04.01 NOTES TO THE CONSOLIDATED QUARTERLY FINANCIAL INFORMATION

(Convenience Translation into English of original previously issued in Portuguese)

EXPRESSED IN THOUSANDS OF REAIS**1 Operations and Background**

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

Aracruz Celulose S.A. ("Aracruz", "the Company" or "the Parent Company"), based in Aracruz, in the State of Espírito Santo, with plants located in the States of Espírito Santo (ES), Bahia (BA) and Rio Grande do Sul (RS), was founded in 1967 and is engaged in the production and sale of short-fiber wood pulp, obtained from eucalyptus timber extracted largely from the Company's own forests. It has installed production capacity of 3,010 thousand tons per annum, 2,130 thousand at the mill in Barra do Riacho - ES, 430 thousand at the mill in Guaíba - RS, and 450 thousand at the mill in Eunápolis - BA relating to its 50% share in Veracel Celulose S.A. (the total installed capacity at the latter mill in Bahia is 900 thousand).

Aracruz owns 50% of the capital stock of Veracel Celulose S.A. (Veracel), with the other half held by the Swedish-Finnish group Stora Enso. Operations at the Veracel mill, investments in which totaled approximately US\$ 1.25 billion, started up in May, 2005 and already by November it was producing at full capacity. The tree planting plan for Veracel's eucalyptus forests in Bahia continues to expand.

The Company's operations are integrated with those of its subsidiaries, which operate in: (i) the distribution of products on the international market [Aracruz Trading S.A., Aracruz Celulose (USA), Inc., Aracruz Trading Hungary Commercial and Servicing Limited Liability Company (Aracruz Trading Hungary Ltd.) and Riocell Limited], (ii) port services (Portocel - Terminal Especializado de Barra do Riacho S.A.), (iii) forestation and reforestation of eucalyptus trees on behalf of third parties, under an usufruct agreement with the Parent Company (Mucuri Agroflorestal S.A.), (iv) the manufacture of solid wood products (Aracruz Produtos de Madeira S.A.), (v) consulting services and international trading activities [Ara Pulp - Comércio de Importação e Exportação, Unipessoal Ltda. (Ara Pulp)] and (vi) pulp production (Veracel).

Aracruz Celulose S.A. and Suzano Bahia Sul S.A. (previously denominated Bahia Sul Celulose S.A.) jointly own assets comprised of 40 thousand hectares of lands and planted forests acquired from Floresta do Rio Doce S.A. - FRDSA, located in the northern region of the State of Espírito Santo. For the acquisition of its individual share of such assets, Aracruz Celulose S.A. made a commitment to pay consideration of R\$ 96.7 million from December 31 2002 through 2007. As of June 30, 2006 the outstanding balance is R\$ 10,248, recorded under current and long-term liabilities.

Based on the increase in the performance of port services to third parties and to the associated company Veracel, the need to carry out work to expand, revamp and enhance the Barra do Riacho Private Terminal. The Company's subsidiary Portocel contracted financing in the total amount equivalent to R\$ 50 million, which in Brazilian currency corresponds to R\$ 104,465 [Note 13(e)], to be invested in Phase 1 of the expansion project.

8

2 Presentation of financial information and significant accounting practices

The consolidated quarterly financial information has been prepared in conformity with accounting practices adopted in Brazil and procedures determined by the Brazilian Securities Commission - CVM and Institute of Independent Auditors - IBRACON, the most significant of which are as follows:

- a) Revenues mainly arise from long-term contracts and are recognized when the risk of ownership has passed to the customer. Other revenues, costs and expenses are calculated on the accrual basis of accounting.
- b) Inventories are stated at the lower of the average cost of purchase or production, and replacement of realizable values.
- c) The other short and long-term assets are stated at the lower of cost or net realizable value, including, when applicable, interest earned through to the balance sheet date.
- d) Permanent assets are carried at cost restated by government indices through December 31, 1995, combined with the following aspects: (i) recording of investments in affiliated, jointly controlled and associated companies by the equity method, using the accounting information according to the same accounting practices as the Parent Company; (ii) depreciation on a straight-line basis over the estimated useful lives of the

related assets (Note 11); (iii) timber depletion computed on the cost of cultivation and maintenance of the forests and calculated on the unit-of-production basis, net of tree-development costs benefiting future harvests; (iv) goodwill arising on acquisition, attributed to the fixed assets and deferred assets upon incorporation of the respective subsidiary [Note 12 (i)]; and (v) amortization of the deferred assets over the years that the benefits arising from them current are enjoyed (Note 12).

- e) Short and long-term liabilities are stated at their known or estimated values, including accrued financial charges and monetary and exchange variations through the balance sheet date.
- f) The preparation of the quarterly financial information requires Management to use estimates and judgments related to the recording and disclosure of assets and liabilities, including provisions necessary for losses on accounts receivable, provisions for losses on inventories, definition of useful lives of fixed assets, amortization of pre-operating expenses and goodwill on acquisitions of corporate investments, provisions for contingent liabilities and recognition of revenues and expenses. Actual results may vary from estimates and judgments made by Management.
- g) The consolidated quarterly financial information includes the following companies, all of which have the same base dates for presentation of their financial information and uniform accounting practices:

9

	Stake in Capital (%)
Pulp production:	
Aracruz Celulose S.A.	-
Veracel Celulose S.A.	50

Aracruz Produtos de Madeira S.A. <input type="checkbox"/> APM ^(*)	33.33
Special Purpose Company <input type="checkbox"/> SPC:	
Arcel Finance Limited [Note 13(c)]	-

(*) Aracruz holds a 1/3 share in the capital stock of Aracruz Produtos de Madeira S.A. and its stake is recorded under the equity method.

