PART 1

ITEM 1. DESCRIPTION OF BUSINESS

OVERVIEW

Genesis Technology Group Inc. ("Genesis" or the "Company") is a business consulting firm that specializes in assisting Western companies in entering the Chinese market for business development. Genesis acts as a resource for companies that desire expertise in marketing, distribution, manufacturing, forming joint ventures, or establishing a base in China. As a part of that strategy, Genesis is a member of the Shanghai Technology Stock (Property Rights) Exchange, an organization that promotes the influx of technology into China.

The Company's key area of focus is the Life and Health Science arena in China. Life and Health Science is comprised of different but related industries such as environmental science, biotechnology, pharmaceuticals and healthcare development. These industries range from water, soil, and air testing and remediation to hospital facility development and management. These are new and robust areas in China that desperately need attention and expertise. Genesis' goal is to assist Western companies that are active in these areas in entering the Chinese market.

In addition to its consulting services, Genesis has also acquired companies in the U.S. and China for the purposes of further developing these companies, with operational, managerial and financial support. Genesis' strategy envisions and promotes opportunities for synergistic business relationships among all of the companies that Genesis works with, both clients and subsidiaries.

We currently have 4 active subsidiary companies. We own 80% of one computer hardware and software manufacturer/distributor located in Shanghai China. We own 100% of two consulting companies, one in the U.S. and one in China. We own 85% of an inactive biotechnology-marketing firm that is located in the United States.

By building on the success of already successful businesses, Genesis intends to become an important player in the expanding Cross-Pacific marketplace - increasing its revenues, profitability and market value by accelerating the success of its subsidiaries and partner companies.

Company management and partners have been responsible for successfully negotiating contracts in China for over 10 years. The Company is able to bring talent in the areas of marketing, finance and business development to its clients and subsidiaries, to help guide those companies to success.

CONSULTING ACTIVITIES

In recent months, the company has been growing its Cross-Pacific

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

consulting business. Management believes that China's entrance into the WTO offers a unique opportunity for Genesis to secure itself a position as a leader in the growing market for cross-pacific products, technology, capital, and property exchange. To that end, Genesis markets itself to other U.S. firms interested in Chinese partnerships for manufacturing and distribution of a variety of products in China, with a strong focus on the Life and Health Science arena

2

Genesis currently has nine clients under contract. The company is assisting these clients in penetrating the Chinese market for the purposes of product and solutions sales, distribution, manufacturing, and/or research and development. To aid in achieving these goals, the company has signed on as a U.S. representative of the Shanghai Technology Stock (Property Rights) Exchange (STSE). STSE is a technology transfer exchange sponsored by the Shanghai Municipal Government with independent corporate qualifications. STSE is essentially a vehicle for the transfer of technology and property rights into China. As a representative of the STSE, we can directly introduce American companies and individuals who would like to sell or license intellectual property to a Chinese partner, or use technology to form a joint venture in China, to the STSE for purposes of listing their technologies or intellectual properties. Genesis clients pay a monthly retainer and a success fee based on any completed transactions, a portion of which goes to the STSE. In addition, the standard Genesis contract calls for the company to receive ongoing compensation by clients via a percentage of any licensing fees or an equity position in any joint ventures/partnerships formed with Chinese entities. The company will not become an investment company within the meaning of the Investment Company act of 1940.

Genesis does not accept competing clients; therefore the company is selective in accepting those with the best chance of success and with the strongest commitment. Prior to accepting a client, Genesis' management team and its Chinese affiliates conduct an extensive due diligence process to ensure that the company (1) has rights to the product or service offering, (2) the product or service is unique and of good quality and (3) that there is a large enough potential market in China.

Subsidiaries

As of the date of this filing, we have four active subsidiaries that we have either acquired or formed. For acquired subsidiaries, the goal is to assist the current management in growing the company by providing a broad range of financial, operational and managerial support services. Each of our subsidiaries are listed below.

Genesis Systems, Inc.

Genesis Systems, Inc., located in St. Paul, Minnesota, provides a wide range of business and financial services for public and private companies with an emphasis on early-stage technology companies. Services include:

- Organizing and synchronizing business milestones and funding
- Anticipating organizational needs (e.g. staffing and facility acquisition)
- Assisting in the implementation of the client's technology

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

- Designing partnerships and strategies necessary for the success of the business model
- Devising a business path that checkmates competitive players
- Identifying and qualifying potential merger and/or acquisition candidates

3

Genesis Systems also assists in investor and public relations issues with services such as; editorial and distribution assistance for press releases, media tracking, consulting on the formulation of cost-effective advertising campaigns, direct contact with the client's investors via phone, email or visits and development/improvement of client's web site to maximize investor information. Genesis Systems has established a network of strategic partners to assist in performing these services.

Genesis Systems is a wholly owned subsidiary, which was incorporated in the state of Minnesota in August 2000 and was acquired by Genesis Technology Group (at the time newagecities.com) on August 1, 2001 for a total of 10,312,500 shares of stock.

Yastock Investment Consulting Company, Limited

Yastock Investment Consulting Company, Limited is an investment consulting firm located in Shanghai, China that specializes in raising capital and consulting in a number of areas, including trading information, public relations, corporate management, corporate strategic evaluations and human resources. The company is dedicated to supporting the development of the Chinese capital market and providing medium and small enterprises with consulting services for marketing management, human resource management, stock investment, fund raising, financing, and going public in the US. Genesis acquired 80% of Yastock on December 1, 2001 in exchange for 92,000 shares of Genesis common stock. Genesis' wholly-owned subsidiary, Genesis Systems, Inc., previously acquired 20% of the issued and outstanding capital stock of Yastock on May 2001, making Yastock a 100% owned subsidiary.

In addition to its ongoing business, Yastock's management oversees all of Genesis' operations in China, including client relationships, liaison with the STSE, and is an important source of financial and operational support for Genesis' Chinese subsidiaries.

Yastock's Services include:

- Providing small and medium private technology enterprises with consulting services for obtaining a listing on the US stock market.
- Consulting services for the US enterprises wishing to invest in China and introducing advanced U.S. techniques to Chinese enterprises.
- Offering consulting services for client's management of investments in the Shenzhen and Shanghai stock markets.
- Offering investment banking and investor relations.
- Providing agency services for business applying for regulatory approval in China

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

- Offering consulting for human resources managers.
- Providing consulting for corporate asset evaluation.
- Offering consulting for corporate legal affairs.
- Providing consulting for mergers and acquisitions.

4

Shanghai Zhaoli Technology Development Company, Limited

Shanghai Zhaoli Technology Development Company, Limited is an Information Technology enterprise that integrates sales and technology with services. Currently, its sales cover printer, copier, scanner and network products, as well as network integration. The company is a general agent and/or distributor for a wide array of manufacturers, including Epson, Canon, Hewlett-Packard, Samsung and Star network products. The company has also qualified as a technical service center for Epson, Canon, Hewlett-Packard and OKI products.

In addition to hardware sales and service, the company focuses much of its resources on the development of proprietary software systems, such as its e-learning software for K-12 education in China. The program offers a full line of training and education programs delivered over the Internet. Zhaoli has also developed video streaming technology that it has integrated into the software. Video streamed delivery means that the program provides much the same experience as a live training program. However, Zhaoli students can stop and start the program at any time, review portions of the discussion now or in the future, and focus their studies where they need the most work.

The company has approximately 85 employees at seven branches and exclusive stores in Shanghai and a strong and growing presence throughout eastern areas of China. In 2000, Zhaoli realized gross sales of \$10 million. Genesis acquired 80% ownership of Zhaoli on November 15, 2001 in exchange for 400,000 shares of Genesis Common stock.

