RISK FACTORS

Any investment in shares of Amanda's common stock involves a high degree of risk. You should carefully consider the following information about these risks, together with the other information contained in this prospectus, before you decide to buy Amanda's common stock. If any of the following risks actually occur, Amanda's business would likely suffer. In these circumstances, the market price of Amanda's common stock could decline, and you may lose all or part of the money you paid to buy Amanda's common stock.

RISKS RELATING TO OUR BUSINESS:

AMANDA HAS SUSTAINED CONTINUING LOSSES MAKING IT A RISKY INVESTMENT.

Amanda's continued losses and working capital deficiency makes any investment in Amanda at risk of being lost. Amanda incurred a loss in fiscal 2001 of \$1,556,747 and a loss \$2,398,189 in fiscal 2000 plus a loss of \$1,013,881 for the quarter ended December 31, 2001 and a \$626,103 for December 31, 2000. Amanda does not anticipate realizing a profit during the next fiscal year. Our September 30, 2001 consolidated financial statements highlight that we have a working capital deficiency of \$3,524,044 at September 30, 2001 and \$2,995,556 at December 31, 2001, plus recurring losses from operations raise substantial doubt about our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this activity.

Here is a list of some of the factors that may affect the future profitability of our business:

Edgar Filing: AMANDA CO INC - Form SB-2

- Overall economic conditions of the small and medium B2B segment;
- Fiscal health of our distribution channels;
- Competitive pricing.

AMANDA MAY NOT BE ABLE TO OBTAIN SUFFICIENT CAPITAL TO FUND OPERATIONS AND, AS A RESULT, AMANDA WILL CUT BACK OR DISCONTINUE OPERATIONS.

Amanda will need significant additional capital in the near future and may be unable to obtain such funding. If adequate funds are not available, we may be required to cut back on one or more of our production locations, sales, marketing or distribution programs or plans; or reduce operating expenses, or attempt to obtain funds through strategic alliances that may require us to relinquish rights to our technologies or products.

Our future capital requirements will depend on many factors, including:

- The progress of production of product, sales, marketing and distribution efforts;
- The timely entrance of new integrated products to market;
- The market acceptance of our products;
- Our service capacity.

In addition, future financing may be increasingly difficult to obtain due to such factors as our unfavorable operating history and results, the level of risk associated with our business and business plans, increases in our vulnerability to general economic conditions, and increased stockholder dilution. Debt financing, if available, may have several negative effects on our future operations, including:

- a portion of our cash flow from operations will be dedicated to payment of principal and interest and this would reduce the funds available for operations and capital expenditures;
- increased debt burdens will substantially increase our vulnerability to adverse changes in general economic and competitive conditions; and
- we may be subject to restrictive debt covenants and other conditions in our debt instruments that may limit our capital expenditures, limit our expansion or future acquisitions, and restrict our ability to pursue our business strategies.

COMPETITION FROM VOICE MESSAGING COMPANIES WITH SUBSTANTIALLY GREATER ASSETS MAY LIMIT AMANDA'S ABILITY TO GROW.

Some of our competitors are:

- Cisco Systems
- Avaya
- NEC
- Voicegate
- Nortel

We will be competing for customers with other voice messaging companies, many of which have substantially greater assets and resources than we have. Additionally, major companies presently dominate the voice messaging industry

Edgar Filing: AMANDA CO INC - Form SB-2

and have long-standing distribution and marketing relationships, which may operate to the disadvantage of Amanda and could adversely affect our business and future operating results.

IF AMANDA DEFAULTS IN ONE OF THE CONDITIONS TO THE DEBENTURE AGREEMENT, AT THE NOTE HOLDER'S OPTION, THE FULL PRINCIPAL AMOUNT OF THE DEBENTURE(S) TOGETHER WITH INTEREST AND OTHER AMOUNTS OWING MAY BECOME IMMEDIATELY DUE AND PAYABLE IN CASH. IF THIS EVENT WERE TO OCCUR, IT WOULD PROBABLY RESULT IN THE SHUT DOWN OF AMANDA'S OPERATIONS.

- Amanda would be in default if any one of the following occurs:
- (i) failure in making a payment of the principal and interest;
 - (ii) files for bankruptcy or insolvency
 - (iii) defaults in any of its other debt obligations;
 - (iv) Amandas Common Stock shall not be eligible for quotation and trading on the OTC Bulletin Board;
 - (v) Amanda sells or disposes all or in excess of 33% of its assets in one or more transactions;
 - (vi) this registration statement shall not have been declared effective by the Commission on or prior to May 9, 2002 (see exhibit 10.22).
 - (vii) if the effectiveness of the Underlying Shares Registration Statement lapses;
 - (viii) the Company shall fail to deliver certificates to a Holder within three days of conversion request.

We are presently in compliance with all conditions of the debenture agreement and anticipate that we will stay in compliance with the conditions while this prospectus is in use.

WE HAVE A "GOING-CONCERN QUALIFICATION" IN OUR CERTIFYING ACCOUNTANT'S FINANCIAL STATEMENT REPORT, WHICH MAY MAKE CAPITAL RAISING MORE DIFFICULT AND MAY REQUIRE US TO SCALE BACK OR CEASE OPERATIONS.

The report of our auditors includes a going concern qualification which indicates an absence of obvious or reasonably assured sources of future funding that will be required by us to maintain ongoing operations. To date we have successfully funded Amanda by attracting additional issues of debt. We believe that our ongoing efforts will continue to successfully fund operations until positive cash flow is attained. However, there is no guarantee that our efforts will be able to attract additional necessary equity and/or debt investors. If we are unable to obtain this additional funding, we may not be able to continue operations. Additionally, we have a net worth deficit as of our latest balance sheet date. This deficit indicates that we will be unable to meet our future obligations unless additional funding sources are obtained. To date we have been able to obtain funding and meet our obligations in a reasonably timely manner. However, if in the future we are unsuccessful in attracting new sources of funding then we will be unable to continue in business.

Amanda's expenses for fiscal year 2001 ran approximately \$170,000 a month with cash outflows of approximately \$150,000 a month. A temporary reduction in operations would lower the expenses, however, cash outflow would still remain approximately \$50,000 to \$75,000 a month. Absent a plan to obtain the necessary funds to maintain Amanda during a temporary shutdown, Amanda would have to terminate all operations.

RISKS RELATING TO OUR STOCK:

THERE ARE A LARGE NUMBER OF SHARES UNDERLYING OUR CONVERTIBLE NOTES AND WARRANTS

Edgar Filing: AMANDA CO INC - Form SB-2

THAT MAY BE AVAILABLE FOR FUTURE SALE AND THE SALE OF THESE SHARES MAY DEPRESS THE MARKET PRICE OF OUR COMMON STOCK AND MAY CAUSE SUBSTANTIAL DILUTION TO OUR EXISTING STOCKHOLDERS.

As of February 28, 2002, we had 34,921,976 shares of common stock issued and outstanding, notes outstanding and future notes that are convertible into 98,500,000 shares of common stock at current market prices, and outstanding warrants to purchase 3,494,339 shares of common stock. In addition, the number of shares of common stock issuable upon conversion of the outstanding convertible notes and debentures may increase if the market price of our stock declines. All of the shares, including all of the shares issuable upon conversion of the notes and debentures and upon exercise of our warrants, may be sold without restriction. The sale of these shares may adversely affect the market price of our common stock. The issuance of shares upon conversion of the convertible notes and debentures and exercise of outstanding warrants will also cause immediate and substantial dilution to our existing stockholders and may make it difficult to obtain additional capital.

The following gives examples of the number of shares that would be issued if all the debentures were converted at one time at prices representing 70%, 66.67% and 25% of the current market price (assuming a market price of \$0.02):

- 70% of current stock price:

Amanda's stock converted at 70% of current stock price would result in a debenture conversion rate of \$.014 cents. To convert the \$1,970,000 of convertible debentures would require 140,714,287 shares of Amanda's common stock, or 402% of Amanda's current outstanding shares.

- 66.67% of current stock price:

Amanda's stock converted at 66.67% of current stock price would result in a debenture conversion rate of \$.013 cents. To convert the \$1,970,000 of convertible debentures would require 151,538,462 shares of Amanda's common stock, or 434% of Amanda's current outstanding shares.

- 25% of current stock price

Amanda's stock converted at 25% of current stock price would result in a debenture conversion rate of \$.005 cents. To convert the \$1,970,000 of convertible debentures would require 394,000,000 shares of Amanda's common stock, or 1128% of Amanda's current outstanding shares.

A drop in stock price of greater than 50% would require Amanda to register more shares to provide for the conversion of these convertible debentures.

In addition, Amanda will be issuing an additional 35,429,951 shares of common stock to the tAA share holders pursuant to the Merger Agreement.

AMANDA'S OVERHANG AFFECT OF THE SELLING SHAREHOLDERS RESALE OF THEIR SECURITIES ON THE MARKET COULD RESULT IN LOWER STOCK PRICES WHEN CONVERTED

Overhang can translate into a potential decrease in Amanda's market price per share. The common stock underlying unconverted debentures represents overhang. These debentures are converted into common stock at a discount to the market price providing the debenture holder the ability to sell his or her stock at or below market and still make a profit. If the share volume cannot absorb the discounted shares, Amanda's market price per share will likely decrease. As the market price decrease, each subsequent conversion will require a larger quantity of shares.

Edgar Filing: AMANDA CO INC - Form SB-2

Currently Amanda has reserved up to from 150% to 200% of the estimated maximum number of shares of common stock which would be issuable upon conversion in full of the debentures, amounting to 193,158,330 shares of authorized and unissued common stock. These reserve amounts are our good faith estimate of the number of shares that we believe we need to reserve. We can provide no assurance as to how many shares we will ultimately need to issue upon the conversion of the debentures. If we are required to issue more shares than are currently reserved, we will be required to file an additional registration statement for those shares.

SHORT SELLING COMMON STOCK BY WARRANT AND DEBENTURE HOLDERS MAY DRIVE DOWN THE MARKET PRICE OF OUR STOCK.

Warrant and debenture holders may sell shares of Amanda's common stock on the market before exercising the warrant or converting the debenture. The stock is usually offered at or below market since the warrant and debenture holders receive stock at a discount to market. Once the sale is completed the holders exercise or convert a like dollar amount of shares. If the stock sale lowered the market price, upon exercise or conversion, the holders would receive a greater number of shares than they would have absent the short sale. This pattern may result in the spiraling down of our stock's market price.

