Sierra Wireless Reports Fourth Quarter and Fiscal Year 2003 Results

VANCOUVER, BRITISH COLUMBIA Sierra Wireless, Inc. (NASDAQ: SWIR, TSX: SW) is reporting better than expected fourth quarter results, including revenue of \$34.6 million, a profit of \$1.9 million and positive cash flow. The company is also reporting 2003 revenues of \$101.7 million and net earnings of \$2.3 million. The company is guiding for further revenue growth and continued profitability in the first quarter of 2004.

Our results are reported in US dollars and are prepared in accordance with United States generally accepted accounting principles. For the three months ended December 31, 2003, our revenue was \$34.6 million, operating expenses were \$13.0 million, net earnings were \$1.9 million and diluted earnings per share were \$0.08.

"We are pleased to report exceptionally strong results for the fourth quarter and the company's first one hundred million dollar revenue year. Both the quarter and the full 2003 year met our business objective of profitable growth and exceeded our expectations. Shipments of AirCards and embedded modules grew and North American revenues were up significantly during the quarter. New orders, including follow-on orders from existing customers, were above our expectations. Carrier testing and end customer beta trials of the Voq professional phone are well underway", said David Sutcliffe, Chairman and Chief Executive Officer. Looking ahead, we have good visibility on near term demand and we are investing in new products to drive future growth. These include our Voq professional phone, expected to ship commercially during the second quarter, and products for the new and expanding EVDO and EDGE networks. With positive cash flow and the proceeds from the recent financing, the company is well-positioned to capitalize on opportunities for further growth.