The exclusive funds recorded as short-term investments have been included in the Company's consolidation process (Note 4).

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

The consolidation procedures for the balance sheet and the statements of income reflect the sum of the balances of assets, liabilities, income and expenses accounts, together with the following eliminations: (i) stakes in capital, reserves and retained earnings (deficit) against investments, (ii) balances of intercompany current accounts and other assets and/ or liabilities, (iii) effects of significant transactions, (iv) separate reporting of participation of minority shareholders in results and stockholders' equity of the controlled companies and (v) elimination of unrealized profits among Group companies.

In accordance with Brazilian Securities Commission (CVM) Instruction 247/96, the Company proportionately consolidated its interest in Veracel, since it is jointly controlled (50%) under the terms of the shareholders agreement.

10

Summary financial statements of the jointly-controlled company Veracel, as proportionately consolidated by Aracruz, are as follows:

Operating profit (loss)	15,739	(2,010)
Net income (loss) for the period	(3,487)	(649)

(*) These sales of the jointly-controlled company in 2005 considered sales of eucalyptus wood to its Parent Company Aracruz for use as a raw material in its production process. In the consolidated financial statements the cost of the wood acquired from Veracel by Aracruz is reported under cost of sales. These transactions were discontinued after the first quarter of 2005, in that the Veracel mill began using its own wood production in the second quarter.

h) In order to enhance the quality of the information provided to the market, the Company is presenting, as additional information, the Statement of Cash Flows and the Statement of Value Added.

The Statement of Cash Flows was prepared in accordance with Pronouncement NPC-20, of the Brazilian Institute of Independent Auditors - IBRACON, reflecting transactions involving cash and cash equivalents of the Company, other than for securities with maturities above 90 days. This statement is divided into operating, investing and financing activities.

The Statement of Value Added, prepared in accordance with Pronouncement NPC-3.7 of the Federal Accounting Council - CFC, presents the result of the operations from the point of view of generation and distribution of value added, where the four main beneficiaries of the value generated by the activities of the Company are: employees, government, third party and shareholders' capital.

3 Marketable Securities

As of June 30 and March 31, 2006, the marketable securities recorded in the consolidated balance sheet chiefly comprise Certificates of Deposit (CDs) denominated in U.S. Dollars, placed overseas with leading financial institutions, through the Company's subsidiaries Aracruz Trading S.A., Aracruz Trading Hungary Ltd. and Riocell Limited, the original maturities of which are less than 90 days.

11

4 Short-term Investments

As of June 30 and March 31, 2006, the Company had units of ownership (quotas) in two exclusive private investment funds. The funds are comprised principally of Certificates of Deposit with leading Brazilian financial institutions, with final maturities between July of 2006 and July, 2011. The securities included in the portfolio of the private investment funds feature daily liquidity and are marked to market on a daily basis. The Company considers such investments as securities held for trading, with changes in fair market value reflected in results of operations.

These exclusive funds do not entail significant financial obligations. Any obligations are limited to the service fees paid to the asset management companies employed to execute investment transactions, audit fees and other general and administrative expenses. There are no consolidated assets of the Company that are collateral for these obligations and the creditors of the funds do not have recourse against the general credit of the Company.

Description	June 30, 2006	March 31, 2006
Certificates of Bank Deposit (CDBs)	311,784	389,188
Box of Options	166,730	243,121
Brazilian Federal Government Bonds	79,614	89,129
Debentures	87,521	87,341
Total	645,649	808,779

As of June 30, 2006, the difference between the Company and Consolidated balances, in the amount of R\$ 382,359, chiefly refers to CDBs denominated in Reais held at leading banks overseas through Aracruz's subsidiaries Aracruz Trading Hungary Ltd. And Portocel Terminal Especializado de Barra do Riacho S.A.

7 Related Parties

The transactions between the Company and its subsidiaries, jointly controlled and affiliated companies, such as purchases and sales of products, purchases of raw materials and contracting of services, are eliminated upon consolidation. The financial transactions, such as current account advances and pre- payment contracts, bear effective interest rates that vary from 6.50% to 8.00% per annum plus exchange variation, and are likewise eliminated in the consolidation process.

The deferred tax credits arising from accumulated tax losses and negative results for social contribution purposes at Veracel (on proportional bases) have been recorded as of June 30, 2006 backed up by economic viability studies approved by that company's management bodies. The breakdown of the Veracel balances and expectations for realization thereof are itemized year to year, as prescribed by CVM Instruction No. 371/02, and detailed below:

2009	2010	2011 to 2013	Total
------	------	--------------	-------

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

Income tax	1,005	1,465	11,536	13,906
Social contribution	1,447	2,110	1,449	5,006
Total	2,452	3,575	12,885	18,912

As described in Note 1, the jointly owned company Veracel started up its production during 2005 and its sales will have the required synergy with the Company's international distribution network. The economic viability study indicates full realization of the tax credits by the year 2013.

