Tax Expenses	6.4	6.8	0.4	6.3
Costs, Administrative and Selling Expenses	601.6	705.6	104.0	17.3

3.1. Salaries and Payroll Charges

It grew by R\$ 38.0 million or 17.7%, mainly due to the following factors:

- a) Increase in wages, benefits and payroll-related charges of 14.45% beginning May 2003, as a result of the collective labor agreement;
- b) Allocation of 2% of payroll to the redefinition of personnel roles and compensation (as from September 2003), related to the Performance-based Compensation Plan.

3.2. General Supplies

General supplies increased by R\$ 0.9 million or 4.7%, in most part due to maintenance of residential connections and networks.

3.3. Third Party Services

Third Party Services rose by R\$ 10.0 millions or 12.7%, motivated by higher advertising and marketing expenses and increased professional technical services.

3.4. Electric Power

Electric Power presented an increase of R\$ 21.6 million or 28.7%, due to the following factors:

- a) Growth in consumption from 509,233 MWh (1Q03) to 513,928 MWh (1Q04), or 0.9%;
- b) Increase of 0.45% due to the collection of the Emergency Capacity Charge (ECE), which changed from R\$ 5.7/MWh to R\$ 8.5/MWh
- c) Tariff readjustments authorized by ANEEL, for the various Electric Energy concessionaries that supply SABESP with a 15.69% weighted average increase between April 2003 and March 2004.
- d) Consumption estimates, based in the observed consumption measured by the concessionaries.

3.5. General Expenses

General expenses recorded an increase of R\$ 7.4 million or 33.9%, due principally to provisions related to environmental contingencies.

3.6. Depreciation and Amortization

Depreciation and amortization grew by R\$ 9.9 million or 7.4%, due to the incorporation of sites under construction to the permanent assets account, primarily in the first quarter of 2004.

3.7. Credit Write-offs

The variation of credit write-offs of 1Q04 compared to 1Q03 represents a R\$ 15.3 million increase. This results from the recovery of credits amounting to R\$ 11.5 million in 1Q03, related to the canceling and write-offs of inactive accounts.

4. Financial Expenses and Monetary Variations

a) Financial Expenses

Financial Expenses decreased by R\$ 40.3 million or 17.1%, due to:

- Interest expenses on domestic loans and financing caused a decrease of R\$ 22.2 million due to lower Certificates of Interbank Deposits (CDI) annual interest rate, used to calculate the interest of the Debentures.
- Interest expenses on foreign loans and financing decreased by R\$ 8.9 million, as lower interest was recorded due to lower outstanding debt, as a consequence of the appreciation of the real in relation to the US dollar in the quarter over quarter comparison;
- Income tax on remittances abroad was reduced by R\$ 6.7 million, as there was an interest payment related to the Eurobonds in January 2003.

b) Monetary and Foreign Exchange Variation

The Monetary and Foreign Exchange Variation increased by R\$ 148.0 million, due to the 5.1% appreciation of the Real in relation to the US dollar in 1Q03, compared to its 0.67% devaluation in 1Q04, which impacted foreign denominated debt.
