FOR IMMEDIATE RELEASE

**Matav Reports Increased Revenues of NIS 150.9 Million in Q2 2004-
12% Increase Compared to Q2 2003**

NETANYA, Israel, August 26, 2004 **Matav-Cable Systems Media Ltd. (Nasdaq: MATV)**, a leading Israeli provider of digital cable television services, today reported second-quarter 2004 financial results. In this quarter, as in the previous quarter, Matav's financial results are proportionally consolidated with HOT Vision Ltd. (formerly ICP Ltd). The consolidation has no substantial effect on Matav's financial results.

Revenues for the second-quarter increased to NIS 150.9 million (US\$33.6 million) from NIS 134.4 million (US\$29.9 million) in second-quarter 2003. The increased revenues stem mainly from higher ARPU as well as from higher sales of fast Internet access services. Revenues for the six-month period increased to NIS 298.5 million (US\$66.4 million) from NIS 264.7 million (US\$58.9 million) in the comparable period in 2003.

At June 30, 2004, Matav had approximately 263,200 subscribers, compared with approximately 265,400 at March 31, 2004. During second-quarter 2004, the company's ARPU rose to NIS 212.4 (monthly, including 17% value-added tax) compared with NIS 191.0 in the second quarter of 2003. The company's fast Internet access service has attracted more than 80,000 subscribers to date.

Second-quarter operating expenses totaled NIS 120.6 million (US\$26.8 million) compared with NIS 115.9 million (US\$25.8 million) in the year-earlier period. The increase in operating expenses is mainly due to increased content expenses as a result of increased demand for tiering services as well as increased expenses related to the Company's fast Internet service. This increase was slightly offset by a decrease in the Company's depreciation costs. Operating expenses for the six-month period totaled NIS 240.9 million (US\$53.6 million) compared with 233.5 million (US\$51.9 million) for the comparable period in 2003.

Second-quarter gross profit improved 63.8% to NIS 30.3 million (US\$6.7 million) from 18.5 million (US\$4.1 million) in second-quarter 2003. Gross profit for the six-month period increased to NIS 57.6 million (US\$12.8 million) from 31.2 million (US\$6.9 million) in the comparable period in 2003.

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

Second-quarter selling and marketing expenses totaled NIS 16.5 million (US\$3.7 million), compared with NIS 9.4 million (US\$2.1 million) for second-quarter 2003. The increase is due mainly to higher advertising expenses associated with the continued penetration of the HOT brand in the Israeli market, as well as due to increased marketing expenses associated with the fast Internet service. Selling and marketing expenses for the six-month period reached NIS 31.4 million (US\$7 million) compared with 19.5 million (US\$4.3 million) for the comparable period in 2003.

Second-quarter G&A expenses totaled NIS 10.4 million (US\$2.3 million), compared with NIS 11.3 million (US\$2.5 million) for second-quarter 2003. G&A expenses for the six-month period totaled NIS 20.5 million (US\$4.6 million), compared with 23.1 million (US\$5.1 million) for the comparable period in 2003.

Second-quarter operating profit totaled NIS 3.3 million (US\$0.7 million), compared with an operating loss of NIS 2.2 million (US\$0.5 million) for second-quarter 2003. Operating profit for the six-month period totaled NIS 5.7 million (US\$1.3 million), compared with an operating loss of 11.4 million (US\$2.5 million) for the comparable period in 2003.

Second-quarter EBITDA improved 3.3% to NIS 37.8 million (US\$8.4 million) from NIS 36.6 million (US\$8.1 million) in second-quarter 2003. EBITDA for the six-month period totaled NIS 74.1 million (US\$16.4 million), compared with NIS 68.0 million (US\$15.1 million) in the comparable period in 2003.

Second-quarter financing expenses declined to NIS 16.2 million (US\$3.6 million) from NIS 30.7 million (US\$6.8 million) for the comparable quarter in 2003. The two numbers are not precisely comparable since the latest quarter's figure is nominal while the results for a year earlier are adjusted for the CPI. However, a substantial part of the reduction could be attributed to two factors: a reduction in the Company's net debt and a decrease in interest rates. Financing expenses for the six-month period decreased to NIS 28.5 million (US\$6.3 million) from NIS 45.5 million (US\$10.1 million) in the comparable period in 2003.