Biosystems Technologies, Inc.

Genesis management incorporated Biosystems Technologies, Inc. in Florida in October 2001 for the purpose of commercialization, marketing and distribution of biomedical products and technologies used to diagnose and treat HIV/AIDS, cancer and other immune-related diseases. Biosystems seeks to harness the latest scientific discoveries to commercialize and market the potential of proprietary technologies that will form the basis of a range of new and potentially effective treatments for a variety of diseases. Genesis owns 85% of Biosystems, with the remaining 15% owned by Dr. Ronald Watson, a noted immunology professor and researcher.

Unlike traditional biotechnology companies which can spend millions of dollars on research and development of new products, Biosystems operates as a "virtual" company, seeking unique products that are fully developed or in the final stages of development. Biosystems then attempts to commercialize and market these products via licensing agreements, with particular emphasis on introducing these products to China and the Pacific Rim. There can be no assurances that products will be acquired or developed or that Biosystems will have sufficient financial resources to bring these products to market.

The company has no current plans to market or distribute products in the U.S. that require FDA approval. Biosystems has no revenues and limited expenses. The company operates out of Genesis' St. Paul Minnesota office and management is

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

not taking any salary until the company begins to generate sales.

On August 14, 2001, Genesis acquired 100% of PropaMedia, Inc., a provider of media rich Web hosting and distribution services, located in Los Angeles, CA. Propamedia offers end-to-end streaming and hosting services, including content capture, encoding and production, storage, live and on-demand video and audio streaming, and managed services. PropaMedia's services can be used for video and audio distribution services to transmit entertainment, sports, news, advertising, business communications, and distance learning content. PropaMedia's technologies support all major Internet audio and video formats. PropaMedia has developed proprietary streaming technologies that increase the number of end-users able to view video content at once, improve end-users' video viewing experience, and provide clients with real-time monitoring and reporting. On December 16, 2002, the Genesis Board voted to discontinue the operations of PropaMedia as it does not complement the company's continuing focus on the China market. The Company is in negotiations to sell Propamedia to an unrelated party in the near future.

5

On August 22, 2001, we acquired a majority interest (80%) of Shanghai G-Choice Science Development Company, Limited (G-Choice). G-Choice's business services include computer product sales, network services, software development, and systems integration. G-Choice has extensive experience in computer system engineering, and software research and development, including its popular Point of Sale software, currently sold via a network of over 4,000 distributors throughout China. G-Choice was founded in 1999 and is located in Shanghai, China; has approximately 86 employees and has recently expanded its sales network to include other areas of China. On June 30, 2002, the Company sold G-Choice to theNetdigest.com, Inc.

In October 2001, we formed Espectus Systems, Inc. Espectus was an interactive, direct marketing company, specializing in permission-based e-mail marketing, media buying, customer relationship management and online surveys. Genesis owned 80% of Espectus. The company has discontinued the operations of Espectus as it was not generating significant cash-flow and did not complement Genesis' continuing focus on China.

Competition

The Company potentially faces competition from a variety of sources. Each of our subsidiaries faces competition from other companies sharing their market niche. In addition, Genesis Technology Group faces competition for its services from other consulting firms specializing in the Chinese markets and other entities, many that may possess substantially greater resources than Genesis. Almost all of the companies with which Genesis and its subsidiaries will compete are substantially larger, have more substantial histories, backgrounds, experience and records of successful operations, greater financial, technical, marketing and other resources, more employees and more extensive facilities than Genesis now has, or will have in the foreseeable future. With China's recent entrance into the World Trade Organization, it is also likely that other competitors will emerge in the near future. There is no assurance that Genesis will compete successfully with other competing companies. Inability to compete successfully might result in increased costs, reduced yields and additional risks to the investors herein.

RISK FACTORS AFFECTING OUR FUTURE RESULTS OF OPERATIONS

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

Our future results of operations involve a number of risks and uncertainties. With any business undertaking, their inherent unforeseeable risk in conducting business. The following paragraphs discuss a number of risks that could impact the company's financial condition and results of operations.

(a) Country risk

Currently, the Company's revenues are primarily derived from sale of computer equipment and accessories to customers in the Peoples Republic of China (PRC). The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

(b) Products risk

Our commenced revenue-producing operations are limited and the information available about us makes an evaluation of us difficult. We have conducted limited operations and we have little operating history that permits you to evaluate our business and our prospects based on prior performance. You must consider your investment in light of the risks, uncertainties, expenses and difficulties that are usually encountered by companies in their early stages of development, particularly those engaged in international commerce. In addition to competing with other computer and electronics equipment companies, the Company could have to compete with larger US companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel if access is allowed into the PRC market. If US companies do gain access to the PRC markets, it may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

6

(c) Exchange risk

The Company generates revenue and incurs expenses and liabilities in Chinese renminbi and U.S. dollars. As a result, the Company is subject to the effects of exchange rate fluctuations with respect to any of these currencies. Since 1994, the official exchange rate for the conversion of renminbi to U.S. dollars has generally been stable and the renminbi has appreciated slightly against the U.S. dollar. However, given recent economic instability and currency fluctuations in the world, the Company can offer no assurance that the renminbi will continue to remain stable against the U.S. dollar or any other foreign currency. The Company's results of operations and financial condition may be affected by changes in the value of renminbi and other currencies in which its earnings and obligations are denominated. The Company has not entered into agreements or purchased instruments to hedge its exchange rate risks, although the Company may do so in the future.

(d) Additional capital which may not be available

We have begun to receive monthly retainers from a growing number of clients as well as some capital from the exercise of options. We believe these funds will only partially cover the costs of our operations. Therefore, depending upon the timing and rate at which we are able to produce revenues from operations, we may require additional capital in order to fund our operations. We cannot predict whether additional financing, if required, will be available to us on acceptable terms.

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

(e) Our future performance is dependent on its ability to retain key personnel

Our future success depends on the continued services of executive management in the United States and China. The loss of any of their services would be detrimental to us and could have an adverse effect on our business development. We do not currently maintain key-man insurance on their lives. Our future success is also dependent on our ability to identify, hire, train and retain other qualified managerial and other employees. Competition for these individuals is intense and increasing.

(f) Our business depends significantly upon the performance of our subsidiaries, which is uncertain.

Currently, a majority of our revenues are derived via the operations of our subsidiaries. Economic, governmental, political, industry and internal company factors outside our control affect each of our subsidiaries. If our subsidiaries do not succeed, the value of our assets and the price of our common stock could decline. Some of the material risks relating to our partner companies include:

- Two of our subsidiaries are located in China and have specific risks associated with that;
- Intensifying competition for our products and services and those of our subsidiaries, which could lead to the failure of some of our subsidiaries;
- Our Biotechnology subsidiary, Biosystems, may be subject to changing governmental regulations and laws as they relate to the biomedical industry.

(g) A visible trading market for our common stock may not develop

Our common stock is currently traded on the Over-the-Counter Bulletin Board under the symbol "GTEC". The quotation of our common stock on the OTCBB does not assure that a meaningful, consistent and liquid trading market currently exists. We cannot predict whether a more active market for our common stock will develop in the future. In the absence of an active trading market:

- investors may have difficulty buying and selling or obtaining market quotations;
- market visibility for our common stock may be limited; and
- a lack of visibility for our common stock may have a depressive effect on the market price for our common stock.

