NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS

Green Star Mining Corp. (the Company) was incorporated under the laws of the State of Delaware on January 22, 2008. The Company was formed to engage in the acquisition, exploration and development of natural resource properties.

The Company is in the exploration stage. Its activities to date have been limited to capital formation, organization and development of its business plan. The Company has not commenced operations.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a February 28, year-end.

BASIC EARNINGS (LOSS) PER SHARE

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective January 22, 2008 (date of inception).

Basic net earnings (loss) per share amounts are computed by dividing the net earnings (loss) by the weighted average number of common shares outstanding. Diluted earnings (loss) per share are the same as basic earnings (loss) per share due to the lack of dilutive items in the Company.

CASH EQUIVALENTS

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

USE OF ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

adjustments are normal and recurring.

### NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### INCOME TAXES

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), "Accounting for Income Taxes". A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

### NOTE 3. RECENT ACCOUNTING PRONOUNCEMENTS

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities. SFAS 161 is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. SFAS 161 achieves these improvements by requiring disclosure of the fair values of derivative instruments and their gains and losses in a tabular format. It also provides more information about an entity's liquidity by requiring disclosure of derivative features that are credit risk-related. Finally, it requires cross-referencing within footnotes to enable financial statement users to locate important information about derivative instruments. SFAS 161 will be effective for financial statements issued for fiscal years and interim periods beginning on March 1, 2009, will be adopted by the Company beginning in the first quarter of 2009. The Company does not expect there to be any significant impact of adopting SFAS 161 on its financial position, cash flows and results of operations.

In May 2008, the FASB issued SFAS No. 162, "The Hierarchy of Generally Accepted Accounting Principles" ("SFAS 162"). The statement identifies the sources of accounting principles and establishes a hierarchy for selecting those principles to prepare financial statements in accordance with U.S. GAAP. The statement is effective 60 days following the SEC's approval of the Public Fund Accounting Oversight Board (PCAOB) amendments to AU Section 411, "The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles." The Company

Green Star Mining Corp.  
(An Exploration Stage Company)  
Notes to Financial Statements

is currently evaluating the impact of SFAS 162, but does not expect the adoption

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

of the pronouncement will have a material impact on its financial position, results of operation, or cash flows.

In May of 2008, FASB issued SFASB No. 163, "Accounting for Financial Guarantee Insurance Contracts—an interpretation of FASB Statement No. 60". The scope of the statement is limited to financial guarantee insurance (and reinsurance) contracts. The pronouncement is effective for fiscal years beginning after December 31, 2008. The Company does not believe this pronouncement will impact its financial statements.

In April 2009, the FASB issued FSP FAS 107-1 and APB 28-1, INTERIM DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS ("FSP FAS 107-1 and APB 28-1"). FSP FAS 107-1 and APB 28-1 amend FASB Statement No. 107, DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS, to require disclosures about fair value of financial instruments in interim as well as in annual financial statements. FSP FAS 107-1 and APB 28-1 also amend APB Opinion No. 28, INTERIM FINANCIAL REPORTING, to require those disclosures in all interim financial statements. The adoption of these standards had no impact on our financial position or results of operations.

In May 2009, the FASB issued SFAS 165, "Subsequent Events." SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. SFAS 165 sets forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. In accordance with SFAS 165, an entity should apply the requirements to interim or annual financial periods ending after June 15, 2009. SFAS 165 should not result in significant changes in the subsequent events that an entity reports - either through recognition or disclosure - in its financial statements. The adoption of this statement did not have a material impact on the Company's recognition or disclosure of subsequent events. The Company has performed an evaluation of subsequent events through August 4, 2009, which is the date the financial statements were issued.

In June 2009, the FASB issued SFAS 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles - a replacement of FASB Statement No. 162." SFAS 168 identifies the sources of accounting principles and the framework for selecting the principles used in the

preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States. SFAS 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. The Company does not expect the adoption of this statement to have an impact on the consolidated financial statements.

The Company does not expect the adoption of recently issued accounting pronouncements to have a significant impact on the Company's results of operations, financial position or cash flow.

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

### NOTE 4. GOING CONCERN

The accompanying financial statements are presented on a going concern basis. The Company had no operations during the period from January 22, 2008 (date of inception) to November 30, 2009 and generated a net loss of \$38,087. This condition raises substantial doubt about the Company's ability to continue as a going concern. Because the Company is currently in the exploration stage and has minimal expenses, management believes that the company's current cash of \$ 1,913 is sufficient to cover the expenses they will incur during the next twelve months in a limited operations scenario.

### NOTE 5. WARRANTS AND OPTIONS

There are no warrants or options outstanding to acquire any additional shares of common.

### NOTE 6. RELATED PARTY TRANSACTIONS

Nan E. Weaver, the sole officer and director of the Company may, in the future, become involved in other business opportunities as they become available, and she may face a conflict in selecting between the Company and her other business opportunities. The Company has not formulated a policy for the resolution of such conflicts.

