FOR IMMEDIATE RELEASE

**Alvarion® and eASPNet Partner to Deploy Mobile
WiMAX Network for Chunghwa Telecom in North-
Eastern County of Yilan, Taiwan**

*The first fully integrated broadband wireless network deployment driven by a
local government under the Mobile-Taiwan (M-Taiwan) program*

Tel Aviv, Israel, June 8, 2009 Alvarion Ltd. (NASDAQ:ALVR), the world's leading provider of WiMAX and wireless broadband solutions, and eASPNet, today announced the building of a new Mobile WiMAX network by Chunghwa Telecom in the northeastern county of Yilan for the local government under the M-Taiwan program. The network built using Alvarion's 4Motion® Mobile WiMAX solution will operate at 2.5 GHz frequency band and will provide a whole range of innovative wireless broadband services such as high speed mobile internet access, M-Learning, M-Commerce, M-Tour as well as video surveillance and IPTV services.

The broadband wireless network built using Alvarion's end-to-end mobile WiMAX solution and supported by eASPNet services covers Lodong Town, Yilan City, and popular scenic areas in Yilan County. It provides ubiquitous mobile internet service to Yilan residents, visitors and businesses. The network also enables video surveillance and IPTV services around the clock in the areas mentioned above. The mobility services

Edgar Filing: ALVARION LTD - Form 6-K

include the M-Learning for electronic student cards, the teaching platform service on the Media-on-Demand (MOD) system that digitizes the lecture in the classroom, M-Commerce for mobile business interaction, and M-Tour for travelers.

As a leading integrated services operator in Taiwan, Chunghwa Telecom is continuously looking to introduce new cutting edge services in the market. WiMAX technology will enable them to deliver this unique broadband network to the local government, said Tony Wu, CEO at eASPNet. Alvarion was chosen for this important project because of its technology leadership, its global deployment experience, and its ability to support Chunghwa Telecom's future requirements.

4

We are proud to partner with eASPNet to build the integrated broadband wireless network for Chunghwa Telecom. This award further emphasizes Alvarion's leadership in mobile WiMAX as we help enable a multitude of innovative wireless services in this region, said Tzvika Friedman, president and CEO of Alvarion. Our state of the art technology will keep Chunghwa Telecom at the forefront in the region by allowing it to bring the most innovative services to their customers.

Alvarion's 4Motion end-to-end turnkey solution includes fourth generation OFDM radio access network that provides state of the art 4G functionality in one of the industry's most deployed WiMAX platform with over 250 commercial deployments in service around the globe. Alvarion's solution provides the operators a reduced total cost of ownership by enhancing capacity and extending coverage through built-in advanced features based on IP and OFDM technology expertise that spans over 12 years.

About eASPNet

eASPNet Taiwan Inc was established in August, 2000. Equity partners include: Nortel Networks (Asia) Ltd., Uni-President Enterprises Corp, the Foxconn Group, Walsin Lihwa Holdings Ltd., Compal Electronics Inc., Based on the concept outsourcing, we provide a wide range of superior services that enterprises can take advantage for in telecommunication applications. These include Collocation Service, Value Added Service, Operation Service and eOutsourcing Service.

About Alvarion

Alvarion (NASDAQ: ALVR) is the largest WiMAX pure-player with the most extensive WiMAX customer base and over 250 commercial deployments around the globe. Committed to growing the WiMAX market, the company offers solutions for a wide range of frequency bands supporting a variety of business cases. Through its OPEN WiMAX strategy, superior IP and OFDMA know-how, and ability to deploy end-to-end turnkey WiMAX projects, Alvarion is shaping the new wireless broadband experience (www.alvarion.com).

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements are based on the current expectations or beliefs of Alvarion's management and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: potential impact on our business of the spread of the U.S. credit crisis and current global recession; the failure of the market for WiMAX products to develop as anticipated; Alvarion's inability to capture market share in the expected growth of the WiMAX market as anticipated, due to, among other things, competitive reasons or failure to execute in our sales, services provisioning, marketing or manufacturing objectives; inability to further identify, develop and achieve success for new products, services and technologies; increased competition and its effect on pricing, spending, third-party relationships and revenues; as well as the inability to establish and maintain relationships with commerce, advertising, marketing, and technology providers, and other risks detailed from time to time in the Company's 20-F Annual Report Risk Factors section as well as in other filings with the Securities and Exchange Commission.