7

Other Risk Factors

There are several risks and uncertainties, including those relating to the Company's ability to raise money and grow its business and potential difficulties in integrating new acquisitions, especially as they pertain to foreign markets and market conditions. These risks and uncertainties can materially affect the results predicted. Other risks include the Company's limited operating history, the limited financial resources, domestic or global economic conditions, activities of competitors and the presence of new or additional competition, and changes in Federal or State laws and conditions of equity markets.

Genesis' future operating results over both the short and long term will be

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

subject to annual and quarterly fluctuations due to several factors, some of which are outside the control of Genesis. These factors include but are not limited to fluctuating market demand for our services, and general economic conditions.

Employees

Genesis and its subsidiaries currently have approximately 100 full-time and part-time employees. No employee of Genesis is covered by a collective bargaining agreement nor is represented by a labor union. Genesis considers its employee relations to be good.

Genesis and its US subsidiaries have 6 full-time and part-time employees. Shanghai Zhaoli has 85 full-time and part-time employees. Shanghai Yastock has 20 full-time and part-time employees.

ITEM 2. DESCRIPTION OF PROPERTIES

Genesis Technology Group, Inc. leases approximately 2,496 sq. feet of office space in Boca Raton, Florida, under a three year lease. Such lease commenced January 1, 2003 with monthly rental payments of \$3,328.00 for year one and \$3,536.00 and \$3,744.00 per month for years two and three, respectively. In addition, the Company pays prorated amount of the building's operating expenses equal to approximately \$1,830 per month. Genesis Systems, Inc. and Biosystems Technologies, Inc. lease offices in St. Paul, Minnesota, on a month-to-month basis. Such lease commenced November 2001 with monthly rental payments of \$965. Zhaoli leases 18,800 square feet of office, retailing and warehouse space in Shanghai, China under a one-year operating lease with monthly rental payment of \$6,876. Yastock leases 2,200 square feet of office space in Shanghai, China under a one-year operating lease with monthly rental payments of \$12,000.

ITEM 3. LEGAL PROCEEDINGS

Master Financial Group, Inc. v Genesis Systems, Inc. (Court File No. 62-C7-01-000832) was filed on February 14, 2000, against Genesis Systems, Inc., a subsidiary of Genesis Technology Group, in the County of Ramsey, Minnesota, seeking to rescind a stock subscription agreement made with Genesis Systems, Inc. This lawsuit was dismissed without prejudice. We are not a party to any other material legal proceeding, nor are any of our officers, directors or affiliates a party adverse to us in any legal or regulatory proceeding.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITYHOLDERS

NONE

We have never paid cash dividends on our common stock. We intend to keep future earnings, if any, to finance the expansion of our business. We do not anticipate that any cash dividends will be paid in the foreseeable future.

In October 2001, the Company issued 250,000 shares of common stock to a consultant for investor relations. On November 15, 2001 and December 1, 2001, the Company issued 400,000 and 92,000 shares of common stock in connection with the acquisition of Zhaoli and Yastock, respectively. On August 5, 2002, the Company entered into a five-month consulting agreement with a third party for business development services. In connection with this consulting agreement, the Company agreed to issue an aggregate of 1,000,000 shares of common stock for services rendered over the contract period unless terminated earlier. During September 2002, the Company terminated this agreement. Accordingly, in connection with this agreement, the Company issued 200,000 shares of common stock for services rendered prior to termination.

In connection with the sale of a subsidiary, the Company received and cancelled 400,000 shares of the Company's common stock. In August and September 2002, in connection with consulting agreements, the Company issued 400,000 restricted shares of common stock for services rendered.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

The following analysis of the results of operations and financial condition of the Company should be read in conjunction with the financial statements of Genesis Technology Group, Inc. for the 12 months ended September 30, 2002 and notes thereto contained in the Report on Form 10-KSB of Genesis Technology Group, Inc. as filed with the Securities and Exchange Commission.

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

This report on Form 10-KSB contains forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in the forward-looking statements and from historical results of operations. Among the risks and uncertainties which could cause such a difference are those relating to our dependence upon certain key personnel, our ability to manage our growth, our success in implementing the business strategy, our success in arranging financing where required, and the risk of economic and market factors affecting us or our customers. Many of such risk factors are beyond the control of the Company and its management.

ACQUISITIONS AND DISPOSITIONS

As of the date of this filing, we have either acquired or started-up seven companies.

On August 1, 2001 we acquired Genesis Systems, Inc. of St. Paul, Minnesota. Genesis Systems provides a wide range of business and financial services for public and private companies with an emphasis on early-stage technology companies. These services include assistance in mergers and

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

acquisitions, capital raising and financing, strategic planning, public relations and operations. Genesis Systems has established a network of strategic partners to assist in performing these services.

On August 14, 2001, we acquired 100 % of PropaMedia, Inc., a provider of media rich Web hosting and distribution services, located in Los Angeles, CA. Propamedia offers end-to-end streaming and hosting services, including content capture, encoding and production, storage, live and on-demand video and audio streaming, and managed services. PropaMedia's services can be used for video and audio distribution services to transmit entertainment, sports, news, advertising, business communications, and distance learning content. PropaMedia's technologies support all major Internet audio and video formats. PropaMedia has developed proprietary streaming technologies that increase the number of end-users able to view video content at once, improve end-users' video viewing experience, and provide clients with real-time monitoring and reporting. On December 16, 2002, the Genesis Board voted to discontinue the operations of PropaMedia as it does not complement the company's continuing focus on the China market. We are in negotiations to sell Propamedia to an unrelated party in the near future.

On August 22, 2001, we acquired a majority interest (80%) of Shanghai G-Choice Science Development Company, Limited (G-Choice). G-Choice's business services include computer product sales, network services, software development, and systems integration. G-Choice has extensive experience in computer system engineering, and software research and development, including its popular Point of Sale software, currently sold via a network of over 4,000 distributors throughout China. G-Choice was founded in 1999 and is located in Shanghai, China; has approximately 86 employees and has recently expanded its sales network to include other areas of China. On June 30, 2002, the Company sold G-Choice to theNetdigest.com, Inc.

In October 2001, we formed two subsidiaries, each of which the company owns a majority interest in. The first was Espectus Systems, Inc. Espectus was an interactive, direct marketing company, specializing in permission-based e-mail marketing, media buying, customer relationship management and online surveys. Genesis owned 80% of Espectus. The company has discontinued the operations of Espectus as it was not generating significant cash-flow and did not complement Genesis' continuing focus on China.

The second subsidiary formed in October 2001 was Biosystems Technologies, Inc. Biosystems' mission is the commercialization, marketing and distribution of biomedical products and technologies used to diagnose and treat HIV/AIDS, cancer and other immune-related diseases. Biosystems seeks to harness the latest scientific discoveries to commercialize and market the potential of proprietary technologies that will form the basis of a range of new and potentially effective treatments for a variety of diseases. We own 85% of Biosystems, with the remaining 15% owned by Dr. Ronald Watson, a noted immunology professor and researcher.

Unlike traditional biotechnology companies which can spend millions of dollars on research and development of new products, Biosystems seeks unique products that are fully developed or in the final stages of development. Biosystems will then attempt to commercialize and market these products via licensing agreements, with particular emphasis on introducing these products to China and the Pacific Rim. There can be no assurances that products will be acquired or developed or that Biosystems will have sufficient financial resources to bring these products to market. As of September 30, 2002, Biosystems had no material operating activity.

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

On November 15, 2001, we acquired 80% of Shanghai Zhaoli Technology Development Company, Limited ("Zhaoli"), an Information Technology enterprise that integrates sales and technology with services. Currently, its sales cover printer, copier, scanner and network products, as well as network integration. In addition to hardware sales and service, the company focuses much of its resources on the development of proprietary software systems, such as its e-learning software for K-12 education in China. Zhaoli has approximately 65 employees at seven branches and exclusive stores in Shanghai and a strong and growing presence throughout eastern areas of China.

