Company Press Release

NOVA ANNOUNCES 2008 THIRD QUARTER RESULTS

Rehovot, Israel November 5, 2008 Nova Measuring Instruments Ltd. (Nasdaq: NVMI), provider of leading edge stand alone metrology and the market leader of integrated metrology solutions to the semiconductor process control market, today reported its 2008 third quarter financial results.

Highlights for the Third Quarter of 2008

Total revenues of \$8.8 million

Gross margin of 24%, including inventory write-off of \$0.9 million

Non-GAAP net loss of \$1.7 million, or \$0.09 per share; GAAP net loss of \$2.6 million, or \$0.14 per share

Progress with Stand Alone Optical CD, including final acceptance at an additional Fab of a major foundry in the Asia Pacific region plus a repeat order from the same foundry, as well as placement of additional evaluation system in Japan

A cost reduction initiative which will reduce operational expenses by approximately \$5 million in 2009

Strong cash reserves position with \$20.7 million on hand

2008 Third Quarter Results

Total revenues for the third quarter of 2008 were \$8.8 million, a decrease of 36% relative to the third quarter of 2007, and a decrease of 20% relative to the second quarter of 2008.

Edgar Filing: NOVA MEASURING INSTRUMENTS LTD - Form 6-K

Gross margin for the third quarter of 2008 was 24%, compared with 38% in the third quarter of 2007, and compared with 39% in the second quarter of 2008. Gross margins declined in the third quarter of 2008 mainly due to a \$0.9 million inventory write-off related to anticipated lower demand for older generation products. Excluding this write-off, gross margins in the third quarter of 2008 were 34%, reflecting the decline in product revenues. Within the services portion of the business, gross margin improved in the third quarter of 2008.

Operating expenses in the third quarter of 2008 were \$4.7 million, compared with \$9.2 million in the third quarter of 2007, and \$5.7 million in the second quarter of 2008. Operating expenses for the third quarter of 2007 and for the second quarter of 2008 included non-cash one-time impairment charges related to the Hypernex acquisition, of \$3.8 million and \$0.6 million, respectively.

On a GAAP basis, the company reported \$2.6 million net loss in the third quarter of 2008, or \$0.14 per share, as compared to a net loss of \$3.7 million, or \$0.19 per share, for the third quarter of 2007, and net loss of \$1.3 million, or \$0.07 per share, for the second quarter of 2008.

On a non-GAAP basis, which excludes stock-based compensation, amortization of intangibles, impairment charges and inventory write-off, the company reported net loss of \$1.7 million, or \$0.09 per share, for the third quarter of 2008. This compares with a non-GAAP net income of \$0.8 million, or \$0.04 per diluted share, in the third quarter of 2007, and a non-GAAP net loss of \$0.5 million, or \$0.02 per share, for the second quarter of 2008.

During the quarter, the company used \$2.3 million in cash for operating activities. Total cash reserves at the end of the third quarter of 2008 were \$18.5 million.

Subsequent to the quarter end, the company announced full recovery of its Auction Rate Securities investments, increasing its available cash reserves to \$20.7 million at the end of the third quarter of 2008. In addition, the company has implemented a cost reduction plan which included a reduction in force in all regions, and which is expected to reduce operational expenses by approximately \$5 million in year 2009. The company reported that the reduction in force included all parts of the organization except research and development, in which the company will continue to aggressively invest in order to increase its competitive advantage.

Management Comments

The impact of the global economic crisis on our industry and on the company is significant, and in recent quarters we have taken necessary measures in order to realign our operational run rate to this environment. The effectiveness of these ongoing efforts is evident in our strong cash position, which enables us to be selectively aggressive in executing our business goals, said Gabi Seligsohn, President and CEO of Nova. While further reducing our costs in most parts of the organization, we have decided to maintain the pace of our new and existing product development plans, and we are confident that our continued successful penetrations with the Stand Alone OCD tools, lay the foundation for increased market share and improving gross margins once demand improves.

The Company will host a conference call today, November 5, 2008, at 9:00am ET. To participate, please dial in the US: 1-888-281-1167; or internationally: +972 3 918 0650. A recording of the call will be available on Nova's website, within 24 hours following the end of the call.

In addition, the conference call will also be webcast live from a link on Nova's website at www.nova.co.il.

This press release provides financial measures that exclude non-cash charges for inventory write-off, stock-based compensation, impairment charges and amortization of intangible assets and are therefore not calculated in accordance with generally accepted accounting principles (GAAP). Management believes that these non-GAAP financial measures provide meaningful supplemental information regarding Nova's performance because they reflect our operational results and enhances management's and investors' ability to evaluate Nova's performance before charges considered by management to be outside Nova's ongoing operating results.

The presentation of this non-GAAP financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. Management believes that it is in the best interest of its investors to provide financial information that will facilitate comparison of both historical and future results and allows greater transparency to supplemental information used by management in its financial and operational decision making. A reconciliation of each GAAP to non-GAAP financial measure discussed in this press release is contained in the accompanying financial tables.

About Nova

Nova Measuring Instruments Ltd. develops, produces and markets advanced integrated and stand alone metrology solutions for the semiconductor manufacturing industry. Nova is traded on the NASDAQ & TASE under the symbol NVMI. The Company's website is

www.nova.co.il.

This press release contains forward-looking statements within the meaning of safe harbor provisions of the Private Securities Litigation Reform Act of 1995 relating to future events or our future performance, such as statements regarding trends, demand for our products, expected deliveries, transaction, expected revenues, operating results, earnings and profitability. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied in those forward-looking statements. These risks and other factors include but are not limited to: our dependency on a single integrated process control product line; the highly cyclical nature of the markets we target; our inability to reduce spending during a slowdown in the semiconductor industry; our ability to respond effectively on a timely basis to rapid technological changes; risks associated with our dependence on a single manufacturing facility; our ability to expand our manufacturing capacity or marketing efforts to support our future growth; our dependency on a small number of large customers and small number of suppliers; risks related to our intellectual property; changes in customer demands for our products; new product offerings from our competitors; changes in or an inability to execute our business strategy; unanticipated manufacturing or supply problems; changes in tax requirements; changes in customer demand for our products; risks related to currency fluctuations; anticipated consequences of the global economic crisis and risks related to our operations in Israel. We cannot guarantee future results, levels of activity, performance or achievements. The matters discussed in this press release also involve risks and uncertainties summarized under the heading

Risk Factors in Nova's Annual Report on Form 20-F for the year ended December 31, 2007 filed with the Securities and Exchange Commission on March 28, 2008, as amended. These factors are updated from time to time through the filing of reports and registration statements with the Securities and Exchange Commission. Nova Measuring Instruments Ltd. does not assume any obligation to update the forward-looking information contained in this press release.
