct specialty insurance operations in the United States and Canada, as well as the Company's claim administration services operations. The Company acquired the remaining interest in a claims administration services company it did not own in May 2014 and recorded goodwill of \$9,385 related to the transaction. The U.S. insurance segment provides both direct property and specialty casualty insurance primarily to non-Fortune 1000 North American domiciled accounts, as well as third-party claims administration services. The international insurance segment includes the Company's direct insurance operations in Bermuda, Europe, and Asia Pacific, which includes offices in Australia, Hong Kong and Singapore. This segment provides both direct property and casualty insurance primarily to Fortune 1000 North American domiciled accounts from the Bermuda office and direct property and specialty casualty insurance to non-North American domiciled accounts from the European and Asia Pacific offices. The reinsurance segment includes the Company's reinsurance operations in the United States, Bermuda, Europe and Singapore. This segment provides reinsurance of property, general casualty, professional liability, specialty lines and property catastrophe coverages written by insurance companies. The Company presently writes reinsurance on both a treaty and a facultative basis, targeting several niche reinsurance markets.

Responsibility and accountability for the results of underwriting operations are assigned by major line of business within each segment. Because the Company does not manage its assets by segment, investment income, interest expense and total assets are not allocated to individual reportable segments. General and administrative expenses are allocated to segments based on various factors, including staff count and each segment's proportional share of gross premiums written.

Management measures results for each segment on the basis of the "loss and loss expense ratio," "acquisition cost ratio," "general and administrative expense ratio", "expense ratio" and the "combined ratio." The "loss and loss expense ratio" is derived by dividing net losses and loss expenses by net premiums earned. The "acquisition cost ratio" is derived by dividing acquisition costs by net premiums earned. The "general and administrative expense ratio" is derived by dividing general and administrative expenses by net premiums earned. The expense ratio is the sum of the acquisition cost ratio and the general and administrative expense ratio. The "combined ratio" is the sum of the "loss and loss expense ratio," the "acquisition cost ratio" and the "general and administrative expense ratio."

Europe includes gross premiums written attributable to Switzerland of \$10,261 and \$5,868 for the three months ended June 30, 2014 and 2013, respectively and \$54,554 and \$46,674 for the six months ended June 30, 2014 and 2013.

13. COMMITMENTS AND CONTINGENCIES

The Company, in common with the insurance industry in general, is subject to litigation and arbitration in the normal course of its business. These legal proceedings generally relate to claims asserted by or against the Company in the ordinary course of insurance or reinsurance operations. Estimated amounts payable under these proceedings are included in the reserve for losses and loss expenses in the Company's consolidated balance sheets. As of June 30, 2014, the Company was not a party to any material legal proceedings arising outside the ordinary course of business that management believes will have a material adverse effect on the Company's results of operations, financial position or cash flow.

The Company entered into a 20-year mortgage commitment with a Swiss bank for a company-used office building in Zug, Switzerland. The total proceeds to be received under the mortgage are CHF 18,000 with a fixed annual interest rate of 3.2% payable quarterly. The mortgage payments will be CHF 300 per year, plus accrued interest, for the first 19 years with the remaining balance payable at the end of the mortgage. The Company will receive the proceeds from the bank during the fourth quarter of 2014 at which time the Company will recognize the mortgage loan liability in its consolidated balance sheets.

In conjunction with the above mortgage commitment, the Company entered into a three-year credit facility with a Swiss bank that provides up to CHF 5,000 for general corporate purposes; however, the Company will use the proceeds from the credit facility to fund the purchase of the office building in Zug, Switzerland. The interest rate for the credit facility is 2.5%.

14. CONDENSED CONSOLIDATED GUARANTOR FINANCIAL STATEMENTS

The following tables present unaudited condensed consolidating financial information as of June 30, 2014 and December 31, 2013 and for the three and six months ended June 30, 2014 and 2013 for Allied World Switzerland (the "Parent Guarantor") and Allied World Bermuda (the "Subsidiary Issuer"). The Subsidiary Issuer is a direct, 100%-owned

subsidiary of the Parent Guarantor. Investments in subsidiaries are accounted for by the Parent Guarantor under the equity method for purposes of the supplemental consolidating presentation. Earnings of subsidiaries are reflected in the Parent Guarantor's investment accounts and earnings. The Parent Guarantor fully and unconditionally guarantees the senior notes issued by the Subsidiary Issuer.

The investment in subsidiaries and total shareholders' equity balances reported above in the Unaudited Condensed Consolidating Balance Sheet for Allied World Bermuda (Subsidiary Issuer) as of December 31, 2013 were reduced by \$776,000 from the previously reported amounts to properly record intercompany dividends as a reduction in the investment in subsidiaries balance due to a miscalculation. Since the intercompany dividends were eliminated in consolidation there was no impact to consolidated total shareholders' equity.

Notes to Parent Company Condensed Financial Information

a) Dividends

Allied World Switzerland received cash dividends from its subsidiaries of \$205,000 and \$155,000 for the six months ended June 30, 2014 and 2013, respectively. Such dividends are included in “cash flows provided by (used in) operating activities” in the unaudited condensed consolidating cash flows.

15. SUBSEQUENT EVENTS

On July 2, 2014, the Company paid a quarterly dividend of \$0.225 per share to shareholders of record on June 24, 2014.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this Form 10-Q. References in this Form 10-Q to the terms "we," "us," "our," the "Company" or other similar terms mean the consolidated operations of Allied World Assurance Company Holdings, AG, a Swiss holding company, and our consolidated subsidiaries, unless the context requires otherwise. References in this Form 10-Q to the term "Allied World Switzerland" or "Holdings" means only Allied World Assurance Company Holdings, AG. References to "Allied World Bermuda" mean only Allied World Assurance Company Holdings, Ltd, a Bermuda holding company. References to "our insurance subsidiaries" may include our reinsurance subsidiaries. References in this Form 10-Q to \$ are to the lawful currency of the United States and to CHF are to the lawful currency of Switzerland. References in this Form 10-Q to Holdings' "common shares" mean its registered voting shares.

Note on Forward-Looking Statement

This Form 10-Q and other publicly available documents may include, and our officers and representatives may from time to time make, projections concerning financial information and statements concerning future economic performance and events, plans and objectives relating to management, operations, products and services, and assumptions underlying these projections and statements. These projections and statements are forward-looking statements within the meaning of The Private Securities Litigation Reform Act of 1995 and are not historical facts but instead represent only our belief regarding future events, many of which, by their nature, are inherently uncertain and outside our control. These projections and statements may address, among other things, our strategy for growth, product development, financial results and reserves. Actual results and financial condition may differ, possibly materially, from these projections and statements and therefore you should not place undue reliance on them. Factors that could cause our actual results to differ, possibly materially, from those in the specific projections and statements are discussed throughout this Management's Discussion and Analysis of Financial Condition and Results of Operations and in "Risk Factors" in Item 1A. of Part I of our 2013 Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission ("SEC") on February 18, 2014 (the "2013 Form 10-K"). We are under no obligation (and expressly disclaim any such obligation) to update or revise any forward-looking statement that may be made from time to time, whether as a result of new information, future developments or otherwise.

Overview

Our Business

We write a diversified portfolio of property and casualty insurance and reinsurance internationally through our subsidiaries and branches based in Australia, Bermuda, Canada, Europe, Hong Kong, Singapore, and the United States as well as our Lloyd's Syndicate 2232. We manage our business through three operating segments: U.S. insurance, international insurance and reinsurance. As of June 30, 2014, we had approximately \$12.7 billion of total assets, \$3.7 billion of total shareholders' equity and \$4.5 billion of total capital, which includes shareholders' equity and senior notes.

During the three months ended June 30, 2014, we continued to grow our direct insurance business, in particular in the United States and Europe, as we entered new lines of business and added scale to our existing lines of business while our reinsurance operations had lower premiums mainly due to the timing of certain treaties renewing. During the quarter, we experienced positive rate improvements in certain lines of business, such as general casualty, primary casualty, healthcare and professional liability in our U.S. insurance segment, as well as positive rate changes in our international insurance segment for certain parts of our general casualty and healthcare lines of business. However also during the quarter, we did experience negative rate changes in our general property line of business in both our

U.S. insurance and international insurance segments, as well as negative rate changes in our professional liability line of business in the international insurance segment. We believe going forward in the near-term, there will be pricing pressure across most lines of business, in particular in our international insurance segment.

Our consolidated gross premiums written decreased by \$4.8 million, or 0.6%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. Overall our combined ratio is higher by 7.5 percentage points, driven by increased property loss activity during the quarter and higher expenses primarily caused by increased headcount and employee stock-based compensation due primarily to an 11% increase in our stock price. As a result of the above factors, each of our operating segments reported lower underwriting income during the three months ended June 30, 2014 compared to the three months ended June 30, 2013. Also during the quarter, we opened a branch office of Allied World Assurance Company, Ltd in Sydney, Australia to further expand our distribution network in the Asia Pacific region. The branch will initially offer general

Table of Contents

casualty, healthcare, professional liability, mergers and acquisitions and trade credit insurance products. In May 2014, we acquired the remaining interest in a claims administration services company we did not own and recorded goodwill of \$9.4 million related to the transaction. The results of the claims administration services company are included in our U.S. insurance segment.

Our net income increased by \$153.8 million to \$151.9 million compared to the three months ended June 30, 2013. The increase was primarily due to recording net realized gains on our investments of \$85.2 million during the three months ended June 30, 2014 compared to recording net realized losses of \$115.2 million during the three months ended June 30, 2013 as a result of lower interest rates during the current quarter.

On May 1, 2014, the shareholders of the Company approved the following proposals:

- A cash dividend in the form of a distribution out of general legal reserve from capital contributions. The distribution amount will be paid to shareholders in quarterly installments of \$0.225 per share. The first installment of the dividend was paid on July 2, 2014. We expect to distribute the remaining installments of the dividend in October 2014, January 2015 and April 2015.
- A new share repurchase program in order to repurchase up to \$500.0 million of our common shares. This supersedes the 2012 share repurchase program and no further repurchases will be made under the 2012 share repurchase program.
- A three-for-one stock split for shareholders of record as of May 12, 2014. All historical share and per share amounts have been recast to reflect the stock split.

Non-GAAP Financial Measures

In presenting the company's results, management has included and discussed certain non-GAAP financial measures, as such term is defined in Item 10(e) of Regulation S-K promulgated by the SEC. Management believes that these

non-GAAP measures, which may be defined differently by other companies, better explain the company's results of operations in a manner that allows for a more complete understanding of the underlying trends in the company's business. However, these measures should not be viewed as a substitute for those determined in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Table of Contents

Operating income and operating income per share

Operating income is an internal performance measure used in the management of our operations and represents after-tax operational results excluding, as applicable, net realized investment gains or losses, net foreign exchange gain or loss, and other non-recurring items. We exclude net realized investment gains or losses, net foreign exchange gain or loss and any other non-recurring items from our calculation of operating income because these amounts are heavily influenced by and fluctuate in part according to the availability of market opportunities and other factors. In addition to presenting net income determined in accordance with U.S. GAAP, we believe that showing operating income enables investors, analysts, rating agencies and other users of our financial information to more easily analyze our results of operations and our underlying business performance. Operating income should not be viewed as a substitute for U.S. GAAP net income.

The following is a reconciliation of operating income to its most closely related U.S. GAAP measure, net income.

Diluted weighted average common shares outstanding was only used in the calculation of diluted operating income per share. There were no common share equivalents included in calculating diluted earnings per share as there was a net loss and any additional shares would be anti-dilutive.

Table of Contents

Diluted book value per share

We have included diluted book value per share because it takes into account the effect of dilutive securities; therefore, we believe it is an important measure of calculating shareholder returns.

	As of June 30,	
	2014	2013
	(\$ in millions, except share and per share data)

Annualized return on average equity

Annualized return on average shareholders' equity ("ROAE") is calculated using average shareholders' equity. We present ROAE as a measure that is commonly recognized as a standard of performance by investors, analysts, rating agencies and other users of our financial information.

Annualized operating return on average shareholders' equity is calculated using operating income and average shareholders' equity.

Table of Contents

Relevant Factors

Revenues

We derive our revenues primarily from premiums on our insurance policies and reinsurance contracts, net of any reinsurance or retrocessional coverage purchased. Insurance and reinsurance premiums are a function of the amounts and types of policies and contracts we write, as well as prevailing market prices. Our prices are determined before our ultimate costs, which may extend far into the future, are known. In addition, our revenues include income generated from our investment portfolio, consisting of net investment income and net realized investment gains or losses. Investment income is principally derived from interest and dividends earned on investments, as well as distributed and undistributed income from equity method investments, partially offset by investment management expenses and fees paid to our custodian bank. Net realized investment gains or losses include gains or losses from the sale of investments, as well as the change in the fair value of investments that we mark-to-market through net income.