On December 1, 2001, we acquired 80% of Yastock Investment Consulting Company, Limited ("Yastock"), an investment consulting firm located in Shanghai, China that specializes in consulting for Chinese and American companies in a number of areas, including financial, public relations, corporate management, corporate strategic evaluations and human resources. In addition to its ongoing business, Yastock's management oversees all of Genesis' operations in China and is important source of financial and operational support for our Chinese subsidiaries. On January 1, 2002, we acquired the remaining 20% of Yastock, making it a wholly owned subsidiary. Yastock has 25 part and full-time employees.

CONSULTING ACTIVITIES

In addition to overseeing the operation of its subsidiaries, we have been growing our cross-pacific consulting business. Management believes that China's entrance into the WTO offers a unique opportunity for Genesis to secure itself a position as a leader in the growing market for cross-pacific products, technology, capital, and property exchange. To that end, we market ourself to other U.S. firms interested in Chinese partnerships for manufacturing and distribution of a variety of products in China, with a strong focus on the Life and Health Science arena

We currently have nine clients under contract. We are assisting these clients in penetrating the Chinese market for the purposes of product and solutions sales, distribution, manufacturing, and/or research and development. To aid in achieving these goals, we signed on as a U.S. representative of the Shanghai Technology Stock (Property Rights) Exchange (STSE). STSE is a technology transfer exchange sponsored by the Shanghai Municipal Government with independent corporate qualifications. STSE is essentially a vehicle for the transfer of technology and property rights into China. As a representative of the STSE, we can directly introduce American companies and individuals who would like to sell or license intellectual property to a Chinese partner, or use technology to form a joint venture in China, to the STSE for purposes of listing their technologies or intellectual properties. Our clients pay a monthly retainer and a success fee based on any completed transactions, a portion of which goes to the STSE. In addition, the standard Genesis contract calls for the company to receive ongoing compensation by clients via a percentage of any licensing fees or an equity position in any joint ventures/partnerships formed with Chinese entities.

RESULTS OF OPERATIONS

Year ended September 30, 2002 compared to nine months ended September 30, 2001

Our failure to successfully complete a planned financing of \$3 to 5 million in June 2001 resulted in the merger between the Company and New Leaf Distributing not being completed. Management believed that without the consummation of the merger and/or the financing, we could not continue to operate. Our limited revenues did not adequately cover expenses. As such, active operations were ceased in the end of June 2001. Until our recent acquisitions of several

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

companies subsequent to June 2001, our Company had no business operations other than those pertaining to the maintenance of our corporate existence and filing of reports required under the United States Securities and Exchange Commission.

12

REVENUES AND COSTS BY SEGMENT:

For the year ended ended September 30, 2002, we had consolidated revenues of \$14,325,651 as compared to \$75,334 for the nine months ended September 30, 2001. This increase resulted from the acquisition of our subsidiaries and is outlined below.

Genesis Systems, Inc.

Revenue for the year ended September 30, 2002 from Genesis Systems, Inc. was \$605,053. This revenue was generated from consulting service in which we received stock or cash for services. On March 26, 2002, we entered into a consulting agreement with the NETdigest.com, Inc., a publicly-traded company ("Netdigest"), to provide Netdigest with financial assistance in obtaining a suitable merger candidate for Netdigest to acquire and to facilitate reorganization thereafter. As consideration, we were paid a consulting fee in the form of 1,052,632 restricted common shares (post split) of Netdigest's publicly traded common stock. In connection with these shares, Genesis Systems, Inc. recorded consulting income of \$521,053. For the nine months ended September 30, 2001, we had \$75,334 of revenue from consulting services.

For the year ended September 30, 2002, other selling, general and administrative expenses of our Genesis Systems subsidiary consisted of salaries of \$56,000, rent of \$18,267, marketing and other expenses amounting to \$98,962. Additionally, we recorded a realized loss from the sale of marketable securities received for consulting services of \$9.575 for the year ended September 30, 2002 and wrote off good will of \$359,379 due to impairment. For the nine months ended September 30, 2001, operating expenses amounted to \$52,600 and included salaries of \$24,000.

13

Yastock

Revenue for the year ended September 30, 2002 from Yastock was \$339,602 as compared to \$0 for the nine months ended September 30, 2001. This revenue was generated from consulting services and software licensing fees.

Other selling, general and administrative expenses consisted salaries, commissions, accounting fees and office rent amounting to \$75,548.

Zhaoli

Revenue for the period from acquisition (November 15, 2001) to September 30, 2002 from Zhaoli, a Chinese Company, was \$13,373,246 as compared to \$0 for the nine months ended September 30, 2001. This revenue was generated from sales of printers, copiers, network equipment and software licensing fees. Cost of sales for Zhaoli for the period from acquisition (November 15, 2001) to September 30, 2002 amounted to \$13,153,326 or 98% of revenues as compared to \$0 for the nine months ended September 30, 2001.

For the period from acquisition (November 15, 2001) to September 30, 2002, other selling, general and administrative expenses consisted of salaries, rent and

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

other expenses amounting to \$213,040.

Other

We incurred additional selling, general and administrative expenses related to our corporate existence. For the year ended September 30, 2002, consulting expense amounted to \$494,223 compared to \$0 for the nine months ended September 30, 2001. The increase in consulting expense is attributable to the recording of consulting expense from the granting of stock options. For the year ended September 30, 2002, we had salary expense of \$251,420, rent of \$16,733, and other expenses consisting of professional fees and office expenses of \$237,517 as compared to professional fees and other expenses of \$22,211 for the nine months ended September 30, 2001.

14

Discontinued Operations

For the year ended September 30, 2002, we had income from discontinued operations of \$485,483 related to the discontinuation of our Propamedia subsidiary and the sale of our G-Choice subsidiary as compared to a loss from discontinued operations of \$(97,277) for the nine months ended September 30, 2001. Additionally, effective June 30, 2002, we sold our 80% interest in our subsidiary Shanghai G-Choice Science and Technology Development Company Ltd. ("G-Choice") for 1,549,791 common shares of the NETdigest.com, Inc. ("NET"). As a part of this transaction, G-Choice executive management, which is unaffiliated with Genesis received a total of 8,155,474 shares of NET stock and received from the Company an additional 210,526 shares of NET stock in exchange for 400,000 shares of the Company's stock. G-Choice is a Chinese company with principal offices in Shanghai, China. The Company concluded the sale of G-Choice as of June 30, 2002. As a result of the divestment of G-Choice, the Company recorded a \$475,304 gain from the sale of G-Choice in the quarter ended June 30, 2002. Additionally, in connection with acquisition of G-Choice, the fair value of net assets acquired exceeded the purchase price by \$290,003. SFAS 141 requires unallocated negative goodwill to be written off immediately as an extraordinary gain, rather than deferred and amortized. Accordingly, for the nine months ended September 30, 2001, we recognized an extraordinary gain of \$290,003.

See "Notes to Consolidated Financial Statements - Note 7, Segment Information" for additional information.

Overall

We reported a loss from operations (net of minority interest in income of subsidiaries) for the year ended September 30, 2002 of \$(679,128) compared to income from operations for the nine months ended September 30, 2001 of \$(912). Additionally, we reported income from discontinued operations for the year ended September 30, 2002 of \$485,483 as compared to a loss from discontinued operations of \$(97,277) for the nine months ended September 30, 2001.

