Dreman Value Management and Claymore Securities are constantly updating and expanding shareholder information services on the Fund's website, in an ongoing effort to provide you with the most current information about how your Fund's assets are managed, and the results of our efforts. It is just one more small way we are working to keep you better informed about your investment in the Fund.

DCS | Dreman/Claymore Dividend & Income Fund

Dear Shareholders

[GRAPHIC APPEARS HERE]
David N. Dreman

We are delighted to submit our first annual report to the shareholders of the Dreman/Claymore Dividend & Income Fund ("DCS"). The Fund's investment objective is to construct a portfolio of high-quality investments which provide a high level of current income, with a secondary objective of capital appreciation, while taking advantage of the new, favorable tax rates on dividend income. In keeping with the Dreman Value Management approach of seeking to identify superior companies which we perceive are extremely attractive valuations, we have constructed a portfolio that we believe is consistent with this objective.

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

While the Fund's common shares returned - 7.33% based on market price from inception of the Fund (January 27, 2004) to October 31, 2004, the Fund's return on net asset value (NAV) increased 2.47%, outperforming the S&P 500 Index which returned -0.89% during this same period. The Fund's NAV return represents the portfolio value of the Fund and assumes the reinvestment of the \$0.65 per common share of dividends that were paid during the period. The out-performance of the Fund can be attributed to our stock selection in the value sector, which significantly outperformed the S&P 500, as well as the above-average yields from the securities that produce qualified dividend income for the Fund. As of October 31, 2004 the portfolio is comprised of 79% common stocks, 18% preferred securities, and 3% in a combination of corporate bonds, investment companies and other short-term investments. The top four sectors are financials (41.4%); consumer staples (23.9%); utilities (14.4%) and energy (10.6%) which together aggregate approximately 90% of the Fund's portfolio.

The Year in Review

2004 has been a somewhat lackluster year in the equity markets. Numerous factors have intertwined to increase investor uncertainty as well as cloud the economic future. These include: the Presidential election, the Federal Reserve move to an increasing rate environment, oil prices exceeding \$50 per barrel, and the stimulus of tax cuts fading. Looking forward, our wall of worry includes the future strength of the consumer, the prospects for higher inflation and the outlook for the dollar.

Little has changed in our economic outlook over the last year or so. We have been concerned for some time about the growth of the US economy as the huge amount of stimulus from tax cuts, historically low interest rates, and the refinancing boom winds down. The unemployment rate, though slowly improving, will likely remain around 5.4% until job growth exceeds the 200,000 per month level. The historically low savings rate, driven by a consumer's willingness to spend, is causing a huge demand for foreign capital that is driving up the percentage of US debt held by foreigners. We believe that these trends will impact economic growth in the coming year, but we still believe that the US will experience reasonable Gross Domestic Product growth over the next several quarters.

Our emphasis on high-quality, dividend-paying companies, we feel, has positioned the portfolio to weather our cautious outlook although there never can be any guarantees. We believe our holdings in the consumer staples and energy sectors will serve our shareholders well, as they meet this profile.

2005 and Beyond

Although value stocks have performed well since 2000, we expect their outperformance to continue especially if our cautious outlook materializes. Higher interest rates, moderate economic and earnings growth and persistently higher energy prices bode well for the performance of value stocks relative to growth. Dot.com and Technology stocks remain richly priced relative to their fundamentals. By contrast, value stocks continue to trade at significant discounts to the valuation of the S&P 500.

More than ever, we expect the equity markets to have ever increasing volatility. Some of this concern stems from our view that investors have an increasing appetite for risk. Google's ("GOOG") recent initial public offering is an example of how initial skepticism can move to exuberance in a flash without significant change in the fundamentals. With the overall market valuation high by historic terms and growth slowing, we would expect investors to reduce their risk profile. Seeking out strong, well-managed companies where earnings growth is more predictable and valuations attractive should accomplish that objective. Our focus on consumer staples, energy and financials would fit the theme of

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

predictable earnings growth.

Portfolio Discussion

The portfolio's energy holdings were the best performing stocks for the fiscal year rising more than 25% as a group based on the higher than expected increase in oil and gas prices. Chevron Texaco (2.2% of the portfolio), ConocoPhillips (2.3% of the portfolio) and Devon Energy (1% of the portfolio) returned 24%, 27.5% and 25.75%, respectively. Though energy names in general have had strong price appreciation, the major integrated oil companies

Annual Report | October 31, 2004 | 1

DCS | Dreman/Claymore Dividend & Income Fund | Dear Shareholder Letter continued

and exploration and production companies remain at attractive valuations. It is our opinion that higher commodity prices are here to stay and many are underestimating the sustainability of tight supply/demand dynamics occurring globally. Therefore, we expect major upward revisions in 2005 earnings for the sector overall.

The financial sector continues to represent the largest weight in the portfolio at 41%. The exposure is very broad through commercial banks, thrifts & mortgage finance, REITs and insurance companies. Bank stocks have traditionally been solid performers for value managers and we will continue to ferret out new ideas in the industry. The portfolio has been positioned more in the larger banks because of more attractive valuations, greater diversification across business lines, more focus on fee businesses such as asset management and exposure to overall capital markets activity. We anticipate these companies will hold up much better in a higher interest-rate environment, as they are less reliant on the consumer mortgage business that could see pressure going forward.

Our biggest positions in this group are Bank of America ("BAC", 1.9% of the portfolio) and Washington Mutual ("WM", 3.7% of the portfolio). The latter has experienced a number of challenges as management has tried to pull together legacy acquisitions. Problems have arisen in their mortgage origination and mortgage servicing rights business, as hedges have not performed as expected. These issues have forced WM to guide down earnings expectations several times thereby disappointing investors. The stock price has reacted accordingly declining 12.6%. All this said we continue to believe that senior management is adequately addressing the problems. The valuation continues to be compelling with a 4.4% yield. WM is considered one of the best retail franchises and could be viewed as a consolidation opportunity for another major financial institution. Bank of America has been a stellar performer within the industry appreciating nearly 9% from 1/27/04 through 10/31/04. They are successfully integrating their most recent acquisition of Fleet and have a formidable presence in the northeastern U.S. where much of the existing and expected wealth growth is occurring. BAC is truly a national banking powerhouse positioned well to compete with the likes of JPMorganChase and Citigroup with a comparable valuation.

