Notice of Annual Meeting of Stockholders and 2016 Proxy Statement

Q&A with our Lead Director

How would you evaluate PRA Group's performance in 2015?

PRA has always focused on creating long-term stockholder value and it remains a priority for both the Board of Directors and for PRA Management. In 2015, PRA had a good year in several key areas that I believe will add value over the long term. For example, debt buying, excluding acquisitions, was at an all-time high in 2015 and we saw continued growth in cash collections across the globe. In addition, our growth in international investments, both through new market entry and through significant portfolio purchases, should position us well for the future. None of us are pleased with the recent stock price performance, but we remain focused on producing long-term results that will be recognized by our investors.

David N. Roberts,
Lead Director

What's the biggest change you have seen at PRA during your tenure on the Board?

The biggest change is just how much PRA Group has grown. But even with all of this growth, the core values of building long-term stockholder value, ensuring a focus on quality control and compliance, and increasing productivity remain the same. We have simply found new ways to grow by leveraging those competencies – whether through establishing the Insolvency business or our purchase of Aktiv Kapital. Each of these decisions has delivered growth, but in a way that hasn't changed who PRA is and has been from the beginning.

What would you say the Board's most significant priorities over the past year have been?

We've really had two primary priorities over the past year. The first is our ongoing focus on compliance. With the regulatory environment getting more and more complex, we remain committed to PRA being the industry standard as we partner with regulators, sellers, and consumers alike. The second priority has been seeking ways to best leverage the skillset of the Company. We added several new directors to our Board of Directors this year, each of whom adds value in helping us determine how we should continue to manage the Company for the long term. These individuals bring experience across our industry with large-scale operations, international focus, and/or industry expertise that we believe will help us continue on the right path for the future. I don't see any reason why this would change in 2016. You have significantly increased the number of directors in 2015 and 2016. How can stockholders be confident that our Board is composed of the right directors with the right skill sets to effectively represent our interests? We made a commitment in 2015 to increase the size of our Board of Directors, but only to the extent that those new directors could add supplemental value and diversity to our existing Board. As a part of this, we found two exceptional, independent directors in Vikram "Vik" Atal and Lance Weaver. Both of these individuals come from very large, global organizations, have robust industry experience and are already having an impact on the Company. We also added two more directors who were natural additions based on their continuing contributions to the Company. First, Kevin Stevenson, who as a co-founder of PRA and an integral part of the leadership team, provides the Board with additional insight into strategic and operational challenges and opportunities that face PRA. Second, Geir Olsen adds substantial value through his continued guidance on international expansion and perspective on the European market. The Nominating and Corporate Governance Committee goes through an extensive process each year to identify ways to enhance the makeup and diversity in our Board of Directors. We believe with the addition of these four directors, we accomplished that goal in 2015 and that stockholders will benefit from these additions in 2016 and beyond.

Proxy Statement

The 2016 Proxy Statement (“Proxy Statement”) is furnished in connection with the solicitation of proxies by the Board of Directors (the “Board”) of PRA Group, Inc. (which, together with its subsidiaries, we refer to as “PRA”, the “Company”, “we”, or “us”) in connection with the 2016 Annual Meeting of Stockholders (the “Annual Meeting”) scheduled for May 13, 2016, at 12:00 noon Eastern Time at PRA’s Corporate Headquarters located at 130 Corporate Boulevard, Building III 2nd Floor, Norfolk, Virginia 23502. These proxy materials are first being furnished to stockholders on or about April 1, 2016.

Our Business

PRA is a specialized financial and business services company. We are a market leader in the consumer debt purchase and collection industry. The Company also provides a broad range of fee-based services including revenue enhancement for local governments; vehicle location, skip-tracing and collateral recovery for auto lenders, governments, and law enforcement; contingent consumer debt recovery on behalf of banks, credit providers, and debt purchasers; and filing of class action claims on behalf of institutional investors, manufacturers, and retailers. PRA was founded in 1996 and has been public since 2002. We are distinguished by our strong customer focus, continuous innovation, expansive data and analytics, and culture of integrity and compliance. We have approximately 3,800 employees in the United States, Canada and throughout Europe. For more information about our businesses, please refer to our Annual Report on Form 10-K filed with the SEC on February 26, 2016.

Investor Outreach and Engagement

PRA regularly communicates with its investors to better understand their perspectives. Throughout the year, our Chief Executive Officer (“CEO”), President, and Director Investor Relations and sometimes other subject-matter experts within the Company engaged with our investors to remain well-informed regarding their perspective on current issues, as well as to address any questions or concerns. These individuals serve as liaisons between stockholders, members of senior management and the Board.

In 2015, we engaged with our stockholders on a regular basis to discuss a range of topics. We recognize the value of taking our investors views into account, and engagement with them helps us understand their opinions, concerns or other matters.

Investor outreach efforts included non-deal road shows, conferences, onsite visits and phone calls. We also communicate with investors and other stakeholders through other avenues, including our annual report and SEC filings, proxy statement, news releases and our website. We hold conference calls for our quarterly earnings releases, which are open to all. These calls and other corporate events are also generally available in real time and as archived webcasts on our website.

Ongoing Focus on Compliance

PRA is dedicated to meeting our compliance obligations and we strive to be the most compliant collections operation in the industry. We believe this enhances the overall customer experience, improves customer service and increases customer satisfaction.

The PRA Compliance Function is led by an independent Chief Compliance Officer who reports to both the CEO and the Compliance Committee of the Board of Directors. PRA’s Compliance Program establishes a risk-based approach and oversight framework to manage compliance risk and ensure compliance with laws and regulations governing PRA’s activities across the globe. The Compliance Program is structured to proactively identify, control, measure, monitor and report compliance risks throughout the Company. The Board of Directors and senior management oversee PRA’s Compliance Management Program, which includes policies and procedures, training, monitoring and a consumer complaint response system. Moreover, PRA has established an Internal Audit function that is responsible for conducting independent reviews of our compliance with consumer protection laws and regulations and adherence to internal policies and procedure.

COMPENSATION HIGHLIGHTS

Our consistent strong performance is reflected in the compensation that our Named Executive Officers (“NEOs”) earned in 2015, as described in the Compensation Discussion and Analysis (“CD&A”) in this Proxy Statement. In light of the favorable results of the 2015 advisory vote to approve the Company’s executive compensation*, the Company continued its existing compensation practices without substantial changes in 2015. At the Company’s 2015 Annual Meeting of Stockholders, 98.1% of stockholder votes cast approved, on a non-binding advisory basis, the compensation program for the Company’s NEOs.

The compensation of our NEOs further reflects both our 2015 performance and our compensation philosophy.

Consistent with our executive compensation philosophy, a significant portion of both our CEO’s and other NEOs’ total compensation is incentive-based and at risk, as illustrated in the following graphs:

In this proxy, when we refer to “executive compensation” we mean primarily the Compensation Committee’s decisions *regarding all elements of pay for Messrs. Stevenson, Petit, Stern and Olsen, who together with Mr. Fredrickson, are our NEOs during 2015.

Proxy Summary

The following illustrates the three-year directional relationship between the Company's Net Operating Income (NOI) performance and the total direct compensation (TDC) of our Chief Executive Officer (CEO).

Mr. Fredrickson also received a retention grant of restricted stock units in 2014 with a fair market value of (1) \$1,000,000 when he executed his employment agreement. This grant is not included in TDC, as it is a one-time grant and not considered part of annual compensation for comparison purposes.

