Brazilian ISP Ruralweb Deploys Gilat's Solution for its Rural
Broadband VSAT Network
Gilat's Cloud-based Network Operation Center (NOC)
assures continuous network availability and performance

Petah Tikva, Israel, July 20, 2016 -- Gilat Satellite Networks Ltd. (NASDAQ, TASE: GILT), a worldwide leader in satellite networking technology, solutions and services, announced today that Ruralweb Telecomunicações LTDA (Ruralweb), a Brazilian company providing fixed satellite Internet and IP services throughout the country, has deployed Gilat's solution for its rural broadband VSAT network.

The Ruralweb VSAT network, which delivers broadband Internet service to hundreds of rural remote sites across Brazil, is supported by Gilat's cloud-based Network Operation Center. NOC services include helpdesk, 24x7 network surveillance, exchange-to-exchange responsibility and all operations support systems.

"We chose Gilat for three reasons: expert support, service level assurance and an attractive pricing scheme," explained Marcus Krueel, Ruralweb's CEO. "These criteria, combined with Gilat's excellent track record in Brazil, enabled us to enter the rural broadband market relatively quickly and easily."

"By assuring network availability and performance, not only do we provide Ruralweb with complete peace of mind," added Russell Ribeiro, Gilat LATAM's Regional Vice President. "We also take pride in helping to deliver Internet service to some of the most hard-to-reach areas on the planet."

About Ruralweb

Ruralweb Telecomunicações LTDA (Ruralweb) is a Brazilian company authorized by ANATEL (National Telecommunications Agency) to provide fixed and mobile satellite Internet and IP services throughout the country. With an experienced team dedicated to quality of service and customer care, Ruralweb provides both hub and field services, including installation, maintenance, call center, help desk and commissioning. About Gilat

Gilat Satellite Networks Ltd (NASDAQ, TASE: GILT) is a leading provider of products and services for satellite-based broadband communications. Gilat develops and markets a wide range of high-performance satellite ground segment equipment and VSATs, with an increasing focus on the consumer and Ka-band market. In addition, Gilat enables mobile SOTM (Satellite-on-the-Move) solutions providing low-profile antennas, next generation solid-state power amplifiers and modems. Gilat also provides managed network and satellite-based services for rural telephony and Internet access via its subsidiaries in Peru and Colombia.

With over 25 years of experience, and over a million products shipped to more than 90 countries, Gilat has provided enterprises, service providers and operators with efficient and reliable satellite-based connectivity solutions, including cellular backhaul, banking, retail, e-government and rural communication networks. Gilat also enables leading defense, public security and news organizations to implement advanced, on-the-move tactical communications on board their land, air and sea fleets using Gilat's high-performance SOTM solutions. Gilat controlling shareholders are

the FIMI Private Equity Funds. For more information, please visit us at www.gilat.com