The remaining balance of R\$ 44,774 refers to deferred tax credits resulting from accumulated tax losses for income tax purposes and negative results for social contribution purposes at Aracruz. They will be realized, according to the Company's business plan, during the current fiscal year 2006.

(ii) The income tax and social contribution deferred on temporary differences are stated at net value. The principal temporary effect refers to the effect of credit exchange variation calculated for the current year (system for calculating tax and social contribution on a cash basis □ exchange effects).

15

(iii) Since the promulgation of Complementary Law No. 87 on September 13, 1996, the Company's Espírito Santo mill has been accumulating ICMS (State Value Added Tax □ VAT) credits, resulting from its predominantly export activity. The Company has the legal right, not contested by the tax authorities, to claim those credits from the State. However, due to the fact that the negotiations underway with the State in this regard have not permitted a reasonable estimate of the period for resolution of this matter, the Company has been recording a provision for losses of 100% of such ICMS credit balances recorded in the accounting books in relation to the unit in the State of Espírito Santo.

In August of 2005, the Company signed a Transaction Document with the state government, whereby it settled debts relating to the rate differential under litigation in the amount of R\$ 133 million. Of this total, R\$ 13 million have already been paid in cash and R\$ 120 million settled through offset with accumulated ICMS credits.

In September of 2005, the State government enacted new legislation allowing the transfer of accumulated ICMS credits resulting from exportation for other taxpayers who have debts resulting from assessment notices, notifications of debts or cancelled installment payment plans in relation to such taxes. The legislation, with the modifications introduced by a new law in June, 2006, establishes that companies should file for the right to carry out such transactions by no later than October 31, 2006. The Company has initiated such efforts and sees good possibilities of successfully negotiating part of its accumulated ICMS credits with third parties with the appropriate approval of the state authorities. In May of 2006 the Company carried out the first sale of ICMS credits to third parties in the amount of R\$ 1,339 thousand, with a discount of R\$ 402 thousand.

The amount of R\$ 9,757 at Aracruz, not covered by the provision for loss, chiefly refers to ICMS credits at the Guaíba Unit (RS), which the Company has been offsetting in the normal course of operations. The amount of R\$ 28,330 at the Consolidated level refers mainly to the ICMS credits at the jointly controlled company Veracel, net of the provision for losses. Management has been negotiating transfer of such credits to third parties and offset thereof with other operations subject to this tax with Bahia state authorities. According to its best estimates and judgment at present, the management of the jointly controlled subsidiary company believes that the provision set up as of June 30, 2006 is adequate and reflects the tax strategy to be adopted in the future.

(b) Income tax and social contribution reflected in results originate from:

9 Advances to Suppliers □ Forest Producer Program

The Forestry Producer Program is a partnership with rural producers, initiated in 1990 in the State of Espírito Santo and expanded to other states, such as Bahia, Minas Gerais, Rio Grande do Sul and, more recently, Rio de Janeiro. The Program encourages the planting of commercial forests of eucalyptus trees, in respect of which the Company provides technology, technical support, materials and financial resources, depending on the type of contract, in order to ensure supply of wood for pulp production. As of June 30, 2006, advances of funds amounted to R\$ 188,041 (Consolidated R\$ 204,149), compared with R\$ 179,924 (Consolidated R\$ 194,389) as of March 31, 2006, which are recovered against the delivery of the wood by the producers.

Total									

* The difference between the loss for the quarter and the equity results relates to the tax incentive booked under shareholders' equity in the amount of R\$ 3,055.

(a) Parent Company

- (i) During the second quarter of 2006, subsidiary Ara Pulp distributed dividends in the amount of R\$ 3,221.
- (ii) The effect of the exchange exposure of overseas investments is recorded under the heading "Equity pick-up" and the method adopted for translating overseas investments is the current exchange rate.

17

- (iii) The goodwill paid on the acquisition of Veracel, in the total amount of R\$ 50,305, was based on the market value of assets and on estimated future profitability of the business, of which the amount of R\$ 40,564 was amortized through June 30, 2006. Goodwill attributable to assets is amortized based on the realization (depreciation/write-off) of the market value of such assets, whereas goodwill based on estimates of future profitability is amortized based on the utilization of planted eucalyptus areas. In the latter case, the amortization is appropriated to the cost of forest- growing and is recognized in income in the year in which the trees are felled.

Of the goodwill of R\$ 839,305 arising on the acquisition of Riocell S.A. in 2003, R\$ 276,422 was allocated principally to fixed assets, while the unallocated portion of R\$ 562,883 (future profitability of the business) was transferred to deferred charges (Note 12).

(b) Consolidated

The consolidated balance of stakes in affiliated and subsidiary companies, in the amount of R\$ 19,727 (R\$ 19,727 as of March 31, 2006), represents Aracruz's share in its affiliated company Aracruz Produtos de Madeira S.A. The portion of the goodwill relating to the market value of the assets is allocated to property, plant and equipment in the consolidated financial statements (proportional consolidation of Veracel).