Proposal 1: Election of Directors

Our business endeavors are managed under the direction of our Board of Directors, which currently consists of eleven members. Eight of our directors, representing greater than a majority of our Board, are independent as required by the independent director rules of the NASDAQ Stock Market LLC (“NASDAQ”). Our Board of Directors is divided into three classes of directors and our Nominating and Corporate Governance Committee regularly reclassifies new directors in order to ensure that any increase or decrease in the number of directors will be more evenly distributed among the three classes, so that each class will consist of approximately one-third of the total number of directors. Each director serves a three-year term. One class of directors is eligible for election at each annual meeting of stockholders. Nominees for director that receive the affirmative votes of a plurality of shares represented and voting in person or by proxy at the Annual Meeting will be elected.

The Nominating and Corporate Governance Committee recommended to the Board the candidates for election and re-election who are included on the ballot for the Annual Meeting. Any nominee for director who receives a greater number of votes withheld from or against his or her election than votes for his or her election shall tender his or her resignation for consideration by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee will then consider the best interests of the Company and its stockholders and will recommend to the full Board what action should be taken with respect to the tendered resignation.

All nominees have consented to serve as director if elected/re-elected. We have no reason to believe that any of the nominees will be unable or unwilling for good cause to serve. However, if any nominee should become unable for any reason or unwilling for good cause to serve, proxies may be voted for another person nominated as a substitute by the Board or the Board may reduce the number of directors. If the Board nominates a substitute, the shares represented by all valid proxies will be voted for that nominee.

The Company did not receive any recommendations of potential director candidates from stockholders for consideration at the 2016 Annual Meeting of Stockholders.

THE BOARD RECOMMENDS THAT YOU VOTE “FOR” THE ELECTION OF EACH OF THE DIRECTOR NOMINEES.

Corporate Governance

BUILDING THE PRA BOARD

The Nominating and Corporate Governance Committee takes the task of building a board of directors for PRA seriously. The responsibility of service as a director requires highly skilled individuals with various qualities, skills, attributes, and professional experience. The Board believes that there are general requirements for service on the Board that are applicable to all directors and that there are other skills and experiences that should be represented on the Board as a whole, but not necessarily by each director. The Nominating and Corporate Governance Committee reviews potential candidates for director vacancies and recommends nominees to the Board for approval. The Committee may retain, from time to time, a third-party search firm to assist in identifying potential candidates. The Board and the Nominating and Corporate Governance Committee consider the qualifications of directors and director candidates individually and in the broader context of the Board's overall composition and the Company's current and future needs. They then require that each director be recognized as a person of high integrity and ethical standards, committed to representing the long-term interests of stockholders and possessing a proven record of success in his or her field. Each director must also have a familiarity with and respect for corporate governance requirements and practices as well as an appreciation for diversity and inclusion. While the Board does not have a specific diversity and inclusion policy, it does consider diversity of race, ethnicity, gender, age, cultural background, and professional experiences in evaluating candidates for Board membership. In addition, all directors should have sufficient time to properly discharge the duties associated with serving as a director and to attend and participate in Board and committee meetings. The Nominating and Corporate Governance Committee also prefers that director candidates have intangible qualities including the ability to ask difficult questions while continuing to work collegially with the other directors and members of management.

Qualifications, Experiences, Knowledge, Skills and Abilities to be Represented on the Board

The Board and the Nominating and Corporate Governance Committee have identified certain qualifications, experiences, knowledge, skills, and abilities that are important to be represented on the Board as a whole, in light of the Company's current needs and business priorities. The list below represents the qualifications and experiences that should be represented on the Board:

The Board also reviewed the knowledge, skills and abilities that they believe would be essential for a director. Below are the knowledge, skills and abilities that were identified as being essential for all directors.

Summary of Qualifications of Board of Directors

The table below includes the specific qualifications and experiences of each director that led the Board to conclude that the director is qualified to serve on the Board. The absence of a “ü” for a particular item does not mean that the director does not possess that qualification or experience.

Director Orientation, Education and Preparation

The Company conducts a formal orientation program for all new directors, which includes a one-on-one meeting with each of our principal executives as well as the provision of extensive written material about the Company, its operating units and departments, and the industries in which the Company and its subsidiaries operate. Senior management reports and meetings with directors involve operating performance overviews, strategic plans and significant financial, accounting, compliance and risk management issues, as well as the Company’s succession plans. Directors visit the Company’s departments and subsidiaries in order to gain additional knowledge about their operations. Further, all directors participate as a group in ongoing continuing education through director education sessions that are held on a regular Board meeting date at least once per year. The Company also affords directors the opportunity and funds to attend additional external director education programs. Management ensures that the Board is fully informed about the Company’s business by providing regular written financial reports, reports of operations, compliance reports and updates and other relevant reports at Board meetings at least quarterly, as well as between meetings and at committee meetings. Board materials related to agenda items are provided a sufficient time in advance of Board meetings to allow the directors time to prepare for meaningful discussion. All Board members also receive comprehensive quarterly financial reports and budget briefings from the Chief Financial Officer (“CFO”). Members of senior management attend regular Board meetings, or portions thereof, for the purpose of participating in discussions and providing management reports on business unit operations and operational developments and risks. Directors also have access to members of management and employees of the Company between meetings and, as necessary and appropriate, may consult with and engage, at the Company’s expense, independent legal, compensation, financial and accounting advisors to assist them in performing their duties to the Company and its stockholders.

BOARD GOVERNANCE

Corporate Governance Guidelines and Code of Conduct and Ethics

Our Board and management are committed to strong ethical conduct, corporate governance and sound business practices. We have a Code of Business Conduct and Ethics, which satisfies the requirements for a “code of ethics” under the United States Securities Exchange Commission (“SEC”) rules and covers the members of our Board, our officers, including our CEO, our President, and our employees. Our Code of Business Conduct and Ethics addresses, among other items, conflicts of interest; confidentiality; fair dealing; protection and use of corporate assets; compliance with laws and the reporting of illegal, fraudulent, or unethical behavior. We will disclose amendments to our Code of Business Conduct and Ethics, as well as any waivers thereof, on our website, www.pragroup.com, to the extent permissible by the rules and regulations of the SEC and the NASDAQ. There were no waivers of the Code of Business Conduct and Ethics granted in 2015.

Our Corporate Governance Guidelines and our Code of Business Conduct and Ethics are posted on the Investor Relations page of our website, www.pragroup.com along with copies of the charters for each of the Audit Committee, Compensation Committee, Compliance Committee and Nominating and Corporate Governance Committees. Please note that the website does not constitute a part of this Proxy Statement. These materials are also available in print to any stockholder who makes a request to the Corporate Secretary at 140 Corporate Boulevard, Norfolk, Virginia 23502, Attention: Corporate Secretary. The Board regularly reviews committee charters and major corporate governance developments and modifies its governance principles, committee charters and key practices as warranted. Additionally, the Nominating and Corporate Governance Committee ensures that assessments of each of the committees and the Board itself are conducted. This process enhances director, committee, and Board effectiveness. At the conclusion of the Board and committee assessments, the Board uses the information obtained to evaluate and refine its processes and committee charters, as necessary.

Director Attendance

During 2015, the Board held twenty-three meetings: five regular meetings and eighteen special meetings. The majority of the Board attended 100% of the regular meetings of the Board in 2015. Each director attended at least 75% of the aggregate number of meetings of the Board and committees on which he or she served during 2015. All directors are encouraged, but not required, to attend our Annual Meeting of Stockholders. With the exception of Mr. Nussle, all of our directors attended the 2015 Annual Meeting of Stockholders.