AMANDA'S COMMON STOCK IS SUBJECT TO THE "PENNY STOCK" RULES OF THE SEC AND THE TRADING MARKET IN OUR SECURITIES IS LIMITED, WHICH MAKES TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

Our shares of Common Stock are "penny stocks" as defined in the Exchange Act, which are traded in the over-the-counter market on the OTC Bulletin Board. As a result, an investor may find it more difficult to dispose of or obtain accurate quotations as to the price of the shares of the Common Stock being registered hereby. In addition, the "penny stock" rules adopted by the Commission under the Exchange Act subject the sale of the shares of the Common Stock to certain regulations which impose sales practice requirements on broker-dealers. For example, broker-dealers selling such securities must, prior to effecting the transaction, provide their customers with a document that discloses the risks of investing in such securities. Included in this document are the following:

- The bid and offer price quotes for the penny stock and the number of shares to which the quoted prices apply.
- The brokerage firm's compensation for the trade.
- The compensation received by the brokerages firm's salesperson for the trade.

In addition, the brokerage firm must send the investor:

- Monthly account statement that gives an estimate of the value of each penny stock in your account.
- A written statement of your financial situation and investment goals.

Legal remedies which may be available to you are as follows:

- If penny stocks are sold to you in violation of your rights listed above, or other federal or state securities laws, you may be able to cancel your purchase and get your money back.
- If the stocks are sold in a fraudulent manner, you may be able to sue the persons and firms that caused the fraud for damages.
- If you have signed an arbitration agreement, however, you may have to pursue your claim through arbitration.

Edgar Filing: AMANDA CO INC - Form SB-2

If the person purchasing the securities is someone other than an accredited investor or an established customer of the broker-dealer, the broker-dealer must also approve the potential customer's account by obtaining information concerning the customer's financial situation, investment experience and investment objectives. The broker-dealer must also make a determination whether the transaction is suitable for the customer and whether the customer has sufficient knowledge and experience in financial matters to be reasonably expected to be capable of evaluating the risk of transactions in such securities. Accordingly, the Commission's rules may limit the number of potential purchasers of the shares of the Common Stock.

RESALE RESTRICTIONS ON TRANSFERRING "PENNY STOCKS" ARE SOMETIMES IMPOSED BY SOME STATES, WHICH MAY MAKE TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

Various state securities laws impose restrictions on transferring "penny stocks" and as a result, investors in the Common Stock may have their ability to sell their shares of the Common Stock impaired. For example, the Utah Securities Commission prohibits brokers from soliciting buyers for "penny stocks", which makes selling them more difficult.

USE OF PROCEEDS

Amanda will not receive any of the proceeds from the sale of the shares of common stock offered by the selling stockholders under this prospectus. If all warrants, being registered, to purchase the shares of common stock offered for

Edgar Filing: AMANDA CO INC - Form SB-2

resale in this offering were exercised, Amanda would receive aggregate gross proceeds of approximately \$69,887. Since all the warrants are currently out of the money, it is not anticipated that these funds will be made available anytime in the near future.

The proceeds, if any, that Amanda receives from the exercise of warrants will be used for working capital in support of growing the business.

The foregoing represents Amanda's current best estimate of our use of the proceeds derived from the exercise of the warrants to purchase the shares of common stock offered in this prospectus, if any, based upon our present plans, the state of our business operations and current conditions in the industry in which we operate. Amanda reserves the right to change the use of the proceeds if unanticipated developments in our business, business opportunities, or changes in economic, regulatory or competitive conditions, make shifts in the allocations of proceeds necessary or desirable.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

Plan of Operation

The short-term objectives of Amanda are the following:

1. Regain profitability through product cost restructuring, pricing changes and simplification of products.
2. Gain market share with Mini SOHO (small office, home office) and Portal (recently launched products),
3. Develop a new product that integrates our technologies with other ready to market technologies,
4. Reduce revenue product dependency on voice mail.

Amanda's long-term objectives are as follows:

1. Enhance revenue stream with recurring service revenues,
2. Develop products that will allow different communication devices work together,

Over the next twelve months, Management is of the opinion that sufficient working capital will be obtained from operations and external financing to meet the Company's liabilities and commitments as they become payable. The Company has in the past successfully relied on private placements of common stock securities, bank debt, loans from private investors and the exercise of common stock warrants in order to sustain operations. A recent financing has been obtained and the underlying shares are being registered in this registration statement (see "Selling shareholders" and "Recent financing" on page 27).

There is no expected or planned sale of significant equipment by the Company. The Company's work force is expected to remain at the current level over the next twelve months.

period in the prior year. The Company believes that the economic after effect of September 11, 2001 was the main factor for the decline in revenues.

Cost of sales. Cost of sales for the three-month period ended December 31, 2001 of \$488,694 decreased \$187,479 or 28% from 676,173 for the same period prior year. Cost of sales as a percentage of net sales decreased to 54% of net sales as compared to 62% for the same period in the prior year. The decrease on Cost of sales resulted from the increase in the shipment of higher gross profit margin products; along with a reduction in shipping costs due to improved inventory control and production processes.

Selling, general and administrative expenses. Selling, general and administrative expenses for the three-month period ended December 31, 2001 of \$556,940 decreased \$399,160 or approximately 42% from \$956,100 for the three month period ended December 31, 2000. The decrease is mainly due to the reduction in salaries, payroll taxes and related employee expenses resulting from a reduction in personnel, the relocating of operations of Pen Interconnect to the offices of the Automatic Answer, Inc. (tAA) in Irvine, CA, and the moving of The Automatic Answer Company's San Juan Capistrano, CA offices to Irvine, CA thereby reducing monthly rent expense and (3) the reduction of miscellaneous expenses as a result of the headcount reductions.

Other income and expenses: Interest expense for the quarter ended December 31, 2001 amounted to \$37,860 compared to \$71,494 for the same period prior year for a decrease of \$33,634. THE AMANDA COMPANY PROFORMA
YEAR ENDED SEPTEMBER 30, 2001 COMPARED TO YEAR ENDED SEPTEMBER 30, 2000

Net sales. Net sales for the Company decreased \$1,024,640 to \$3,990,679 for the period ending September 30, 2001 from \$5,015,319 from the period ending September 30, 2000, or approximately 20 percent. A slowdown in orders from Amanda's distributors resulted in the reduced sales. Our distributors claim to have experienced lower sales as a result of the economic conditions since September.

Cost of sales. Cost of sales of \$2,361,425 for the period ended September 30, 2001 decreased \$862,887 from \$3,224,312 or 27% from the same period prior year. As a percentage of net sales, Cost of sales decreased to 59% of net sales as compared to 64% for the same period in the prior year. The decrease in Cost of sales was mainly due to the reduction in shipping costs due to improved management of inventory purchases and shipments to customers.

Selling, general and administrative expenses. Selling, general and administrative expenses of \$3,284,560 for the period ending September 30, 2001 decreased by \$655,461 from \$3,940,021 or approximately 17% from the year ended September 30, 2000. The decrease is due to (1) the reduction in the number of employees, thereby reducing salaries, payroll taxes and other employee related expenses; (2) a reduction in travel and entertainment expenses due to the reduction in sales personnel, and (3) a decrease in miscellaneous expenses which are related to the headcount reductions.

Edgar Filing: AMANDA CO INC - Form SB-2

Interest expense. Interest expense of \$163,013 for the period ending September 30, 2001 decreased \$281,626 from the same period prior year due to the company's line of credit being terminated in the year ended September 30, 2000.

PEN INTERCONNECT ONLY

YEAR ENDED SEPTEMBER 30, 2001 COMPARED TO YEAR ENDED SEPTEMBER 30, 2000

Net sales and cost of sales: There were no sales from continuing operations for Pen Interconnect Inc., the years ended September 30, 2001 and 2000 due to its status as a shell company. All operating divisions were disposed of during 1999 and 2000, and all operating activity was reclassified as discontinued operations. Since March 2, 2000, the Company decided to maintain its situation as a reporting public company, and to reduce its debt in order to make the Company attractive to private companies that would want to use Pen to go public. This approach was designed to maintain shareholder value.

The Company did enter into a Letter of Intent to merge with a small private dot com company, perFORMplace.com, in the entertainment services business. A definitive agreement was signed in late August 2000 with the intent to obtain shareholder ratification at the next shareholders' meeting. However, on November 8, 2000, before the meeting could be held, perFORMplace.com terminated the merger. This caused a serious drop in the Company's stock price and the need to go back out to seek a new merger partner or acquisition.

The Company entered into an agreement to acquire shares of The Automatic Answer, Inc., a California company on April 10, 2001.

Operating Expenses: Since the foreclosure on the assets and the sale of its operating divisions, the operating costs of the Company have been kept to a minimum, with two employees and limited travel and expenses. As a result, general and administrative expenses decreased from \$1,733,596 to \$787,591, a net change of 55%.

Depreciation increased \$771 from 2000 to 2001. Most of the Company's fixed assets were disposed of during 2000 and the remainder in 2001.

Interest expense decreased \$315,147 during 2001, primarily due to the foreclosure of the assets of its InCirT division, and the resulting affect against the Company's line of credit. Interest expense of \$43,048 resulted predominantly from the issuance of convertible debentures.

The Company recorded during 2001, a \$320,500 loss from impairment due to the write-off of advances made to a merger candidate in 2000. In 2001, an additional amount of \$63,000 was recognized as a loss relating to the same event.

Other Income/Expenses: As part of the merger between the Company and tAA, the Company made several loans to tAA in 2001 totaling \$461,200. The loans were used to fund tAA's pre-merger operations. The merger was effective October 1, 2001 and these loans will be eliminated upon the consolidations of the two companies. The \$461,200 was expensed as acquisition expense.

The Company recorded a \$135,300 loss in FY 2000 from a lawsuit brought by a former executive of the Company.

Losses from discontinued operations decreased to \$497,827 in 2000 from \$5,695,148 in 1999. The Company disposed of two divisions during 1999 and the remaining two divisions early in 2000.

Losses on the disposal of the Company's two remaining operating divisions in 2000 was \$776,384.