Expenses

Our expenses consist largely of net losses and loss expenses, acquisition costs and general and administrative expenses. Net losses and loss expenses incurred are comprised of three main components:

Losses paid, which are actual cash payments to insureds and reinsureds, net of recoveries from reinsurers; outstanding loss or case reserves, which represent management's best estimate of the likely settlement amount for known claims, less the portion that can be recovered from reinsurers; and reserves for losses incurred but not reported, or "IBNR", which are reserves (in addition to case reserves) established by us that we believe are needed for the future settlement of claims. The portion recoverable from reinsurers is deducted from the gross estimated loss.

Acquisition costs are comprised of commissions, brokerage fees, insurance taxes and other acquisition related costs such as profit commissions. Commissions and brokerage fees are usually calculated as a percentage of premiums and depend on the market and line of business. Acquisition costs are reported after (1) deducting commissions received on ceded reinsurance, (2) deducting the part of deferred acquisition costs relating to the successful acquisition of new and renewal insurance and reinsurance contracts and (3) including the amortization of previously deferred acquisition costs.

General and administrative expenses include personnel expenses including stock-based compensation expense, rent expense, professional fees, information technology costs and other general operating expenses.

Ratios

Management measures results for each segment on the basis of the "loss and loss expense ratio," "acquisition cost ratio," "general and administrative expense ratio," "expense ratio" and the "combined ratio." Because we do not manage our assets by segment, investment income, interest expense and total assets are not allocated to individual reportable segments. General and administrative expenses are allocated to segments based on various factors, including staff count and each segment's proportional share of gross premiums written. The loss and loss expense ratio is derived by dividing net losses and loss expenses by net premiums earned. The acquisition cost ratio is derived by dividing acquisition costs by net premiums earned. The general and administrative expense ratio is derived by dividing general and administrative expenses by net premiums earned. The expense ratio is the sum of the acquisition cost ratio and the general and administrative expense ratio. The combined ratio is the sum of the loss and loss expense ratio, the acquisition cost ratio and the general and administrative expense ratio.

Critical Accounting Policies

It is important to understand our accounting policies in order to understand our financial position and results of operations. Our unaudited condensed consolidated financial statements reflect determinations that are inherently subjective in nature and require management to make assumptions and best estimates to determine the reported values. If events or other factors cause actual results to differ materially from management's underlying assumptions or estimates, there could be a material adverse effect on our financial condition or results of operations. We believe that some of the more critical judgments in the areas of accounting estimates and assumptions that affect our financial condition and results of operations are related to

Table of Contents

reserves for losses and loss expenses, reinsurance recoverables, premiums and acquisition costs, valuation of financial instruments and goodwill and other intangible asset impairment valuation. For a detailed discussion of our critical accounting policies, please refer to our 2013 Form 10-K. There were no material changes in the application of our critical accounting estimates subsequent to that report.

Comparison of Three Months Ended June 30, 2014 and 2013

Premiums

Gross premiums written decreased by \$4.8 million, or 0.6%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The overall decrease in gross premiums written was primarily the result of the following:

U.S. insurance: Gross premiums written increased by \$34.1 million, or 11.1%. The increase in gross premiums written was primarily due to \$11.4 million of new business growth from new lines of business and new insureds during the three months ended June 30, 2014 compared to the three months ended June 30, 2013, as well as premium rate

increases across most lines of business. This was particularly evident in our general casualty and inland marine lines of business that had an overall increase in gross premiums written of \$30.3 million. This growth was partially

Table of Contents

offset by the non-renewal of business, particularly in certain classes within our healthcare line of business, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions); International insurance: Gross premiums written increased by \$11.9 million, or 6.2%. The increase was primarily due to continued growth from new initiatives and new lines of business. Our new aviation and marine cargo business contributed a combined \$9.3 million of gross premiums written during the current quarter. Our professional liability line of business grew \$4.9 million primarily on new business writings in our mergers and acquisitions class of business. This growth was partially offset by our general casualty line of business, which decreased by \$3.7 million primarily due to the non-renewal of certain policies during the current quarter, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions). During the quarter, we opened a new branch office in Sydney, Australia to further expand our distribution network in the Asia Pacific region; and Reinsurance: Gross premiums written decreased by \$50.8 million, or 19.1%. The decrease was primarily due to the timing of renewals that were not renewed in the current quarter but were previously bound during the quarter ended June 30, 2013 and lower premiums written in our property reinsurance lines of business. In our property reinsurance lines of business, we had lower premiums written during the current quarter compared to the same quarter last year of \$12.4 million from our collateralized property catastrophe reinsurance program through Aeolus Re, Ltd. ("Aeolus Re").

The table below illustrates our consolidated gross premiums written by underwriter location for each of the periods indicated.

	Three Months Ended		Dollar	Percentage	
	June 30,				
	2014	2013	Change	Change	
	(\$ in millions)				
United States	\$442.5	\$440.2	\$2.3	0.5	%
Bermuda	185.9	211.0	(25.1)	(11.9))%
Europe	78.0	60.3	17.7	29.4	%
Asia Pacific	50.9	53.8	(2.9)	(5.4))%
Canada	3.1	—	3.1	n/a	
	\$760.4	\$765.2	\$(4.8)	(0.6))%

Net premiums written decreased by \$27.3 million, or 4.7%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The decrease in net premiums written was primarily due to higher ceded premiums written during the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase in ceded premiums written was due to reinsurance treaties in support of our less mature lines of business that we did not have in place during the three months ended June 30, 2013, and recognizing annual ceded premiums written at the inception of treaties that have contractual minimum premiums. Previously, we recognized ceded premiums written on these agreements based on the actual premiums ceded each quarter. This resulted in the acceleration of ceded premiums written of \$41.9 million in our U.S. insurance segment this quarter, but had no impact on net premiums earned. These increases in ceded premiums were partially offset by lower ceded premiums on our property catastrophe reinsurance protection for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The difference between gross and net premiums written is the cost to us of purchasing reinsurance coverage, including the cost of property catastrophe reinsurance coverage. We ceded 27.2% of gross premiums written for the three months ended June 30, 2014 compared to 24.0% for the same period in 2013. The increase was primarily due to the acceleration of ceded premiums in our U.S. insurance segment that increased the ratio by 5.5 percentage points.

Net premiums earned increased by \$30.0 million, or 5.9%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013 as a result of higher premiums earned in each of our operating segments.

We evaluate our business by segment, distinguishing between U.S. insurance, international insurance and reinsurance. The following table illustrates the mix of our business on both a gross premiums written and net premiums earned basis.

37

Table of Contents

	Gross Premiums Written		Net Premiums Earned		
	Three Months Ended		Three Months Ended		
	June 30,		June 30,		
	2014	2013	2014	2013	
U.S. insurance	44.9	% 40.1	% 39.9	% 39.0	%
International insurance	26.9	% 25.2	% 16.6	% 17.1	%
Reinsurance	28.2	% 34.7	% 43.5	% 43.9	%
Total	100.0	% 100.0	% 100.0	% 100.0	%

Net Investment Income

Net investment income decreased by \$0.8 million, or 2.1%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The decrease was primarily due to a net loss recorded for our equity method investments owned through Allied World Financial Services, Inc, partially offset by higher investment income from our fixed maturity investments. The annualized period book yield of the investment portfolio for the three months ended June 30, 2014 and 2013 was 1.7% and 1.8%, respectively.

We reported a net loss of \$0.9 million from our other invested assets during the three months ended June 30, 2014 compared to earnings of \$3.8 million during the three months ended June 30, 2013. The loss reported for the three months ended June 30, 2014 was due to a loss of \$9.3 million recorded for an equity method investment due to impairment charges that it recorded. The earnings from our equity method investments can fluctuate from period to period based on the performance of each equity method investment and the seasonality of their results, and as such the current period earnings may not be indicative of the performance in future periods.

As of June 30, 2014, we held 10.6% of our total investments and cash equivalents in other invested assets compared to 9.9% as of June 30, 2013.

Investment management expenses of \$4.7 million and \$3.8 million were incurred during the three months ended June 30, 2014 and 2013, respectively. The increase of \$0.9 million, or 23.7%, was primarily due to additional investment portfolio managers utilized in the current period as compared to prior period.

As of June 30, 2014, approximately 88.3% of our fixed income investments consisted of investment grade securities. As of June 30, 2014 and December 31, 2013, the average Standard & Poor's credit rating of our fixed income portfolio was A+ and AA-, respectively.

Realized Investment Gains (Losses)

Net realized investment gains (losses) were comprised of the following:

	Three Months Ended	
	June 30,	
	2014	2013
	(\$ in millions)	
Net realized gains on sale:		
Fixed maturity investments, trading	\$10.3	\$7.6
Equity securities, trading	8.2	6.4
Other invested assets: hedge funds and private equity, trading	33.2	9.1
Total net realized gains on sale	51.7	23.1
Net realized and unrealized (losses) gains on derivatives	(13.7) 8.5
Mark-to-market gains (losses):		

Edgar Filing: Allied World Assurance Co Holdings, AG - Form 10-Q

Fixed maturity investments, trading	36.4	(115.1)
Equity securities, trading	21.3	(34.3)
Other invested assets: hedge funds and private equity, trading	(10.5) 2.6)
Total mark-to-market gains (losses)	47.2	(146.8)
Net realized investment gains (losses)	\$85.2	\$(115.2)

38

Table of Contents

The total return of our investment portfolio was 1.4% and (0.9)% for the three months ended June 30, 2014 and 2013, respectively. The increase in total return was primarily due to lower interest rates that caused mark-to-market gains on our fixed maturity investments and higher stock price appreciation of our equity securities during the three months ended June 30, 2014 compared to three months ended June 30, 2013. The realized and unrealized losses on derivatives for the three months ended June 30, 2014 were the result of selling interest rate future and swap contracts to reduce the duration of the investment portfolio. Given the decrease in interest rates during the quarter, we recorded a loss related to these interest rate future and swap contracts.

Net Losses and Loss Expenses

Net losses and loss expenses increased by \$39.7 million, or 14.4%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the three months ended June 30, 2014 and 2013:

	Three Months Ended June 30, 2014		Three Months Ended June 30, 2013		Dollar Change	Loss Ratio Percentage Point Change
	Amount	% of NPE (1)	Amount (\$ in millions)	% of NPE (1)		
Non-catastrophe	\$360.0	67.0	% \$323.6	63.7	% \$36.4	3.3
Property catastrophe	—	—	—	—	—	—
Current period	360.0	67.0	323.6	63.7	36.4	3.3
Prior period	(45.1)	(8.4)	(48.4)	(9.5)	3.3	1.1
Net losses and loss expenses	\$314.9	58.6	% \$275.2	54.2	% \$39.7	4.4

(1) "NPE" means net premiums earned.

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses and related ratio was primarily due to the overall growth of our operations and higher reported property losses in our U.S. insurance and reinsurance segments, primarily due to several storm events in the United States, an earthquake in Chile, an oil spill in the Gulf of Mexico and a fire at a Russian oil refinery, partially offset by lower reported property losses in our international insurance segment. The net increase in reported property loss activity during the three months ended June 30, 2014 compared to the three months ended June 30, 2013 increased the current year non-catastrophe loss and loss adjustment expense ratio by 2.5 percentage points.

Current year property catastrophe losses and loss expenses

During the three months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

We recorded net favorable reserve development related to prior years of \$45.1 million during the three months ended June 30, 2014 compared to net favorable reserve development of \$48.4 million for the three months ended June 30, 2013, as shown in the tables below.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year

Table of Contents

For the three months ended June 30, 2014, the net unfavorable prior year reserve development in the U.S. insurance segment primarily related to the healthcare line of business due to adverse development on several claims above our previous expectations in the medical malpractice class of business. The U.S. insurance segment also had adverse development on reported claims in our lawyers errors and omissions ("E&O") and primary casualty classes of business. The unfavorable prior year reserve development in the international insurance segment related to a single claim from the 2008 loss year in our general casualty line of business that is estimated to reach our full limit. The net favorable prior year reserve development in our reinsurance segment for the 2013 loss year was primarily due to lower than expected property loss activity.

The following table shows the net favorable reserve development by loss year for each of our segments for the three months ended June 30, 2013.

	(Favorable) and Unfavorable Loss Reserve Development by Loss Year For the Three Months Ended June 30, 2013

Reinsurance	(0.3)	(1.3)	(1.0)	1.3	—	(3.9)	1.4	0.1	2.6	(18.7)	(19.8)
	\$6.1	\$(7.8)	\$0.5	\$(3.2)	\$(13.6)	\$(17.2)	\$(3.1)	\$(10.1)	\$13.7	\$(13.7)	\$(48.4)

For the three months ended June 30, 2013, the unfavorable reserve development for the 2011 and 2012 loss years for our U.S. insurance segment was due to higher than expected loss emergence, primarily in our private/not for profit directors' and officers' ("D&O") and healthcare lines of business. The healthcare emergence was largely driven by one large claim and loss emergence in our medical malpractice class of business due to higher than expected loss frequency. The emergence in our private/not for profit D&O class of business was due to higher than expected loss frequency.