Director Independence

The Board currently consists of eleven directors, two of whom are employed by the Company (Steven D. Fredrickson, Chairman of the Board and CEO, and Kevin P. Stevenson, President, Chief Administrative Officer, and Interim CFO). The Board has established guidelines, which conform to the independence requirements of the NASDAQ listing standards to assist it in determining director independence. In February 2016, each director completed a directors' and officers' questionnaire in accordance with current proxy disclosure requirements. These included updated information concerning their qualifications and experience, as well as any conflicts of interest, job changes, and any material transactions, material relationships, and other arrangements between the Company and the directors or immediate family members of the directors. Based on the responses received, it was determined that other than Mr. Olsen, who recently retired as CEO of PRA Europe, the remaining non-employee directors of the Company lack material relationships with the Company, and are independent directors under applicable securities law requirements and NASDAQ rules.

Notice of Annual Meeting of Stockholders and 2016 Proxy Statement15

Corporate Governance

This determination was made based upon a number of facts indicating that, other than Mr. Olsen, none of our other non-employee directors has a direct or indirect material relationship with the Company, including, but not limited to, the following:

- Except for Steven D. Fredrickson, Chairman of the Board and CEO, Kevin P. Stevenson, President, Chief Administrative Officer, and Interim CFO, and Geir L. Olsen, former CEO, PRA Europe, no director is, or has ever been, an executive officer of the Company or employed by the Company or its subsidiaries, or has an immediate family member who is an officer of the Company or any of its subsidiaries or has any current or past material relationships with the Company;
- No director, other than Messrs. Fredrickson, Stevenson and Olsen have ever received any compensation from, worked for, been retained by, or received anything of substantial value from the Company, other than director compensation;
- No director or any member of any director's immediate family is, or ever was, employed by the Company's independent registered public accounting firm, or ever worked on the Company's audit at any time;
- No NEO serves on the board of directors of any company that employs one of our directors or any member of the immediate family of any of our directors; no NEO sits on a board of directors of any company at which one of our directors is the chief executive officer or chief operating officer, and none of our directors nor any members of the immediate family of any of our directors has been an executive officer of any entity having a compensation committee on which one or more of the Company's executive officers has concurrently served;
- None of the independent directors, their respective affiliates or members of their immediate family, directly or indirectly, has engaged in any transaction with the Company or its affiliates or has any relationship with the Company or its affiliates which, in the judgment of the Board, is inconsistent with a determination that the director is independent;
- No director and no immediate family member of any director is a partner or controlling stockholder, director or executive officer of any entity from which the Company purchases goods or services, or to which the Company makes charitable contributions in excess of 5% of the entity's consolidated gross revenues for that year, or \$200,000, whichever is greater; and
- There are no family relationships among any of the directors or executive officers of the Company.

Board Leadership

The structure of our Board leadership consists of a Chairman (who is also our CEO), strong independent committee chairs and a Lead Independent Director, who is elected solely by the independent directors, and whom we refer to as our Lead Director. Our Board believes that the current Board leadership structure, in which the roles of Chairman and CEO are held by one person, is best for the Company and its stockholders at this time. As Chairman and CEO, Mr. Fredrickson is able to utilize the in-depth focus and perspective gained in running the Company to effectively and efficiently guide our directors by focusing their attention on issues of greatest importance to the Company and its stockholders, while also working closely with Mr. Roberts, the Lead Director. However, the Board does review the appropriateness of this structure on a regular basis. Our Lead Director coordinates the activities of the other independent directors to ensure strong independent oversight of management; facilitates information flow and communication by acting as a liaison between the directors and management; chairs all meetings of the Board during executive session; and is authorized to call meetings of the independent directors and retain any outside advisors and consultants who report directly to the Board.

Independent Director Meetings

The Board believes that strong, independent Board leadership is a critical aspect of effective corporate governance; therefore, independent directors meet at least quarterly in executive session without management present, as part of each regularly scheduled Board meeting. The Lead Director acts as chairman of these sessions, at which the independent directors have the opportunity to frankly discuss management's performance.

Corporate Governance

Board Risk Oversight

The Board, as a whole and through its committees, is responsible for overseeing PRA's risk profile and management's processes for assessing and managing risk, and management is responsible for day-to-day risk management. The Board recognizes that the Company faces a broad range of risks, including financial, regulatory, operational, political, reputational, governance, and legal, that may affect the Company's ability to execute corporate strategies and fulfill business objectives. The Board operates within a climate of transparency and uninhibited dialogue with senior management. Consistent with this approach, senior management attends the regular meetings of the Board and routinely reports on their activities and presents quarterly risk management reports to the Audit Committee. These reports include risk considerations and discussions concerning actions and strategies for monitoring, managing and mitigating any risks identified. The Board meets regularly to discuss the strategic direction of the Company; a consideration of key risks is essential to the Company's strategic planning process. The Company's Compliance Department documents known risks, assesses the sufficiency of risk identification, and recommends the appropriate manner in which to control or mitigate those risks.

Certain important categories of risk are assigned to committees that review, evaluate and receive management reports on risk. These include the following:

The Audit Committee receives quarterly risk management updates from the Company's CFO and the Company's external auditors on financial risks, compliance with reporting requirements, and internal controls. The Audit Committee also receives quarterly reports from the Company's Senior Vice President, Corporate Audit Services on the results of internal audit testing;

The Compensation Committee takes measures to prevent the Company's compensation programs and incentives from leading to decisions that encourage or promote excessive risk-taking. The Compensation Committee, with assistance from Frederic W. Cook & Co. ("FW Cook"), the Compensation Committee's independent compensation consultant, has reviewed the Company's compensation policies and practices for all employees, including our NEOs, as they relate to risk management practices and risk-taking incentives, and has determined that there are no risks arising from these policies and practices that are reasonably likely to have a material adverse effect on the Company;

The Compliance Committee oversees matters of non-financial compliance, significant legal or regulatory compliance exposure and material reports or inquiries from government or regulatory agencies; and

The Chief Compliance Officer regularly attends executive sessions with the Board of Directors on matters of compliance.

Policies for Approval of Related Person Transactions

The Company requires disclosure of any relationships and transactions in which the Company, its directors, its executive officers or their immediate family members are participants, and conducts a review of transactions of the Company with any stockholders owning five percent (5%) or more of the Company's outstanding common stock, to determine whether there are any such transactions in amounts at or exceeding the minimum threshold for disclosure in this Proxy Statement under the relevant SEC rules (generally, transactions involving amounts exceeding \$120,000) in which a related person has a direct or indirect material interest. The Company's General Counsel is primarily responsible for developing and implementing the policy and procedures relative to the review and approval of related party transactions. The complete details of any proposed transaction must be presented to the Company's General Counsel by the party intending to enter into the transaction. The Company's General Counsel will make an initial materiality determination, and when appropriate, will prepare a written analysis and recommendation to the Nominating and Corporate Governance Committee based on: (i) the nature of the proposed transaction; (ii) the related person's interest in the transaction; (iii) the dollar value of the transaction; (iv) the importance of the transaction to the business of the Company; (v) the material terms of the transaction; and (vi) the overall fairness of the transaction to the Company. Based on the foregoing factors, the Nominating and Corporate Governance Committee will decide whether to recommend that the proposed transaction be brought before the full Board for consideration.

Notice of Annual Meeting of Stockholders and 2016 Proxy Statement|17

Corporate Governance

If the matter is presented to the Board for a vote, and a related party is involved in the transaction, he or she will not be allowed to participate in any discussions and decisions concerning the transaction. If the Board approves the transaction, the Company's General Counsel will ensure that a written arm's length contract between the parties is appropriately executed by all parties. The Company discloses all such transactions that are determined to be directly or indirectly material to a related person. No such transactions are currently being considered.