Edgar Filing: AMANDA CO INC - Form SB-2

Extraordinary Income: The Company recorded a gain from extinguishments of debt of \$149,642 in 2001 and \$2,018,547 during 2000 resulting from the conversion of vendor payables to equity.

Net Loss and Loss Per Share: Net loss and loss per share. Net losses for the period ended September 30, 2001 of \$1,294,784 decreased \$596,415 or 31% from \$1,891,199 for the same period prior year. Decreased losses result from a reduction in operating expenses as the Company sought merger candidates.

LIQUIDITY AND CAPITAL RESOURCES

The Company's revenues have been insufficient to cover the cost of revenues and operating expenses. Therefore, the Company has been dependent on private placements of its common stock and issuance of convertible notes in order to sustain operations. In addition, there can be no assurances that the proceeds from private or other capital will continue to be available, or that revenues will increase to meet the Company's cash needs, or that a sufficient amount of the Company's common stock or other securities can or will be sold or that any common stock purchase options/warrants will be exercised to fund the operating needs of the Company.

THE AMANDA COMPANY

DECEMBER 31, 2001

During the first three months of FY 2001 the Company sustained losses of \$1,013,881. As a result of these losses the Company raised additional working capital through the issuance of Convertible Debentures (\$100,000) and Convertible Promissory Notes (\$450,000).

Net cash used (generated) in operating activities for the three months ended December 30, 2001 and 2000 was \$416,412 and 251,530 respectively. The change in cash from operating activities of \$164,882 was principally due to the increase in the net loss for the 2001 first three months of \$387,778, plus a decrease in accounts payable of \$251,491, a decrease in prepaid and other assets of \$104,404, a decrease in accrued expenses of \$128,864 and an increase in accounts receivable of \$184,861, offset by an increase in common stock issued for compensation of \$1,031,707 and by changes in operating assets and liabilities.

Net cash used in investing activities was \$0 and \$100,020 for the three months ended December 31, 2001 and 2000 respectively, reflecting a change of \$100,020. This change is due to no the closing of advances and the closing out of a notes receivable.

Net cash provided by financing activities was \$449,266 and \$338,288 for the three months ended December 31, 2001 and 2000, respectively, reflecting a change of \$110,978. This increase was principally due to proceeds received from the issuance of convertible debentures by Amanda

FISCAL YEARS ENDING SEPTEMBER 30, 2001 AND SEPTEMBER 31, 2000 - PROFORMA

During the fiscal year ended September 30, 2001, the Company sustained losses of \$1,556,747. As a result of these losses the Company raised additional working capital through the exercise of warrants (\$483,861) and the issuance of Convertible Debentures (\$650,000).

Edgar Filing: AMANDA CO INC - Form SB-2

THE AMANDA COMPANY (FORMERLY PEN INTERCONNECT)

FISCAL YEARS ENDING SEPTEMBER 30, 2001 AND SEPTEMBER 31, 2000

Amanda had negative working capital at September 30, 2001 of \$2,377,692 compared to negative working capital of \$1,977,914 at September 30, 2000 for a decrease in working capital of \$399,778. The decrease is due to the raising of additional capital through the issuance of convertible debentures which allowed the company to have sufficient working capital to pay salaries, office rent and other expenses while the company looked for a merger partner.

During fiscal 2001 Amanda continued to experience cash flow problems. For most of fiscal 2000, the market price of Amanda's stock was sufficient to raise additional funds to support the negative cash flow from operations. Amanda's stock price has continued to decline since Amanda's securities were de-listed from the NASDAQ National Market in March of 1999.

In March 2000, because of Amanda's inability to clear the default notice, our bank, Finova Capital caused a pre-packaged foreclosure of all of Amanda's assets, including the take-over of our largest division, InCirt, which was subsequently sold to ADTI, a subsidiary of Comtel Holdings, Inc. Since that time, Amanda has maintained its' fully reporting public status and sought a new asset/company that would benefit from a merger with a public company.

Additional capital infusions will be necessary if the Company is to continue its' Operations. The investors which purchased the preferred stock in FY99 have been willing to continue limited funding to assist the Company. There is no guarantee that this will continue for any sustained period. If Amanda cannot raise additional funding, Amanda will have to seek bankruptcy protection.

In February 2000, Amanda sold its' PowerStream division to Lund Engineering or Orem, Utah for cash and notes. Lund took over the assets and debt of PowerStream which paid off its' obligations to Finova, which also owns the note through its' foreclosure actions.

In September 1999, Amanda completed the sale of the MotoSat division to a company controlled by James Pendleton, Amanda's former Chairman and CEO. The sale did not generate cash proceeds but eliminated monthly operating losses associated with MotoSat. All assets and liabilities of the MotoSat division were transferred to Mr. Pendleton's company in exchange for Mr. Pendleton's agreement to waive any claim to post employment, deferred compensation or retirement benefits. The transfer of the MotoSat division to Mr. Pendleton resulted in a loss to the Company of approximately \$68,000.

OUR BUSINESS

The Amanda Company ("Amanda") is located at 13765 Alton Parkway, phone (949) 859-6279 and is a Utah Corporation. On October 1, 2001, The Amanda Company, formerly known as Pen Interconnect, Inc. ("Pen"), merged with The Automatic Answer, Inc. ("tAA") and changed its name to The Amanda Company, Inc. The transaction was accounted for as a reverse merger with tAA as the surviving entity. Amanda, prior to the merger, was a shell company with no operations.

Amanda is a technology company with its primary focus in voice-processing. Amanda's principal product is a voice messaging system that functions from the client's server using software that works primarily with Microsoft's Windows operating systems. Amanda's voicemail system uses the worldwide public switched telephone network ("PSTN") and both Intranet and Internet computer based technologies which allows communication content to flow through a telephone network and the internet.

General History

In October of 1999 the Company received notice from its primary lender (Finova) that they were placing the Company's loan in default status for non-compliance with loan covenants as a result of one of our major customers going into receivership and leaving Amanda with over \$1.5 million in accounts receivable and inventory. The Company was originally given until December 18, 1999 to pay off the loan balance. (Note, the balance due Finova was paid off November 26, 2001).

In February 2000, Amanda sold its' PowersStream division to Lund Engineering of Orem, Utah for cash and notes and used the proceeds to pay off PowerStream's obligations to Finova.

Finova then extended the deadline to pay the default to February 28, 2000, provided no other lending arrangements or definitive agreements to sell the Company or any of its divisions were made. In March 2000, Finova caused a foreclosure of all of Amanda' assets as a result of the default notice not being satisfied, which caused Amanda to shut down operations.

Edgar Filing: AMANDA CO INC - Form SB-2

In May 2001, the Company and Finova reached a settlement agreement, for \$150,000 over time in payments of \$10,000, issue 250,000 shares of Amanda's Common Stock and modify the strike price on 375,000 warrants to One Tenth of One Cent (\$0.001) in exchange of the return to the Company of certain assets which do not have significant value as of the current date. Finova was paid off on November 26, 2001. The expiration date for such warrants shall remain September 4, 2004

Additionally, during the last six (6) months of FY 2000, Amanda reduced its debt through a stock for debt program with its vendors. Seventy-six (76) percent of the vendors agreed to the program, thus reducing Amanda's outstanding vendor debt from \$3.2 million to \$689,541. Amanda issued 761,747 shares of restricted common stock pursuant to this program. In FY 2001 Amanda issued 10,178 shares of common stock to pay vendor debt of \$25,390.

Edgar Filing: AMANDA CO INC - Form SB-2

Amanda currently has a network of 650 dealers that resell the Amanda line of products to the small business market and four distribution houses strategically located in the country serving more than 25,000 independent dealers.

Our approach to market is through indirect distribution supported by a National Inside Sales and Technical Support Call Center located in Danbury, Connecticut, which handles both the domestic and international markets.

Short Term Objectives

- Regain profitability through product cost restructuring, pricing changes and simplification of products.
- Gain market share with Mini SOHO and Portal (recently launched products),
- Develop a new product that integrates our technologies with other ready to market technologies,
- Reduce revenue product dependency on voice mail.

Long Term Objectives

- Enhance revenue stream with recurring service revenues,
- Develop products that will allow different communication devices work together.

Strategic Vision

Key to Amanda's business in the future is the following:

- Transition of Amanda's product strength away from PBX and Key Systems that is a declining market to products that bring together PSTN and IP network capabilities. Amanda's Microsoft DOS based product line still has a demand for new shipments and field replacements, which represents the bulk of Amanda sales. However, the Amanda Portal is capable of generating new revenues as a product that can bring together and create new applications for PSTN and IP network capabilities.
- Sustaining and increasing our National Certified Dealer network (650 plus dealers) and our Wholesale-Distribution (Reaching over 25,000 independent dealers) to take our products to market.
- Entering international markets through partnerships to create high margin opportunities while minimizing our exposure.
- Identify and distribute related products manufactured by third parties through our current distribution network that yield profitable gross margins.
- Implement the integration of other technologies with our Amanda Portal in order to create new need products.

Sales by Geographic Area

Ninety-five percent (95%) of our sales come from the domestic market and five percent from International areas. Of the domestic market 98% of sales are to dealers and 2% to OEM entities who utilize our software for their own brands. 35% of sales are shipped to dealers in the western states, 30% to the eastern states, 25% to the southern states and 10% to the Great Lakes states.

Edgar Filing: AMANDA CO INC - Form SB-2

Competition

There are several small businesses that provide similar products, however, our traditional competition has been acquired by larger entities, such as, Active Voice was acquired by Nippon Electric Corporation (NEC), Centigram was acquired by Mitel of Canada, Octel and VMX was acquired by Avaya/Lucent/AT&T.

Other manufacturers are building voicemail capabilities internal to their products such as Panasonic, Intertel, Mitel, etc. Other competitors are manufacturers such as Toshiba and Cisco. Most of the large competitors target the Fortune 1000 companies, which leaves the small to medium size business as our main target.

Suppliers

Our main suppliers are Brooktrout Technologies (voice processing cards), BICOM, Inc. (voicemail platforms), Central Technology of Texas (PC platforms), and Aleen Technologies (voicemail systems).