The favorable reserve development for the 2012 loss year for our reinsurance segment was due to lower than expected reported losses in our property reinsurance line of business.

The following table shows the components of net losses and loss expenses for each of the periods indicated.

	Three Months Ended June 30,		Dollar
	2014	2013	Change
	(\$ in millions)		
Net losses paid	\$258.4	\$262.9	\$(4.5)
Net change in reported case reserves	48.3	(18.2)) 66.5
Net change in IBNR	8.2	30.5	(22.3)
Net losses and loss expenses	\$314.9	\$275.2	\$39.7

Table of Contents

The table below is a reconciliation of the beginning and ending reserves for losses and loss expenses. Losses incurred and paid are reflected net of reinsurance recoverables.

	Three Months Ended	
	June 30, 2014	2013
	(\$ in millions)	
Net reserves for losses and loss expenses, April 1	\$4,576.3	\$4,509.7
Incurred related to:		
Current period non-catastrophe	360.0	323.6
Prior period	(45.1) (48.4
Total incurred	314.9	275.2
Paid related to:		
Current period non-catastrophe	23.1	21.0
Prior period	235.3	241.9
Total paid	258.4	262.9
Foreign exchange revaluation	1.2	(4.7
Net reserve for losses and loss expenses, June 30	4,634.0	4,517.3
Losses and loss expenses recoverable	1,301.7	1,179.6
Reserve for losses and loss expenses, June 30	\$5,935.7	\$5,696.9

Acquisition Costs

Acquisition costs increased by \$9.7 million, or 15.0%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase in acquisition costs was primarily due to the growth in premiums earned and higher acquisition costs in our reinsurance segment. Acquisition costs as a percentage of net premiums earned were 13.8% for the three months ended June 30, 2014 compared to 12.7% for the same period in 2013. The higher acquisition cost ratio was primarily driven from our reinsurance segment.

General and Administrative Expenses

General and administrative expenses increased by \$15.6 million, or 19.4%, for the three months ended June 30, 2014 compared to the same period in 2013. Our general and administrative expense ratio was 17.9% and 15.9% for the three months ended June 30, 2014 and 2013, respectively. The increase in general and administrative expenses was primarily due to higher stock-based compensation and higher salary related costs due to higher headcount. We have granted cash equivalent restricted stock units and performance-based equity awards to certain key employees, and we measure the value of each of those awards at the period ending share price. Changes in our share price are recognized as increases or decreases in our compensation expense ratably over the service period. Our share price increased 11% for the three months ended June 30, 2014 compared to a 1% decrease for the same period in 2013.

Amortization of Intangible Assets

The amortization of intangible assets was unchanged for the three months ended June 30, 2014 compared to the three months ended June 30, 2013.

Interest Expense

Interest expense increased by \$0.4 million, or 2.8%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013.

Net Income

Net income for the three months ended June 30, 2014 was \$151.9 million compared to a net loss of \$1.9 million for the three months ended June 30, 2013. The \$153.8 million increase was primarily the result of recording net realized gains on our investments of \$85.2 million during the three months ended June 30, 2014 compared to net realized losses of \$115.2 million

41

Table of Contents

during the three months ended June 30, 2013. Income tax expense for the three months ended June 30, 2014 increased by \$10.2 million compared to the three months ended June 30, 2013. The increase in income tax expense was primarily due to higher taxable income in our U.S. operations.

Comparison of Six Months Ended June 30, 2014 and 2013

Premiums

Gross premiums written increased by \$59.5 million, or 3.7%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The overall increase in gross premiums written was primarily the result of the following:

U.S. insurance: Gross premiums written increased by \$48.1 million, or 8.5%. The increase in gross premiums written was primarily due to \$21.7 million of new business growth from new lines of business and new insureds during the six months ended June 30, 2014 compared to the six months ended June 30, 2013, as well as premium rate increases across most lines of business. This was particularly evident in our general casualty, programs, inland marine and environmental lines of business that had an overall increase in gross premiums written of \$58.8 million. This growth was partially offset by the non-renewal of business, particularly in certain classes within our healthcare line of business, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions);

International insurance: Gross premiums written increased by \$17.7 million, or 5.5%. The increase was primarily due to continued growth from new initiatives and new lines of business. Our new aviation and marine cargo business contributed \$13.6 million of gross premiums written during the current period. The professional liability line of business grew \$9.4 million on new business writings in European E&O and mergers and acquisitions classes of business. This growth was partially offset by the general casualty line of business, which decreased by \$7.6 million compared to the prior period, due to non-recurring business written in 2013 and the non-renewal of certain policies during the current period, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions); and

Reinsurance: Gross premiums written decreased by \$6.3 million, or 0.9%. The decrease was driven primarily by the timing of a renewal that was not renewed in the current period but was previously bound during the six months ended June 30, 2013 partially offset by new business and increased renewals across several major lines of business. In our property reinsurance lines of business, we had increased premiums of approximately \$3.6 million from our collateralized property catastrophe reinsurance program through Aeolus Re. In our specialty lines of business, our crop reinsurance line of business increased gross premiums written by \$8.5 million primarily due to increases on renewals and new business. We also experienced non-renewals of certain treaties, particularly in our casualty reinsurance line of business, either due to poor terms and conditions or the cedents not renewing their reinsurance or finding other reinsurance alternatives, and net downward premium adjustments on inforce treaties.

The table below illustrates our consolidated gross premiums written by underwriter location for each of the periods indicated.

	Six Months Ended		Dollar Change	Percentage	
	June 30, 2014	2013		Change	
	(\$ in millions)				
United States	\$963.3	\$918.6	\$44.7	4.9	%
Bermuda	415.5	439.7	(24.2)	(5.5))%
Europe	181.3	146.8	34.5	23.5	%
Asia Pacific	97.7	97.2	0.5	0.5	%

Edgar Filing: Allied World Assurance Co Holdings, AG - Form 10-Q

Canada	3.9	—	3.9	n/a	
	\$1,661.8	\$1,602.3	\$59.5	3.7	%

Net premiums written increased by \$49.2 million, or 3.9%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase in net premiums written was due to the increase in gross premiums written partially offset by an increase in ceded premiums written. The increase in ceded premiums written was due to new reinsurance treaties in support of our lines of business that we did not have in place during the six months ended June 30, 2013, recognizing annual ceded premiums written at the inception of treaties that have contractual minimum premiums partially offset by lower ceded premiums related to our property catastrophe reinsurance protection during the six months ended June 30, 2014 compared to

Table of Contents

the six months ended June 30, 2013. The difference between gross and net premiums written is the cost to us of purchasing reinsurance coverage, including the cost of property catastrophe reinsurance coverage. We ceded 20.2% of gross premiums written for the six months ended June 30, 2014 compared to 20.3% for the same period in 2013. The above factors contributed to the increase in ceded premiums written but overall did not materially impact the ceded premium percentage during the six months ended June 30, 2014 compared to the six months ended June 30, 2013.

Net premiums earned increased by \$97.0 million, or 10.0%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013 as a result of higher premiums earned in each of our operating segments.

The following table illustrates the mix of our business on both a gross premiums written and net premiums earned basis.

	Gross Premiums Written		Net Premiums Earned		
	Six Months Ended		Six Months Ended		
	June 30,		June 30,		
	2014	2013	2014	2013	
U.S. insurance	36.8	% 35.2	% 40.0	% 39.8	%
International insurance	20.4	% 20.0	% 16.6	% 17.6	%
Reinsurance	42.8	% 44.8	% 43.4	% 42.6	%
Total	100.0	% 100.0	% 100.0	% 100.0	%

Net Investment Income

Net investment income increased by \$13.4 million, or 18.9%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase was due to higher income across most asset classes. The annualized period book yield of the investment portfolio for the six months ended June 30, 2014 and 2013 was 2.0% and 1.7%, respectively.

Investment management expenses of \$8.5 million and \$8.1 million were incurred during the six months ended June 30, 2014 and 2013, respectively. The increase of \$0.4 million, or 4.9%, was primarily due to additional investment portfolio managers utilized in the current period as compared to prior period.

Realized Investment Gains (Losses)

Net realized investment gains (losses) were comprised of the following:

	Six Months Ended	
	June 30,	
	2014	2013
	(\$ in millions)	
Net realized gains on sale:		
Fixed maturity investments, trading	\$17.7	\$29.5
Equity securities, trading	44.4	16.2
Other invested assets: hedge funds and private equity, trading	39.6	14.7
Total net realized gains on sale	101.7	60.4
Net realized and unrealized (losses) gains on derivatives	(26.6) 7.6
Mark-to-market gains (losses):		
Fixed maturity investments, trading	58.9	(131.6
Equity securities, trading	(0.3) (1.4
Other invested assets: hedge funds and private equity, trading	5.7	29.4
Total mark-to-market gains (losses)	64.3	(103.6

Net realized investment gains (losses)	\$139.4	\$(35.6)
----------------------------------------	---------	---------	---

The total return of our investment portfolio was 2.6% and 0.4% for the six months ended June 30, 2014 and 2013, respectively. The increase in total return was primarily due to lower interest rates that caused mark-to-market gains on our fixed maturity investments during the six months ended June 30, 2014 compared to higher interest rates and tightening credit spreads which caused mark-to-market losses during the six months ended June 30, 2013. The realized and unrealized losses on

Table of Contents

derivatives for the six months ended June 30, 2014 were the result of selling interest rate future and swap contracts to reduce the duration of the investment portfolio. Given the decrease in interest rates during the year, we recorded a loss related to these interest rate future and swap contracts.

Net Losses and Loss Expenses

Net losses and loss expenses increased by \$59.8 million, or 11.3%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the six months ended June 30, 2014 and 2013:

	Six Months Ended June 30, 2014		Six Months Ended June 30, 2013		Dollar Change	Loss Ratio Percentage Point Change
	Amount	% of NPE (1)	Amount (\$ in millions)	% of NPE (1)		
Non-catastrophe	\$684.1	64.1	% \$622.8	64.1	% \$61.3	—
Property catastrophe	—	—	—	—	—	—
Current period	684.1	64.1	622.8	64.1	61.3	—
Prior period	(94.0)	(8.8)	(92.5)	(9.5)	(1.5)) 0.7
Net losses and loss expenses	\$590.1	55.3	% \$530.3	54.6	% \$59.8	0.7

(1) "NPE" means net premiums earned.

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses was primarily due to the overall growth of our operations.

Current year property catastrophe losses and loss expenses

During the six months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

We recorded net favorable reserve development related to prior years of \$94.0 million during the six months ended June 30, 2014 compared to net favorable reserve development of \$92.5 million for the six months ended June 30, 2013, as shown in the tables below.

	(Favorable) and Unfavorable Loss Reserve Development by Loss Year										
	Six Months Ended June 30, 2014										
	2004 and Prior	2005	2006	2007	2008	2009	2010	2011	2012	2013	Total
	(\$ in millions)										
U.S. insurance	\$(4.7)	\$(0.5)	\$—	\$(0.4)	\$(4.5)	\$(9.0)	\$1.0	\$12.7	\$(0.5)	\$7.7	\$1.8
International insurance	7.8	(3.8)	(0.7)	(28.4)	9.3	(20.3)	(16.3)	(5.0)	0.8	7.2	(49.4)
Reinsurance	(0.6)	(0.3)	(2.1)	(2.4)	(1.4)	(0.4)	2.3	(5.1)	0.3	(36.7)	(46.4)
	\$2.5	\$(4.6)	\$(2.8)	\$(31.2)	\$3.4	\$(29.7)	\$(13.0)	\$2.6	\$0.6	\$(21.8)	\$(94.0)

For the six months ended June 30, 2014, the net unfavorable prior year reserve development in the U.S. insurance segment for the 2011 loss year was in our healthcare line of business and was due to adverse development on several claims above our previous expectations in the managed care E&O class of business and higher than expected loss frequency in the medical malpractice class of business. The favorable prior year reserve development in the international insurance segment for the 2007 loss year was due to favorable reserve development on an individual professional liability claim, the net favorable development for the 2009 and 2010 loss years was due to actual loss emergence being lower than anticipated across several lines of business, and the unfavorable reserve development for the 2013 loss year was due to a single claim in our healthcare line of business. The net favorable prior year reserve development in our reinsurance segment for the 2013 loss year was primarily due to benign property loss activity, and therefore reported losses were less than our expectations.

Table of Contents

The following table shows the net favorable reserve development by loss year for each of our segments for the six months ended June 30, 2013.