The standing committees of the Company's Board include an Audit Committee, a Compensation Committee, a Compliance Committee and a Nominating and Corporate Governance Committee. Non-employee directors serve on one or two committees of the Board. The committees of the Board meet regularly and report on their activities and results of meetings to the full Board. Only directors that have been determined by the Board to be independent as defined by the associated NASDAQ rules may serve on Board committees.

COMPENSATION OF DIRECTORS

The Board, upon the recommendation of the Compensation Committee, sets the compensation for non-employee directors to fairly compensate them for the work required of them, based on the Company's size and scope. In addition to annual cash retainers, non-employee directors receive annual equity awards in order to align their interests with the long-term interests of the Company's stockholders. In early 2016, FW Cook provided the Compensation Committee with a peer group analysis of the compensation of the directors of companies in the Compensation Peer Group listed on page 31 of this Proxy Statement. The peer group analysis indicated that some elements of the non-employee director compensation fell below median as compared to the Compensation Peer Group. Based on this analysis, the Compensation Committee made changes, as shown in the chart below, to better align director compensation with the competitive market.

Annual Member Retainers	2015	2016
Annual Retainer (Cash)	\$60,000	\$60,000
Annual Retainer (Company Stock)	\$110,000	\$110,000

Lead Director Retainer (Cash)	2015	2016
Lead Director Retainer (Cash)	\$15,000	\$25,000

On the date of the 2015 Annual Meeting of Stockholders, each non-employee director in service at the time was awarded non-vested shares valued at approximately \$110,000. Annual director stock awards become fully vested one year after the grant date. This vesting schedule, combined with the targeted director stock ownership policy described below, advances the alignment of directors' economic interests with those of stockholders. Recognizing that each director should have a substantial personal investment in the Company, the Board has adopted a target stock ownership policy which applies to each director, requiring a personal holding by each director of a number of shares valued at not less than five times the director's annual retainer (cash portion), exclusive of Committee retainers. Directors are expected to acquire and maintain this share ownership threshold within five years after joining the Board. All board members have met the stockholding requirement or are in the process of meeting the requirement within the five year time period. In 2015, the Company offered no compensation to its directors other than their annual retainers, including annual committee chair and member retainers, and stock awards; however, each director is reimbursed for travel expenses in connection with attendance at Board meetings and for all reasonable expenses associated with continuing education programs. The Company offers no retirement benefits or other perquisites to directors. The Company maintains policies of directors' and officers' liability insurance covering all directors. The Company's CEO received no additional compensation for his service as a director and Chairman of the Board and the Company's President received no additional compensation for his service as a director.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires the Company's executive officers and directors as well as persons who beneficially own ten percent (10%) or more of the Company's common stock to file initial reports of ownership and changes in ownership of such common stock with the SEC and NASDAQ. As a practical matter, the Company typically assists its directors and NEOs with these transactions by completing and filing Section 16 reports on their behalf. The Company also reviews executive officers and directors' questionnaires and written representations. Based on a review of the Section 16 reports filed by the Company on behalf of its directors and executive officers or furnished to the Company by beneficial owners of 10% or more of its common stock (if applicable) and a review of written representations from certain reporting persons, the Company believes that all such filing requirements of its directors and executive officers were complied with during 2015 except the following filings (i) Form 4 filings for Steven D. Proposal 2: Advisory Vote to Approve Executive Compensation

Pursuant to Section 14A of the Exchange Act, the Company's stockholders are being asked to approve, on a non-binding advisory basis, the compensation of the Company's NEOs as disclosed in this Proxy Statement, including the CD&A, the Summary Compensation Table and related tables and disclosures. This vote provides stockholders with the opportunity to express their positive or negative vote on the Company's overall executive compensation program, policies and procedures. Our Board believes that annual advisory votes on a resolution to approve NEO compensation will allow the Company's stockholders to provide more regular input to the Company on our compensation philosophy, policies and practices as disclosed in our Proxy Statements.

An objective of the Company is to retain highly qualified and talented executives and to provide appropriate incentives to encourage their high performance, which creates value for the Company's stockholders. As described in detail in this Proxy Statement, the Company seeks to closely align the interests of its NEOs with the interests of its stockholders and appropriately reward executive performance while avoiding the encouragement of unnecessary or excessive risk-taking. Stockholders are encouraged to read this Proxy Statement's CD&A for a more detailed discussion of the Company's executive compensation programs, philosophy and principles. A vote on this matter will not address any specific item of compensation, but rather the overall compensation of the Company's NEOs. Accordingly, stockholders are asked to indicate their support for the Company's compensation of its NEOs by casting their votes "FOR" the compensation of the NEOs whose names are listed in the Summary Compensation Table on page 44 herein, as disclosed in this Proxy Statement, including the CD&A, the Summary Compensation Table and related compensation tables and narrative.

As noted above, this vote is advisory and non-binding, but will provide information to the Company and the Compensation Committee regarding stockholder sentiment about the Company's executive compensation philosophy, policies and practices, which the Compensation Committee will be able to consider when determining executive compensation for the remainder of 2016 and beyond. The Compensation Committee values the opinions of its stockholders and will take into consideration any concerns they may raise (in the event there is any significant vote against the executive officer compensation as described in this Proxy Statement) when making future executive compensation decisions.

THE BOARD RECOMMENDS THAT YOU VOTE "FOR" THE APPROVAL, ON A NON-BINDING ADVISORY BASIS, OF THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.

Compensation Discussion and Analysis

This CD&A, including the Summary Compensation Table and related compensation tables and narratives, is intended to provide all of the necessary and relevant information to assist in your voting decision to approve our NEOs' 2015 compensation. In light of the stockholder support of our NEOs' compensation during 2014 at the 2015 Annual Meeting of Stockholders, the Committee concluded that no significant revisions were necessary to our compensation program for our NEOs.

Compensation Discussion and Analysis

KEY FEATURES OF OUR EXECUTIVE COMPENSATION

What We Do

- The vast majority of total compensation is tied to performance (i.e., not guaranteed) and salary comprises a modest portion of each NEO's overall compensation opportunity.
- We target compensation at the market median (50th percentile) of our comparative group of peer companies; we use median as the beginning reference point and the Compensation Committee then adjusts pay based on a comprehensive review of performance.
- A portion of executives' target compensation is earned based on PRA's relative stock performance against our comparative group of peer companies and the NASDAQ index.
- We have stock ownership guidelines for our CEO at five times base salary; EVPs at three times base salary and SVPs at one time base salary.
- We enhance executive officer retention by providing a portion of our long-term equity program in time-based awards with multi-year vesting schedules.
- Our Compensation Committee, which is comprised solely of independent directors, engages an independent compensation consultant.
- We have adopted "double trigger" vesting for time-based equity awards following a change in control.

What We Don't Do

- We do not encourage unnecessary or excessive risk taking as a result of our compensation policies; incentive compensation is not based on a single performance metric and we do not have guaranteed minimum payouts.
- We do not provide our NEOs with excise tax gross-ups with respect to payments made in connection with a change in control.
- We do not provide across-the-board base salary increases for our executives. Our Compensation Committee evaluates total compensation for all executives and only adjusts base salary when necessary to reflect changes in the executive's responsibilities or in current market conditions.
- We do not provide our executive officers with perquisites or other personal benefits, except for comprehensive physical examinations (at a cost of up to approximately \$5,000 each).
- We do not offer any nonqualified deferred-compensation plans or arrangements to any of our employees, including our NEOs.
- We do not allow hedging or pledging of Company securities.