- Purchases by a broker-dealer as principal and resale by the broker-dealer for its own account.
- An exchange distribution following the rules of the applicable exchange
- Privately negotiated transactions

REPORT OF INDEPENDENT AUDITORS

Board of Directors
Pen Interconnect, Inc.
Irvine, California

We have audited the accompanying balance sheets of Pen Interconnect, Inc., a Utah Corporation, as of September 30, 2001 and 2000, and the related statements of operations, stockholders' deficit, and cash flows for the years then ended. These financial statements are the responsibility of the management of Pen Interconnect, Inc. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Pen Interconnect, Inc. as of September 30, 2001 and 2000, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has suffered recurring losses from operations. The Company has a stockholders' deficit of (\$2,313,110) and (\$1,977,041) and its current liabilities exceeded its current assets by \$817,888 and \$972,729 as of September 30, 2001 and 2000, respectively. These factors, among others, as

Edgar Filing: AMANDA CO INC - Form SB-2

discussed in Note 2 to the financial statements, raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

Organization

Pen Interconnect, Inc. ("the Company" or "Pen") was incorporated on September 30, 1985, in the State of Utah. Through March 3, 2000, the date of foreclosure of its last operating division, the Company was a total interconnection solution provider offering custom design and manufacturing of circuit boards, battery chargers, power supplies and uninterrupted power supply systems for original equipment manufacturers. Most of the Company's sales, before the closure of its operating divisions, consisted of printed circuit boards.

Edgar Filing: AMANDA CO INC - Form SB-2

The Company experienced severe cash flow problems for several years and in an attempt to satisfy the demands of its creditors, sold three of its operating divisions, noted as follows:

DIVISION NAME	DATE SOLD
Cable Davison	January 31, 1999
MOTO-SAT	September 30, 1999
Powerstream	January 21, 2000

On March 3, 2000 the Company and its secured asset based lender, Finova Capital, entered into a voluntary foreclosure in which all the assets in the Company's last remaining division, InCirt, was transferred to Finova to satisfy the revolving credit and term loans held by the bank. In a subsequent agreement, dated May 31, 2001 Finova Capital and Pen Interconnect agreed to a final settlement of all claims between them.

During the second quarter of FY2000, the Company announced a change in its strategic direction and began seeking merger candidates with new technologies. On March 29, 2000, the Company announced the signing of a letter of intent to acquire perFORMplace.com, a privately held Internet provider of electronic business-to-business services to the entertainment industry. On November 11, 2000, perFORMplace.com informed the Company that it had decided not to pursue the merger.

The Company subsequently signed a merger agreement with the The Automatic Answer, Inc. ("tAA"). tAA, a distributor of voice mail systems, has developed a client service based software products that are used in a Microsoft Window's environment. The Company's products include voice mail, automated attendant, call control, messaging and voice over Internet. The merger with tAA was effective October 1, 2001.

Basis of Presentation

The financial statements include the corporate operations of Pen Interconnect as continuing operations. All the remaining activity from the Company's prior operating divisions, including Cable, MOTO SAT, Powerstream and InCirt have been disclosed as discontinued operations in the financial statements for the years ended September 30, 2000 and 2001. During 2001, activity from discontinued operations was limited to the settlement of accounts payable.

The accompanying notes are an integral part of these financial statements

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

Basis of Presentation (continued)

Transactions related to the October 1, 2001 merger with tAA consist solely of advances from the Company to tAA to cover tAA's operating expenses during the pre-merger period. These advances have been expensed as acquisition expense.

Cash, Cash Equivalents and Short-Term Investments

The Company considers cash on hand, cash in banks, certificates of deposits and time deposits with original maturities of three months or less when purchased as

Edgar Filing: AMANDA CO INC - Form SB-2

cash equivalents. Short-term investments are investments with original maturity greater than ninety days and less than one year.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for additions and major improvements are capitalized. Expenditures for repairs and maintenance and minor improvements are charged to expense as incurred. Gains or losses from retirements and disposals are recorded as other income or expense.

Property and equipment are depreciated over their estimated useful lives. Leasehold improvements and assets financed under capital leases are amortized over their estimated useful lives or the lease term, whichever is shorter. Depreciation and amortization are calculated using straight-line and accelerated methods over the following estimated useful lives:

	Years

Production equipment	5-6
Furniture and fixtures	10
Transportation equipment	10
Leasehold improvements	5

The accompanying notes are an integral part of these financial statements

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

INCOME TAXES

The Company utilizes the liability method of accounting for income taxes. Under the liability method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. An allowance against deferred tax assets is recorded when it is more likely than not that such tax benefits will not be realized.

Financial Instruments

Cash and cash equivalents, trade accounts payable, and accrued liabilities are reflected in the financial statements at cost that approximates fair value.

Stock-Based Compensation

The Company accounts for its stock-based compensation plan based on Accounting Principles Board ("APB") Opinion No. 25. In October 1995, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123, "Accounting for Stock-Based Compensation." The Company has determined that it will not change to the fair value method and will continue to use APB Opinion No. 25 for measurement and recognition of any expense related to employee stock based transactions.

In March 2000, the FASB released Interpretation No.44, " Accounting for Certain Transactions Involving Stock Compensation." This Interpretation addresses certain practice issues related to APE Opinion No.25. The provisions of this Interpretation are effective July 1, 2000, and except for specific transactions noted in paragraphs 94-96 of this Interpretation, shall be applied prospectively to new awards, exchanges of awards in business combinations, modifications to an

Edgar Filing: AMANDA CO INC - Form SB-2

outstanding award, and exchanges in grantee status that occur on or after that date.

Certain events and practices covered in this Interpretation have different application dates, and events that occur after an application date but prior to July 1, 2000, shall be recognized only on a prospective basis. Accordingly, no adjustment shall be made upon initial application of the Interpretation to financial statements for periods prior to July 1, 2000. Thus, any compensation cost measured upon initial application of this Interpretation that is attributed to periods prior to July 1, 2000 shall not be recognized. The Company has adopted the provisions of this Interpretation starting July 1, 2000.

The accompanying notes are an integral part of these financial statements

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

Comprehensive Income

The Company adopted Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" ("SFAS 130") which establishes standards for reporting and display of changes in equity from non-owner sources in the financial statements. The Company does not have any components of comprehensive income in 2001 or 2000.

Valuation of Long-lived Assets

The Company periodically evaluates the carrying value of long-lived assets to be held and used, including intangible assets, when events and circumstances warrant such a review. The carrying value of a long-lived asset is considered impaired when the anticipated discounted cash flow from such asset is separately identifiable and is less than its carrying value. In that event, a loss is recognized based on the amount by which the carrying value exceeds the fair market value of the long-lived asset. Fair market value is determined primarily using the anticipated cash flows discounted at a rate commensurate with the risk involved. Losses on long-lived assets to be disposed of are determined in a similar manner, except that fair market values are reduced for the cost to dispose.

FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS No. 107, "Disclosure About Fair Value of Financial Instruments," requires certain disclosures regarding the fair value of financial instruments. Cash and cash equivalents, accounts receivable, accounts payable and accrued liabilities are reflected in the financial statements at fair value because of the short-term maturity of these instruments. Because of the unique aspects of the subordinated debentures and long-term debt, fair values cannot readily be determined.

Revenue Recognition

Sales are generally recorded when products are shipped or when services are rendered.

Estimates

The preparation of the financial statements in conformity with accounting

Edgar Filing: AMANDA CO INC - Form SB-2

principles generally accepted in the United States of America necessarily requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates include allowance for doubtful accounts, inventory obsolescence, estimated lives for fixed assets, goodwill and intangibles, the liabilities posed by lawsuits and collection of contingent assets. Actual results could differ from these estimates.

Advertising

The Company did not incur any significant amount of advertising expenses.

Earnings per share

Basic earnings per common share are computed using the weighted average number of common shares outstanding during the period.

Diluted earnings per common share incorporate the incremental shares issuable upon the assumed exercise of stock options and warrants.

Certain of The Company's stock options were excluded from the calculation of diluted earnings per share because they were antidilutive, but these options could be dilutive in the future.

Segment and geographic information

The Company has adopted SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information." SFAS 131 requires enterprises to report information about operating segments in annual financial statements and selected information about reportable segments in interim financial reports issued to shareholders, on the basis that is used internally for evaluating segment performance and deciding how to allocate resources to segments. It also established standards for related disclosures about products and services, geographic areas and major customers. Segment disclosures have been provided for discontinued operations.

RECENT PRONOUNCEMENTS

In June 1998, the Financial Accounting Standard Board (FASB) issued Statement No. 133, "Accounting for the Derivative Instruments and Hedging Activities". The Statement will require The Company to recognize all derivatives on the balance sheet at fair value. This statement is effective for fiscal years beginning after June 15, 2000, and has been adopted by The Company for the years ending September 30, 2001 and 2000. The management does not anticipate that the adoption of the new Statement will have a significant effect on The Company's revenues and earnings, as The Company currently does not have any derivative instruments.

The FASB issued SFAS No. 131 on "Disclosures about Segments of an Enterprise and Related Information" effective in 1998. The Company evaluated SFAS No. 131 and determined that the Company operates in only one segment.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES (CONTINUED)

In July 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, "Business Combinations" ("FAS 141") and No. 142, "Goodwill and Other Intangible Assets" ("FAS 142"). SFAS No. 141 requires all business combinations initiated after June 30, 2001 to be accounted for using the purchase method. Under SFAS No. 142, goodwill and intangible assets with indefinite lives are no longer amortized but instead tested for impairment at least annually in accordance with the provisions of FAS No. 142. FAS No. 142 will also require that intangible assets with definite lives be amortized over their respective useful lives to their estimated residual values, and reviewed for impairment in accordance with SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of." The provisions of this Statement are required to be applied starting with fiscal years beginning after December 15, 2001. The Company will continue to amortize goodwill existing at September 30, 2001 until the new standard is adopted and test goodwill for impairment in accordance with SFAS No. 121. The Company is currently evaluating the effect that adoption of the provisions of FAS No. 142 will have on its results of operations and financial position.