		1,890,919	1,695,957	3,340,392	3,095,623

(*) 100 per cent of the CDI rate.

(a) Loans from BNDES (stockholder)

Edgar Filing: ARACRUZ CELLULOSE S A - Form 6-K

As of June 30, 2006, Aracruz had financings in the total amount of R\$ 549,423 (March 31, 2006 -R\$ 580,926) from its stockholder Banco Nacional de Desenvolvimento Econômico e Social □ BNDES (the Brazilian Development Bank), subject to interest varying between 7.8% and 10.5% p.a., to be amortized in the period from 2006 to 2016.

As regards Veracel, as of June 30, 2006, BNDES financings amount to R\$ 715,468 (as of March 31, 2005 - R\$ 714,372), subject to interest varying from 7.00% to 11.50%, to be amortized in the period between 2006 and 2014. These amounts refer to the 50% share held by Aracruz in Veracel.

The financings granted by BNDES are guaranteed by mortgages, in varying degrees, of the industrial unit in the State of Espírito Santo and by Company lands and forests, as well as by a statutory lien on financed machinery and equipment.

21

(b) International Finance Corporation (IFC)

On April 12, 2006, the Company settled in advance without paying any bonus the loan agreement with the International Finance Corporation (IFC), the private sector line of the World Bank, in the amount of US\$ 50 million, with interest of 7.42% p.a., originally falling due between 2007 and 2014.

(c) Operation for securitization of export accounts receivable

In February 2002, the Company, through Aracruz Trading S.A., signed a financing agreement with a Special Purpose Entity (SPE) in which the Company has no equity stake or power to influence its management. Under this agreement, such entity received and advanced to the Company US\$ 250 million through issuance of Senior Secured Export Notes. In August 2003, a second tranche of Senior Secured Export Notes was issued, in the amount of US\$ 400 million under the same securitization program established in February 2002. In May 2004, a third tranche of Senior Secured Export Notes was issued, in the amount of US\$ 175 million under the same securitization program. In February 2004, Aracruz Trading Hungary Ltd. was included in the securitization program, in addition to Aracruz Trading S.A. The funds from these operations were transferred to Aracruz as advance payments for future pulp purchases.

In return, Aracruz Trading S.A. and Aracruz Trading Hungary Ltd. originally undertook to sell the SPE 95% of their total current and future export trade accounts receivable. In June 2003 this obligation was reduced to 80% of such receivables and this level has been maintained through the end of the first quarter of 2006. Each month the collections in excess of contractual funding requirements are transferred to Aracruz Trading S.A. and Aracruz Trading Hungary Ltd.

For its part, Aracruz Celulose S.A. (Parent Company) agreed to produce, sell and deliver pulp to Aracruz Trading S.A. and to Aracruz Trading Hungary Ltd. in sufficient amounts to ensure that the resulting receivables sold to the SPE are enough to satisfy the programmed payments of principal and interest of the notes payable.

In order to reduce financing costs and improve its debt profile, in March 2006 the Company exercised its right to make early settlement in full of the secured export notes issued in February 2002, and also made an offer to repurchase, on a voluntary sign-on basis, to the holders of the same notes issued in August of 2003 and May of 2004, thus bringing about early settlement of approximately 56% of its securitization debt. The following table details the early settlement of the principal and premium paid:

Tranche (Issue)	Principal Settled Early	Premium
February 2002	312,129	4,520
August 2003	378,314	14,962
May 2004	124,392	2,998
	814,835	22,480

The amount of the premium disbursed in the operation for early payment of the securitization debt was booked as a financial expense for the quarter ended March 31, 2006.

The table below summarizes the terms and conditions of the three tranches under the original securitization program:

Tranche/issue	Original credit line (US\$ Th.)	Interest (% p.a.)	Final due date	Outstanding balance	
				3/31/2006	12/31/2005
February 2002	250,000	5.984	February 2009		370,907
August 2003	400,000	7.048	September 2011	402,513	885,065
May 2004	175,000	6.361	May 2012	254,171	409,623
	825,000			656,684	1,665,595

As disclosed in Note 21 (d), Aracruz has provided collateral and guarantees in relation to these issues.

(d) Export prepayment operations

By way of substitution for the early redemption of the program for securitization of the Company's accounts receivable, in March 2006 prepayment operations were contracted with various banks in the total amount of US\$ 320 million, with interest rates varying between 5.11% p.a. and 5.64% p.a., with semi-annual payments and maturities of principal between March, 2008, and March of 2012, thus lengthening the average profile for amortization of the Company's gross indebtedness and reducing the funding cost of the financings.

To further lengthen the average profile for amortization of gross debt and reduce funding costs, in the second quarter of 2006 the Company contracted prepayment operations with various banks in the total amount of US\$ 159 million, with interest charges varying between 5.76% and 6.41% p.a., with semi-annual installments and payments of the principal falling due between March 2011 and June 2013.