Fannie Mae ("FNM") and Freddie Mac ("FRE") represent approximately 10% of the portfolio. Here it has been a tale of two stocks as FRE has performed well increasing 4.4% while FNM is down 10.7%. Over the past couple of years, these stocks have endured significant political criticism of their dominance in the housing market, appropriate regulatory oversight and, more recently, their handling of sensitive accounting issues. We believe much of the criticism is overstated. Both companies have above average earnings growth and trade at less than half the price to earnings multiple of the S&P 500. Consequently, we think

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

they represent first-rate value at current prices.

Consumer Staples comprise the second highest sector with a weight of approximately 24% . This group has significantly outperformed the market from inception to date. The holdings are primarily a varied group of tobacco stocks. The best performers in the group include; Reynolds American (5.7% of the portfolio) up 22%; U.S. Tobacco (4.4% of the portfolio) up 21% and Carolina Group (3.1% of the portfolio) up 10%. The worst performer was Altria Group (9.3% of the portfolio), down 8%. We believe that the litigation risk facing these companies has decreased significantly over the last few years. Looking ahead to the next several quarters, the overhang of court cases should diminish as decisions come on the Engle, Price/Miles and the Department of Justice RICO cases currently in the courts. Positive outcomes in one or all cases should move the stock price of Altria higher. If not, the company has publicly stated that they will consider breaking the company up to unleash the value. Our estimate of the breakup value is in the \$80 - \$85 per share range. In the meantime, the attractive yield and significant cash flow should support the stock.

In Conclusion

Though we believe significant growth will be challenging in the next 12 months we continue to seek out new ideas. Our mantra has always been to be opportunistic and to look to capitalize on the overreactions that inevitably impact the market. This approach requires patience, fortitude and quality research in order to react in a timely manner.

We thank all our shareholders for their commitment to the Dreman/Claymore Dividend & Income Fund and its contrarian style of investing. We look forward to a prosperous year ahead for all.

Sincerely,

/s/ David N. Dreman

DCS | Dreman/Claymore Dividend & Income Fund

Questions & Answers

How have the equity markets performed during the period and what do you foresee for value stocks going forward?

The fiscal year ending October 31, 2004 saw a great divergence in equity market sentiment. The end of 2003 was the conclusion of a notable yearlong rebound for equities following three consecutive down years. However, in early 2004 there was a decided turn in market sentiment, as investor worries over rising energy costs, the ongoing conflict in Iraq and the possibility of higher interest rates combined to temper equity returns. The somewhat lackluster performance that arrived after the beginning of the New Year is not overly surprising given the impressive returns seen in the market over the final nine months of 2003.

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

We believe that stocks are positioned to perform reasonably well considering the potential for rising inflation and the perceived looming increase in interest rates and sustained higher energy prices. Historically speaking, the effects of rising rates have their most pronounced effect on stocks at the beginning of a cycle of increasing rates. Generally, as rates rise, stocks go up as well, though maybe not at the same pace. In the past, stocks have outperformed when interest rate increases have slowed down. During the period of 1977-1981, inflation increased at around 10% per year and stocks increased at about an 8% rate per year. In 1982, when inflation retreated, stocks returned 22%, making up for the previous years' underperformance. However, there is no guarantee that this historical trend will be repeated in future markets.

We are of the opinion that value stocks, particularly those with above-market dividend yields, will be able to shake the negative headwinds caused by investor nervousness over the potential for rising interest rates. We would anticipate that in a rising-rate environment, growth stocks without consistent and established earning streams would be far more vulnerable. Value stocks have outperformed the NASDAQ 100 Index by 13% annually since the beginning of 2000, and we would expect this out-performance to continue.

How have the Fund's net asset value ("NAV") and market share price performed since inception through October 31, 2004?

The Dreman/Claymore Dividend & Income Fund ("DCS") completed the initial public offering of its common shares on January 27th of this year and began trading on the New York Stock Exchange on January 28th. The Fund was initially priced at \$20 per common share and closed the period with a share price of \$17.88, resulting in a total return at market of -7.33%, assuming the reinvestment of dividends. The Fund's NAV held up much better during this period generating a total return at NAV of 2.47% which outperformed the -0.89% return of the S&P 500 Index during the same time. The Fund's NAV return represents the portfolio value of the Fund and assumes the reinvestment of the \$0.65 dividends paid to common shareholders during the period. Much of the increase in the Fund's NAV can be attributed to the portfolios' exposure to the energy sector which returned more than 25%. We continue to favor energy based on valuation, future earnings revisions, and expectations for tighter global oil supply/demand.

The concern over the economy and rising interest rates had a particularly pronounced effect on closed-end funds; especially those funds that are focused on dividend and interest income. Even though the Fund has a fixed-income component, it is focused more on dividend-paying stocks, which have historically performed better in rising-rate environments than pure fixed-income investments. Additionally, the Fund sold US Treasury futures contracts in an effort to hedge the interest rate exposure for a portion of the fixed-income component of its portfolio. As a result, the Fund's NAV should hold up better in a rising interest-rate environment as gains on the interest-rate hedge should help reduce declines on interest rate sensitive assets in the Fund, such as preferred stocks, bonds, utilities, REITs, etc.

DCS, like many closed-end funds, utilizes leverage as part of its investment strategy. In executing this strategy, the Fund issued Auction Market Preferred Shares (AMPS). As a result of this strategy, leveraged funds are typically more vulnerable to rising interest rates which would have an unfavorable effect on the performance of common shares. Rising short-term interest rates increase a fund's

Annual Report | October 31, 2004 | 3

DCS | Dreman/Claymore Dividend & Income Fund | Questions & Answers continued

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

cost of leverage while rising long-term rates generally place pressure on the valuation of a fund's long-term, fixed-income holdings. Additionally the use of leverage will increase the Fund's volatility.