	(Favorable) and Unfavorable Loss Reserve Development by Loss Year For the Six Months Ended June 30, 2013										
	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
	(\$ in millions)										
U.S. insurance	\$ (0.1)	\$ (2.1)	\$ (3.5)	\$ (1.1)	\$ (13.0)	\$ (14.2)	\$ (3.0)	\$ (7.3)	\$ 17.7	\$ 34.2	\$ 7.6
International insurance	5.9	(2.9)	(4.3)	(10.9)	(10.3)	(9.9)	(0.6)	(5.5)	(9.7)	(7.2)	(55.4)
Reinsurance	0.2	(1.4)	(3.1)	1.1	(2.2)	(6.9)	0.4	(2.1)	(2.9)	(27.8)	(44.7)
	\$ 6.0	\$ (6.4)	\$ (10.9)	\$ (10.9)	\$ (25.5)	\$ (31.0)	\$ (3.2)	\$ (14.9)	\$ 5.1	\$ (0.8)	\$ (92.5)

For the six months ended June 30, 2013, the unfavorable reserve development for the 2011 and 2012 loss years for our U.S. insurance segment was due to higher than expected loss emergence, primarily in our private/not for profit D&O, healthcare and E&O lines of business. The healthcare emergence was largely driven by three large claims, each in excess of \$3 million. The emergence in the E&O and private/not for profit D&O is due to higher than expected loss frequency.

The favorable reserve development for the 2012 loss year for our reinsurance segment was due to lower than expected reported losses in our property reinsurance line of business.

The following table shows the components of net losses and loss expenses for each of the periods indicated.

	Six Months Ended June 30,		Dollar
	2014	2013	Change
	(\$ in millions)

Table of Contents

Acquisition Costs

Acquisition costs increased by \$20.7 million, or 17.1%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase in acquisition costs was due to the growth in premiums and higher acquisition costs in our reinsurance segment. Acquisition costs as a percentage of net premiums earned were 13.3% for the six months ended June 30, 2014 compared to 12.5% for the same period in 2013. The higher acquisition cost ratio was driven from our reinsurance segment.

General and Administrative Expenses

General and administrative expenses increased by \$13.2 million, or 8.1%, for the six months ended June 30, 2014 compared to the same period in 2013. Our general and administrative expense ratio was 16.5% and 16.8% for the six months ended June 30, 2014 and 2013, respectively. The increase in general and administrative expenses was primarily due to higher salary related costs due to higher headcount as our average headcount increased by 13% partially offset by lower stock-based compensation due to changes in our share price. Our share price increased 1% for the six months ended June 30, 2014 compared to a 16% increase for the same period in 2013.

Amortization of Intangible Assets

The amortization of intangible assets was virtually unchanged for the six months ended June 30, 2014 compared to the six months ended June 30, 2013.

Interest Expense

Interest expense increased by \$0.8 million, or 2.8%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013.

Net Income

Net income for the six months ended June 30, 2014 was \$328.8 million compared to net income of \$157.1 million for the six months ended June 30, 2013. The \$171.7 million increase was primarily the result of recording net realized gains on our investments of \$139.4 million during the six months ended June 30, 2014 compared to net realized losses of \$35.6 million during the six months ended June 30, 2013. Income tax expense for the six months ended June 30, 2014 increased by \$21.4 million compared to the six months ended June 30, 2013. The increase in income tax expense was primarily due to higher taxable income in our U.S. operations.

Underwriting Results by Operating Segments

Our company is organized into three operating segments:

U.S. Insurance Segment. The U.S. insurance segment includes our direct specialty insurance operations in the United States and Canada, as well as our claims administration services operations. This segment provides both direct property and specialty casualty insurance primarily to non-Fortune 1000 North American domiciled accounts, as well as third-party claims administration services.

International Insurance Segment. The international insurance segment includes our direct insurance operations in Bermuda, Europe and Asia Pacific, which includes offices in Australia, Singapore and Hong Kong. This segment provides both direct property and casualty insurance primarily to Fortune 1000 North American domiciled accounts

from our Bermuda office and direct property and specialty casualty to our non-North American domiciled accounts from our European and Asia Pacific offices.

Reinsurance Segment. Our reinsurance segment has operations in Bermuda, Europe, Singapore and the United States. This segment includes the reinsurance of property, general casualty, professional liability, specialty lines and property catastrophe coverages written by insurance companies. We presently write reinsurance on both a treaty and a facultative basis, targeting several niche reinsurance markets.

Table of Contents

U.S. Insurance Segment

The following table summarizes the underwriting results and associated ratios for the U.S. insurance segment for each of the periods indicated.

Comparison of Three Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written increased by \$34.1 million, or 11.1%, for the three months ended June 30, 2014 compared to the same period in 2013. The increase in gross premiums written was primarily due to \$11.4 million of new business growth from new lines of business and new insureds during the three months ended June 30, 2014 compared to the three months ended June 30, 2013, as well as premium rate increases across most lines of business. This was particularly evident in our general casualty and inland marine lines of business that had an overall increase in gross premiums written of \$30.3 million. This growth was partially offset by the non-renewal of business, particularly in certain classes within our healthcare line of business, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions).

The table below illustrates our gross premiums written by line of business for each of the periods indicated.

	Three Months Ended		Dollar	Percentage	
	June 30,				
	2014	2013	Change	Change	
	(\$ in millions)

47

Table of Contents

Net premiums written increased by \$0.6 million, or 0.3%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was primarily due to higher gross premiums written and lower ceded premiums related to our property catastrophe reinsurance protection, partially offset by \$41.9 million of additional ceded premiums written due to recognizing annual ceded premiums written at the inception of several reinsurance treaties rather than ratably over the contract period as these reinsurance contracts had contractual minimum premiums. This resulted in the acceleration of ceded premiums written but had no impact on net premiums earned. We ceded 35.0% of gross premiums written for the three months ended June 30, 2014 compared to 28.0% for the three months ended June 30, 2013.

Net premiums earned increased by \$17.2 million, or 8.7%, for the three months ended June 30, 2014 compared to the same period in 2013. The increase was due to the continued growth of our U.S. insurance operations during 2013 and into 2014.

Net losses and loss expenses. Net losses and loss expenses increased by \$21.1 million, or 17.0%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the three months ended June 30, 2014 and 2013:

	Three Months Ended June 30, 2014		Three Months Ended June 30, 2013		Dollar Change	Loss Ratio Percentage Point Change
	Amount	% of NPE	Amount (\$ in millions)	% of NPE		
Non-catastrophe	\$ 144.4	67.3	% \$ 127.3	64.5	% \$ 17.1	2.8 Pts
Property catastrophe	—	—	—	—	—	—
Current period	144.4	67.3	127.3	64.5	17.1	2.8
Prior period	1.1	0.5	(2.9) (1.5) 4.0	2.0
Net losses and loss expenses	\$ 145.5	67.8	% \$ 124.4	63.0	% \$ 21.1	4.8 Pts

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses and the related ratio was primarily due to growth of the business and higher non-catastrophe property losses in the current period compared to the same period last year.

Current year property catastrophe losses and loss expenses

During the three months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

Overall, our U.S. insurance segment recorded net unfavorable reserve development of \$1.1 million during the three months ended June 30, 2014 compared to net favorable reserve development of \$2.9 million for the three months ended June 30, 2013, as shown in the tables below.

Table of Contents

For the three months ended June 30, 2014, the net unfavorable prior year reserve development in our healthcare lines of business for the 2011 through 2013 loss years was primarily due to adverse development on several claims above our previous expectations in the medical malpractice class of business. We also experienced adverse development on reported claims in our lawyers E&O class of business for the 2011 and 2012 loss years and our primary casualty class of business in the 2013 loss year.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year
For the Three Months Ended June 30, 2013

	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
	(\$ in millions)										
General casualty Programs	\$—	\$(0.3)	\$(0.2)	\$—	\$(1.2)	\$(1.4)	\$0.3	\$—	\$0.8	\$0.5	\$(1.5)
General property Healthcare	—	—	—	(1.4)	(1.7)	0.1	(0.1)	(1.8)	(0.2)	1.4	(3.7)

For the three months ended June 30, 2013, the unfavorable reserve development for the 2011 and 2012 loss years was due to higher than expected loss emergence, primarily in our private/not for profit D&O and healthcare lines of business. The healthcare emergence was largely driven by one large claim and loss emergence in our medical malpractice class of business. The emergence in the private/not for profit D&O is due to higher than expected loss frequency.

Acquisition costs. Acquisition costs increased by \$2.4 million, or 8.8%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was primarily driven by the growth in net premiums earned. The acquisition cost ratio was 13.8% for both the three months ended June 30, 2014 and 2013.

General and administrative expenses. General and administrative expenses increased by \$8.3 million, or 21.7%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was primarily due to higher stock-based compensation expense and higher salary related costs as we continue to grow our U.S. insurance operations. The general and administrative expense ratio increased to 21.7% for the three months ended June 30, 2014 from 19.4% for the same period in 2013, reflecting higher expenses partially offset by higher net premiums earned.

Comparison of Six Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written increased by \$48.1 million, or 8.5%, for the six months ended June 30, 2014 compared to the same period in 2013. The increase in gross premiums written was primarily due to \$21.7 million of new business growth from new lines of business and new insureds during the six months ended June 30, 2014 compared to the six months ended June 30, 2013, as well as premium rate increases across most lines of business. This was particularly evident in our general casualty, programs, inland marine and environmental lines of business that had an overall increase in gross premiums written of \$58.8 million. This growth was partially offset by the non-renewal of business, particularly in certain classes within our healthcare line of business, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions).

Table of Contents

The table below illustrates our gross premiums written by line of business for each of the periods indicated.

	Six Months Ended		Dollar Change	Percentage Change	
	June 30, 2014	2013 (\$ in millions)			
General casualty	\$199.0	\$164.3	\$34.7	21.1	%
Professional liability	124.2	127.5	(3.3)	(2.6))%
Programs	73.2	66.6	6.6	9.9	%
Healthcare	72.1	100.0	(27.9)	(27.9))%
General property	53.7	55.3	(1.6)	(2.9))%
Inland marine	32.8	20.7	12.1	58.5	%
Environmental	21.7	16.3	5.4	33.1	%
Other*	34.6	12.6	22.0	174.6	%
	\$611.4	\$563.3	\$48.1	8.5	%

*Includes our primary construction, mergers and acquisitions and surety lines of business.

Net premiums written increased by \$11.0 million, or 2.7%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase in net premiums written was due to higher gross premiums written and lower ceded premiums related to our property catastrophe reinsurance protection partially offset by higher premiums ceded due to recognizing annual ceded premiums written at the inception of the treaty rather than ratably over the contract period for those reinsurance contracts where there is a contractual minimum premium. We ceded 30.5% of gross premiums written for the six months ended June 30, 2014 compared to 26.6% during the same period in 2013.

Net premiums earned increased by \$40.8 million, or 10.6%, for the six months ended June 30, 2014 compared to the same period in 2013. The increase was due to the continued growth of our U.S. insurance operations during 2013 and into 2014.

Net losses and loss expenses. Net losses and loss expenses increased by \$29.8 million, or 11.6%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the six months ended June 30, 2014 and 2013:

	Six Months Ended		Six Months Ended		Dollar Change	Loss Ratio Percentage Point Change
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013		
	Amount	% of NPE	Amount	% of NPE		
Non-catastrophe	\$285.7	67.0	% \$250.1	64.8	% \$35.6	2.2 Pts
Property catastrophe	—	—	—	—	—	—
Current period	285.7	67.0	250.1	64.8	35.6	2.2
Prior period	1.8	0.4	7.6	2.0	(5.8)	(1.6)
Net losses and loss expenses	\$287.5	67.4	% \$257.7	66.8	% \$29.8	0.6 Pts

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses and the related ratio was primarily due to growth and mix of the business, higher non-catastrophe property losses in the current period compared to the same period last year, and increased loss adjustment expenses across several lines of business.

Current year property catastrophe losses and loss expenses

During the six months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Table of Contents

Prior year losses and loss expenses

Overall, our U.S. insurance segment recorded net unfavorable reserve development of \$1.8 million during the three months ended June 30, 2014 compared to net unfavorable reserve development of \$7.6 million for the three months ended June 30, 2013, as shown in the tables below.

	(Favorable) and Unfavorable Loss Reserve Development by Loss Year For the Six Months Ended June 30, 2014

	\$(0.1)	\$(2.1)	\$(3.5)	\$(1.1)	\$(13.0)	\$(14.2)	\$(3.0)	\$(7.3)	\$17.7	\$34.2	\$7.6

For the six months ended June 30, 2013, the unfavorable reserve development for the 2011 and 2012 loss years was due to higher than expected loss emergence, primarily in our private/not for profit D&O, healthcare D&O and E&O lines of business. The healthcare D&O emergence was largely driven by three large claims, each in excess of \$3 million. The emergence in the E&O and private/not for profit D&O is due to higher than expected loss frequency.