(e) Export credit note

In May 2006 the Company's subsidiary Portocel - Terminal Especializado de Barra do Riacho S.A., contacted an Export Credit Note operation in the amount of R\$ 104 million (US\$ 50 million), at interest equivalent to 100% of the CDI rate, semi-annual installments and payments of the principal between June 2008 and December 2013, in order to expand port facilities. Also linked to this operation was the contracting of a DI x US\$ swap transaction, with the same maturity terms and transformation of the interest rate into exchange variation + 5.985% p.a.

14 Financial Instruments (CVM Instruction No. 235/95)

(a) Risk management

Aracruz and its subsidiaries operate internationally and are exposed to market risks from changes in foreign exchange rates and interest rates. The exposure of the Company to liabilities denominated in U.S. Dollars does not represent risk from an economic and financial point of view, given that exchange variances arising from the future settlement in local currency of foreign currency denominated liabilities are offset by exchange variances in the opposite direction arising from operating income, as almost all sales are exported.

Further in terms of protection of export operations, derivative financial instruments also are used by Company Management to mitigate the exchange risks, the position of which as of June 30, 2006 is represented by 7,925 future dollar contracts through the Brazilian Futures Market (BM&F), with notional value of R\$ 858 million (US\$ 396 million). In the second quarter of 2006, operations of this type resulted in gains of approximately R\$ 6 million

(R\$ 52 million in 2nd quarter 2005).

(c) Market value

The estimated market values were determined using available market information and other appropriate valuation methodologies. Accordingly, the estimates presented herein are not necessarily indicative of amounts that the Company could realize in the market. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated market value amounts.

The estimated market values of the Company's financial instruments as of June 30, 2006 can be summarized as follows:

	Parent Company		Consolidated	
	Book	Market	Book	Market
Assets				
Cash and cash equivalents	1,380	1,380	54,397	54,397
Marketable securities	15,051	15,051	239,856	239,856

Short- and long-term investments	651,111	651,111	1,033,470	1,033,470
Liabilities				
Short- and long-term financings (including interest)	2,067,299	2,067,299	3,741,677	3,755.162

The market value of the financial assets and short- and long-term financings, when applicable, has been determined using current rates available for operations on similar terms, conditions and remaining maturities.

15 Stockholders' Equity

(a) Capital and reserves

As of June 30, 2006, the Company's authorized capital is R\$ 2,450,000 and the subscribed and paid-in capital is R\$ 1,854,507, represented by 1,032,554 thousand register shares, without par value, comprising 455,391 thousand common shares, 38,022 thousand Class A preferred shares and 539,141 thousand Class B preferred shares. The Class A stock may be converted into Class B stock at any time. Shares of capital stock issued by Aracruz are held in custody at Banco Itaú S.A.

The market values of the common and Class A and Class B preferred shares, based on the last quotation at the leading Brazilian stock exchange BOVESPA prior to the closing date for the quarter, were R\$ 11.90, R\$ 12.15 and R\$ 11.37 per share, respectively.

According to the Company's Bylaws, preferred shares do not vest voting rights, but have priority on return of capital in the event of liquidation of the Company. The preferred shares are entitled to a dividend that is 10% higher than that attributed to each common share, albeit without priority in terms of receiving same. Without prejudice to such right, the Class A preferred shares are assured priority in receiving a minimum annual dividend of 6% of their share of the capital stock.

At the Annual General Meeting (AGM) of Stockholders, which was held on April 28, 2006, part of the income for the year ended December 31, 2005 was allocated to the Investment Reserve, in the amount of R\$ 647,957. This reserve is intended to cover Company investment plans.

(b) Dividends and interest on capital invested

Stockholders are assured by the Company's Bylaws of a minimum annual dividend equivalent to 25% of the Parent Company's net income, adjusted by any increases or decreases in the reserves, as defined in applicable corporate legislation.

As permitted by Law No. 9249 of December 26, 1995, the Company elected, during the second and first quarters of 2006, to pay interest on capital invested (stockholders' equity) to the stockholders. This interest is calculated on the reported stockholders' equity and is limited to the daily variation in the Long-Term Interest Rate - TJLP, amounting to R\$ 74,000 and R\$ 89,000, respectively.

Based on the Company's operating cash generating capacity and in addition to the interest already declared in capital invested, the AGM held April 28, 2006, authorized distribution of dividends for the year 2005 in the amount of R\$ 150,000, which works out to R\$ 151.63 per batch of one thousand Class A and B preferred shares and R\$ 137.85 per batch of one thousand common shares.

(c) Treasury stock

At a meeting held June 3, 2005, the Aracruz Board of Directors, in the manner provided by item XIV of Article 16 of the Company's Bylaws and Articles 1 and 8 of CVM Instruction No. 10 of February 14, 1980, authorized the Executive Officers Committee to trade shares issued by the Company itself up to the limit of 15 million Class A and Class B preferred shares. The Company's aim is subsequent disposal and/or cancellation of these shares, without decreasing the capital stock.

As of June 30, 2006, the Company held 483 thousand common shares and 1,483 thousand Class B preferred shares as treasury stock, the market values of which as of that date were R\$ 11.90 and R\$ 11.37, respectively, per batch of one thousand shares.

16 Employee Postretirement Benefit Plan - ARUS

The Aracruz Employee Pension Fund ARUS (Fundação Aracruz de Seguridade Social) is a private pension fund which operates in the form of a multi-sponsor fund on a non-profit basis. In September 1998, the previously existing pension plan was substituted by a defined contribution system for retirement (Arus Retirement Plan).