Given the current cost of the Fund's AMPS, the Fund is realizing significant benefit due to the spread between the return generated by the Fund's portfolio and the short-term interest rates paid to the preferred holders. Even with a 50 basis point increase in short-term rates, leverage is extremely profitable to the Fund. We continue to evaluate the possibility of locking in the short-term rates on the AMPS for longer periods of time.

Are there any specific sectors that you have avoided or over-weighted?

As of October 31, Financials, Consumer Staples, Energy and Utilities represented the top sectors in the Fund. These four sectors comprise a large majority of the Fund's equity exposure (approximately 90% of the total investments). Each of these four sectors has performed admirably, particularly energy, which is up 25%.

We believe that the financials in the portfolio will still do well even with the possibility of increasing interest rates. Financials do not necessarily under-perform as a group in an environment of rising interest rates for a couple of reasons. First, banks are more protected from rising interest rates today than in the past. This is especially true for the large universal banks that we hold in the portfolio, where fee income represents a significant portion of revenues. Also, the large money center banks have a much better ability to hedge their potential losses associated with a rise in rates. These banks also enjoy the comfort of a more diversified revenue stream than some of their smaller brethren. Additionally, rising interest rates allow the banks to charge higher rates to their customers, thereby helping to offset any potential loss of business.

Two of the Fund's largest weightings in the financial sector are Freddie Mac ("Freddie") and Fannie Mae ("Fannie"); each has experienced some negative headline news in the past six months. We believe that the negative press that has haunted these two names recently is greatly exaggerated. The news that Freddie had understated earnings was treated very harshly by the press. It is important to note that earnings were understated, which is a far cry from the gross overstatement of earnings that plagued such names as WorldCom and Global Crossing. We are confident in Freddie and Fannie's ability to effectively manage any exposure to rising interest rates. In fact, because of their aggressive management of interest-rate risk, Freddie and Fannie have about half the negative correlation to interest rates than traditional banks. In a rising-rate environment, Fannie and Freddie often have opportunities to profitably increase their mortgage portfolio holdings, whereas traditional banks, with less sophisticated hedging programs, sell down their holdings of mortgages. Trading at only 9 to 10 times 2004 earnings and with a growth rate of almost 10%, we feel that both Freddie and Fannie are still compelling investments.

Our holdings in the Consumer Staples sector are currently comprised of tobacco stocks. Altria Group (9.3% of the portfolio) and Reynolds America (5.7% of the portfolio) are the two largest positions. As a group, these stocks currently yield approximately 5%, which is significantly higher than the dividend yield offered by the overall market and very generous compared to most fixed-income alternatives. Given their strong current yield, we are content to hold these stocks as we wait for what we perceive to be their full valuations based on their fundamentals. We feel that these stocks in particular will remain a viable source of dividend income for the foreseeable future. However, there is no guarantee that the dividend yield will continue in the future or that the

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

perceived intrinsic value of these stocks will be realized.

Utilities are another large component of the Fund. Utilities are often looked upon in the same light as fixed-income securities and as such are subject to the same problems as other fixed-income investments in a rising-rate environment. However, as noted previously, the interest rate exposure for a portion of the Fund's fixed-income portfolio is hedged. That being said, we are still confident in their continued ability to remain a stable and growing source of qualified dividend income for the Fund and its shareholders.

One sector that we are significantly under-weight in is the technology sector. The technology sector has historically been a low yielding sector and these stocks often maintain high price to earnings ratios. We feel that the majority of this sector is fully priced and thus we have avoided most technology securities.

* Commencement of operations.

(a) Based on average shares outstanding during the period.

(b) Before deduction of offering expenses charged to capital.

(c) Total investment return is calculated assuming a purchase of a common share at the beginning of the period and a sale on the last day of the period reported either at net asset value ("NAV") or market price per share. Dividends and distributions are assumed to be reinvested at NAV for NAV returns and in accordance with the Fund's dividend reinvestment plan for market value returns. Total investment return does not reflect brokerage commissions. A return calculated for a period of less than one year is not annualized.

(d) Annualized.

(e) Managed assets is equal to net assets applicable to common shareholders plus outstanding leverage, such as the liquidation value of preferred shares.

See notes to financial statements.

Annual Report | October 31, 2004 | 11

DCS | Dreman/Claymore Dividend & Income Fund

Notes to Financial Statements | October 31, 2004

Note 1 - Organization:

Dreman/Claymore Dividend & Income Fund (the "Fund") was organized as a Delaware statutory trust on October 20, 2003. The Fund is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, and the Securities Act of 1933, as amended.

The Fund's primary investment objective is to provide a high level of current income, with a secondary objective of capital appreciation. The Fund will pursue its investment objectives by investing its assets primarily in dividend-paying common and preferred stocks. There can be no assurance that the Fund will achieve

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

its investment objectives. The Fund's investment objectives are considered fundamental and may not be changed without shareholder approval.

Note 2 - Accounting Policies:

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from these estimates.

The following is a summary of significant accounting policies consistently followed by the Fund.

(a) Valuation of Investments

Readily marketable portfolio securities listed on an exchange are generally valued at their last sale price. If no sales are reported, the securities are valued at the mean of the closing bid and asked prices on such day. If no bid or asked prices are quoted on such day, then the security is valued by such method as the Fund's Board of Trustees shall determine in good faith to reflect its fair value. Portfolio securities traded on more than one securities exchange are valued at the last sale price at the close of the exchange representing the principal market for such securities.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by the Advisor to be over-the-counter, but excluding securities admitted to trading on the NASDAQ National List, are valued at the mean of the current bid and asked prices. Additionally, certain fixed-income securities may be valued on the basis of prices provided by a pricing service when such prices are believed by the Trustees to reflect the fair value of such securities.

Short-term debt securities having a remaining maturity of sixty days or less are valued at amortized cost, which approximates market value.

(b) Investment Transactions and Investment Income

Investment transactions are accounted for on the trade date. Realized gains and losses on investments are determined on the identified cost basis. Dividend income is recorded net of applicable withholding taxes on the ex-dividend date and interest income is recorded on an accrual basis. Discounts or premiums on debt securities purchased are accreted or amortized to interest income over the lives of the respective securities using the effective interest method.