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carry forwards are expected to be available to reduce taxable income. As the achievement of required future taxable income is uncertain, the Company recorded a valuation allowance.

### NOTE 8. NET OPERATING LOSSES

As of November 30, 2009, the Company has a net operating loss carry forwards of approximately \$38,087. Net operating loss carry forwards expires twenty years from the date the loss was incurred.

### NOTE 9. STOCK TRANSACTIONS

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

Transactions, other than employees' stock issuance, are in accordance with paragraph 8 of SFAS 123. Thus issuances shall be accounted for based on the fair value of the consideration received. Transactions with employees' stock issuance are in accordance with paragraphs (16-44) of SFAS 123. These issuances shall be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, or whichever is more readily determinable.

On January 25, 2008, the Company issued a total of 1,500,000 shares of common stock to Nan E. Weaver for cash in the amount of \$0.01 per share for a total of \$15,000.

On July 22, 2008 the Company issued a total of 1,000,000 shares of common stock to individuals for cash in the amount of \$0.025 per share for a total of \$ 25,000.

---

As of November 30, 2009 the Company had 2,500,000 shares of common stock issued and outstanding.

#### NOTE 10. STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes of capital stock as of November 30, 2009:

Common stock, \$ 0.0001 par value: 100,000,000 shares authorized; 2,500,000 shares issued and outstanding.

#### NOTE 11. SUBSEQUENT EVENT

Effective December 4, 2009 the Company completed a stock purchase agreement with Nan E. Weaver (the "seller"), three purchasers and their representative, another stock purchase agreement with the Seller, four purchasers and their representative, and another stock purchase agreement with the seller and one purchaser. Pursuant to the Stock Purchase Agreements the Seller will sell 7,500,000 post split shares of the Company that will, in the aggregate, constitute approximately 60% of the issued and outstanding capital stock of the Company. The closing of the transactions were subject to the completion of the 5-for-1 forward split.

#### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This quarterly report on Form 10-Q contains forward-looking statements that involve risk and uncertainties. We use words such as "anticipate", "believe", "plan", "expect", "future", "intend", and similar expressions to identify such forward-looking statements. Investors should be aware that all forward-looking statements contained within this quarterly report are good faith estimates of management as of the date of this quarterly report. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons.

#### BUSINESS

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

We are an exploration stage company engaged in the acquisition and exploration of mineral properties. Green Star Mining Corp. was incorporated in the State of Delaware on January 22, 2008. We are an exploration stage company with no revenues and a limited operating history. The principal executive offices are located at Room 42, 4th Floor, New Henry House, 10 Ice Street, Central, Hong Kong. The phone number is (00852) 2810 7822.

We received our initial funding of \$15,000 through the sale of common stock to our former director who purchased 1,500,000 shares of common stock at \$.01 per share on January 25, 2008. On July 22, 2008 we issued a total of 1,000,000 shares of common stock to 30 individuals for cash in the amount of \$0.025 per share for a total of \$25,000. From inception until the date of this quarterly report, we have had limited operating activities. Our financial statement from inception (January 22, 2008) through November 30, 2009 report no revenues and a net loss of \$38,087.

We currently own a 100% undivided interest in a mineral property, the Golden Princess Lode Mining Claim, located in the State of Nevada that we call the "Golden Princess Property." The Golden Princess Property consists of an area of approximately 20 acres located in the Sunset Mining District, Clark County, Nevada. Title to the Golden Princess Property is held by Green Star Mining Corp. Our plan of operation was to conduct mineral exploration activities on the Golden Princess Property in order to assess whether it possess deposits of minerals capable of commercial extraction.

We have not earned any revenues to date. We do not anticipate earning revenues until such time as we enter into commercial production of our mineral properties. We are presently in the exploration stage of our business and we can provide no assurance that we will discover commercially exploitable levels of mineral resources on our property, or if such deposits are discovered, that we will enter into further substantial exploration programs.

On September 11, 2008, our shares were approved for trading on the Over-the-Counter Bulletin Board under the symbol "GSTR". There has been no active trading of our shares.

12

On November 23, 2009, the Company approved a 5-for-1 forward stock split of all issued and outstanding shares of common stock of the Company. On November 25, 2009, the Financial Industry Regulatory Authority ("FINRA") approved the Company's application for forward stock split applicant. As a result, the total issued and outstanding shares of common stock of the Company were 12,500,000 common shares, effective on record date of December 7, 2009.

### PLAN OF OPERATION

#### MINERAL EXPLORATION ACTIVITIES

Our plan of operation prior to the change in control was to conduct mineral exploration activities on the Golden Princess Property in order to assess whether the property contains mineral reserves capable of commercial extraction. Our exploration program was designed to explore for commercially viable deposits of silver, gold and other minerals. We have not, nor has any predecessor, identified any commercially exploitable reserves of these minerals on the Golden Princess Property.