2015 EXECUTIVE COMPENSATION HIGHLIGHTS

The Compensation Committee believes that the compensation programs and performance incentives in place in 2015, as more fully described herein, contributed to the achievement of the Company's financial and operational outcomes. The total compensation paid to the Company's NEOs in 2015 reflects the Compensation Committee's recognition of their contributions to the Company's financial performance. In 2015, with input from FW Cook, the Company took the following compensation actions:

Approved 2014 annual bonus in line with year-over-year company performance;

Updated several important Compensation Committee documents, including the charter, the philosophy, committee self-appraisal, and compensation risk assessment, to ensure they remained current with our pay practices, our growing business, and our corporate governance best practices; and

Approved 2015 annual bonus in line with year-over-year company performance;

2015 Corporate Governance Highlights as Related to the Compensation Committee

We strive to maintain good governance standards with regard to our executive compensation policies and practices.

The following practices were in effect during 2015:

The Compensation Committee is composed solely of independent directors;

The Compensation Committee has established methods to communicate with stockholders regarding their views on our executive compensation program as described in the Communication with Directors section as found on page 57 in this Proxy Statement;

The Compensation Committee's independent compensation consultant, FW Cook, is retained directly by the Compensation Committee and performs no other services for the Company;

The Compensation Committee conducts an annual review and approval of our compensation strategy and programs, and assesses the risks of these programs. This work is done to reduce the likelihood that any of our compensation programs will have any adverse or counterproductive effect on the Company, in either the short-term or the long-term. We maintain stock ownership guidelines for our NEOs and progress towards those guidelines is monitored annually.

The Compensation Committee reserves the right to pay out cash bonuses in equity in the event that an NEO has not made significant progress towards meeting or exceeding the established guidelines;

Our NEOs do not receive perquisites other than reimbursement for a comprehensive physical examination once every five years;

We do not provide excise tax gross-ups to our NEOs in the event of a change in control of ownership or the Company, and our NEOs are not entitled to accelerated vesting of their equity awards on a change in control of the Company or upon a termination of employment unless such termination occurs within six months before or 24 months following such change in control or in the event of the NEO's death; and

PRA maintains a strict anti-hedging policy and prohibits NEOs from pledging PRA stock.

Compensation Discussion and Analysis

PHILOSOPHY AND OBJECTIVES OF OUR EXECUTIVE COMPENSATION PROGRAM

Our compensation philosophy is to align our NEOs pay with performance, while ensuring that our executive compensation is attractive, flexible, market based and closely synchronized with the interests of our stockholders. Our compensation objectives are to attract, hire, and retain the caliber of executive officers necessary to deliver sustained high performance to our stockholders and to ensure that our compensation programs pay for performance; mandate that compliance-related issues are not rewarded; reward both short- and long-term performance; align our pay programs with stockholder interests and our business strategies; and take corporate governance best practices into consideration. Our executive compensation program is an important component in each of these compensation goals. Equally important, we view compensation practices as a means for communicating our goals and standards of conduct and performance and for motivating and rewarding employees in relation to their achievements. Within this framework, we observe the following principles:

Attract, retain, and motivate highly skilled executives: We believe our NEOs should be provided compensation and benefits that are competitive with those provided by our Compensation Peer Group, which permit us to hire and retain top caliber individuals;

Create commonality of interest between management and stockholders: We believe we do this by tying a significant portion of realized compensation directly to changes in our stock value;

Drive the attainment of short-term and long-term financial and strategic objectives: Our compensation programs are built to link directly to our short- and long-term performance goals. Our bonus plan is directly tied to annual performance and our long-term incentive program is designed to focus on a three-year performance and retention period; and

Be performance-based, with variable pay constituting a significant portion of total compensation: A significant portion of the annual compensation of our NEOs should vary with annual business performance and each individual's contribution to that performance. All pay-for-performance decisions also take into consideration compliance with all applicable laws and regulations and we would not reward our NEOs for performance in instances where compliance issues may exist.

PRA believes that our executive compensation motivates future performance and is linked, directly and materially, to the Company's overall performance and each NEOs individual performance. The following outlines how we make compensation decisions.

Role of the Compensation Committee

The Compensation Committee, which in 2015, was comprised of three independent directors, is responsible to our Board for overseeing our executive compensation policies and programs. Among its duties, the Compensation Committee is responsible for formulating the compensation recommendations for our CEO and approving all compensation for the CEO's direct reports (including the other NEOs). Although the Compensation Committee considers the CEO's recommendations, the Compensation Committee independently evaluates the CEO's recommendations and makes all final compensation decisions within the parameters of its compensation philosophy. This includes the following:

Evaluating the competitiveness of each NEO's total compensation package including base pay, annual bonus and long-term equity incentives;

Reviewing and approving corporate and individual incentive goals and objectives;

Evaluating individual performance results in light of these goals and objectives;

Ensuring no compliance issues exist when making pay decisions;

Approving any changes to our NEOs' total compensation packages; and

Overseeing employment agreements, including the renewal process.

The Compensation Committee is supported in its work by FW Cook, the CEO (where appropriate), and the Chief Human Resources Officer and her staff.

Compensation Discussion and Analysis

Role of the Chief Executive Officer

Within the framework of the compensation programs approved by the Compensation Committee and based on a review of competitive market data completed annually, our CEO recommends the mix of annual base pay, annual bonus and long-term equity incentive awards that the CEO's direct reports should receive as both target and actual total compensation. These recommendations are based upon his assessment of each executive officer's performance, the performance of the individual's respective business or function, and any employee retention concerns. The Compensation Committee reviews our CEO's recommendations and approves any compensation changes affecting the CEO's direct reports as it determines in its sole discretion. Our CEO does not play any role with respect to any matter affecting his own compensation and is not present in Compensation Committee meetings when CEO pay is discussed. The Compensation Committee may delegate duties and responsibilities to the CEO, as the Compensation Committee deems to be in the best interests of the Company, provided such delegation is not prohibited by applicable law, rule or regulation. Delegated duties include, but are not limited to, the ability of the CEO to grant a specified number of non-vested shares of the Company's common stock to newly hired, recently promoted or other non-executive officers in accordance with specified parameters.

Role of the Compensation Consultant

The Compensation Committee has retained FW Cook as its executive compensation consultant. FW Cook reports directly to the Compensation Committee. The Compensation Committee may replace FW Cook or hire additional consultants at any time. A representative of FW Cook attends meetings of the Compensation Committee and communicates with the Compensation Committee Chair between meetings, as requested.

FW Cook provides various executive compensation services to the Compensation Committee pursuant to a written consulting agreement, which includes advising the Compensation Committee on the principal aspects of our executive compensation program, updating the Committee on evolving industry practices and providing market information and analysis regarding the competitiveness of our program design and award values in relation to performance.

During 2015, FW Cook performed the following key services for the Compensation Committee:

- Provided a competitive evaluation of total compensation for the CEO and his direct reports (including the other NEOs) versus our Compensation Peer Group (as disclosed on the following page) and other survey data;
- Provided recommendations to the Compensation Committee on selection of companies for inclusion in our Compensation Peer Group;
- Provided a competitive evaluation of share usage, dilution, and fair value transfer versus our Compensation Peer Group data;
- Reviewed and provided advice on the CD&A section for the Proxy Statement and related compensation tables;
- Reviewed committee materials and provided commentary when appropriate;
- Provided extensive risk analysis of all incentive pay programs at the Company; and
- Provided a competitive review of the Company's director compensation program versus Compensation Peer Group data.

FW Cook provided no other services to management or the Company during 2015. The Compensation Committee retains sole authority to hire any compensation consultant, approve such consultant's compensation, determine the nature and scope of its services, evaluate its performance, and terminate its engagement. The Company has assessed the independence of FW Cook pursuant to SEC rules and has determined that no known conflict of interest exists that would prevent FW Cook from serving as an independent consultant to the Compensation Committee.