(c) Futures

A futures contract is an agreement to buy or sell a financial instrument at a particular price on a stipulated future date. Upon entering into a futures contract, the Fund is required to make an initial margin deposit established by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the counterparty an amount of cash equal to the daily fluctuation in the value of the contract. Such receipt or payment is known as the variation margin and is recorded by the Fund as unrealized appreciation or depreciation. The Fund bears the market risk that arises from the change in the value of these financial instruments.

During the period, the Fund sold futures contracts on US Treasury securities in an effort to hedge a portion of the fixed-income component of its portfolio against rising interest rates.

At October 31, 2004, the following futures contracts were outstanding:

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

Short Contracts	Number of Contracts	Expiration Month	Original Value	Value at October 31, 2004	Unrealized Depreciation

US Treasury Bonds (CBT)	2,889	Dec-04	\$ 317,225,742	\$ 328,894,594	\$ (11,668,852)

Note 3 - Investment Advisory Agreement, Sub-Advisory Agreement and Other Agreements:

Pursuant to an Investment Advisory Agreement (the "Agreement") between the Fund and Claymore Advisors, LLC (the "Advisor"), the Advisor will furnish offices, necessary facilities and equipment, provide administrative services, oversee the activities of the Fund's Investment Manager, provide personnel, including certain officers required for the Fund's administrative management and compensate all officers and trustees of the Fund who are its affiliates. As compensation for these services, the Fund will pay the Investment Advisor a fee, payable monthly, in an amount equal to 0.85% of the Fund's average managed assets (net assets plus any assets attributable to financial leverage).

The Advisor has entered into a Sub-Advisory Agreement with Dreman Value Management, LLC (the "Investment Manager"). Pursuant to the terms of this agreement, the Investment Manager, under the supervision of the Fund's Board of Trustees and the Advisor, will provide a continuous investment program for the Fund's portfolio, provide investment research and make and execute recommendations for the purchase and sale of securities; and provide certain facilities and personnel, including officers required for the Fund's administrative management and compensation of all officers and trustees of the Fund who are its affiliate. For these services, the Advisor has agreed to pay the Investment Manager an aggregate amount equal to 60% of the investment advisory fees paid to the Advisor by the Fund, net of any additional compensation payments to underwriters of the common share offering.

The Bank of New York ("BNY") acts as the Fund's custodian, administrator and transfer agent. As custodian, BNY is responsible for the custody of the Fund's assets. As administrator, BNY is responsible for maintaining the books and records of the Fund's securities and cash. As transfer agent, BNY is responsible for performing transfer agency services for the Fund.

Note 4 - Federal Income Taxes:

The Fund intends to comply with the requirements of Subchapter M of the Internal Revenue Code of 1986, as amended, applicable to regulated investment companies. Accordingly, no provision for U.S. federal income taxes is required. In addition, by distributing substantially all of its ordinary income and long-term capital gains, if any, during each calendar year, the Fund intends not to be subject to U.S. federal excise tax.

12 | Annual Report | October 31, 2004

DCS | Dreman/Claymore Dividend & Income Fund | Notes to Financial Statements
continued

In order to present paid-in capital in excess of par and accumulated net realized gains or losses on the statement of assets and liabilities that more

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

closely represent their tax character, certain adjustments have been made to undistributed net investment income and accumulated net realized gains or losses on investments. For the period ended October 31, 2004, the adjustments were to increase accumulated net realized gain on investment by \$1,091,319 and decrease undistributed net investment income by \$1,091,319 due to permanent differences in the treatment for book and tax purposes of certain real estate investment trusts.

Information on the tax components of capital as of October 31, 2004 is as follows:

Cost of investments for tax purposes	Gross tax unrealized appreciation	Gross tax unrealized depreciation	Net tax unrealized appreciation on investments	Undistributed ordinary income
\$ 1,277,894,738	\$ 58,767,179	\$ (56,637,042)	\$ 2,130,137	\$ 4,380,565

The differences between book basis and tax basis unrealized appreciation/(depreciation) is attributable to income reclassifications from real estate investment trusts, and investments in preferred securities.

For the period ended October 31, 2004, the tax character of distributions paid to common and preferred shareholders of \$29,430,258 and \$3,950,767, respectively, as reflected in the statement of changes in net assets, was ordinary income.

For federal income tax purposes, the Fund has a capital loss carryforward of \$9,346,252, which expires October 31, 2012. Capital loss carryforwards are available to offset future capital gains, if any.

Note 5 - Investments in Securities:

For the period ended October 31, 2004, purchases and sales of investments, other than short-term securities, were \$1,345,555,787 and \$74,200,194, respectively.

Note 6 - Capital:

Common Shares

The Fund has an unlimited amount of common shares, \$0.01 par value, authorized and has issued 40,500,000 shares of common stock in its initial public offering. These shares were all issued at \$19.10 per share after deducting the sales load but before a reimbursement of expenses to the underwriters of \$0.00667 per share. In connection with the initial public offering of the Fund's common shares, the underwriters were granted an option to purchase additional common shares. On February 12, 2004, and March 16, 2004, the underwriters purchased, at a price of \$19.10 per common share (after deducting the sales load but before underwriters' expense reimbursement), 2,750,000 and 1,900,000 common shares, respectively, of the Fund pursuant to the over-allotment option.

Offering costs, estimated at \$1,806,000 or \$0.04 per share, in connection with the issuance of the common shares have been borne by the Fund and were charged to paid-in-capital. The Advisor has agreed to reimburse the Fund's organizational expenses, which are estimated at \$25,000.

In connection with the Fund's dividend reinvestment plan, the Fund issued 244,184 shares during the period.

Preferred Shares

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

On February 12, 2004, the Fund's Board of Trustees authorized the issuance of preferred shares, in addition to the existing common shares, as part of the Fund's leverage strategy. Preferred shares issued by the Fund have seniority over the common shares. Offering costs associated with the issuance of preferred shares, estimated at \$4,750,000, have been borne by the common shareholders as a direct reduction to paid-in-capital

On March 23, 2004, the Fund issued 3,400 shares of Preferred Shares Series M7, 3,400 shares of Preferred Shares Series T28, 3,400 shares of Preferred Shares Series W7, 3,400 shares of Preferred Shares Series TH28 and 3,400 shares of Preferred Shares Series F7 each with a net asset and liquidation value of \$25,000 per share plus accrued dividends. Dividends are accumulated daily at an annual rate set through auction procedures. Distributions of net realized capital gains, if any, are paid annually.