We engaged Mr. Laurence Sookochoff, P. Eng., to prepare a geological evaluation report on the Golden Princess Property. Mr. Sookochoff's report summarizes the results of the history of the exploration of the mineral claims, the regional and local geology of the mineral claims and the mineralization and the geological formations identified as a result of the prior exploration in the

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

claim areas. The geological report also gives conclusions regarding potential mineralization of the mineral claims and recommends a further geological exploration program on the mineral claims. The exploration program recommended by Mr. Sookochoff is as follows:

Phase -----	Exploration Program -----	Cost ----	Status -----
Phase I	VLF-EM and magnetometer surveys	\$ 6,500	Completed in July 2009.
Phase II	Localized soil surveys, trenching and sampling over known and indicated mineralized zones	\$11,000	Expected to be completed in 2009 (depending on funding consulting geologist's schedule)
Phase III	Test Diamond drilling outlined by Phase 1 and 2 programs.	\$65,000	Expected to be completed in 2009 (depending on the results of availability of funding and consulting geologist's schedule)
TOTAL ESTIMATED COST		\$82,500	

The geologist completed Phase I of the exploration program on the claim in July 2009.

13

The above program costs were management's estimates based upon the recommendations of the professional consulting geologist's report and the actual project costs may exceed our estimates. To date, we have not commenced exploration.

If we had proceeded with Phase II of our exploration program, the estimated cost of this program would be \$11,000 and would take approximately 10 days to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

Following Phase II of the exploration program, if it proves successful in identifying mineral deposits, we intended to proceed with Phase III of our exploration program if we would be able to raise the funds necessary. The estimated cost of this program was \$65,000 and would take approximately 2 weeks to complete and an additional two months for the consulting geologist to receive the results from the assay lab and prepare his report.

We anticipated commencing Phase II of our exploration program in early 2010 depending on whether Phase I program proved successful in identifying mineral deposits. Subject to financing, we anticipated commencing Phase III of our exploration program in fall 2010, depending on whether Phase II program proves successful in identifying mineral deposits. We had a verbal agreement with Laurence Sookochoff, P. Eng., the consulting geologist who prepared the geology report on our claim, to retain his services for our planned exploration program. We required additional funding to proceed with Phase III and any subsequent work on the claim. We had no current plans on how to raise the additional funding. We cannot provide investors with any assurance that we will be able to raise sufficient funds to proceed with any work after the first two phases of the exploration program.

### ACQUISITION PLAN

The Company completed a change in control on December 4, 2009. As of the change

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

in control, we determined that our original business plan was no longer financially feasible. From then on, we are pursuing an acquisition strategy, whereby we seek to acquire businesses with a history of operating revenues in markets that provide room for growth. We are engaged in identifying, investigating and, if warranted, acquiring companies that will enhance our revenues and increase shareholder value.

### RESULTS OF OPERATIONS

We are still in our exploration stage and have generated no revenues to date.

We incurred operating expenses of \$3,510 and \$2,682 for the three months ended November 30, 2009 and 2008, respectively. These expenses consisted of general operating expenses and professional fees incurred in connection with the day to

14

day operation of our business and the preparation and filing of our reports with the Securities and Exchange Commission. Our net losses from inception through November 30, 2009 were \$38,087.

Cash provided by financing activities for the period from inception through November 30, 2009 was \$40,000 consisting of \$15,000 from the sale of 1,500,000 shares of common stock to the director of the company for \$0.01 per share and \$25,000 from the sale of 1,000,000 shares of common stock to 30 individuals for cash in the amount of \$0.025 per share.

### LIQUIDITY AND CAPITAL RESOURCES

We are an exploration stage company and have generated no revenue to date. At November 30, 2009 our cash in the bank was \$1,913 with no outstanding liabilities. If we experience a shortage of operating funds during the next 12 months, we may utilize funds from our director, who has informally agreed to advance funds to us, however he has no formal commitment, arrangement or legal obligation to advance or loan funds to the company.

### ITEM 4. CONTROLS AND PROCEDURES

#### EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Management maintains disclosure controls and procedures, as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act"), that are designed to ensure that information required to be disclosed in Green Star Mining's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

In connection with the preparation of this quarterly report on Form 10-Q, an evaluation was carried out by management, with the participation of the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of November 30, 2009.

Based on that evaluation, management concluded, as of the end of the period covered by this report, that Green Star Mining's disclosure controls and procedures were effective in recording, processing, summarizing, and reporting information required to be disclosed, within the time periods specified in the Securities and Exchange Commission's rules and forms.

## Edgar Filing: Green Star Mining Corp. - Form 10-Q

### CHANGES IN INTERNAL CONTROLS OVER FINANCIAL REPORTING

As of the end of the period covered by this report, there have been no changes in Green Star Mining's internal controls over financial reporting during the quarter ended November 30, 2009, that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting subsequent to the date of management's last evaluation.