This translates to an overall per-share loss of \$(.01) for the year ended September 30, 2002 compared to per share income of \$.02 for the nine months ended September 30, 2001.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2002, we had cash and equivalents balance of \$57,574. As of September 30, 2002, our cash position by geographic area is as follows:

Cash	
United States	\$ 7,475

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

China	47,099
Total	\$ 54,574

Management has invested substantial time evaluating and considering numerous proposals for possible acquisition or combination developed by management or presented by investment professionals, the Company's advisors and others. We continue to consider acquisitions, business combinations, or start up proposals, which could be advantageous to shareholders. No assurance can be given that any such project, acquisition or combination will be concluded.

We intend to continue our trading activities and as a consequence the future financial results of the Company may be subject to substantial fluctuations. As part of our investment activities, we may sell a variety of equity or debt securities obtained as revenue for consulting services. Such investments often involve a high degree of risk and must be considered extremely speculative.

15

At September 30, 2002, our Company had stockholders' equity of \$687,638. Our Company's future operations and growth will likely be dependent on our ability to raise capital for expansion and to implement our strategic plan.

Net cash used in operations was \$(492,666) for the year ended September 30, 2002 as compared to net cash used in operations of \$(120,552) for the nine months ended September 30, 2001. The difference is due to the implementation of our new business model and the acquisition of our subsidiaries between August and December 2001.

Net cash provided by investing activities for the year ended September 30, 2002 was \$90,047 as compared to \$180,326 for the nine months ended September 30, 2001. For the year ended September 30, 2002, we received cash acquired from acquisitions of \$106,790 compared to cash acquired of \$199,616 for the nine months ended September 30, 2001. For the year ended September 30, 2002, We received \$57,088 from the sale of marketable securities offset by cash used for capital expenditures of \$(73,831). For the nine months ended September 30, 2001, we used cash of \$14,290 and \$5,000 to acquire capital equipment and marketable securities, respectively.

Net cash provided by financial activities were \$395,419 for the year ended September 30, 2002 as compared to \$5,000 for the nine months ended September 30, 2001 and related to proceeds from the exercise of stock options and loans.

We currently have no material commitments for capital expenditures. Our future growth is dependent on our ability to raise capital for expansion, and to seek additional revenue sources. If we decide to pursue any acquisition opportunities or other expansion opportunities, we may need to raise additional capital, although there can be no assurance such capital-raising activities would be successful.

New Accounting Standards

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statements of Financial Accounting Standards No. 141 "Business Combinations" ("SFAS 141") and No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for under the purchase method. For all business combinations for which the date of acquisition is after June 30, 2001, SFAS 141 also establishes specific criteria for the recognition of intangible assets separately from goodwill and requires unallocated negative goodwill to be written off immediately as an extraordinary gain, rather than deferred and amortized. SFAS

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

142 changes the accounting for goodwill and other intangible assets after an acquisition. The most significant changes made by SFAS 142 are: 1) goodwill and intangible assets with indefinite lives will no longer be amortized; 2) goodwill and intangible assets with indefinite lives must be tested for impairment at least annually; and 3) the amortization period for intangible assets with finite lives will no longer be limited to forty years.

Statement No. 143, "Accounting for Asset Retirement Obligations," ("SFAS 143") requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, the entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The standard is effective for fiscal years beginning after June 15, 2002. The adoption of SFAS 143 on October 1, 2002 did not have a material effect on our results of operations or liquidity.

Statement No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144") supercedes Statement No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" ("SFAS 121"). Though it retains the basic requirements of SFAS 121 regarding when and how to measure an impairment loss, SFAS 144 provides additional implementation guidance. SFAS 144 excludes goodwill and intangibles not being amortized among other exclusions. SFAS 144 also supercedes the provisions of APB 30, "Reporting the Results of Operations," pertaining to discontinued operations. Separate reporting of a discontinued operation is still required, but SFAS 144 expands the presentation to include a component of an entity, rather than strictly a business segment as defined in SFAS 131, Disclosures about Segments of an Enterprise and Related Information. SFAS 144 also eliminates the current exemption to consolidation when control over a subsidiary is likely to be temporary. This statement is effective for all fiscal years beginning after December 15, 2001. The implementation of SFAS 144 on October 1, 2002 did not have a material effect on our financial position, results of operations or liquidity.

16

Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" ("SFAS 145") updates, clarifies, and simplifies existing accounting pronouncements. Statement No. 145 rescinds Statement 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. Statement 64 amended Statement 4, and is no longer necessary because Statement 4 has been rescinded. Statement 44 was issued to establish accounting requirements for the effects of transition to the provisions of the motor Carrier Act of 1980. Because the transition has been completed, Statement 44 is no longer necessary.

Statement 145 amends Statement 13 to require that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. This amendment is consistent with FASB's goal requiring similar accounting treatment for transactions that have similar economic effects. This statement is effective for fiscal years beginning after May 15, 2002. The adoption of SFAS 145 on October 1, 2002 did not have a material impact on our financial position, results of operations or liquidity.

Statement No. 146, "Accounting for Exit or Disposal Activities" ("SFAS 146")

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

addresses the recognition, measurement, and reporting of cost that are associated with exit and disposal activities that are currently accounted for pursuant to the guidelines set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to exit an Activity (including Certain Cost Incurred in a Restructuring)," cost related to terminating a contract that is not a capital lease and one-time benefit arrangements received by employees who are involuntarily terminated - nullifying the guidance under EITF 94-3. Under SFAS 146, the cost associated with an exit or disposal activity is recognized in the periods in which it is incurred rather than at the date the Company committed to the exit plan. This statement is effective for exit or disposal activities initiated after December 31, 2002 with earlier application encouraged. The adoption of SFAS 146 is not expected to have a material impact on our financial position, results of operations or liquidity.

Item 14. Controls and Procedures.

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Principal Executive Officer and Principal Financial Officer, to allow timely decisions regarding required disclosure. Management necessarily applied its judgment in assessing the costs and benefits of such controls and procedures which, by their nature, can provide only reasonable assurance regarding management's control objectives

Within 90 days prior to the date of this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-14. Based upon the foregoing, the Company's Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiary) required to be included in the Company's Exchange Act reports. There have been no significant changes in the Company's internal controls or in other factors which could significantly affect internal controls subsequent to the date the Company carried out its evaluation.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors
Genesis Technology Group, Inc
Boca Raton, Florida

We have audited the accompanying consolidated balance sheet of Genesis Technology Group, Inc. and Subsidiaries as of September 30, 2002, and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for the year ended September 30, 2002 and for the nine months ended September 30, 2001. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amount and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Genesis Technology Group, Inc. and Subsidiaries as of September 30, 2002, and the results of their operations and their cash flows for the year ended September 30, 2002 and for the nine months ended September 30, 2001, in conformity with accounting principles generally accepted in the United States of America.

GENESIS TECHNOLOGY GROUP, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2002

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES

The Company

Genesis Technology Group, Inc. (the "Company") is a business development firm that specializes in assisting small and mid-sized companies in entering the Chinese market. The Company's strategy includes marketing itself as a resource for these companies in marketing, distribution, manufacturing, forming joint ventures, or establishing a base in China. As a part of that strategy, the

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

Company has become a member of the Shanghai Technology Stock (Property Rights) Exchange, an organization that promotes the influx of technology into China. The Company also has acquired companies in the U.S. and China for the purposes of further developing these companies, with operational, managerial and financial support. The strategy also envisions and promotes opportunities for synergistic business relationships among all of the companies that Genesis works with, both clients and subsidiaries.