For the period ended October 31, 2004, the annualized dividend rates range from:

	High	Low	At October 31, 2004
Series M7	1.90%	1.08%	1.85%
Series T28	1.93%	1.10%	1.93%
Series W7	1.95%	1.08%	1.86%
Series TH28	2.04%	1.10%	2.04%
Series F7	1.93%	1.05%	1.85%

The Fund is subject to certain limitations and restrictions while Preferred Shares are outstanding. Failure to comply with these limitations and restrictions could preclude the Fund from declaring any dividends or distributions to common shareholders or repurchasing common shares and/or could trigger the mandatory redemption of Preferred Shares at their liquidation value.

Preferred Shares, which are entitled to one vote per share, generally vote with the common stock but vote separately as a class to elect two Trustees and on any matters affecting the rights of the Preferred Shares.

Note 7 - Line of Credit:

Prior to the issuance of preferred shares, the Fund entered into an agreement with the Bank of New York to provide a line of credit to the Fund. Interest on amount borrowed was based on the Federal Funds Rate plus 0.75%. The average daily borrowings under the agreement was \$230,957,000 with an average annual interest rate of 1.75%. The line of credit was outstanding for forty days and was discontinued when the preferred shares were issued.

Note 8 - Subsequent Event:

On November 1 the Board of Trustees declared a quarterly dividend of \$.325 per common share. This dividend was payable on November 30, 2004 to shareholders of record on November 15, 2004.

Annual Report | October 31, 2004 | 13

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Trustees of
Dreman/Claymore Dividend & Income Fund

We have audited the accompanying statement of assets and liabilities of Dreman/Claymore Dividend & Income Fund (the "Fund"), including the portfolio of investments, as of October 31, 2004, and the related statement of operations, statement of changes in net assets, and financial highlights for the period from January 27, 2004 (commencement of operations) through October 31, 2004. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights. Our procedures included confirmation of securities owned as of October 31, 2004, by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreman/Claymore Dividend & Income Fund at October 31, 2004, and the results of its operations, changes in its net assets, and the financial highlights for the period from January 27, 2004 through October 31, 2004, in conformity with U.S. generally accepted accounting principles.

DCS | Dreman/Claymore Dividend & Income Fund

Supplemental Information | (unaudited)

Federal Income Tax Information

Qualified dividend income of as much as \$32,041,389 was taxable to the Fund through October 31, 2004. The Fund intends to designate the maximum amount of dividends that qualify for the reduced tax rate pursuant to the Jobs and Growth Tax Relief Reconciliation Act of 2003.

For corporate shareholders, \$32,041,389 of investment income qualifies for the dividends-received deduction.

In January 2005, you will be advised on IRS Form 1099 DIV or substitute 1099 DIV as to the federal tax status of the distributions received by you in the calendar year 2004.

Annual Report | October 31, 2004 | 15

DCS | Dreman/Claymore Dividend & Income Fund

Dividend Reinvestment Plan

Unless the registered owner of common shares elects to receive cash by contacting the Plan Administrator, all dividends declared on common shares of the Fund will be automatically reinvested by the Bank of New York (the "Plan Administrator"), Administrator for shareholders in the Fund's Dividend Reinvestment Plan (the "Plan"), in additional common shares of the Fund. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared dividend or other distribution. Some brokers may automatically elect to receive cash on your behalf and may re-invest that cash in additional common shares of the Fund for you. If you wish for all dividends declared on your common shares of the Fund to be automatically reinvested pursuant to the Plan, please contact your broker.

The Plan Administrator will open an account for each common shareholder under the Plan in the same name in which such common shareholder's common shares are registered. Whenever the Fund declares a dividend or other distribution (together, a "Dividend") payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in common shares. The common shares will be acquired by the Plan Administrator for the

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

participants'accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized common shares from the Fund ("Newly Issued Common Shares") or (ii) by purchase of outstanding common shares on the open market ("Open-Market Purchases") on the New York Stock Exchange or elsewhere. If, on the payment date for any Dividend, the closing market price plus estimated brokerage commission per common share is equal to or greater than the net asset value per common share, the Plan Administrator will invest the Dividend amount in Newly Issued Common Shares on behalf of the participants. The number of Newly Issued Common Shares to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the net asset value per common share on the payment date; provided that, if the net asset value is less than or equal to 95% of the closing market value on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per common share on the payment date. If, on the payment date for any Dividend, the net asset value per common share is greater than the closing market value plus estimated brokerage commission, the Plan Administrator will invest the Dividend amount in common shares acquired on behalf of the participants in Open-Market Purchases.

If, before the Plan Administrator has completed its Open-Market Purchases, the market price per common share exceeds the net asset value per common share, the average per common share purchase price paid by the Plan Administrator may exceed the net asset value of the common shares, resulting in the acquisition of fewer common shares than if the Dividend had been paid in Newly Issued Common Shares on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Shares at net asset value per common share at the close of business on the Last Purchase Date provided that, if the net asset value is less than or equal to 95% of the then current market price per common share; the dollar amount of the Dividend will be divided by 95% of the market price on the payment date.

The Plan Administrator maintains all shareholders'accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Common shares in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each shareholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instruction of the participants.

There will be no brokerage charges with respect to common shares issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commission incurred in connection with Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any Federal, state or local income tax that may be payable (or required to be withheld) on such Dividends.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, The Bank of New York, 2 Hanson Place, Brooklyn, New York, 11217, Phone Number: (718) 315-4818

Privacy Principles of Dreman/Claymore Dividend & Income Fund for Shareholders

The Fund is committed to maintaining the privacy of shareholders and to safeguarding its non-public personal information. The following information is provided to help you understand what personal information the Fund collects, how we protect that information and why, in certain cases, we may share information with select other parties.