In June 2001, the FASB issued SFAS No. 143, "Accounting for Asset Retirement Obligations." SFAS No. 143 requires liability recognition for obligations associated with the retirement of tangible long-lived asset and the associated asset retirement costs. The Statement is effective for financial statements issued for fiscal years beginning after June 15, 2002 with earlier application encouraged. The implementation of SFAS No. 143 will not have a material affect on the Company's results of operations or financial position.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets." SFAS No. 144 supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed of", in that it removes goodwill from its impairment scope and allows for different approaches in cash flow estimation. However, SFAS No. 144 retains the fundamental provisions of SFAS No. 121 for (a) recognition and measurement of long-lived assets to be held and used and (b) measurement of long-lived assets to be disposed of. SFAS No. 144 also supersedes the business segment concept in APB opinion No. 30, "Reporting the Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," in that it permits presentation of a component of an entity, whether classified as held for sale or disposed of, as a discontinued operation. However, SFAS No. 144 retains the requirement of APB Opinion No. 30 to report discontinued operations separately from continuing operations. The provisions of this Statement are effective for financial statements issued for fiscal years beginning after December 15, 2001 with earlier application encouraged. Implementation of SFAS No. 144 will not have a material effect on the Company's results of operations or financial position.

Reclassifications

Certain reclassifications have been made to the 2000 financial statements to conform to the 2001 presentation. Such reclassifications had no effect on net income as previously reported.

2. FINANCIAL RESULTS AND LIQUIDITY

The Company has incurred net losses of \$1,294,784, \$1,891,199, in 2001 and 2000, respectively. In addition, the Company has a stockholders' deficit of \$2,313,110 and \$1,977,041 and a working capital deficit of \$817,888 and \$972,729 as of September 30, 2001 and 2000, respectively. These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern.

The Company's operations, including its combined operations with tAA once the merger becomes effective, continue to generate operating losses and to use rather than provide cash flow. The Company has issued common stock, preferred stock, debentures and convertible debt in exchange for cash and services to provide the necessary resources and working capital to help meet its strategic goals and to meet its current obligations.

While the Company continues to seek additional equity capital, there can be no assurance that The Company will be successful. Without an infusion of sufficient additional capital, the Company will not be able to continue as a going concern. The financial statements do not include any adjustments that might be necessary should The Company be unable to continue as a going concern.

3. DISPOSITION OF OPERATING DIVISIONS

CABLE DIVISION

Effective January 31, 1999, the Company sold substantially all of the assets and certain of the liabilities of its Cable Division to Cables To Go, Inc (CTG). Net assets of \$2,732,059 were sold for \$1,075,000 in cash and a royalty payment contingent upon the future revenues of the Cable Division. \$150,000 of the royalty payment was guaranteed and has been recorded by the Company as a note receivable from CTG. CTG agreed to use and compensate the Company for an additional \$558,747 of the net assets contingent upon certain of its future operating needs. The Company originally recorded a loss of \$948,312 upon disposition of the Cable Division but has adjusted the loss to \$1,507,059 based on its determination that CTG will not use nor compensate the Company for the additional \$558,747 of net assets.

MOTO-SAT DIVISION

Effective September 30, 1999, the Company sold substantially all of the assets and liabilities of its MOTO-SAT Division to James Pendleton, the Company's former CEO and Chairman. The net assets of \$68,438 were sold in exchange for Mr. Pendleton's agreement to waive any claim to post-employment, deferred compensation, or retirement benefits. The Company recognized a loss of \$68,438 upon disposition of the MOTO-SAT Division.

The accompanying notes are an integral part of these financial statements.

3. DISPOSITION OF OPERATING DIVISIONS (CONTINUED)

POWERSTREAM DIVISION

Effective January 21, 2000, the Company sold substantially all of the assets and liabilities of its Powerstream Division to Lund Instrument Engineering, Inc. The net assets of \$ (110,954) were sold for cash of \$75,689 plus a royalties

Edgar Filing: AMANDA CO INC - Form SB-2

ranging from 8% to 16% of the gross profits generated by the sale of certain products for a period of three years subsequent to the sale subject to certain adjustments. The Company recognized a gain of \$186,643 upon the disposition of the PowerStream division. Cash proceeds were used to pay down a note due to a secured lender.

InCirt Division

The Company had been operating under a default notice with its asset-based lender, Finova Capital, since September 1999, when the Company began seeking buyers for its two remaining divisions PowerStream and InCirt. In February of 2000, a Letter of Intent to sell the InCirt division to another contract manufacturer was terminated. The Company then solicited a competitor to purchase most of the assets and to negotiate a supplier agreement with the Company's largest account as part of a voluntary foreclosure of all the remaining assets of the Company, for which Finova had a perfected security interest. The Company recognized a loss of \$963,027 during 2000 resulting from the foreclosure of the InCirt division.

4. CONCENTRATIONS

Financial instruments that potentially subject The Company to concentration of credit risk include cash deposits in excess of FDIC limits and short-term investments. The Company restricts investment of cash balances to financial institutions with high credit standing.

5. INVESTMENT IN TAA

The Company concluded a merger agreement with The Automatic Answer, Inc. (tAA), a distributor of voice mail systems and other telephone products, on April 13, 2001. Under the agreement, the Company will give up sixty-seven percent (67%) of its shares to acquire tAA subject to the adjustment, noted below. Certain of tAA's debt holders are to convert their outstanding notes to a new class of preferred shares within 120 days after the close of the transaction.

The number of shares that the Company will give to tAA will be adjusted if the average closing price of the Company's stock, in the aggregate, for the 60 days after the close of the transaction, falls below \$10,000,000.

The accompanying notes are an integral part of these financial statements

5. INVESTMENT IN TAA (CONTINUED)

As part of the transaction, the Company made several loans to tAA totaling \$461,200. The loans were used to fund tAA's pre-merger cash flow.

The merger was effective October 1, 2001 and these loans are eliminated upon the consolidation of the two companies. These financial statements classify the \$461,200 as acquisition expenses. The transaction will be accounted for as a reverse merger with tAA as the surviving entity. Pen shareholders will retain approximately 7% of the merged company.

6. FORECLOSURE

The Company entered into a financing agreement with a bank for \$6,300,000. The agreement consisted of a \$5,000,000 revolving credit line and two term loans for \$800,000 and \$500,000. Under the loan agreements for these loans, the Company was required to meet certain financial ratios and specific minimum levels of earnings and net worth. The loan agreements also restricted employee advances, capital expenditures, compensation, and additional indebtedness; and restricted the payment of dividends. The Company had borrowed \$4,436,562 under the line of credit at September 30, 1999. At times, including at September 30, 1999, the Company had been in violation of certain of the covenants of this credit facility. The Company operated under a forbearance agreement during all of fiscal 1999.

As of September 30, 1999, the Company had not received a waiver from the lender and all obligations under this credit facility were payable on demand of the lender and were classified as current liabilities in the balance sheet. Subsequent to September 30, 1999, the lender declared the loan agreement in default.

The Company continued operating under a default notice with its Lender as it disposed of its remaining operating divisions. Finova and the Company agreed to a voluntary foreclosure of all the remaining assets of the Company, for which Finova had a perfected security interest. The Company's September 30, 2000 balance sheet reflects the transfer of all collateral assets to Finova and the Company recognized an equal offset of the bank's line of credit balance and term loans owed by the Company. The Company recorded a loss on transfer of assets of \$900,000.

During 2001, the Company negotiated an agreement with the Lender, which resulted in the complete satisfaction of all the debt with the Lender in exchange for \$150,000, of which \$40,000 remains unpaid as of September 30, 2001. The agreement also includes the issuance of 250,000 additional share of common stock, the repricing of 350,000 warrants from \$1.00 to \$.001, and the issuance of an additional 150,000 warrants at \$.001.

Finova also transferred back to the Company rights to recover certain assets owned by the Company prior to the foreclosure. These assets, which have an estimated original book value of \$800,000, have been fully reserved as of September 30, 2001.

The accompanying notes are an integral part of these financial statements

7. LONG LIVED ASSETS

On an ongoing basis, management reviews the valuation of long-lived assets, including intangible assets, to determine possible impairment by comparing the carrying value to the undiscounted estimated future cash flows of the related assets and necessary adjustments, if any, are recorded. Based upon operating losses from certain divisions, continued cash flow problems and managements decision to negotiate the sale of other divisions, the Company reduced the carrying costs of certain of its long-lived assets by \$320,500 in 2000 to better reflect management's current expectations for the realization of these assets. The adjustments relate to assets of the Company's various discontinued divisions and to assets from continuing operations.

During 2001, the Company decided to fully reserve the balance of amounts due from perFORMplace.com. The Company had signed a Letter of Intent with perFormplace.com during April 2000 providing for a reverse merger of the two

Edgar Filing: AMANDA CO INC - Form SB-2

companies. On November 8, 2000, perFormplace.com terminated the agreement.

The following is a summary of the assets charged-off to impairment for the years ended December 31:

Brian Bonar and Milton Haber, Directors of Pen, received 500,000 shares of common stock for their continued service as Board Members. Additionally, Mr. Bonar received options for 500,000 shares of the Company's common stock.

11. CONVERTIBLE DEBENTURES

Edgar Filing: AMANDA CO INC - Form SB-2

During 2001, the Company issued \$800,000 in new one-year convertible debentures with interest rates ranging from 7% to 8%, payable quarterly. These debentures are convertible in the Company's common stock at the lower of \$.04 or 70% of the average of the three lowest closing prices during the 30 days prior to the conversion. All these debentures are redeemable in cash due one year from the date of issuance.

In August 2000, the Company entered into a convertible debenture agreement for \$600,000 in exchange for 4,000,000 shares of the Company's common stock. The convertible debenture has an interest rate of 7% per annum. The debenture is convertible into common stock at the lesser of \$0.15 per share or 70% of market price on the conversion date.

12. STOCK HOLDERS' EQUITY

Preferred Stock Dividends in Arrears Deferred

Payments of annual dividends for 2001 and 2000 were deferred by the Company's board of directors on the outstanding preferred stocks because of losses sustained by the Company. As of September 30, 2001, preferred dividends in arrears amounted to \$480,323 on the Preferred Stock Series A and B.

Conversion of Convertible Preferred Stock - Series A

In 2000, the Company converted 1,670 shares of Preferred Stock Series A into 9,057,654 shares of common stock, and the Company converted \$64,581 of dividends payable on these share shares of Preferred Stock into 349,323 shares of common stock. During 2001, the Company redeemed 39 shares of Preferred Stock Series A for 1,667,039 shares of common stock.

Conversion of Convertible Preferred Stock - Series B

In 2000, the Company converted 74 shares of Preferred Stock Series B into 411,112 shares of common stock. During 2001, the Company redeemed 40 shares of Preferred Stock Series B stock for 1,617,648 shares of common stock.