Genesis Technology Group, Inc., formerly Psychicnet.Com, Inc. ("Psychic"), was formed on January 29, 1999 to provide "New Age" services and products on the Internet. On April 6, 1999, Psychic was acquired by Virginia City Gold Mines, Inc. ("VCGM"), an Idaho corporation, for 2,200,000 shares of VCGM stock (the "Exchange"). The Exchange was completed pursuant to the Agreement and Plan of Reorganization between Psychic and VCGM. The Exchange has been accounted for as a reverse acquisition under the purchase method for business combinations. Accordingly, the combination of the two companies was recorded as a recapitalization of Psychic, pursuant to which Psychic is treated as the continuing entity. Subsequent to the Exchange, with the approval of the Board of Directors, VCGM changed its name to Newagecities.com, Inc ("Newage").

On August 1, 2001, Newage completed the Agreement and Plan of Reorganization and Stock Purchase Agreement entered into on July 23, 2001 with Genesis Systems, Inc., a Minnesota corporation and the shareholders of Genesis, Yongwen Zhuang, Fugen Li and Masterfinancial Group, Inc. As a result of the acquisition, the Company issued 10,312,500 shares of its common stock in exchange for all of the capital stock of Genesis Systems. As part of the transaction, Messrs. Joseph Ardito and Stanley Seigel resigned as officers and/or directors of the Company with Kenneth Shenkman continuing as an officer and director of the Company. In connection with the transaction, Yongwen Zhuang and Fugen Li each received 5,000,000 shares of Common Stock and Masterfinancial Group, Inc. received 312,500 shares of Common Stock of the Company. Genesis Systems, Inc. invests in and operates technology related companies in the U.S., China, Taiwan, Hong Kong and Singapore. Genesis Systems has been in existence since August 2000 and has earned revenues by providing consulting services for small public and private companies regarding public relations, corporate financing, mergers and acquisitions, e-commerce, business operations support and marketing. Genesis' strategy includes the internal development and operation of subsidiaries within the Company family, as well as investment in other technology companies either directly by the Company, or through other venture capital arrangements. Genesis will not operate as an investment company.

GENESIS TECHNOLOGY GROUP, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS September 30, 2002

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Company (Continued)

On August 22, 2001, Newage entered into a Stock Purchase Agreement with Shanghai G-Choice Science and Technology Development Company Ltd. ("G-Choice") and the shareholders of G-Choice. G-Choice is a Chinese company with principal offices in Shanghai, China. Under this agreement, the shareholders of G-Choice exchanged 80% of the issued and outstanding capital stock of G-Choice in exchange for 800,000 shares of the Company's common stock. Effective June 30, 2002, the

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

Company sold this subsidiary.

On October 12, 2001 the shareholders of Newage voted upon and approved an Agreement and Plan of Merger providing for the merger of the Company with and into Genesis Technology Group, Inc., a Florida corporation, wholly-owned by the Company. The purpose of the merger was to change the Company's domicile from Idaho to Florida. In addition, the Company's name has changed to Genesis Technology Group, Inc. (the "Company" or "Genesis"), which better reflects the Company's current business plan.

On November 15, 2001, the Company entered into a Stock Purchase Agreement with Shanghai Zhaoli Technology Development Company, Limited ("Zhaoli") and Zhaoli's shareholder. Zhaoli is a Chinese company with principal offices in Shanghai, China. Zhaoli is an information technology company that integrates sales and technology with services. Currently, its sales cover printer, copier, scanner and network products, as well as network integration. Zhaoli also develops proprietary software systems, such as its e-learning software for K-12 education in China.

On December 1, 2001, the Company entered into a Stock Purchase Agreement with Yastock Investment Consulting Company, Limited ("Yastock") and the shareholders of Yastock. Yastock is an investment consulting firm located in Shanghai, China that specializes in raising capital and consulting in a number of areas, including trading information, public relations, corporate management, corporate strategic evaluations and human resources.

Basis of presentation

The consolidated statements include the accounts of Genesis Technology Group, Inc. and its wholly and partially owned subsidiaries. All significant inter-company balances and transactions have been eliminated.

For purposes of the consolidated statements of cash flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less and money market accounts to be cash equivalents.

Inventory

Inventories, consisting of computer equipment and accessories, are stated at the lower of cost or market utilizing the first-in, first-out method.

Fair value of financial instruments

The carrying amounts reported in the balance sheet for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses, loans and amounts due to related parties approximate their fair market value based on

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

the short-term maturity of these instruments.

Income taxes

Income taxes are accounted for under Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes," which is an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns.

Marketable equity securities

Marketable equity securities consist of investments in equity of publicly traded and non-public domestic companies and are stated at market value based on the most recently traded price of these securities at September 30, 2002. All marketable securities are classified as available for sale at September 30, 2002. Unrealized gains and losses, determined by the difference between historical purchase price and the market value at each balance sheet date, are recorded as a component of Accumulated Other Comprehensive Income in Stockholders' Equity. Realized gains and losses are determined by the difference between historical purchase price and gross proceeds received when the marketable securities are sold.

POLICIES (Continued)

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Foreign currency translation

Transactions and balances originally denominated in U.S. dollars are presented at their original amounts. Transactions and balances in other currencies are converted into U.S. dollars in accordance with Statement of Financial Accounting Standards (SFAS) No. 52, "Foreign Currency Translation," and are included in determining net income or loss.

For foreign operations with the local currency as the functional currency, assets and liabilities are translated from the local currencies into U.S. dollars at the exchange rate prevailing at the balance sheet date. Revenues and expenses are translated at weighted average exchange rates for the period to approximate translation at the exchange rates prevailing at the dates those elements are recognized in the financial statements. Translation adjustments resulting from the process of translating the local currency financial

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

statements into U.S. dollars are included in determining comprehensive loss.

The functional currency of the Company's Chinese subsidiaries, Zhaoli and Yastock, is the local currency. The financial statements of the subsidiaries are translated to United States dollars using year-end rates of exchange for assets and liabilities, and average rates of exchange for the period for revenues, costs, and expenses. Net gains and losses resulting from foreign exchange transactions are included in the consolidated statements of operations and were not material during the periods presented. The cumulative translation adjustment and effect of exchange rate changes on cash at September 30, 2002 was not material.

Comprehensive Income (loss)

The Company uses Statement of Financial Accounting Standards No. 130 (SFAS 130) "Reporting Comprehensive Income". Comprehensive income is comprised of net loss and all changes to the statements of stockholders' equity, except those due to investments by stockholders', changes in paid-in capital and distributions to stockholders. Comprehensive income (loss) for the year ended September 30, 2002 and for the nine months ended September 30, 2001 amounted to \$(1,298,602) and \$206,658, respectively.

Concentration of Credit Risk

Financial instruments which potentially subject the Company to concentrations of credit risk consist principally of cash and trade accounts receivable. The Company places its cash with high credit quality financial institutions. Almost all of the Company's sales are credit sales which are primarily to customers whose ability to pay is dependent upon the industry economics prevailing in these areas; however, concentrations of credit risk with respect to trade accounts receivables is limited due to generally short payment terms. The Company also performs ongoing credit evaluations of its customers to help further reduce credit risk.

Research and development

Research and development costs are expensed as incurred.

Impairment of long-lived assets

The Company evaluates the recoverability and carrying value of its long-lived assets at each balance sheet date, based on guidance issued in SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of." Among other factors considered in such evaluation is the historical and projected operating performance of business operations, the operating environment and business strategy, competitive information and market trends.