Acquisition costs. Acquisition costs increased by \$6.8 million, or 13.5%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase was driven by the growth in net premiums earned, higher commission and brokerage rates compared to last year due to changes in the mix of business and higher rates

charged by brokers, and an increase in other acquisition related costs. The acquisition cost ratio was 13.4% and 13.1% for the six months ended June 30, 2014 and 2013.

General and administrative expenses. General and administrative expenses increased by \$6.1 million, or 7.8%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase was primarily due to higher salary-

51

Table of Contents

related costs as we continue to grow our U.S. insurance operations. The general and administrative expense ratio decreased to 19.7% for the six months ended June 30, 2014 from 20.2% for the same period in 2013.

International Insurance Segment

The following table summarizes the underwriting results and associated ratios for the international insurance segment for each of the periods indicated.

	Three Months Ended		Six Months Ended	
	June 30, 2014	2013	June 30, 2014	2013
	(\$ in millions)			
Revenues				
Gross premiums written	\$204.5	\$192.6	\$338.8	\$321.1
Net premiums written	122.2	106.4	197.6	184.1

Combined ratio	73.9	% 62.9	% 63.8	% 62.9

Comparison of Three Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written increased by \$11.9 million, or 6.2%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was primarily due to continued growth from new initiatives and new lines of business. Our new aviation and marine cargo business contributed a combined \$9.3 million of gross premiums written during the current quarter. The professional liability line of business grew \$4.9 million primarily on new business writings in the mergers and acquisitions class of business. This growth was partially offset by the general casualty line of business, which decreased by \$3.7 million primarily due to the non-renewal of certain policies during the current quarter, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions). During the quarter, we opened a new branch office in Sydney, Australia to further expand our distribution network in the Asia Pacific region.

The table below illustrates our gross premiums written by underwriter location for our international insurance operations.

	Three Months Ended		Dollar Change	Percentage Change
	June 30, 2014	2013 (\$ in millions)		
Bermuda	\$135.0	\$136.3	\$(1.3)	(1.0)%
Europe	61.9	49.2	12.7	25.8 %
Asia Pacific	7.6	7.1	0.5	7.0 %
	\$204.5	\$192.6	\$11.9	6.2 %

Table of Contents

Other*	2.6	—	2.6	n/a	
	\$204.5	\$192.6	\$11.9	6.2	%

*Includes our marine cargo line of business.

Net premiums written increased by \$15.8 million, or 14.8%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase in net premiums written was primarily due to higher gross premiums written and lower ceded premiums related to our property catastrophe reinsurance protection for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. We ceded 40.2% of gross premiums written for the three months ended June 30, 2014 compared to 44.8% for the three months ended June 30, 2013.

Net premiums earned increased by \$2.2 million, or 2.5%, primarily due to higher net premiums written during 2013 and the first half of 2014.

Net losses and loss expenses. Net losses and loss expenses increased by \$4.9 million, or 15.8%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the three months ended June 30, 2014 and 2013:

	Three Months Ended		Three Months Ended		Dollar Change	Loss Ratio Percentage Point Change
	June 30, 2014		June 30, 2013			
	Amount	% of NPE	Amount	% of NPE		
			(\$ in millions)			
Non-catastrophe	\$55.9	62.7	% \$56.7	65.1	% \$(0.8) (2.4) Pts
Property catastrophe	—	—	—	—	—	—
Current period	55.9	62.7	56.7	65.1	(0.8) (2.4
Prior period	(20.0) (22.4) (25.7) (29.5) 5.7	7.1
Net losses and loss expenses	\$35.9	40.3	% \$31.0	35.6	% \$4.9	4.7 Pts

Current year non-catastrophe losses and loss expenses

The decrease in the current year non-catastrophe losses and loss expenses and related ratio was primarily due to lower reported property loss activity during the three months ended June 30, 2014 compared to the three months ended June 30, 2013.

Current year property catastrophe losses and loss expenses

During the three months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

Overall, our international insurance segment recorded net favorable reserve development of \$20.0 million during the three months ended June 30, 2014 compared to net favorable reserve development of \$25.7 million for the three months ended June 30, 2013, as shown in the tables below.

Table of Contents(Favorable) and Unfavorable Loss Reserve Development by Loss Year

For the three months ended June 30, 2014, the unfavorable prior year reserve development in the general casualty line of business for the 2008 loss year related to a single claim estimated to reach our full limit.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year
For the Three Months Ended June 30, 2013

	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
	(\$ in millions)										
General casualty	\$6.6	\$(0.7)	\$(1.4)	\$(3.3)	\$(2.4)	\$(2.0)	\$1.7	\$—	\$(0.2)	\$—	\$(1.7)
General property	—	—	(0.1)	0.2	0.8	(0.4)	(3.7)	(2.7)	(1.6)	(4.9)	(12.4)
Professional liability	(0.2)	(4.7)	4.5	(1.4)	(5.5)	—	(6.1)	(0.1)	(0.1)	—	(13.6)
Healthcare	—	(0.2)	(0.1)	(0.4)	(0.4)	(0.4)	3.9	(0.2)	(0.2)	—	2.0
	\$6.4	\$(5.6)	\$2.9	\$(4.9)	\$(7.5)	\$(2.8)	\$(4.2)	\$(3.0)	\$(2.1)	\$(4.9)	\$(25.7)

Acquisition costs. Acquisition costs increased by \$1.0 million, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The acquisition cost ratio was 0.6% for the three months ended June 30, 2014 and negative 0.4% for the three months ended June 30, 2013. The negative cost represents ceding commissions received on ceded premiums, that have been earned, in excess of the brokerage fees and commissions paid on gross premiums written, that have been amortized. The ceding commission income also covers costs that are expensed as incurred.

General and administrative expenses. General and administrative expenses increased by \$5.3 million, or 22.0%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was primarily due to higher stock-based compensation expense and higher salary-related costs as we continue to grow our international insurance operations. The general and administrative expense ratio was 33.0% and 27.7% for the three months ended June 30, 2014 and 2013, respectively. The increase in the general and administrative expense ratio was primarily due to the higher compensation costs discussed above.

Comparison of Six Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written increased by \$17.7 million, or 5.5%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase was primarily due to continued growth from new initiatives and new lines of business. Our new aviation and marine cargo business contributed \$13.6 million of gross premiums written during the current period. The professional liability line of business grew \$9.4 million on new business writings in European E&O and mergers and acquisitions classes of business. This growth was partially offset by the general casualty line of business, which decreased by \$7.6 million compared to the prior period, due to non-recurring business written in 2013 and the non-renewal of certain policies during the current period, which did not meet our underwriting requirements (which included inadequate pricing and/or terms and conditions).

Table of Contents

Current year non-catastrophe losses and loss expenses

The decrease in the current year non-catastrophe losses and loss expenses and related ratio was primarily due lower reported property loss activity during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 and an increase to the loss adjustment expense reserve during the six months ended June 30, 2013 that did not occur during the six months ended June 30, 2014.

Current year property catastrophe losses and loss expenses

During the six months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

Overall, our international insurance segment recorded net favorable reserve development of \$49.4 million during the six months ended June 30, 2014 compared to net favorable reserve development of \$55.4 million for the six months ended June 30, 2013, as shown in the tables below.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year
For the Six Months Ended June 30, 2014

	2004 and Prior	2005	2006	2007	2008	2009	2010	2011	2012	2013	Total
	(\$ in millions)										
General casualty	\$9.6	\$(1.4)	\$(2.5)	\$(3.5)	\$11.4	\$(9.3)	\$(8.8)	\$1.9	\$(0.1)	\$—	\$(2.7)

For the six months ended June 30, 2014, the unfavorable prior year reserve development in the healthcare line of business for the 2013 loss year and for the general casualty line of business for the 2008 loss year related to single claims within each of those lines of business. The favorable prior year reserve development in the professional liability line of business for the 2007 loss year was primarily due to favorable reserve development on an individual claim. The favorable development in the 2009 and 2010 loss years was primarily due to actual loss emergence being lower than anticipated across several lines of business.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year
For the Six Months Ended June 30, 2013

	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
	(\$ in millions)

	\$5.9	\$(2.9)	\$(4.3)	\$(10.9)	\$(10.3)	\$(9.9)	\$(0.6)	\$(5.5)	\$(9.7)	\$(7.2)	\$(55.4)

Edgar Filing: Allied World Assurance Co Holdings, AG - Form 10-Q

For the six months ended June 30, 2013, the net favorable reserve development for loss years 2004 through 2012 was a result of actual loss emergence being lower than anticipated. The unfavorable reserve development in our healthcare line in the 2007 and 2009 loss years was due to adverse development on individual claims.

Acquisition costs. Acquisition costs increased by \$0.8 million, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The acquisition cost ratio was negative 0.2% for the six months ended June 30, 2014 and negative

Table of Contents

0.7% for the six months ended June 30, 2013. The lower negative acquisition cost ratio is primarily due to higher other acquisition related costs during the current year as compared to prior year partially offset by additional ceding commission income earned on the new aviation reinsurance treaties and increased ceding commission income on certain renewal reinsurance treaties.

General and administrative expenses. General and administrative expenses increased by \$5.3 million, or 10.8%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase in general and administrative expenses were due to increased salary and related costs. The general and administrative expense ratio was 30.5% and 28.6% for the six months ended June 30, 2014 and 2013, respectively.

Reinsurance Segment

The following table summarizes the underwriting results and associated ratios for the reinsurance segment for each of the periods indicated.

	Three Months Ended		Six Months Ended

Comparison of Three Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written decreased by \$50.8 million, or 19.1%, for the three months ended June 30, 2014 compared to the same period in 2013. The decrease was primarily due to the timing of renewals that were not renewed in the current quarter but were previously bound during the quarter ended June 30, 2013 and lower premiums written in our property reinsurance lines of business. In our property reinsurance lines of business, we had lower premiums written during the current quarter compared to the same quarter last year of \$12.4 million from our collateralized property catastrophe reinsurance program through Aeolus Re.

Table of Contents

The table below illustrates our gross premiums written by underwriter location for our reinsurance operations.

	Three Months Ended		Dollar Change	Percentage Change	
	June 30, 2014	2013 (\$ in millions)			
United States	\$104.2	\$132.9	\$(28.7) (21.6)%
Bermuda	50.9	74.7	(23.8) (31.9)%
Asia	43.3	46.7	(3.4) (7.3)%
Europe	16.1	11.0	5.1	46.4	%
	\$214.5	\$265.3	\$(50.8) (19.1)%

The table below illustrates our gross premiums written by line of business for each of the periods indicated.

	Three Months Ended		Dollar Change	Percentage Change	
	June 30, 2014	2013 (\$ in millions)			
Property	\$119.8	\$152.4	\$(32.6) (21.4)%
Casualty	64.4	76.7	(12.4) (16.1)%
Specialty	30.3	36.2	(5.9) (16.3)%
	\$214.5	\$265.3	\$(50.8) (19.1)%

Net premiums written decreased by \$43.6 million, or 17.2%, due to the decrease in gross premiums written partially offset by lower ceded premiums during the three months ended June 30, 2014 compared to the three months ended June 30, 2013.

Net premiums earned increased by \$10.6 million, or 4.8%, as a result of the increase in net premiums written during the previous quarters, as well as the reduction in ceded earned premium related to the non-renewal of the collateralized retrocessional catastrophe cover that we purchased during the first quarter of 2013 partially offset by the ceded earned premium related to the collateralized property catastrophe reinsurance we purchased in the current quarter.

Net losses and loss expenses. Net losses and loss expenses increased by \$13.6 million, or 11.4%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the three months ended June 30, 2014 and 2013:

	Three Months Ended		Three Months Ended		Dollar Change	Loss Ratio Percentage Point Change
	June 30, 2014	June 30, 2013	June 30, 2014	June 30, 2013		
	Amount	% of NPE	Amount	% of NPE

Non-catastrophe	\$159.6	68.4	% \$139.6	62.7	% \$20.0	5.7
Property catastrophe	—	—	—	—	—	—
Current period	159.6	68.4	139.6	62.7	20.0	5.7
Prior period	(26.2) (11.2) (19.8) (8.9) (6.4) (2.3
Net losses and loss expenses	\$133.4	57.2	% \$119.8	53.8	% \$13.6	3.4

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses was primarily due to the growth of the business and higher reported large property losses during the three months ended June 30, 2014 compared to the same period in 2013. The reported large property losses during the three months ended June 30, 2014 primarily related to several storm events in the United States, an earthquake in Chile, an oil spill in the Gulf of Mexico and a fire at a Russian oil refinery. The increase in the current year non-catastrophe losses and loss expense ratio was primarily due to the higher reported large losses discussed above, which resulted in an increase of 6.0 percentage points in the current year non-catastrophe losses and loss expense ratio.