Conversion of Preferred Stock - Series A Warrants

In 2000, the Company converted warrants to purchase shares of Preferred Stock Series A into 315,000 shares of common stock in a cashless exercise, and the Company recorded an expense of \$86,941 based on the fair value of the common stock on the date of conversion. During 2001, an additional 13,121,201 shares were issued in exchange of warrants at prices that ranged from \$0.02 to \$0.063. An additional 3,327,050 warrants were converted in lieu of payments for services rendered.

Repricing of Stock Options

In order to continue to attract and retain employees, the Board of Directors authorized the repricing of options and warrants to purchase shares of common stock effective March 2000, to the then fair market value of \$0.30 per share. All repriced options maintained the same expiration terms. Approximately 1,240,000 options and warrants were repriced under this program. The repricing included members of the Board of Directors and executive officers.

The accompanying notes are an integral part of these financial statements

Edgar Filing: AMANDA CO INC - Form SB-2

12. STOCK HOLDERS' EQUITY (CONTINUED)

WARRANTS ACTIVITY FOR THE PERIOD

During the year ended September 30, 2001, the Board of Directors approved the issuance of warrants to purchase an aggregate of 21,754,251 shares of the Company's common stock. Such warrants are exercisable at prices ranging from \$0.02 to \$0.10 per share, vest immediately, and expire at various times through December 2004.

In order to continue to meet operating cash flow requirements, and to attract and retain employees and consultants, the Board of Directors authorized the repricing of options and/or warrants to purchase shares of common stock in November 2000, February, 2001, March 2001 and June 2001, to the then fair market value, which ranged from \$0.25 to \$0.06 per share. Approximately 14 million options/warrants were repriced under this program. The repricing included approximately 2.6 million options and warrants granted to members of the Board of Directors and executive officers. The repricing of options/warrants resulted in warrants/options being exercised for approximately 11.7 million shares of common stock.

In September 2001, the Board of Directors authorized the repricing and the extended the expiration date of the public warrants to purchase shares of common stock to be effective November 2001. The price per share was repriced to \$0.20, (the per share price has to be at a minimum of \$0.24 for 15 days prior to conversion), from \$6.50 per share and the expiration date was extended by one year (warrants will expire in November 2002. Approximately 2.8 million warrants were repriced under this program.

Included in the issuance of warrants to purchase 14 million aggregate shares of the Company's common stock are warrants that were issued to individuals under terms of a consulting agreement during the years ended September 30, 2001 and 2000. Such issuances were accounted for under Financial Accounting Standards Board Statement No. 123 using primarily the Black-Scholes option pricing model, which resulted in the recording of compensation cost during the years ended September 30, 2001 and 2000 (see note 14).

Grant of Equity Interest in Full Settlement of Trade Payable and Troubled Debt

Due to significant cash flow problems, in April 2000 the Company commenced on a program to reach agreements with its vendors to grant shares of its common stock to the vendors in full settlement of the amounts due the vendors. At the date of issuance of the shares, the amounts due vendors exceeded the fair market value of the common stock issued by \$1,988,218, which is classified in the statement of operations as an extraordinary gain due to the extinguishment of debt. As of September 30, 2000, the Company has issued 1,061,747 shares of its common stock under this program. An additional 760,178 shares were issued as settlement of debt during 2001.

The accompanying notes are an integral part of these financial statements

13. PREFERRED STOCK

The Company issued two series of Preferred Stock. Series A was issued in February 1999 consisting of 1,800 shares, par value \$0.01 per share, for \$1,000 per share. Series B was issued in April 1999 at the same price but only 1,000 shares were issued. As mentioned in Note C, part of the funds raised from the

Edgar Filing: AMANDA CO INC - Form SB-2

issuance of this stock were used to repay the bridge loans made earlier in the fiscal year. After repayment of the bridge loans and paying \$238,500 in fees and expenses, the net cash raised by the Company for operations was \$1,665,500. Both series of Preferred Stock carry a 16 percent dividend rate, which is paid quarterly.

Both issuances of Preferred Stock are convertible into shares of the Company's Common Stock. Each share of Series A Preferred Stock is convertible into an amount of shares of Pen Common Stock equal to \$1,000 divided by the average of the two lowest closing bid prices for Pen Common Stock during the period of 22 consecutive trading days ending with the last trading day before the date of conversion, after discounting that market price by 15 percent (the "Conversion Price"). During the first six months, the Board of Directors approved a reduction of the maximum Conversion Price for the Series A Preferred Stock and Series B Preferred Stock to \$.53 from \$1.17 and \$.79 per share respectively. The reduction was granted to obtain a waiver in relation to the sale of a major asset - InCirt Technologies Division. The shares of Series B Preferred Stock are convertible into Common Stock at the same Conversion Price as the Series A Preferred Stock. Warrants to acquire 335,453 shares of Common Stock at conversion prices ranging from \$0.86 to \$1.434 per share were also issued to the purchasers of the Series A and Series B Preferred Stock. The warrants expire three years from date the Preferred Stock and warrants were initially issued.

CONVERTIBLE DEBENTURES

On October 22, 1997, the Board of Directors of the Company approved the issuance of up to \$1,500,000 of 3 percent convertible Debentures with a maximum term of 24 months. On June 16, 1998, the Board of Directors of the Company approved the issuance of up to \$1,000,000 of additional three percent convertible debentures with a maximum term of 24 months. The convertible debentures (the "Debentures") mature, unless earlier converted by the holders, into shares of common stock of the Company. The Company filed a registration statement with the United States Securities and Exchange Commission with respect to the common stock of the Company into which the Debentures may be converted.

The Debentures were convertible by the holders thereof into the number of shares of common stock equal to the face amount of the Debentures being converted divided by the lesser of (i) eighty percent (80 percent) of the closing bid price of the Company's common stock as reported on the NASDAQ Small Cap market on the day of conversion, or (ii) \$2.75. The Debentures could be converted in three equal installments beginning on the earlier of (i) the 75th day of their issuance, and continuing through the 135th day of their issuance, or (ii) the day following the effective date of the Registration Statement, through the 60th day following the effective date of the Registration Statement. The Company could cause the Debentures to be converted into shares of common stock after the 110th day following the effective date of the Registration Statement, if the common stock traded at or above \$5.50 per share for 20 consecutive days.

13. PREFERRED STOCK (CONTINUED)

CONVERTIBLE DEBENTURES (CONTINUED)

As of September 30, 1998, the Company had issued all \$2,500,000 of these convertible Debentures and \$1,000,000 had been converted to 689,332 shares of common stock. As of September 30, 1999, the remaining \$1,500,000 of convertible Debentures had been converted into 2,092,671 shares of common stock.

Because of the favorable conversion feature of the Debentures, the Company has recognized interest expense relating to the price below market at which the

Edgar Filing: AMANDA CO INC - Form SB-2

Debentures can be converted into common shares of stock. The interest is initially set up as a deferred charge against the subordinated debenture balance with an offset to additional paid-in capital. The deferred interest is amortized over a period corresponding to time restrictions as to when the Debentures can be converted into stock. The resulting charge to interest expense increases the effective interest rate of the Debentures. Deferred interest expense of \$250,032 was recorded on the \$1,000,000 in Debenture issue relative to the favorable conversion feature and was amortized over four months and charged to interest expense. Amortization of the \$250,032 deferred charge totaled \$98,571 in fiscal 1999 (\$151,461 in fiscal 1998). This interest along with the stated 3 percent interest rate in the Debentures results in an inherent interest rate of 31 percent.

In connection with the \$1,500,000 Debenture issue, the Company recorded \$389,591 of deferred interest expense related to the beneficial conversion feature. The entire deferred charge was amortized and charged to interest expense as of September 30, 1998. This interest when added to the stated 3 percent interest rate of the Debenture results in an inherent interest rate of 28 percent.

14. STOCK OPTIONS AND WARRANTS

The Company has a Stock Option Plan (the Plan). The Plan provides for the granting of both Incentive Stock Options (ISOs) and Non-qualified Stock Options (NSOs) to purchase shares of common stock. ISOs are granted at not less than market value on the date of grant, whereas NSOs may be granted at not less than 85 percent of the market value on the date of the grant. Options may be granted under the Plan to all officers, directors, and employees of the Company. In addition, NSOs may be granted to other parties who perform services for the Company. The Board of Directors has granted management the authority to issue non-statutory stock options and/or warrants to employees and consultants of the Company.

As of September 30, 2001 and 2000, the Company granted to its employees and other eligible participants options and warrants exercisable for the Company's common stock and preferred stock. Options and warrants to purchase shares of its common stock are usually granted at the prices equal to the current fair value of the Company's common stock at the date of grant.

Under the Plan, no option may be exercised after the expiration date of ten years from the date of grant. As of September 30, 2000, there are two types of convertible securities (NSOs and Warrants) outstanding.

NSOs may be granted to any eligible participant as determined by the management of the Company.

The non-statutory stock options and warrants are for periods of two to five years.

Under APB-25, the cost of compensation is measured by the excess of the fair market price of the stock over the option exercise price on the measurement date. This is referred to as the intrinsic value method. Accordingly, the Company recorded compensation expense of \$163,765 and \$339,822 for options and warrants granted for the years ended September 30, 2001 and 2000.

The following table summarizes information about options and warrants outstanding at September 30, 2001:

The exercises period for the options ranges from immediate to four years from the date of the grant and have various vesting requirements.

The Company has adopted only the disclosure provisions of SFAS No. 123. It applies APB Opinion No. 25 and related interpretations in accounting for its stock options and warrants granted to employees or to members of the Company's Board of Directors. Pursuant to FASB Interpretation No. 44, the Company applies provisions of SFAS No. 123 for options and warrants granted to third parties. Accordingly, in 2000, compensation cost has been recognized for its stock options and warrants granted to outside third parties subsequent to June 30, 2000. This information is required to be determined as if the Company had accounted for its employee stock options/warrants granted subsequent to December 31, 1994, under the fair value method of that statement. If the Company had elected to recognize compensation expense based upon the fair value at the grant date for awards under this plan consistent with the methodology prescribed by SFAS No. 123, the Company's net loss and loss per share would be reduced to the pro forma amounts indicated below for the years ended September 30:

14. STOCK OPTIONS AND WARRANTS (CONTINUED)

Options/warrants are granted at prices equal to the current fair value of the Company's common stock at the date of grant. All options and warrants granted during fiscal year 2000 vest immediately.