Matav's share in affiliated companies' profits in the second quarter was NIS 2.6 million (US\$0.6 million) compared with NIS 7.8 million (US\$1.7 million) in second-quarter 2003. The decrease is due mainly to a decline in Matav's share in Partner Communications' profits and due to Matav's share in Hot Telecom's losses. Hot Telecom was established as a limited partnership between the three cable companies in order to offer communication services over the cable infrastructure in Israel. Matav's share in affiliated companies' profits for the six-month period totaled NIS 6.3 million (US\$1.4 million) compared with NIS 11.2 million (US\$2.5 million) in second-quarter 2003

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

Matav reported second-quarter net loss of NIS 28.2 million (US\$6.3 million), or NIS 0.96 (US\$0.21) per ordinary share, compared with a net loss of NIS 22.6 million (US\$5 million), or NIS 0.78 (US\$0.17), for the year-ago quarter. Net loss for the six-month period reached NIS 35.2 million (US\$7.8 million), or NIS 1.2 (US\$0.27) per ordinary share, compared with a net loss of NIS 47.1 million (US\$10.5 million), or NIS 1.63 (US\$0.36), for the year-ago period.

Matav's CEO, Amit Levin, commented: Most of the improvement trends that we have seen in previous quarters continued in the present quarter, and once again we successfully increased our revenues. However, since the Israeli international telephony market has recently opened up for competition and since Barak is facing financial difficulties, we decided to perform a re-valuation of our investment in Barak Ltd. As a result of Barak's re-valuation, we decided to write-off our investment in Barak and therefore incurred a one-time other expense charge of NIS 16.2 million in this quarter.

We are currently in the midst of an operational merger with the two other cable companies. The merger will enable us to achieve higher levels of efficiency and uniformity in all aspects of our operations as well as improve our competitive positioning. We are also progressing towards operating our fixed-telephony services in the Israeli market, through HOT Telecom, by year-end. This new line of business will demand total investments of between US\$80 million and US\$100 million over the next three years, and our share in it will be 26 percent.

Management will conduct a teleconference today at 10:00 a.m. U.S. Eastern Time. To participate, please dial +1-866-860-9642 in the United States and +972-3-918-0610 internationally, several minutes prior to the start of the conference.

Matav is one of Israel's three cable television providers, serving roughly 25 percent of the population. Matav's investments include 5.3 percent of Partner Communications Ltd., a GSM mobile phone company, and 10 percent of Barak I.T.C. (1995), one of the three international telephony-service providers in Israel.

Edgar Filing: MATAV CABLE SYSTEMS MEDIA LTD - Form 6-K

(This press release contains forward-looking statements with respect to the Company's business, financial condition and results of operations. These forward-looking statements are based on the current expectations of the management of Matav Cable only, and are subject to risk and uncertainties, including but not limited to changes in technology and market requirements, decline in demand for the Company's products, inability to timely develop and introduce new technologies, products and applications, loss of market share and pressure on pricing resulting from competition, which could cause the actual results or performance of the Company to differ materially from those contemplated in such forward-looking statements. The Company undertakes no obligation to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. For a more detailed description of the risk and uncertainties affecting the Company, reference is made to the Company's reports filed from time to time with the Securities and Exchange Commission.)

- (*) EBITDA is presented because it is a measure commonly used in the telecommunications industry and is presented solely in order to improve the understanding of the Company's operating results and to provide further a perspective regarding these results. EBITDA, however, should not be considered as an alternative to operating income or income for the year as an indicator of the operating performance of the Company. Similarly, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity. EBITDA is not a measure of financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies.

EBITDA may not be indicative of the historic operating results of the Company. Nor is meant to be predictive of potential future results. Reconciliation between the operating profit in the financial statements and EBITDA is presented in the attached summary financial statements.

- (**) Not including proportional consolidation.