Stock based compensation

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

The Company accounts for stock transactions in accordance with APB No. 25, "Accounting for Stock Issued to Employees." In accordance with Statement of Accounting Standards No. 123 ("SFAS 123"), "Accounting for Stock-Based Compensation," the Company adopted the pro forma disclosure requirements of SFAS 123.

Revenue recognition

The Company's revenues from the sale of products are recorded when the goods are shipped. Consulting income is recognized on a straight-line basis over the period of the service agreement. Deferred revenues relates to consulting revenues that is being recognized over the period of the service agreement.

Recent accounting pronouncements

In June 2001, the Financial Accounting Standards Board ("FASB") issued Statements of Financial Accounting Standards No. 141 "Business Combinations" ("SFAS 141") and No. 142 "Goodwill and Other Intangible Assets" ("SFAS 142"). SFAS 141 requires all business combinations initiated after June 30, 2001 to be accounted for under the purchase method. For all business combinations for which the date of acquisition is after June 30, 2001, SFAS 141 also establishes specific criteria for the recognition of intangible assets separately from goodwill and requires unallocated negative goodwill to be written off immediately as an extraordinary gain, rather than deferred and amortized. SFAS 142 changes the accounting for goodwill and other intangible assets after an acquisition. The most significant changes made by SFAS 142 are: 1) goodwill and intangible assets with indefinite lives will no longer be amortized; 2) goodwill and intangible assets with indefinite lives must be tested for impairment at least annually; and 3) the amortization period for intangible assets with finite lives will no longer be limited to forty years. Upon adoption of SFAS 142, the Company recorded a one-time, non-cash charge of \$359,379 to write off the carrying value of Genesis System, Inc.'s goodwill. Such charge is non-operational in nature and is reflected as a cumulative effect of an accounting change in the accompanying consolidated statement of operations.

Statement No. 143, "Accounting for Asset Retirement Obligations," ("SFAS 143") requires entities to record the fair value of a liability for an asset retirement obligation in the period in which it is incurred. When the liability is initially recorded, the entity capitalizes a cost by increasing the carrying amount of the related long-lived asset. Over time, the liability is accreted to its present value each period, and the capitalized cost is depreciated over the useful life of the related asset. Upon settlement of the liability, an entity either settles the obligation for its recorded amount or incurs a gain or loss upon settlement. The standard is effective for fiscal years beginning after June 15, 2002. The adoption of SFAS 143 on October 1, 2002 did not have a material effect on the Company's results of operations or liquidity.

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

Statement No. 144 "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144") supercedes Statement No. 121 "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of" ("SFAS 121"). Though it retains the basic requirements of SFAS 121 regarding when and how to measure an impairment loss, SFAS 144 provides additional implementation guidance. SFAS 144 excludes goodwill and intangibles not being amortized among other exclusions. SFAS 144 also supercedes the provisions of APB 30, "Reporting the Results of Operations," pertaining to discontinued operations. Separate reporting of a discontinued operation is still required, but SFAS 144 expands the presentation to include a component of an entity, rather than strictly a business segment as defined in SFAS 131, Disclosures about Segments of an Enterprise and Related Information. SFAS 144 also eliminates the current exemption to consolidation when control over a subsidiary is likely to be temporary. This statement is effective for all fiscal years beginning after December 15, 2001. The implementation of SFAS 144 on October 1, 2002 did not have a material effect on the Company's financial position, results of operations or liquidity.

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent accounting pronouncements (Continued)

Statement No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections" ("SFAS 145") updates, clarifies, and simplifies existing accounting pronouncements. Statement No. 145 rescinds Statement 4, which required all gains and losses from extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related income tax effect. As a result, the criteria in Opinion 30 will now be used to classify those gains and losses. Statement 64 amended Statement 4, and is no longer necessary because Statement 4 has been rescinded. Statement 44 was issued to establish accounting requirements for the effects of transition to the provisions of the motor Carrier Act of 1980. Because the transition has been completed, Statement 44 is no longer necessary.

Statement 145 amends Statement 13 to require that certain lease modifications that have economic effects similar to sale-leaseback transactions be accounted for in the same manner as sale-leaseback transactions. This amendment is consistent with FASB's goal requiring similar accounting treatment for transactions that have similar economic effects. This statement is effective for fiscal years beginning after May 15, 2002. The adoption of SFAS 145 on October 1, 2002 did not have a material impact on the Company's financial position, results of operations or liquidity.

Statement No. 146, "Accounting for Exit or Disposal Activities" ("SFAS 146") addresses the recognition, measurement, and reporting of cost that are associated with exit and disposal activities that are currently accounted for

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

pursuant to the guidelines set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to exit an Activity (including Certain Cost Incurred in a Restructuring)," cost related to terminating a contract that is not a capital lease and one-time benefit arrangements received by employees who are involuntarily terminated - nullifying the guidance under EITF 94-3. Under SFAS 146, the cost associated with an exit or disposal activity is recognized in the periods in which it is incurred rather than at the date the Company committed to the exit plan. This statement is effective for exit or disposal activities initiated after December 31, 2002 with earlier application encouraged. The adoption of SFAS 146 is not expected to have a material impact on the Company's financial position, results of operations or liquidity.

Reclassifications

Certain prior periods' balances have been reclassified to conform to the current period's financial statement presentation. These reclassifications had no impact on previously reported results of operations or stockholders' equity (deficit).

On August 1, 2001, the Company completed the Agreement and Plan of Reorganization and Stock Purchase Agreement entered into on July 23, 2001 with Genesis Systems, Inc., a Minnesota corporation and the shareholders of Genesis, Yongwen Zhuang, Fugen Li and Masterfinancial Group, Inc. As a result of the acquisition, the Company issued 10,312,500 shares of its common stock with a fair market value of \$701,250 in exchange for all of the capital stock of Genesis Systems. The Company accounted for this acquisition using the purchase method of accounting. The purchase price exceeded the fair value of net assets acquired by \$359,379. The excess has been applied to goodwill. The results of operations of Genesis Systems, Inc. are included in the accompanying financial statements from August 1, 2001 (effective date of acquisition) to September 30, 2001 and for the year ended September 30, 2002. As of September 30, 2002, the Company determined that the carrying value of its goodwill was impaired due to

continuing losses. Also, future positive cash flows could not be estimated. Upon adoption of SFAS 142, the Company recorded a one-time, non-cash charge of \$359,379 to write off the carrying value of Genesis System, Inc.'s goodwill. Such charge is non-operational in nature and is reflected as a cumulative effect of an accounting change in the accompanying consolidated statement of operations.

On August 14, 2001, the Company entered into a Stock Purchase Agreement with PropaMedia, Inc. ("PropaMedia") and the shareholders of PropaMedia. Under this agreement, the Company acquired all of the issued and outstanding capital stock of PropaMedia in exchange for all of the shares of Member Net, Inc., a wholly-owned subsidiary of the Company. Upon effectiveness of the Stock Purchase Agreement, PropaMedia became a wholly-owned subsidiary of the Company and the former shareholders of PropaMedia acquired a wholly-owned interest in Member Net, Inc. from the Company. The Company accounted for this acquisition using the purchase method of accounting. Propamedia began operations in July 2001. In September 2002, the Company decided to discontinue the operations of Propamedia. Propamedia is reported as a discontinued operation, and prior periods have been restated in the Company's financial statements and related footnotes to conform to this presentation.

Common Stock - Continued

In March 2002, the Company issued 300,000 and 141,000 shares of common stock to an officer and a consultant, respectively, in connection with exercise of 441,000 stock options for net proceeds of \$124,500.