Generally, the Fund does not receive any nonpublic personal information relating to its shareholders, although certain nonpublic personal information of its shareholders may become available to the Fund. The Fund does not disclose any nonpublic personal information about its shareholders or former shareholders to anyone, except as permitted by law or as is necessary in order to service shareholder accounts (for example, to a transfer agent or third party administrator).

The Fund restricts access to nonpublic personal information about the shareholders to Claymore Advisors, LLC employees with a legitimate business need for the information. The Fund maintains physical, electronic and procedural safeguards designed to protect the nonpublic personal information of its shareholders.

DCS | Dreman/Claymore Dividend & Income Fund

About the Investment Manager

Dreman Value Management, LLC

Dreman Value Management is an independently owned investment management firm founded in 1997, however, David Dreman has been Chairman and Chief Investment Officer of a series of investment advisory firms bearing his name since 1977. As of September 30, 2004 the Firm had over \$11 billion in assets under management primarily through multiple sub-advisory relationships as well as numerous institutional accounts and SMAs. Employee owned, the firm is one of the pioneers in contrarian investing and behavioral finance and the psychology of investment decision-making. The firm places its primary emphasis on low P/E common stocks with growing dividends, avoiding concept stocks without justifiable valuations.

Investment Philosophy

Dreman Value Management is one of the pioneers of contrarian value investing. Our investment philosophy is based on a disciplined, low P/E approach to stock selection.

- . We invest in undervalued companies that exhibit strong fundamentals, above-market dividend yields and historic earnings growth, which our analysis indicates will persist.
- . Our strategy is to own strong, fundamentally sound companies and to avoid

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

speculative stocks or potential bankruptcies.

- . We believe that the markets are not perfectly efficient and that, in particular, behavioral finance plays a considerable role in investor actions and overreactions and subsequently in stock price movements.

Investment Process

Our research studies, numerous academic papers and our long-term performance record show that out-of-favor stocks (those with low P/E ratios) consistently and predictably outperform the market

- . Screen for stocks with below market P/E ratios.
- . Further refine candidates by applying additional value screens.
- . Fundamental analysis is applied to remaining candidates.
- . Stocks that pass all the screens and analysis are recommended to the Investment Committee for approval

Dreman Value Management, L.L.C.

[LOGO OF DCS LISTED NYSE(R)]

DCS-AR-1004

Item 2. Code of Ethics.

(a) The registrant has adopted a code of ethics (the "Code of Ethics") that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

(b) No information need be disclosed pursuant to this paragraph.

(c) A provision regarding the procedures for reporting violations under the Code of Ethics was amended during the period covered by the shareholder report presented in Item 1.

(d) The registrant has not granted a waiver or an implicit waiver from a provision of its Code of Ethics during the period covered by the report.

(e) Not applicable.

(f) (1) The registrant's Code of Ethics is attached hereto as an exhibit.

(2) Not applicable

(3) Not applicable

Item 3. Audit Committee Financial Expert.

The registrant's Board of Trustees has determined that it has at least one audit committee financial expert serving on its audit committee, Ronald E. Toupin, Jr. Mr. Toupin is an "independent" Trustee. Mr. Toupin qualifies as an audit committee financial expert by virtue of his experience obtained as a portfolio manager and research analyst, which included review and analysis of offering documents and audited and un-audited financial statements using GAAP to show

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

accounting estimates, accruals and reserves.

Under applicable securities laws, a person who is determined to be an audit committee financial expert will not be deemed an "expert" for any purpose, including without limitation for the purposes of Section 11 of the Securities Act of 1933, as a result of being designated or identified as an audit committee financial expert. The designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations, or liabilities that are greater than the duties, obligations, and liabilities imposed on such person as a member of the audit committee and Board of Trustees in the absence of such designation or identification.

Item 4. Principal Accountant Fees and Services.

a). Audit Fees: the aggregate fees billed for the fiscal year 2004, for professional services rendered by the principal accountant for the audit is \$42,000. The aggregate fees billed for fiscal year 2003 for professional services rendered by the principal accountant is \$0 as this fund was not in existence in 2003.

b). Audit-Related Fees: the aggregate fees billed for the fiscal year 2004, for assurance and related services by the principal accountant that are reasonably related to the performance of the audit of the registrant's financial statements and are not reported under paragraph (a) of this item is \$3,500. Specifically, this amount represents the amount paid for the audit of the preferred shares asset coverage test. The Audit-Related Fees for 2003 is \$0 as this fund was not in existence in 2003.

c). Tax Fees, the aggregate fees billed for the fiscal year 2004, for professional services rendered by the principal accountant for tax compliance, tax advice, and tax planning is \$2,000. The Tax Fees for 2003 is \$0 as this fund was not in existence in 2003.

d). All Other Fees, the aggregate fees billed for the fiscal year 2004, for products and services provided by the principal accountant, other than the services reported in paragraphs (a) and (c) of this Item is \$0. The Other Audit Fees for 2003 is \$0 as this fund was not in existence in 2003.

(e) Audit Committee Pre-Approval Policies and Procedures.

(i) The Audit Committee reviews, and in its sole discretion, pre-approves, pursuant to written pre-approval procedures (A) all engagements for audit and non-audit services to be provided by the principal accountant to the registrant and (B) all engagements for non-audit services to be provided by the principal accountant (1) to the registrant's investment adviser (not including a sub-adviser whose role is primarily portfolio management and is sub-contracted or overseen by another investment adviser) and (2) to any entity controlling, controlled by or under common control with the registrant's investment adviser that provides ongoing services to the registrant; but in the case of the services described in subsection (B)(1) or (2), only if the engagement relates directly to the operations and financial reporting of the registrant; provided that such pre-approval need not be obtained in circumstances in which the pre-approval requirement is waived under rules promulgated by the Securities and Exchange Commission or New York Stock Exchange listing standards. The pre-approval policies are attached as an exhibit hereto. The policies provide for both "general pre-approval" and "specific pre-approval" as defined therein. During the fiscal period ended October 31, 2004, the registrant utilized only the specific pre-approval method.