Compensation Discussion and Analysis

Use of Competitive Data

The Compensation Committee does not believe that it is appropriate to establish compensation levels based solely on benchmarking; however, it believes that information regarding pay practices at comparable companies is useful as a recruitment and retention tool, to maintain competitive compensation practices in the marketplace. Accordingly, the Compensation Committee engages FW Cook to assist and make recommendations in connection with the selection and periodic review of companies to be included in the “Compensation Peer Group” (as disclosed on this page), as well as related analysis in connection with updates made with the approval of the Compensation Committee. We believe the Compensation Peer Group represents the organizations that most closely correlate with us and therefore lean toward the business services industry with a focus on specialized finance. The companies who are included in the Compensation Peer Group were included based on certain metrics comparable to those of the Company, principally, net income, market capitalization and complexity. Revenue is taken into consideration but not as heavily as the other metrics listed, as not all of our cash receipts are represented in our revenue numbers. A significant portion of our cash receipts are recorded as a reduction of principal on finance receivables amortization, rather than revenue.

Our NEOs’ total target compensation approximates the median of the Compensation Peer Group. Actual cash compensation may be above or below this range based on actual performance. Realized long-term equity incentives and total compensation will vary from the median based on actual financial and stock price performance. In making its year-end compensation decisions, the Compensation Committee noted that Company performance was relatively strong in comparison to the industry as a whole.

In its review of the 2015 compensation of the Company’s NEOs, the Compensation Committee primarily reviewed the compensation practices of the Compensation Peer Group listed below:

2015 Compensation Peer Group

Cash America International	Global Payments	Total Systems Services
Credit Acceptance	HMS Holdings	Walter Investment Management
Encore Capital Group	KCG Holdings	WEX
Equifax	MSCI	World Acceptance
Fair Isaac	Ocwen Financial	
First Cash Financial Services	SEI Investments	

The 2015 Compensation Peer Group has been updated from the 2014 Compensation Peer Group and no longer includes Dealertrack Technologies Inc., which was acquired by Cox Automotive. No other changes were made. In addition to Compensation Peer Group data, the Compensation Committee reviews, but does not place as much emphasis on, the financial services and general industry compensation survey data developed by the compensation consulting firm of Willis Towers Watson. The primary focus on the Compensation Peer Group data relates to more direct matches in terms of company size and business mix. The Compensation Committee uses this data to ascertain the competitive market for our NEOs, to determine whether the Company's compensation levels are competitive, and to make any necessary adjustments to reflect executive performance and Company performance. As a part of this process, FW Cook measures target and actual pay levels for the Company and the Compensation Peer Group within each compensation component and in the aggregate. FW Cook also reviews the mix of the Company’s compensation components with respect to fixed versus variable, short-term versus long-term and cash versus equity-based pay. This information is then presented to the Compensation Committee for its review and use.

The Compensation Committee generally compares the compensation of its NEOs to the median of the Compensation Peer Group. In addition, the Compensation Committee considers factors such as our performance within the Compensation Peer Group, the unique characteristics of the individual NEO’s position, and any succession and retention considerations.

Compensation Discussion and Analysis

COMPONENTS OF OUR EXECUTIVE COMPENSATION PROGRAM

The Compensation Committee measures the competitiveness of our programs by looking at the median of the Compensation Peer Group and the survey data for each compensation component. The Compensation Committee considers the recommendations of its consultant, FW Cook, in the process of allocating the mix of total compensation among each element of compensation, to provide the right balance of fixed and variable, short-term and long-term and cash and equity compensation. The compensation of executives who have the greatest ability to influence the Company's financial performance is predominately performance-based and at risk, which is consistent with the Company's overall compensation philosophy.

Base Pay

We pay base salaries to our NEOs to compensate them for their day-to-day services. Annual base pay is set on an individual basis at the time of hire or upon promotion or other change in job responsibilities. Annual base pay is reviewed annually and the Compensation Committee considers the relative importance of the position, individual experience, skill, level of responsibility and the individual's performance and contributions prior to making any adjustments.

In 2015, the Compensation Committee made a determination to increase annual base pay for all of our NEOs taking into consideration performance and market alignment; base salaries of Mr. Stevenson and Mr. Stern were subsequently adjusted again in connection with their promotions in August 2015.

Annual Bonus Plan

In 2015, the annual bonus program, last approved by our stockholders in 2013, (our "Annual Bonus Plan") provided for cash bonuses based on our financial performance and individual performance. The financial goals for the Company were set by the Compensation Committee. Each NEO was assigned an Annual Bonus Plan target established by the Compensation Committee in November 2014. Although financial goals are the main component in determining Annual Bonus Plan awards, individual contribution and performance is also taken into consideration.

In order to align the interests of our NEOs with Company performance, the Compensation Committee assesses Company performance relative to a series of financial measures as well as strategic and qualitative factors to arrive at the short-term incentive pool to be used for the payment of awards under the Annual Bonus Plan. The Committee believes that over-reliance on a narrow set of fixed financial measures for determination of Annual Bonus is not in the best interest of stockholders, as it may result in short-term trade-off decisions not focused on driving future growth. Therefore, in addition to the financial measures, the Committee also uses supplemental criteria to further ensure alignment of actual bonus awards to our short and long-term success.

For 2015 performance, the primary financial metric used to determine the short-term incentive pool continued to be net operating income. We may exclude from income or expenses, extraordinary events that may not have been contemplated or entirely in the control of management. We believe this is most indicative of the Company's financial performance during the fiscal year and what we want the executives to focus on achieving. Net operating income is the income from operations after subtracting costs and expenses associated with those operations. It can be found on our income statement in the line called "Income from Operations." As soon as financial results were available, the CEO and the Compensation Committee met to discuss the NEO bonuses, except for the CEO's own bonus (which is established by the Compensation Committee). The Committee made any adjustments it determined appropriate and then all of the other NEOs annual bonus payments were finalized and approved through a Compensation Committee vote. The Compensation Committee fully determined and approved the amount of our CEO's award based on similar criteria, without input from or the presence of the CEO. The Compensation Committee evaluated 2015 net operating income against the 2015 goals and determined that the Company's financial performance had met expectations. The Compensation Committee also took into account revenue growth, growth in cash receipts and cash collections, and the successful completion of acquisitions in 2015.

Notice of Annual Meeting of Stockholders and 2016 Proxy Statement|32

Compensation Discussion and Analysis

The Compensation Committee may exercise negative discretion to adjust the bonuses that may otherwise be payable under the 2015 Annual Bonus Plan. Based on 2015 performance, the Compensation Committee did make this election relative to the Section 162(m) plan established at the beginning of 2015.

Annual bonuses granted to our NEOs under the Annual Bonus Plan are designed to constitute fully deductible “qualified performance-based compensation” under Section 162(m) of the Internal Revenue Code (the “Code”) as further described in “Deductibility of Executive Compensation” section on page 43.

Long-Term Equity Program

Our practice is to grant long-term incentive (“LTI”) awards to NEOs and other executives as a mix of performance-based restricted stock units and time-based restricted stock units in amounts that are consistent with competitive practice and the Portfolio Recovery Associates, Inc. 2013 Omnibus Incentive Plan (our “Equity Plan”). These awards are made after a regularly scheduled Board meeting in the first quarter of the year, upon the Compensation Committee’s recommendation and Board approval. The grant date is set at the time of the Board’s vote. The LTI awards are referred to as our “LTI Program.”

To determine individual LTI award amounts the Compensation Committee considers an NEO’s performance during the preceding year, potential future contributions, retention considerations, as well as market data for each NEO’s position in the Compensation Peer Group.