Table of Contents

Current year property catastrophe losses and loss expenses

During the three months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

Overall, our reinsurance segment recorded net favorable reserve development of \$26.2 million during the three months ended June 30, 2014 compared to net favorable reserve development of \$19.8 million for the three months ended June 30, 2013, as shown in the tables below.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year

For the Three Months Ended June 30, 2014

	2004 and Prior	2005	2006	2007	2008	2009	2010	2011	2012	2013	Total
	(\$ in millions)										
Property	\$0.4	\$—	\$(0.1)	\$—	\$0.1	\$0.4	\$0.4	\$(5.1)	\$(2.6)	\$(15.9)	\$(22.4)
Casualty	0.7	(0.6)	(0.5)	(0.2)	0.2	(1.2)	0.2	0.2	(0.9)	(0.8)	(2.9)
Specialty	(0.4)	(0.5)	(0.1)	(0.1)	—	0.2	0.2	(0.4)	5.9	(5.7)	(0.9)
	\$0.7	\$(1.1)	\$(0.7)	\$(0.3)	\$0.3	\$(0.6)	\$0.8	\$(5.3)	\$2.4	\$(22.4)	\$(26.2)

For the three months ended June 30, 2014, the net favorable reserve development in the property line of business for the 2013 loss year is due to lower than expected reported loss activity.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year

For the Three Months Ended June 30, 2013

	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
	(\$ in millions)										
Property	\$—	\$0.1	\$(0.5)	\$0.1	\$—	\$(0.1)	\$—	\$(0.6)	\$(1.5)	\$(22.6)	\$(25.1)
Casualty	(0.3)	(1.1)	(0.1)	0.8	—	(1.1)	(0.1)	0.7	3.3	5.3	7.4
Specialty	—	(0.3)	(0.4)	0.4	—	(2.7)	1.5	—	0.8	(1.4)	(2.1)
	\$(0.3)	\$(1.3)	\$(1.0)	\$1.3	\$—	\$(3.9)	\$1.4	\$0.1	\$2.6	\$(18.7)	\$(19.8)

For the three months ended June 30, 2013, the favorable reserve development for the 2012 loss year for our reinsurance segment was largely due to lower than expected reported losses in our property line of business. Our casualty line of business experienced higher than expected loss emergence that caused the unfavorable loss reserve development in the 2011 and 2012 loss years.

Acquisition costs. Acquisition costs increased by \$6.3 million, or 16.7%, for the three months ended June 30, 2014 compared to the three months ended June 30, 2013. The increase was due to the increase in premiums earned, as well as higher profit commission accruals recorded in the current quarter and increased ceding commission charged by cedents in certain lines of business. The acquisition cost ratio was 18.9% for the three months ended June 30, 2014 compared to 16.9% for the three months ended June 30, 2013. The increase in the acquisition cost ratio was due to higher profit commission accruals and increased ceding commission charged by cedents.

General and administrative expenses. General and administrative expenses increased by \$2.1 million, or 11.6%, for the three months ended June 30, 2014 compared to the same period in 2013. The increase in general and administrative expenses was primarily due to higher stock-based compensation expense. The general and administrative expense ratios for the three months ended June 30, 2014 and 2013 were 8.6% and 8.1%, respectively, due to the higher expenses noted above partially offset by higher net premiums earned.

Comparison of Six Months Ended June 30, 2014 and 2013

Premiums. Gross premiums written decreased by \$6.3 million, or 0.9%, for the six months ended June 30, 2014 compared to the same period in 2013. The decrease was driven primarily by the timing of a renewal that was not renewed in the current period but was previously bound during the six months ended June 30, 2013 partially offset by new business and increased

Table of Contents

renewals across several major lines of business. In our property reinsurance lines of business, we had increased premiums of approximately \$3.6 million from our collateralized property catastrophe reinsurance program through Aeolus Re. In our specialty lines of business, our crop reinsurance line of business increased gross premiums written by \$8.5 million primarily due to increases on renewals and new business. We also experienced non-renewals of certain treaties, particularly in our casualty reinsurance line of business, either due to poor terms and conditions or the cedents not renewing their reinsurance or finding other reinsurance alternatives, and net downward premium adjustments on inforce treaties.

The table below illustrates our gross premiums written by underwriter location for our reinsurance operations.

	Six Months Ended		Dollar Change	Percentage Change	
	June 30, 2014	2013 (\$ in millions)			
United States	\$355.9	\$355.3	\$0.6	0.2	%
Bermuda	200.6	218.2	(17.6)	(8.1))%
Asia	84.7	84.4	0.3	0.4	%
Europe	70.4	60.0	10.4	17.3	%
	\$711.6	\$717.9	\$(6.3)	(0.9))%

The table below illustrates our gross premiums written by line of business for each of the periods indicated.

	Six Months Ended		Dollar Change	Percentage Change	
	June 30, 2014	2013 (\$ in millions)			
Property	\$370.3	\$364.0	\$6.3	1.7	%
Specialty	191.8	179.6	12.2	6.8	%
Casualty	149.5	174.3	(24.8)	(14.2))%
	\$711.6	\$717.9	\$(6.3)	(0.9))%

Net premiums written increased by \$24.7 million, or 3.6%, primarily due to not renewing the collateralized retrocessional catastrophe cover partially offset by ceded premiums written for the current year collateralized property catastrophe reinsurance protection.

Net premiums earned increased by \$49.9 million, or 12.1%, as a result of the increase in net premiums written during 2013 and into 2014, as well as the reduction in ceded earned premium related to the non-renewal of the collateralized retrocessional catastrophe cover.

Net losses and loss expenses. Net losses and loss expenses increased by \$30.5 million, or 14.3%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The following is a breakdown of the loss and loss expense ratio for the three months ended June 30, 2014 and 2013:

	Six Months Ended June 30, 2014		Six Months Ended June 30, 2013		Dollar Change	Loss Ratio Percentage Point Change

Table of Contents

Current year non-catastrophe losses and loss expenses

The increase in the current year non-catastrophe losses and loss expenses and the related ratio was primarily due to higher reported property losses during the six months ended June 30, 2014 compared to the six months ended June 30, 2013 partially offset by the mix of business.

Current year property catastrophe losses and loss expenses

During the six months ended June 30, 2014 and June 30, 2013, we did not incur any property catastrophe losses.

Prior year losses and loss expenses

Overall, our reinsurance segment recorded net favorable reserve development of \$46.4 million during the six months ended June 30, 2014 compared to net favorable reserve development of \$44.7 million for the six months ended June 30, 2013, as shown in the tables below.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year For the Six Months Ended June 30, 2014											
	2004 and Prior	2005	2006	2007	2008	2009	2010	2011	2012	2013	Total
(\$ in millions)											
Property	\$0.5	\$—	\$(0.2)	\$(0.2)	\$(0.2)	\$0.3	\$1.0	\$(5.8)	\$(4.3)	\$(29.6)	\$(38.5)

	\$(0.6)	\$(0.3)	\$(2.1)	\$(2.4)	\$(1.4)	\$(0.4)	\$2.3	\$(5.1)	\$0.3	\$(36.7)	\$(46.4)

For the six months ended June 30, 2014, the net favorable reserve development in the property line of business for the 2013 loss year is due to lower than expected reported loss activity.

(Favorable) and Unfavorable Loss Reserve Development by Loss Year For the Six Months Ended June 30, 2013											
	2003 and Prior	2004	2005	2006	2007	2008	2009	2010	2011	2012	Total
(\$ in millions)											
Property	\$—	\$0.1	\$(2.3)	\$0.1	\$—	\$(0.2)	\$(0.1)	\$(2.9)	\$(8.5)	\$(35.5)	\$(49.3)
Casualty	0.2	(1.2)	(0.3)	0.7	(2.2)	(3.6)	(0.4)	0.9	3.3	5.3	2.7
Specialty	—	(0.3)	(0.5)	0.3	—	(3.1)	0.9	(0.1)	2.3	2.4	1.9
	\$0.2	\$(1.4)	\$(3.1)	\$1.1	\$(2.2)	\$(6.9)	\$0.4	\$(2.1)	\$(2.9)	\$(27.8)	\$(44.7)

For the six months ended June 30, 2013, the favorable reserve development for the 2012 loss year for our reinsurance segment was largely due to lower than expected reported losses in our property line of business.

Acquisition costs. Acquisition costs increased by \$13.1 million, or 18.2%, for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. The increase was due to the increase in premiums written, as well as higher profit commission accruals recorded in the current quarter and increased ceding commission charged by cedents in certain lines of business. The acquisition cost ratio was 18.4% for the six months ended June 30, 2014 compared to 17.4% for the six months ended June 30, 2013. The increase in the acquisition cost ratio was due to higher profit commission accruals and increased ceding commission charged by cedents

General and administrative expenses. General and administrative expenses increased by \$1.8 million, or 4.9%, for the six months ended June 30, 2014 compared to the same period in 2013. The increase in general and administrative expenses was primarily due to higher salary related costs partially offset by lower stock-based compensation expense. The general and administrative expense ratios for the six months ended June 30, 2014 and 2013 were 8.3% and 8.8%, respectively. The decrease in the general and administrative expense ratio was due to the increase in net premiums earned outpacing the increase in expenses.

Table of Contents

Reserves for Losses and Loss Expenses

Reserves for losses and loss expenses by segment were comprised of the following:

	U.S. Insurance		International Insurance		Reinsurance		Total	
	Jun 30, 2014	Dec 31, 2013	Jun 30, 2014	Dec 31, 2013	Jun 30, 2014	Dec 31, 2013	Jun 30, 2014	Dec 31, 2013
	(\$ in millions)

Net reserve for losses and loss expenses	\$1,622.9	\$1,560.3	\$1,450.0	\$1,481.8	\$1,561.1	\$1,489.9	\$4,634.0	\$4,532.0

We participate in certain lines of business where claims may not be reported for many years. Accordingly, management does not solely rely upon reported claims on these lines for estimating ultimate liabilities. We also use statistical and actuarial methods to estimate expected ultimate losses and loss expenses. Loss reserves do not represent an exact calculation of liability. Rather, loss reserves are estimates of what we expect the ultimate resolution and administration of claims will cost. These estimates are based on various factors including underwriters' expectations about loss experience, actuarial analysis, comparisons with the results of industry benchmarks and loss experience to date. Loss reserve estimates are refined as experience develops and as claims are reported and resolved. Establishing an appropriate level of loss reserves is an inherently uncertain process. Ultimate losses and loss expenses may differ from our reserves, possibly by material amounts.

The following tables provide our ranges of loss and loss expense reserve estimates by business segment as of June 30, 2014:

	Reserve for Losses and Loss Expenses Gross of Reinsurance Recoverable		
	Carried Reserves	Low Estimate	High Estimate
	(\$ in millions)		
U.S. insurance	\$2,199.3	\$1,734.8	\$2,469.5
International insurance	2,167.3	1,691.6	2,378.0
Reinsurance	1,569.1	1,281.2	1,750.5
Consolidated (1)	5,935.7	4,795.5	6,512.1
	Reserve for Losses and Loss Expenses Net of Reinsurance Recoverable		
	Carried Reserves	Low Estimate	High Estimate
	(\$ in millions)		
U.S. insurance	\$1,622.9	\$1,287.8	\$1,854.3
International insurance	1,450.0	1,123.4	1,606.6
Reinsurance	1,561.1	1,275.0	1,742.1
Consolidated (1)	4,634.0	3,763.5	5,125.8

(1) For statistical reasons, it is not appropriate to add together the ranges of each business segment in an effort to determine the low and high range around the consolidated loss reserves.

Our range for each business segment was determined by utilizing multiple actuarial loss reserving methods along with various assumptions of reporting patterns and expected loss ratios by loss year. The various outcomes of these techniques were combined to determine a reasonable range of required loss and loss expense reserves. While we believe our approach to determine the range of loss and loss expense is reasonable, there are no assurances that actual loss experience will be within the ranges of loss and loss expense noted above.

Table of Contents

Our selection of the actual carried reserves is generally above the midpoint of the range. We believe that we should be prudent in our reserving practices due to the lengthy reporting patterns and relatively large limits of net liability for any one risk of our direct excess casualty business and of our casualty reinsurance business. Thus, due to this uncertainty regarding estimates for reserve for losses and loss expenses, we have carried our consolidated reserve for losses and loss expenses, net of reinsurance recoverable, above the midpoint of the low and high estimates for the consolidated net losses and loss expenses. We believe that relying on the more prudent actuarial indications is appropriate for these lines of business.