The Company sponsors the Arus Retirement Plan and, during the second quarter of 2006, its total contribution was approximately R\$ 1,40 (R\$ 2,611 in the second quarter of 2005).

Should the sponsor withdraw from the Retirement Plan, the sponsor's commitment made under Resolution No. CPC 06/88 (issued by the Brazilian Supplementary Retirement Benefits Council) is totally covered by the plan's assets.

17 Insurance Coverage

In view of the nature of its activities, the Company has adopted the policy of contracting insurance coverage to meet its requirements, taking into account the classic differences in risks (manufacturing plant, forests and port). Based on systematic risk analyses, together with modern insurance techniques, the Company purchases insurance coverage in accordance with the maximum possible loss concept, which corresponds to the maximum amount subject to destruction in a single event.

As of June 30, 2006, the Company's assets were insured against losses for a total amount of approximately US\$ 500,000, corresponding to the maximum limit of indemnity per event.

18 Contingencies

The juridical situation of Aracruz Celulose S.A. and subsidiaries/jointly controlled company includes labor, civil and tax suits. Based on the representation of external legal counsel, Management believes that the appropriate legal procedures and steps taken in each situation are sufficient to preserve the stockholders' equity of the Parent Company, without additional provisions for loss on contingencies besides the amount recorded as of June 30, 2006.

(a) Labor claims

The most significant labor claims are in respect of alleged salary losses due to inflation indices and economic plans imposed by past governments.

In a suit claiming additional compensation for alleged hazardous conditions at the plant, the Labor Court of the municipality of Aracruz has agreed to part of the claims of the employees, as represented by their Labor Union. The Company has appealed the decision.

As of June 30, 2006, the Parent Company maintained provisions in the approximate amounts of R\$ 36,067 (Consolidated □ R\$ 37,967) to cover possible unfavorable decisions, as well as deposits in court in the amount of R\$ 16,165 (Consolidated - R\$ 21,789).

(b) Brazilian Social Security Institute - INSS

In March 1997, the Company received assessment notices from the Brazilian Social Security Institute -INSS relating principally to accommodation allowances. The inspectors took the view that the subsidized rentals constituted indirect salaries (remuneration in kind). As a consequence, the INSS inspectors argued, this process results in underpayment of the corresponding social security contributions. The Company filed a suit for declaratory judgment to challenge such assessments, with a view to cancellation of the notices, which amount to approximately R\$ 16,000.

As of June 30, 2006, the Company's deposits in court in relation to this case amounted to approximately R\$ 17,000. Based on the advice of its legal counsel, who ranked the likelihood of loss in this case as possible, Management has not set up any provision for any unfavorable decisions.

(c) PIS/COFINS

The Company disagrees with the legitimacy of the claim for these taxes and filed for a court injunction against the changes in the bases for calculation of PIS and COFINS, as well as the increase in the COFINS rate, imposed by Law No. 9718/98. A preliminary injunction was issued in favor of the Company on April 5, 1999. Due to unfavorable court decisions for other taxpayers in similar lawsuits, on August 29, 2003 the Company decided to withdraw part of claims filed, and chose to adhere to the PAES program □ special payment in installments, in the amount of R\$ 56,241 □ created by Law No. 10684/2003, and maintained only the claims regarding exchange differences. The remaining amount, related to the period from February 1999 to September 2003, is approximately R\$ 53,096 as of June 30, 2006, already adjusted to current price levels based on the SELIC interest rate, which is appropriately reflected in the quarterly financial information in the provision for contingencies under long-term liabilities.

(d) Social Contribution on Net Income □ Non-incidence on export revenues

In September 2002, the Company obtained a restraining order that give it the right not to pay Social Contribution on Net Income (CSLL) generated by export sales from January 2002, as well as the right to recognize the amounts of tax credits previously offset in this regard, adjusted by the SELIC rate, in the amount of R\$ 187,823 as of June 30, 2006, for which it maintains a provision booked under long-term liabilities.

(e) IRPJ □ Deductibility of Social Contribution on Net Income (CSLL)

On June 29, 2005, the Parent Company was assessed relating to deductibility of CSLL from taxable income for IRPJ purposes for fiscal years 2000 and 2001, the existing provision for which was supplemented by the amount of R\$ 3.6 million, bringing the total to R\$ 38 million.

In July 2005, in view of case law development (jurisprudence), the Company decided to appeal the assessment, although it recalculated the basis for calculation thereof, arriving at the amount of R\$ 24.4 million. The Company has maintained the lawsuit, in which the suspension of the demand for the tax credit has not yet been granted to it.

(f) IRPJ/CSLL □ full offset of accumulated tax losses and negative results

On June 29, 2005, the Company was assessed related to full offset of accumulated tax losses (NOLs) for IRPJ purposes and negative results for CSLL purposes for fiscal years 2000 and 2001, as well as relating to the full offset, in fiscal year 2000, of the tax loss generated during the period it enjoyed the export tax benefit known as the BEFIEEX. The amount provided for related to this assessment as of June 30, 2006 is R\$ 111.4 million.

