Notes to Financial Statements

September 30, 2004

(Unaudited)

Note 1. Basis of Presentation

In the opinion of management, the accompanying balance sheet and related interim statements of income, cash flows, and stockholders' equity include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in accordance with generally accepted accounting principles of the results for the interim periods presented. Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and financial statements and notes thereto included in the Calcasieu Real Estate & Oil Co., Inc. 2003 Form 10-K.

Note 2. Earnings Per Share

Net income per share of common stock for the interim periods is based on the weighted average number of shares outstanding for each period.

Note 3. Contingencies

There are no material contingencies known to management. The Company does not participate in off balance sheet arrangements.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenue

Revenues for the first nine months of 2004 were \$552,971 or 39.5% over the corresponding period of 2003. Revenues for third quarter of 2004 were up \$223,442 or 38.1% over the third quarter of 2003. Comprising the \$552,971 increase in 2004 over 2003 were an increase of \$358,676 or 29.8% in oil and gas royalties, an increase of \$165,427 or 316.7% in timber sales and an increase of \$28,868 or 19.9% in agricultural income. The increase in oil and gas royalties was partially due to higher prices but primarily due to production from the Castor Creek field which began in 2004. The increase in timber sales is primarily due to timing because of the needs of mills in the immediate area. The increase in agricultural income was due to increased right of way money.

Operating Expenses

Operating expenses increased \$99,979 or 32.7% for the first nine months of 2004 compared to the first nine months of 2003. Of this amount \$39,741 was an increase in oil and gas production expense due entirely to severance taxes which are a percentage of gross oil and gas royalties. General and administrative expenses were \$61,359 higher due to \$24,263 for accrued property taxes, an increase of \$12,130 in insurance, an increase of \$10,000 in directors fees, an increase of \$8,124 in legal fees and \$6,238 higher costs to produce the annual report. Depreciation and depletion were up \$9,038 due entirely to higher timber sales.

Net Income

Net income for the nine months ended September 30, 2004 was up \$370,546 or 47.3% over the nine months ended September 30, 2003. During 2004 the Company had gain on sale of securities of \$86,458 before taxes whereas in 2003 there were none. This made the percentage increase for 2004 larger than it would have been otherwise. The quarter ended September 30, 2004, had net income \$133,868 or 40.2% larger than the quarter ended September 30, 2003.

Financial Condition

Current assets plus securities available for sale totaled \$3,451,394 on September 30, 2004, compared to \$2,254,154 on September 30, 2003. Current liabilities, which were also total liabilities were \$191,374 on September 30, 2004, compared to \$39,141 on September 30, 2003. The increase in liabilities was primarily due to an increase in current income taxes payable.

In July 2004, the Company purchased a \$1,000,000 U.S. Treasury note maturing August, 2005.

Management believes existing cash and short-term investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

Operations

In July, 2004, Mayne & Mertz, Inc. purchased mineral leases from the Company on its one-half interest in 100 acres and its one-sixth interest in 300 acres all in Jefferson Davis Parish. Said leases give Mayne & Mertz, Inc. three years to drill for oil and gas.

Issues and Uncertainties

This quarterly report contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those listed below, which, among others, should be considered in evaluating the Company's financial outlook.

Table of Contents

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to Calcasieu Real Estate & Oil Co., Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Item 4. Controls and Procedures

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rule 13a-14(c) within 90 days of the filing date of this quarterly report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation.

Part II. Other Information

Item 6. Exhibits and Reports on Form 8-K

(A) Exhibits

31.1 Certifications