Reinsurance Recoverable

The following table illustrates our reinsurance recoverable as of June 30, 2014 and December 31, 2013:

	June 30, 2014	December 31, 2013
	(\$ in millions)	
Ceded case reserves	\$248.8	\$225.8
Ceded IBNR reserves	1,052.9	1,008.7
Reinsurance recoverable	\$1,301.7	\$1,234.5

We remain obligated for amounts ceded in the event our reinsurers do not meet their obligations. Accordingly, we have evaluated the reinsurers that are providing reinsurance protection to us and will continue to monitor their credit ratings and financial stability. We generally have the right to terminate our treaty reinsurance contracts at any time, upon prior written notice to the reinsurer, under specified circumstances, including the assignment to the reinsurer by A.M. Best of a financial strength rating of less than "A-." Approximately 99% of ceded reserves as of June 30, 2014 were recoverable from reinsurers who had an A.M. Best rating of "A-" or higher.

Liquidity and Capital Resources

Liquidity

Liquidity is a measure of our ability to access sufficient cash flows to meet the short-term and long-term cash requirements of our business operations. The company believes that its cash flows from operations and investments will provide sufficient liquidity for the foreseeable future.

Holdings is a holding company and transacts no business of its own. Cash flows to Holdings may comprise dividends, advances and loans from its subsidiary companies. Holdings is therefore reliant on receiving dividends and other permitted distributions from its subsidiaries to make dividend payments on its common shares.

Our operating subsidiaries depend upon cash inflows from premium receipts, net of commissions, investment income and proceeds from sales and redemptions of investments. Cash outflows for our operating subsidiaries are in the form of claims payments, net of reinsurance recoveries, reinsurance premium payments, purchase of investments, operating expenses and income tax payments as well as dividend payments to the holding company.

Historically, our operating subsidiaries have generated sufficient cash flows to meet all of their obligations. Because of the inherent volatility of our business, the seasonality in the timing of payments by insureds and cedents, the irregular timing of loss payments, and the impact of a change in interest rates and credit spreads on the investment income as well as seasonality in coupon payment dates for fixed income securities, cash flows from operating activities may vary between periods. In the unlikely event that paid losses exceed operating cash flows in any given

period, we would use our cash balances available, liquidate a portion of our investment portfolio or borrow under our revolving loan facility (see "Credit Facilities" below) in order to meet our short-term liquidity needs.

Our total investments and cash and cash equivalents totaled \$8.8 billion as of June 30, 2014, the main components of which were investment grade fixed income securities and cash and cash equivalents. As of June 30, 2014, we held \$635.1 million of unrestricted cash and cash equivalents and \$518.0 million of fixed income securities with a maturity of less than one year to meet short-term liquidity needs. Our remaining fixed income securities, equity securities and "other invested assets" are available to meet our long-term liquidity needs.

Table of Contents

As of June 30, 2014, we had \$150 million available under our revolving loan facility.

Dividend Restrictions

The jurisdictions in which our operating subsidiaries are licensed to write business impose regulations requiring companies to maintain or meet various defined statutory ratios, including solvency and liquidity requirements. Some jurisdictions also place restrictions on the declaration and payment of dividends and other distributions. See Item 7. "Management's Discussion and Analysis of Financial Condition and Results of Operations - Liquidity and Capital Resources" in the Company's 2013 Form 10-K.

Cash Flows

	Six Months Ended	
	June 30, 2014	2013
	(\$ in millions)	
Cash flows provided by operating activities	\$448.9	\$133.6
Cash flows used in investing activities	(184.2) (43.4
Cash flows used in financing activities	(164.7) (90.3
Effect of exchange rate changes on foreign currency cash	3.2	(7.7
Net increase (decrease) in cash and cash equivalents	103.2	(7.8
Cash and cash equivalents, beginning of period	531.9	681.9
Cash and cash equivalents, end of period	\$635.1	\$674.1

The primary sources of cash inflows from operating activities are premiums received, loss payments from reinsurers, return of funds held balances related to our collateralized property catastrophe reinsurance program through Aeolus Re, and investment income. The primary sources of cash outflows from operating activities are ceded premiums paid to reinsurers, claims paid, contributions of funds held balances, commissions paid, operating expenses, interest expense and income taxes. The primary factor in our ability to generate positive operating cash flow is underwriting profitability. We have generated positive operating cash flow for more than 10 consecutive years.

In our casualty lines of business, claims may be reported and settled many years after the coverage period has terminated. As a result, we expect that we will generate significant operating cash flow as we accumulate casualty loss reserves on our balance sheet. In our property lines of business, claims are generally reported and paid within a relatively short period of time and we expect volatility in our operating cash flows as losses are incurred. We expect increases in the amount of expected loss payments in future periods with a resulting decrease in operating cash flow; however, we do not expect loss payments to exceed the premiums generated. Actual premiums written and collected and losses and loss expenses paid in any period could vary materially from our expectations and could have a significant and adverse effect on operating cash flow.

The increase in cash flows from operations was primarily due to the receipt of \$212.3 million of our funds held balance from Aeolus Re, which is included in "funds held" on the unaudited condensed consolidated balance sheets, for the 2013 and prior underwriting years. The return of our funds held balance from Aeolus Re is a function of the performance of each underwriting year. The timing and the amounts received from Aeolus Re can vary significantly, and we could potentially not receive any amounts back.

Cash flows from investing activities consist primarily of proceeds on the sale of investments and payments for investments acquired in addition to changes in restricted cash. The change in cash flows used in investing activities reflects the higher net purchases of securities during the six months ended June 30, 2014 compared to the same period in 2013.

Cash flows from financing activities consist primarily of capital raising activities, which include the issuance of common shares or debt, the repurchase of our shares, the payment of dividends and the repayment of debt. The increase in cash flows used in financing activities was due to the \$55.2 million increase in share repurchases for the six months ended June 30, 2014 compared to the six months ended June 30, 2013. Dividends paid increased as we increased our quarterly dividend per share amount to \$0.167 in 2014 from \$0.125 in 2013.

Table of Contents

Investments

Our funds are primarily invested in liquid, high-grade fixed income securities. As of June 30, 2014 and December 31, 2013, 88.3% and 89.3%, respectively, of our fixed income portfolio consisted of investment grade securities. The maturity distribution of our fixed-maturity portfolio (on a fair value basis) as of June 30, 2014 and December 31, 2013 was as follows:

	June 30, 2014 (\$ in millions)	December 31, 2013
Due in one year or less	\$518.0	\$838.8
Due after one year through five years	2,805.5	2,698.8
Due after five years through ten years	739.2	697.8
Due after ten years	93.2	67.0
Mortgage-backed	1,323.8	1,292.5
Asset-backed	677.4	505.9
Total	\$6,157.1	\$6,100.8

We have investments in "other invested assets", comprising interests in hedge funds, private equity funds, other private securities and high yield loan funds, the carrying value of which was \$932.6 million as of June 30, 2014. Some of these funds have redemption notice requirements. For each of our funds, liquidity is allowed after certain defined periods based on the terms of each fund. See Note 4(b) "Investments — Other Invested Assets" to our unaudited condensed consolidated financial statements for additional details on our other invested assets.

We do not believe that inflation has had a material effect on our consolidated results of operations. The potential exists, after a catastrophe loss, for the development of inflationary pressures in a local economy. The effects of inflation are considered implicitly in pricing. Loss reserves are established to recognize likely loss settlements at the date payment is made. Those reserves inherently recognize the effects of inflation. The actual effects of inflation on our results cannot be accurately known, however, until claims are ultimately resolved.

Credit Facilities

In the normal course of our operations, we enter into agreements with financial institutions to obtain secured and unsecured credit facilities.

Allied World Assurance Company, Ltd currently has access to up to \$1.45 billion in letters of credit under two letter of credit facilities, a \$1.0 billion uncommitted secured facility with Citibank Europe plc and a \$450 million committed secured credit facility with a syndication of lenders (the "Amended Secured Credit Facility"). These credit facilities are primarily for the issuance of standby letters of credit to support obligations in connection with the insurance and reinsurance business.

The letters of credit issued under the credit facility with Citibank Europe plc are deemed to be automatically extended without amendment for twelve months from the expiry date, or any future expiration date unless at least 30 days prior to any expiration date Citibank Europe plc notifies us that they elect not to consider the letters of credit renewed for any such additional period.

A portion of the Amended Secured Credit Facility may also be used for revolving loans for general corporate and working capital purposes, up to a maximum of \$150 million. We may request that existing lenders under the Amended Secured Credit Facility make additional commitments from time to time, up to \$150 million, subject to approval by

the lenders. The Amended Secured Credit Facility contains representations, warranties and covenants customary for similar bank loan facilities, including certain covenants that, among other things, require us to maintain a certain leverage ratio and financial strength rating. We are in compliance with all covenants under the Amended Secured Credit Facility as of June 30, 2014.

As of June 30, 2014, we had combined unused letters of credit capacity of \$747.6 million from the Amended Secured Credit Facility and Citibank Europe plc. We believe that this remaining capacity is sufficient to meet our future letter of credit needs. During the six months ended June 30, 2014, we did not utilize the revolving loan available under the Amended Secured Credit Facility.

Table of Contents

Allied World Assurance Company, AG entered into a 20-year mortgage commitment with a Swiss bank for a company-used office building in Zug, Switzerland. See "Long-Term Debt" below for additional information regarding the 20-year mortgage commitment. In conjunction with the mortgage commitment, Allied World Assurance Company, AG entered into a three-year credit facility with a Swiss bank that provides up to CHF 5.0 million for general corporate purposes; however, we will use the proceeds from the credit facility to fund the purchase of the office building in Zug, Switzerland. The interest rate for the credit facility is 2.5%.

Pledged Assets

We use trust accounts primarily to meet security requirements for inter-company and certain reinsurance transactions. We also have cash and cash equivalents and investments on deposit with various state or government insurance departments or pledged in favor of ceding companies in order to comply with reinsurance contract provisions and relevant insurance regulations. In addition, our credit facilities are collateralized, at least to the extent of letters of credit outstanding at any given time.

Security arrangements with ceding insurers may subject our assets to security interests or require that a portion of our assets be pledged to, or otherwise held by, third parties. Both of our letter of credit facilities are fully collateralized by assets held in custodial accounts at the Bank of New York Mellon held for the benefit of the banks. Although the investment income derived from our assets while held in trust accrues to our benefit, the investment of these assets is governed by the terms of the letter of credit facilities or the investment regulations of the state or territory of domicile of the ceding insurer, which may be more restrictive than the investment regulations otherwise applicable to us. The restrictions may result in lower investment yields on these assets, which may adversely affect our profitability.

As of June 30, 2014 and December 31, 2013, \$2,745.4 million and \$2,894.4 million, respectively, of cash and cash equivalents and investments were deposited, pledged or held in escrow accounts in favor of ceding companies and other counterparties or government authorities to comply with reinsurance contract provisions, insurance laws and other contract provisions.

In addition, as of June 30, 2014 and December 31, 2013, a further \$886.2 million and \$1,053.6 million, respectively, of cash and cash equivalents and investments were pledged as collateral for our credit facilities.

We do not currently anticipate that the restrictions on liquidity resulting from restrictions on the payment of dividends by our subsidiary companies or from assets committed in trust accounts or to collateralize the letter of credit facilities will have a material impact on our ability to carry out our normal business activities, including interest and dividend payments, respectively, on our senior notes (described below) and common shares.

Financial Strength Ratings

Financial strength ratings represent the opinions of rating agencies on our capacity to meet our obligations. In the event of a significant downgrade in ratings, our ability to write business and to access the capital markets could be impacted. Our financial strength ratings as of June 30, 2014 have not changed since December 31, 2013. See Item 1. "Business" in our 2013 Form 10-K.

Capital Resources

The table below sets forth the capital structure of the Company as of June 30, 2014 and December 31, 2013:

June 30, 2014	December 31, 2013
(\$ in millions)	

Edgar Filing: Allied World Assurance Co Holdings, AG - Form 10-Q

Senior notes	\$798.6	\$798.5		
Shareholders' equity	3,682.8	3,519.8		
Total capitalization	\$4,481.4	\$4,318.3		
Debt to total capitalization	17.8	% 18.5		%

On September 10, 2012, we filed a shelf registration statement on Form S-3 with the U.S. Securities and Exchange Commission in which we may offer from time to time common shares of Allied World Switzerland, senior or subordinated debt securities of Allied World Bermuda, guarantees of debt securities of Allied World Bermuda, warrants to purchase common

Table of Contents

shares of Allied World Switzerland, warrants to purchase debt securities of Allied World Bermuda or units which may consist of any combination of the securities listed above. The registration statement is intended to provide us with additional flexibility to access capital markets for general corporate purposes, subject to market conditions and our capital needs.