The Company has filed a law suit and obtained a court order suspending requirement to pay the tax credits relating to the full offset of the IRPJ accumulated tax losses and negative CSLL results.

(g) Other

Based on the opinion of its legal counsel, the Parent Company maintains on its accounting records a provision for other tax contingencies in the total approximate amount of R\$ 33.6 million (R\$ 43.5 million Consolidated relating to tax and civil cases involving subsidiaries and jointly controlled subsidiary). For these other contingencies, the Parent Company has on deposit in court the amount of approximately R\$ 14.6 million (Consolidated R\$ 14.6 million as well).

19 Tax Incentives - ADENE

Since Aracruz is located within the geographic area of ADENE (Agency for the Development of the Northeast) and Decree No. 4213 of April 16, 2002 recognized pulp and paper sector as a priority in the development of the region, the Company claimed and was granted the right by the Federal Revenue Service (SRF) in December of 2002 the right to benefit from reductions in corporate income tax and non-refundable surcharges on adjusted operating profits for plants A and B (period from 2003 to 2013) and plant C (period from 2003 to 2012).

On January 9, 2004, the Company received Official Letter No. 1406/03 from the Extrajudicial Administrator of the former Northeast Development Agency (SUDENE), informing that "[pursuant to re-examination by the Juridical Consultancy of the Ministry for Integration as regards the coverage of the cited incentive granted,] it considered that it was inappropriate for Aracruz to enjoy the benefit previously granted and accrued, which caused revocation thereof.

During fiscal years 2004 and 2005, notifications with the objective of annulling the related tax benefits were issued by ADENE and repeatedly challenged and/or contested by the Company. This culminated in an Assessment Notice drawn up against the Company in December 2005 by the SRF, in which the latter government agency required payment back to public coffers of the amounts of the tax incentives used so far, plus interest, albeit without imposition of any fines, for a total amount of R\$ 211 million. The Company filed a challenge against this assessment and is presently awaiting a decision.

Company Management, in conjunction with its legal counsel, believes that the decision to cancel the ADENE tax benefits is incorrect, both with respect to the benefits used and in relation to the remaining period. Both the Management and its legal counsel believe that the chances of success are to be ranked as possible. In this sense, Aracruz believes that the cited cancellation will not affect the benefits accrued through the end of the previous period (R\$ 142,858 as of December 31, 2004, recorded under Capital Reserves). Therefore, no provision has been set up in relation to the tax benefits recognized through December 31, 2004 in the quarterly financial information as of June 30, 2006.

20 Reconciliation of Stockholders' Equity and Results of Operations for 2nd Quarter - Parent Company and Consolidated

	2006	2006
Stockholders' Equity	June	March
Stockholders' Equity - Parent Company	4,626,698	4,468,198

Provision for devaluation of inventories at affiliated companies		9,900

Income tax and social contribution on unearned income	2,344	(5,107)
Net Income for the 1 st Quarter - Consolidated	348,980	200,766

Commitments

(a) Supply of chemical products

Long-term agreements were signed between Aracruz and Canadanoxy Chemicals Holdings Ltd., in December of 1999 and May of 2002, for the supply of chemical products to the former, under which the Company pledged to acquire volumes of chemical products conservatively projected for a period of 6 years as from the dates the contracts were signed. The contracts include clauses for suspension of supply and breach of contract which are normal on the market, such as *Force Majeure*, as well as performance incentives such as sharing of productivity gains, preference prices and "take-or-pay". Volumes purchased by the Company in addition to the minimum agreed for a given year may be compensated with lower volumes acquired in subsequent years.

(b) Supply of wood

The Company signed a contract with Suzano Bahia Sul S.A. with a view to a loan of 1,900 thousand m³ of eucalyptus wood, amounts that were received through June of 2005 and for which the Company, based on its present forest formation costs, has provided the amount of R\$ 18,018 as of June 30 and March 31, 2006. The contract calls for return of an equivalent volume on similar operating terms between 2007 and 2008.

(c) Indian Communities - Terms of settlement

In the first half of 1998, local Indian communities and the Company entered into Terms of Settlement ("TACs") whereby both parties recognized the legitimacy of Administrative Rulings Nos. 193, 194 and 195, all dated March 6, 1998, issued by the Federal Ministry of Justice, which determined the enlargement of the Indian reservation by 2,571 hectares of land belonging to the Company. Aracruz committed itself to a financial aid program to be implemented through social, agricultural, educational, shelter and health projects, up to an amount of approximately R\$ 13.5 million (historical amount),

monetarily restated each month by one of the official inflation indices (General Market Price Index - IGP-M or Consumer Price Index - IPC) or such other indices as may replace them in the future, whichever is greater. The value of this financial assistance was to be disbursed over a 20-year period, conditioned to the accomplishment of certain obligations by the Indian communities.

Despite the TACs in force, during the year 2005 members of the Indian communities invaded some forestry areas and the Company's industrial premises. Although Aracruz had obtained provisional measures for reinstatement of its ownership of the invaded areas, at end of the year the Indians still occupied approximately 11,000 hectares of land to which the Company is legally entitled. Since the invasion represented breach of the TACs by the Indian communities, the Company -- after having

notified the communities themselves, the National Indian Foundation - FUNAI and the Federal Public Prosecutor -- suspended all commitments to the Indian communities under the TACs as of May 2005.

