FOR IMMEDIATE RELEASE

G. WILLI-FOOD INTERNATIONAL ANTICIPATES 23% REVENUE INCREASE FOR THIRD QUARTER 2007 AND 27% REVENUE INCREASE FOR NINE MONTHS 2007 OVER THE COMPARABLE PERIODS IN 2006

CONTINUED COST PRESSURE FOR DAIRY PRODUCTS TO IMPACT 2007 RESULTS
WILLI-FOOD INVESTMENTS INTENDS TO ACQUIRE RUSSIAN EGG AND POULTRY BUSINESS

YAVNE, ISRAEL - OCTOBER 11, 2007 - G. WILLI-FOOD INTERNATIONAL LTD. (NASDAQ: WILC) (the "Company"), one of Israel's largest food importers and a single-source supplier of one of the world's most extensive range of quality kosher food products, today announced preliminary expectations for revenue results for 2007 third quarter and nine-month periods, updated guidance for full year 2007 and commented on plans of its principal shareholder, Willi-Food Investments Ltd. (TASE: WLF) to acquire a Russian egg and poultry business.

G. Willi-Food International announced that it expects to report an approximately 23% increase in revenues for the 2007 third quarter over 2006 third quarter revenues and an approximately 27% increase in revenue for the nine-months of 2007 over the comparable period last year.

Zwi Williger, President and COO of G. Willi-Food International commented, "We continue to deliver revenue growth in a challenging environment. Our innovative product lines and extensive variety are helping us to manage revenue shortfalls in the dairy business. G. Willi-Food and the global dairy industry have been affected by primary supply prices and shortages stemming from a series of factors including weather related problems and reduced milk production at the same time that consumption and demand has increased in growing emerging markets. Moreover, G. Willi-Food is directly impacted by the cessation of butter and cheese export subsidies in the EU, which have led our primary supplier, Arla Foods, to further increase prices on its exports to us in the foreseeable period by approximately 50-80%."

"These trends are not likely to dissipate in the short term. We have been able to manage rising costs to date, but we now foresee that throughout the remainder of 2007 our near term sales and gross margins on cheeses and other products will continue to be negatively impacted, as customers react to higher prices. In anticipation of these challenges, we are revising our estimates for 2007 revenue growth to a range of 25-35% over the NIS 191.5 million (US \$45.1 million) in

reported revenues for 2006, adjusted for currency fluctuation," Mr. Williger added.

Mr. Williger said that G. Willi-Food expects global dairy prices to begin to stabilize beginning in mid-2008. The Company intends to continue to update the market and will also review its launch of US dairy in 2008, when the global manufacture of milk is expected to begin offsetting the steep price increases.

The Company also announced that it had been notified that its principle shareholder, Willi-Food Investments Ltd., intends to acquire a majority interest of an egg and poultry business in Russia from Mr. Arcadi Gaydamak (the principle shareholder of Willi-Food Investments Ltd.), which is reportedly one of the largest suppliers of eggs and poultry in Moscow and the surrounding region, although such transaction is subject to due diligence, board approval and other conditions precedent.

Mr. Williger noted that the potential acquisition might benefit G. Willi-Food International by providing an entry-point to begin marketing kosher food products to the Jewish community in Russia.

G. Willi-Food International expects to publish its financial results for the third quarter and nine-months of 2007 at the end of November 2007. The Company will host an earnings conference call at that time.