AUDIT COMMITTEE

PRE-APPROVAL POLICY AND PROCEDURES OF
DREMAN/CLAYMORE DIVIDEND & INCOME FUND

1. STATEMENT OF PRINCIPLES

The Audit Committee (the "Committee") of the Board is required to review and, in its sole discretion, pre-approve all Covered Services to be provided by the Independent Auditors to the Fund and Covered Entities in order to assure that services performed by the Independent Auditors do not impair the auditor's independence from the Fund./1/

The SEC has issued rules specifying the types of services that an independent auditor may not provide to its audit client, as well as the audit committee's administration of the engagement of the independent auditor. The SEC's rules establish two different approaches to pre-approving services, which the SEC considers to be equally valid. Proposed services either: may be pre-approved without consideration of specific case-by-case services by the Committee ("general pre-approval"); or require the specific pre-approval of the Committee ("specific pre-approval"). The Committee believes that the combination of these two approaches in this Policy will result in an effective and efficient procedure to preapprove services performed by the Independent Auditors. As set forth in this Policy, unless a type of service has received general pre-approval, it will require specific pre-approval by the Committee (or by any member of the Committee to which pre-approval authority has been delegated) if it is to be provided by the Independent Auditors. Any proposed services exceeding pre-approved cost levels or budgeted amounts will also require specific pre-approval by the Committee.

For both types of pre-approval, the Committee will consider whether such services are consistent with the SEC's rules on auditor independence. The Committee will also consider whether the Independent Auditors are best positioned to provide the most effective and efficient services, for reasons such as its familiarity with the Fund's business, people, culture, accounting systems, risk profile and other factors, and whether the service might enhance the Fund's ability to manage or control risk or improve audit quality. All such factors will be considered as a whole, and no one factor should necessarily be determinative.

The Committee is also mindful of the relationship between fees for audit and non-audit services in deciding whether to pre-approve any such services and may determine for each fiscal year, the appropriate ratio between the total amount of fees for Audit, Audit-related and Tax services for the Fund (including any Audit-related or Tax service fees for Covered Entities that were subject to pre-approval), and the total amount of fees for certain

/1/ Terms used in this Policy and not otherwise defined herein shall have the meanings as defined in the Audit Committee Charter.

permissible non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

The appendices to this Policy describe the Audit, Audit-related, Tax and All Other services that have the general pre-approval of the Committee. The term of any general pre-approval is 12 months from the date of pre-approval, unless

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

the Committee considers and provides a different period and states otherwise. The Committee will annually review and pre-approve the services that may be provided by the Independent Auditors without obtaining specific pre-approval from the Committee. The Committee will add to or subtract from the list of general pre-approved services from time to time, based on subsequent determinations.

The purpose of this Policy is to set forth the policy and procedures by which the Committee intends to fulfill its responsibilities. It does not delegate the Committee's responsibilities to pre-approve services performed by the Independent Auditors to management.

The Fund's Independent Auditors have reviewed this Policy and believe that implementation of the Policy will not adversely affect the Independent Auditors' independence.

2. Delegation

As provided in the Act and the SEC's rules, the Committee may delegate either type of pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Committee at its next scheduled meeting.

3. Audit Services

The annual Audit services engagement terms and fees are subject to the specific pre-approval of the Committee. Audit services include the annual financial statement audit and other procedures required to be performed by the Independent Auditors to be able to form an opinion on the Fund's financial statements. These other procedures include information systems and procedural reviews and testing performed in order to understand and place reliance on the systems of internal control, and consultations relating to the audit. The Committee will monitor the Audit services engagement as necessary, but no less than on a quarterly basis, and will also approve, if necessary, any changes in terms, conditions and fees resulting from changes in audit scope, Fund structure or other items.

In addition to the annual Audit services engagement approved by the Committee, the Committee may grant general pre-approval to other Audit services, which are those services that only the Independent Auditors reasonably can provide. Other Audit services may include statutory audits and services associated with SEC registration statements (on Forms N-1 A, N-2, N-3, N-4, etc.), periodic reports and other documents filed with the SEC or other documents issued in connection with securities offerings.

The Committee has pre-approved the Audit services in Appendix B.1. All other Audit services not listed in Appendix B.1 must be specifically pre-approved by the Committee (or by any member of the Committee to which pre-approval has been delegated).

4. Audit-Related Services

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or review of the Fund's financial statements or, to the extent they are Covered Services, the Covered Entities' financial statements, or that are traditionally performed by the Independent Auditors. Because the Committee believes that the provision of Audit-related services does not impair the independence of the auditor and is consistent with the SEC's rules on auditor independence, the Committee may grant general pre-approval to Audit-related services. Audit-related services include,

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

among others, accounting consultations related to accounting, financial reporting or disclosure matters not classified as "Audit services"; assistance with understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures related to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Forms N-SAR and/or N-CSR.

The Committee has pre-approved the Audit-related services in Appendix B.2. All other Audit-related services not listed in Appendix B.2 must be specifically pre-approved by the Committee (or by any member of the Committee to which pre-approval has been delegated).

5. Tax Services

The Committee believes that the Independent Auditors can provide Tax services to the Fund and, to the extent they are Covered Services, the Covered Entities, such as tax compliance, tax planning and tax advice without impairing the auditor's independence, and the SEC has stated that the Independent Auditors may provide such services. Hence, the Committee believes it may grant general pre-approval to those Tax services that have historically been provided by the Independent Auditors, that the Committee has reviewed and believes would not impair the independence of the Independent Auditors, and that are consistent with the SEC's rules on auditor independence. The Committee will not permit the retention of the Independent Auditors in connection with a transaction initially recommended by the Independent Auditors, the sole business purpose of which may be tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Committee will consult with management personnel responsible for tax compliance or outside counsel to determine that the tax planning and reporting positions are consistent with this policy.

Pursuant to the preceding paragraph, the Committee has pre-approved the Tax services in Appendix B.3. All Tax services involving large and complex transactions not listed in Appendix B.3 must be specifically pre-approved by the Committee (or by any member of the Committee to which pre-approval has been delegated), including Tax services proposed to be provided by the Independent Auditors to any executive officer or trustee of

the Fund, in his or her individual capacity, where such services are paid for by the Fund (generally applicable only to internally managed investment companies).