Our 2015 LTI Program remained consistent in design with our 2014 LTI Program, focusing on three key elements, each representing one-third of the total award: (i) continued Company service, (ii) return on equity (“ROE”), and (iii) total stockholder return (“TSR”). Each component is independent of the others and awards can be earned in any of these categories based on the requirements within that category.

The continued Company service element is reflected in a time-based restricted stock unit grant that vests ratably over three years. This element is incorporated to retain high caliber executives and reward them for past performance; The ROE component is based on the extent that the Company achieves a three-year annualized ROE goal, calculated quarterly over the ROE 2015-2017 performance period. The Compensation Committee believes ROE is a good long-term measure that NEOs should be measured against when evaluating the sustained profitability of the Company; and

The TSR component is based upon the Company’s achievement of relative total stockholder returns calculated over 2015-2017 using as a comparison group the NASDAQ Composite Index (one-half weighting) and our Compensation Peer Group (one-half weighting). The Compensation Committee believes that the TSR component further aligns the NEOs’ interests with our stockholders’ interests.

Special Equity Awards

LTI awards may also be granted when an employee is promoted to recognize the increase in the scope of his or her role and responsibilities. From time to time, we may also make special awards to reward the achievement of major milestones, or selective awards in situations involving a leadership transition. The CEO may also approve grants of LTI awards to new hires at the time of their hire, if under 1,000 shares, in order to align their interests as quickly as possible with our stockholders' interests. In 2015, no special equity awards were granted to any of the NEOs.

The table below reflects the number of shares as of December 31, 2015 subject to outstanding awards and the amount available for future issuance under our Equity Plan. OTHER COMPENSATION

Tax-Qualified Plans

The Company offers a 401(k) Plan for its employees, including the NEOs. The 401(k) plan is a long-term savings vehicle that enables employees to make pre-tax contributions via payroll deductions and receive tax-deferred earnings on the contributions made. Employees are eligible to make voluntary contributions to the plan of up to 100% of their compensation, subject to Code limitations, after completing six months of service with the Company. The Company makes matching cash contributions of up to 4% of each participating employee's annual base pay. Employees are able to direct their own investments, among a range of investment choices, under the plan.

We periodically compare the competitiveness of our benefits programs for all our employees, including retirement benefits, against other employers with whom we broadly compete for talent. It is our objective to provide our employees with a benefits package that is at or around the median when compared to other employers.

Nonqualified Deferred Compensation Plans and Arrangements

The Company does not offer any nonqualified deferred compensation plans or arrangements to any of its employees, including our NEOs.

Severance and Change in Control Arrangements

Pursuant to their employment agreements with the Company, our NEOs (or their beneficiaries or estates) are all eligible for severance payments and other benefits upon terminations of employment for the following reasons:

- Death;
- Disability;
- Termination for Reasons other than Cause;
- Constructive Termination;
- Change in Control “Double Trigger” Termination; and
- Nonrenewal of an Employment Agreement.

In the case of a termination for Cause, no severance payments will be made. We find each of these practices to be typical among our peers and we note that the receipt of severance benefits is subject to our NEOs compliance with non-compete/non-solicitation covenants and, in the case of Messrs. Fredrickson, Stevenson, Petit and Stern, execution of a release of claims. In no instance will the Company provide excise tax reimbursements or gross-ups to any of our NEOs.

For detailed information on the estimated potential payments and benefits payable to the NEOs in the event of their termination of employment, including following a change in control of the Company, see the section titled “Post Employment Compensation Arrangements” (pages 49-51) in this Proxy Statement.

Perquisites and Other Personal Benefits

We do not provide our executive officers, including the NEOs, with perquisites or other personal benefits, except for comprehensive physical examinations. The NEOs are required by policy to submit to comprehensive physical examinations every 5 years (if over 40 years of age) at the Company's expense, at a cost of up to approximately \$5,000 each. This perquisite is provided because we believe it serves a necessary business purpose and protects the interests of the organization and stockholders by requiring each NEO to receive high-quality preventative care, thereby increasing the likelihood of early detection for any serious illness that would prevent them from serving the Company to the best of their ability.

Compensation Discussion and Analysis

OTHER RELATED POLICIES

In addition to the other components of our executive compensation program, we maintain stock ownership guidelines as described below. These guidelines are consistent with evolving best practices and helps ensure that our executive compensation program does not encourage our NEOs to engage in risk-taking behaviors that are beyond our ability to effectively identify and manage.

Stock Ownership Guidelines

In order to further align the NEOs interests with those of the Company's stockholders and assure that management focuses on appropriate long-term initiatives designed to increase stockholder value, the Compensation Committee has established stock ownership guidelines for certain key executives. Ownership of equity by executive officers in the Company serves to align their interests with those of the Company's stockholders and demonstrates to the investing public and to all of the Company's other employees that senior management is committed to and believes in the future success of the Company. The stock ownership guidelines establish ownership goals to be achieved and maintained within 5 years from the date of hire or promotion.

Once each year, the Compensation Committee is provided with a report showing the extent to which our executives have met the applicable ownership guidelines. This report includes targeted share ownership, actual share ownership, our executives' remaining non-vested shares, and any surplus or deficiency that exists. The Compensation Committee may determine whether, based on the executive's success in achieving his or her stockholding targets, the executive's annual bonus, if any, is paid in stock, rather than in cash. The specific share requirements for each executive include shares that are beneficially owned, directly or indirectly by the executive, but do not include any shares that have been granted to the executive that have not yet vested. In accordance with the guidelines, executives must retain 100% of their after-tax equity compensation until a pre-determined multiple of annual base pay ownership is met, as set forth in the following table. In order to permit consistent long-term planning by an executive, once established, these targets are not reset except upon the approval of the Compensation Committee in the event of a significant promotion of the executive, exceptional equity grants, or other considerations. The following chart details the equity ownership targets established for the NEOs and their actual share holdings as of the Record Date. As of the Record Date, each NEO has achieved their individual equity ownership goal or is on track to achieve their ownership goal within 5 years, pursuant to the Company's targeted executive stock ownership guidelines.

Pledging

The Company's Anti-Pledging Policy prohibits our NEOs from pledging, alienating, attaching or otherwise encumbering the Company's stock and any purported pledge, alienation, attachment or encumbrance thereof shall be void and unenforceable against the Company or any affiliate of the Company.

Hedging

The Company's Anti-Hedging Policy prohibits its employees, officers and directors from speculating or hedging their interests in the Company's stock. Accordingly, employees, and directors may not "play the market" in Company securities by engaging in speculative transactions such as any direct or indirect hedging transaction that could reduce or limit the director's or employee's economic risk with respect to their holdings, ownership or interest in the common stock or other securities of the Company, including without limitation, outstanding stock options, stock appreciation rights or other compensation awards the value of which are derived from, make reference to or are based on the value or market price of common stock or other securities of the Company. Prohibited transactions include, without limitation, same day purchase and sales, prepaid variable forward contracts, equity swaps, short sales, collars, puts, calls or other derivative securities that are designed to hedge or offset a decrease in market value of the equity securities of the Company.

Deductibility of Executive Compensation

One of our compensation objectives is to structure and administer our annual and LTI compensation plans for our other NEOs to maximize the tax deductibility of the payments as "qualified performance-based compensation" under Section 162(m) of the Code to the extent practicable. However, while the Compensation Committee is mindful of the potential impact upon the Company of Section 162(m) of the Code, it reserves the right to adopt such compensation arrangements as may from time to time be desirable to reward, retain or attract top-quality management even if payments may not be fully or partially deductible under Section 162(m).