In April 2002, in connection with the exercise of stock options, the Company issued 592,000 shares of common stock to two employees for promissory notes in the amount of \$133,000, which is shown in stockholders' equity as a subscription receivable.

In July 2002, in connection with the exercise of stock options, the Company issued 240,000 shares of common stock to a consultant for services rendered. Since the Company did not receive any cash for the exercise of these options, the Company recorded professional fees of \$38,400 based on the exercise price of the underlying stock option granted.

On August 5, 2002, the Company entered into a five-month consulting agreement with a third party for business development services. In connection with this consulting agreement, the Company agreed to issue an aggregate of 1,000,000 shares of common stock for services rendered over the contract period unless terminated earlier. During September 2002, the Company terminated this agreement. Accordingly, in connection with this agreement, the Company issued 200,000 shares of common stock for services rendered prior to termination. The Company valued these shares at their market value on the date of issuance of \$.16 per share and recorded consulting expense of \$32,000 related to the consulting services.

In connection with the sale of a subsidiary, the Company received and cancelled 400,000 shares of the Company's common stock.

In August 2002, in connection with the exercise of 200,000 stock options, the Company issued 200,000 shares of common stock for a promissory note in the amount of \$45,000, which is shown in stockholders' equity as a subscription receivable.

In August and September 2002, in connection with consulting agreements, the Company issued 400,000 restricted shares of common stock for services rendered. The Company valued these shares at their market value on the date of issuance of \$.12 per share and recorded consulting expense of \$42,000 and a prepaid expense of \$6,000 related to the consulting services.

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

On September 20, 2002, in connection with the exercise of stock options, the Company issued 980,000 shares of common stock to employees for services rendered. Since the Company did not receive any cash for the exercise of these options, the Company reduced accrued salaries by \$49,000 based on the exercise price of the underlying stock options granted.

Stock Options

On October 31, 2002, the Board of Directors adopted the Company's 2002 Stock Option Plan (the "2002 Plan"). The stated purpose of the 2002 Plan is to provide directors, officers and employees of, and consultants to the Company and its subsidiaries, if any, with additional incentives by increasing their ownership interests in the Company. Directors, officers and other employees of the Company and its subsidiaries are eligible to participate in the 2002 Plan. Options may also be granted to directors who are not employed by the Company and consultants providing valuable services to the Company and its subsidiaries. In addition, individuals who have agreed to become an employee of, director of or a consultant to the Company and its subsidiaries are eligible for option grants, conditional in each case on actual employment, directorship or consultant status. Any incentive option granted under the Plan must provide for an exercise price of not less than 100% of the fair market value of the underlying shares on the date of grant, but the exercise price of any incentive option granted to an eligible employee owning more than 10% of our outstanding common stock must not be less than 110% of fair market value on the date of the grant. The term of each Plan option and the manner in which it may be exercised is determined by the Board of Directors or the committee, provided that no option may be exercisable more than ten years after the date of its grant and, in the case of an incentive option granted to an eligible employee owning more than 10% of the common stock, no more than five years after the date of the grant. The maximum amount of options that may be granted under the 2002 Plan, as amended to date, are options to purchase up to 5,055,000 shares of Common Stock.

In October, 2001, 950,000 options were granted to James Wang with an exercise price of \$.29 per share, 1,000,000 options were granted to Kenneth Shenkman with an exercise price of \$.21, 240,000 options were granted to Adam Wasserman with an exercise price of \$.35 and 200,000 were granted to an employee of the Company with an exercise price of \$.16. The Company accounts for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Since the exercise price was greater than the current market value at the date of grant, no compensation expense has been recognized.

On October 1, 2001, the Company issued 500,000 stock options to a consultant for investor relations services. 250,000 of the options were granted with an exercise price of \$.25 per shares and 250,000 options were granted at \$.50. The

Edgar Filing: GENESIS TECHNOLOGY GROUP INC - Form 10-K

options expire on October 1, 2003. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: dividend yield of -0- percent; expected volatility of 131 percent; risk-free interest rate of 5.00 percent and an expected holding period of 2 years. In connection with these options, the company recorded consulting expense amounting to \$19,750.

Stock Options (Continued)

On January 25, 2002, the Company entered into a one year consulting agreement with a third party for business development and marketing services. In connection with this consulting agreement which commences on February 1, 2002, the Company shall grant 50,000 options per month to purchase shares of common stock for services rendered for an aggregate of 600,000 options. The options have an exercise price of \$.35 per share and expire five years from grant date. As of September 30, 2002, the Company has granted 400,000 options under this agreement. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: dividend yield of -0- percent; expected volatility of 108 percent; risk-free interest rate of 5.00 percent and an expected holding period of 5 years. In connection with these options, the company recorded consulting expense amounting to \$67,050.

In March 2002, 92,000 options were granted to an employee with an exercise price of \$.35 per share. The Company accounts for stock options issued to employees in accordance with the provisions of Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees," and related interpretations. As such, compensation cost is measured on the date of grant as the excess of the current market price of the underlying stock over the exercise price. Since the exercise price was greater than the current market value at the date of grant, no compensation expense has been recognized.

In March 2002, the Company entered into 12 month consulting agreements and granted an aggregate of 2,000,000 stock options (1,000,000 each) to two consultants for business development and marketing services. These options were granted with an exercise price of \$.33 per shares and expired on September 30, 2002. The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions: dividend yield of -0- percent; expected volatility of 108 percent; risk-free interest rate of 5.00 percent and an expected holding period of one-half year. In connection with these options, the company recorded consulting fees of \$176,000, which was amortized into consulting expense over the term of the option.

On April 29, 2002, the Company entered into a consulting agreement with a third party for business development and marketing services. In connection with this consulting agreement, the Company granted an aggregate of 300,000 options to purchase shares of common stock for services rendered. The options have an exercise price ranging from \$.23 to \$.36 per share and expire two years after the registration of the underlying shares. The fair value of each option grant

NOTE 12 - LEGAL PROCEEDINGS

Master Financial Group, Inc. v Genesis Systems, Inc. (Court File No. 62-C7-01-000832) was filed on February 14, 2001, against Genesis Systems, Inc., a subsidiary of Genesis Technology Group, in the County of Ramsey, Minnesota, seeking to rescind a stock subscription agreement made with Genesis Systems, Inc. In October 2002, this lawsuit was dismissed without prejudice. The dismissal of the lawsuit did not have any material impact on the Company's business and financial performance. Other than that, the Company is not a party to any material legal proceeding, nor are any of the Company's officers, directors or affiliates, a party adverse to us in any legal or regulatory proceeding.

NOTE 13 - OPERATING RISK

(a) Country risk

Currently, the Company's revenues are primarily derived from sale of computer equipment and accessories to customers in the Peoples Republic of China (PRC). The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

(b) Products risk

In addition to competing with other computer and electronics equipment companies, the Company could have to compete with larger US companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel if access is allowed into the PRC market. If US companies do gain access to the PRC markets, they may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

(c) Exchange risk

The Company can not guarantee that the current exchange rate will remain steady, therefore there is a possibility that the Company could post the same amount of profit for two comparable periods and because of a fluctuating exchange rate actually post higher or lower profit depending on exchange rate of Remnibi converted to US dollars on that date. The exchange rate could fluctuate depending on changes in the political and economic environments without notice.

(d) Political risk

Currently, PRC is in a period of growth and is openly promoting business development in order to bring more business into PRC. Additionally PRC allows a Chinese corporation to be owned by a United States corporation. If the laws or regulations are changed by the PRC government, the Company's ability to operate the PRC subsidiaries could be affected.
