Item 2.02 Results of Operations and Financial Condition.

The news release dated April 25, 2005 filed under Item 8.01 Other Events herein is also furnished pursuant to Item 2.02, Results of Operations and Financial Condition.

Items 8.01 Other Events.

On April 25, 2005, HEI issued the following news release:

HAWAIIAN ELECTRIC INDUSTRIES, INC. REPORTS FIRST QUARTER 2005 EARNINGS

HONOLULU Hawaiian Electric Industries, Inc. (NYSE HE) today reported net income for the three months ended March 31, 2005, of \$24.1 million, or 30 cents per share, compared with \$30.9 million, or 40 cents per share, in the same quarter of 2004.

First quarter results were down as we continued to experience increased operations and maintenance costs at our utilities to ensure reliable electric service to our customers, said Robert F. Clarke, HEI chairman, president and chief executive officer. Several years of growth in Hawaii's economy have resulted in new construction and increased residential usage which have added to our load especially our peak load. To ensure reliability, we have been running our peaking units more often, which in turn increases operations and maintenance expenses, added Clarke. The earnings decline at the utility was partially offset by an increase in bank earnings.

Electric utility net income for the first quarter was \$12.4 million compared to \$20.0 million for the same quarter last year. Kilowatthour sales were lower by 0.9% for the quarter compared to the first quarter of 2004.

Cooler weather was the primary reason for the decline in kilowatthour sales. However, strength in tourism and a healthy Hawaii economy helped moderate the decrease, said Clarke.

Cooling degree days were lower by 14.5% in the first quarter of 2005, compared with the same quarter of 2004.

Other operations and maintenance expenses were \$8.0 million higher primarily due to 1) \$2.5 million expensed in the first quarter of 2005 related to the increased scope of overhaul repairs and maintenance on an Oahu peaking unit (Waiiau 9) which began in the 4th quarter of 2004, 2) a \$1.2 million increase in retirement benefit expenses due primarily to a decrease in the discount rate assumption used to calculate the benefit obligation, 3) \$0.7 million of increased transmission and distribution operations and maintenance (primarily line inspections), and 4) \$0.4 million of higher external Sarbanes-Oxley (SOX) compliance costs. Overhaul repairs and maintenance on Waiiau 9 were completed this month and overhaul repairs and maintenance will commence on Waiiau 9's twin unit, Waiiau 10, this quarter. Depreciation expenses were \$2.1 million higher largely due to 2004 plant additions, including the Keahole CT-4 and CT-5 generating units and a new underground fuel pipeline.

Edgar Filing: HAWAIIAN ELECTRIC INDUSTRIES INC - Form 8-K

Our bank's net income rose 12% in the first quarter of 2005 compared with the first quarter of 2004, benefiting from Hawaii's strong economy, said Clarke.

Bank net income increased to \$17.8 million from \$15.9 million for the same quarter last year. The bank's earnings benefited from strong growth in both deposits and loans, continued good loan quality, the reversal of loan loss reserves, and an increase in interest on mortgage-related securities, said Clarke.

The interest rate spread was 3.29% in the first quarter of 2005, compared with 3.05% in the first quarter of 2004, helped primarily by the increase in interest on mortgage-related securities. Margin compression remained a challenge for the bank as the yield curve continued to flatten. However, loan growth funded by continued low-cost core deposits helped improve the spread.

The bank reversed loan loss reserves associated with a large delinquent commercial loan which was repaid in full, partially offset by provision to the allowance for loan losses for loan growth. The net reversal of \$3.1 million in the first quarter of 2005 exceeded the reversal of \$1.6 million for the first quarter of 2004.

General and administrative expenses for the quarter ended March 31, 2005 increased by \$4.8 million, or 13%, from the same period in 2004, primarily due to a reserve for interest related to income taxes as a result of a recent IRS examination, expenses associated with SOX compliance efforts and higher pension costs.

A higher effective tax rate applied to bank income in the first quarter of 2005, compared with the first quarter of 2004, because the bank no longer applies the 70 percent dividends received deduction to dividends it receives from its real estate investment trust subsidiary in calculating its state franchise tax liability.

In December 2004, the bank's preferred stock owned by HEI was converted to common equity. Accordingly, preferred stock dividends were lower by \$1.4 million in the first quarter of 2005, compared with the same quarter of 2004.

The holding and other companies' results were \$(6.1) million in the first quarter of 2005 versus \$(5.0) million in the first quarter of 2004. The decrease in quarter-over-quarter results was due in part to the reduction of preferred dividends from the bank as described above. This decrease was partially offset by lower interest expense.

HEI will hold its annual shareholders' meeting at 9:30 a.m., on Tuesday, April 26, in Honolulu, Hawaii to elect four Class III directors and a Class II director and the Company's independent auditor.

HEI supplies power to over 400,000 customers or 93% of the Hawaii electric public utility market through its electric utilities, Hawaiian Electric Company, Hawaii Electric Light Company and Maui Electric Company, and provides a wide array of banking and other financial services to consumers and businesses through American Savings Bank, the state's third largest financial institution based on asset size.

Forward-Looking Statements

This release may contain forward-looking statements, which include statements that are predictive in nature, depend upon or refer to future events or conditions, and usually include words such as expects, anticipates, intends, plans, believes, predicts, estimates or similar expressions. In addition, any statements concerning future financial performance (including future revenues, expenses, earnings or losses or growth rates), ongoing business strategies or prospects and possible future actions, which may be provided by management, are also forward-looking statements. Forward-looking statements are based on current expectations and projections about future events and are subject to risks, uncertainties and assumptions about HEI and its subsidiaries, the performance of the industries in which they do business and economic and market factors, among other things. These forward-looking statements are not guarantees of future performance.

Forward-looking statements in this release should be read in conjunction with the Forward-Looking Statements and Risk Factors discussion (which is incorporated by reference herein) set forth on page vi of HEI's Form 10-K for the fiscal year ended December 31, 2004, and in HEI's future periodic reports that discuss important factors that could cause HEI's results to differ materially from those anticipated in such statements. Forward-looking statements speak only as of the date of this release.