6. All Other Services

The Committee believes, based on the SEC's rules prohibiting the Independent Auditors from providing specific non-audit services, that other types of non-audit services are permitted. Accordingly, the Committee believes it may grant general pre-approval to those permissible non-audit services classified as All Other services that it believes are routine and recurring services, would not impair the independence of the auditor and are consistent with the SEC's rules on auditor independence.

The Committee has pre-approved the All Other services in Appendix B.4. Permissible All Other services not listed in Appendix B.4 must be specifically pre-approved by the Committee (or by any member of the Committee to which pre-approval has been delegated).

7. Prohibited Non-Audit Services

A list of the SEC's prohibited non-audit services is attached to this

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

policy as Appendix B.5. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these services and the applicability of exceptions to certain of the prohibitions.

8. Pre-Approval Fee Levels or Budgeted Amounts

Pre-approval fee levels or budgeted amounts for all services to be provided by the Independent Auditors will be established annually by the Committee. Any proposed services exceeding these levels or amounts will require specific pre-approval by the Committee. The Committee is mindful of the overall relationship of fees for audit and non-audit services in determining whether to pre-approve any such services. For each fiscal year, the Committee may determine the appropriate ratio between the total amount of fees for Audit, Audit-related, and Tax services for the Fund (including any Audit-related or Tax services fees for Covered Entities subject to pre-approval), and the total amount of fees for certain permissible non-audit services classified as All Other services for the Fund (including any such services for Covered Entities subject to pre-approval).

9. Procedures

All requests or applications for services to be provided by the Independent Auditors that do not require specific approval by the Committee will be submitted to the Fund's principal financial officer and must include a detailed description of the services to be rendered. The Fund's principal financial officer will determine whether such services are included within the list of services that have received the general pre-approval of the Committee. The Committee will be informed on a timely basis of any such services rendered by the Independent Auditors. Requests or applications to provide services that require specific approval by the Committee will be submitted to the Committee by both the Independent Auditors and the Fund's principal financial officer, and must include a joint

statement as to whether, in their view, the request or application is consistent with the SEC's rules on auditor independence.

The Committee has designated the Fund's principal financial officer to monitor the performance of all services provided by the Independent Auditors and to determine whether such services are in compliance with this Policy. The Fund's principal financial officer will report to the Committee on a periodic basis on the results of its monitoring. A sample report is included as Appendix B.6. Both the Fund's principal financial officer and management will immediately report to the chairman of the Committee any breach of this Policy that comes to the attention of the Fund's principal financial officer or any member of management.

10. Additional Requirements

The Committee has determined to take additional measures on an annual basis to meet its responsibility to oversee the work of the Independent Auditors and to assure the auditor's independence from the Fund, such as reviewing a formal written statement from the Independent Auditors delineating all financial, employment and business relationships (as such terms are defined in Regulation S-X) between the Independent Auditors and the Fund and discussing with the Independent Auditors its methods and procedures for ensuring independence.

11. Covered Entities

Covered Entities include the Fund's investment adviser(s) and any entity controlling, controlled by or under common control with the Fund's investment

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

adviser(s) that provides ongoing services to the Fund(s). The Committee must pre-approve non-audit services provided not only to the Fund but also to the Covered Entities if the engagements relate directly to the operations and financial reporting of the Fund.

Appendix B.1

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

- * Aggregate fees related to the pre-approved services will be limited to 10% of each of the respective Independent Auditor's approved 2003 annual fees for audit and tax services.

- . Bookkeeping or other services related to the accounting records or financial statements of the audit client
- . Financial information systems design and implementation
- . Appraisal or valuation services, fairness opinions or contribution-in-kind reports
- . Actuarial services
- . Internal audit outsourcing services
- . Management functions
- . Human resources
- . Broker-dealer, investment adviser or investment banking services
- . Legal services
- . Expert services unrelated to the audit

(ii) 100% of services described in each of Items 4(b) through (d) were approved by the audit committee pursuant to paragraph (c) (7) (A) of Rule 2-01 of Regulation S-X.

(f) The percentage of hours expended on the principal accountant's engagement to audit the Fund's financial statements for the most recent fiscal year attributable to work performed by persons other than the principal accountant's full-time, permanent employees was 0%.

(g) The aggregate non-audit fees billed by the Registrant's accountant for services rendered to the Fund, the Advisor or any entity controlling, controlled by, or under common control with the Advisor that provides ongoing services to the registrant (except for any sub-advisor whose role is primarily portfolio management and is subcontracted with or overseen by another investment advisor) that directly impacted the Fund for the period from January 27, 2004 to October 31, 2004 were \$5,500.

(h) Not Applicable

Item 5. Audit Committee of Listed Registrants.

The registrant has a separately designated standing audit committee established in accordance with Section 3(a) (58) (A) of the Securities Exchange Act of 1934. The audit committee of the registrant is comprised of: Richard L. Crandall, Roman Friedrich III, Ronald A. Nyberg and Ronald E. Toupin, Jr.

(b) Not Applicable.

Item 6. Schedule of Investments.

The Schedule of Investments is included as part of Item 1.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

The registrant has delegated the voting of proxies relating to its voting securities to its investment sub-adviser, Dremam Value Management, LLC (the "Sub-Adviser"). The Sub-Adviser's Proxy Voting Policies and Procedures are included as an exhibit hereto.

Item 8. Purchases of Equity Securities by Closed-End Management Investment

Edgar Filing: DREMAN CLAYMORE DIVIDEND & INCOME FUND - Form N-CSR

Company and Affiliated Purchasers.

None.

Item 9. Submission of Matters to a Vote of Security Holders.

During the period covered by this report, the registrant adopted written procedures by which shareholders may recommend nominees to the registrant's Board of Trustees.

Item 10. Controls and Procedures.

(a) The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of this filing and have concluded that the registrant's disclosure controls and procedures were effective, as of that date, in ensuring that information required to be disclosed by the registrant in this Form N-CSR was recorded, processed, summarized, and reported timely.

(b) There was no change in the registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by this report that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Item 11. Exhibits.

(a) (1) Code of Ethics.

(a) (2) Certification of principal executive officer and principal financial officer pursuant to Rule 303a-2.

(b) Certification of principal executive officer and principal financial officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(c) Proxy Voting Policies and Procedures.