The accompanying notes are an integral part of these financial statements

The fair value of these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: 2000: dividend yield of 0%; expected volatility of 200%; risk-free interest rate of 5.6%, and expected life of 2 to 5 years; 2001: dividend yield of 0%; expected volatility of 300%; risk-free interest rate of 5.8%, and expected life equal to the actual life for the period. The weighted-average fair value of options and warrants granted were \$0.02 and \$0.06 for 2001, and \$0.25 and \$0.33 for 2000.

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility. Because the Company's employee stock options have characteristics significantly different from those of traded options, and because changes in the subjective input assumptions can materially affect the fair value estimate, in management's opinion, the existing models do not necessarily provide a reliable single measure of the fair value of its stock options.

15. EARNINGS PER SHARE

The number of weighted common shares outstanding used in the loss per share calculation is 37,701,171 in 2001 and 18,556,461 in 2000.

	2001 -----	2000 -----

For the years ended September 30, 2001 and 2000, all of the options and warrants that were outstanding were not included in the computation of diluted EPS because to do so would have been anti-dilutive.

	-----	-----

The Company sustained net operating losses in each of the periods presented. For 2001 and 2000, there were no deferred tax assets or income tax benefits recorded in the financial statements for net deductible temporary differences or net operating loss carryforwards because the likelihood of realization of the related tax benefits cannot be fully established. A valuation allowance of \$8,479,269 has been recorded in 2001 (\$8,091,634 in 2000) to reduce the net deferred tax assets to their estimated net realizable value.

The accompanying notes are an integral part of these financial statements

16. INCOME TAXES (CONTINUED)

As of September 30, 2001, the Company as net operating loss carryforwards for tax reporting purposes of approximately \$17,315,000 expiring in various years through 2020. The merger with tAA results in a greater than 50% change in ownership and represents a different line of business. This severely restricts the use of these loss carryforwards.

Capitalized Leases

Subsequent to the cessation of manufacturing operations in March 2000, various lessors foreclosed upon capitalized lease equipment and the equipment was returned to the lessors. At the beginning of the fiscal year, October 1999 future lease payments were \$558,492. The Company had made certain payments prior to default. The lessors have not made additional claims after repossession of the equipment.

The accompanying notes are an integral part of these financial statements.

18. SUBSEQUENT EVENTS

Non-cash investing and financing activities

During the first quarter of FY2002 Series A preferred shareholders converted 30 preferred shares into 2,941,176 common shares at an average conversion price of \$0.0102 per common share. Series B preferred shareholders converted 150 preferred shares into 15,730,674 common shares at an average conversion price of \$0.0095 per common share. Under the conversion terms of the convertible preferred shares, a holder has the right to convert preferred shares into common shares at eighty-five (85%) percent of the average of the two lowest closing bid prices during the last twenty-two (22) consecutive trading days prior to conversion. As part of the merger, the Company issued 50,000,000 shares of common stock with a value of \$876,000.

NOTE A - GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company had a loss of \$1,013,881 for the quarter ended December 31, 2001, a deficit of \$3,466,061 in stockholders' equity and negative working capital of \$2,934,474 for the period ended December 31, 2001. The Company intends to continue to raise additional funds in the capital markets for working capital purposes. The Company must raise additional capital in order to continue as a going concern.

NOTE B - ACQUISITIONS/DISPOSITIONS

The Company completed its merger with the Automatic Answer Company (tAA) in the quarter ended December 31, 2001. The merger was accounted for as a reverse merger. The recapitalization of tAA, the surviving entity, resulted in a reduction of \$2,119,979 in stockholder's equity; \$876,000 of which was attributable to merger expenses and \$1,243,979 resulting from the assumption of the net deficit of the registrant.

NOTE C - OPTIONS TO PURCHASE COMMON STOCK

No options were exercised in the first quarter.

NOTE D - WARRANTS TO PURCHASE COMMON STOCK

No warrants were exercised in the first quarter.

NOTE E - OPTIONS/WARRANTS TO PURCHASE COMMON STOCK

No options or warrants were issued in the first quarter/

NOTE F - ACCRUED PREFERRED STOCK DIVIDENDS

The Company accrued \$23,214 for dividends payable to preferred shareholders during the quarter.

NOTE G - PREFERRED STOCK

The Company has issued two series of Preferred Stock. Series A was issued in

Edgar Filing: AMANDA CO INC - Form SB-2

February 1999 consisting of 1,800 shares, par value \$0.01 per share, for \$1,000 per share. Series B was issued in April 1999 at the same price and par value but only 1,000 shares were issued. Both series of Preferred Stock carry a 16 percent dividend rate, which is paid quarterly. If and when the Company's stock is listed again on NASDAQ the dividend rate will drop to 8 percent.

Both issuances of Preferred Stock are convertible into shares of the Company's Common Stock. Each share of Series A Preferred Stock is convertible into an amount of shares of Pen Common Stock equal to \$1,000 divided by the average of the two lowest closing bid prices for Pen Common Stock during the period of 22 consecutive trading days ending with the last trading day before the date of conversion, after discounting that market price by 15 percent (the "Conversion Price"). The maximum Conversion Price for the Series A Preferred Stock is \$1.17 per share. The shares of Series B Preferred Stock are convertible into Common Stock at the same Conversion Price as the Series A Preferred Stock except for a maximum Conversion Price of \$0.79 per share. Warrants to acquire 320,000 shares of Common Stock at prices ranging from \$0.86 to \$1.28 per share were also issued to the purchasers of the Series A and Series B Preferred Stock. The Warrants expire three years from date the Preferred Stock and warrants were initially issued.

NOTE H - CONVERTIBLE DEBENTURE

In the first quarter ended December 31, 2001 the Company issued \$100,000 in one year convertible debentures with interest at eight (8) percent, payable quarterly. These debentures are convertible into the Company's common stock at the lower of \$.04 or 70% of the average of the three lowest closing prices during the 30 days prior to the conversion. These debentures are due one year from the date of the issuance.

NOTE I - CONVERTIBLE PROMISSORY NOTE

In the first quarter ended December 31, 2001 the Company issued a convertible promissory note totaling \$450,000 at an interest rate of eight (8) percent per annum. These notes are convertible into the Company's common stock at \$.01 per share and a 8,055,853 warrant exercisable for common stock at \$.02 per share and 1,500,000 warrants at \$.01 per share.

Note J - EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per common share is computed by dividing net earnings (loss) available to common shareholders by the weighted average number of common shares outstanding during each period. Diluted earnings (loss) per common share are similarly calculated, except that the weighted average number of common shares outstanding includes common shares that may be issued subject to existing rights with dilutive potential except for periods when such calculations would be anti-dilutive.

For the three ended December 31, 2001, net earnings (loss) attributable to common shareholders includes accrued dividends at the stated dividend rate from date of issuance and a non-cash imputed dividend to the preferred shareholders related to the beneficial conversion feature on the 1999 Series A and B Preferred Stock and related warrants. The beneficial conversion feature is computed as the difference between the market value of the common stock into which the Series A and B Preferred Stock can be converted and the value assigned to the Series A and B Preferred Stock in the private placement. The imputed dividend is a one-time non-cash charge against the earnings (loss) per common share. The calculation of earnings (loss) per share is included in Exhibit 11.

NOTE K - INTERIM PERIOD COST OF GOODS SOLD

Inventory costing is based on specific identification. An inventory count is

Edgar Filing: AMANDA CO INC - Form SB-2

taken at the end of each quarter.

NOTE L - INCOME TAXES

The future benefits of loss carried forward are fully reserved. There were no income taxes during the quarter.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

FORWARD-LOOKING STATEMENTS. This report contains certain forward-looking statements within the meaning of section 27A of the Securities Act of 1933 as amended, and section 21E of the Securities Exchange Act of 1934, as amended, that involve risks and uncertainties. In addition, the Company may from time to time make oral forward-looking statements. Actual results are uncertain and may be impacted by the following factors. In particular, certain risks and uncertainties that may impact the accuracy of the forward-looking statements with respect to revenues, expenses and operating results include without limitation, cycles of customer orders, general economic and competitive conditions and changing consumer trends, technological advances and the number and timing of new product introductions, shipments of products and components from foreign suppliers, and changes in the mix of products ordered by customers. As a result, the actual results may differ materially from those projected in the forward-looking statements.

Because of these and other factors that may affect the Company's operating results, past financial performance should not be considered an indicator of future performance, and investors should not use historical trends to anticipate results or trends in future periods.

The following discussion and analysis provides certain information which the Company's management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition for the three months ended December 31, 2001 and 2000. This discussion should be read in conjunction with the audited financial statements of the Company and notes thereto included in the Annual Report of the Company on Form 10-KSB for the year ended September 30, 2001.

General

There were no sales from continuing operations for the quarter ended December 31, 2000. All operating divisions were disposed of during 1999 and 2000, and all operating activity was reclassified as discontinued operations. Since March 2, 2000, the Company decided to maintain its' situation as a reporting public company, and to reduce its' debt in order to make the Company attractive to private companies that would want to use Pen to go public. This approach would be a major step to possibly help to maintain some shareholder value in the Company's stock price.

The Company did enter into a Letter of Intent to reverse merge with a small private .com company, perFORMplace.com, in the entertainment services business. A definitive agreement was signed in late August 2000 with the intent to obtain shareholder ratification at the next shareholders' meeting. However, on November 8, 2000, before the meeting could be held, perFORMplace.com terminated the merger.

On October 1, 2001, the Company completed a reverse merger with tAA. tAA is the surviving entity for accounting purposes. The following discussion is based upon the merged activities of both companies for all periods presented.

Edgar Filing: AMANDA CO INC - Form SB-2

Net sales. Net sales for the Company decreased \$185,850 or approximately 17

percent for the three month period ended December 31, 2001, as compared to the same period in the prior year. The Company believes that the economic conditions after September 11, 2001 have contributed significantly to the decline in revenues. Prior to September 11, 2001, the Company was achieving higher monthly sales revenues.

Cost of sales. Cost of sales as a percentage of net sales decreased to 54% of net sales as compared to 62% for the same period in the prior year. The decrease resulted from the increase in the shipment of higher gross profit margin products; along with a reduction in shipping costs due to improved inventory control and production processes.