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed the section of this Proxy Statement entitled "Compensation Discussion and Analysis" with management as required by Item 402(b) of Regulation S-K. Based on this review and discussion, the Compensation Committee has recommended to our Board that the CD&A be included in this Proxy Statement and incorporated by reference into the Company's Annual Report on Form 10-K for the Fiscal year ended December 31, 2015.

The amounts included in the "Stock Awards" column represent the aggregate grant date fair value of the stock awards granted in 2015, 2014 and 2013 determined pursuant to ASC Topic 718. The assumptions used by the Company in calculating these amounts are incorporated by reference to Note 9 to the consolidated financial statements in the Company's Form 10-K for the Fiscal year ended December 31, 2015, filed with the SEC on February 26, 2016. The shares awarded vest pursuant to the terms of the Company's LTI program and consist of awards that vest based on continued service with the Company and awards that vest if stated performance goals are met as well as on continued service with the Company (see page 33 for a more complete description of the LTI Programs). The actual amount of compensation that will be realized by the NEO at the time the stock award vests, if at all, will depend upon the market price of the Company's common stock at the vesting date. The value as of the grant date of the maximum number of shares that could vest under the 2015 LTI awards is as follows: Mr. Fredrickson, \$3,499,808; Mr. Stevenson, \$1,466,573; Mr. Petit, \$1,166,425; Mr. Stern, \$791,506; and Mr. Olsen, \$1,166,425. For more information on the awards granted during 2015, see the Grants of Plan-Based Awards table, related narrative, and footnotes.

⁽³⁾ These amounts represent Company matching contributions to the recipient's 401(k) plan account up to limits for such plans under federal income tax rules. Any amounts for executive physicals (the only perquisite or personal benefit provided to the NEOs) have not been included as they are less than the \$10,000 threshold under SEC rules.

⁽⁴⁾ Mr. Petit was granted 8,160 shares of Company stock in February 2013 as payment for a portion of his 2012 bonus awarded under the Company's non-equity incentive plan, which will vest ratably over three years.

⁽⁵⁾ Mr. Olsen was not an employee of PRA until the Company's acquisition of Aktiv on July 16, 2014 and, as a result, only the portion of his 2014 compensation earned after such acquisition is included.

During 2015 the NEOs were awarded the following plan-based awards; annual Short-Term Incentive award ("STI") under our Annual Bonus Plan, Restricted Stock Unit Award ("RSU") and Performance Stock Unit Award ("PSU") under our Equity Plan. The PSU is based on two components, Return on Equity ("PSU/ROE") and total stockholder return ("PSU/TSR").

POST-EMPLOYMENT COMPENSATION ARRANGEMENTS

Each NEO has an employment agreement that provides for the payment of specified severance benefits upon termination of employment under some or all of the following circumstances:

- Death;
- Disability;
- Termination for Reasons Other than Cause;
- Constructive Termination;
- Change in Control “Double Trigger” Termination; and
- Nonrenewal of an Employment Agreement.

Depending on the circumstances of the termination, these severance benefits may include cash payments equal to a specified multiple of base salary and bonus (using a three-year average), pro-rata bonuses, accelerated vesting of equity incentive awards and subsidized COBRA benefits for 18 months.

The Estimated Post-Employment Payments and Benefits Table that follows this narrative summarizes such severance payments and benefits. In the case of a termination for Cause, no severance payments will be made. In the case of Messrs. Fredrickson, Stevenson, Petit and Stern, severance payments are conditioned on the executive's execution of a full release of all claims against the Company. While their employment agreements provide the NEOs with certain benefits upon their involuntary termination (not for cause), the agreements also provide protections for the Company in the form of Non-Competition, Non-Solicitation, and Confidentiality restrictive covenants. None of the NEOs are provided with any type of golden parachute or excise tax reimbursement or gross-up.

The amounts in the following table were calculated based upon employment agreements in effect as of December 31, 2015 and an assumed termination date of December 31, 2015. The amounts reported in the following table are hypothetical. Actual payments will depend on the circumstances and timing of any termination of employment. Because the assumed termination date is December 31, 2015, we have used the full year target non-equity incentive award for Messrs. Fredrickson, Stevenson, Petit and Stern in the “Pro-Rata Bonus” row.

Even if the selection of KPMG is ratified by the stockholders, the Audit Committee, in its discretion, may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of the Company and its stockholders. KPMG representatives are expected to attend the Annual Meeting. If you plan to attend the Annual Meeting and wish to vote your shares in person, you will be asked to present valid government-issued photo identification, such as a driver's license, in order to gain admission. If you are a holder of record, you will need to bring with you your proxy card or other documentation showing that you owned shares of the Company's common stock on the Record Date. You will not be able to vote your shares at the Annual Meeting without a proxy card or such other documentation. If you require special assistance due to a disability or other reasons, please notify the Corporate Secretary in writing at 140 Corporate Boulevard, Norfolk, Virginia 23502, Attention: Judith S. Scott, Corporate Secretary and Counsel, or by email at jsscott@pragroup.com.

If your shares are held by a broker, bank or other similar organization, you are the beneficial owner of the shares, but not the record holder; therefore, you must bring one of the following with you to the Annual Meeting: the proxy card; the Notice of Internet Availability of Proxy Materials; any voting instruction form that is sent to you; or your most recent brokerage statement or a letter from your broker, bank or other similar organization indicating that you beneficially owned the shares of common stock as of the Record Date. We can use this information to verify your beneficial ownership of common stock in order to admit you to the Annual Meeting. If you intend to vote at the Annual Meeting, you will also need to bring to the Annual Meeting a proxy from your broker, bank or other similar organization that authorizes you to vote the shares that the holder of record holds for you in its name.

Revoking Your Proxy

You may change or revoke your proxy at any time before it is voted at the Annual Meeting by sending a written notice of revocation of your proxy to the Corporate Secretary so that it is received before the completion of voting at the Annual Meeting. You may also attend the Annual Meeting and vote in person, unless you are a beneficial owner, without a legal proxy. Your attendance at the Annual Meeting will not in and of itself revoke your proxy. In order to revoke your proxy, you must also notify the Corporate Secretary of your intent to vote in person, and then vote your shares at the Annual Meeting. If you require assistance in changing or revoking your proxy, please contact the Corporate Secretary at 140 Corporate Boulevard, Norfolk, Virginia 23502, Attention: Judith S. Scott, Corporate Secretary and Counsel, or by email at jsscott@pragroup.com.

Voting Instructions and Information

Quorum and How Votes Are Counted

A quorum is required to transact business at the Annual Meeting. A majority of holders of the issued and outstanding shares of common stock of the Company entitled to vote, who are represented in person or by proxy, will constitute a quorum. Abstentions and broker non-votes, which are explained below, are included in determining whether a quorum is present. Alliance Advisors has been appointed by the Board to act as the inspector of election. The inspector of election will tabulate the votes cast by proxy or in person at the Annual Meeting, and will determine whether a quorum is present. In the event that a quorum is not present, the Annual Meeting will likely be adjourned or postponed in order to solicit additional proxies.

Voting Your Proxy

Shares represented by proxy will be voted as directed on the proxy form and, if no direction is given, will be voted as follows:

1. "FOR" the election of each of the nominees named in this Proxy Statement to the Board for a term of three years;
2. "FOR" the approval, on a non-binding advisory basis, of the compensation of the Company's NEOs; and
3. "FOR" the ratification of the appointment of KPMG LLP as the Company's independent registered public accounting firm for Fiscal year 2016;
4. In the best judgment of the persons named in the proxies, with respect to any other matters that may properly come before the meeting and any adjournments or postponements.