As of June 30, 2006, in relation to the time the TACs were being complied with, the Company had donated the amount of R\$ 9,597 to the Indian Associations.

On February 17, 2006, FUNAI published Decisions Nos. 11 and 12 in the Official Federal Gazette (D.O.U.), approving the conclusion of a working group set up by FUNAI Administrative Ruling No. 1299/05, which recommended expansion of the current Indian reserves by about 11,000 hectares, comprised almost entirely of lands owned by Aracruz. As it is confident of the legitimacy of its rights, the Company intends to file timely challenges to such Decisions. Aracruz will not suffer significant impacts on its business should the supply of time

from such lands be hampered by this demand.

(d) Guarantees

As of June 30, 2006, collateral signatures and other such guarantees granted to other Company subsidiaries and jointly controlled subsidiaries, relating to third party loans and legal challenges filed by these companies, are represented as follows:

Aracruz Trading Hungary Ltd.	632,491
Veracel Celulose S.A.	913,808
Portocel □ Terminal Especializado de Barra do Riacho S.A.	104,460
Total	1,650,759

EXPRESSED IN THOUSANDS OF REAIS**(Except where indicated otherwise)**

Aracruz Celulose S.A. posted consolidated net income of R\$ 227,950 for the second quarter of 2006, compared with consolidated net income of R\$ 492,925 in the same quarter last year. The variation in the results over the second quarter of 2005 largely reflects the lower exchange variation of assets and liabilities denominated in U.S. Dollars, partly offset by the higher volume of sales so far in 2006.

1. OPERATING ACTIVITIES**Commercial Performance**

Pulpwood sales for the second quarter of 2006 totaled 669 thousand tons (consolidated □ 720 thousand tons), representing a slight rise (1%) in relation to the same quarter of 2005, with 98% of this amount being shipped to foreign markets. The average net price in the second quarter just ended was US\$ 392/t (consolidated - US\$ 542/t), which represents a healthy rise of 14% at the parent company level (consolidated rise of 5%) compared with the price of US\$ 343/t (consolidated - US\$ 516/t) in the same quarter of 2005.

Operating Performance

The Company's pulpwood output was 674 thousand tons in the second quarter, 4% higher than the production for the same period of 2005. The unit cost of production in the quarter, expressed in R\$, was 2% higher than for the second quarter of 2005, chiefly brought on by the rise in the cost of wood.

Parent Company**ANALYSIS OF COSTS**

R\$ / TON

	2nd Qt. 2006	2nd Qt. 2005
Cost of Sales (*)	643	640
Selling Expenses	26	23

17.01 SPECIAL REVIEW REPORT - UNQUALIFIED

(Convenience Translation into English of original previously issued in Portuguese)

Special Review of Quarterly Financial Information as of June 30, 2006

(Free Translation from Portuguese Original)

To the Administrators and Stockholders,
Aracruz Celulose S.A.

Aracruz - ES

1. We have conducted a special review of the Quarterly Financial Information - ITR of Aracruz Celulose S.A. (Parent Company and Consolidated) for the quarter and half ended June 30, 2006. These interim financial statements are the responsibility of the Company's management and were prepared in accordance with accounting principles generally accepted in Brazil on the basis of corporate legislation, encompassing the balance sheets, statements of income and performance reports.
2. Our review was conducted in accordance with the specific norms established by the Brazilian Institute of Independent Auditors - IBRACON, in conjunction with the Federal Accounting Council, and consisted mainly of: (a) making inquiries of and engaging in discussions with the Administrators responsible for the accounting, financial and operational areas of the Company and its subsidiaries regarding the criteria adopted in preparing the quarterly financial information; and (b) reviewing the subsequent information and events that have or may have significant effects on the financial situation and operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the Quarterly Financial Information referred to in the first paragraph above, in order for it to be in accordance with the accounting principles generally accepted in Brazil on the basis of corporate legislation, applied in a manner consistent with the standards issued by the Brazilian Securities Commission (CVM) specifically applicable to the disclosure of mandatory Quarterly Financial Information.
4. Our special review was conducted for the purpose of issuing a report on the Quarterly Financial Information - ITR referred to in the first paragraph above, taken as a whole. The statements of cash flow and value added for the quarter ended June 30, 2006, which are being presented in order to provide supplementary information on the Company and its subsidiaries, are not required as an integral part of the Quarterly Financial Information - ITR. These statements of cash flow and value added for the quarter ended June 30, 2006 have been submitted to the same review procedures described in the second paragraph above and, based on our special review, we are not aware of any material modifications that should be made to these supplementary interim financial statements, in order for them to be presented fairly, in all material respects, in relation to the Quarterly Financial Information for the quarter and half ended June, 2006, taken as a whole.
5. The balance sheets as of March 31, 2006 (Parent Company and Consolidated) and statements of income, cash flow and value added for the quarter ended June 30, 2005, presented for comparison purposes, were reviewed by us and our reports on our special reviews, dated April 6, 2006 and July 8, 2005, respectively, were issued without qualifications.