Share Repurchases

On May 1, 2014, our shareholders approved a new share repurchase program in order for us to repurchase up to \$500.0 million of our common shares. This new share repurchase program supersedes the 2012 share repurchase program and no further repurchases will be made under the 2012 share repurchase program. Under the terms of this new share repurchase program, the first three million of common shares repurchased will remain in treasury and will be used by us to satisfy share delivery obligations under our equity-based compensation plans. Any additional common shares will be designated for cancellation at acquisition and will be canceled upon shareholder approval. As of June 30, 2014 approximately \$454.2 million remained under this share repurchase authorization.

During the three month and six months ended June 30, 2014, our share repurchases were as follows:

	Three Months Ended June 30, 2014	Six Months Ended June 30, 2014
	(\$ in millions)	
Common shares repurchased	1,949,496	3,961,692
Total cost of shares repurchased	\$70.9	\$139.5
Average price per share	\$36.36	\$35.22

Shares repurchased by the Company and not designated for cancellation are classified as “Treasury shares, at cost” on the consolidated balance sheets. The Company will issue shares out of treasury principally related to the Company’s employee benefit plans. Shares repurchased and designated for cancellation are constructively retired and recorded as a share cancellation.

Long-Term Debt

In July 2006, Allied World Bermuda issued \$500.0 million aggregate principal amount of 7.50% senior notes due August 1, 2016, with interest payable August 1 and February 1 each year. Allied World Bermuda can redeem the senior notes prior to maturity, subject to payment of a “make-whole” premium; however, Allied World Bermuda currently has no intention of redeeming the notes.

In November 2010, Allied World Bermuda issued \$300.0 million aggregate principal amount of 5.50% senior notes due November 1, 2020, with interest payable May 15 and November 15 each year, commencing May 15, 2011. Allied World Bermuda can redeem the senior notes prior to maturity, subject to payment of a “make-whole” premium; however, Allied World Bermuda currently has no intention of redeeming the notes.

The senior notes issued in 2006 and 2010 have been unconditionally and irrevocably guaranteed for the payment of the principal and interest by Holdings.

Allied World Assurance Company, AG entered into a 20-year mortgage commitment with a Swiss bank for a company-used office building in Zug, Switzerland. The total proceeds to be received under the mortgage are CHF 18.0 million with a fixed annual interest rate of 3.2% payable quarterly. The mortgage payments will be CHF 0.3 million per year, plus accrued interest, for the first 19 years with the remaining balance payable at the end of the

mortgage. We will receive the proceeds from the bank during the fourth quarter of 2014 at which time we will recognize the mortgage loan liability in our consolidated balance sheet.

Off-Balance Sheet Arrangements

As of June 30, 2014, we did not have any off-balance sheet arrangements.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We believe that we are principally exposed to three types of market risk: interest rate risk, credit risk and currency risk.

The fixed income securities in our investment portfolio are subject to interest rate risk and credit risk. Any changes in interest rates and credit spreads have a direct effect on the fair values of fixed income securities. As interest rates rise, the fair values fall, and vice versa. As credit spreads widen, the fair values fall, and vice versa.

In the table below changes in fair values as a result of changes in interest rates are determined by calculating hypothetical June 30, 2014 ending prices based on yields adjusted to reflect the hypothetical changes in interest rates, comparing such hypothetical ending prices to actual ending prices, and multiplying the difference by the principal amount of the security. The sensitivity analysis is based on estimates. The estimated changes of our fixed maturity investments and cash and cash equivalents are presented below and actual changes for interest rate shifts could differ significantly.

	Interest Rate Shift in Basis Points						
	-200	-100	-50	—	+50	+100	+200
	(\$ in millions)						
Total fair value	\$7,201.7	\$7,065.9	\$6,993.9	\$6,920.0	\$6,846.1	\$6,773.2	\$6,630.6
Fair value change from base	281.7	145.9	73.9	—	(73.9)	(146.8)	(289.4)
Change in unrealized appreciation/(depreciation)	4.1	% 2.1	% 1.1	% —	% (1.1)	% (2.1)	% (4.2)

In the table below changes in fair values as a result of changes in credit spreads are determined by calculating hypothetical June 30, 2014 ending prices adjusted to reflect the hypothetical changes in credit spreads, comparing such hypothetical ending prices to actual ending prices, and multiplying the difference by the principal amount of the security. The sensitivity analysis is based on estimates. The estimated changes of our non-cash, non-U.S. Treasury fixed maturity investments are presented below and actual changes in credit spreads could differ significantly.

	Credit Spread Shift in Basis Points						
	-200	-100	-50	—	+50	+100	+200
	(\$ in millions)						
Total fair value	\$5,318.3	\$5,208.4	\$5,153.5	\$5,098.5	\$5,043.5	\$4,988.6	\$4,878.7
Fair value change from base	219.8	109.9	55.0	—	(55.0)	(109.9)	(219.8)
Change in unrealized appreciation/(depreciation)	4.3	% 2.2	% 1.1	% —	% (1.1)	% (2.2)	% (4.3)

In addition to credit spread risk, our portfolio is also exposed to the risk of securities being downgraded or of issuers defaulting. In an effort to minimize this risk, our investment guidelines have been defined to ensure that the assets held are well diversified and are primarily high-quality securities.

Table of Contents

The following table shows the types of securities in our portfolio, their fair market values, average rating and portfolio percentage as of June 30, 2014.

	Fair Value June 30, 2014 (\$ in millions)	Average Rating	Portfolio Percentage	
Cash and cash equivalents	\$762.9	AAA	8.7	%
U.S. government securities	1,058.6	AA+	11.9	%
U.S. government agencies	215.7	AA+	2.5	%
Non-U.S. government and government agencies	185.1	AA+	2.1	%
State, municipalities and political subdivisions	261.3	AA-	3.0	%
Mortgage-backed securities ("MBS"):				
Agency MBS	659.0	AA+	7.5	%
Non-agency MBS	129.5	B+	1.5	%
Commercial MBS	535.3	BBB	6.1	%
Total mortgage-backed securities	1,323.8		15.1	%
Corporate securities:				
Financials	1,168.9	A	13.3	%
Industrials	1,167.5	BBB	13.3	%
Utilities	98.9	BBB+	1.1	%
Total corporate securities	2,435.3		27.7	%
Asset-backed securities:				
Credit cards	67.6	AAA	0.8	%
Auto receivables	11.2	AAA	0.1	%
Student Loans	154.9	AA+	1.8	%
Collateralized loan obligations	381.6	AA	4.3	%
Other	62.1	AAA	0.7	%
Total asset-backed securities	677.4		7.7	%
Other invested assets:				
Private equity	266.8	N/A	3.0	%
Hedge funds	505.2	N/A	5.7	%
Other private securities	128.1	N/A	1.5	%
High yield loan fund	32.5	N/A	0.4	%
Total other invested assets	932.6		10.6	%
Equities	938.1	N/A	10.7	%
Total investment portfolio	\$8,790.8		100.0	%

As of June 30, 2014, we held \$6.2 billion of fixed income securities. Of those assets, approximately 88.3% were rated investment grade (Baa3/BBB- or higher) with the remaining 11.7% rated in the below investment grade category. The average credit quality of the fixed maturity portfolios was A+ by Standard & Poor's.

Our agency pass-through mortgage-backed securities are exposed to prepayment risk, which occurs when holders of individual mortgages increase the frequency with which they prepay the outstanding principal before the maturity date to refinance at a lower interest rate cost. Given the proportion that these securities comprise of the overall portfolio, and the current interest rate environment and condition of the credit market, prepayment risk is not considered significant at this time.

Our non-agency commercial mortgage-backed securities are subject to the risk of non-payment due to increased levels of delinquencies, defaults and losses on commercial loans that cumulatively create shortfalls beyond the level of subordination in our specific securities.

As of June 30, 2014, we held investments in "other invested assets" with a carrying value of \$932.6 million. Included in other invested assets are private equity funds, hedge funds, other private securities and a high yield loan fund.

Investments in

Table of Contents

these types of assets involve certain risks related to, among other things, the illiquid nature of the fund shares, the limited operating history of these investments, as well as risks associated with the strategies employed by the managers of these investments. The funds' objectives are generally to seek attractive long-term returns with lower volatility by investing in a range of diversified investment strategies. As our reserves and capital continue to build, we may consider additional investments in these or other alternative investments.

As of June 30, 2014, our direct exposure to European credit across all of Europe was \$748.2 million as outlined in the table below and is included within "fixed maturity investments trading, at fair value" and "equity securities trading, at fair value" in the consolidated balance sheets. As of June 30, 2014, we had no direct sovereign exposure to Greece, Ireland, Italy, Portugal, Spain or Ukraine.

	June 30, 2014			
	Sovereign and Sovereign Guaranteed (\$ in millions)	Structured Products	Corporate Bonds and Equities	Total Exposure
Austria	\$—	\$—	\$0.1	\$0.1
Belgium	—	—	15.8	15.8
Denmark	—	—	2.0	2.0
Finland	—	—	1.2	1.2
France	—	0.9	207.4	208.3
Germany	31.8	—	21.1	52.9
Hungary	—	—	0.2	0.2
Ireland	—	5.2	1.5	6.7
Italy	—	—	5.4	5.4
Luxembourg	—	3.7	14.3	18.0
Netherlands	34.3	0.8	79.9	115.0
Norway	—	—	24.7	24.7
Poland	—	—	0.7	0.7
Portugal	—	—	0.7	0.7
Spain	—	—	17.8	17.8
Sweden	—	—	45.7	45.7
Switzerland	2.3	—	43.6	45.9
United Kingdom	27.3	4.2	155.7	187.2
Total exposure	\$95.7	\$14.8	\$637.7	\$748.2

The U.S. dollar is our reporting currency and the functional currency of all of our operating subsidiaries. However, we enter into insurance and reinsurance contracts where the premiums receivable and losses payable are denominated in currencies other than the U.S. dollar. In addition, we maintain a portion of our investments and liabilities in currencies other than the U.S. dollar, primarily Euro, British Sterling, Swiss Franc and the Canadian dollar. Receivables in non-U.S. currencies are generally converted into U.S. dollars at the time of receipt. When we incur a liability in a non-U.S. currency, we carry such liability on our books in the original currency. These liabilities are converted from the non-U.S. currency to U.S. dollars at the time of payment. As a result, we have an exposure to foreign currency risk resulting from fluctuations in exchange rates. We utilize a hedging strategy to minimize the potential loss of value caused by currency fluctuations by using foreign currency forward contract derivatives that expire in 90 days from purchase.

As of June 30, 2014 and December 31, 2013, approximately 4.3% and 2.3%, respectively, of our total investments and cash and cash equivalents were denominated in currencies other than the U.S. dollar. Of our business written during the six months ended June 30, 2014 and 2013, approximately 14% and 11%, respectively, was written in currencies other than the U.S. dollar.

Item 4. Controls and Procedures.

In connection with the preparation of this quarterly report, our management has performed an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and

70

Table of Contents

procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”)) as of June 30, 2014. Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by SEC rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow for timely decisions regarding required disclosures. Based on their evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2014, our Company’s disclosure controls and procedures were effective to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by SEC rules and forms and accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosures.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide an absolute assurance that all control issues and instances of fraud, if any, within our Company have been detected.

No changes were made in our internal controls over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f), during the quarter ended June 30, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings.

The Company, in common with the insurance industry in general, is subject to litigation and arbitration in the normal course of its business. These legal proceedings generally relate to claims asserted by or against the Company in the ordinary course of insurance or reinsurance operations. Estimated amounts payable under these proceedings are included in the reserve for losses and loss expenses in the Company’s consolidated balance sheets. As of June 30, 2014, the Company was not a party to any material legal proceedings arising outside the ordinary course of business that management believes will have a material adverse effect on the Company’s results of operations, financial position or cash flow.

Item 1A. Risk Factors.

Our business is subject to a number of risks, including those identified in Item 1A. of Part I of our 2013 Form 10-K, that could have a material adverse effect on our business, results of operations, financial condition and/or liquidity and that could cause our operating results to vary significantly from period to period. There have been no material changes to the risk factors described in our 2013 Form 10-K. The risks described in our 2013 Form 10-K are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also could have a material adverse effect on our business, results of operations, financial condition and/or liquidity.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) The following table summarizes our repurchases of our common shares during the three months ended June 30, 2014:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Dollar Value (or Approximate Dollar Value) of Shares that May Yet be Purchased Under the Plans or Programs
April 1 - 30 2014	690,000	\$34.76	690,000	\$142.9 million
May 1 - 31, 2014	630,000	36.79	630,000	477.9 million
June 1 - 30, 2014	629,496	37.65	629,496	454.2 million
Total	1,949,496	\$36.36	1,949,496	\$454.2 million(1)

(1) At the 2014 Annual Shareholder Meeting on May 1, 2014, Holdings' shareholders approved a new, two-year \$500 million share repurchase program. The new share repurchase program superseded the 2012 share repurchase program effective May 1, 2014. Share repurchases may be effected from time to time through open market purchases, privately negotiated transactions, tender offers or otherwise.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.