Selling, general and administrative expenses. Selling, general and administrative expenses decreased by \$399,160 or approximately 42% from the three month period ended December 31, 2001 as compared to the same period in the prior year. The decrease is due (1) the reduction in salaries, payroll taxes and related employee expenses paid in the current quarter as compared to the prior year due a reduction in personnel. (2) In June 2001, the operations of Pen Interconnect were relocated to the offices of the Automatic Answer, Inc. (tAA). The relocation resulted in the termination of the remaining Pen employees as salaried employees, along with a reduction in operating expenses. (3) The Automatic Answer Company moved its offices from San Juan Capistrano, CA to Irvine, CA thereby reducing monthly rent expense for the quarter ended December 31, 2001 by approximately \$15,000; and (4) the Company has made a concerted effort to eliminate any on-going expenses that were not relative to producing revenue or profit for the Company.

Other income and expenses. The net decrease in other income and expenses for

the quarter ended December 31, 2001 amounted to \$87,433. In the same period in the prior year the Company incurred a loss on impairment of

\$63,000 and a loss from discontinued operations of \$39,323. There were no comparable losses in the current quarter.

Extraordinary costs. The Company recorded costs of \$876,000 for the quarter

ended December 31, 2001. These costs are associated with the merger between Pen Interconnect, Inc. and the Automatic Answer, Inc. (tAA).

Net earnings (loss) and earnings (loss) per share. Net loss for the first fiscal quarter ended December 31, 2001 totaled (\$1,013,881) or (\$0.00) per share, compared with losses of (\$626,103) or (\$0.00) per share for the first fiscal quarter of FY 2000.

Liquidity and Capital Resources

During the first three months of FY 2001 the Company sustained losses of \$1,013,881. As a result of these losses the Company raised additional working capital through the issuance of Convertible Debentures (\$100,000) and Convertible Promissory Notes (\$450,000).

Inflation and Seasonality

The Company does not believe that it is significantly impacted by inflation or seasonally.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Board of Directors and Shareholders
The Automatic Answer, Inc.

We have audited the accompanying balance sheets of The Automatic Answer, Inc. as of December 31, 2000, and 1999 and the related statements of operations, shareholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes

Edgar Filing: AMANDA CO INC - Form SB-2

assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Automatic Answer, Inc. as of December 31, 2000, and 1999 and the results of its operations and its cash flows for the years then ended in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has sustained losses from operations and has a net capital deficiency, which raise doubts about its ability to continue as a going concern. Management's plans regarding those matters also are described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and line of business

The Automatic Answer, Inc. (the Company) makes PC-enabled telephone answering software. Sales are made primarily to resellers and dealers.

Use of estimates

Edgar Filing: AMANDA CO INC - Form SB-2

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Significant estimates include reserve for bad debts, reserve for obsolete inventory, and depreciation. Actual results could differ from those estimates.

Cash and cash equivalents

For purpose of the statements of cash flows, cash equivalents include amounts invested in a money market account with a financial institution. The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash equivalents are carried at cost, which approximates market.

Concentration of cash

The Company at times maintains cash balances in excess of the federally insured limit of \$100,000 per institution. Uninsured balances as of December 31, 2000 and 1999 were \$92,279 and \$0

respectively.

Revenue recognition

The Company recognizes revenue when merchandise is shipped to a customer or at the time services are rendered. The Company estimates the reserve for returns based on the historical amount of returns.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounts receivable

The Company's accounts receivable consists of balances due from dealers in the telecommunications industry. The terms are normally net 10 days.

The Company recorded an allowance for bad debts of \$71,828 and \$25,000 at December 31, 2000 and 1999, respectively.

Inventory

Inventory consists principally of network telephone PC hardware and is stated at the lower of cost (first-in, first-out method) or market.

Property and equipment

Property and equipment are recorded at cost less accumulated depreciation and

Edgar Filing: AMANDA CO INC - Form SB-2

amortization. Maintenance and minor replacements are charged to expense as incurred. Gains and losses on disposals are included in the results of operations.

Depreciation and amortization are provided using the straight-line method over estimated useful lives of the respective assets as follows:

Office furniture and fixtures	7 years
Computer and office equipment	5 years
Computer software	3 years

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and equipment (continued)

Amortization of leasehold improvements is computed using the straight-line method over the lesser of the asset life or the life of the respective lease.

Advertising cost

The Company expenses advertising costs as incurred. Total advertising expense was \$11,402 and \$32,677 for the years ended December 31, 2000 and 1999, respectively.

Income taxes

The Company utilizes SFAS No. 109, "Accounting for Income Taxes," which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each period end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The provision for income taxes represents the tax payable for the period and the change during the period in deferred tax assets and liabilities.

Fair value of financial instruments

The Company measures its financial assets and liabilities in accordance with generally accepted accounting principles. For certain of the Company's financial instruments, including cash and cash equivalents and accounts payable and accrued liabilities, the carrying amounts approximate fair value due to their short maturities. The amounts shown for notes payable also approximate fair value because current interest rates offered to the Company for debt of similar maturities are substantially the same.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Stock options

Edgar Filing: AMANDA CO INC - Form SB-2

SFAS No. 123, "Accounting for Stock-Based Compensation," establishes and encourages the use of the fair value based method of accounting for stock-based compensation arrangements under which compensation cost is determined using the fair value of stock-based compensation determined as of the date of grant and is recognized over the periods in which the related services are rendered. The statement also permits companies to elect to continue using the current intrinsic value accounting method specified in Accounting Principles Bulletin ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," to account for stock-based compensation.

The Company has elected to use the intrinsic value based method and has disclosed the pro forma effect of using the fair value based method to account for its stock-based compensation.

Comprehensive income (loss):

In June 1997, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 130, "Reporting Comprehensive Income" (SFAS 130), which is effective for financial statements for periods beginning after December 15, 1997. This pronouncement establishes standards for reporting and display of comprehensive income (loss) and its components in a full set of general-purpose financial statements. The Company, however, does not have any components of comprehensive income (loss) as defined by SFAS 130 and therefore, for the years ended December 31, 2000 and 1999, comprehensive income (loss) is equivalent to the Company's net income (loss).

Long-Lived assets

The Company accounts for the impairment and disposition of long-lived assets in accordance with SFAS No. 121, "Accounting for the impairment of long-lived Assets and Long-Lived Assets to Be Disposed Of". In accordance with SFAS No. 121, long-lived assets to be held are reviewed for events or changes in circumstances, which indicate that their carrying value may not be recoverable. As of December 31, 2000 and 1999, no impairment has been recorded.

----- NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other accounting pronouncements

In June 1998, the FASB issued SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities". SFAS No. 133 requires that an enterprise recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. The Company does not believe that the adoption of the provisions of SFAS No. 133 will have a material impact on its financial position or results of operations.

The FASB issued SFAS No. 131 on "Disclosures about Segments of an Enterprise and Related Information" effective in 1998. The Company evaluated SFAS No. 131 and determined that the Company operates in only one segment.

NOTE 2 - GOING CONCERN

Edgar Filing: AMANDA CO INC - Form SB-2

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate continuation of the Company as a going concern. However, the Company earned approximately \$311,000 in 1999 and sustained net losses of \$ 501,893 and \$ 1,520,478 in 2000 and 1998, respectively. The Company has an accumulated deficit of approximately \$1,293,000 and \$814,000 at December 31, 2000 and 1999, respectively. In addition, the Company had a working deficit of approximately \$1,360,500 and 994,900 at December 31, 2000 and 1999. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts, or amounts and classification of liabilities that might be necessary should the Company be unable to continue in existence. The Company's continuation as a going concern is dependent upon its ability to obtain the additional financing necessary to complete development of new products and achieve the level of sales that will enable it to sustain its operations.

The Company is seeking to enter into a strategic acquisition with a publicly held company and anticipates more financing from equity sources to fund its operations. No assurance can be given that the Company will be successful in these efforts.

NOTE 3 - INVENTORY

Inventory, which principally consists of computer hardware, amounted to \$133,364 and \$338,118 at December 31, 2000 and 1999, respectively. The Company's reserve for obsolete inventory amounted to \$50,000 at December 31, 2000 and 1999.

NOTE 4 - PROPERTY AND EQUIPMENT

Property and equipment at December 31, 2000 and 1999 consisted of the following:

	2000	1999

NOTE 12 - STOCK OPTIONS AND WARRANTS

The Company adopted the 1996 Stock Option Plan ("the Plan") in July 1996. The Plan provides for the granting of incentive stock options and non-qualified options to purchase shares of the Company's common stock covering an aggregate of 600,000 shares of the Company's common stock.

The exercise price of incentive stock options under the Plan must at least be equal to the fair market value of a share of common stock on the date the option is granted. Non-qualified options shall have an exercise price of not less than 85% of fair market value of a share of common stock on the date such option is granted. The options must expire no later than ten years from the date of grant. Vesting on options granted in the future will be at a rate of no less than 20% per year over a period of no more than five years following the date of grant.

The Company has adopted only the disclosure provisions of SFAS No. 123. It applies APB Opinion No. 25 and related interpretations in accounting for its plans and does not recognize compensation expense for its stock-based compensation plans other than for restricted stock and options issued to outside third parties. If the Company had elected to recognize compensation expense based upon the fair value at the grant date for awards under this plan consistent with the methodology prescribed by SFAS No. 123, the Company's net loss and loss per share would be reduced to the pro forma amounts indicated below for the years ended December 31:

		2000		1999
		====		====
Net income (loss)				
	As reported	\$ (501,893)	\$	311,226
	Pro forma	\$ (542,593)	\$	237,803

The fair value of these options was estimated at the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions for the year ended December 31, 2000: dividend yield of 0%; no expected volatility; risk-free interest rate of 5.6%; and expected life of 4 years.

Edgar Filing: AMANDA CO INC - Form SB-2

NOTE 12 - STOCK OPTIONS AND WARRANTS (CONTINUED)

The Black-Scholes option valuation model was developed for use in estimating the fair value of traded options, which have no vesting restrictions and are fully transferable. In addition, option valuation models require the input of highly subjective assumptions including the expected stock price volatility.

The following table summarizes information with respect to options outstanding and exercisable at December 31, 2000:
